An investment in Securities issued under the Programme involves certain risks. For a discussion of these risks, see "Risk Factors" beginning on page 29.

This Base Prospectus has been approved by the Central Bank of Ireland (the "**Central Bank**") as competent authority under Regulation (EU) 2017/1129 of the European Parliament and of the Council, as amended (the "**Prospectus Regulation**"). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval should not be considered as an endorsement of the Issuer nor as an endorsement of the quality of the Securities that are the subject of this Base Prospectus. Such approval relates only to the Securities which are to be admitted to trading on a regulated market for the purposes of Directive 2014/65/EU, as amended ("**MiFID II**") and/or which are to be offered to the public in any Member State of the European Economic Area (the "**EEA**"). Investors should make their own assessment as to the suitability of investing in the Securities. This Base Prospectus is valid for a period of twelve months from the date hereof. For the avoidance of doubt, the Issuer shall have no obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy when this Base Prospectus is no longer valid. This Base Prospectus comprises three base prospectuses (one for each Issuer, each of which referred to herein as the "**Base Prospectus**") for the purposes of Article 8 of the Prospectus Regulation.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") for Securities issued under the Programme within twelve months after the date hereof to be admitted to the Official List of Euronext Dublin (the "**Official List**") and trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of MiFID II. Application may also be made for certain Securities issued under the Programme to the Luxembourg Stock Exchange to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. Application may also be made for certain Securities issued under the Programme to Euronext to be listed and/or admitted to trading on Euronext Paris ("**Euronext Paris**"). The regulated market of Euronext Paris is a regulated market for the purposes of MiFID II. The Securities may also be admitted to trading (i) on the multilateral trading facility of securitised derivatives financial instruments, organised and managed by Borsa Italiana S.p.A. (the "**SeDeX**"), (ii) on the multilateral trading facility of EuroTLX managed by Borsa Italiana S.p.A. ("**EuroTLX**") and (iii) on the multilateral trading facility of Euronext Access Paris operated by Euronext Paris ("**Euronext Access Paris**"), being understood that the admission to trading on SeDeX, EuroTLX or Euronext Access Paris and/or any other multilateral trading facilities will not be done under the Prospectus Regulation passporting regime. The applicable Final Terms will specify whether or not application will be made for the Securities to be listed and/or admitted to trading on Euronext Dublin and/or the Luxembourg Stock Exchange and/or Euronext Paris and/or SeDeX and/or EuroTLX and/or Euronext Access Paris.

The Programme provides that Securities may be listed or admitted to trading (as the case may be) on such other or further stock exchange(s) or market(s) or multilateral trading facility(ies) as may be agreed between the

relevant Issuer, the Guarantor (where applicable) and the relevant Dealer (as defined in "Plan of Distribution"). Unlisted Securities or Securities not admitted to trading on any trading venue may also be issued. This Base Prospectus comprises three base prospectuses (one for each Issuer, each of which referred to herein as the "Base Prospectus") for the purposes of the Prospectus Regulation.

The Central Bank may, at the request of the relevant Issuer, send to the competent authority of another European Economic Area member state (i) a copy of this Base Prospectus and (ii) a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that this Base Prospectus has been drawn up in accordance with the Prospectus Regulation (an "**Attestation Certificate**"). The language of the prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

Notice of the aggregate notional amount of Securities (if applicable), remuneration (if any) payable in respect of Securities, issue price of Securities and any other terms and conditions not contained herein which are applicable to each Tranche (as defined below) of Securities will be set out in the final terms relating to the Securities (the "**Final Terms**") which will be delivered to the Central Bank and, with respect to Securities to be listed on the Official List of Euronext Dublin, will be delivered to Euronext Dublin and, with respect to Securities to be listed on any other or further Stock Exchange, will be delivered to the relevant Stock Exchange.

The terms and conditions of the Securities to be issued under the Programme (see "Terms and Conditions of the Securities" below) (the "**Terms and Conditions**" or the "**Conditions**") will be completed by the Final Terms.

The Final Terms may specify that (a) Charged Agreement/Collateral Arrangements apply to the Secured Securities or (b) Collateral Arrangements Only apply to the Secured Securities. In the case of the Charged Agreement/Collateral Arrangements, the Final Terms will specify details of the Charged Agreement(s) under which the MBFL and the specified Counterparty will have payment and/or delivery obligations from time to time and this may lead to adjustments to the Collateral Assets from time to time. The Charged Agreement(s) may comprise a Transfer Agreement and a Credit Support Document specified in the Final Terms. In the case of Collateral Arrangements Only, MBFL may have the right or obligation to adjust the Collateral Assets from time to time but there will be no Charged Agreement unless otherwise specified in the Final Terms.

The Securities have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws, and may not be offered or sold within the United States or to, or for the account or benefit of, any U.S. person (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Securities will be offered and sold in offshore transactions outside the United States in reliance on Regulation S under the Securities Act. The Securities will be in bearer form and as such are subject to certain U.S. tax law requirements.

Amounts payable under the Securities or assets deliverable under the Securities may be determined by reference to EURIBOR, SONIA, SOFR, €STR, SARON or CMS which are respectively provided by the European Money Markets Institute ("**EMMI**") for EURIBOR, the Bank of England for SONIA, the Federal Reserve Bank of New York for SOFR, the European Central Bank for €STR, SIX Swiss Exchange AG for SARON and ICE Benchmark Administration Limited ("**ICE**") for CMS. At the date of this Base Prospectus, EMMI has been authorised as a

regulated benchmark administrator pursuant to Article 34 of Regulation (EU) 2016/1011 (the “**EU BMR**”) which forms part of the domestic law in the United Kingdom by virtue of the European Union (Withdrawal Act) 2018 (the “**UK BMR**”) (together the “**BMR**”) and appears on (i) the public register of administrators established and maintained by the European Securities and Markets Authority (“**ESMA**”) pursuant to Article 36 of the EU BMR or (ii) the register of administrators and benchmarks established and maintained by the Financial Conduct Authority (“**FCA**”) pursuant to Article 36 of the UK BMR. As at the date of this Base Prospectus SARON is provided by SIX Swiss Exchange AG and is endorsed for use in the European Union by SIX Financial Information Nordic AB. As at the date of this Base Prospectus, SIX Financial Information Nordic AB appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU BMR. As at the date of this Base Prospectus, ICE (as administrator of CMS), the Bank of England (as administrator of SONIA), the Federal Reserve Bank of New York (as administrator of SOFR), and the European Central Bank (as administrator of €STR) do not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU BMR. As far as the Issuers are aware, the transitional provisions in Article 51 of the EU BMR apply, such that ICE (as administrator of CMS) is not currently required to obtain authorization/registration (or, if located outside the European Union, recognition, endorsement or equivalence). As far as the Issuer are aware, SONIA, SOFR and €STR do not fall within the scope of the EU BMR by virtue of Article 2 of that Regulation.

Amounts payable under the Securities or assets deliverable under the Securities may also be determined by reference to an index or a combination of indices (other than EURIBOR, SONIA, SOFR, €STR, SARON or CMS). Any such index may constitute a benchmark for the purposes of the BMR. If any such index does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in (i) the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU BMR or (ii) the register of administrators and benchmarks established and maintained by the FCA pursuant to Article 36 of the UK BMR. Not every index will fall within the scope of the EU BMR or the UK BMR. Furthermore, transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms. The registration status of any administrator under the EU BMR or the UK BMR is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the applicable Final Terms to reflect any change in the registration status of the administrator.

By investing in the Securities each investor represents that:

- (a) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to invest in the Securities and as to whether the investment in the Securities is appropriate or proper for it based upon its own judgement and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the relevant Issuer or the Dealers as investment advice or as a recommendation to invest in the Securities, it being understood that information and explanations related to the terms and conditions of the Securities shall not be considered to be investment advice or a recommendation to invest in the Securities. *In connection with the issue of any Tranche of Securities under the Programme, the Dealer or Dealers (if any) named as the stabilising manager(s) (the "**Stabilising Manager(s)**") (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) in accordance with all applicable laws and rules.*

*Securities may be issued on a continuous basis in series (each a "Series") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Securities of each Series being intended to be interchangeable with all other Securities, as the case may be, of that Series. Each Series may be issued in tranches (each a "**Tranche**") on different issue dates. The specific terms of each Tranche (which save in respect of the issue date, issue price, first payment of remuneration and aggregate notional*

amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be set forth in the relevant Final Terms, the form of which is set out in "Form of Final Terms" below.

PRIIPs/ IMPORTANT - EEA RETAIL INVESTORS - If the Final Terms in respect of any Securities includes a legend entitled "**Prohibition of Sales to EEA Retail Investors**", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). Consequently, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

EEA MIFID II PRODUCT GOVERNANCE / TARGET MARKET The Final Terms in respect of any Securities will include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate and may also include information on the product approval process. Any person subsequently offering, selling or recommending such Securities (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Distributor subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise

neither the Arranger nor the Distributors nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

UK MiFIR product governance / target market – *The Final Terms in respect of any Security will include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a “Distributor”) should take into consideration the target market assessment; however, a Distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in UK MiFIR Product Governance Rules, any Distributor subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Distributors nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.*

*Certain Tranches of Securities with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may, subject as provided below, be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to in this Base Prospectus as a "**Public Offer**". Subject as provided below, this Base Prospectus has been prepared on a basis that permits Public Offers of Securities in Member States of the European Economic Area. Any person making or intending to make a Public Offer of Securities in any Member State of the European Economic Area (each, a "**Relevant Member State**") may only do so if this Base Prospectus has been approved by the competent authority in that Relevant Member State (or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State) and published in accordance with the Prospectus Regulation, provided that the Issuer has consented to the use of this Base Prospectus in connection with such offer as provided under "Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)" and the conditions attached to that consent are complied with by the person making the Public Offer of such Securities.*

Even though the Issuers have elected (or will elect) to passport this Base Prospectus into the Host Member States, it does not mean that it will choose to make any Public Offer in the Host Member States. Investors should refer to the Final Terms for any issue of Securities to see whether the Issuer has elected to make a public offer of Securities in either the Republic of Ireland or a Host Member State (each a "**Public Offer Jurisdiction**").*

*Each Issuer accepts responsibility in the Public Offer Jurisdictions for which it has given consent referred to herein for the content of this Base Prospectus in relation to any person (an "**Investor**") to whom an offer of any Securities is made by any financial intermediary to whom that Issuer has given its consent to use this Base Prospectus (such financial intermediary, an "**Authorised Offeror**"), where the offer is made during the period for which that consent is given and is in compliance with all other conditions attached to the giving of the consent, all as mentioned in this Base Prospectus. However, the Issuers do not have any responsibility for any of the actions of an Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.*

*This Base Prospectus has not been approved by the UK Financial Conduct Authority (the "**FCA**") and has not been prepared on a basis that permits a Public Offer (within the meaning of the UK Prospectus Regulation) in the UK. The expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018.*

Any offer made without the consent of the relevant Issuer or the Guarantor (as applicable) is unauthorised and neither the relevant Issuer nor the Guarantor (as applicable), nor, for the avoidance of doubt, any of the Dealers accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered Securities by a person which is not an Authorised Offeror, the Investor should check with such person whether anyone is responsible for this Base Prospectus for the purpose of the relevant Public Offer and, if so, who that person is.

If an Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents, the Investor should take legal advice.

In particular, pursuant to the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee, to the extent the Guarantor is incorporated in the Republic of Italy and to the extent under the applicable law in force at the relevant time a cap to the maximum amount to be guaranteed is required, the Guarantor shall only be liable up to an amount which is the aggregate of 110 per cent. of the aggregate notional amount of any Tranche of the Securities (in each case as specified in the applicable Final Terms) and 110 per cent. of the remuneration on such Securities due but not paid as at any date on which the Guarantor's liability falls to be determined. In addition, pursuant to the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee, the Guarantor has also undertaken to issue an additional guarantee in an amount equal to any liability exceeding the maximum amount mentioned above in relation to any Tranche.

Such adjustment may involve MBFL or Counterparty topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

RISK FACTORS

The Issuers and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under the Securities and the Guarantee issued under the Programme. Most of these factors are contingencies which may or may not occur. In addition, factors which are material for the purpose of assessing the market risks associated with Securities issued under the Programme are also described below.

The Issuers and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Securities issued under the Programme, but the inability of the Issuers and the Guarantor to pay interest, principal or other amounts on or in connection with any Securities or the Guarantee may occur for other reasons which may not be considered significant risks by the Issuers and the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be.

The purchase of Securities involves substantial risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Securities. Before making an investment decision, prospective investors should ensure that they understand the nature of the Securities and the extent of their exposure to risks and that they consider carefully, in the light of their own financial circumstances, financial condition and investment objectives, all the information set forth in this Base Prospectus and as supplemented from time to time.

No person has been authorised to give any information or make any representation not contained in or not consistent with the Base Prospectus and/or the Final Terms, or any other information supplied in connection with the Securities and, if given or made, such information or representation must not be relied upon as having been authorised by the relevant Issuer or the Dealer.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views, based upon their own judgement and upon advice from such financial, legal and tax advisers as they have deemed necessary, prior to making any investment decision.

Words and expressions defined in "Form of Final Terms", "Terms and Conditions" or elsewhere in this Base Prospectus have the same meaning in this section. Prospective investors should read the entire Base Prospectus. In this section, "Issuer" refers to Mediobanca and/or to Mediobanca International and/or to MBFL as appropriate.

1. Material Risks that are specific to the Issuers and that may affect the Issuers' ability to fulfil their obligations under the Securities

The risks below have been classified into the following categories:

- (A) *Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate;*
- (B) *Risks related to the financial situation of the Issuers and of the Mediobanca Group;*
- (C) *Risks related to legal and regulatory scenario.*

(A) Risks related to the business of the Issuers and the Mediobanca Group and to the sector in which they operate.

Systemic risks related to the economic/financial crisis, the impact of the current uncertainties in the macroeconomic scenario and the continuation of the Russian-Ukrainian conflict plus the tensions in the Middle East

The operations, earnings capacity and the stability of the sector of the Issuers and the Mediobanca Group may be influenced by its/their credit standing, the general economic situation of Italy and the entire Eurozone, trends on financial markets and the economic, social and financial consequences generated by the Russia/Ukraine conflict and the tensions in the Middle East due to the rekindling of the conflict between Israel and Hamas. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuers operate in particular will be especially important.

The macroeconomic scenario currently reflects significant areas of uncertainty in relation to: (a) the Russian-Ukrainian conflict; (b) the conflict between Israel and Hamas; (c) the structural reforms being undergone by China; (d) the possible joint actions by the main rating agencies and (e) trade tensions deriving from the decision of the United States administration to impose sweeping tariffs on imports from a wide range of countries, including the European Union and China, and countermeasures adopted by the impacted countries.

With reference to point (a), because of the persistence of the conflict, the Russian government is adopting countermeasures to the sanctions imposed by the EU which consist of economic and financial measures, including Decree no. 198 of 16 August 2024, to grant Russian citizens access to their own funds that are currently still subject to sanctions and therefore frozen. In particular, the such decree, in addition to another measure issued in 2022, allows Russian residents and the entities controlled by them to charge their own income from investments in securities to parties resident in other countries not subject to the same restrictions. The amounts thus charged impact on the earnings of both the Issuers and the Group.

With reference to point (b), the tensions generated by the conflict between Israel and Hamas are changing continuously; the worsening of the conflict, and the escalation throughout the entire Middle Eastern region, which could lead to conflict on a wider scale, would have negative consequences for the whole Western market, and therefore also on Mediobanca's earnings situation.

With reference to point (c), the geopolitical tensions between the Western bloc of countries and China seem to have stabilized over the second half of the last financial year. However, further structural reforms imposed by the Chinese government could give rise to macroeconomic and market consequences, due to the impact on the trend in the demand for exports, which in turn would affect both inflation and the Issuers' and the Group's own growth prospects.

In relation to point (d) above, any joint actions by the main rating agencies which result in an assessment of the creditworthiness of the Republic of Italy below the level of investment grade, may have a negative impact on the income statement, balance sheet and financial position of Mediobanca and/or the Group.

With reference to point (e), there is a risk of a full-scale trade war with severe disruptions in global supply chains and reduced international trade volume. These developments may weaken global economic growth, discourage

investment and create further inflationary pressures which in turn would the Issuers' and the Group's own growth prospects.

Accordingly, as at the date of this Base Prospectus, the deterioration or continuation of the conflict, and the further tensions between the Western world and China, coupled with the possibility of combined actions by the rating agencies and the trade war, risks creating negative repercussions on the earnings, capital and financial situation of the Issuers and/or of the Group.

Credit and counterparty risk

The business activities of both Mediobanca and the Group and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties.

Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.

The Group's portfolio has no material direct exposures versus the Russian Federation, Ukraine, Belarus or to the Middle East.

The exposures as at 30 June 2024 confirmed those of the previous year and concerned approximately €13 million in Corporate and Investment Banking, €366.7 million in Private loans (€307 million as at 30 June 2023) and €92 million in Retail Banking (substantially unchanged).

The Corporate and Investment Banking direct exposure was provided by Mediobanca International and is classified at Stage 3 but is covered by insurance (Sace). Private Banking exposures concern 65 households of CMB Monaco customers of Russian or Ukrainian nationality, most of whom reside in Europe or in any case abroad (only 5 households in reference to persons residing in the Russian Federation remain for €6.7 million); however, these are largely loans secured by prestigious properties in the Monaco – Côte d'Azur area and/or by financial instruments deposited with Mediobanca (total sureties established with reference to such exposures entail a limited Loan to Value, under 40%).

Retail Banking exposures concerned Compass clients (€61.8 million) and Mediobanca Premier clients (€30 million), classified according to their Russian and Ukrainian nationality, even though residing in Italy in nearly all cases.

As at 30 June 2024, the Mediobanca Group had a gross NPL ratio (i.e. gross non-performing loans as a percentage of gross total customer loans) of 2.1%, compared with 2.5% for the same ratio as at 30 June 2023.

As at 30 June 2024, gross non-performing loans had decreased from €1,582.1 million (as at 30 June 2023), to €1,336.7 million, mainly due to the sale of NPLs managed by Revalea (which totalled €242.3 million as at 30 June 2023); therefore, the impact stood at 2.5% of cash credit exposures to customers (2.9% as at 30 June 2023).

The coverage ratio increased (69.1% as at 30 June 2024 against 61.2% as at 30 June 2023), thus leading to a reduction in net non-performing loans (from €613.2 million as at 30 June 2023 to €413.7 million as at 30 June

2024). As at 30 June 2023, gross non-performing assets stood at €1,339.7 million, without including the former Revalea NPLs, with an impact of 2.5% on loans; the coverage ratio was 72.1%.

With regard to loan concentration, as at 30 June 2024, gross aggregate exposures (including equity investments and those deriving from market risks) exceeding 10% of the CET1 regulatory capital (c.d. “*Patrimonio di Vigilanza di Classe I*”) concerned ten groups of connected customers (two more than last financial year) and totalled €12.6 billion (€8.4 billion, taking collateral and weightings into account), compared to €9.4 billion (€7.1 billion, taking collateral and weightings into account) as at 30 June 2023. The ten positions involve two insurance companies, and eight banking groups.

Risks related to the 2023-26 Strategic Plan

On 24 May 2023, Mediobanca’s Board of Directors approved its 2023-26 Strategic Plan *One Brand – One Culture* (the “**Strategic Plan**”), which lays the foundations for the consolidation of the unique Private & Investment Banking model and identifies a series of actions across all divisions to contribute to a more sustainable future in terms of reducing environmental impacts, attention to inclusion and diversity and community support.

As of the date of this Base Prospectus, the objectives of the Strategic Plan to be achieved (the “**Plan Objectives**”) are confirmed and the Strategic Plan is valid.

As of the date of this Base Prospectus, the Issuers’ capability to implement the actions and to meet the Plan Objectives depends on a number of circumstances, some of which are beyond the Issuers’ control, including, but not limited to, the macroeconomic scenario, which could be compromised by the consequences deriving from the Russia/Ukraine conflict and from tensions in the Middle East and the trade tensions, the changes in the regulatory framework, and the effects of specific actions or concerning future events which the Issuers are only partially able to influence. Furthermore, there is no certainty that the actions provided for in the Strategic Plan will result in the benefits expected from implementation of the Plan Objectives; if such benefits fail to materialize, the results expected by Mediobanca may differ, even materially, from those envisaged in the Strategic Plan.

Market risk

The Issuers are subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuers as a result of movements in market variables (including, but not limited to, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuers and/or the Group. Mediobanca calculates the Value at Risk (“**VaR**”) on a daily basis. VaR is a measurement of the market risk associated with a financial asset, of the positions held in its trading book, assuming a disposal period of a single trading day and a confidence level of 99%. The other sensitivities (known as the “*Greeks*”) are measured in relation to risk factors such as interest rates, share prices, exchange rates, credit spreads, inflation and volatility. Stress testing versus the main risk factors is also carried out, in order to pick up the impact which significant movements in the main market variables might have, and *ad hoc* indicators are implemented to capture risks not measured by VaR.

Such fluctuations may be caused by political, economic and market considerations, the availability and cost of capital, the level and volatility of share and bond prices, the price of commodities, interest rates, credit spreads,

the value of currencies and other market indicators, innovations and developments in the field of technology, the availability and cost of credit, inflation, and investors' perception of and confidence in financial markets.

In the past fiscal year, market fluctuations were mainly driven by interest rates and monetary policy expectations.

In particular, volatility on the stock markets remained high in the first four months of the financial year: the main stock indexes showed fluctuations in returns ranging between +6% and -6% due to the uncertainty of the macroeconomic and geopolitical context, the upside pressures on oil prices, caused by lower supply from producing countries (primarily Saudi Arabia and Russia) and tensions in the Middle East due to the rekindling of the conflict between Israel and Hamas.

Since November 2023, there has been a general decline in interest rates and the stock market has followed a general upward trend due to the less aggressive than expected behaviour of monetary policy authorities. Finally, in June 2024 there was a partial recovery of volatility generated by the outcome of the European elections of 8 and 9 June 2024 and the subsequent elections of the French Parliament.

The aggregate value-at-risk on the trading book for the year ended on 30 June 2024 ranged from a low of €3.2 million in November 2023 to a high of €10 million recorded in late December 2023. The average reading of €5.9 million was 30% lower than the previous financial year's average (€8.4 million). After the peak, VaR progressively dropped to €4.6 million at the end of the year, below the average of the financial year.

Operational risk

Operational risk is defined as the risk of incurring losses as a result of the inadequacy or malfunctioning of procedures, staff and IT systems, human error or external events.

The Issuer is exposed to different types of operational risk. The event types most impacted by operational risk are originated by products sold to clients, commercial practices, the execution of operating processes, and frauds committed from outside the Group.

Although the Mediobanca Group has adopted a system for recording, assessing and monitoring operational risks with a view to preventing and containing them, it should be noted that unpredictable events or events otherwise beyond the control of the Issuers could occur, which could impact negatively on the Issuers' and the Group's operating results, activities and earnings, capital and/or financial situation, as well as on their reputation.

The operating losses recorded in the financial year accounted for approx. 0.33% of total income (compared to 1.2% as at 30 June 2023). Most of the operating losses for the year arose from the event type "Clients, products and business practices", which includes costs deriving from disputes or litigation with Consumer Banking and Retail customers concerning financial terms and conditions or interest rates applied to financing products. Although no material losses were generated, there was an increase in certain instances (classes) of operational risk, such as IT & cyber risk and outsourcing risk.

Operational risk does not include compliance risk, strategic risk or reputational risk.

Risks related to climate/environmental changes

The Issuers and the Group are exposed to risks related to climate and environmental change, which includes two main risk factors, referred to as physical risk and transition risk. Physical risk can have an adverse effect on both the Group's assets (e.g. properties being damaged following severe weather events) and on those of its clients, with potential repercussions on, for example, assets used as collateral for loans granted. Transition risk can generate possible adverse repercussions on the performances of clients impacted by the transition to a low carbon emission-based and more sustainable economy.

As part of the 2023-2026 "One Brand - One Culture" Strategic Plan, the Mediobanca Group asserted its commitment on climate and environmental issues to support its clients in their ESG transition strategies by providing specialized advisory activities and by allocating capital with an ESG focus. The new strategic plan contains specific targets relating to ESG factors. The intention to achieve carbon neutrality by 2050 has been confirmed, in addition to reducing the carbon intensity of loans by 18% by the end of 2026 and by 35% by the end of 2030.

During the last financial year, Mediobanca has introduced assessments of the capital adequacy to address climate and environmental risks to both the capital planning process (which includes the *Internal Capital Adequacy Assessment Process*, ICAAP) and the liquidity reserves as part of the Group's Internal Liquidity Adequacy Assessment Process (ILAAP). Such forward-looking analysis of climate and environmental risks is aimed at assessing the impact on the Group's liquidity over a 1-3 year time frame.

It should be noted that the Group does not have significant exposures vis-à-vis counterparties with high climate and environmental risk (as of 30 June 2024, the exposure to high-risk counterparties for the Corporate Investment Banking loan and investment portfolio was less than 1% of the aforementioned portfolio).

The possibility of the adoption of new policies for climate and environmental risk, the future development of the areas of intervention in ESG and sustainable growth terms, and changing consumer preferences and market confidence impacting adversely on the operating results and on the earnings, capital and/or financial situation of the Issuers and the Group cannot be ruled out.

IT and Cyber Risk

IT risk is defined as the risk of incurring losses in terms of earnings, reputation and market share in relation to the use of the company's information system and in relation to malfunctions in terms of hardware, software and networks.

Cyber risk is defined as a type of IT risk relating to cyber security aspects and involving risks deriving from cyber attacks.

It is also worth noting that, with update no. 40th of 3 November 2022, the Circular No. 285 was amended in order to implement the EBA Guidelines on ICT and security risk management. The Group, in compliance with the requirements of the abovementioned update of Circular No. 285, set up a new second-level "*ICT & Security Risk*" unit (the "**Unit**") within the *Non-Financial Risks Unit* (being part of the *Group Risk Management* unit). The Unit is responsible for monitoring and controlling IT and security risks, as well as verifying the adherence of IT operations to the IT and security risk management system. On 27 June 2023 Mediobanca submitted to the Bank of Italy a communication describing the planned steps to be taken and the arrangements to be implemented to be

compliant with these recently introduced changes. The IT risk has been affected, during the last financial year and in terms of exposure, by elements such as increased dependence on IT systems, the number of users who use virtual channels, the quantities of data managed which requires protection and the quality of which must be guaranteed, and the use being made of IT services provided by third parties, as well as external elements such as ongoing conflicts and the adoption of new technological systems, that extend the attack surface by introducing new specific threats. In consideration of this context, ICT and security risk is subject to increasing regulatory attention (i.e. DORA Regulation - Digital Operational Resilience Act, Regulation 2022/2554/EU, applicable from January 2023) and to the attention of supervisors (i.e. Cyber Resilience Stress Testing), which require the continuous development of the Internal Control System.

It is likely that the factors described above, characterised by a rapid evolution, may lead to a growing and significant exposure to such risks for the Issuers and the Group with impacts on their financial position and business model.

(B) Risks related to the financial situation of the Issuers and of the Mediobanca Group

Liquidity Risk

Liquidity risk is defined as the risk of each Issuer not being able to meet its own payment obligations as and when they fall due, as a result of an inability to raise the necessary funds on the market (funding liquidity risk), or to difficulties in selling its own assets to meet them except by making a loss on them (market liquidity risk). Liquidity risk has different timing profiles, as follows: (i) the current or potential of each Issuer being unable to manage its own liquidity needs effectively in the short-term (so called liquidity risk); and (ii) the risk of each Issuer not having stable sources of funding over the medium and long term, making it unable to meet its own financial obligations without an excessive increase in the cost of funding (so called funding risk).

The Issuers' liquidity may be affected by: (i) volatility on domestic and International markets; (ii) adverse changes in the general economic scenario; (iii) market situations, such as it being temporarily impossible to access the market by issuing shares; and (iv) changes in the relevant Issuer's credit rating, i.e. its degree of earnings/financial reliability, which affects market liquidity risk as described above. All these circumstances could arise as a result of causes independent of the relevant Issuer, such as market turbulence, impacting negatively on its risk profile.

The Liquidity Coverage Ratio ("**LCR**") as at 30 June 2024 was equal to 159% (compared to 179.5% as at 30 June 2023), including the prudential estimate of "additional liquidity outflows for other products and services" in accordance with Article 23 of Commission Delegated Regulation (EU) 2015/61; i.e. higher than the minimum requirement of 100% set by the regulators as of 1 January 2018. The LCR indicator was temporarily raised in June 2023 compared to the Group's average - and then normalised in the following quarter - due to the Group's decision to anticipate funding transactions relating to the following financial year. The Net Stable Funding Ratio ("**NSFR**") as at 30 June 2024 was equal to 116.8% (compared to 119.3% as at 30 June 2023), i.e. higher than the minimum requirement of 100% introduced starting from 2021.

The LCR and NSFR are liquidity indicators. The LCR serves to maintain a liquidity buffer that will enable the Issuers to survive for a period of thirty days in the event of exceptionally stressful circumstances, while the NSFR records structural liquidity, ensuring that assets and liabilities retain a sustainable structure in terms of maturities.

The Group's participation in targeted longer-term refinancing operations ("TLTROs") (*i.e.*, operations whereby credit institutions in the Eurozone can receive finance for up to 3 years on advantageous terms, in order to improve credit market conditions and stimulate the real economy) with the European Central Bank (the "ECB") as at 30 June 2024 amounted to approximately €1.3 billion (€5.6 billion as at 30 June 2023). It should be noted that for the application of the TLTRO refinancing strategy, approved in the Strategic Plan, with the precautionary refinancing of the maturity stock to safeguard the indicators of liquidity and stable funding (LCR and NSFR), the Issuer was able to repay approximately €4.3 billion of the ECB programme.

Although Mediobanca constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of Mediobanca, may have negative effects on the activities and the economic and/or financial situation of Mediobanca and the Group. In particular, in light of the findings set forth in the EBA third report on LCR and NSFR monitoring¹, Mediobanca remains attentive to the evolution of the funding market to ensure that its ordinary refinancing strategies and normal business are not affected by the cumulative effect of the maturity of all the remaining central bank funding and additional outflows due to the impact of adverse market liquidity scenarios.

Sovereign exposure risk

Mediobanca is exposed to movements in government securities, in particular to Italian sovereign debt securities.

As at 30 June 2024, the aggregate exposure to sovereign states held by the Mediobanca Group amounted to €10.3 billion, of which €7.16 billion booked at fair value, and €3.2 billion at amortized cost, with €1 billion in securities held by other banks in the Mediobanca Group. On the same date, the aggregate exposure to Italian government securities was €5.5 billion, representing 36.8% of the Group's total financial assets and 5% of the total assets (compared to 6% as at 30 June 2023). The average duration of the exposures was approximately two years. As at 30 June 2023, the same exposure reflected a book value of €7 billion (€3.6 billion recognized at fair value and €3.4 billion at amortized cost). The short duration of the securities portfolio together with the sudden rise in market rates allowed the Group to increase the portfolio yield by approximately 140 bps.

Tensions in sovereign debt securities, with reference in particular to any deterioration in the spread on Italian government securities relative to those of other European member states, and any combined actions by the leading rating agencies that would result in the rating for Italian sovereign debt being downgraded to below investment grade level, may impact negatively on the Mediobanca's portfolio, its capital ratios and liquidity position.

Risk related to court and arbitration proceedings

The risk deriving from court and arbitration proceedings for Mediobanca consists of a reputational risk, *i.e.* the damages that Mediobanca could incur if one or more of the rulings in the court and arbitration proceedings in which Mediobanca is involved generates a negative perception of Mediobanca and/or the Group on the part of clients, counterparties, shareholders, investors or the supervisory authorities.

¹ EBA Report on "Monitoring of liquidity coverage ratio and net stable funding ratio implementation in the EU" of 15 June 2023.

As at the date hereof, Mediobanca and its Group companies are not, or have not been, involved in proceedings initiated by the public authorities, legal disputes or arbitrations which could have or which have, in the recent past, had significant consequences for the Mediobanca's or the Group's financial position or profitability.

It is believed that the provision for risks and charges (which as at 30 June 2024 amounted to €137.7 million), is sufficient to cover any charges relating to the actions that have been brought against Mediobanca and the other Group companies, mainly having tax nature, and to cover other contingent liabilities (as at 30 June 2023 the provision included €161.1 million for litigation and other contingent liabilities).

(C) *Risks related to legal and regulatory scenario*

Risks related to changes in banking sector regulations

Mediobanca is subject to extensive and strict EU and Italian regulation, which concerns and comprises supervisory activity by the competent authorities (i.e. the ECB, Bank of Italy and Consob). Mediobanca International is subject to extensive and strict EU and Italian regulation, which concerns and comprises supervisory activity by the competent authorities (i.e. the ECB and the CSSF). Such regulations - and this also applies to the supervisory activity - are subject to ongoing revisions and changes in practice. The applicable regulations govern the sectors in which banks may operate, in order to safeguard their stability and solidity, limiting the exposure to risk. In particular, Mediobanca and the banking companies of the Group are required to comply with the capital adequacy requirements instituted by the EU regulations and by Italian law and Luxembourg law. Furthermore, as a listed issuer, Mediobanca is also required to comply with the regulations provided by Consob in this area on subjects such as, *inter alia*, anti-money-laundering, usury and protection of consumer rights.

Any changes to the regulations and/or how they are interpreted and/or applied by the competent authorities, could result in additional charges and obligations to be fulfilled by Mediobanca and Mediobanca International, which could impact negatively on such Issuers' operating results and its earnings, capital and financial situation.

Basel III

Starting from 1 January 2014, a part of the supervisory rules has been amended on the grounds of the directions deriving from the so-called Basel III agreements, mainly with the purpose to significantly strengthen the minimum capital requirements, the restraint of the leverage degree and the introduction of policies and quantitative rules for the mitigation of the liquidity risk of the banks.

As for the capital requirements, the Basel III agreements require banks starting from 2019 to have: (i) a Common Equity Tier 1 (CET 1) ratio at least equal to 7% of the risk-weighted assets, a (ii) Tier 1 Capital ratio equal at least to 8.5% and (iii) a Total Capital ratio equal at least to 10.5% of said risk-weighted assets (such minimum levels include the so-called "capital conservation buffer").

Mediobanca is also subject to direct supervision of the ECB; as part of the *Single Supervisory Mechanism* and following the Supervisory Review and Evaluation Process ("**SREP**") the ECB provides, on an annual basis, a final decision of the capital requirement that Mediobanca must comply with at consolidated level (the "**SREP Decision**").

For the year 2025, Mediobanca received the SREP Decision on 12 December 2024. Starting from 1 January 2025, Mediobanca must therefore comply with the following coefficients:

• Minimum requirement (CRR Article 92)	8.00%
- of which CET1	4.50%
- of which T1	6.00%
- of which Total capital	8.00%
• P2R (SREP Decision)	1.75%
- of which CET1	0.98%
- of which T1	1.31%
- of which Total capital	1.75%
• Systemic risk buffer	0.40%
• Capital conservation buffer (CRD IV)	2.50%
• Countercyclical capital buffer	0.14%
• Buffer O-SII	0.25% ²
• Minimum total CET1 requirement	8.78%
• Minimum total Tier 1 requirement	10.61%
• Minimum total capital requirement	13.05%

The regulations in force also provide for the liquidity ratios that Mediobanca is required to measure and comply with, primarily the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR).

Furthermore, under the Basel III agreements banks are required to monitor their leverage ratios, i.e. the ratio between their Tier 1 capital and overall exposure, pursuant to Article 429 of EU regulation 575/13 (the “CRR”). The objective of this ratio is to limit the amount of debt on banks’ balance sheets.

The Mediobanca Group’s leverage ratio, calculated without excluding exposures to central banks was at 7.1% as at 30 June 2024 (8.4% as at 30 June 2023) due to the reduction of Tier1 capital as well as for the increased exposures.

With reference to Mediobanca’s values, it should be noted that as at 30 June 2024, Risk-Weighted Assets (“RWA”s)³ totalled €47,622 million, lower than the €51,431.5 million reported as at 30 June 2023, and Common

² As from 2025 the ratio fully-loaded will be 0.25%.

Equity Tier 1 (CET1) and Tier 2 equity totalled €8,438 million and €1,215.5 million respectively; the CET1 ratio was 15.2% phase-in (15.9% as at 30 June 2023). The Total Capital ratio decreased from 17.92% as at 30 June 2023 to 17.72 as at 30 June 2024 (16.94% fully-loaded).

With reference to the fully-loaded ratios, and hence to the prudential treatment of the Group's investment in Assicurazioni Generali, the new Basel III regulatory framework definition process, which concluded on 24 April 2024 with the definitive approval of the new version of the EU regulation (CRR III), has made permanent the possibility of weighting the own funds instruments issued by insurance companies at 370%, in lieu of deduction from CET equity, while complying with the concentration limit set (otherwise known as the “Danish Compromise”).

Any deterioration in the above prudential requisites could impact, even significantly, on the integrity and operating performance of the Group.

Other material EU regulations

Other material regulations that could entail a risk related to changes in the regulatory scenario are as follows:

- (i) Regulation 2024/1623/EU of 31 May 2024 (“**CRR III**”), Regulation 2019/876/EU of the European Parliament and of the Council, amending Regulation 575/2013/EU (“**CRR II**”), Directive (EU) 2019/878 of the European Parliament and of the Council, amending Directive 2013/36/EU (“**CRD V**”) and Regulation (EU) 2020/873 (the “**CRR Quick-Fix**”) of the European Parliament and of the Council of 19 June 2020, regarding the leverage ratio, the net stable funding ratio, the MREL requisites, counterparty risk, market risk, exposures to central counterparties, exposures to UCITS, large exposures, reporting requirements and disclosures required of credit institutions; in particular, further regulatory measures to incorporate the Basel III guidance which alter the existing reference framework on capital requirements could affect the earnings, capital and financial situation of the Issuer and the Group;
- (ii) Directive 2014/49/EU (the Deposit Guarantee Schemes Directive) dated 16 April 2014 and Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 (the *Single Resolution Mechanism Regulation*, or “**SRMR**”) these regulations could have a material impact on Mediobanca and the Group's earnings and capital position, as they introduce the obligation for specific funds to be established using financial resources to be provided through contributions payable by credit institutions;
- (iii) Directive 2014/59/EU issued by the European Parliament and Council (the “**Bank Recovery and Resolution Directive**”, or “**BRRD**” for short, recently revised by Directive 879/2019/EU, “**BRRD II**”), on the recovery and resolution of banks and investment companies. The BRRD also introduced the minimum requirement for own funds and eligible liabilities (“**MREL**”), i.e. own funds and liabilities that can be converted to equity via the bail-in mechanism so that if the resolution instrument is applied, the bank concerned will have sufficient liabilities to absorb the losses and ensure that the capital requirements for a bank to be authorized to perform its business are met. For 2024, the Bank of Italy, based on a proposal by the Single Resolution Board (“**SRB**”), updated the Group's MREL requirement

³ Risk-Weighted Assets (RWAs) are calculated using the standard and IRB methods for credit risk; the standard method for market risk, and the basic method for operational risks

to 23.57% of its RWAs (including the Capital Buffer Requirement) and to 5.91% of its exposures for leverage ratio purposes (“**LRE**”), both met.

Mediobanca undertakes to comply with the set of laws and regulations applicable to the Group. Failure to do so, or changes to the regulations and/or to the means of interpreting and/or applying them made by the competent national regulatory authorities could entail possible adverse impacts (including the possibility of legal proceedings being initiated against the Group) on the operating results and on the earnings, capital and financial situation of Mediobanca and the Group.

Risks related to changes in fiscal law

The Issuers are subject to risks associated with changes in tax law or in the interpretation of tax law, changes in tax rates and consequences arising from non-compliance with procedures required by tax authorities. Any legislative changes affecting the calculation of taxes could therefore have an impact on the Issuers’ financial condition, results of operations and cash flow.

With particular reference to Mediobanca, Mediobanca is required to pay Italian corporate income taxes (“**TRES**”) pursuant to Title II of Italian Presidential Decree no. 917 of 22 December 1986 (*i.e.* the Consolidated Income Tax Law, or “**TUIR**”) and the Italian regional business tax (“**IRAP**”) pursuant to Legislative Decree no. 446 of 15 December 1997, and the amount of taxes due and payable by Mediobanca may be affected by tax benefits from time to time available.

Law No. 111 of 9 August 2023, published in the Official Gazette No. 189 of 14 August 2023 (“**Law 111**”), delegates power to the Italian Government to enact, within twenty-four months from its publication, one or more legislative decrees implementing the reform of the Italian tax system (the “**Tax Reform**”). According to Law 111, the Tax Reform will significantly change the taxation of financial incomes and capital gains and introduce various amendments in the Italian tax system at different levels. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with certainty at this stage.

In addition, the implementation of the Directive (EU) 2022/2523 of 14 December 2022 laying down the OECD global minimum taxation rules (Pillar 2) that will take effect beginning in the year 2024, could also have adverse tax consequences for the Issuers.

The information provided in this Base Prospectus may not reflect the future tax landscape accurately. Investors should be aware that the amendments that may be introduced to the tax regime of financial incomes and capital gains could increase the taxation on interest, similar income and/or capital gains accrued or realised under the Notes and could result in a lower return of their investment.

Prospective investors should consult their own tax advisors regarding the tax consequences described above.

The transposition of the Anti-Tax Avoidance Directives in Luxembourg law could have an impact on the tax position of Mediobanca International (including its performance) and on MBFL

As part of its anti-tax avoidance package, and to provide a framework for a harmonised implementation of a number of the BEPS conclusions across the EU, the EU Council adopted Council Directive (EU) 2016/1164 (the “**ATAD 1**”) on 12 July 2016. The EU Council further adopted Council Directive (EU) 2017/952 (“**ATAD 2**” and,

together with the ATAD 1, “**ATAD**”) on 29 May 2017, amending the EU Anti-Tax Avoidance Directive 1, to provide for minimum standards for counteracting hybrid mismatches involving EU member states and third countries.

In this respect, the Luxembourg law dated 21 December 2018 (the “**ATAD 1 Law**”) transposed the ATAD 1 into Luxembourg legislation. Amongst the measures contained in the ATAD 1 Law is an interest deductibility limitation rule.

The interest deduction limitation rule set out by ATAD 1 has been implemented in article 168bis of the Luxembourg income tax law (“**LITL**”) effective as of 1 January 2019, which restrict, for a Luxembourg taxpayer, the deduction of net interest expenses qualifying as “exceeding borrowing costs” to the higher of (i) 30 per cent. of the taxpayer’s EBITDA and (ii) €3 million.

Exceeding borrowing costs are defined as the amount by which the deductible borrowing costs of a taxpayer exceeds the taxpayer’s taxable interest revenues and other economically equivalent taxable income of the taxpayer. Exceeding borrowing costs not deductible in a tax period can be carried forward indefinitely. The same applies to a taxpayer’s excess interest capacity which cannot be used in a given tax period (however, such excess interest capacity can only be carried forward for a maximum period of 5 years).

Financial undertakings, such as credit institutions, are excluded from the scope of the interest limitation rule, hence, considering that Mediobanca International is a credit institution within the meaning of the law dated 5 April 1993, it is not impacted by this interest limitation rule. That being said, MBFL may be impacted by the interest limitation rule.

EU Anti-Tax Avoidance Directives also contain rules relating to so-called hybrid mismatches. Luxembourg implemented the anti-hybrid mismatch rules under ATAD 2 in article 168ter of the LITL with effect as of 1 January 2020, except for the measures related to reverse hybrid mismatches which apply as from fiscal year 2022.

As per article 168ter of the LITL, a hybrid mismatch arises when a payment between entities located in different states results in a double deduction or a deduction without inclusion. In the event of a double deduction, the deriving hybrid mismatch should be adjusted by denying the deduction at the level of either (i) the payee or (ii) the payor (provided that the deduction has not already been denied at the level of the payee). In the event of a deduction without inclusion, the deriving hybrid mismatch shall be adjusted by means of either (i) the denial of the deduction at the level of the payor or (ii) the inclusion of the payment in the taxable income of the payee (provided that the deduction has not already been denied at the level of the payor).

A hybrid mismatch occurs only if it arises either (i) between “associated enterprises” or in the case of “acting together”, (ii) a taxpayer and an associated enterprise, (iii) head office and permanent establishment, (iv) two or more permanent establishments of the same entity or (v) in the case of a structured arrangement.

The impact of ATAD 2 depends on the tax treatment at the level of the relevant holder of Securities and may alter the tax position and hence the performance of Mediobanca International and MBFL.

Further to Action 1 of the BEPS project, the OECD published blueprints (commonly referred to as “**BEPS 2.0**”), divided into two “pillars” of issues, seeking to address tax challenges arising from digitalization of the economy, and proposing fundamental changes to the international tax system. Pillar One proposes the reallocation of taxing

rights between jurisdictions, and Pillar Two additional global anti-base erosion rules. The implementation of the Pillar One and Pillar Two proposals was scheduled for 2023. On 22 December 2021, the European Commission proposed an EU directive ensuring a minimum effective tax rate in line with Pillar Two. The proposal has been unanimously approved by all Member States, which are required to implement these rules into their national systems before 31 December 2023. On 22 December 2023, Luxembourg implemented Pillar 2 into national law.

The extent of the impact of Pillar 2 Directive in Luxembourg is still uncertain. Specifically, the scope and applicability of Pillar 2 are yet to be determined, so that, depending on the application of the technical detail of BEPS 2.0, Mediobanca International and MBFL may suffer additional tax as effective tax rates could increase within the Mediobanca Group or on its investments and assets, including by way of higher levels of tax being imposed than is currently the case, possible denial of deductions or increased withholding taxes and/or profits being allocated differently.

2. Risks relating to the Securities

Factors which are material for the purpose of assessing the market risks associated with Securities issued under the Programme.

(A) General

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) proceed with investment only after fully appreciating the risks inherent in the nature of the Securities;
- (ii) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (iii) evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (iv) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant indices and financial markets;
- (v) consider all of the risks of an investment in the Securities, including Securities with payments thereunder payable in one or more currencies, or where the currency for payments thereunder is different from the potential investor's currency; and
- (vi) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities;
- (vii) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

In addition, an investment in Index Securities, Share Securities, ETI Securities, Debt Securities, Commodity Securities, Currency Securities, Inflation Index Securities, Fund Securities, Inflation Index Securities, Futures

Securities, Underlying Interest Rate Securities and Credit Securities may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "Risks related to the structure of a particular issue of Securities" set out below.

Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios.

A potential investor should not invest in Securities which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular Issue of Securities

A wide range of Securities may be issued under the Programme. A number of these Securities may have features which contain particular risks for potential investors. Set out below is a description of the most common risks.

The Securities involve a high degree of risk, which may include (in addition to the risks relating to the Issuers (including the default risk) and Guarantor's ability to fulfil their obligations under the Securities to investors) price risks associated with the Underlying Reference (as defined below), among others, interest rate, foreign exchange, inflation, correlation, time value and political risks. Prospective purchasers of Securities should recognise that their Securities may expire worthless or be settled for no value. Investors should be prepared to sustain a total loss of the subscription or purchase price of their Securities. See "*Certain Factors Affecting the Value and Trading Price of Securities*" below. Prospective investors should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Securities and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Securities in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Securities and the particular underlying index (or basket of indices), share, GDR or ADR (or basket of shares, GDRs and/or ADRs), interests in exchange traded funds, exchange traded notes, exchange traded commodities or other exchange traded products (each an "**exchange traded instrument**") (or basket of interests in exchange traded instruments), debt futures or debt options contract (or basket of debt futures or debt options contracts), debt instrument (or basket of debt instruments), commodity or commodity index (or basket of commodities and/or commodity indices), inflation index (or basket of inflation indices), currency (or basket of currencies), fund share or unit (or basket of fund shares or units), futures contracts (or basket of futures contracts), or other basis of reference to which the value of the relevant Securities may relate, as specified in the applicable Final Terms (such reference being the "**Underlying Reference**"). Each Issuer may also issue Securities linked to the credit of a specified entity (or entities) (each such entity a "**Reference Entity**" and, where the context admits, each an "**Underlying Reference**").

Securities linked to Underlying Reference(s) will represent an investment linked to the economic performance of the relevant Underlying Reference(s) and potential investors should note that the return (if any) on their investment in such Securities will depend upon the performance of such Underlying Reference(s). Securities linked to the difference in performance between two Underlying References (in case of Performance Differential Securities) will represent an investment linked to the difference between the economic performance of the relevant Underlying Reference(s) and potential investors should note that the return (if any) on their investment in such Securities will depend upon the relative performance of such Underlying References. Potential investors should also note that whilst the market value of such Securities is linked to such Underlying Reference(s) and will be influenced (positively or negatively) by such Underlying Reference(s), any change in the market value of such Securities may not be comparable to changes in the market value of the Underlying Reference(s). It is impossible to predict how the market value of the relevant Underlying Reference(s) will vary over time.

The exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements. Potential investors should be aware that under the terms of Underlying Reference linked Securities they are exposed to the performance of these hedging arrangements and the events that may affect

these hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities.

The risk of the loss of some or all of the subscription or purchase price of a Security on settlement means that, in order to recover and realise a return upon his or her investment, an investor must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the Underlying Reference or credit risk of the Reference Entity ("**Entities**") which may be specified in the applicable Final Terms. Assuming all other factors are held constant, the lower the value of a Security and the shorter the remaining term to settlement, the greater the risk that Securityholders of such Securities will lose all or part of their investment.

Fluctuations in the value of the relevant index or basket of indices will affect the value of Index Securities or Inflation Index Securities. Fluctuations in the price of the relevant share, GDR or ADR or value of the basket of shares, GDRs and/or ADRs will affect the value of Share Securities. Fluctuations in the price of the relevant interest in an exchange traded instrument or value of the basket of interests in exchange traded instruments will affect the value of ETI Securities. Fluctuations in the price or yield of the relevant debt instrument or value of the basket of debt instruments will affect the value of Debt Securities. Also, the character of the particular market on which a debt instrument is traded, the absence of last sale information and the limited availability of quotations for such debt instrument may make it difficult for many investors to obtain timely, accurate data for the price or yield of such debt instrument. Fluctuations in the value of the relevant inflation index or basket of inflation indices will affect the value of Inflation Index Securities. Fluctuations in the rates of exchange between the relevant currencies will affect the value of Currency Securities. Fluctuations in the value of the relevant commodity or commodity index or basket of commodities and/or commodity indices will affect the value of Commodity Securities. Fluctuations in the value of the relevant fund share or unit or fund index or basket of fund shares or units will affect the value of the Fund Securities. Fluctuations in the value of the relevant futures contracts or basket of futures contracts will affect the value of the Futures Securities. Fluctuations in the creditworthiness of the relevant Reference Entity or Reference Entities will affect the value of the Credit Securities. In the case of Hybrid Securities the Underlying Reference in respect of which is any combination of such indices, shares, GDRs, ADRs, interests in exchange traded instruments, debt instruments, futures or options contracts, currencies, commodities, inflation indices, fund shares, futures contracts, underlying interest rate or any other asset class or type, fluctuations in the value of any one or more of such Underlying References will correspondingly affect the value of Hybrid Securities. Potential investors risk losing their entire investment if the value of the relevant Underlying Reference does not move in the anticipated direction.

The historical performances of an Underlying Reference should not be viewed as an indication of the future performance of such Underlying Reference during the term of any Securities. Accordingly, each potential investor should consult its own financial and legal advisers about the risks entailed by an investment in any Securities and the suitability of such Securities in light of its particular circumstances.

Each Issuer may issue several issues of Securities relating to various Underlying References. However, no assurance can be given that the relevant Issuer will issue any Securities other than the Securities to which a particular Final Terms relates. At any given time, the number of Securities outstanding may be substantial. Securities provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the underlying investment. Securities on shares, interests in exchange traded instruments, debt instruments or

fund shares or units or fund indices are priced primarily on the basis of the value of underlying securities whilst Securities on currencies and commodities are priced primarily on the basis of present and expected values of the reference currency (or basket of currencies) or commodity (or basket of commodities) specified in the applicable Final Terms.

If 'Structuring Fee Deduction' is specified to be 'Applicable' in the Final Terms the value of and return on the Securities will be reduced by a structuring fee. The structuring fee will accrue from the Issue Date or the scheduled trading day following the Issue Date until the relevant valuation date, therefore the longer the term of the Securities, the greater the reduction in the value of and return on the Securities by the structuring fee. Before purchasing a Security Investors should understand the effect of the structuring fee on the value of and return on the Security.

Potential Loss of the Holder's Investment in the Securities

Each Securityholder may receive a Cash Settlement Amount and/or physical delivery of the Entitlement the aggregate value of which may be less than the value of the Holder's investment in the relevant Securities. In certain circumstances Securityholders may lose the entire value of their investment.

If the Certificates are specified in the relevant Final Terms to be Cash Settled Securities and Zero Cash Settlement Amount Certificates, on the Settlement Date the Cash Settlement Amount will be equal to zero (0). The return received by the Securityholder will only derive from the remuneration amounts paid during the life of the Securities or, if indicated in the applicable Final Terms, from the Automatic Early Settlement Amount, and/or Optional Cash Settlement Amount (Call) and/or Optional Cash Settlement Amount (Put). In case such amounts are linked to the economic performance of the relevant Underlying Reference(s) potential investors should note that the return (if any) on their investment in such Securities will depend upon the performance of such Underlying Reference(s) and in certain circumstances Securityholders may lose the entire value of their investment.

If the Certificates are Credit Securities and are specified in the relevant Final Terms to be Zero Maturity Credit Securities, on the related Credit Security Settlement Date the amount the Securityholders will receive is equal to zero (0). The Zero Maturity Credit Securities may pay remuneration amounts or may not. Consequently, if no Event Determination Date occurs during the life of the Securities and either (i) the Securities do not pay any remuneration amount(s) or (ii) the Securities pay remuneration amounts which are linked to the economic performance of the relevant Underlying Reference(s), then in the case under (i), potential investors will lose the entire value of their investment or in the case under (ii), potential investors may lose the value of their investment in whole or in part (as the case may be).

Possible Illiquidity of the Securities in the Secondary Market

It is very difficult to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or ask for admission to trading of Securities on a stock exchange or a trading venue. If the Securities are not listed or admitted to trading on any stock exchange or trading venue, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. If the Securities are listed or admitted to trading on any

stock exchange or trading venue, there can be no assurance that at a later date, the Securities will not be delisted or that trading on such stock exchange or trading venue will not be suspended. In the event of a delisting or suspension of listing or trading on a stock exchange or trading venue, the relevant Issuer will use its reasonable efforts to list or obtain the admission to trading of the Securities on another stock exchange or trading venue. Also, to the extent Securities of a particular issue are settled in part, the number of Securities of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Securities of such issue. A decrease in the liquidity of an issue of Securities may cause, in turn, an increase in the volatility associated with the price of such issue of Securities.

Each Issuer and any of its Affiliates may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private offer/treaty. Any Securities so purchased may be held or resold or surrendered for cancellation as further described herein. Each Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. In those circumstances, the entity acting as market-maker will endeavour to maintain a secondary market throughout the life of the Securities, subject to normal market conditions and will submit bid and offer prices to the market. The spread between bid and offer prices may change during the life of the Securities. However, during certain periods, it may be difficult, impractical or impossible for the entity acting as market-maker to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Securities. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption.

Even if the relevant Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited.

Investors should note that if an entity is appointed as market-maker or liquidity provider with respect to the Securities in the secondary market, this may, in certain circumstances, affect the price of the Securities in the secondary market.

In addition, all or part of the Securities issued under this Programme may be subscribed upon issuance by the relevant Issuer itself or by its Affiliate(s) for resales thereafter on the basis of investors' demand. Accordingly, investors subscribing for Securities upon their issuance should be aware that there may not be a viable secondary market for the relevant Securities immediately. Even if a market does develop subsequently, it may not be very liquid.

Risk of Leveraged Exposure

Leverage involves the use of a number of financial techniques to increase the exposure to an Underlying Reference, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Underlying Reference moves in the anticipated direction, it will conversely magnify losses when the Underlying Reference moves against expectations. If the relevant Securities include leverage, potential holders of such Securities should note that these Securities will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar

security which is not leveraged. Investors should therefore only invest in leveraged Securities if they fully understand the effects of leverage.

Absence of Rights in respect of the Underlying Reference

The Securities do not represent a claim against any Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference) and Securityholders will not have any right of recourse under the Securities to any such Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference). The Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying Reference and such entities have no obligation to take into account the consequences of their actions on any Securityholders.

Exposure to modification and disruption events

In case certain events, indicated in the Terms and Conditions and the relevant Final Terms, occurs with reference to the relevant Underlying Reference(s) or the Securities, the Calculation Agent and the Issuer have broad discretion to make certain determinations to account for such event(s) including to (i) make adjustments to the terms of the Securities and/or (ii) cause early settlement of the Securities, any of which determinations may have an adverse effect on the value of the Securities.

The investor should consider that the effects of coronavirus pandemic (such as the measures taken by governments and authorities in this respect) may cause the occurrence of the events indicated above and involve such adjustments to the terms of the Securities and/or early settlement of the Securities.

Unsecured Securities are Unsecured Obligations

Unsecured Securities are unsubordinated and unsecured obligations of the relevant Issuer and will rank *pari passu* with themselves. Each issue of Unsecured Securities issued by Mediobanca International and by MBFL will be guaranteed by Mediobanca pursuant to the, respectively, the deed of guarantee executed by the Guarantor and dated 6 June 2025 (the "**Mediobanca International Deed of Guarantee**") and the deed of guarantee executed by the Guarantor and dated 6 June 2025 (the "**MBFL Deed of Guarantee**"). The obligations of Mediobanca under the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee are unsubordinated and unsecured obligations of Mediobanca and will rank *pari passu* with all its other present and future unsubordinated and unsecured obligations, subject as may from time to time be mandatory under Italian law and subject to the application of the bail-in legislation applicable to the Guarantor.

Certain Factors Affecting the Value and Trading Price of Securities

The Cash Settlement Amount (in the case of Cash Settled Securities) or the value of the Entitlement (the "**Physical Settlement Value**") (in the case of Physical Delivery Securities) at any time prior to expiration is typically expected to be less than the trading price of such Securities at that time. The difference between the trading price and the Cash Settlement Amount or the Physical Settlement Value, as the case may be, will reflect, among other things, a "time value" for the Securities. The "time value" of the Securities will depend partly upon the length of the period remaining to expiration and expectations concerning the value or level of the Underlying Reference(s). Securities offer hedging and investment diversification opportunities but also pose some additional

risks with regard to interim value. The interim value of the Securities varies with the price level of the Underlying Reference(s), as well as by a number of other interrelated factors, including those specified herein.

Before selling Securities, Securityholders should carefully consider the factors set out below, which may cause the value and trading price of the Securities to fluctuate, either positively or negatively:

- (a) the trading price of the Securities;
- (b) the value and volatility of the Underlying Reference(s) as specified in the applicable Final Terms. Depending on the applicable payout or remuneration rates, movements in the value and/or volatility of the Underlying Reference may cause the value of the Securities to either rise or fall;
- (c) the time remaining until the scheduled Settlement Date of the Securities. Depending on the applicable payout or remuneration rates, the value of the Securities may fluctuate as the time remaining until the scheduled Settlement Date decreases;
- (d) in the case of Cash Settled Certificates the probable range of Cash Settlement Amounts;
- (e) any change(s) in interim interest rates and dividend yields, if applicable. Depending on the applicable payout or coupon or remuneration rates, movements in interest rates and/or dividends may cause the value of the Securities to either rise or fall;
- (f) any change(s) in currency exchange rates;
- (g) the depth of the market or liquidity of the Underlying Reference as specified in the applicable Final Terms; and
- (h) any related transaction costs.

Such factors may mean that the trading price of the Securities is below the Cash Settlement Amount or the Physical Settlement Value, as applicable.

Modification

The Terms and Conditions of the Securities contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Securityholders including Securityholders who did not attend and vote at the relevant meeting and Securityholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Securities also provide that the relevant Issuer and the Guarantor may, without the prior consent of the holders of the Securities correct (i) any manifest error in the Terms and Conditions of the Securities and/or in the Final Terms, (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Securities and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Securities and/or in the Final Terms between the Terms and Conditions of the Securities and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Securities (provided such correction is not materially prejudicial to the holders of the relevant Series of Securities). Any such correction shall be binding on the holders of the relevant Securities and the relevant Issuer and the Guarantor

(if applicable) shall cause such correction to be notified to the holders of the Securities as soon as practicable thereafter pursuant to General Security Condition 8 (*Notices*).

Minimum Trading Amount

Investors should note that the Securities may have a minimum trading amount. In such cases, if, following the transfer of any Securities, a Securityholder holds fewer Securities than the specified minimum trading amount, such Securityholder will not be permitted to transfer their remaining Securities prior to settlement without first purchasing enough additional Securities in order to hold the minimum trading amount. The Securityholder may not be able to purchase additional Securities, in which case they will have to wait until settlement of the Securities to realise any value. If they are able to purchase additional Securities, this may be at a price higher than their original investment and is likely to adversely affect the overall return they achieve on their investment.

Potential Conflicts of Interest

The relevant Issuer and/or any of its Affiliates may also engage in trading activities (including hedging activities) related to the asset or other basis of reference underlying any Securities and other instruments or derivative products based on or related to the asset or other basis of reference underlying any Security for their proprietary accounts or for other accounts under their management. The Issuer and/or any of its Affiliates may also issue other derivative instruments in respect of the asset or other basis of reference underlying Securities. The relevant Issuer and/or any of its Affiliates may also act as underwriter in connection with future offerings of shares or other securities related to an issue of Securities or may act as financial adviser to certain companies or companies whose shares are included in a basket of shares or in a commercial banking capacity for such companies. Such activities could present certain conflicts of interest, could influence the prices of such shares or other securities and could adversely affect the value of such Securities.

Under the Terms and Conditions of the Securities, the Calculation Agent may make certain determinations in respect of the Securities (including whether a Market Disruption Event, a Settlement Disruption Event or Credit Event (each, as defined in the Terms and Conditions) has occurred) which could affect the amount payable by the relevant Issuer on the Securities. In exercising its right to make such determinations, the Calculation Agent is obligated to carry out its duties and functions as Calculation Agent acting in good faith and in a commercially reasonable manner however, subject to always acting only within the parameters allowed by the terms and conditions of the Securities, it has no responsibility to take investors' interests into account. Where the relevant Issuer acts as Calculation Agent, potential conflicts of interest may exist between the Calculation Agent and the Securityholders, including with respect to those determinations that the Calculation Agent may make pursuant to the Securities that may influence the Cash Settlement Amount payable, or the Entitlement deliverable (as the case may be), on the Settlement Date.

Investors should note that Securities issued under the Programme may be underwritten by Dealers (including Mediobanca) which receive in consideration underwriting commissions and selling concessions. The relevant Issuer may also offer and sell Securities directly to investors without the involvement of any Dealer. In addition, Mediobanca may act as market maker or specialist or perform other similar roles in connection with the Securities: potential conflicts of interest may exist between Mediobanca acting in such capacity on the one hand, and investors in the Securities on the other.

Investors should note too that Mediobanca itself is acting in a number of capacities in connection with the issuance of the Securities. In particular Mediobanca will act as, *inter alia*, the relevant Issuer, the Guarantor in respect of Mediobanca International's obligations and MBFL's obligations, the Dealer, the Calculation Agent, the Arranger and Italian Paying Agent.

Even if its respective rights and obligations in relation to the issuance of the Securities are not conflicting and are independent from one another, in performing any such obligations in these different capacities, Mediobanca may be in a situation of conflict of interests. Mediobanca will only have the duties and responsibilities expressly agreed to by such entity in the relevant capacity and will not, by virtue of its or any of its affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a duty of care other than as expressly provided in respect of each such capacity.

Any further conflict of interest, including conflicts between the relevant Issuer and any Dealers or distributors will be indicated in the relevant Final Terms.

In respect of ETI Securities and Fund Securities:

- (a) the relevant Issuer or one or more of its Affiliates may from time to time engage in business with the relevant ETI or Fund, as the case may be, or companies in which an ETI or Fund, as the case may be, invests, including among other things, extending loans to, or making investments in, or providing advisory services to them, including merger and acquisition advisory services, engaging in activities that may include prime brokerage business, financing transactions or entry into derivative transactions;
- (b) the ETI or Fund (each as defined below), as applicable, may pay a portion of its fees to the relevant Issuer or any of its Affiliates for the provision of such services;
- (c) in the course of this business, the relevant Issuer, the Guarantor (if any), the Calculation Agent and any of their respective Affiliates may acquire non-public information about an ETI or a Fund, as applicable, or any companies, funds or reference assets in which an ETI or a Fund invests and the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates may publish research reports about them. This research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding ETI Securities or Fund Securities, as applicable. Such activities could present certain conflicts of interest, could influence the prices of such shares, Fund Shares, ETI Interests or other securities and could adversely affect the value of such Securities;

Certain Considerations Regarding Subscribing or Purchasing Securities as Hedges

Prospective investors intending to subscribe or purchase Securities to hedge against the market risk associated with investing in the Underlying Reference which may be specified in the applicable Final Terms should recognise the complexities of utilising Securities in this manner. For example, the value of the Securities may not exactly correlate with the value of the Underlying Reference which may be specified in the applicable Final Terms. Due to fluctuating supply and demand for the Securities, there is no assurance that their value will correlate with movements of the Underlying Reference which may be specified in the applicable Final Terms. For

these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Underlying Reference.

The Issuer and/or any of its respective Affiliates or agents may from time to time hedge the relevant Issuer's obligations under Securities (and under other instruments and OTC contracts issued by or entered into from time to time by the relevant Issuer and/or any of its respective Affiliates or agents relating to such securities) by taking positions, directly or indirectly, in the relevant Underlying Reference. Although the relevant Issuer has no reason to believe that such hedging activities will have a material impact on the price of any relevant Underlying Reference, there can be no assurance that such hedging activities will not adversely affect the value of the Securities.

Bull and Bear Securities

Bull Certificates and Bear Certificates (together, the "**Bull and Bear Securities**" or "**Single Final Payout - Leverage Factor Securities**") are designed for very short-term trading or intraday trading and are not intended for buy-to-hold investing. The percentage change in value of the Securities over one day will be the Leverage Factor which is a constant factor for each Security multiplied by the daily performance of the relevant Underlying Reference measured as the percentage change of the reference price from one day to the next day adjusted by the applicable Financing Component (which includes a Fee, an Interest Margin and Hedging Costs and may be positive or negative depending on, amongst other things, prevailing interest rates). Bull Certificates aim to produce a performance equal to the Leverage Factor (as specified in the applicable Final Terms) multiplied by the performance of the relevant Underlying Reference whereas Bear Certificates aim to produce a performance equal to the Leverage Factor times the inverse performance of the relevant Underlying Reference. However, because the performance of the Securities over any period longer than one day will be derived from the compounded daily performance of the relevant Underlying Reference during that period, such Security's performance may differ significantly to the overall performance of the Underlying Reference over that same period. Accordingly, compared to a security that measures change in value of the Underlying Reference between two dates, Bull and Bear Securities may have significantly different outcomes depending on the number and direction of changes in the daily value of the Underlying Reference over such period and the order in which such changes occur. Bull and Bear Securities are therefore described as "path-dependent" financial instruments. The potential for divergence between the Performance of the Bull and Bear Securities and the performance of the Underlying Reference over the same period of time will increase as such period becomes longer and will be most marked in periods when the value of the Underlying Reference is volatile. Consequently, Bull or Bear Securities are only suitable for intraday trading or very short investment periods.

If "Maturity Extension" is specified as applicable in the applicable Final Terms, the Issuer may elect to either postpone the Settlement Date of the Bull or Bear Securities. Unless a Securityholder exercises its option to request the Issuer to early settle the Securities, the risks of investing in Bull and Bear Securities described above may increase. If a Securityholder exercises its option to request the Issuer to early settle the Securities, such Securityholder may receive less than their original investment, as the Optional Settlement Amount will be calculated based on the performance of the Bull and Bear Securities, as described above, as of the Optional Settlement Valuation Date.

If "Reverse Split" is specified as applicable in the applicable Final Terms and a Reverse Split Event occurs, the Issuer may, at its option, elect that the Certificates be consolidated and cancel the Certificates held by Securityholders and, in lieu thereof, deliver to Securityholders a reduced number of Bull or Bear Securities of a new series. The new series of Certificates issued by the Issuer will have identical terms to the original Bull or Bear Securities, save that the value of the Bull or Bear Securities will be consolidated to reflect the economic effect of reducing the number of Bull or Bear Securities in issue, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. If required, the Issuer will also pay to Securityholders a cash adjustment amount calculated by the Calculation Agent to reflect the economic effect of reducing the number of Bull or Bear Securities in issue, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Upon receiving notice of a reverse split, a Securityholder may exercise its option to request the Issuer to early settle the Securities, in which case, such Securityholder may receive less than their original investment, as the Optional Settlement Amount will be calculated based on the performance of the Bull and Bear Securities, as described above, as of the Optional Settlement Valuation Date.

The terms of the Securities contain no negative pledge, and the Issuer is not prohibited from incurring additional debt.

There is no negative pledge in respect of the Securities and the Terms and Conditions of the Securities place no restrictions on the incurrence by the Issuer or the Guarantor (if applicable) of additional obligations that rank *pari passu* with, or senior to, the Securities. In addition, the Issuer or the Guarantor (if applicable) may pledge assets to secure other notes or debt instruments without granting an equivalent pledge or security interest and status to the Securities.

There are no events of default under Unsecured Securities

The Terms and Conditions of the Securities (other than Secured Securities) do not include events of default allowing for the acceleration of the Securities if certain events occur. Accordingly, if the Issuer or the Guarantor (if applicable) fail to meet any obligations under the Securities, Securityholders will not be able to accelerate the payment of amounts under the Securities. Upon a payment default, the sole remedy available to holders of such Securities for recovery of amounts owing in respect of any payment on such Securities will be the institution of proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer or the Guarantor (if applicable) will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

Limited Exposure to Underlying Reference

The Securities may provide for the application to the relevant Underlying Reference of a component weight, in order to increase or decrease the percentage of each Underlying Reference used to determine the amounts payable or deliverable to investors. The component weight may be lower than 100 per cent.

In such case, the amounts payable or deliverable to investors will be reduced and, therefore, will contribute to the yield of the Securities only to such reduced extent. The performance of the relevant Underlying Reference(s) will, therefore, impact the yield of the Securities only to a limited extent.

If the applicable Final Terms provide that the exposure of the relevant Securities to one or more Underlying References is limited or capped at a certain level or amount, the relevant Securities will not benefit from any upside in the value of any such Underlying References beyond such limit or cap.

Expenses and Taxation

A holder of Securities must pay all Expenses relating to such Securities. As used in the Conditions, Expenses means all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, sale commissions, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the exercise and settlement of such Securities and/or the delivery or transfer of the Entitlement (as applicable) pursuant to the terms of such Securities as more fully set out in Condition 9 (*Expenses and Taxation*) of the Terms and Conditions of the Securities.

The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Security by any person and all payments made by the relevant Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted and no additional amount shall be payable to any relevant Securityholder in respect of any such tax, duty, withholding or other payment. The payment of all Expenses by the Securityholders is likely to adversely affect the overall return they achieve on their investment in the Securities.

Other taxation considerations

It is not possible to predict whether the taxation regime applicable to Securities on the date of purchase or subscription will be amended during the term of the Securities. If such amendments are made, the taxation regime applicable to the Securities may differ substantially from the taxation regime in existence on the date of purchase or subscription of the Securities and such amendments could materially adversely impact the value of any Securities affected by them.

Change of Law

The Terms and Conditions are based on English law or Italian law, as the case may be, in effect as at the date of this Base Prospectus, except for the status provisions applicable to the Securities and the contractual recognition of bail-in powers provisions, and any non contractual obligations arising out of or in connection with such provisions, which shall be governed by, and construed in accordance with, Italian law (if the Securities are issued by Mediobanca) or Luxembourg law (if the Securities are issued by Mediobanca International and by MBFL), as applicable. No assurance can be given as to the impact of any possible judicial decision or change to an administrative practice or change to English law or Italian and/or Luxembourg law, as applicable, after the date of this Base Prospectus and any such change could materially adversely impact the value of any Securities affected by it.

Procedures of clearing systems

Unless otherwise provided in the Final Terms, Securities issued under the Programme may be represented by one or more Global Securities and such Global Securities will be deposited with a common depository for Euroclear and/or Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Security,

investors will not be entitled to receive definitive Securities. Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system provided in the Final Terms will maintain records of the beneficial interests in the Global Securities. While the Securities are represented by one or more Global Securities, investors will be able to trade their beneficial interests only through Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. While the Securities are represented by one or more Global Securities the relevant Issuer will discharge its payment obligations under the Securities by making payments to the common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system for distribution to their account holders. A holder of a beneficial interest in a Global Security must rely on the procedures of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to receive payments under the relevant Securities. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Securities. Holders of beneficial interests in the Global Securities will not have a direct right to vote in respect of the relevant Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to appoint appropriate proxies.

Italian Dematerialised Securities issued under the Programme will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018 as amended by Provision Consob and the Bank of Italy of 10 October 2022, as amended and integrated by subsequent implementing provisions. In no circumstance would physical documents of title be issued in respect of the Italian Dematerialised Securities. While the Italian Dematerialised Securities are represented by book entries, investors will be able to trade their beneficial interests only through Euronext Securities Milan (also known as Monte Titoli S.p.A.) ("**Monte Titoli**") and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli. As the Italian Dematerialised Securities are held in dematerialised form with Monte Titoli, investors will have to rely on the procedures of Monte Titoli and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the relevant Issuer or Guarantor (if any).

If the applicable Final Terms specify that the Securities will be accepted for settlement in Euroclear UK & Ireland (formerly known as CRESTCo) ("**CREST**") via the CREST Depository Interest mechanism, investors will hold indirect interests in Securities through CREST through the issuance of CREST Depository Interests ("**CDIs**") issued, held, settled and transferred through CREST. CDIs are independent securities constituted under English law and transferred through CREST and will be issued by CREST Depository Limited (the "**CREST Depository**") to investors ("**CDI Holders**") pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated) (the "**CREST Deed Poll**").

The rights of CDI Holders in respect of Securities are represented by the relevant entitlements against the CREST Depository which (through CREST International Nominees Limited or any other body appointed to act as nominee on behalf of the CREST Depository (the "**CREST Nominee**")) holds interests in such Securities. Accordingly, rights under Securities underlying CDIs cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians.

The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the relevant Issuer, including the CREST Deed Poll. Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual and the CREST Rules (each as defined in "*Forms of The Securities – Euroclear UK & Ireland Limited*" below) contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository. CDI Holders are bound by such provisions and may incur liabilities pursuant to or resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of and returns received by CDI Holders may differ from those of Holders of Securities which are not represented by CDIs.

In addition, CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service (as defined in "*Forms of The Securities – Euroclear UK & Ireland Limited*" below). These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of Securities through the CREST International Settlement Links Service.

Potential investors should note that none of the relevant Issuer, the Guarantor (if applicable), any Dealer or any Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

Termination of Securities in the Event of Illegality or Impracticability

If the relevant Issuer determines that the performance of its obligations under the Securities or that any arrangements made to hedge the relevant Issuer's obligations under the Securities have become (i) illegal in whole or in part for any reason, or (ii) by reason of a *force majeure* event (such as an act of God, fire, flood, severe weather conditions, or a labour dispute or shortage) or an act of state occurring after the Trade Date (as specified in the applicable Final Terms), impossible or impracticable the relevant Issuer may settle the Securities.

If the relevant Issuer settles the Securities pursuant to an illegality then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder, which amount shall be equal to the fair market value of a Security, notwithstanding such illegality less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

If the relevant Issuer settles the Securities by reason of a *force majeure* event or an act of state, then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder, which amount shall be equal to the fair market value of a Security, taking into account the applicable *force majeure* event or act of state, as the case may be, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

In the cases described above, the amount paid by the Issuer to the Securityholders may be less than the subscription or purchase price of the Securities and may in certain circumstances be zero.

Post-issuance Information

Save as set out in the applicable Final Terms, the relevant Issuer will not provide post-issuance information in relation to the Underlying Reference. In such an event, investors will not be entitled to obtain such information from the relevant Issuer.

The remuneration rate payable on the Securities or the amount payable or deliverable on settlement of the Securities may in certain circumstances be changed during the life of the Securities

If Coupon Switch Election or Automatic Coupon Switch is specified in the applicable Final Terms, the remuneration rate payable may be switched from one rate or amount to another in the Issuer's discretion (in the case of Coupon Switch Election) or following the occurrence of an Automatic Coupon Switch Event (in the case of an Automatic Coupon Switch). If Payout Switch Election or Automatic Payout Switch is specified in the applicable Final Terms, the amount payable or deliverable on settlement may be switched from one amount payable or deliverable to another in the Issuer's discretion (in the case of Payout Switch Election) or following the occurrence of an Automatic Payout Switch Event (in the case of an Automatic Payout Switch). As a consequence of the exercise of a Coupon Switch Election or Payout Switch Election or the occurrence of an Automatic Coupon Switch Event or Automatic Payout Switch Event, the Underlying Reference may be changed. As the payout on such Securities may be switched during the life of the Securities investors may receive a return which differs from, and may be significantly less than, that which they expected to receive or they may receive no return.

Impossibility to know the amount of the Securities in circulation on the date of issue

The Securities may be issued and withheld by the relevant Issuer for the progressive sale on the market in accordance with investors' demand. In this context an investor who acquires the Securities does not know in the moment of subscription or purchase how much of the issued Securities effectively are publicly traded with the consequence that the amount in circulation could be meagre and may not guarantee successively adequate liquidity in the Securities.

Issue of subsequent tranche

In the event the relevant Issuer decides to issue further Securities having the same terms and conditions as already existing Securities (or in all respects except for the issue price per Security indicated in the applicable Final Terms (the "**Issue Price**"), the Issue Date and/or the first payment of remuneration (if any)) and so that the further Securities shall be consolidated and form a single series with the original Securities, the greater amount of Securities in circulation could lead to greater liquidity in the secondary market with a consequent negative impact on the price of the relevant Securities.

Physical Delivery Requirements and Settlement Risk

Where "Physical Settlement according to General Security Condition 21.1" is specified as applicable in the applicable Final Terms, in order to receive the Entitlement in respect of a Physical Delivery Security, the holder of such Security (acting through the relevant Monte Titoli Accountholder, in case of Italian Dematerialised Securities) must (1) deliver or send by authenticated swift message (confirmed in writing) to Euroclear or Clearstream, Luxembourg or any other relevant clearing system (as the case may be), with a copy to the relevant

Issuer and the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities) a duly completed Physical Delivery Confirmation Notice on or prior to the relevant time on the Exercise Date (in the case of a Physical Delivery Certificate) and (2) pay the relevant Expenses, together with any other amounts payable. In case of failure to do so the Issuer shall have no obligation to make delivery of the Entitlement in respect of such Security unless and until a duly completed Physical Delivery Confirmation Notice is delivered as provided in the terms and conditions. If the duly completed Physical Delivery Confirmation Notice is delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be) on the Exercise Date, delivery of such Entitlement shall be made as soon as possible thereafter but not earlier than the Settlement Date. For the avoidance of doubt, the relevant holder of a Certificate shall not be entitled to any additional or further payment by reason of the delivery of the Entitlement in respect of such Certificate occurring after the Settlement Date as a result of such Physical Delivery Confirmation Notice being delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be) on the Exercise Date.

In connection with the exercise of Physical Delivery Certificates, unless otherwise indicated in the applicable Final Terms, the Calculation Agent may determine that a Settlement Disruption Event or, if applicable, a Failure to Deliver due to Illiquidity is subsisting. Any such determination may affect the value of the Securities and/or may delay settlement and/or lead to cash settlement rather than physical settlement in respect of the Securities.

In relation to Physical Delivery Securities, under the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee, the Guarantor has the right at all times to elect not to deliver or procure delivery of the Entitlement to the holders of Physical Delivery Securities, but in lieu thereof to pay an amount in cash equal to the Guaranteed Cash Settlement Amount specified in the applicable Final Terms or determined by the Calculation Agent in accordance with the Terms and Conditions. Such cash payment will constitute a complete discharge of the Guarantor's obligations in relation to such Physical Delivery Securities.

The Barrier Level, Bonus Level and/or Cap Level may not be known until after the Issue Date

In certain circumstances in respect of SFP Payouts, the Barrier Level, Bonus Level and/or Cap Level may not be known at the issue date of the Securities. In these circumstances, the Final Terms will specify that the Barrier Level, Bonus Level and/or Cap Level, as applicable, will be the product of a specified percentage and the Closing Level, Closing Price, Italian Securities Reference Price, Relevant Price or Settlement Price, as applicable, of the Underlying Reference on the Strike Date (rounded upwards or downwards as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner). Following the Strike Date, the Issuer will give notice of the actual Barrier Level, Bonus Level and/or Cap Level, as applicable, applicable to the Securities. Prospective investors should review the Final Terms together with the information contained in the notice in order to ascertain the Barrier Level, Bonus Level and/or Cap Level which will apply to the Securities.

Risks Relating to Automatic Early Settlement of the Securities

In the case of Securities that include an Automatic Early Settlement feature, the longer the time remaining until the scheduled settlement date of the Securities, the higher the probability that an Automatic Early Settlement Event will occur.

In the event that the relevant level, value or price of the Underlying Reference approaches the level that triggers the Automatic Early Settlement Event, the Securityholder may not be able to sell the Securities in the secondary market before the occurrence of the Automatic Early Settlement Event (see also "*Possible Illiquidity of the Securities in the Secondary Market*" above). If the Underlying Reference is listed on a different exchange to that on which the Securities are listed, the Automatic Early Settlement Event may occur outside the normal trading hours of the exchange on which the Securities are listed. In this case, the Securityholder may not have an opportunity to sell the Securities in the secondary market before the Automatic Early Settlement Event occurs.

Risk of Loss Following Automatic Early Settlement of the Securities

In the case of Securities that include an Automatic Early Settlement feature, if the relevant level, value or price of the Underlying Reference(s) reaches the level that triggers the Automatic Early Settlement Event, the product will automatically settled before the scheduled settlement date. Depending on the applicable payout, the Securityholder may lose some or all of their investment in the Securities.

Gap Risk

Securityholders will be exposed to the gap risk associated with the relevant level, value or price of the Underlying Reference(s), whereby the relevant level, value or price of one or more Underlying Reference may change suddenly and significantly during the trading day or at the opening of the market. Such change may be positive or negative.

The price of the Securities may include a premium, which includes the cost to the Issuer or its Affiliates of unwinding its hedging positions in relation to the Securities on early settlement of the Securities. The calculation of the premium charged to Securityholders is based on the gap risk associated with the relevant level, value or price of the Underlying Reference(s). The Securityholder will not receive a refund of this premium if an Automatic Early Settlement Event occurs.

Reform of EURIBOR and other interest rate index and equity, commodity and foreign exchange rate indices

The Securities may be linked to a "benchmark" as defined under the Benchmark Regulation. The Benchmarks Regulation, inter alia: (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Issuer) of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The scope of the Benchmarks Regulation is wide and, in addition to applying to so-called "critical benchmark" indices, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including "proprietary" indices or strategies) which are referenced in listed financial instruments (including listed Securities), financial contracts and investment funds. In this respect, any changes to a "benchmark" due to the Benchmark Regulation could, inter alia: (i) discourage market participants from continuing to administer or contribute to such "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark"; or (iii) lead to the disappearance of the "benchmark".

In such events, depending on the particular "benchmarks" and the applicable terms of the Securities, the Securities could be delisted (if listed), adjusted, redeemed or otherwise impacted and their volatility may be affected.

In addition, the application of the fallback methods to be applied in the event that a "benchmark" to which any Security is linked has been discontinued following the adoption of a decision to withdraw the authorization or registration as set out in Article 35 of the Benchmark Regulation may expose investors to certain risks connected with the adjustment to the remuneration or payout calculation as provided for respectively in General Security Condition 22(n) (*Benchmark Rate Replacement*) and Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*) and/or may generally produce potential negative consequences for the holders of any Securities linked to such "benchmark".

The Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed critical "benchmarks" are (or may be) subject to national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such critical "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to a "benchmark".

It is not possible to predict with certainty whether, and to what extent, EURIBOR will continue to be supported going forwards. This may cause EURIBOR to perform differently than it has done in the past and may have other consequences which cannot be predicted. In the event EURIBOR will cease to be provided, cease to be

representative of the underlying market and economic reality or it becomes unlawful for the Issuer to use EURIBOR for determining the amounts due under the Securities, in its recommendations of May 11, 2021, the ECB WG recommended the use of €STR (Euro Short Term Rate) as fallback of EURIBOR. Furthermore, ECB WG recommended different methodologies for the determination of the €STR-based fallback rate for a series of financial product types referenced to EURIBOR.

Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No. 596/2014 (the “**EU Benchmarks Regulation**”) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU where used to determine the amount payable under or the value or performance of certain financial instruments for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue (EU regulated market, EU multilateral trading facility (“**MTF**”), EU organised trading facility (“**OTF**”)) or via a systematic internaliser or to measure the performance of certain investment funds with the purpose of tracking the return or defining the asset allocation or computing the performance fees.

The Benchmark Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK Benchmarks Regulation**”) applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK. Similarly to EU Benchmark Regulation, the UK Benchmarks Regulation prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Securities linked to or referencing a benchmark rate or index, deemed to be a “benchmark”, in particular, if the methodology or other terms of the “benchmark” are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant “benchmark”.

More broadly, any of the international, national or other reforms or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmarks” and complying with any such regulations or requirements.

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any such Securities.

The Conditions of the Securities provide that, if the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Rate Event (as defined in the Conditions) has occurred, the Reference Rate or, as the case may be, the Underlying Reference Rate will be respectively substituted (as described in greater details in the General Security Condition 22(n)(*Benchmark Rate Replacement*) and in Underlying Interest Rate Security

Condition 9 (*Benchmark Rate Replacement*)) by the Successor Rate or the Underlying Successor Rate (as adjusted in accordance with the Adjustment Spread, if any) (each term as defined in the relevant Conditions) and the Issuer (in consultation with the Calculation Agent) will determine the adjustments to be made to the provisions of the Securities as it deems necessary in order the Successor Rate or the Underlying Successor Rate to be used for determining, as the case may be, the Remuneration Rate, the Remuneration Amount and any other amount payable to the Securityholders under the Securities.

The use of a Successor Rate or an Underlying Successor Rate (as adjusted in accordance with the Adjustment Spread, if any, and together with any adjustment to the provisions of the Securities necessary in order the Successor Rate or the Underlying Successor Rate to be used for determining, as the case may be, the Remuneration Rate, the Remuneration Amount and any other amount payable to the Securityholders under the Securities) may result in remuneration payments and other payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the Securities if the relevant benchmark remained available in its current form. Furthermore, potential investors should be aware that, in certain circumstances, the Issuer may have to exercise its discretion to determine the Successor Rate, the Underlying Successor Rate and/or the Adjustment Spread, if any. In addition, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Securities may not do so and may result in the Securities performing differently (which may include payment of a lower remuneration rate) than they would do if the Reference Rate were to continue to apply in its current form. Any such consequences could have a material adverse effect on the value of and return on any such Securities. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Securities or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Securities. Investors should consider these matters when making their investment decision with respect to the relevant Securities. Furthermore, prospective investors must be aware that should the formula or methodology of calculation of a Reference Rate or an Underlying Reference Rate be materially changed (in case of Benchmark Material Change Event (as defined in the Conditions)), then (and until such a change result in a substitution of that Reference Rate or an Underlying Reference Rate with the Successor Rate or the Underlying Successor Rate according to the Conditions) that Reference Rate or an Underlying Reference Rate will nevertheless continue to be used under the relevant Securities and the value of and the return on the investment in such Securities could be adversely affected by the material change or variation occurred in the formula or methodology of calculation of the relevant Reference Rate or an Underlying Reference Rate.

As required by and in accordance with Article 28(2) of the EU Benchmarks Regulation and article 118-bis of the 118-bis of the Legislative Decree No. 385 of 1 September 1993, as amended, Mediobanca has produced and constantly updates robust written plans setting out the actions that Mediobanca will take in case of a material change or cessation of one of the benchmarks used its instruments or products (the “**Contingency Plans**”). The Contingency Plans in force from time to time, are available lted on Mediobanca’s website (www.mediobanca.com).

According to the Conditions, the Successor Rate or the Underlying Successor Rate and the Adjustments Spread (if any) will be identified in accordance with the Mediobanca’s Contingency Plans applicable from time to time.

In light of the above and of the fact that Mediobanca is required to constantly update its Contingency Plans, it could be possible that the Successor Rate or the Underlying Successor Rate and the Adjustments Spread (if any) determined upon the occurrence of a Benchmark Rate Event may differ from those that would have been determined according to the Contingency Plans as at the date of this Base Prospectus.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation or any of the international or national and the possible application of the benchmark replacement provisions of the Securities, investigations and licensing issues in making any investment decision with respect to the Securities linked to a "benchmark" since the rate of interest will be changed in ways which may be adverse to holders of such Securities, without any requirement that the consent of such holders be obtained.

Administrator/Benchmark Event

If specified as an Optional Additional Disruption Event in the applicable Final Terms, the occurrence of an Administrator/Benchmark Event may, in accordance with the Contingency Plans in force from time to time, lead to early settlement or adjustment of the Securities, which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including, if applicable to reflect increased costs. An Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or permanently cancelled, or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn.

The market continues to develop in relation to risk-free rates (including overnight rates) as reference rates for Securities paying a floating remuneration rate or linked to an Underlying Interest Rate

The use of risk-free rates - including those such as the Sterling Overnight Index Average ("SONIA"), the Secured Overnight Financing Rate ("SOFR"), the euro short-term rate ("€STR") and the daily Swiss Average Rate Overnight ("SARON"), as reference rates for securities continues to develop. This relates not only to the substance of the calculation and the development and adoption of market infrastructure for the issuance and trading of securities referencing such rates, but also how widely such rates and methodologies might be adopted.

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Conditions and used in relation to Securities that reference risk-free rates issued under this Programme. The Issuers may in the future also issue Securities referencing SONIA, SOFR, €STR or SARON that differ materially in terms of interest determination when compared with any previous Securities issued by it under this Programme. The development of risk-free rates for the eurobond/securities markets could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Securities that reference a risk-free rate issued under this Programme from time to time.

In addition, the manner of adoption or application of risk-free rates in the securities markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such reference rates in the securities, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities referencing such risk-free rates.

In particular, investors should be aware that several different methodologies have been used in risk-free rate securities issued to date. International Working Groups have identified all the alternative reference rates (ARRs) as well as various TERM rates (eg. €STR TERM, SONIA TERM, SOFR TERM and TORF). If the relevant risk-free rates do not prove to be widely used in securities like the Securities, the trading price of such Securities linked to such risk-free rates may be lower than those of Securities referencing indices that are more widely used.

Investors should consider these matters when making their investment decision with respect to any Securities which reference SONIA, SOFR, €STR, SARON or any related indices.

Risk-free rates may differ from inter-bank offered rates in a number of material respects and have a limited history

Risk-free rates may differ from inter-bank offered rates in a number of material respects. These include (without limitation) being backwards-looking, in most cases, calculated on a compounded or weighted average basis, risk-free, overnight rates and, in the case of SOFR, secured, whereas such interbank offered rates are generally expressed on the basis of a forward-looking term, are unsecured and include a risk-element based on interbank lending. As such, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates for the Securities. Furthermore, SOFR is a secured rate that represents overnight secured funding transactions, and therefore will perform differently over time to an unsecured rate. For example, since publication of SOFR began on 3 April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Risk-free rates offered as alternatives to interbank offered rates also have a limited history. For that reason, future performance of such rates may be difficult to predict based on their limited historical performance. The level of such rates during the term of the Securities may bear little or no relation to historical levels. Prior observed patterns, if any, in the behaviour of market variables and their relation to such rates such as correlations, may change in the future. Investors should not rely on historical performance data as an indicator of the future performance of such risk-free rates nor should they rely on any hypothetical data.

Furthermore, remuneration on Securities which reference a backwards-looking risk-free rate is only capable of being determined immediately prior to the relevant Remuneration Payment Date. It may be difficult for investors in Securities which reference such risk-free rates reliably to estimate the amount of remuneration which will be payable on such Securities, and some investors may be unable or unwilling to trade such Securities without changes to their IT systems, both of which could adversely impact the liquidity of such Securities. Further, in contrast to Securities linked to interbank offered rates, if Securities are early settled on a date which is not a Remuneration Payment Date, if the relevant Securities provide for the payment of the remuneration up to such

early settlement date, the final Remuneration Rate payable in respect of such Securities shall be determined by reference to a shortened period ending immediately prior to the date on which the Securities are scheduled for settlement.

The administrator of SONIA, SOFR, €STR or SARON or any related indices may make changes that could change the value of SONIA, SOFR, €STR or SARON any related index, or discontinue SONIA, SOFR, €STR or SARON or any related index

The Bank of England, the Federal Reserve, Bank of New York, SIX Swiss Exchange AG or the European Central Bank (or their successors) as administrators of SONIA, SOFR, SARON or €STR, respectively, may make methodological or other changes that could change the value of these risk-free rates and/or indices, including changes related to the method by which such risk-free rate is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR, SARON or €STR, or timing related to the publication of SONIA, SOFR, SARON or €STR or any related indices. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR, SARON or €STR or any related index (in which case a fallback method of determining the remuneration rate on the Securities will apply). The administrator has no obligation to consider the interests of Securityholders when calculating, adjusting, converting, revising or discontinuing any such risk-free rate.

(C) Product Specific Risk Factors

Certain considerations associated with Index Securities

General

An investment in Index Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Index Securities, Securityholders will receive an amount (if any) determined by reference to the value of the underlying index/indices. Such underlying index may be a well known and widely published index or an index which may not be widely published or available.

Factors affecting the performance of Indices may adversely affect the value of the Securities. Indices are comprised of a synthetic portfolio of shares, bonds, currency exchange rates, commodities, property or other assets, and as such, the performance of an Index is dependent upon the performance of components of such index, which may include interest rates, currency developments, political factors, market factors such as the general trends in capital markets or broad based indices and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. If an Index does not perform as expected, this will materially and adversely affect the value of Index Securities. In addition the performance of an Index may also be reduced for fees received by the different entities performing activities in connection with such Index (e.g. advisory, reallocation and structuring fees) which may negate any positive performance of the Index and, if the Index performs negatively, increase a Securityholders' loss of investment.

Index Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference the value of the underlying index/indices.

For the avoidance of doubt, the relevant Issuer and/or its Affiliates may not be able to trade on and hedge its obligations in respect of the index under the Securities notwithstanding the calculation or publication of the level of such index. In the event that any relevant date for valuation is a Disrupted Day for such index, that valuation date shall be the first succeeding day that is not a Disrupted Day and on which the Issuer or relevant affiliate is able to trade on and hedge its obligations in respect of such index, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Strike Date for valuation, the Calculation Agent will not be able to determine the initial or strike level for the index or (ii) the final date for valuation, the Calculation Agent will not determine the final level for the index until such time as the disruption is no longer subsisting, or the specified maximum days of disruption has elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the index may result in a delay in the payment of the Cash Settlement Amount.

Returns on the Securities do not reflect a direct investment in underlying shares or other assets comprising the Index

The return payable on Securities that reference indices may not reflect the return a potential investor would realise if it actually owned the relevant assets comprising the components of the Index or owned a different form of interest in the relevant Index. For example, if the components of the Indices are shares, holders of Securities will not receive any dividends paid or distributions made on those shares and will not participate in the return on

those dividends or distributions unless the relevant Index takes such dividends into account for purposes of calculating the relevant level. Similarly, holders of Securities will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant Index. Accordingly, holders of Securities that reference Indices as Underlying Reference may receive a lower payment upon settlement of such Securities than such holder of Securities would have received if it had invested in the components of the Index directly or other comparable instruments linked to the Index.

A change in the composition or discontinuance of an Index could adversely affect the market value of the Securities

The sponsor of any Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The changing of components of any Index may affect the level of such Index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the holders of the Index Securities. The sponsor of any such Index may also alter, discontinue or suspend calculation or dissemination of such Index. The sponsor of an Index will have no involvement in the offer and sale of the Index Securities and will have no obligation to any holder of such Securities. Accordingly, the sponsor of an Index may take any actions in respect of such Index without regard to the interests of the holder of the Securities, and any of these actions could adversely affect the market value of the Index Securities.

Certain considerations associated with Share Securities

General

An investment in Share Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Share Securities, Securityholders will receive an amount (if any) determined by reference to the value of the share(s), GDRs and/or ADRs and/or the physical delivery of a given number of share(s), GDRs and/or ADRs. Accordingly, an investment in Share Securities may bear similar market risks to a direct equity investment and investors should take advice accordingly. Share Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying share(s), GDRs and/or ADRs.

In the case of Share Securities, no issuer of the underlying shares will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Securities, and none of the Issuer, the Guarantor (if applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the share, GDRs and/or ADRs will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the share, GDRs and/or ADRs and therefore the trading price of the Securities.

Except as provided in the Conditions, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Securities relate.

The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors are not within the relevant Issuer's control and may result in a decline in the value of the Securities.

Lack of rights in respect of Shares

Share Securities do not represent a claim against or an investment in any issuer of the relevant share(s) and investors will not have any right of recourse under the Share Securities to any such company or the shares. Share Securities are not in any way sponsored, endorsed or promoted by any issuer of the relevant share(s) and such companies have no obligation to take into account the consequences of their actions for any holders. Accordingly, the issuer of a share may take any actions in respect of such share without regard to the interests of the investors in the Share Securities, and any of these actions could adversely affect the market value of the Share Securities.

Physical delivery of Shares

Where the Securities linked to Shares include the are Physical Delivery, the Issuer will settle such Share Securities at their maturity by delivering Shares to the investor and the investors will receive such Shares rather than a monetary amount upon maturity. Securityholders will, therefore, be exposed to the issuer of such Shares and the risks associated with such Shares. The investor should not assume that he or she will be able to sell such Shares for a specific price after the settlement of the Securities, and in particular not for the subscription or purchase price of the Share Securities. Under certain circumstances the Shares may only have a very low value or may, in fact, be worthless. Securityholders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Shares.

Certain considerations associated with ETI Securities

An investment in ETI Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of ETI Securities, Securityholders will receive an amount (if any) determined by reference to the value of the interests in exchange traded instruments or a basket of interests in exchange traded instruments and/or the physical delivery of a given number of interests in exchange traded instruments. Accordingly, an investment in ETI Securities may bear similar market risks to a direct exchange traded instrument investment, and investors should take advice accordingly. ETI Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the interests in exchange traded instruments or the basket of interests in exchange traded instruments.

Whilst interests in exchange traded instruments are traded on an exchange and are therefore valued in a similar manner as a share traded on an exchange, certain provisions related to ETI Securities are similar to the provisions related to funds and Fund Securities.

In the case of ETI Securities, no exchange traded instrument will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Securities, and none of the Issuer, the Guarantor (if

applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such exchange traded instrument contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the interests in the exchange traded instrument will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an exchange traded instrument could affect the trading price of interests in the exchange traded instruments and therefore the trading price of the Securities. ETI Securities do not provide Securityholders with any participation rights in the underlying ETI(s) and, except in certain circumstances in the case of Physical Delivery Securities, do not entitle holders of ETI Securities to any ownership interest or rights in such ETI(s).

Except as provided in the Conditions, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant exchange traded instruments to which such Securities relate.

Certain considerations associated with Debt Securities

An investment in Debt Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Debt Securities, Securityholders will receive an amount (if any) determined by reference to the price or yield of the underlying debt instrument(s) (as specified in the applicable Final Terms) and/or the physical delivery of a given number of debt instrument(s). Accordingly, an investment in Debt Securities may bear similar market risks to a direct debt instrument investment, and investors should take advice accordingly. Debt Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the price or yield of the underlying debt instrument(s) (as specified in the applicable Final Terms).

Certain considerations associated with Commodity Securities

General

An investment in Commodity Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Commodity Securities, Securityholders will receive an amount (if any) determined by reference to the value of the commodity, commodity index, commodities and/or commodity indices. Accordingly, an investment in Commodity Securities may bear similar market risks to a direct commodity investment, and investors should take advice accordingly. Commodity Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying commodity, commodity index, commodities and/or commodity indices.

Where the Securities are linked to a commodity index, such commodity index may be a well known and widely available commodity index (such as the S&P GSCI®) or a commodity index which may be less well known in which case information (including past performance) may be less readily available. The commodity index may be comprised of futures contracts, mono-indices, or other commodity indices. Pursuant to the operational rules of the relevant commodity index, the commodity index is scheduled to be calculated on a periodic basis (for example on each weekday). In the event that one of the levels, values or prices of a component included in the commodity

index is not available for any reason on a relevant day of calculation including, without limitation, (a) where it is a not a business day in respect of that commodity index component or (b) that commodity index component is subject to a market disruption event, then the calculation agent of the commodity index may, but is not obliged to, calculate the level of the commodity index for the relevant day by taking a value for the affected index component on the first day following the end of a specified maximum days of disruption based on the price at which it is able to sell or otherwise realise any hedge position. Such an occurrence may potentially result in a delay in the publication of the commodity index and the level of the commodity index may be affected.

The relevant Issuer and/or its Affiliates may not be able to hedge its obligations in respect of the commodity index under the Securities notwithstanding the calculation and publication of the level of the commodity index. In the event that a Market Disruption Event is occurring on any relevant date for valuation, that valuation date will be postponed until the first succeeding day that is not a Commodity Disrupted Day, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Initial Pricing Date or Strike Date for valuation, the Calculation Agent will be unable to determine the initial or strike level for the commodity index and (ii) on the final date for valuation, the Calculation Agent will be unable to determine the final level for the commodity index, until either the Market Disruption Event has ceased or the specified maximum days of disruption have elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the commodity index may result in a delay in the payment of the Cash Settlement Amount.

Factors affecting the performance of Commodities may adversely affect the value of the relevant Commodity Securities; Commodity prices may be more volatile than other asset classes

The prices of commodities may be volatile and may fluctuate substantially if, for example, natural disasters or catastrophes, such as hurricanes, fires, or earthquakes, affect the supply or production of such commodities. Commodity prices also fluctuate due to general macro-economic forces and general market movements. The price of commodities may also fluctuate substantially if conflict or war affects the supply or production of such commodities. If any amount payable in respect of a Security is linked to the price of a commodity, any change in the price of such commodity may result in the reduction of the amount of such payment in respect of a Security. The reduction in the amount payable on the settlement of the Security may result, in some cases, in a Securityholder receiving a smaller sum on settlement of the Security than the amount originally invested in such Commodity Security.

Commodities may reference physical commodities or commodity contracts, and certain commodity contracts may be traded on unregulated or "under-regulated" exchanges

Commodities comprise both (i) "physical" commodities, which need to be stored and transported, and which are generally traded at a "spot" price, and (ii) commodity contracts, which are agreements either to (a) buy or sell a set amount of an underlying physical commodity at a predetermined price and delivery period (which may be referred to as a delivery month), or to (b) make and receive a cash payment based on changes in the price of the underlying physical commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants "over-the-counter" on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such "over-the-counter" contracts may not be subject to the same provisions as, and the protections afforded to, contracts traded on regulated specialised futures exchanges, and there may therefore be additional risks related to the liquidity and price histories of the relevant contracts and any Securities which reference any such commodity contracts may have reduced liquidity or greater price volatility or be subject to more extensive market disruptions.

In the case of a direct investment in commodity futures contracts, the invested capital may be applied in whole or in part by way of collateral in respect of the future claims of the respective counterparties under the commodity futures contracts. Such capital will generally bear interest, and the interest yield will increase the return of the investor making such direct investment. However, Holders of Securities linked to the price of commodity futures contracts do not participate in such interest yields from the hypothetical fully collateralised investment in commodity futures contracts.

Certain Additional Considerations Associated with Commodity Securities valued by reference to Futures Contracts or Debt Securities, Index Securities or Currency Securities where Futures Price Valuation is specified as applicable

Financial futures contracts are standardised futures transactions that are linked to financial instruments (e.g. stocks, bonds, indices, interest rates and foreign currencies). Commodity futures contracts are standardised futures transactions that are linked to commodities (e.g. mineral commodities, agricultural products and precious metals). A futures transaction constitutes the contractual obligation to buy or sell a certain amount or number of the respective underlying at a fixed price and at a predetermined future point in time. Futures contracts are traded on futures exchanges and standardised for this purpose with respect to their contract size, the nature and quality of the underlying as well as delivery places and dates, if any. Generally, there is a strong correlation between the price development of an underlying financial instrument or commodity (each or "**underlying**") on the spot market and the corresponding futures exchange. However, the price of a futures contract will generally be traded at a premium on, or discount from, the spot price of the underlying. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g. in the case of commodities, warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the underlying, there can be significant differences in the liquidity of the spot and the futures markets.

Investment in futures contracts involves certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain exchanges limit fluctuations in such futures contract prices pursuant to "daily limits". Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, contracts can neither be bought nor sold unless holders are willing to trade at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. For example, futures contract prices in various underlyings occasionally exceed the daily limit for several days with little or no trading. Such losses could have an adverse effect on the return of Securities linked to the affected futures contracts. Any illiquidity disruption or force

majeure event (such as an act of God, fire, flood, severe weather conditions, act of governmental authority or a labour dispute or shortage) is likely to have an adverse effect on the value of or trading in the underlying or futures contracts on such underlying and adversely affect the value of the Securities. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Commodity Securities which are linked to commodity futures contracts may provide a different return from Commodity Securities linked to the relevant physical commodity.

Where the Securities are linked to the exchange price of a futures contract, knowledge of the market of the underlying to which the futures contract is linked as well as of the functioning and evaluation factors of futures contracts is necessary to make a valid assessment of the risks associated with the purchase of these Securities.

In the case of Debt Securities, Index Securities or Currency Securities where Futures Price Valuation is applicable, the Securities are exposed to a futures or options contract relating to a synthetic debt instrument (in the case of Debt Securities), an index (in the case of Index Securities) or a rate of exchange (in the case of Currency Securities) and bear similar market risks to a direct investment in such futures or options contract.

Certain additional considerations associated with Rolling Futures Contract Securities

Futures contracts have a predetermined expiration date. Holding a futures contract until expiration will result in delivery of the physical underlying or the requirement to make or receive a cash settlement amount. Rolling Futures Contract Securities are valued by reference to futures contracts that have a delivery or expiry month that do not correspond with the term of the Securities. Consequently the futures contracts are "rolled" which means that the futures contract that is nearing expiration (the "**near-dated futures contracts**") is sold before it expires and a futures contract that has an expiration date further in the future (the "**longer-dated futures contracts**") is purchased ("**Rolling**"). In order to maintain an ongoing exposure to such underlyings Rolling of the applicable futures contracts is applied.

An investment in futures contracts where the future is a commodity may increase or decrease through Rolling. Where the price of a near-dated futures contract is greater than the price of the longer-dated futures contract (the underlying is said to be in "**backwardation**"), then Rolling from the former to the latter will result in greater exposure to the longer-dated futures contract. Therefore, any loss or gain on the new positions will be greater than if an investor had synthetically held the same number of underlying contracts as before the Rolling. Conversely, where the price of the near-dated futures contract is lower than the price of the longer-dated futures contract (the underlying is said to be in "**contango**") then Rolling will result in less exposure to the longer-dated futures contract. Therefore, any gain or loss on the new positions will be less than if an investor had synthetically held the same number of underlying contracts as before the Rolling.

Depending on whether the Securities are synthetically "long" or "short" the relevant futures contract, where a futures contract is in contango, this is expected to (though may not) have a negative (in the case of a "long" position) or positive (in the case of a "short" position) effect over time on the value of the Securities. Where a futures contract is in backwardation this is expected to (though may not) have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect over time on the value of the Securities. Where an underlying contract is in contango, then the price of the longer-dated underlying contract will be expected to (but

may not) decrease over time as it nears expiry. In such event, Rolling is expected to have a negative effect (in the case of a "long" position) or positive (in the case of a "short" position) on an investment in the underlying contract. Where an underlying contract is in backwardation, then the price of the longer-dated underlying contract is expected to (but may not) increase over time as it nears expiry. In such event, Rolling is expected to have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect on an investment in the underlying contract.

If, on any Futures Rollover Date (as defined below), a Market Disruption Event (as defined in Commodity Security Condition 2), a Commodity Index Adjustment Event (as defined in Commodity Security Condition 4) or a Non-Commencement or Discontinuance of an Exchange-traded Contract (as defined in Index Security Condition 5.1, Debt Security Condition 6 or Currency Security Condition 5), as applicable, occurs and it is impossible or materially impracticable for the Calculation Agent to select a futures contract and/or at such time hedge the relevant Issuer's obligations in respect of the Securities then:

- (i) in the case of an Index Security, Debt Security or Currency Security that is a Rolling Futures Contract Security:
 - (a) unless Delayed Settlement on Occurrence of Non-Commencement or Discontinuance of an Exchange-traded Contract or (in the case of Index Securities), Highest Value, Market Value or Monetisation Option, is specified as being applicable in the applicable Final Terms, the relevant Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the relevant Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of such Security, taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
 - (b) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to the Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (as specified in the applicable Final Terms); or

- (c) in the case of Index Securities, if Highest Value is specified as being applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated as the greater of the fair market value of such Security (notwithstanding any illegality (if applicable) and taking into account any Non-Commencement or Discontinuance of an Exchange-traded Contract) and the Protected Amount specified in the applicable Final Terms, provided that, (x) no costs shall be deducted from such amount and (y) such amount shall include the reimbursement by the Issuer, *pro rata* (calculated from the early settlement date notified to the Securityholders until the scheduled Settlement Date of the Securities of any costs (including but not limited to any structuring costs) paid by Securityholders to the Issuer in the Issue Price of the Securities, such amount to be paid to the Securityholders on the date notified to the Securityholders in the notice of early settlement;
- (d) in the case of Index Securities, if Market Value is specified as being applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with Condition 10, settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated as the fair market value of a Security (notwithstanding the illegality (if applicable) and taking into account any Non-Commencement or Discontinuance of an Exchange-traded Contract) calculated (x) without taking account of any costs and no costs shall be deducted from such amount, and (y) including the reimbursement by the Issuer, *pro rata* (calculated from the early settlement date notified to the Securityholders until the scheduled Settlement Date of the Securities), of any costs (including but not limited to any structuring costs) paid by Securityholders to the Issuer in the Issue Price of the Securities, such an amount to be paid to the Securityholders on the date notified in the notice of early settlement;
- (e) in the case of Index Securities, if Monetisation Option is specified as being applicable in the applicable Final Terms the Issuer will on giving notice to Securityholders in accordance with Condition 10, settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated as:
 - (i) the Monetisation Amount (as defined below) (including the reimbursement by the Issuer, *pro rata* (calculated from the early settlement date notified to the Securityholders until the scheduled Settlement Date of the Securities), of any costs (including but not limited to any structuring costs) paid by Securityholders to the Issuer in the Issue Price of the Securities), such amount

to be paid by the Issuer (notwithstanding the notice of early settlement) on the Settlement Date; or

- (ii) if the Securityholder duly elects to receive the fair market value, as provided below, the fair market value of such Security, such amount to be paid by the Issuer on the date fixed for early settlement, as notified to the Securityholders.

Where:

"Monetisation Amount" means, in respect of a Security, an amount equal to the greater of the Protected Amount specified in the applicable Final Terms and the amount calculated by the Calculation Agent as follows:

$$(S + D) \times (1 + r)^n$$

"S" is the present value of the Protected Amount of such Security on the date on which the event triggering early settlement occurs;

"D" is the market value of the Derivative Component on the date on which the event triggering early settlement occurs;

"r" is a hypothetical annual interest rate that would be applied on an equivalent hypothetical debt instrument issued by the Issuer (or the Guarantor, as applicable) with the same time to redemption as the remaining time to settlement on the Securities from the date fixed for early settlement until the scheduled settlement date of the Securities;

"n" is the time remaining until the scheduled settlement date of the Securities, expressed as a number of years; and

"Derivative Component" means the option component or embedded derivative in respect of the Security or the interest amount due under the Security in order to enable the Issuer to issue the Security at the issue price and on their applicable terms. The value of the Derivative Component will be determined by the Calculation Agent, taking into account a number of factors, including, but not limited to:

- (A) market prices or values for the underlying reference asset(s) or basis (bases) and other relevant economic variables (such as interest rates; dividend rates; financing costs; the value, price or level of any relevant underlying reference asset(s) or basis (bases) and any futures or options relating to any of them; the volatility of any relevant underlying reference asset(s) or basis (bases); and exchange rates (if applicable));
- (B) the time remaining until the scheduled settlement date of the Securities;
- (C) internal pricing models; and

(D) prices at which other market participants might bid for the Derivative Component.

- (ii) in the case of a Commodity Security that is a Rolling Futures Contract Security, the relevant Issuer may take such actions as described in Commodity Security Condition 3 (*Consequences of a Market Disruption Event and Disruption Fallbacks*) and Commodity Security Condition 4 (*Adjustments to a Commodity Index*), as applicable (see "*Market Disruption Events relating to Commodity Securities*" and "*Adjustment Events relating to Commodity Index Securities*" below).

Rollover ("**Rollover**") will be effected on the relevant day specified in the applicable Final Terms or the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner within the Futures Rollover Period specified in the applicable Final Terms (the "**Futures Rollover Date**") within a certain time frame shortly before the expiration date of the current futures contract. Consequently on any Futures Rollover Date, the relevant Issuer will liquidate its positions assumed through the corresponding hedging arrangements in relation to the existing futures contract whose expiration is imminent and will assume corresponding positions in relation to a new futures contract having identical terms but with a different maturity selected by it acting in good faith and in a commercially reasonable manner.

At each Rollover there may be expenses incurred in replacing the futures contract which may have an adverse effect on the return on the Securities.

Prospective investors should be aware that in respect of Rolling Futures Contract Securities, the price difference between the futures involved in each Rollover may have a negative effect on the value of the securities and in the long term be higher than the positive performance of the underlying and result in a total loss of the investment in the Securities. Rolling Futures Contract Securities may not be suitable for investors who intend to invest medium to long term.

Certain Considerations Associated with Inflation Index Securities

An investment in Inflation Index Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Inflation Index Securities, Securityholders will receive an amount (if any) determined by reference to the value of the underlying inflation index/indices. Inflation Index Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying inflation index/indices.

Certain considerations associated with Currency Securities

An investment in Currency Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Currency Securities, Securityholders will receive an amount (if any) determined by reference to the value of the currency/currencies and/or the physical delivery of a given amount of a currency or currencies. Accordingly, an investment in Currency Securities may bear similar market risks to a direct currency investment, and investors should take advice accordingly. Currency Linked Remuneration

Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying currency/currencies.

Fluctuations in exchange rates of the relevant currency (or basket of currencies) will affect the value of Currency Securities. The performance of foreign exchange rates is dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to international and domestic political factors, economic factors (including inflation rates in the countries concerned, interest rate differences between the respective countries), economic forecasts, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Measures taken by governments and central banks include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a Settlement Currency that would affect exchange rates and the availability of a Settlement Currency which would affect return on the Currency Security or ability of the relevant Issuer to make delivery in the Settlement Currency.

Furthermore, investors who intend to convert gains or losses from the exercise, settlement or sale of Currency Securities into their home currency may be affected by fluctuations in exchange rates between their home currency and the relevant currency (or basket of currencies). Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency (or basket of currencies), regardless of other market forces. Investors in Currency Securities risk losing their entire investment if exchange rates of the relevant currency (or basket of currencies) do not move in the anticipated direction.

If additional warrants, securities or options relating to particular currencies or particular currency indices are subsequently issued, the supply of warrants and options relating to such currencies or currency indices, as applicable, in the market will increase, which could cause the price at which the Securities and such other warrants, securities and options trade in the secondary market to decline significantly.

Currency Securities linked to emerging market currencies may experience greater volatility and less certainty as to the future levels of such emerging market currencies or their rate of exchange as against other currencies. See also "*Certain Considerations Associated with Securities Linked to Emerging Markets*".

Certain considerations associated with Dual Currency Certificates

An investment in Certificates in relation to which Dual Currency Certificates is specified as being applicable in the Final Terms (such Certificates being "**Dual Currency Certificates**") will entail significant risks not associated with an investment in a conventional debt security. Fluctuations in exchange rates will affect the value of Dual Currency Certificates. Currency values related to the exchange rates may be affected by complex political and economic factors, including governmental action to fix or support the value of an exchange rate, regardless of other market forces. Investors in Dual Currency Certificates risk losing their entire investment if the relevant exchange rates do not move in the anticipated direction.

Certain considerations associated with Fund Securities

An investment in Fund Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Fund Securities, Securityholders will receive an amount (if any) determined by reference to the value of the fund shares and/or the physical delivery of a given number of fund shares or units. Accordingly, an investment in Fund Securities may bear similar market risks to a direct fund investment, and investors should take advice accordingly. Fund Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying fund shares or units. The price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser.

No Fund Service Provider will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Fund Securities, and none of the Issuer, the Guarantor (if applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Securities. Fund Securities do not provide Securityholders with any participation rights in the underlying Fund(s) and except in certain circumstances in the case of Physical Delivery Securities, do not entitle holders of Fund Securities to any ownership interest or rights in such Fund(s).

Except as provided in the Conditions, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Securities relate.

Certain considerations associated with Futures Securities

An investment in Futures Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Futures Securities, Securityholders will receive an amount (if any) determined by reference to the value of the futures contract or basket of futures contracts. Accordingly, an investment in Futures Securities may bear similar market risks to a direct futures contract investment, and investors should take advice accordingly. Futures Linked Remuneration Amount Certificates pay remuneration amount(s) calculated by reference to the value of the underlying futures contract or basket of futures contracts.

Additional risk factors for Credit Securities

General

The Issuers may issue Certificates ("**Credit Securities**") where the amount payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities. Credit Securities are Certificates in respect of which the relevant Issuer has effectively bought protection on one or more Reference Entities from the

Securityholders and payments on such Certificates and/or Certificate such Issuer's obligation is to deliver certain specified assets, will depend on the occurrence of a Credit Event with respect to such Reference Entities.

The price of such Certificates may be volatile and will be affected by, amongst other things, the time remaining to the settlement date and the creditworthiness of the Reference Entities, which in turn may be affected by the economic, financial and political events in one or more jurisdictions. In purchasing Credit Securities, investors assume credit exposure to both the specified Reference Entity or Reference Entities and the Issuer (and the Guarantor, if applicable) of the Credit Securities. The credit risk to investors may further be increased if the specified Reference Entity or Reference Entities are concentrated in the same industry sector or geographic area as the Issuer (or the Guarantor, if applicable).

Where the Certificates provide for physical delivery, to the extent this is allowed under the applicable laws and regulations in force from time to time, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any Affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such Affiliate to hedge such Issuer's obligations in respect of the Certificates. Any such determination may delay settlement in respect of the Certificates and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Certificates and, in the case of payment of a cash amount, will affect the timing of the valuation of such Certificates and, as a result, the amount payable on settlement. Prospective investors should review the Conditions and the applicable Final Terms to ascertain whether and how such provisions should apply to the Certificates.

The relevant Issuer's obligations in respect of Credit Securities are irrespective of the existence or amount of the relevant Issuer's and/or any Affiliates' credit exposure to a Reference Entity, and the relevant Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit Securities will be exposed to the credit risk of one or more Reference Entities, which exposure shall be to the full extent of their investment in such Credit Securities. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Securityholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Credit Security is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. A subscription or purchase of Credit Securities does not constitute an investment in, or short selling, any obligations of the Reference Entity/ies, or of any interest in any such obligations. Securityholders of the Credit Securities will have rights solely against the relevant Issuer of the Credit Securities and will not have any rights against any Reference Entity. In particular, Securityholders will not have: (a) the right to vote or give or withhold from giving any consent in relation to any obligation of any Reference Entity; (b) the right to receive any coupons, fees or other distributions which may be paid by any Reference Entity to holders of the any obligations of any Reference Entity; or (c) the right to receive any information from any Reference

Entity. Accordingly, an investment in the Credit Securities is not equivalent to an investment in, or short selling of, any obligation of a Reference Entity relating to such Credit Securities.

Securityholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

A Credit Event may occur prior to the Trade Date

Securityholders of Credit Securities may suffer a loss of some or all of the settlement amount of the Certificates in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date, if the Credit Event Backstop Date is specified as a date falling prior to such date. Accordingly, the Securityholder of Credit Securities will be exposed to the risk of the occurrence of any Credit Event after the applicable Credit Event Backstop Date even if it occurs prior to the Issue Date, which may be several weeks after the Trade Date. If the Reference Entity suffers a Credit Event prior to the Issue Date (or if the Credit Event Backstop Date is specified as a date falling on or after the Issue Date, on or after such date), and a Credit Event Notice, and a Notice of Publicly Available Information (if applicable) are properly delivered, which may occur on or shortly after the Issue Date of the Certificates, such Certificates will be subject to exercise, at or shortly after the Issue Date. No remuneration will be paid on such Certificates. Neither the Calculation Agent or the relevant Issuer nor any of their respective Affiliates has any responsibility to inform any Securityholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Increased credit risks associated with First-to-Default and Nth-to-Default Credit Securities

Where the Certificates are First-to-Default Credit Securities, the Certificates will be subject to settlement in full as described above upon the occurrence of the first Credit Event in relation to any of the Reference Entities. The credit risk to Securityholders may therefore be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Certificates are Nth-to-Default Credit Securities, the Certificates will be subject to settlement in full as described above upon the occurrence of a Credit Event in relation to the nth Reference Entity. The credit risk to Securityholders may therefore be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Additional credit risks associated with Basket Credit Securities

Where the Certificates are Basket Credit Securities and a Distribution End Date is specified in the Final Terms, the Final Terms shall specify whether "Distribution Period Settlement", "Settlement at Maturity" or "Distribution Period Event Determination Date Disapplication" applies. If "Distribution Period Settlement" applies and an Event Determination Date occurs on or prior to the Distribution End Date, Securityholders of such Credit Securities will suffer a loss of remuneration and the Certificates will be settled, in part, early.

Securityholders increased risks associated with Tranched Credit Securities

Tranched Credit Securities create leveraged exposure to the credit risk of the Reference Entities as the implicit portfolio size or size of the aggregate notional amount of the Reference Portfolio is significantly larger than the aggregate notional amount of the Credit Securities. Investors can lose a significant part or all of their investment even if a Credit Event occurs in respect of only one or a few of the Reference Entities comprising the Reference Portfolio. The value of the Tranching Credit Securities may be more volatile and credit losses in respect of the Tranching Credit Securities may be greater than would be the case in the absence of such leverage. The value of the Tranching Credit Securities may also be adversely affected by changes in the relative value of different tranches of credit risk on the Reference Portfolio. Such relative value changes may occur as a result of, for example, changes in assumptions by market participants to model the credit risk of the Reference Portfolio, correlation between the Reference Entities, as well as changes in the supply of and demand for credit protection in relation to each such tranche are exposed to risk on Reference Entities.

Where Cash Settlement or Auction Settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a settlement of the Certificates in a reduced settlement amount or at zero, and, (if applicable) in a reduction of the amount on which remuneration is calculated. Where Physical Settlement applies, the occurrence of a Credit Event may result in the settlement of the Certificates based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount.

Issuer and Calculation Agent will act in their own interests

Each of the Issuer and the Calculation Agent will exercise its rights under the terms of the Credit Securities, including in particular the right to designate a Credit Event and the right to select obligations of the affected Reference Entity for valuation or in respect of the Certificates, delivery, in its own interests and those of its Affiliates, and not in the interests of investors in the Certificates. The exercise of such rights in such manner, for example by the selection of the eligible obligations of the Reference Entity having the lowest possible market value for valuation, may result in an increased credit loss for holders of the Credit Securities. The exercise of such discretion by the Issuer or Calculation Agent could adversely affect (i) the value of the amount in cash, if any, which will be paid in respect of any Certificates on the applicable settlement date, if any, or (ii) the market value of the portfolio of obligations the relevant Issuer will Deliver.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent shall (in the absence of manifest error) be final and binding on the Securityholders. In performing its duties pursuant to the Certificates and making any determinations expressed to be made by it, for example, as to substitute Reference Obligations or Successors, the Calculation Agent shall act in its sole and absolute discretion and is under no obligation to act in the interests of the Securityholders, nor will it be liable to account for any profit or other benefit which may accrue to it as a result of such determinations. The Calculation Agent is not bound to follow, or act in accordance with, any determination of the relevant Credit Derivatives Determinations Committee.

Actions of Reference Entities may affect the value of the Credit Securities

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Credit Securities. Securityholders of the Credit Securities should be aware that the Reference Entities to which the value of the Certificates is exposed, and the terms of such exposure, may change over the term of the Certificates.

Suspension of Obligations will suspend payment of principal and interest

In certain circumstances, pending a resolution of a Credit Derivatives Determination Committee, all of the obligations of the relevant Issuer under each Credit Security (including any obligation to deliver any notices, pay any settlement amount) shall, be and remain suspended until ISDA publicly announces that the relevant Credit Derivatives Determination Committee has resolved the matter in question or not to determine such matters. The Calculation Agent will provide notice of such suspension as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. No interest shall accrue on any payments which are suspended in accordance with the above.

Use of Auction Settlement may adversely affect returns to Securityholders

Where the Credit Securities are settled following the occurrence of a Credit Event by reference to an auction sponsored by ISDA, the relevant Issuer or its Affiliates may act as a participating bidder in any such auction and, in such capacity, may take certain actions which may influence the Auction Final Price including (without limitation) submitting bids, offers and physical settlement requests with respect to the obligations of the Reference Entity. If the relevant Issuer or its Affiliates participate in an Auction, then they will do so without regard to the interests of Securityholders, and such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the Credit Securities. Securityholders will have no right to submit bids and/or offers in an Auction.

The Auction Final Price determined pursuant to an auction may be greater than the market value that would otherwise have been determined in respect of the specified Reference Entity or its obligations. In particular, the Auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. Neither the Calculation Agent, the relevant Issuer nor any of their respective Affiliates has any responsibility for verifying that any auction price is reflective of current market values, for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. The relevant Issuer will have no responsibility to dispute any determination of an Auction Final Price or to verify that any Auction has been conducted in accordance with its rules.

Following an M(M)R Restructuring Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no relevant auction relating to credit derivative transactions with a maturity corresponding to the Credit Securities, if the Calculation Agent exercises the right of the buyer or, as the case may be, seller of credit risk protection under the Credit Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower than the amount which would have been determined based on quotations sought from third party dealers, thereby reducing the amount payable to Securityholders.

Use of Cash Settlement may adversely affect returns to Securityholders

If the Certificates are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be "bid-side" - that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced or may vary substantially as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly different from the value of the relevant obligation which would be determined by reference to (for example) the present value of related cashflows. Quotations will be deemed to be zero in the event that no such quotations are available.

"Cheapest-to-Deliver" risk

Since the Issuer, as buyer of protection in respect of the Certificates has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the lowest market value that are permitted to be selected pursuant to the terms of the Certificates. This could result in a lower recovery value and hence greater losses for investors in the Certificates.

Cash settlement (whether by reference to an auction or a dealer poll) may be less advantageous than physical delivery of assets

Payments on the Credit Securities following the occurrence of an Event Determination Date may be in cash and will reflect the value of relevant obligations of the affected Reference Entity at a given date. Such payments may be less than the recovery which would ultimately be realised by a holder of debt obligations of the affected Reference Entity, whether by means of enforcement of rights following a default or receipt of distributions following an insolvency or otherwise.

Asset Package Delivery risks

The 2014 Definitions introduced the concept of asset package delivery. In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" applies in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond.

If the resulting asset package is deemed to be zero where there are no resulting assets, the related credit loss will be 100 per cent. notwithstanding the recovery value on any other obligations of the Reference Entity.

The risk factors "*Use of Auction Settlement may adversely affect returns to Securityholders*" and "*Use of Cash Settlement may adversely affect returns to the Securityholders*" above would apply to any asset or asset package.

If an asset in the asset package is a non-transferable instrument or non-financial instrument, the value of such asset will be the market value determined by reference to a specialist valuation or in accordance with methodology determined by the Credit Derivatives Determinations Committees. See "*Conflicts of Interest - Credit Derivatives Determinations Committees*" and "*Risks associated with Credit Derivatives Determinations Committees*" for risk factors relating to valuation in accordance with CDDC methodology.

Increased risks where "Zero Recovery" or a specified Final Price is applicable

Where "Zero Recovery" is applicable, if a Credit Event occurs in respect of a Reference Entity, investors will automatically lose an amount in principal or notional amount of the Credit Security equal to the portion of the Credit Security which is allocated to the credit risk of the affected Reference Entity. Investors should note that, in such circumstances, the Auction Final Price, Weighted Average Final Price or Final Price (which would otherwise apply in the absence of "Zero Recovery") or the recovery on any investments in bonds or other instruments issued by such Reference Entity will be higher (and may be significantly higher) than the zero recovery value ascribed to such Reference Entity under the Certificates. Likewise, if the Final Price is specified in the Final Terms in relation to Credit Securities, such fixed Final Price may be lower (and may be significantly lower) than the recovery which an investor in bonds or instruments issued by such Reference Entity would receive. Furthermore, both where "Zero Recovery" or a specified Final Price is applicable, the market value of the Credit Securities may not reflect the market value of a credit default swap on the Reference Entity or any other products linked to or issued by the Reference Entity which may be significantly higher.

The Issuer and Calculation Agent are not obliged to disclose information on Reference Entities

The relevant Issuer and the Calculation Agent are not obliged to disclose to holders of the Certificates any information which they may have at the Issue Date or receive thereafter in relation to any Reference Entity.

The value of the Credit Securities may be adversely affected by Illiquidity or Cessation of Indices

In determining the value of the Credit Securities, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Certificates may be adversely affected.

Historical performance may not predict future performance

Individual Reference Entities may not perform as indicated by the historical performance of similar entities and no assurance can be given with respect to the future performance of any Reference Entities. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Credit Securities.

Limited provision of information about the Reference Entities

Investors should conduct their own investigation and analysis with respect to the creditworthiness of Reference Entities and the likelihood of the occurrence of a succession event or Credit Event.

Reference Entities may not be subject to regular reporting requirements under securities laws. The Reference Entities may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Reference Entities may be different from, and in some cases less than, the

information available for entities that are subject to the reporting requirements under the United Kingdom securities laws. None of the Issuers or the Calculation Agent or any of their respective Affiliates make any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

None of the Issuers or the Calculation Agent or any of their respective Affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or a succession event with respect to the Reference Entities.

Prospective investors should note that in certain circumstances, there may be no requirement for the relevant Issuer to give information which is generally publicly available in relation to the occurrence of a Credit Event. If a Credit Event occurs in respect of an Obligation of a Reference Entity which is not public, Securityholders of the Credit Securities may not be able to verify the occurrence of such Credit Event.

Risks associated with Credit Derivatives Determinations Committees

The institutions of the Credit Derivatives Determinations Committee owe no duty to the Securityholders and have the ability to make determinations that may materially affect the Securityholders, such as the occurrence of a Credit Event or a succession event. A Credit Derivatives Determinations Committee may be able to make determinations without action or knowledge of the Securityholders.

Securityholders may have no role in the composition of any Credit Derivatives Determinations Committee. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on a Credit Derivatives Determinations Committee and the Securityholders may have no role in establishing such criteria. In addition, the composition of a Credit Derivatives Determinations Committee will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Securityholders may have no control over the process for selecting institutions to participate on a Credit Derivatives Determinations Committee and, to the extent provided for in the Certificates, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Securityholders may have no recourse against either the institutions serving on a Credit Derivatives Determinations Committee or the external reviewers. Institutions serving on a Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on a Credit Derivatives Determinations Committee do not owe any duty to the Securityholders and the Securityholders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Securityholders should also be aware that institutions serving on a Credit Derivatives Determinations Committee have no duty to research or verify the veracity of information on which a specific determination is based. In addition, a Credit Derivatives Determinations Committee is not obligated to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts. If the relevant Issuer or the Calculation

Agent or any of their respective Affiliates serve as a member of a Credit Derivatives Determinations Committee at any time, then they will act without regard to the interests of the Securityholders.

Securityholders are responsible for obtaining information relating to deliberations of a Credit Derivatives Determinations Committee. Notices of questions referred to the Credit Derivatives Determinations Committee, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the relevant Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Securityholders of such information (other than as expressly provided in respect of the Certificates). Failure by the Securityholders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Certificates and Securityholders are solely responsible for obtaining any such information.

Investors should read the Credit Derivatives Determinations Committees Rules as amended from time to time as set out on the ISDA Credit Derivatives Determinations Committees website, <https://www.cdsdeterminationscommittees.org/dc-rules/> and reach their own views prior to making any investment decisions. Investors should however note that the Rules may subsequently be amended from time to time without the consent or input of the Securityholders and the powers of the Credit Derivatives Determinations Committee may be expanded or modified as a result.

Multiple Auctions following Restructuring Credit Event

Where multiple concurrent Auctions are held following a Restructuring Credit Event, the relevant Issuer may be entitled to select a particular Auction for the purposes of settlement of the Credit Securities. The relevant Issuer will make such election acting in its own interests and not in the interests of the Securityholders.

The Calculation Agent may modify the terms of the Credit Securities

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Credit Securities to the extent reasonably necessary to ensure consistency with the prevailing market standard terms or market trading conventions, without the consent of Securityholders or prior notice to Securityholders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Credit Securities, it will do so without regard to the interests of the holders of the Credit Securities and any such modification may be prejudicial to the interests of the holder of the Credit Securities.

The Calculation Agent may modify the terms of the Securities

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Securities to the extent reasonably necessary to ensure consistency with the prevailing market standard terms or market trading conventions, without the consent of Securityholders or prior notice to Securityholders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities.

Certain considerations associated with Hybrid Securities

An investment in Hybrid Securities will entail significant risks not associated with an investment in a conventional debt security. On settlement of Hybrid Securities, Securityholders will receive an amount (if any) determined by reference to the value of a number of different Underlying References. Hybrid Linked Remuneration Amount Securities pay remuneration amount(s) calculated by reference to the value of a number of different Underlying References.

(D) Additional factors relating to certain Underlying References

Certain considerations associated with Securities linked to ETIs

ETI Securities linked to one or more interest in exchange traded instruments reflect the performance of such interest in exchange traded instruments.

An exchange traded instrument may invest in and trade in a variety of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques may include, but are not limited to, the use of leverage, short sales of securities, derivative transactions, such as swaps, stock options, index options, futures contracts and options on futures, lending of securities to certain financial institutions, entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies.

The amount payable on ETI Securities will be dependent on the performance of the relevant ETI(s) underlying the ETI Securities, which may be linked to the reported NAV per ETI Interest, the trading price available on an exchange for the relevant ETI Interest and/or the actual redemption proceeds the Hedge Provider or a hypothetical investor in the relevant ETI(s) would receive. The amount payable on the ETI Securities may be less and in certain circumstances may be significantly less than the return from a direct investment in the relevant ETI(s) and may be zero.

Unlike Funds, exchange traded instruments are not actively managed. The value of an interest in an exchange traded instrument will decline, more or less, in line with the decline of any securities or the value of any index underlying or linked to the relevant exchange traded instrument. Exchange traded instruments involve risks similar to those of investing in any equity securities traded on an exchange, such as market fluctuations caused by, amongst other things, economic and political developments, changes in interest rates and perceived trends in prices of securities. Where the relevant exchange traded instrument is linked to a particular index, the return on such exchange traded instrument may not match the return of the particular index.

Potential investors in ETI Securities should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by the relevant exchange traded instrument(s) and in no way guarantee the performance of an exchange traded instrument or the amount payable to holders of ETI Securities.

In hedging the relevant Issuer's obligations under the ETI Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant exchange traded

instrument(s), replicating the performance of the relevant exchange traded instrument(s) or holding any of the assets underlying the relevant exchange traded instrument(s). The Hedge Provider may perform any number of different hedging practices with respect to ETI Securities.

Investing directly or indirectly in interests in exchange traded instruments is generally considered to be risky. If the exchange traded instrument does not perform sufficiently well, the value of the Securities will fall, and may in certain circumstances be zero.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant exchange traded instrument before purchasing any ETI Securities. None of the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates make any representation as to the creditworthiness of any relevant exchange traded instrument or any such exchange traded instrument's administrative, custodian, investment manager or adviser.

Certain considerations associated with Securities linked to Funds

Where an Issuer issues Fund Securities linked to one or more Funds, the relevant Securities reflect the performance of such fund(s).

Investors in Fund Securities should understand that:

- (i) there are market risks associated with an actual investment in the underlying Fund(s), and while the Fund Securities do not create an actual interest in the underlying Fund(s), the return on the Fund Securities generally involves the same associated risks as an actual investment in the underlying Fund(s). The Issuer has not purported and does not purport to be a source of information concerning the market risks associated with such underlying Fund or Fund interests;
- (ii) third parties, not related to the relevant Issuer or the Guarantor, may subscribe for and redeem underlying fund interests. These investments may affect the performance and volatility of such Fund's net asset value and so subsequently affect, from time to time, the return on the Fund Securities;
- (iii) the relevant Issuer has no control over the underlying Fund(s) or the performance of such Fund(s) and any performance of the underlying Fund(s) necessary for the Fund Securities to yield a specified return is not assured. Potential investors in the Fund Securities should understand that the performance of the underlying Fund(s) may, depending on the terms of the Fund Securities, strongly affect the value of payments on the Fund Securities;
- (iv) the value of units in the underlying Fund(s) and the income from it may fluctuate significantly. The Issuer makes no representation or warranty about, or guarantee of, the performance of an underlying Fund;
- (v) the relevant Issuer has not provided and will not provide during the term of the Fund Securities prospective investors with any information or advice with respect to the performance of an underlying Fund. The Issuer may have acquired, or during the term of the Fund Securities may acquire, non-public information with respect to an underlying Fund, which will not be provided to the Securityholders;

- (vi) the Funds may follow a wide range of investment strategies, invest in assets in a number of different countries and invest in assets denominated in a number of different currencies. The returns to the Securityholders may, therefore, be materially affected by, among other things, market trends, exchange rate fluctuations and political and economic developments in the relevant countries. This may lead to substantial volatility in the net asset value of the Funds;
- (vii) the funds may have investment strategies and guidelines that are very broad. They may also be free to engage in additional or alternative strategies without reference to any other person including the relevant Issuer, the Guarantor and the investor;
- (viii) Funds may trade and invest in a broad range of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures, swaps and options. Such financial instruments and investment techniques may also include, but are not limited to, the use of leverage, short sales of securities, transactions that involve the lending and borrowing of securities to financial institutions, investment in sub-investment grade or non-readily realizable investments, uncovered options transactions, options and futures transactions and foreign exchange transactions and the use of concentrated portfolios, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. While these investment strategies and financial instruments provide the investment manager and/or adviser of a Fund the flexibility to implement a range of strategies in an attempt to generate positive returns for the Fund, they also create the risk of significant losses and, in certain circumstances, may magnify adverse market developments and losses that may adversely affect the value of the Fund and therefore the return on the Fund Securities. Potential investors should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by a Fund and therefore in no way guarantee the performance of a Fund and therefore the amount due to Securityholders on redemption of the Fund Securities;
- (ix) Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of Funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities;
- (x) the amount payable on Fund Securities will be dependent on the performance of the relevant Fund(s) underlying the Fund Securities, which may be linked to the reported NAV per Fund Share and/or the actual redemption proceeds the Hedge Provider or a hypothetical investor in the relevant Fund(s) would receive. The amount payable on the Fund Securities may be less than the amount payable from a direct investment in the relevant Fund(s);
- (xi) in certain circumstances, a Fund may continue reporting a NAV per Fund Share, but the Hedge Provider or a hypothetical investor may not be able to realise their investment in the relevant Fund(s) at such reported NAV per Fund Share. In such a case, the return on the Fund Securities may be less and in

certain circumstances may be significantly less than the reported performance of the relevant Fund(s) and may be zero;

- (xii) a Fund may be established as part of a master-feeder fund structure. Generally, a master-feeder fund structure involves the incorporation of a "master" fund company into which separate and distinct "feeder" funds invest. Active management of any investment strategy is, generally, performed at the master fund level. In instances where the Fund(s) underlying the relevant Fund Securities are "feeder" funds, the Extraordinary Fund Events (see "*Other Events relating to Fund Securities*" below) extend to include the "master" fund and its service providers. In conducting their own due diligence of the relevant Fund(s), prospective investors should pay particular attention to whether the relevant Fund(s) are established as part of a master-feeder fund structure;
- (xiii) In hedging the relevant Issuer's obligations under the Fund Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant Fund(s), replicating the performance of the relevant Fund(s) or holding any of the assets underlying the relevant Fund(s). The Hedge Provider may perform any number of different hedging practices with respect to Fund Securities;
- (xiv) the Funds may often rely on a few individuals to determine their investment strategies and to make investment decision. The loss of such individuals could jeopardise the performance of the Funds;
- (xv) the funds may be engaged in a high level of trading with commensurately high brokerage and transaction costs, as well as costs associated with leverage, such as interest payments and margin maintenance. Such costs will adversely affect the net asset value of the Funds and so may adversely affect the return on the Fund Securities;
- (xvi) the Funds will be exposed to credit risks against brokers and other counterparties with which they deal in implementing their investment strategies;
- (xvii) where underlying Funds invest in unlisted shares and certain other assets, risks associated with reduced liquidity and lack of objective valuations will arise. Additionally, the underlying Funds may invest in emerging markets. This involves risks attributable to nationalisations, expropriation or taxation, currency devaluation, foreign exchange control, political, social or diplomatic instability or governmental restrictions. The capital markets in such countries have substantially less volume, and are generally less liquid and more volatile, than those in more developed markets. Disclosure and regulatory requirements could be less stringent than in other markets, with a low level of monitoring and limited and uneven enforcements of existing regulations;
- (xviii) an underlying Fund may have no or a limited history, with no proven track record in achieving their stated investment objectives;
- (xix) some or all of the underlying Funds may be wholly unregulated investment vehicles and may trade in futures, options, forward exchange contracts and other derivative instruments, which may represent

significant investment risks. In addition, underlying funds may acquire leveraged trading positions, including through the use of borrowing, and may engage in short selling. As a result of leverage, relatively small adverse price movements may result in substantial losses; and

- (xx) an underlying Fund itself may be subject to fees and charges on its investments which shall be borne by such Fund and incorporated in the value of interests in it.

Risk from composition and changes to a fund

The management company of a Fund can, without regard to the interests of the investors in the Fund Securities, add, delete or substitute any funds by reference to which the value of a fund is calculated or make other methodological changes that could change the investment profile of a fund. The management company may also determine to discontinue a Fund. If a Fund is discontinued, it may be replaced by other assets and/or the Fund Securities may be settled early.

In the event that a Fund is materially modified or permanently cancelled or the management company fails to calculate or announce the NAV per Fund Share, the Calculation Agent will either make such adjustments to any variable, calculation methodology, valuation, settlement, payment terms or any other terms and conditions of the Fund Securities as the Calculation Agent determines appropriate to account for the effect on the Fund Securities of such events, or may settle the Fund Securities early. Any of these decisions or determinations may adversely impact the value of the Fund Securities.

Funds may be subject to transfer restrictions and illiquidity

Funds and the assets thereof may be subject to transfer restrictions arising by way of applicable securities laws or otherwise. Such restrictions may mean that investors are not entitled to acquire interests in the Funds directly. Holders of units or shares (however described) in a Fund may have the right to transfer or withdraw their investment in the Fund only at certain times and upon completion of certain documentary formalities and such rights may be subject to suspension or alteration. These circumstances may affect the NAV per Fund Share of the relevant Funds. Potential investors should familiarise themselves with the features of the Funds in this regard.

Events which affect the value of a Fund will affect the value of Fund Securities

The occurrence of any of the following events could materially and adversely affect the value of shares or units in a Fund, and have a consequent material and adverse effect on the value of Fund Securities:

- *Valuation:* The valuation of Funds is generally controlled by the management company of the Fund. Valuations are performed in accordance the terms and conditions governing the Fund. Such valuations may be based upon the unaudited financial records of the Fund and any accounts pertaining thereto. Such valuations may be preliminary calculations of the net asset values of the Fund and accounts. The Fund may hold a significant number of investments which are illiquid or otherwise not actively traded and in respect of which reliable net asset values may be difficult to obtain. In consequence, the management company may vary certain quotations for such investments held by the fund in order to reflect its judgement as to the fair value thereof.

Therefore, valuations may be subject to subsequent adjustment upward or downward. Uncertainties as to the valuation of fund assets and/or accounts may have an adverse effect on the net asset value of the Fund where such judgements regarding valuations prove to be incorrect.

- *Trading charges:* The performance of a Fund will be affected by the charges incurred thereby relating to the investments of such Fund. The Fund may engage in short-term trading which may result in increased turnover and associated higher than normal brokerage commissions and other expenses.
- *Legal and regulatory changes:* Future changes to applicable law or regulation may be adverse to a Fund.
- *Performance risk:* No assurance can be given relating to the present or future performance of a Fund. The performance of a Fund is dependent on the performance of the management company thereof. Certain management companies may utilise analytical models upon which investment decisions are based. No assurance can be given that these persons will succeed in meeting the investment objectives of the Fund, that any analytical model used thereby will prove to be correct or that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which the Funds have invested or will invest will prove accurate.
- *Effect of exchange rates and exchange controls:* The NAV per Fund Share could be adversely affected not only by hedging costs and changes in exchange rates, but also by local exchange control regulations and other limitations, including currency exchange limitations and political and economic developments in the relevant countries.
- *Market risks:* The markets in which a Fund invests may prove to be highly volatile from time to time as a result of, for example, sudden changes in government policies on taxation and currency repatriation or changes in legislation relating to the value of foreign ownership in companies, and this may affect the net asset value at which a fund may liquidate positions to meet repurchase requests or other funding requirements.
- *Hedging risks:* A Fund may in certain cases employ various hedging techniques to reduce the risk of investment positions. A substantial risk remains, nonetheless, that such techniques will not always be available and when available, will not always be effective in limiting losses. A fund may take substantial unhedged positions.
- *Interest rate risks:* The values of securities held by a Fund (or by any underlying fund) tend to be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding NAV per Fund Share to move in directions which were not initially anticipated. To the extent that interest rate assumptions underlie the hedge ratios implemented in hedging a particular position, fluctuations in interest rates could invalidate those underlying assumptions and expose a Fund to losses.
- *Suspension of trading:* A securities exchange typically has the right to suspend or limit trading in any instrument traded on that exchange. A suspension could render it impossible for a Fund to liquidate positions and thereby expose a Fund to losses.

- *Dependence on key individuals:* The success of a Fund is dependent on the expertise of its managers. The loss of one or more individuals could have a material adverse effect on the ability of a fund manager to direct a Fund's portfolio, resulting in losses for a Fund and a decline in the value of a Fund. Indeed, certain fund managers may have only one principal, without whom the relevant fund manager could not continue to operate.
- *Experience of fund managers:* Certain Funds may be managed by investment managers who have managed funds for a relatively short period of time. The previous experience of such investment managers is typically in trading proprietary accounts of financial institutions or managing unhedged accounts of institutional asset managers or other investment firms. As such investment managers do not have direct experience in managing Funds, including experience with financial, legal or regulatory considerations unique to fund management, and there is generally less information available on which to base an opinion of such managers' investment and management expertise, investments with such investment managers may be subject to greater risk and uncertainty than investments with more experienced fund managers.
- *Risk of fraud:* There is a risk that a fund manager could divert or abscond with the assets, fail to follow agreed-upon investment strategies, provide false reports of operations or engage in other misconduct.
- *Performance compensation payable to fund managers:* The performance-based compensation paid to a fund manager is typically calculated on a basis that includes unrealised appreciation and may consequently be greater than if such compensation were based solely on realised gains. Each Fund generally calculates its own performance compensation based on its individual performance, irrespective of increases in the overall value of the Fund. Furthermore, when the Fund is rebalanced and an unprofitable underlying asset is removed, the loss carried forward by such Fund's trading is eliminated for purposes of calculating subsequent performance compensation due to the fund manager of any replacement underlying asset. Thus, there may be substantial incentive compensation due to the relevant fund manager even during a period when the portfolio of assets is incurring significant losses.

- *Risks of leverage:* A Fund may borrow subject to applicable restrictions provided by laws and typically utilise various lines of credit and other forms of leverage. In addition, certain of a Fund's investment strategies (primarily those utilising derivative instruments) may involve indirect forms of leverage. While leverage presents opportunities for increasing a Fund's total return, it increases the potential risk of loss as well. Any event which adversely affects the value of an investment by a fund is magnified to the extent that such investment is leveraged. Leverage can have a similar effect on issuers in which a Fund invests. The use of leverage by a Fund could result in substantial losses which would be greater than if leverage had not been used. A Fund's assets may be further leveraged or hedged by the use of derivatives. In addition, investments of a Fund may include investments in partnerships and other pooled investment vehicles, which themselves employ leverage to a significant extent. Such investments are subject to the same leverage risks as described above and a Fund could lose its entire investment. As a general matter, the banks and dealers that provide financing to a Fund can apply essentially discretionary margin, haircut, financing and security and collateral valuation policies. Changes by banks and dealers in these policies may result in large margin calls, loss of financing and forced liquidations of positions at disadvantageous net asset values.
- *Investment criteria:* It may be difficult to specify precisely or comprehensively the strategies of a Fund. As a result, it may not sometimes be clear whether or not a Fund fulfils the investment criteria set out in its offering document.
- *Risks of equity investments:* The investment orientation of a Fund may be based to a significant extent on equity investments. Investment in equity securities to aggressively seek capital appreciation is speculative and is generally perceived to encompass greater risks than those involved in connection with an investment in debt securities of comparable issuers.
- *Risks of fixed income investments:* A Fund may invest in fixed income securities and, therefore, may be exposed to the risk of default by the issuers of such securities. Such default may result in delays in payment, or non-payment of interest or principal when due. Furthermore, the net asset value of fixed income securities may also fluctuate with changes in prevailing interest rates and/or in the creditworthiness of the issuer, and these fluctuations may result in a loss of capital by a Fund.
- *Risks of collective investment schemes:* Some Funds may invest in other collective investment schemes. Investment in schemes of this type may afford the investor less transparency in respect of the ultimate assets of the scheme.
- *Large transactions:* Large subscriptions and redemptions may result in the liquidation or dilution of Fund assets that may affect the NAV per Fund Share of such Fund.
- *Emerging markets:* A Fund may invest in securities of governments of, or companies domiciled in, less-developed or emerging markets. See "*Certain considerations associated with Securities linked to emerging markets*". Custody arrangements in such countries may also present enhanced risk.
- *Risks of repos:* A Fund may use repurchase agreements. Under a repurchase agreement, a security is sold to a buyer and at the same time the seller of the security agrees to buy back the security at a later date at a higher net asset value. In the event of a bankruptcy or other default of the transferor of securities in a repurchase

agreement, a Fund could experience delays in liquidating the underlying securities and losses, including possible declines in the value of the collateral during the period while it seeks to enforce its rights thereto; possible subnormal levels of income and lack of access to income during this period and the expenses of enforcing its rights. In the case of a default by the transferee of securities in a repurchase agreement, the management company bears the risk that the transferee may not deliver the securities when required.

- *Risks of currency speculation:* A Fund may engage in exchange rate speculation. Foreign exchange rates have been highly volatile in recent years. The combination of volatility and leverage gives rise to the possibility of large profit but also carries a high risk of loss. In addition, there is counterparty credit risk since foreign exchange trading is done on a principal to principal basis.
- *Risks of commodity futures:* Commodity futures prices can be highly volatile. As a result of the low margin deposits normally required in futures trading, an extremely high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the investor. Like other leveraged investments, a futures transaction may result in losses in excess of the amount invested.
- *Risks of derivative instruments:* A Fund may use derivative instruments, such as collateralised debt obligations, stripped mortgage-backed securities, options and swaps. There are uncertainties as to how the derivatives market will perform during periods of unusual price volatility or instability, market illiquidity or credit distress. Substantial risks are also involved in borrowing and lending against such instruments. The prices of these instruments are volatile, market movements are difficult to predict and financing sources and related interest rates are subject to rapid change. One or more markets may move against the positions held by a Fund, thereby causing substantial losses. Most of these instruments are not traded on exchanges but rather through an informal network of banks and dealers. These banks and dealers have no obligation to make markets in these instruments and may apply essentially discretionary margin and credit requirements (and thus, in effect, force a Fund to close out its relevant positions). In addition, such instruments carry the additional risk of failure to perform by the counterparty to the transaction. Government policies, especially those of the U.S. Federal Reserve Board and non-U.S. central banks, have profound effects on interest and exchange rates which, in turn, affect prices of derivative instruments. Many other unforeseeable events, including actions by various government agencies and domestic and international political events, may cause sharp market fluctuations.
- *Risks of short selling:* A Fund may sell securities short. Short selling exposes a fund to theoretically unlimited risk due to the lack of an upper limit on the price to which a security may rise. Short selling involves the sale of borrowed stock. If a stock loan is called, the short seller may be forced to repurchase the stock at a loss. In addition, some traders may attempt to profit by forcing short sellers to incur a loss. Traders may make large purchases of a stock that has been sold short. The large purchases are intended to drive up the stock price, and cause the short sellers to incur losses. By doing this, the traders hope the short sellers will limit their losses by repurchasing the stock and force the stock price even higher.
- *Risks of arbitrage:* The use of arbitrage strategies by a Fund in no respect should be taken to imply that such strategies are without risk. Substantial losses may be incurred on “hedge” or “arbitrage” positions, and

illiquidity and default on one side of a position may effectively result in the position being transformed into an outright speculation. Every arbitrage strategy involves exposure to some second order risk of the market, such as the implied volatility in convertible bonds or warrants, the yield spread between similar term government bonds or the net asset value spread between different classes of stock for the same underlying firm. Further, there are few examples of ‘pure’ arbitrage funds. Most Funds also employ limited directional strategies which expose them to market risk.

- *Credit risk:* Many of the markets in which a fund effects its transactions are “over-the-counter” or “inter-dealer” markets. The participants in these markets are typically not subject to credit evaluation and regulatory oversight as are members of “exchange based” markets. To the extent that a Fund invests in swaps, derivatives or synthetic instruments, or other over-the-counter transactions in these markets, such Fund may take a credit risk with regard to parties with which it trades and also may bear the risk of settlement default. These risks may differ materially from those involved in exchange-traded transactions, which generally are characterised by clearing organisation guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from these protections, which in turn may subject a Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract or because of a credit or liquidity problem. Such “counterparty risk” is increased for contracts with longer maturities when events may intervene to prevent settlement. The ability of a Fund to transact business with any one or any number of counterparties, the lack of any independent evaluation of the counterparties or their financial capabilities, and the absence of a regulated market to facilitate settlement, may increase the potential for losses.
- *Risks relating to controlling stakes:* A Fund may take controlling stakes in companies. The exercise of control over a company imposes additional risks of liability for environmental damage, product defects, failure to supervise and other types of related liability.

As the shares of certain funds may only be redeemable on certain dates, there is a risk of delays or defaults in payment

The shares of a Fund may only be redeemable on certain redemption dates, subject to the prescribed notice period in respect of such Fund. This gives rise to a time delay between the execution of an order for redemption and payment of the proceeds on such redemption. If the Fund becomes insolvent following the date on which a redemption order would have to be notionally placed or the Calculation Agent determines that the relevant Fund would fail to pay to any shareholder in cash the full redemption proceeds owing to them if they redeemed their shares on the relevant date, an adjustment may be made by the Calculation Agent when calculating the return on the Securities to the NAV per Fund Share of the relevant Fund, thereby reducing the return on the Securities.

The market price of Fund Securities may be volatile and may depend on the time remaining to the settlement date and the volatility of the price of fund share(s) or unit(s). The price of fund share(s) or unit(s) may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the fund or funds may be traded.

For all the above reasons, investing directly or indirectly in Funds is generally considered to be risky. If the underlying Fund does not perform sufficiently well, the value of the Security will fall, and may in certain circumstances be zero.

Certain considerations associated with Securities linked to emerging markets

Each Issuer may issue Securities where the amount payable on settlement or the remuneration payable is linked to Underlying References which consist of (i) securities, funds or indices comprising securities of issuers that are

located in, or subject to regulation in, emerging or developing countries, or (ii) securities which are denominated in the currency of, or are traded in, emerging or developing countries or (iii) currencies of emerging or developing countries. Prospective investors should note that additional risks may be associated with investment in such Securities, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws including, but not limited to, those relating to expropriation, nationalisation and confiscation. Securities traded in emerging or developing countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be slower and more subject to failure than in markets in developed countries.

Increased custodian costs as well as administrative difficulties (such as the applicability of the laws of the jurisdictions of emerging or developing countries to custodians in such jurisdictions in various circumstances, including bankruptcy, ability to recover lost assets, expropriation, nationalisation and record access) may also arise from the maintenance of assets in such emerging or developing countries.

Prospective purchasers of the Securities should also be aware that the probability of the occurrence of a Hedging Disruption Event (or other Adjustment Event under the relevant legal terms as set out further in the General Security Conditions) and consequently loss of investment or profit by an investor may be higher for certain developing or emerging markets. Prospective investors are expected to conduct their own enquiries and be satisfied that there are additional risks associated with investments linked to the performance of underlying assets located in these markets.

Exchange control risks

Potential investors should be aware that there is the risk that authorities with jurisdiction over the Settlement Currency (as specified in the applicable Final Terms and/or the currency in which the Underlying Reference is denominated, such as government and monetary authorities, may impose or modify (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or transfer of funds in and out of the country. It is impossible to predict whether the value of one such currency relative to another will rise or fall during the term of the Securities.

(E) Additional factors relating to disruption and adjustments

If an Additional Disruption Event occurs, or any Optional Additional Disruption Event specified in the applicable Final Terms occurs (other than in respect of a Failure to Deliver due to Illiquidity), the Securities may be subject to adjustment (including, in the case of Share Securities linked to a Basket of Shares, adjustments to the Basket of Shares), early settlement or the amount payable on scheduled settlement may be different from the amount expected to be paid at scheduled settlement.

The Additional Disruption Events relate to changes in law (including changes in tax or regulatory capital requirements) and hedging disruptions in respect of any hedging transactions relating to the Securities (both as more fully set out in the Conditions).

If a Failure to Deliver due to Illiquidity occurs:

- (I) subject as provided in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date; and
- (II) in respect of any Affected Relevant Assets, in lieu of physical settlement, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security, by payment to the relevant Securityholder of the Failure to Deliver Settlement Price on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with the relevant Conditions. Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Securityholders.

Consequently the occurrence of an Additional Disruption Event and/or an Optional Additional Disruption Event may have an adverse effect on the value or liquidity of the Securities.

Market Disruption Events or failure to open of an exchange

If an issue of Securities includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on a date for valuation of an Underlying Reference and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such valuation date, any consequential postponement of the valuation date, or any alternative provisions for valuation provided in any Securities may have an adverse effect on the value and liquidity of such Securities.

The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Underlying Reference comprising a basket may also have such an adverse effect on Securities related to such basket. In addition, any such consequential postponement may result in the postponement of the relevant Settlement Date.

Adjustment events relating to Index Securities

In the case of Index Securities, if a relevant Index is (i) not calculated and announced by the Index Sponsor in respect of the Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then, in each case, that index will be deemed to be the Index.

The occurrence of an Index Modification, an Index Cancellation or an Index Disruption (each being an "**Index Adjustment Event**") may lead to (i) changes in the calculation of the relevant value or price (if the Calculation Agent determines such Index Adjustment Event has a material effect on the Securities), (ii) early settlement of the Securities or (iii) the amount payable on scheduled settlement of the Securities being different from the amount expected to be paid at scheduled settlement.

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

Potential Adjustment Events relating to Share Securities

In the case of Share Securities, following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, acting in good faith and in a commercially reasonable manner, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will make the corresponding adjustment, if any, to any terms of the Securities as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share). Such adjustment may have an adverse effect on the value and liquidity of the affected Share Securities.

Extraordinary Events relating to Share Securities

In the case of Share Securities the occurrence of an Extraordinary Event (as defined in the Share Security Conditions) in relation to a Share, may lead to:

- (A) adjustments to any of the terms of the Securities (including, in the case of Share Securities linked to a Basket of Shares, adjustments to and/or substitution of constituent shares of the Basket of Shares);
- (B) early settlement in whole or, in the case of Share Securities relating to a Basket of Shares, in part or the amount payable on scheduled settlement being different from the amount expected to be paid at scheduled settlement;
- (C) the Calculation Agent making an adjustment to any terms of the Securities which corresponds to any adjustment to the settlement terms of options on the Shares traded on such exchanges(s) or quotation system(s)) as the Issuer in its sole discretion shall select (the "**Option Exchange**") or, if options on the Shares are not traded on the Options Exchange, the Calculation Agent making such adjustment, if any, to any terms of the Securities as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

Following such settlement, an investor generally would not be able to reinvest the relevant proceeds at an effective interest rate as high as the effective return on the relevant Securities being settlement and may only be able to do so at a significantly lower rate, and potential investors should consider reinvestment risk in light of other investments available at that time. Consequently the occurrence of an Extraordinary Event in relation to a Share may have an adverse effect on the value or liquidity of the Securities.

Potential Adjustment Events relating to ETI Securities

In the case of ETI Securities, following the declaration by the relevant exchange traded instruments or any person appointed to provide services directly or indirectly in respect of such exchange traded instrument, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, acting in good faith and in a

commercially reasonable manner, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the ETI Interests and, if so, will make the corresponding adjustment, if any, to any terms of the Securities as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant ETI Interest).

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

Extraordinary Events relating to ETI Securities

In the case of ETI Securities if certain events ("**Extraordinary ETI Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Change in Related Parties/Key Persons Events, Modification Events, Net Asset Value/Investment/AUM Level Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the relevant Issuer may acting in good faith and in a commercially reasonable manner adjust the terms of the Securities to reflect such event, substitute the relevant ETI Interests or redeem the Securities.

Consequently the occurrence of an Extraordinary ETI Event may have an adverse effect on the value or liquidity of the Securities.

The Issuer will exercise its rights under the ETI Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, acting in good faith. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility to any of the Securityholders of the ETI Securities. The exercise of such rights in such manner may result in an increased loss in performance of the ETI Securities than if the Issuer had taken different action.

Market Disruption Events relating to Commodity Securities

If a Market Disruption Event occurs or is continuing on a date for valuation then:

- (A) the Calculation Agent will determine if such event has a material effect on the Securities and, if so, will calculate the relevant Remuneration Amount and/or Cash Settlement Amount and/or make another relevant calculation using, in lieu of a published price or level for the relevant Commodity or Commodity Index, the Commodity Fallback Value;
- (B) the Calculation Agent may substitute the relevant affected Commodity or Index Component with a Commodity or Index Component selected by it in accordance with the criteria set out in the Commodity Security Conditions and will make such adjustment, if any, to any terms of the Securities as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate;
or
- (C) the Issuer will redeem the Securities.

Consequently the occurrence of a Market Disruption Event in relation to a Commodity, Commodity Index or Index Component may have an adverse effect on the value or liquidity of the Securities.

Adjustment Events relating to Commodity Index Securities

In the case of a Securities linked to a Commodity Index, if a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor in respect of the Commodity Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor Commodity Index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then, in each case, that Commodity Index will be deemed to be the Commodity Index. The occurrence of a Commodity Index Modification, Commodity Index Cancellation or Commodity Index Disruption (each being a "**Commodity Index Adjustment Event**") may lead to:

- (A) the Calculation Agent determining the Relevant Price using, in lieu of a published level, the Commodity Fallback Value (if the Calculation Agent determines such Commodity Index Adjustment Event has a material effect on the Securities); or
- (B) early settlement of the Securities.

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

Other events relating to Fund Securities

In the case of Fund Securities, if certain events ("**Extraordinary Fund Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Fund Service Provider/Key Person Events, Modification Events, NAV per Fund Share/AUM Level Events, Reporting Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events, Dealing Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the Issuer may, acting in good faith and in a commercially reasonable manner, adjust the terms of the Securities to reflect such event, substitute the relevant Fund Shares or redeem the Securities.

Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the Securities.

In addition, in the event that redemption proceeds in respect of the underlying Fund Shares are not received by the Hedge Provider on or prior to the scheduled date for settlement, such settlement date may be postponed for a period of up to two calendar years (or such other period as may be specified in the applicable Final Terms) and no additional amount shall be payable as a result of such delay.

The Issuer will exercise its rights under the Fund Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, acting in good faith. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility to any of the Securityholders of the Fund Securities. The exercise of such rights in such manner may result in an increased loss in performance of the Fund Securities than if the Issuer had taken different action.

Settlement Disruption Events

In the case of Physical Delivery Securities, if a Settlement Disruption Event occurs or exists on the Delivery Date, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The relevant Issuer in these circumstances also has the right to pay the Disruption Cash Settlement Price (as defined below) in lieu of delivering the Entitlement. As further described below, the Disruption Cash Settlement may be less than the fair market value of the Entitlement.

The occurrence of a FX Settlement Disruption Event may lead to postponement or payment in an alternative currency

If "FX Settlement Disruption" applies to the Securities, and the Calculation Agent determines on the second Business Day prior to the relevant due date for payment (the "**FX Disrupted Payment Date**") that a FX Settlement Disruption Event has occurred and is continuing, investors should be aware that payments under the relevant Securities may (i) occur at a different time than expected and that no additional remuneration amount will be payable in respect of any delay in payment of any amount under the relevant Securities and (ii) be made in USD (the "**FX Settlement Disruption Currency**"). In certain circumstances, the rate of exchange used to convert the Specified Currency and/or Settlement Currency into the FX Settlement Disruption Currency, may not be the market rate of exchange for such currencies, and in some cases, may be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

Option to Vary Settlement

If so indicated in the Final Terms, the Issuer may, elect to vary the settlement of the Securities, by (i) in the case of cash settled securities, delivering or procuring delivery of the Entitlement instead of making payment of the Cash Settlement Amount to the relevant Securityholders or (ii) in the case of physical delivery securities, making payment of the Cash Settlement Amount to the relevant Securityholders instead of delivering or procuring delivery of the Entitlement.

Option to Substitute Assets or to Pay the Alternate Cash Settlement Amount

The Issuer may if the Calculation Agent determines (acting in good faith and in a commercially reasonable manner) that the Relevant Asset or Relevant Assets, as the case may be, comprise assets which are not freely tradable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant holders, but in lieu thereof to make payment to the relevant holders on the Settlement Date of the Alternate Settlement Cash Amount.

(F) Securities Subject to Settlement at the Option of the Issuer, Other Early Settlement (including Automatic Early Settlement) and Consequences of Early Settlement

An optional, other early settlement feature (including an Automatic Early Settlement feature) is likely to limit the market value of the Securities. In the case of Securities having an optional settlement feature, during any period when the relevant Issuer may elect to settle the relevant Securities, the market value of those Securities generally will not rise substantially above the price at which they can be settled. This also may be true prior to any

settlement period. In addition, the Final Terms may provide that the relevant Securities shall be settled early in specified circumstances, such as the occurrence of an Additional Disruption Event, an Optional Additional Disruption Event and/or an Automatic Early Settlement Event. Following an optional or early settlement (including an Automatic Early Settlement), a Securityholder generally would not be able to reinvest the settlement proceeds (if any) at an effective interest rate as high as the remuneration rate on the relevant Securities being settled, and may only be able to do so at a significantly lower rate. As a consequence the Securityholder may lose some or all of their investment. Potential investors should consider reinvestment risk in light of other investments available at that time. In addition, in the case of Securities with an Automatic Early Settlement feature, the value of the Securities and the amount that Securityholders receive upon an Automatic Early Settlement may not correlate with the value of the Underlying Reference, which may trigger such Automatic Early Settlement.

(G) Remuneration

Application of multipliers in respect of the determination of the Remuneration Rate

To the extent that Rate Multiplier or Reference Rate Multiplier applies in respect of the determination of the Remuneration Rate for Securities which pay remuneration at a floating rate, investors should be aware that any fluctuation of the underlying floating rate will be amplified by such multiplier. Where the Rate Multiplier or Reference Rate Multiplier is less than 1, this may adversely affect the return on the Securities which pay remuneration at a floating rate.

Maximum/Minimum Remuneration Rate

Potential investors should also consider that where the underlying remuneration rate does not rise above the level of the Minimum Remuneration Rate, comparable investments in securities which pay interest based on a fixed rate which is higher than the Minimum Remuneration Rate are likely to be more attractive to potential investors than an investment in the Securities. Under those conditions, investors in the Securities might find it difficult to sell their Securities on the secondary market (if any) or might only be able to realise the Securities at a price which may be substantially lower than the notional amount. To the extent a Maximum Remuneration Rate applies, investors should be aware that the Remuneration Rate is capped at such Maximum Remuneration Rate level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Securities.

Remuneration Barrier Event

Potential investors should also consider that where the Securities provide for the application of a Remuneration Barrier Event, upon the occurrence of such event the Securities will cease to bear remuneration. In such cases, investors will receive the Remuneration Amount on the immediately following Remuneration Payment Date and, thereafter, there will be no further Remuneration Payment Dates and no further Remuneration Amount will be payable. In the event that the relevant Final Terms specify that the Remuneration Barrier Event is applicable and "No Remuneration for Remuneration Period" is applicable and a Remuneration Barrier Event occurs, no Remuneration Amount will be payable on the next following Remuneration Payment Date.

Remuneration linked to an Underlying Reference

Remuneration payable on Linked Remuneration Amount Certificates may be determined by reference to an Underlying Reference or combinations of a number of different Underlying References. Potential investors should be aware that:

- (A) the market price of such Securities may be volatile;
- (B) they may receive no remuneration;
- (C) payment of remuneration may occur at a different time or in a different currency than expected;
- (D) an Underlying Reference may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (E) if an Underlying Reference is applied to Certificates in conjunction with a weighting greater than one or contains some other leverage factor, the effect of changes in the Underlying Reference on remuneration payable will be magnified;
- (F) the timing of changes in an Underlying Reference may affect the actual yield to investors, even if the average level is consistent with their expectations (in general, the earlier the change in the Underlying Reference, the greater the effect on yield); and
- (G) remuneration may only be payable and/or calculated in respect of certain specified days and/or periods on or during which the Underlying Reference or its value equals, exceeds and/or is less than certain specified thresholds.

(H) Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk that may be relevant in connection with an investment in Securities:

The secondary market generally

Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Securities.

The Issuer has no obligation to purchase the Securities from the Securityholders. However, should the relevant Issuer decide to purchase the Securities, the secondary market pricing that the relevant Issuer may provide on the Securities may reflect the unwinding cost of the hedging portfolio (if any).

Specific Buy Back Provisions

If Specific Buy Back Provisions is specified as being applicable to the Certificates in the relevant Final Terms, investors should be aware that Mediobanca, Mediobanca International and/or MBFL have issued the Certificates also for the purpose of entering into, from time to time, in certain Underlying Transactions. In this respect, the value of the Certificates shall reflect and shall be calculated on the basis of the Market Value of such Underlying Transactions. The composition of the Underlying Transaction will be made available to the investors in accordance with the method of publication indicated in the relevant Final Terms.

The Underlying Transactions will be selected from time to time by the relevant Issuer in its reasonable discretion, the relevant maturity and notional amount of such Underlying Transactions may be, respectively, longer or higher than the Maturity Date and Notional Amount of the relevant Certificates, and the relevant composition is subject to change during the life of the Certificates. Any changes in the composition of the Underlying Transaction could adversely affect the Market Value of the Underlying Transactions and, therefore, the value of the Certificates.

The Market Value of the Underlying Transactions, as determined by the relevant Issuer, acting in its capacity as Calculation Agent, in a fair and commercially reasonable manner and with reference to the market, could adversely affect the repurchase price, if any, of the Certificates. Therefore in the event that an investor requests the Issuer to repurchase the Certificates held by it prior to their maturity, and the Issuer accepts such repurchase, the price of the Certificates (Buy Back Price) will be determined taking into consideration the Market Value of such Underlying Transactions. In particular, investors should note that the Market Value of the Underlying Transactions could adversely and materially affect the Buy Back Price payable to the relevant investor, particularly where the Underlying Transactions have a maturity and notional amount longer or higher, respectively, than the Settlement Date and Notional Amount of the relevant Certificates.

The Specific Buy Back Provisions shall not affect the right of the investors to receive timely payments of any amounts due and performance of any non-cash delivery obligations under the Certificates. As consideration of the Issuer entering into the Underlying Transactions in relation to the Certificates, the Issuer will pay an Extra Yield on the Certificates.

The Specific Buy Back Provisions shall apply only to Certificates where Mediobanca and/or Mediobanca International act as Dealers and where the Notional Amount of Certificates is equal to at least Euro 100,000 (or its equivalent amount if issued in a different currency).

Exchange rate risks and exchange controls

The Issuer will pay amounts on the Securities in the Settlement Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Settlement Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Settlement Currency or revaluation of the

Investor's Currency or due to the official redenomination of the Settlement Currency and/or Investor's Currency) and the risk that authorities with jurisdiction over the Settlement Currency and/or the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Settlement Currency would decrease (i) the Investor's Currency-equivalent yield on the Securities (ii) the Investor's Currency equivalent value of the principal payable on the Securities and (iii) the Investor's Currency equivalent market value of the Securities. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest, principal or other amount than expected, or no interest or principal or other amount.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Securities are legal investments for it, (ii) Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Securities. Each prospective investor should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Certain specific information may not be known at the beginning of an offer period

The relevant Final Terms may provide that certain specific information relating to the Securities (such as certain amounts, levels, percentages, prices, rates or values (as applicable) used to determine or calculate amounts payable or assets deliverable in respect of the Securities) may not be fixed or determined until the end of the offer period. In such case, the Final Terms will specify in place of the relevant amounts, levels, percentages, prices, rates or values (as applicable), an indicative range of amounts, levels, percentages, prices, rates or values (as applicable).

The actual amount, level, percentage, price, rate or value, applicable to the Securities will be determined by the Issuer from within the range and will be made public prior to the Issue Date. The actual rate, level or percentage, as applicable, will be determined in accordance with market conditions by the Issuer in good faith and in a commercially reasonable manner.

Prospective investors will be required to make their investment decision based on the indicative range rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed after the investment decision is made but will apply to the Securities once issued.

Where an indicative range is specified in the Final Terms in respect of amounts, levels, percentages, prices, rates or values (as applicable), prospective investors should, assume that the actual amounts, levels, percentages, prices, rates or values (as applicable) fixed or determined at the end of the offer period may have a negative impact on the amounts payable or assets deliverable in respect of the Securities and consequently, have an adverse impact on the return on the Securities (when compared with other amounts, levels, percentages, prices, rates or values (as applicable) within any indicative range). Prospective investors should therefore make their decision to invest in the Securities on that basis.

Potential conflicts of interest relating to distributors or other entities involved in the offer or listing of the Securities

Potential conflicts of interest may arise in connection with the Securities, as any distributors or other entities involved in the offer and/or the listing of the Securities as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

Impact of costs and fees on the value of the Securities

Investors should note that issue price and/or offer price of the Securities may include fees (e.g. subscription fees, placement fees, direction fees, structuring fees (normally paid by the Issuer to the relevant intermediaries), fees received by the different entities performing activities in connection with an Underlying Reference) and/or other additional costs. Any such fees and costs may not be taken into account for the purposes of determining the price of such Securities on the secondary market (which will also depend on the prevailing market conditions) and could result in a difference between the original issue price and/or offer price, the theoretical value of the Securities, and/or the actual bid/offer price quoted by any intermediary in the secondary market. Any such difference may have an adverse effect on the value of the Securities, particularly immediately following the offer and the issue date relating to such Securities, where any such fees and/or costs may be deducted from the price at which such Securities can be sold by the initial investor in the secondary market.

Certain considerations associated with public offers of Securities

If Securities are distributed by means of a public offer, under certain circumstances indicated in the relevant Final Terms, the relevant Issuer and/or other entities specified in the Final Terms may have the right to withdraw the offer, which in such circumstances will be deemed to be null and void according to the terms indicated in the relevant Final Terms and to cancel the issuance of the Securities.

In such case, investors who have already paid or delivered subscription monies for the relevant Securities will be entitled to reimbursement of such amounts, but will not receive any compensation that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of such amounts.

The Issuer and/or the other entities specified in the applicable Final Terms may also terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities.

Furthermore, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates and the maturity date. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation.

In case of overallotment of the Securities, the investors should consider that subscription applications validly submitted may not be satisfied.

If indicated in the Final Terms, the Issuer will use the SeDeX for the distribution of the Securities according to the provisions of the rules governing SeDeX from time to time (the "**SeDeX Rules**"). In this case, Borsa Italiana shall verify the admission requirements of the Issuer and of the Securities and shall receive the request for admission to trading. Following this, Borsa Italiana shall admit the Securities to trading and commence trading of purchase and sales contracts on the market. At the end of the sale phase, if successful, and subject to compliance with the requirements laid down in the SeDeX Rules, the admission shall become final and Borsa Italiana shall establish the date for the start of trading on the SeDeX. The circumstance that, pursuant to this distribution process, potential investors can monitor (via market operators) the progress of the proposed purchases of the Securities during the offer period, may have an impact on the progress and results of the offer.

If the issue of the Securities does not take place because the admission requirements laid down in the SeDeX Rules are not satisfied, the admission decision shall cease to be effective and the contracts executed shall be considered as null and void. The contracts concluded during the distribution phase via electronic trading systems cannot be revoked unless otherwise provided in the applicable Final Terms.

Similar procedures might apply to other trading venues.

The relevant Final Terms may also provide that the effectiveness of the offer of Securities is conditional upon admission to listing or to trading on the relevant regulated market and/or multilateral trading facility indicated in the relevant Final Terms, occurring by the Issue Date. In such case, in the event that admission to listing or trading of the Securities does not take place by the Issue Date for whatever reason, the Issuer may withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, the potential investor will not receive any Securities, any subscription rights the potential investor has for the Securities will be cancelled and he/she will not be entitled to any compensation therefor.

Listing of Securities

In respect of Securities which are (in accordance with the applicable Final Terms) to be listed on a regulated market and/or admitted to trading on a multilateral trading facility, the relevant Issuer shall use all reasonable endeavours to maintain such listing and/or multilateral trading facility, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the relevant Issuer may apply to de-list the relevant Securities, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative admission to listing and/or trading within or outside the European Union, as it may decide.

If such an alternative admission is not available or is, in the opinion of the relevant Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained.

(I) Risks Relating to Secured Securities

Factors which are material for the purpose of assessing the risks associated with the Mortgaged Property.

Collateral

If the Securities are Secured Securities in order to secure its obligations MBFL will grant to the Security Trustee on behalf of the Securityholders security over the Collateral Assets or its rights in respect of the Collateral Assets. Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms then the Counterparty may be obliged under the Transfer Agreement, Credit Support Document and/or any Additional Charged Agreement to transfer the relevant Collateral Assets to MBFL from time to time. The purpose of the Charged Agreements may also be to allow MBFL to perform its scheduled obligations under the Secured Securities, all as described more fully in the applicable Final Terms. Where Collateral Arrangements Only is specified as applying the Final Terms it will be the responsibility of MBFL or, failing MBFL, the Guarantor, to provide the relevant Charged Assets and MBFL may have certain obligations or rights to adjust the Collateral Assets from time to time.

Shortfall on Realisation of Mortgaged Property

If the Securities are Secured Securities the security provided for a Series of Securities is limited to the Mortgaged Property in respect of such Series. The proceeds of realisation of the Mortgaged Property may be less than the sums due to the Securityholder in respect of such Series. In the event that a Shortfall exists, MBFL or, failing MBFL, the Guarantor, shall remain liable for the Shortfall pursuant to the terms of the Guarantee. Any Shortfall will constitute an unsecured claim by the Securityholder against MBFL or, if MBFL fails to make payment of such amount, the Guarantor. Investors should be aware that they are therefore exposed to the creditworthiness of MBFL and the Guarantor. In the event of the insolvency of MBFL and the Guarantor, investors may lose all or a substantial portion of their investment.

Adjustment of Collateral Assets

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms, then pursuant to the terms of the relevant Charged Agreement(s) and if so specified in the applicable Final Terms, MBFL and the Counterparty may transfer amounts of cash or securities to each other by way of credit support from time to time. Such amounts when held by MBFL will comprise part of the Collateral Assets. Investors should review carefully the provisions relating to the Charged Agreement/Collateral Arrangements to understand the effect of these on the Secured Securities. One possible approach is that the Counterparty may calculate the fair market value of the Secured Securities and the fair market value of Collateral Assets (taking into account all factors which the Counterparty deems relevant), and provided that no account shall be taken of the financial condition of (i) MBFL which shall be presumed to be able to perform fully its respective obligations under the Secured Securities or (ii) the Guarantor which shall be presumed to be able to perform fully its obligations under the Secured Securities Guarantee, and on such periodic basis as set out in the applicable Final Terms and the relevant Charged Agreement(s). In the event that on the date of valuation there is a mismatch between the fair market value of the Collateral Assets and the fair market value of the Secured Securities, the Counterparty shall deliver Collateral Assets and, as applicable, MBFL shall redeliver Collateral Assets to the Counterparty pursuant to the Credit Support Document, if applicable. If, prior to a valuation date, the fair market value of the Secured Securities increases, or the fair market value of the Collateral Assets decreases, investors will be exposed to the mismatch between the fair market value of the Secured Securities and the fair market value of the Collateral Assets until the next valuation date.

Where Collateral Arrangements Only is specified as applying in the Final Terms the terms of the Secured Securities may provide that the Collateral Assets may be adjusted in accordance with the terms of Secured Security Condition 5 (*Adjustment of Collateral Assets*). Such adjustment will be as specified in the applicable Final Terms and may be in whole or in part and may be for cash or other assets. Such adjustment may involve MBFL topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

The following considerations apply principally where Collateral Arrangements Only is specified as applying the Final Terms. However it is possible that similar features may be relevant where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms:

- The relevant adjustment rights of MBFL in respect of the Collateral Assets where applicable will be specified in the Final Terms. In the case where MBFL has the right but not the obligation to top up the Collateral Assets, holders of the Secured Securities should be aware that no assurance expressed or implied can be given that in any circumstances MBFL will exercise its right to provide any additional Collateral Assets. As a result Collateral Assets may be limited to the Initial Collateral Assets at all times.
- Where specified in the Final Terms, MBFL may have the right to remove excess Collateral Assets at any time to the extent that they are not then required to meet the relevant coverage requirement specified in the Final Terms. However, in this case investors should note that MBFL may be under no obligation to return the Collateral Assets at any time following the removal. It is possible that the relevant coverage requirement in respect of the Collateral Assets will not be met. As a result the Collateral Assets will be less than if MBFL had not exercised such right.
- In certain cases MBFL may have the right to substitute Collateral Assets and this may either be with the requirement that the value of the Collateral Asset immediately following the substitution remains at least equal to their value immediately prior to the substitution or it may be by reference to the requirement that the relevant coverage requirement for the Collateral Assets continues to be met immediately following the substitution. Where MBFL exercises any substitution right this may have a detrimental effect on the available Collateral Assets and their quality which may be disadvantageous to the holders of the Secured Securities. Any such substitution right may be exercised any number of times.

Investors should note that MBFL will only have an obligation to maintain the Collateral Assets where this is so specified in the Final Terms. In this case the maintenance obligation may be by reference to the nominal value of Collateral Assets or otherwise the value of the Collateral Assets determined in the manner as specified in the terms and conditions and the Final Terms. Investors should review carefully these provisions in order to understand clearly the way in which these may operate and their effect on the value of the Secured Securities. In the event that under Secured Security Condition 5 (*Adjustment of Collateral Assets*), MBFL or under the Credit Support Document (if applicable) the Counterparty is required to deliver additional Collateral Assets, the MBFL and/or the Counterparty shall do so as soon as practicable following the relevant valuation date. There may be a delay between the valuation date and the date on which MBFL and/or the Counterparty is able to deliver such additional Collateral Assets and investors will be exposed to the mismatch between the fair market value of the Secured Securities and the value of the Collateral Assets during such period.

Potential Conflicts of Interest between the Investors and the Counterparty

This section applies where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms. Various potential and actual conflicts of interest may arise between the interests of the Securityholder and the Counterparty, which is likely to be an affiliate of MBFL. Neither the Counterparty nor its affiliates is required to resolve such conflicts of interest in favour of the Securityholder and may pursue actions and take such steps that it deems necessary or appropriate to protect its interests without regard to the consequences for the Securityholder. In particular, the interests of the Counterparty may be adverse to those of the Securityholder. The terms of the Transfer Agreement and, if applicable, the Credit Support Document require the Counterparty to make certain determinations and exercise certain discretions (including as to the value of the Secured Securities and the Collateral Assets) and it may make such determinations and exercise such discretions without any regard for the interests of the Securityholder.

Collateral Management

In respect of certain Series of Secured Securities MBFL and, where applicable, the Counterparty may each appoint one or more agents to perform custodial and administrative functions relating to their obligations under the Secured Securities, the Transfer Agreement, the Collateral Assets or the Credit Support Document, as applicable. Such delegation shall not relieve MBFL or the Counterparty, where applicable, of their obligations under the Secured Securities, the relevant Transfer Agreement, the Collateral Assets or Credit Support Document, as applicable, and MBFL or the Counterparty shall be liable for the acts and omissions of their agents. In addition, a failure by any agent to perform its duties and obligations with respect to the Collateral Assets, or the occurrence of any adverse event in relation to any of those entities, may adversely affect the availability of the Collateral Assets, and consequently adversely affect the realisation of the Mortgaged Property.

Possible mandatory settlement or cancellation following termination of the Transfer Agreement or Credit Support Document

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms then if the Transfer Agreement or, if applicable, Credit Support Document is terminated in accordance with its terms prior to its stated date of termination, MBFL may, if such right is specified in the Final Terms, settle or cancel, as applicable, the Secured Securities in whole but not in part by payment of the Security Termination Amount. Following such settlement or cancellation an investor generally may not be able to reinvest the redemption or cancellation proceeds in a comparable security with an effective return as high as the return on the relevant Securities.

If the Transfer Agreement or Credit Support Document, as applicable, is terminated as a result of an event of default, the Security will, if so specified in the Final Terms, become enforceable.

Fluctuations in the value of the Mortgaged Property

The Collateral Assets may be subject to fluctuations in value. Investors should note that the value of the Collateral Assets may decrease between the time at which the Security becomes enforceable and the realisation of the Mortgaged Property. In extraordinary circumstances, the Mortgaged Property available at the time at which the Security becomes enforceable could completely lose its value by the time of realisation.

Substitution of the Collateral Assets at the option of the Counterparty and Counterparty control

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. Pursuant to the terms of the Transfer Agreement or the Credit Support Document, as applicable, the Counterparty may substitute existing Collateral Assets for Eligible Collateral. The Counterparty is not required to obtain the consent of MBFL or the Security Trustee prior to such substitution. The Counterparty may substitute the Collateral Assets any number of times over the term of the Secured Securities.

Where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms, pursuant to the terms of the Transfer Agreement or the Credit Support Document, as applicable, Collateral Assets will be (a) delivered to MBFL, (b) returned to the Counterparty, or (c) substituted, and in each case the selection of such Collateral Assets will be at the direction of the Counterparty.

Lack of diversification of the Mortgaged Property

Investors should note that it is possible the Collateral Assets will have low diversification; in other words, the Collateral Assets may be limited to one or few assets. Such low diversification increases the risk that the proceeds of realisation of the Mortgaged Property may be less than the sums due to the holders of the Secured Securities.

Application of Proceeds

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. Investors should note that in relation to a Series of Securities and in respect of the net proceeds of realisation of, or enforcement with respect to, the Mortgaged Property, if "Counterparty Priority Basis" is specified in the applicable Final Terms, the claims of the Counterparty to such proceeds will be senior to and therefore rank ahead of the claims of the holders of the Secured Securities.

Risk of a delay in the realisation of the Mortgaged Property in the event of the insolvency of MBFL

In the event of the insolvency of MBFL, the realisation of the Mortgaged Property may be delayed either by the insolvency administrator appointed in relation MBFL or by measures ordered by the competent court. Such delay could adversely affect the position of the holders of the Secured Securities in the event of depreciation of the value of the Mortgaged Property during such delay.

Risks arising on an insolvency of the Counterparty in relation to a Credit Support Document

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. In the event that MBFL enters into a Transfer Agreement and, if applicable, a Credit Support Document with the Counterparty in respect of a Series of Securities, the Counterparty will transfer Collateral Assets to MBFL. In the event that a liquidator or administrator were to be appointed in respect of the business and property of the Counterparty, no assurance can be given that the effect of the such transfers will be to remove the Collateral Assets from the property of the Counterparty available to a liquidator or administrator of the Counterparty for distribution to the general creditors of the Counterparty.

It is possible that a liquidator or administrator appointed in relation to the business and property of the Counterparty may commence proceedings to challenge the validity and effectiveness of the Transfer Agreement and, if applicable, the Credit Support Document for the purpose of including the Collateral Assets in the property

and estate of the Counterparty. If insolvency proceedings were commenced in respect of the Counterparty, and in particular against MBFL in relation to the Transfer Agreement and, if applicable, the Credit Support Document, delays in realising the Mortgaged Property, possible reductions in the realisation amount of the Mortgaged Property and limitations on the exercise of remedies in relation to the enforcement of the Security could occur.

SFTR (Article 15) Title Transfer Collateral Arrangements Risk Disclosure

In respect of any Series of Secured Securities, MBFL may have entered into, or may enter into, one or more "title transfer collateral arrangements" (as defined in Article 2(1) of Directive 2002/47/EC under EU SFTR (as defined below) and regulation 3 of the Financial Collateral Arrangements (No.2) Regulations 2003 under UK SFTR (as defined below)) (each such arrangement, a "**Title Transfer Arrangement**") with a Counterparty in respect of such Series of Secured Securities. The Title Transfer Arrangement may take the form of a credit support annex to an ISDA Master Agreement (which may constitute a Transfer Agreement including a Credit Support Annex), a global master repurchase agreement as published by the International Capital Market Association and Securities Industry and Financial Markets Association (which may constitute a Transfer Agreement) or another form that provides for collateralisation on a title transfer basis.

Under (i) Article 15 of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (as amended from time to time) ("**EU SFTR**") and (ii) Article 15 of EU SFTR as it forms part of domestic law by virtue of the EUWA ("**UK SFTR**", and together with EU SFTR, "**SFTR**"), the transferee of securities under any Title Transfer Arrangement is required to inform the transferor of such securities of the general risks and consequences that may be involved in entering into a Title Transfer Arrangement. Such risks are detailed below and are also relevant for Securityholders even though they will not be party directly to any Title Transfer Arrangement, particularly in circumstances where MBFL is a transferor of securities under a Title Transfer Arrangement.

In the section below, the person that transfers securities under a Title Transfer Arrangement is referred to as the "**Transferor**", the person to whom such securities are transferred is referred to as the "**Transferee**" and the Collateral Assets for a Series of Secured Securities will be the securities which may be transferred under a Title Transfer Arrangement.

Loss of proprietary rights in Collateral Assets

The rights, including any proprietary rights that a Transferor has in Collateral Assets transferred to a Transferee will be replaced (subject to any security granted by the Transferee) by an unsecured contractual claim for delivery of equivalent Collateral Assets, subject to the terms of the Title Transfer Arrangement. If the Transferee becomes insolvent or defaults under the Title Transfer Arrangement, the Transferor's claim for delivery of equivalent Collateral Assets will not be secured and will be subject to the terms of the Title Transfer Arrangement and applicable law. Consequently, the Transferor may not receive such equivalent Collateral Assets (although the Transferor's exposure may be reduced to the extent that its liabilities to the Transferee under such Title Transfer Arrangement and/or other liabilities it has to the Transferee under any other Title Transfer Arrangement or other agreement can be netted or set-off against the obligation of the Transferee to deliver equivalent Collateral Assets

to the Transferor).

Where MBFL is the Transferor, upon transfer of the Collateral Assets, such securities will cease to form part of the Mortgaged Property so Securityholders will no longer have the benefit of security over such securities. In the event of the Counterparty (as Transferee) becoming insolvent or otherwise defaulting, the Mortgaged Property will not include equivalent Collateral Assets which MBFL might otherwise have been expecting to receive. In these circumstances, Securityholders should be aware that the net proceeds of enforcement and/or realisation, as applicable, of the Mortgaged Property may be insufficient to cover amounts that would otherwise be due under the relevant Series of Secured Securities and consequently the Securityholders are exposed to the credit risk of the Counterparty (as Transferee).

Where the Counterparty is the Transferor, upon transfer of the Collateral Assets, MBFL's obligations to transfer equivalent Collateral Assets in respect of the Title Transfer Arrangement, amongst other things, will be secured by the Mortgaged Property in respect of the relevant Series of Secured Securities. The Counterparty will not have any proprietary rights in the Collateral Assets transferred to MBFL. If MBFL defaults under the Title Transfer Arrangement, although the Counterparty's claim for delivery of equivalent Collateral Assets will benefit from security granted by MBFL, the Counterparty's claim for delivery of equivalent Collateral Assets may, as a result of the applicable payment waterfall, be subordinated to prior ranking claims of certain other parties in respect of the Mortgaged Property. Consequently, the Transferor may not receive the equivalent Collateral Assets (although the Transferor's exposure may be reduced to the extent that its liabilities to the Transferee under such Title Transfer Arrangement and/or other liabilities it has to the Transferee under any other Title Transfer Arrangement or other agreement can be netted or set-off against an obligation on the Transferee to deliver equivalent Collateral Assets to the Transferor).

Stay of proceedings following resolution process

In the event that a resolution process (i.e. the process by which the authorities can intervene to manage the failure of a firm in an orderly fashion) is commenced by a resolution authority under any relevant resolution regime in relation to the Transferee, then (i) any rights that the Transferor may have to take any action against the Transferee, such as to terminate the Title Transfer Arrangement, may be subject to a stay by the relevant resolution authority and (ii) the Transferor's claim for delivery of equivalent Collateral Assets may be reduced (in part or in full) or converted into equity or (iii) a transfer of assets or liabilities may result in the Transferor's claim against the Transferee being transferred to different entities, although the Transferor may be protected to the extent that the exercise of resolution powers is restricted by the availability of set-off or netting rights.

Where MBFL is the Transferor, this means that MBFL may not be able to immediately enforce its rights against the Counterparty and its rights may be altered by operation of law or contract. Securityholders will be exposed to the risk of such delay and alteration of rights against the Counterparty.

Loss of voting rights in respect of Collateral Assets

The Transferor in respect of any Collateral Assets will not be entitled to exercise, or direct the Transferee to exercise (subject to the terms of the Security Trust Deed in the event that the Counterparty is the Transferor) any

voting, consent or similar rights attached to the Collateral Assets.

Securityholders should be aware that where the Transferor is MBFL, the Securityholders will not have any right under the Security Trust Deed to direct MBFL to exercise any voting, consent or similar rights attached to the Collateral Assets.

No information provided in respect of Collateral Assets

The Transferee will have title to any Collateral Assets and may or may not continue to hold such Collateral Assets and as such it will have no obligation to inform the Transferor of any corporate events or actions in relation to any Collateral Assets.

Where MBFL is the Transferor, this means that no assurance can be given to Securityholders that they will be informed of events affecting any Collateral Assets.

Illiquid Collateral Assets

The Collateral Assets may comprise assets which are not admitted to any public trading market and may therefore be illiquid and not readily realisable.

Further issues

Further Secured Securities may be issued by MBFL that are fungible with the original Secured Securities of a Series in certain circumstances. The additional Collateral Assets which MBFL must provide for such further Secured Securities relative to the aggregate notional amount of the further Secured Securities may be such as to affect the value of the original security provided for the Secured Securities.

Commingling of Collateral Assets and rights of set-off of the Custodian and Account Bank

Prospective investors' attention is drawn to the limited circumstances permitted by the Secured Security Conditions, the Transfer Agreement or the Credit Support Document, as applicable, whereby the Collateral Assets held by the relevant Custodian are not segregated from the designated investments of the relevant Custodian: for instance in the case of cash or in certain circumstances in the case of registrable securities. In such circumstances, in the event of the relevant Custodian's insolvency, MBFL's assets, or rights against any Counterparty or to such assets may not be as well protected from claims made on behalf of the general creditors of the relevant Custodian.

In addition, prospective investors should note that pursuant to the Custody Agreement and/or the Account Bank Agreement, in relation to Series of Secured Securities, the Custodian and/or the Account Bank may have rights of set-off with respect to the cash accounts held by relating to such Series. As a result, they may set-off between (i) any balances from any such cash account showing a credit balance and (ii) any such cash account showing a debit balance. Such set-off may be recorded in the books of the Custodian and/or the Account Bank as a transfer from one such cash account to another. As a result, the amount which will be available to holders of the relevant Series upon enforcement of the security in relation to a Series of Secured Securities may be less than if such set-off had not occurred and as a result, the proceeds of realisation of the Mortgaged Property may be less than the sums due

to the Securityholder in respect of such Series (prospective investors' attention is accordingly drawn to the risk factor entitled "*Shortfall on Realisation of Mortgaged Property*" above).

Security Trustee Indemnity

The Security Trustee shall not be bound to enforce the security in relation to a Series of Secured Securities unless (i) directed to do so by the Instructing Creditor and (ii) it is indemnified and/or secured and/or prefunded to its satisfaction.

Capacity of BNP Paribas and its affiliates

BNP Paribas and its affiliates (the **BNPP Parties**) may act in a number of capacities in connection with any issue of Secured Securities, including as Fiscal Agent or Security Trustee, Liquidation Agent, a Collateral Asset administration agent, Paying Agent and/or Custodian. The BNPP Parties acting in such capacities in connection with such transactions shall have only the duties and responsibilities expressly agreed to by such entities in the relevant capacity and shall not, by virtue of acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. The BNPP Parties are part of a global investment banking and securities firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. As such, they actively make markets in and trade financial instruments for their own account and for the accounts of customers in the ordinary course of their business. The BNPP Parties in their various capacities in connection with the contemplated transactions may enter into business dealings, from which they may derive revenues and profits in addition to any fees, without any duty to account therefor. Each of the BNPP Parties will act in its own commercial interest in its various capacities without regard to whether its interests conflict with those of the holders of the Secured Securities or any other party.

The BNPP Parties do not disclose specific trading positions or their hedging strategies, including whether they are in long or short positions in any Secured Securities or obligations referred to in this Base Prospectus except where required in accordance with the applicable law. Nonetheless, in the ordinary course of business, BNPP Parties and employees or customers of the BNPP Parties may actively trade in and/or otherwise hold long or short positions in the Secured Securities or enter into similar transactions referencing the Secured Securities or the obligors thereof for their own accounts and for the accounts of their customers. If a BNPP Party becomes an owner of any of the Secured Securities, through market-making activity or otherwise, any actions that it takes in its capacity as owner, including voting, providing consents or otherwise will not necessarily be aligned with the interests of other owners of the Secured Securities. To the extent a BNPP Party makes a market in the Secured Securities (which it is under no obligation to do), it would expect to receive income from the spreads between its bid and offer prices for the Secured Securities. In connection with any such activity, it will have no obligation to take, refrain from taking or cease taking any action with respect to these transactions and activities based on the potential effect on an investor in the Secured Securities. The price at which a BNPP Party may be willing to purchase Secured Securities, if it makes a market, will depend on market conditions and other relevant factors and may be significantly lower than the issue price for the Secured Securities and significantly lower than the price at which it may be willing to sell the Secured Securities.

SUPPLEMENTS AND FURTHER PROSPECTUSES

The Issuers will prepare a replacement prospectus setting out the changes in the operations and financial conditions of the Issuers at least every year after the date of this Base Prospectus and each subsequent Base Prospectus.

The Issuers have given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake or inaccuracy relating to the information contained in this Base Prospectus which is capable of affecting the assessment of the Securities, they shall prepare a supplement to this Base Prospectus or publish a replacement Base Prospectus for use in connection with any subsequent offering of the Securities and shall supply to each Dealer a number of copies of such supplement as a Dealer may reasonably request.

In addition, the Issuers and the Guarantor may agree with any Dealer to issue Securities in a form not contemplated in the sections of this Base Prospectus entitled "Form of Final Terms". To the extent that the information relating to that Tranche of Securities constitutes a significant new factor in relation to the information contained in this Base Prospectus, a separate prospectus specific to such Tranche (a "**Drawdown Prospectus**") will be made available and will contain such information. Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the relevant Issuer and (if applicable) the Guarantor and the relevant Securities or (2) pursuant to Article 6.3 of the Prospectus Regulation, by a registration document containing the necessary information relating to the relevant Issuer and (if applicable) the Guarantor, a securities note containing the necessary information relating to the relevant Securities and, if necessary, a summary note. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, references in this Base Prospectus to information specified or identified in the Final Terms shall (unless the context requires otherwise) be read and construed as information specified or identified in the relevant Drawdown Prospectus.

DESCRIPTION OF THE SECURITY AND COLLATERAL ASSETS

Securities may be either Secured Securities or Unsecured Securities as specified in the applicable Final Terms. If the Securities are Secured Securities, MBFL will grant to the Security Trustee the following security to secure its obligations under the Securities and any Charged Agreement(s) in each case, save to the extent the relevant asset or right is charged under an Additional Charging Document:

- (i) a first fixed charge and a first ranking assignment by way of security of all of the relevant Issuer's rights, title and/or interests (the **Issuer's Rights**) in, to and under the Collateral Assets; and
- (ii) a first ranking assignment by way of security of all of the Issuer's Rights under each Charged Agreement, each Additional Charged Agreement and the Issue and Paying Agency Agreement in respect of such Securities.

The Initial Collateral Assets and the Eligible Collateral (where applicable) will be specified in the applicable Final Terms and may comprise any of loans, cash, debt securities listed on a regulated market, equity securities listed on a regulated market and/or shares, units or other interests in a UCITS fund, or other assets.

Where “Charged Agreement/Collateral Arrangements” are specified as applying in the Final Terms, the Charged Agreement(s) in respect of each Series of Securities will be a swap agreement, repurchase agreement or sale and purchase agreement entered into between MBFL and the Counterparty and, if applicable, a Credit Support Document, each as described below.

The purpose of the swap agreement, repurchase agreement or sale and purchase agreement (referred to as the Transfer Agreement) may be to allow MBFL to perform its scheduled obligations under the Secured Securities, all as described more fully in the applicable Final Terms.

If so specified in the applicable Final Terms, MBFL and the Counterparty may enter into a Credit Support Document under which MBFL and/or the Counterparty will collateralise its obligations in respect of the Transfer Agreement. In respect of certain Series of Secured Securities, MBFL and the Counterparty may each appoint one or more agents to perform certain custodial and administrative functions relating to their obligations under the Transfer Agreement or the Credit Support Document, or the Collateral Assets as applicable. If applicable an Additional Charged Agreement may be specified in the Final Terms.

Adjustment of Collateral Assets

The terms of the Secured Securities may provide that the Collateral Assets may be adjusted in accordance with the terms of Secured Security Condition 5 (*Adjustment of Collateral Assets*). Such adjustment will be as specified in the applicable Final Terms and may be in whole or in part and may be for cash or other assets. Such adjustment may involve MBFL topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

In respect of certain Series of Secured Securities, MBFL may appoint one or more agents to perform certain custodial and administrative functions relating to the Collateral Assets.

The Collateral Assets in respect of the Secured Securities will comprise one or more of the following assets:

Loans

Loan(s) to one or more borrowers.

Cash

Cash in a stipulated currency and amount.

Debt securities

Debt securities listed on a regulated market.

Equity securities

Equity securities listed on a regulated market.

Shares, units or interests in a UCITS Fund

Shares, units or interests in a UCITS Fund.

FORMS OF THE SECURITIES

Form

Each Series of Securities will on issue be constituted by either (a) in the case of Securities with a maturity of more than one year, a temporary global security in bearer form (the "**Temporary Global Security**") or (b) in the case of Securities with a maturity of one year or less, a permanent global security in bearer form (the "**Permanent Global Security**") and together with the Temporary Global Security, the "Global Securities" and each a "Global Security") as indicated in the applicable Final Terms which, in either case, will be deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and/or deposited directly with Euronext Securities Milan (also known as Monte Titoli S.p.A.) ("**Monte Titoli**") and/or any other centralised custodian appointed by the Issuers (a "**Centralised Custodian**").

The relevant Final Terms will specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Securities or, if the Securities do not have a term of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

On or after the 40th day following the Issue Date of the Securities (the "**Exchange Date**") the Temporary Global Security will be exchangeable (a) for a Permanent Global Security or (b) for Securities in definitive form ("**Definitive Securities**", and the expressions "**Definitive Certificates**" shall be construed accordingly), as indicated in the applicable Final Terms and in each case only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Security are not United States persons or persons who have purchased for resale to any United States person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certification received) to the Fiscal Agent.

A Permanent Global Security will be exchangeable (free of charge), in whole but not in part, for Definitive Securities only upon the occurrence of an Exchange Event. For these purposes, "Exchange Event" means that:

- (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business, or
- (ii) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Securities represented by the Permanent Global Security in definitive form.

The Issuer will promptly give notice to Securityholders in accordance with General Security Condition 8 (*Notices*) of the Terms and Conditions of the Securities if an Exchange Event occurs. No Definitive Security delivered in exchange for a Temporary Global Security or a Permanent Global Security, as the case may be, will be mailed or otherwise delivered to any location in the United States or its possessions.

Terms and Conditions applicable to the Securities

The applicable Final Terms for the Securities will be attached to or incorporated by reference into the Global Security and completes the Terms and Conditions of the Securities.

Legend concerning United States persons

The following legend will appear on all Securities with a maturity of more than 365 days:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

Dematerialised form

If the relevant Final Terms specifies the form of the Securities as being "Dematerialised form", then the Securities will not be represented by paper certificates and the transfer and exchange of Securities will take place exclusively through an electronic book-entry system managed by Monte Titoli or any other Centralised Custodian appointed by the Issuers. Accordingly, all Securities shall be held by their owners with an intermediary participant in the relevant Centralised Custodian. The intermediary will in turn hold the Securities with the Centralised Custodian.

To transfer an interest in the Securities, the transferor and the transferee are required to give instructions to their respective intermediaries. If the transferee is a client of the transferor's intermediary, the intermediary will simply transfer the Securities from the Transferor's account to the account of the transferee. If, however, the transferee is a client of another intermediary, the transferor's intermediary will instruct the centralised clearing system to transfer the Securities to the account of the transferee's intermediary, which will then register the Securities on the transferee's account.

Each intermediary maintains a custody account for each of its clients. This account sets out the financial instruments of each client and the records of all transfers, interest payments, charges or other encumbrances on such instruments. The account holder or any other eligible party may submit a request to the intermediary for the issue of a certified account statement.

In such circumstances, it will not be possible for a Securityholder to obtain physical delivery of Securities certificates representing the Securities.

Euroclear UK & Ireland Limited

CREST Dematerialised Securities

If the relevant Final Terms specifies the form of the Securities as being "CREST Dematerialised Securities", the Securities will be issued and held in uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof from time to time (the "**Uncertificated Securities Regulations**"), and as such are dematerialised securities and not constituted by any physical document of title. CREST Dematerialised Securities are participating securities for the purposes of the Uncertificated Securities Regulations. Title to the CREST Dematerialised Securities is recorded on the relevant operator register of eligible debt securities. The Operator is Euroclear UK & Ireland Limited.

The Euroclear Registrar on behalf of the relevant Issuer will maintain a record of uncertificated eligible debt securities (the "**Record**") in relation to the CREST Dematerialised Securities and will procure that the Record is regularly updated to reflect the Operator register of eligible debt securities in accordance with the rules of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of CREST Dematerialised Securities shall be treated by the relevant Issuer, the Guarantor, the Euroclear Registrar and any other person as the holder of such number of CREST Dematerialised Securities for all purposes (and the expressions "**Holder**" and "**Holder of Securities**" and related expressions in the context of CREST Dematerialised Securities shall be construed accordingly), and (ii) none of the Issuers, the Guarantor, the Euroclear Registrar and any other person shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the Euroclear Registrar maintains are in accordance with particulars entered in the Operator register of eligible debt securities relating to the CREST Dematerialised Securities.

CREST Depository Interests

If the applicable Final Terms specify that the Securities will be accepted for settlement in CREST via the CREST Depository Interest mechanism, indirect interests in Securities will be accepted for settlement through CREST. Following their delivery into a clearing system, interests in the relevant Securities may be delivered, held and settled in CREST by means of the creation of CDIs representing the interests in the relevant Securities. The CDIs will be issued by the CREST Depository to CDI Holders and will be governed by English Law.

The CDIs will represent indirect interests in the interest of the CREST Nominee in the relevant Securities. Pursuant to the documents setting out the legal relationship of CREST with its users and participants (the "**CREST Manual**"), Securities held in global form by a common depository may be settled through CREST and the CREST Depository will issue CDIs. The CDIs will be independent securities, constituted under English law, which may be held and transferred through CREST.

Interests in the relevant Securities will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated by the CREST Depository as if it were a relevant Security for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to CDI Holders any interest or other amounts received by it as holder of the relevant Securities on trust for such CDI Holder. CDI Holders will also be able to receive from the CREST Depository notices of meetings of Holders of the relevant Securities and other relevant notices issued by the relevant Issuer or the Guarantor (if applicable).

The CDIs will have the same ISIN as the ISIN of the relevant Securities and if listed do not require a separate listing. Prospective subscribers for Securities represented by CDIs are referred to Chapter 8 of the CREST International Manual (as defined below) which contains the form of the CREST Global Deed Poll (the "**CREST Deed Poll**") to be entered into by the CREST Depository. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg, the relevant Issuer and the Guarantor (if

applicable), including the CREST Deed Poll. These rights may be different from those of Holders of Securities which are not represented by CDIs.

CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). The settlement of the CDIs by means of the CREST International Settlement Links Service has the following consequences for CDI Holders:

- (a) CDI Holders will not be the legal owners of the relevant Securities. The CDIs are separate legal instruments from such Securities and represent an indirect interest in such Securities.
- (b) The relevant Securities themselves (as distinct from the CDIs representing indirect interests in such Securities) will be held in an account with a custodian. The custodian will hold the relevant Securities through a clearing system.
- (c) Rights under the relevant Securities cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians described above.
- (d) The CDIs issued to CDI Holders will be constituted and issued pursuant to the CREST Deed Poll. CDI Holders will be bound by all provisions of the CREST Deed Poll and by all provisions of, or prescribed pursuant to, the CREST International Manual dated 8 December 2020, as amended, modified, varied or supplemented from time to time (the "**CREST International Manual**") and the CREST Rules dated 15 January 2021, as amended, modified, varied or supplemented from time to time (the "**CREST Rules**") (which, in each case, form part of the CREST Manual) and CDI Holders must comply in full with all obligations imposed on them by such provisions.
- (e) Potential investors should note that the provisions of the CREST Deed Poll, the CREST International Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the relevant Issuer and the Guarantor (if applicable) and the CREST Depository.
- (f) CDI Holders may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of potential investors is drawn to the terms of the CREST Deed Poll, the CREST International Manual and the CREST Rules, copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 20 7849 0000 or from the CREST website at www.euroclear.com/site/public/EUI.
- (g) Potential investors should note CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the CDIs through the CREST International Settlement Links Service.

- (h) Potential investors should note that none of the relevant Issuer, the Guarantor (if applicable), any Dealer, any Security Agent or any Euroclear Registrar will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

No Securityholder shall be entitled to any payment in respect of the relevant Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the relevant Issuer or the Guarantor, if any.

- (ii) if Settlement Disruption Option 2 is specified as applicable in the applicable Final Terms, if in the opinion of the Calculation Agent, delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Delivery Date, then such Delivery Date, for such Securities shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the relevant Issuer may elect to satisfy its obligations in respect of the relevant Security by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the relevant Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the relevant Issuer may elect to satisfy its obligations in respect of the relevant Security by payment to the relevant Securityholder of the Settlement Disruption Amount (as defined below) on the 5th Business Day following the date that notice of such election is given to the Securityholders in accordance with General Security Condition 8 (*Notices*). Payment of the Settlement Disruption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*) prior to the Postponement End Date. If notice of such election has not been given to Securityholders and the Delivery Date has not occurred on or before the Postponement End Date, then in lieu of physical settlement, the Issuer shall satisfy its obligations in respect of the relevant Securities by payment to the relevant Securityholder of the Settlement Disruption Amount (as defined below) on the 5th Business Day following the Postponement End Date. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Security Condition 8 (*Notices*) that a Settlement Disruption Event has occurred provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Settlement Disruption Event. No Securityholder shall be entitled to any payment in respect of the relevant Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the relevant Issuer or the Guarantor, if any.

For the purposes hereof:

"Postponement End Date" means the number of Settlement Business Days after the originally designated Delivery Date indicated in the relevant Final Terms.

"Settlement Disruption Amount" in respect of any relevant Security shall be the fair market value of such Security (disregarding, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the relevant Issuer acting in good faith and in a commercially reasonable manner (or, whereas provided above some Relevant Assets have been delivered and a *pro rata* portion thereof has been paid, such *pro rata* portion); and

"Settlement Disruption Event" means, in the opinion of the Calculation Agent, or, if the provision of General Security Condition 2.2 (*Status of Guarantee*) applies, the Guarantor, an event beyond the control of the relevant

Issuer or, if the provision of General Security Condition 2.2 (*Status of Guarantee*) applies, the Guarantor, as a result of which the relevant Issuer or the Guarantor cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

4.2. *Failure to Deliver due to Illiquidity*

"**Failure to Deliver due to Illiquidity**", if specified as applicable in the applicable Final Terms, will be an Optional Additional Disruption Event, as described in General Security Condition 13.1 (*Definitions*).

4.3. *Issuer's Option to vary Settlement*

If the applicable Final Terms indicates that the relevant Issuer has an option to vary settlement in respect of the Securities, upon a valid exercise of Securities in accordance with these Conditions, the relevant Issuer may, in respect of each such Security, elect not to pay to the relevant Securityholders the Cash Settlement Amount or not to deliver or procure delivery of the Entitlement to the relevant Securityholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Cash Settlement Amount on the Settlement Date to the relevant Securityholders, as the case may be. Notification of such election will be given to Securityholders no later than 10.00 a.m. (Luxembourg time) on the second Business Day following the Exercise Date in accordance with General Security Condition 8 (*Notices*) and/or, at the option of the relevant Issuer, if applicable, in accordance with the contact details for a Securityholder specified in its Physical Delivery Confirmation Notice.

4.4. *Intervening Period*

For such period of time after the Settlement Date as the Issuer or any person other than the relevant Securityholder shall continue to be the legal owner of the securities or Deliverable Obligations, obligations and/or other assets comprising the Entitlement (the "**Intervening Period**"), neither the relevant Issuer, the Guarantor nor any other person shall (i) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in respect of such securities, obligations, assets or Deliverable Obligations, or (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities, obligations, assets or Deliverable Obligations during the Intervening Period or (iii) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities, obligations, assets or Deliverable Obligations.

4.5. *Issuer's Option to Substitute Assets or to pay the Alternate Cash Amount*

Unless Issuer's Option to Substitute is specified as not applicable in the applicable Final Terms, following a valid settlement of Securities in accordance with these Conditions, the Issuer may in respect of such Securities, if the Calculation Agent determines (acting in good faith and in a commercially reasonable manner) that the Relevant Asset or Relevant Assets, as the case may be, comprise(s) shares or interests in ETIs which are not freely tradable, elect either (a) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an

equivalent value (as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner) of such other shares or interests in ETIs which the Calculation Agent determines, acting in good faith and in a commercially reasonable manner, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (b) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Securityholders, but in lieu thereof to make payment to the relevant Securityholders on the Settlement Date of an amount equal to the fair market value of the Entitlement on the Settlement Valuation Date as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner by reference to such sources as it considers appropriate (the "**Alternate Cash Amount**"). Notification of any such election will be given to Securityholders in accordance with General Security Condition 8 (*Notices*).

For the purposes hereof, a "**freely tradable**" share or interest in an ETI shall mean (i) with respect to the United States, a share or interest in an ETI, as the case may be, which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share or interest in an ETI, as the case may be, and not purchased from an Affiliate of the issuer of such share or interest in an ETI, as the case may be, or which otherwise meets the requirements of a freely tradable share or interest in an ETI, as the case may be, for purposes of the Securities Act, in each case, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner or (ii) with respect to any other jurisdiction, a share or interest in an ETI, as the case may be, not subject to any legal restrictions on transfer in such jurisdiction.

4.6. Index Securities, Currency Securities, Commodity Securities, Inflation Index Securities, Futures Securities and Underlying Interest Rate Securities shall not be Physical Delivery Securities.

4.7. *FX Settlement Disruption Event*

If (a) FX Settlement Disruption Event Determination is specified as applicable in the applicable Final Terms and the Calculation Agent determines that the FX Settlement Disruption Event is not attributable to the relevant Issuer, but substantially alters the economics of the Securities compared to the economics as of the Issue Date and the Settlement Currency specified in the applicable Final Terms is a Relevant Currency or (b) if FX Settlement Disruption Event Determination is not specified as applicable in the applicable Final Terms and the Settlement Currency specified in the applicable Final Terms is a Relevant Currency, "FX Settlement Disruption" will apply, and:

- (i) If on the second Business Day prior to the Disrupted Settlement Date, the Calculation Agent (acting in good faith and in a commercially reasonable manner) determines that a FX Settlement Disruption Event has occurred and is subsisting, the relevant Issuer shall give notice (a "**FX Settlement Disruption Notice**") to the Securityholders in accordance with General Security Condition 8 (*Notices*) as soon as reasonably practicable thereafter and, in any event, prior to the due date for payment of the relevant Disrupted Amount as the case may be.
- (ii) Following the occurrence of a FX Settlement Disruption Event:

- A. the date for payment of the relevant Disrupted Amount will be postponed to (a) the second Business Day following the date on which the Calculation Agent determines that a FX Settlement Disruption Event is no longer subsisting or if earlier (b) the date falling thirty calendar days following the Settlement Date or other scheduled date for payment, as applicable, of the relevant Disrupted Amount (the "**FX Settlement Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Settlement Date; and
 - B. (i) in the case of A(a) above, the relevant Issuer will pay or cause to be paid the relevant Disrupted Amount, less (unless FX Settlement Disruption Expenses are indicated as not applicable in the relevant Final Terms) FX Settlement Disruption Expenses (if any), in the Settlement Currency or (ii) in the case of A(b) above, in lieu of paying the relevant Disrupted Amount in the Settlement Currency, the Issuer will, subject to sub-paragraph (iii) below, convert the relevant Disrupted Amount into the FX Settlement Disruption Currency (using the FX Settlement Disruption Exchange Rate determined by the Calculation Agent for the relevant Disrupted Settlement Date) and will pay or cause to be paid the relevant Disrupted Amount, less (unless FX Settlement Disruption Expenses are indicated as not applicable in the relevant Final Terms) FX Settlement Disruption Expenses (if any), in the FX Settlement Disruption Currency on the FX Settlement Disruption Cut-off Date;
- (iii) If sub-paragraph (ii) A(b) applies, the Calculation Agent will determine the FX Settlement Disruption Exchange Rate acting in good faith and in a commercially reasonable manner in accordance with the following procedures:
- A. the FX Settlement Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards) as determined by or on behalf of the Calculation Agent of the bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or
 - B. if fewer than two leading dealers provide the Calculation Agent with bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates on such day, the Calculation Agent shall determine the FX Settlement Disruption Exchange Rate acting in good faith and in a commercially reasonable manner.
- (iv) For the avoidance of doubt:
- A. No Remuneration Period will be adjusted as a result of the postponement of any remuneration payment pursuant to this General Security Condition 4.7; and
 - B. No additional remuneration will be payable in respect of any postponement of the relevant due date for payment.
- (v) For the avoidance of doubt, nothing contained in this General Security Condition 4.7 shall prevent the Issuer from determining that an Additional Disruption Event and/or Optional Additional Disruption Event has

occurred, in which case, the provisions of General Security Condition 13 (*Additional Disruption Events and Optional Additional Disruption Events*) shall prevail in the event of any conflict between this General Security Condition 4.7 and General Security Condition 13 (*Additional Disruption Events and Optional Additional Disruption Events*).

4.8. General

None of the relevant Issuer, the Guarantor, the Paying Agents and the Calculation Agent shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount or of any Entitlement.

The subscription or purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

In making any election, modification, determination or adjustment, the Issuer or the Calculation Agent, as applicable, will act in good faith and in a commercially reasonable manner, to preserve or restore the economics of the agreed terms, as far as reasonably practicable. Any such election, modification, determination or adjustment shall not create a significant imbalance between the rights and obligations of the Issuer compared to the Securityholders, to the detriment of the Securityholders.

If Essential Trigger is specified as applicable in the applicable Final Terms, the Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Securities (other than modifications or adjustments that do not relate to essential characteristics of the Securities) or settle the Securities prior to their scheduled Settlement Date, as described in the Conditions, following an event or circumstance (or combination of events or circumstances) that (a) is not attributable to the Issuer that significantly alters the economics of the Securities compared to the economics as of the Issue Date, or (b) constitutes a *force majeure*.

6.2 *Specific Buy Back Provisions*

If the Specific Buy Back Provisions are specified as being applicable to the Securities in the relevant Final Terms, prior to the Exercise Date the value of the Securities shall reflect and shall be calculated on the basis of the Market Value of the Underlying Transactions. Each of the Issuers may, from time to time, calculate the price of the Certificates on the basis of the Market Value of such Underlying Transactions and, without prejudice to its obligation to pay any amounts due and to perform any non-cash delivery obligations relating to the Certificates, in the event that an investor requests the relevant Issuer to repurchase the Securities held by it prior to their maturity, and that Issuer accepts such repurchase, the price of the Certificates ("**Buy Back Price**") will be determined taking into consideration the Market Value of such Underlying Transactions.

The Specific Buy Back Provisions shall apply only to (i) Securities issued by Mediobanca and/or Mediobanca International and/or MBFL and where Mediobanca and/or Mediobanca International act as Dealers, and (ii)

where the Notional Amount of the Securities is equal to at least Euro 100,000 or its equivalent amount in the Specified Currency.

For example: commodity certificate + future ("cash and carry arbitrage"), or convertible bond + CDS + equity option ("convertible arbitrage")

The Underlying Transactions will be selected from time to time by Mediobanca and/or Mediobanca International in their reasonable discretion and the relevant composition is subject to change during the life of the Securities. 21.4. *Physical Delivery Certificates*

Where “Physical Settlement according to General Security Condition 21.1” is specified as applicable in the applicable Final Terms, subject to payment of any Expenses with regard to the relevant Certificates, the relevant Issuer shall, on the Settlement Date (such date, subject to adjustment in accordance with Condition 21.5, the “**Delivery Date**”) or (in the case of Credit Securities) the Delivery Date (as defined in the Credit Security Conditions), deliver, or procure the delivery of, the Entitlement for each Certificate in respect of which a valid Physical Delivery Confirmation Notice has been delivered as provided in General Security Condition 21.1 (*Physical Delivery Confirmation Notice Requirements*) pursuant to the details specified in the Physical Delivery Confirmation Notice, subject as provided in General Security Condition 4.3 (*Issuer's Option to Vary Settlement*). The Entitlement shall be delivered and evidenced in such manner as set out in the applicable Final Terms.

Where “Physical Settlement according to General Security Condition 21.1” is specified as applicable in the applicable Final Terms, in the event that no valid Physical Delivery Confirmation Notice has been duly delivered at or prior to 10.00 a.m. (Brussels or Luxembourg time, as the case may be) or by the close of business in the place of receipt (in the case of CREST Dematerialised Securities) on the Exercise Date, the provisions of General Security Condition 21.7 (*Failure to deliver a Physical Delivery Confirmation Notice*) below shall apply.

21.5. *Determinations and Delivery*

This General Security Condition 21.5 only applies where “Physical Settlement according to General Security Condition 21.1” is specified as applicable in the applicable Final Terms.

Any determination as to whether a Physical Delivery Confirmation Notice is duly completed and in proper form shall be made by the Fiscal Agent, or the Italian Paying Agent (in case of Italian Dematerialised Securities), or the Euroclear Registrar (in the case of CREST Dematerialised Securities) and shall be conclusive and binding on the relevant Issuer, the Guarantor (if any), the Paying Agents, the Euroclear Registrar (if applicable), the Calculation Agent and the relevant Securityholder. Subject as set out below, any Physical Delivery Confirmation Notice so determined to be incomplete or not in proper form or which is not duly delivered to the relevant Clearing System(s) and copied to the relevant Issuer and the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities), or the Euroclear Registrar (if applicable) (or, in the case of Definitive Certificates, which is not duly delivered to the relevant Issuer together with the relevant Definitive Certificate(s) and copied to the Fiscal Agent) shall be null and void.

If such Physical Delivery Confirmation Notice is subsequently corrected to the satisfaction of the relevant Clearing System(s) or the Euroclear Registrar (if applicable), (other than in the case of CREST Dematerialised Securities) in consultation with the relevant Issuer and the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities) (or, in the case of Definitive Certificates, to the satisfaction of the relevant Issuer in consultation with the Fiscal Agent), it shall be deemed to be a new Physical Delivery Confirmation Notice submitted at the time such correction was delivered to the relevant Clearing System(s) and copied to the relevant Issuer and the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities) (or, in the case of Definitive Certificates, to the relevant Issuer and copied to the Fiscal Agent) (or in the case of CREST Dematerialised Securities, to Euroclear Registrar and copied to the relevant Issuer).

The relevant Clearing System(s) (or, in the case of Definitive Certificates, the relevant Issuer) (or, the Euroclear Registrar, as the case may be), shall use its best efforts promptly to notify the Securityholder (or the relevant Monte Titoli Accountholder, in case of Italian Dematerialised Securities) submitting a Physical Delivery Confirmation Notice if, in consultation with the relevant Issuer and/or the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities) (as applicable), it has determined that such Physical Delivery Confirmation Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the relevant Issuer, the Guarantor (if any), the Paying Agents, the relevant Clearing System(s), the Euroclear Registrar and the Calculation Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

This General Security Condition 21.6 only applies where “Physical Settlement according to General Security Condition 21.1” is specified as applicable in the applicable Final Terms.

No Physical Delivery Confirmation Notice may be withdrawn after receipt thereof by the relevant Clearing

System, or the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Securities) or the Euroclear Registrar (in case of CREST Dematerialised Securities), as the case may be, as provided above. After the delivery of a Physical Delivery Confirmation Notice, the relevant Securityholder may not transfer Certificates the subject of such notice.

21.7. *Failure to deliver a Physical Delivery Confirmation Notice*

This General Security Condition 21.7 only applies where “Physical Settlement according to General Security Condition 21.1” is specified as applicable in the applicable Final Terms.

Provided that the relevant Certificates are not Definitive Certificates, in which case the provisions of General Security Condition 21.8 (*Settlement provisions for Definitive Certificates*) will apply, the Issuer shall have no obligation to make delivery of the Entitlement in respect of such Security unless and until a duly completed Physical Delivery Confirmation Notice is delivered as provided above. If the duly completed Physical Delivery Confirmation Notice is delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be), or after the close of business in the place of receipt (in the case of CREST Dematerialised Securities) on the Exercise Date, delivery of such Entitlement shall be made as soon as possible thereafter but not earlier than the Settlement Date.

For the avoidance of doubt, the relevant holder of a Security shall not be entitled to any additional or further payment by reason of the delivery of the Entitlement in respect of such Security occurring after the Settlement Date as a result of such Physical Delivery Confirmation Notice being delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be), or after the close of business in the place of receipt (in the case of CREST Dematerialised Securities) on the Exercise Date.

21.8. *Settlement provisions for Definitive Certificates*

In the event that any Definitive Certificates have been issued prior to the Exercise Date, the relevant Issuer shall, on or prior to the Exercise Date, notify Securityholders in accordance with General Security Condition 8 (*Notices*) of the procedure to be followed in order to receive any Cash Settlement Amount that may be payable upon exercise of the Certificates.

21.9. *Exercise Risk*

Exercise of the Certificates is subject to all applicable laws, regulations and practices in force on the Exercise Date and none of the relevant Issuer, the Guarantor (if any), or any of their Affiliates, the Paying Agents, the Euroclear Registrar and the Calculation Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the relevant Issuer, the Guarantor (if any), any of their Affiliates, the Paying Agents, the Euroclear Registrar and the Calculation Agent shall under any circumstances be liable for any acts or defaults of the relevant Clearing System(s) in relation to the performance of their duties in relation to the Certificates.

22. **REMUNERATION**

If so specified in the applicable Final Terms the Certificates will pay one or more remuneration amounts. Such remuneration amounts (i) will be calculated on the basis of a fixed rate, or will be a Fixed Remuneration Amount or Broken Amount, if so specified in the Final Terms for that Remuneration Period ("**Fixed Remuneration Amount Certificates**") and/or (ii) will be calculated on the basis of a floating rate ("**Floating Remuneration Amount Certificates**") and/or (iii) will be calculated by reference to the performance of one or more Index, Share, ETI Interest, Debt Instrument, Currency, Commodity, Inflation Index, Fund Share, Future, Underlying Interest Rate or any other underlying security or any combination thereof in the manner specified in the applicable Final Terms (such Certificates, "**Linked Remuneration Amount Certificates**"):

(a) *Fixed Remuneration Amount Certificates*

Each Fixed Remuneration Amount Certificate will pay Remuneration Amount(s) on the basis of the following:

- (i) if the Fixed Remuneration Amount or Broken Amount are specified in the Final Terms for a Remuneration Period, the Remuneration Amount payable on the relevant Remuneration Payment Date shall be the Fixed Remuneration Amount or Broken Amount so specified; or
- (ii) if the Fixed Remuneration Amount or Broken Amount are not specified in the Final Terms, for a Remuneration Period, the Remuneration Amount(s) (as defined below) will be paid in respect of each relevant Remuneration Period. Remuneration Amount will be payable in arrear on the Remuneration Payment Date(s) indicated in the applicable Final Terms. If a Business Day Convention is specified in the applicable Final Terms as applying to a Remuneration Payment Date and any Remuneration Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:
 - (A) the Following Business Day Convention, such Remuneration Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
 - (B) the Modified Following Business Day Convention, such Remuneration Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day;
 - (C) the Preceding Business Day Convention, such Remuneration Payment Date, shall be brought forward to the immediately preceding Business Day; or
 - (D) the Modified Preceding Business Day Convention, such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day unless it would thereby fall into the previous calendar month,

(i) Remuneration, Remuneration Periods and Business Day Convention

Each Floating Remuneration Amount Certificate will pay Remuneration Amount(s) in respect of each relevant Remuneration Period.

- (C) the Preceding Business Day Convention, such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Modified Preceding Business Day Convention, such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day unless it would thereby fall into the previous calendar month, in which event such Remuneration Payment Date shall be brought forward to the immediately following Business Day;

save in respect of Securities for which the Reference Rate is SOFR, for which the final Remuneration Payment Date will not be postponed and remuneration on that payment will not accrue during the period from and after scheduled final Remuneration Payment Date.

(ii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of a Remuneration Period in the applicable Final Terms, the Remuneration Rate for such Remuneration Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the

applicable Final Terms), or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Remuneration Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Remuneration Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(iii) **Remuneration Rate**

The Remuneration Rate payable from time to time will be determined in the manner specified in the applicable Final Terms.

(iv) **Determination of Remuneration Rate**

The Calculation Agent will, on or as soon as practicable after each date on which the Remuneration Rate is to be determined (the **"Remuneration Determination Date"**), determine the Remuneration Rate (subject to any Minimum Remuneration Rate or Maximum Remuneration Rate specified in the applicable Final Terms) for the relevant Remuneration Period. The Calculation Agent will notify the Paying Agent of the Remuneration Rate for the relevant Remuneration Period as soon as practicable after calculating the same.

(c) *Linked Remuneration Amount Certificates*

(i) **Remuneration, Remuneration Periods and Business Day Convention**

The Remuneration Amount(s) will be paid in respect of each relevant Remuneration Period.

Remuneration will be payable in arrear on the Remuneration Payment Date(s).

If a Business Day Convention is specified in the applicable Final Terms as applying to a Remuneration Payment Date and any Remuneration Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) the Following Business Day Convention, such Remuneration Payment Date shall be postponed to the next day which is a Business Day; or
- (B) the Modified Following Business Day Convention, such Remuneration Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event

such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day;

(C) the Preceding Business Day Convention, such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day; or

(D) the Modified Preceding Business Day Convention, such Remuneration Payment Date shall be brought forward to the immediately preceding Business Day unless it would thereby fall into the previous calendar month, in which event such Remuneration Payment Date shall be brought forward to the immediately following Business Day.

(ii) Remuneration Rate

The Remuneration Rate payable from time to time will be determined in the manner specified in the applicable Final Terms and may comprise one or more Additional Coupons determined in the manner specified in the applicable Final Terms.

(iii) Determination of Remuneration Rate

The Calculation Agent will, on or as soon as practicable after each date on which the Remuneration Rate is to be determined (the "**Remuneration Determination Date**"), determine the Remuneration Rate (subject to any Minimum Remuneration Rate or Maximum Remuneration Rate specified in the applicable Final Terms) for the relevant Remuneration Period. The Calculation Agent will notify the Paying Agent of the Remuneration Rate for the relevant Remuneration Period as soon as practicable after calculating the same.

(d) *Screen Rate Determination and ISDA Determination*

(i) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which a Remuneration Rate is to be determined, such Remuneration Rate for each Remuneration Period will be:

(B) if "Rate Multiplier" is specified in the relevant Final Terms as being applicable (i) the sum of the Margin and the relevant ISDA Rate multiplied by (ii) the Rate Multiplier;

(C) if "Reference Rate Multiplier" is specified in the relevant Final Terms as being applicable, the sum of (i) Margin, and (ii) the relevant ISDA Rate multiplied by the Reference Rate Multiplier,

If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and

the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of subparagraph (ii)(a), no offered quotation appears on the Relevant Screen Page or, in the case of subparagraph (ii)(b), fewer than three offered quotations appear on the Relevant Screen Page, in each case as at the Relevant Determination Time, the Issuer shall request (in the case of a determination of EURIBOR) the principal Euro-zone office of each of four major banks in the Eurozone inter-bank market, in each case selected by the Issuer or as specified in the applicable Final Terms, to provide the Calculation Agent with its offered quotation (expressed as a percentage per annum) for the Reference Rate at approximately the Relevant Determination Time on the relevant Remuneration Determination Date

For the purpose of this General Security Condition 22(d)(ii), "**Remuneration Determination Date**", "**Margin**", "**Reference Rate**", "**Relevant Screen Page**" and "**Relevant Determination Time**" shall have the same meanings given to those in the applicable Final Terms.

(iii) Screen Rate Determination for Reference Rate being SONIA

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Remuneration Rate is to be determined and SONIA is specified as the Reference Rate in the applicable Final Terms, the Remuneration Rate or Rate for each Remuneration Period will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this General Security Condition 22(d)(iii):

"**Compounded Daily SONIA**", with respect to a Remuneration Period, will be calculated by the Calculation Agent on each Remuneration Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{t-pLBD \times n_i}}{365} \right) - 1 \right] \times \frac{365}{d}$$

"**d**" means the number of calendar days in:

- (i) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Remuneration Period; or
- (ii) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**d_o**” means the number of London Banking Days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Remuneration Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**i**” means a series of whole numbers from one to “d_o”, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Remuneration Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last London Banking Day in such period;

“**Remuneration Determination Date**” means, in respect of any Remuneration Period, the date falling p London Banking Days prior to the Remuneration Payment Date for such Remuneration Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Securities are due and payable).

“**London Banking Day**” or “**LBD**” means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

“**n_i**” for any London Banking Day “i”, in the relevant Remuneration Period or Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day “i” up to, but excluding, the following London Banking Day;

“**Observation Period**” means, in respect of a Remuneration Period, the period from, and including, the date falling “p” London Banking Days prior to the first day of such Remuneration Period (and the first Remuneration Period shall begin on and include the Remuneration Commencement Date) and ending on, but excluding, the date which is p London Banking Days prior to the Remuneration Payment Date for such Remuneration Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Securities become due and payable);

“**p**” for any Remuneration Period or Observation Period (as applicable), means the number of London Banking Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms;

“**SONIA Reference Rate**” means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average (“SONIA”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

“**SONIAi**” means the SONIA Reference Rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling “p” London Banking Days prior to the relevant London Banking Day “i”; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms; the relevant London Banking Day “i”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Remuneration Period or Observation Period (as applicable), the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), be:

- (A) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), if the Remuneration Rate or Rate cannot be determined in accordance with the foregoing provisions of

this General Security Condition 22(d)(iii), the Remuneration Rate or Rate shall be (A) that determined as at the last preceding Remuneration Determination Date (though substituting, where a different Margin is to be applied to the relevant Remuneration Period from that which applied to the last preceding Remuneration Period, the Margin relating to the relevant Remuneration Period, in place of the Margin relating to that last preceding Remuneration Period) or (B) if there is no such preceding Remuneration Determination Date, the initial Remuneration Rate which would have been applicable to the Securities for the first Remuneration Period had the Securities been in issue for a period equal in duration to the scheduled first Remuneration Period but ending on (and excluding) the Remuneration Commencement Date (but applying the Margin applicable to the first Remuneration Period).

(iv) Screen Rate Determination for Reference Rate being SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Remuneration Rate or Rate is to be determined and SOFR is specified as the Reference Rate in the applicable Final Terms, the Remuneration Rate or Rate for each Remuneration Period will, subject as provided below, be Compounded SOFR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Remuneration Determination Date.

For the purposes of this General Security Condition 22(d)(iv):

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

“**Compounded SOFR**” with respect to any Remuneration Period, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

- (ii) subject to the provisions below, if the rate specified in (i) above does not so appear, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator’s Website;

“**U.S. Government Securities Business Day**” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

Subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), if the Remuneration Rate or Rate cannot be determined in accordance with the foregoing provisions of this General Security Condition 22(d)(iv), the Remuneration Rate or Rate shall be (A) that determined as at the last preceding Remuneration Determination Date (though substituting, where a different Margin is to be applied to the relevant Remuneration Period from that which applied to the last preceding Remuneration Period, the Margin relating to the relevant Remuneration Period, in place of the Margin relating to that last preceding Remuneration Period) or (B) if there is no such preceding Remuneration Determination Date, the initial Rate

the “**€STR reference rate**”, in respect of any T2 Settlement Day, is a reference rate equal to the daily euro short-term rate (“**€STR**”) for such T2 Settlement Day as provided by the European Central Bank as the administrator of €STR (or any successor administrator of such rate) on the website of the European Central Bank (or, if no longer published on its website, as otherwise published by it or provided by it to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the T2 Settlement Day immediately following such T2 Settlement Day (in each case, at the time specified by, or determined in accordance with, the applicable methodology, policies or guidelines, of the European Central Bank or the successor administrator of such rate);

“**€STRi**” means the €STR reference rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the T2 Settlement Day falling “p” T2 Settlement Days prior to the relevant T2 Settlement Day “i”; or

Subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), if, where any Remuneration Rate or Rate is to be calculated pursuant to this General Security Condition 22(d)(v), in respect of any T2 Settlement Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such T2 Settlement Day shall be the €STR reference rate for the first preceding T2 Settlement Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.

Subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), if the Remuneration Rate or Rate cannot be determined in accordance with the foregoing provisions of this General Security Condition 22(d)(v), the Remuneration Rate or Rate shall be (A) that determined as at the last preceding Remuneration Determination Date (though substituting, where a different Margin is to be applied to the relevant Remuneration Period from that which applied to the last preceding Remuneration Period, the Margin relating to the relevant Remuneration Period, in place of the Margin relating to that last preceding Remuneration Period) or (B) if there is no such preceding Remuneration Determination Date, the initial Remuneration Rate which would have been applicable to the Securities for the first Remuneration Period had the Securities been in issue for a period equal in duration to the scheduled first Remuneration Period but ending on (and excluding) the Remuneration Commencement Date (but applying the Margin applicable to the first Remuneration Period).

(vi) Screen Rate Determination for Reference Rate being SARON

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Remuneration Rate is to be determined and SARON is specified as the Reference Rate in the applicable Final Terms, the Remuneration Rate or Rate for each Remuneration Period will, subject as provided below, be Compounded Daily SARON plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this General Security Condition 22(d)(vi):

“**Compounded Daily SARON**”, with respect to a Remuneration Period, will be calculated by the Calculation Agent on each Remuneration Determination Date in accordance with the

following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SARON_{i-pSIXBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“**d**” means the number of calendar days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Remuneration Period; or

- (iii) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Remuneration Period; or
- (iv) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last SIX Business Day in such period;

“**Remuneration Determination Date**” means, in respect of any Remuneration Period, the date falling p SIX Business Day prior to the Remuneration Payment Date for such Remuneration Period (or the date falling p SIX Business Day prior to such earlier date, if any, on which the Securities are due and payable).

“**SIX Business Day**” or “**SIXBD**” means a day (other than a Saturday or Sunday) which is not marked as currency holiday for CHF in the Trading & Currency Holiday Calendar published by SIX Swiss Exchange;

“**n_i**” for any SIX Business Day “i”, in the relevant Remuneration Period or Observation Period (as applicable) is the number of calendar days from, and including, such SIX Business Day “i” up to, but excluding, the following SIX Business Day;

“**Observation Period**” means, in respect of a Remuneration Period, the period from, and including, the date falling “p” SIX Business Day prior to the first day of such Remuneration Period (and the first Remuneration Period shall begin on and include the Remuneration Commencement Date) and ending on, but excluding, the date which is p SIX Business Day prior to the Remuneration Payment Date for such Remuneration Period (or the date falling p SIX Business Day prior to such earlier date, if any, on which the Securities become due and payable);

For the avoidance of doubt, the formula for the calculation of Compounded Daily SARON only compounds the SARON Reference Rate in respect of any SIX Business Day. The SARON Reference Rate applied to a day that is a non- SIX Business Day will be taken by applying the SARON Reference Rate for the previous SIX Business Day but without compounding.

If, in respect of any SIX Business Day in the relevant Remuneration Period or Observation Period (as applicable), the Calculation Agent determines that the SARON Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SARON Reference Rate shall, subject to subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), be the SARON Reference Rate published on

the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding SIX Business Day on which the SARON Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to General Security Condition 22(n) (*Benchmark Rate Replacement*), if the Remuneration Rate or Rate cannot be determined in accordance with the foregoing provisions of this General Security Condition 22(d)(vi), the Remuneration Rate or Rate shall be (A) that determined as at the last preceding Remuneration Determination Date (though substituting, where a different Margin is to be applied to the relevant Remuneration Period from that which applied to the last preceding Remuneration Period, the Margin relating to the relevant Remuneration Period, in place of the Margin relating to that last preceding Remuneration Period) or (B) if there is no such preceding Remuneration Determination Date, the initial Remuneration Rate which would have been applicable to the Securities for the first Remuneration Period had the Securities been in issue for a period equal in duration to the scheduled first Remuneration Period but ending on (and excluding) the Remuneration Commencement Date (but applying the Margin applicable to the first Remuneration Period).

(vii) Screen Rate Determination for Reference Rate being CMS Rate

Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which a Remuneration Rate or Rate is to be determined, and CMS is specified as the Reference Rate in the applicable Final Terms, such Remuneration Rate or Rate, for each Remuneration Period will, subject to General Security Condition 22(n) (*Benchmark Rate Replacement*) below and subject as provided below, be the CMS Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any), all as determined by the Calculation Agent and provided that the Remuneration Rate or Rate may not be less than zero.

If the Relevant Screen Page is not available, the Issuer shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Relevant Determination Time on the Remuneration Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Remuneration Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Remuneration Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

For the purpose of this General Security Condition 22(d)(vii):

"CMS Rate" shall mean the applicable swap rate for swap transactions in the Relevant Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Relevant Determination Time on the Remuneration Determination Date in question, all as determined by the Calculation Agent.

"Designated Maturity", "Remuneration Determination Date(s)", "Margin", "Rate Multiplier", "Relevant Currency", "Relevant Screen Page" and "Relevant Determination Time" shall have the meanings given to those terms in the applicable Final Terms.

"Relevant Swap Rate" means:

- (1) where the Relevant Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Remuneration Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and
- (2) where the Relevant Currency is any other currency or if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

"Representative Amount" means any amount that is representative for a single transaction in the relevant market at the relevant time.

(e) *Minimum and/or Maximum Remuneration Rate*

If the applicable Final Terms specifies a Minimum Remuneration Rate for any Remuneration Period, then, in the event that the Remuneration Rate in respect of such Remuneration Period determined in accordance

with the provisions of General Security Condition 22(b)(ii), General Security Condition 22(b)(iii), General Security Condition 22(c)(ii) or General Security Condition 22(d) (as appropriate) is less than such Minimum Remuneration Rate, the Remuneration Rate for such Interest Period shall be such Minimum Remuneration Rate.

If the applicable Final Terms specifies a Maximum Remuneration Rate for any Remuneration Period, then, in the event that the Remuneration Rate in respect of such Remuneration Period determined in accordance with the provisions of General Security Condition 22(b)(ii), General Security Condition 22(b)(iii), General Security Condition 22(c)(ii) or General Security Condition 22(d) (as appropriate) is greater than such Maximum Remuneration Rate, the Remuneration Rate for such Remuneration Period shall be such Maximum Remuneration Rate.

(f) *Notification of Remuneration Rate and Remuneration Amount*

After the Relevant Determination Time on each Remuneration Determination Date or such other time on such date as the Calculation Agent may be required to calculate any Remuneration, obtain any quote or make any determination or calculation, it will, promptly, determine the Remuneration Rate and calculate the Remuneration Amount for the relevant Remuneration Period, obtain such quote or make such determination or calculation, as the case may be, and cause the Remuneration Rate and the Remuneration Amount for each Remuneration Period and the relevant Remuneration Payment Date to be notified to the Fiscal Agent, or (in the case of CREST Dematerialised Securities) the Euroclear Registrar, the relevant Issuer, the Paying Agent, the holders of the Certificates, any other Calculation Agent appointed in respect of the Certificates which is to make a further calculation upon receipt of such information and, if the Certificates are listed on a stock exchange and the rules of such exchange so requires, such exchange promptly after their determination but in no event later than (i) the commencement of the relevant Remuneration Period, if determined prior to such time, in the case of a Remuneration Rate and Remuneration Amount, or (ii) in all other cases, the fourth Business Day after such determination. The Remuneration Amounts and the Remuneration Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Remuneration Period. The determination of each Remuneration Rate, Remuneration Amount, the obtaining of each quote and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

(g) *Calculation Agent*

Where more than one Calculation Agent is appointed in respect of the Certificates, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Remuneration Rate for any Remuneration Period or to calculate the Remuneration Amount or any other requirements, the relevant Issuer will appoint the London office of a leading bank engaged in the London interbank market to act as such in its place. Description of the Final Payout

The percentage change in value of the Securities over one day will be the Leverage Factor which is a constant factor for each Security multiplied by the daily performance of the relevant Underlying Reference measured as the percentage change of the reference price from one day to the next day adjusted by the applicable Financing Component (which includes a Fee, an Interest Margin and Hedging Cost and may be positive or negative depending on, amongst other things, prevailing interest rates). Bull Certificates aim to produce a performance equal to the Leverage Factor (as specified in the applicable Final Terms) multiplied by the performance of the relevant Underlying Reference whereas Bear Certificates aim to produce a performance equal to the Leverage Factor times the inverse performance of the relevant Underlying Reference. However, because the performance of the Securities over any period longer than one day will be derived from the compounded daily performance of the relevant Underlying Reference during that period, such Security's performance may differ significantly to the overall performance of the Underlying Reference over that same period.

"Market Disruption Event" means:

- (a) in respect of a Composite Index either:
 - (i) A. the occurrence or existence, in respect of any Component Security, of:
 - (a) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
 - (b) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
 - (c) an Early Closure in respect of such Component Security; and
 - B. in respect of a Multi-Exchange Index only, the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of such Index; or

In the case of a Multi-Exchange Index, for the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that Component Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

For the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs in respect of a security included in such Index at any time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (A) the portion of the level of such Index attributable to that security and (B) the overall level of such Index, in each case immediately before the occurrence of such Market Disruption Event.

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Security Condition 8 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been the Strike Date, an Averaging Date, an Observation Date, the Automatic Early Settlement Valuation Date or a Valuation Date, as the case may be.

3. Adjustments to an Index

3.1 Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

3.2 Modification and Cessation of Calculation of an Index

If (a) on or prior to the Strike Date, the last Averaging Date, the last Observation Date or the last Valuation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**"), or permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"), or (b) on the Strike Date, an Averaging Date, an Observation Date or a Valuation Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then:

- (a) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant value, level or price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Strike Date, that Valuation Date, that Observation Date or that Averaging Date, as the case may be,

as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or

- (b) the Calculation Agent may replace the relevant Index with a new similar index, multiplied, if need be by a linking coefficient to ensure continuity in the condition of the underlying of the Securities; or
- (c)
 - (i) unless Delayed Settlement on Occurrence of Index Adjustment Event, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of such Security, as the case may be, taking into account the Index Adjustment Event, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
 - (ii) if Delayed Settlement on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security, taking into account the Index Adjustment Event less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Index Adjustment Amount**") as soon as practicable following the occurrence of the Index Adjustment Event (the "**Calculated Index Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Index Adjustment Amount plus interest accrued from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms); or
 - (iii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security, held by such Securityholder

calculated and paid on such date determined, in accordance with General Security Condition 20(a);

- (iv) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(b);
- (v) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(c); or
- (vi) if the Calculation Agent determines that such Index Adjustment Event constitutes a *force majeure*, and if Index Security Condition 3.2(c)(vi) is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder, which amount shall be equal to the fair market value of a Security, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Securities at their fair market value) and no such costs shall be deducted), such amount to be paid to the Securityholders on the date notified to the Securityholders in the notice of early settlement.

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities.

3.3 Notice

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), of any determination made by it pursuant to paragraph 3.2 above and the action proposed to be taken in relation thereto and such the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), shall make available for inspection by Securityholders copies of any such determinations.

4. Correction of Index

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Securities, if the Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor, (a) in respect of a Composite Index, no later than five Business Days following the date of the original publication, or (b) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

5. Futures Price Valuation

5.1 If "Futures Price Valuation" is specified as applicable in relation to an Index in the applicable Final Terms, in respect of such Index, the following provisions shall apply to these Index Security Conditions:

"First Traded Price" means, in relation to each Cash Settled Security and subject to the provisions of this Annex 2:

- (a) in the case of Index Securities relating to a Basket of Indices and in respect of each Index comprising the Basket of Indices, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Actual First Traded Price of the relevant Current Exchange-traded Contract in respect of such Index as determined by the Calculation Agent on the relevant Settlement Price Date, multiplied by the relevant Weighting; and
- (b) in the case of Index Securities relating to a single Index, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Actual First Traded Price of the relevant Current Exchange-traded Contract in respect of the Index as determined by the Calculation Agent on the relevant Settlement Price Date.

"Settlement Price" means, in relation to each Security, and subject to the provisions of this Annex 2:

- (a) in the case of Index Securities relating to a Basket of Indices and in respect of each Index comprising the Basket of Indices, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Official Settlement Price of the relevant Current Exchange-traded Contract in respect of such Index as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the relevant Settlement Price Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date and, in either case, multiplied by the relevant Weighting; and
- (b) in the case of Index Securities relating to a single Index, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Official Settlement Price of the relevant Current Exchange-traded Contract in respect of the Index as determined by the

Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the relevant Settlement Price Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date.

For the purposes of determining whether a day is a Scheduled Trading Day where Futures Price Valuation applies in relation to any Index or (in the case of a Basket of Indices) any constituent Index any reference to such Index or constituent Index in the definition of Scheduled Trading Day will be deemed not to apply and instead a Scheduled Trading Day must be a day on which the Official Settlement Price or, if First Traded Price Applicable is specified in the applicable Final Terms, the Actual First Traded Price, as applicable, is scheduled to be published by the relevant Futures or Options Exchange in relation to each such Index to which Futures Price Valuation applies.

Where Futures Price Valuation applies in relation to any Index or (in the case of a Basket of Indices) any constituent Index, an Exchange Business Day must be a day on which the relevant Futures or Options Exchange in relation to each such Index is open for trading during their regular trading session(s), notwithstanding any such Futures or Options Exchange closing prior to its scheduled weekday closing time on such Exchange Business Day, without regard to after hours or any other trading outside of the regular trading session hours.

The Disrupted Day provisions in the General Security Conditions and/or these Index Security Conditions will not apply in relation to any Index or (in the case of a Basket of Indices, any Index comprising the Basket of Indices) in respect of which Futures Price Valuation applies, unless (other than in the case Single Final Payout - Leverage Factor Securities) there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, in which case the Disrupted Day provisions will apply to the relevant Index or constituent Index.

For these purposes:

"Actual First Traded Price" means the price at which the relevant Exchange-traded Contract is first traded on the relevant Futures or Options Exchange or its clearing house after 5:29:59 p.m. (Central European Time) as appearing first on the list of prices for such time published on the Relevant Futures or Options Exchange Website (as specified in the applicable Final Terms) or the Relevant FTP Screen Page (as specified in the applicable Final Terms), as applicable, or, if such Relevant Futures or Options Exchange Website or Relevant FTP Screen Page is not available, such replacement website or page as the Calculation Agent shall select or, subject to Index Security Condition 5.4 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*), if the Relevant Futures or Options Exchange Website or Relevant FTP Screen Page is not available and the Calculation Agent determines that no replacement website or page exists or no such price is published after such time, the price determined by the Calculation Agent in good faith and in a commercially reasonable manner by reference to such sources as it considers appropriate.

"Current Exchange-traded Contract" means (a) if the Securities are not Rolling Futures Contract Securities, the Exchange-traded Contract and (b) if the Securities are Rolling Futures Contract Securities, the futures contract determined pursuant to Index Security Condition 5.2 (*Rolling Futures Contract Securities*) below.

"Exchange-traded Contract" means, in relation to an Index, the futures or options contract(s) specified as such for the Index in the applicable Final Terms, in each case, identified by reference to (a) the Index to which it relates, (b) the Futures or Options Exchange on which each such contract is traded and (c)(i) if the Securities are not Rolling Futures Contract Securities, the delivery or expiry month of such contract or (ii) if the Securities are Rolling Futures Contract Securities, the specified period of each such contract and the Futures Rollover Date.

"Futures or Options Exchange" means, in respect of an Index, the relevant exchange specified in the description of the Exchange-traded Contract for such Index in the applicable Final Terms.

"Futures Rollover Date" means either:

- (a) the date specified as such in the applicable Final Terms; or
- (b) the date selected by the Calculation Agent acting in good faith and a commercially reasonable manner within the period ("**Futures Rollover Period**") specified in the applicable Final Terms.

"Non-Commencement or Discontinuance of an Exchange-traded Contract" means there is no Official Settlement Price or, if First Traded Price Applicable is specified in the applicable Final Terms, the Actual First Traded Price, as applicable, as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to Valuation Date, Observation Date, Averaging Date or other date for valuation or observation or other relevant date, as the case may be, of the relevant Index.

"Official Settlement Price" means the official settlement price (howsoever described under the rules of the relevant Futures or Options Exchange or its clearing house) of the relevant Exchange-traded Contract published by the relevant Futures or Options Exchange or its clearing house and as determined by the Calculation Agent.

5.2 **Rolling Futures Contract Securities**

If the applicable Final Terms specify that the Securities are "Rolling Futures Contract Securities", the Securities will be valued by reference to futures contracts relating to the Index that have delivery or expiry months that do not correspond with the term of the Securities. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-traded Contract and such contract shall be the Current Exchange-traded Contract until the next occurring Futures Rollover

Date. Notwithstanding the provisions of 5.3 (*Adjustments to an Exchange-traded Contract*) or 5.4 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the Calculation Agent to select an Exchange-traded Contract and/or, unless Related Hedging is specified as not applicable in the applicable Final Terms, at such time hedge the Issuer's obligations in respect of the Securities then:

- (i) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*);
- (ii) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms);
- (iii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(a)
- (iv) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*),

settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(b); or

- (v) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(c); or
- (vi) if the Calculation Agent determines that such Non-Commencement or Discontinuance of an Exchange-traded Contract constitutes a *force majeure*, and if Index Security Condition 5.2(vi) is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder, which amount shall be equal to the fair market value of a Security taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Securities at their fair market value) and no such costs shall be deducted), such amount to be paid to the Securityholders on the date notified to the Securityholders in the notice of early settlement.

5.3 **Adjustments to an Exchange-traded Contract**

Without duplication of Index Security Condition 3 (*Adjustments to an Index*) or Index Security Condition 4 (*Correction of Index*) (which shall govern in the event of a conflict), in the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent shall make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

5.4 **Non-Commencement or Discontinuance of an Exchange-traded Contract**

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Official Settlement Price or Actual First Traded Price, as applicable, for any Valuation Date, Observation Date, Averaging Date or any other relevant date for valuation or observation, as the case may be, of the relevant Index shall be deemed to be the level of the relevant Index at the close of the regular trading session on the relevant Exchange or, in the case of a Composite Index, the time at which the official closing level of the Index is calculated and published by the Index Sponsor, in each case on the Valuation Date, Observation Date, Averaging Date or other relevant date.

Notwithstanding the foregoing, if in respect of Single Final Payout - Leverage Factor Securities, if on any Exchange Business Day a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs, then:

- (i) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payments being made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
- (ii) if Delayed Settlement on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms);
- (iii) if Highest Value is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(a);
- (iv) if Market Value is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(b); or
- (v) if Monetisation Option is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of

each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(c); or

5. Determination of Extraordinary ETI Events

The Calculation Agent will determine if an Extraordinary ETI Event has occurred acting in good faith and in a commercially reasonable manner. Where the occurrence of an event or set of circumstances is capable of triggering more than one Extraordinary ETI Event or both an Extraordinary ETI Event and a Market Disruption Event, the Issuer may determine which Extraordinary ETI Event is to be triggered or whether such event or set of circumstances shall be an Extraordinary ETI Event or Market Disruption Event.

In considering whether the occurrence of an event or set of circumstances triggers an Extraordinary ETI Event, the Calculation Agent may have regard to the combined effect, from the Trade Date, of any event or set of circumstances, as the case may be, if such event or set of circumstances occurs more than once.

6. Consequences of an Extraordinary ETI Event

- 6.1 If the Calculation Agent determines that an Extraordinary ETI Event has occurred, the Calculation Agent shall give notice (an "**Extraordinary ETI Event Notice**") to the Securityholders in accordance

with General Security Condition 8 (*Notices*) (which notice shall be irrevocable), of the occurrence of such Extraordinary ETI Event (the date on which an Extraordinary ETI Event Notice is given, an "**Extraordinary ETI Event Notification Date**") as soon as reasonably practicable following the determination of an Extraordinary ETI Event. The Extraordinary ETI Event Notice shall set out, if determined at that time, the action that it has determined to take in respect of the Extraordinary ETI Event pursuant to ETI Security Condition 6.2 below. Where the action that the Issuer has determined to take is not, for whatever reason, set out in the Extraordinary ETI Event Notice, the action that the Issuer has determined to take shall be set out in a subsequent notice given to Securityholders in accordance with General Security Condition 8 (*Notices*) as soon as reasonably practicable after the Extraordinary ETI Event Notification Date.

Neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Securityholder or any other person in connection with the Securities as a result of any delay in notifying Securityholders of the occurrence on Extraordinary Fund Event, howsoever arising. If the Calculation Agent gives an Extraordinary ETI Event Notice, the Issuer shall have no obligation to make any payment or delivery in respect of the Securities until the Issuer has determined the action to take pursuant to ETI Security Condition 6.2 below.

6.2 Following the occurrence of an Extraordinary ETI Event, the Issuer may take the action described below in (a), (b) or (c).

(a) Adjustment

If the Issuer determines that the action taken in respect of the Extraordinary ETI Event is to be "**Adjustment**", then it may:

- (i) require the Calculation Agent to determine, acting in good faith and in a commercially reasonable manner, the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the relevant Extraordinary ETI Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETI Interests or to the Securities and a change in the Weighting of any remaining ETI Interest(s) not affected by an Extraordinary ETI Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary ETI Event made by any options exchange to options on the ETI Interests traded on that options exchange; or
- (ii) following such adjustment to the settlement terms of options on the ETI Interests traded on such exchange(s) or quotation system(s) as the Issuer shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of any

Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the ETI Interests are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary ETI Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

(b) Substitution

If the Issuer determines that the action to be taken in respect of the Extraordinary ETI Event is to be "**Substitution**", the Calculation Agent shall on or after the relevant Extraordinary ETI Event Effective Date, substitute each ETI Interest (each, an "**Affected ETI Interest**") of each ETI (each, an "**Affected ETI**") which is affected by such Extraordinary ETI Event with an ETI Interest selected by it in accordance with the criteria for ETI Interest selection set out below (each, a "**Substitute ETI Interest**") and the Substitute ETI Interest will be deemed to be an "**ETI Interest**" and the relevant issuer of such Substitute ETI Interest, an "**ETI**" for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Securities was to be determined by reference to the initial price of the Affected ETI Interest, the initial price of each Substitute ETI Interest will be determined by the Calculation Agent in accordance with the following formula:

$$\text{initial price} = A \times (B/C)$$

where:

"A" is the Settlement Price of the relevant Substitute ETI Interest on the relevant Exchange on the Substitution Valuation Date;

"B" is the initial price of the relevant Affected ETI Interest; and

"C" is the Settlement Price of the relevant Affected ETI Interest on the relevant Exchange on the Substitution Valuation Date.

"Substitution Valuation Date" is the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner and specified in the notice referred to below.

Such substitution and the relevant adjustment to the ETI Basket will be deemed to be effective as of the date selected by the Calculation Agent (the **"Substitution Date"**) acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not, be the relevant Extraordinary ETI Event Effective Date.

The Weighting of each Substitute ETI Interest will be equal to the Weighting of the relevant Affected ETI Interest.

In order to be selected as a Substitute ETI Interest, the relevant share/unit/interest must satisfy the following criteria, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner:

- (i) where the relevant Extraordinary ETI Event is a Merger Event or a Tender Offer (a) in the case of ETI Securities related to a single ETI, and (b) in the case of ETI Securities related to an ETI Basket, the relevant share/unit/interest shall be an ordinary share/unit/interest of the entity or person that in the case of a Merger Event is the continuing entity in respect of the Merger Event or in the case of a Tender Offer is the entity making the Tender Offer provided that (i) the relevant share/unit/interest is not already included in the ETI Basket and (ii) it is or as of the relevant Extraordinary ETI Event Effective Date is promptly scheduled to be, (x) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (y) not subject to any currency exchange controls, trading restrictions or other trading limitations; or
- (ii) (a) where the relevant Extraordinary ETI Event is a Merger Event or a Tender Offer and a share/unit/interest would otherwise satisfy the criteria set out in paragraph (i) above, but such share/unit/interest is (in the case of an ETI Security related to an ETI Basket), already included in the ETI Basket, or (b) where the Extraordinary ETI Event is not a Merger Event or a Tender Offer, an alternative exchange traded instrument which, in the determination of the Calculation Agent, has similar characteristics to the relevant ETI, including but not limited to, a comparable listing (which, for the avoidance of doubt, shall not be restricted to a listing on the exchange or quotation system in the same geographic region), investment objectives, investment restrictions and investment processes, underlying asset pools and whose related parties (such as, but not limited to, trustee, general partner, sponsor, advisor, manager, operating company, custodian, prime broker and depository) are acceptable to the Calculation Agent;
- (c) Termination

If the Issuer determines that the action to be taken in respect of the Extraordinary ETI Event is to be "**Termination**", on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), (which such notice may be included in the Extraordinary ETI Event Notice in respect of the relevant Extraordinary ETI Event and will specify the Termination Date), all but not some only of the outstanding ETI Securities shall be settled by payment of the Termination Amount on the Termination Date. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*).

(d) **General**

In determining to take a particular action as a result of an Extraordinary ETI Event, the Issuer is under no duty to consider the interests of Securityholders or any other person. In making any determination as to which action to take following the occurrence of an Extraordinary ETI Event, neither the Issuer nor the Calculation Agent shall be responsible for any loss (including any liability in respect of interest), underperformance or opportunity cost suffered or incurred by Securityholders or any other person in connection with the Securities as a result thereof, howsoever arising including as a result of any delay in making any payment or delivery in respect of the Securities.

7. Correction of ETI Interest Price

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment or delivery under the Securities, if the price of the relevant ETI Interest published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction is published by the relevant price source within the number of days equal to the ETI Interest Correction Period of the original publication, the price to be used shall be the price of the relevant ETI Interest as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment or delivery under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

8. Calculations and Determinations

The Calculation Agent and/or the Issuer, as applicable, will make the calculations and determinations as described in the ETI Security Conditions in such a manner as the Calculation Agent and/or the Issuer, as the case may be, determines to be appropriate acting in good faith and in a commercially reasonable manner having regard in each case to the criteria stipulated in the ETI Security Conditions, the hedging arrangements in respect of the Securities and the nature of the relevant ETI and related ETI Interests.

ANNEX 5

ADDITIONAL TERMS AND CONDITIONS FOR DEBT SECURITIES

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Securities specified in the applicable Final Terms as Debt Securities shall comprise the terms and conditions of Securities (the "**General Security Conditions**") and the additional Terms and Conditions for Debt Securities set out below (the "**Debt Security Conditions**"), in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion in the applicable Final Terms. In the event of any inconsistency between (i) the General Security Conditions and (ii) the Debt Security Conditions, the Debt Security Conditions shall prevail.

1. Settlement Price

"**Settlement Price**" means, in relation to each Security, unless otherwise stated in the applicable Final Terms, in relation to each Cash Settled Security and subject as referred to in "Averaging Date" or "Valuation Date":

- (b) in the case of Debt Securities relating to a single Debt Instrument, an amount equal to:
 - (i) if Settlement Price Option 1 is specified as applicable in the applicable Final Terms, (x) the Reference Price for such Debt Instrument appearing on the Relevant Screen Page at the Valuation Time as determined by or on behalf of the Calculation Agent on (a) if Averaging is not specified in the applicable Final Terms, the Valuation Date or (b) if Averaging is specified in the applicable Final Terms, an Averaging Date, or if such price is not available, the arithmetic mean of the Reference Prices for such Debt Instrument at the Valuation Time on such Averaging Date or the Valuation Date, as the case may be, as received by it from two or more market-makers (as selected by the Calculation Agent) in such Debt Instrument, such prices to be expressed as a

percentage of the nominal amount of the Debt Instrument (y) multiplied by the nominal amount of such Debt Instrument; or

- (ii) if Settlement Price Option 2 is specified as applicable in the applicable Final Terms, the price expressed as a percentage of the Underlying Reference, determined by the Calculation Agent acting in good faith and in a commercially reasonable manner and equal to the highest firm bid quotation (relating to a nominal amount of the Underlying Reference equal to the product of (i) the Entitlement Amount, as set out in the relevant Final Terms, and (ii) the number of outstanding Securities) obtained by the Calculation Agent from at least two Eligible Dealers on the Valuation Date with respect to the Valuation Date, plus the Accrued Interest of the Underlying Reference as of the Valuation Date.

Where:

"Accrued Interest of the Underlying Reference as of the Valuation Date" the percentage specified as such in the applicable Final Terms;

"Eligible Dealer" means a dealer in obligations of the type of the Debt Instruments (as selected by the Calculation Agent) with whom the relevant Issurs's or, if applicable, Guarantors's division of Markets Division (or any successor thereto) may, according to its internal rules (including (but without limitation) regulatory rules, rules in matter of counterparty risk limitation and counterparty on-boarding), execute trades in the normal course of its business activity.

2. Exchange Business Day

"Exchange Business Day" means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the Exchange Business Day Centre(s) specified in the applicable Final Terms.

3. Market Disruption

"Market Disruption Event" shall mean, in respect of a Debt Instrument, the suspension of or limitation imposed on trading either on any exchange on which such Debt Instrument is traded or on any exchange on which options contracts or futures contracts with respect to such Debt Instrument are traded if, in the determination of the Calculation Agent, such suspension or limitation is material.

The Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Security Condition 8 (*Notices*) that a Market Disruption Event has occurred.

4. Correction of Debt Instrument Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Securities, if the price of the relevant Debt Instrument published on

a given day and used or to be used by the Calculation Agent to make any determination under the Securities, is subsequently corrected and the correction published by the relevant exchange within the number of days equal to the Debt Instrument Correction Period of the original publication, the price to be used shall be the price of the relevant Debt Instrument as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

5. Redemption or Cancellation of a Debt Instrument

- (i) If Redemption or Cancellation of a Debt Instrument Option 1 is indicated as applicable in the relevant Final Terms, notwithstanding General Security Condition 13 (*Additional Disruption Events And Optional Additional Disruption Events*), if on or prior to the last Averaging Date or the last Valuation Date, any Debt Instrument is redeemed (including any early redemption) or cancelled by the relevant Debt Instrument Issuer (a "**Debt Instrument Redemption Event**"), then:
 - (b) unless Delayed Settlement on Occurrence of Debt Instrument Redemption Event is specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of such Security taking into account the Debt Instrument Settlement Event, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
 - (c) if Delayed Settlement on Occurrence of Debt Instrument Settlement Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Debt Instrument Settlement Event less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Index Adjustment Amount**") as soon as practicable following the occurrence of the Debt Instrument Settlement Event (the "**Calculated Index Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Index Adjustment Amount plus interest accrued from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms).

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), of any determination made by it pursuant to this Debt Security Condition 5 and the action proposed to be taken in relation thereto and the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), shall make available for inspection by Securityholders copies of any such determinations.

- (ii) If Redemption or Cancellation of a Debt Instrument Option 2 is indicated as applicable in the relevant Final Terms, if in the determination of the Calculation Agent, an Acceleration Event has occurred, the Issuer may give notice to the Securityholders in accordance with General Security Condition 8 (*Notices*) and following such notice all of the Securities (but not some only) shall be settled at the Acceleration Event Amount on the Acceleration Event Settlement Date.

Where:

"Acceleration Event(s)" means any of the following events:

- (i) the Debt Instrument has become capable of being declared due and payable or has become due and payable before it would have otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, Acceleration Event, or other similar condition or event (described in the terms and conditions governing such Debt Instrument as of the Trade Date, notwithstanding any change due to the adoption, after the Trade Date, of any change in any applicable law or regulation (including without limitation, any tax law)) or due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by any taxing authority or brought in a court of competent jurisdiction), including as result of a failure to make any required payment;
- (ii) the Debt Instrument is redeemed before its maturity date;
- (iii) any amount to be received by a holder of the Debt Instrument thereunder would be reduced or paid in or exchanged into another form due to the adoption, after the issue date, of any change in any applicable law or regulation (including without limitation, any tax law) or due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by any taxing authority or brought in a court of competent jurisdiction);

- (iv) an early redemption of the Debt Instrument for tax reasons in accordance with its terms;
- (v) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including in cases where the issuer of the Debt Instrument is allowed not to paid the interest or to make any change to the interest effectively paid under the Debt Instrument with or without consent of the holders of such Debt Instrument);
- (vi) a reduction in the amount of principal or premium payable at maturity or at scheduled redemption dates (including in cases where the issuer of the Debt Instrument is allowed not to paid the principal or to make any change to the principal effectively paid under the Debt Instrument with or without consent of the holders of such Debt Instrument);

- (xi) the issuer of the Debt Instrument (or any guarantor or credit support provider thereof) becomes subject to any bankruptcy, winding-up or insolvency proceedings, the appointment of an insolvency or similar officer or any analogous event or in any applicable jurisdiction or takes any action in furtherance of any of the foregoing.

The date of the occurrence of any Acceleration Event shall be determined by the Calculation Agent (such determination to be made in a commercially reasonable manner) (the **"Acceleration Event Determination Date"**).

"Acceleration Event Amount" means an amount determined by the Calculation Agent equal to the fair market value of such Securities by reference to such factor(s) as it may deem appropriate and less the Unwind Costs. For the purposes of determining the fair market value

of the Certificates following an Acceleration Event, no account shall be taken of the financial condition of the Issuer or the Guarantor which shall be presumed to be able to perform fully its obligations in respect of the Securities.

"Acceleration Event Settlement Date" means five Business Days following the date on which a notice of the relevant event is given by the Issuer to the Securityholders in accordance with General Security Condition 8 (*Notices*).

6. Futures Price Valuation

If "Futures Price Valuation" is specified as applicable in the applicable Final Terms the following provisions shall apply to these Debt Security Conditions:

"Settlement Price" means, in relation to each Security, an amount equal to the Daily Settlement Price of the relevant Current Exchange-traded Contract as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the Valuation Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date.

For the purposes of determining whether a day is a Scheduled Trading Day where Futures Price Valuation applies, "Scheduled Trading Day" will be deemed to mean a day on which the Daily Settlement Price of the relevant Current Exchange-traded Contract is scheduled to be published by the relevant Futures or Options Exchange.

If Futures Price Valuation applies the Disrupted Day provisions in the General Security Conditions and/or these Debt Security Conditions will not apply in relation to any Current Exchange-traded Contract.

For these purposes:

"Current Exchange-traded Contract" means (a) if the Securities are not Rolling Futures Contract Securities, the Exchange-traded Contract and (b) if the Securities are Rolling Futures Contract Securities, the futures contract determined pursuant to Debt Security Condition 7 (*Rolling Futures Contract Securities*) below.

"Daily Settlement Price" means the daily settlement price (howsoever described under the rules of the relevant Futures or Options Exchange or its clearing house) of the relevant Exchange-traded Contract published by the relevant Futures or Options Exchange or its clearing house and as determined by the Calculation Agent.

"Exchange-traded Contract" means the futures or options contract(s) specified as such in the applicable Final Terms, in each case, identified by reference to (a) the Synthetic Debt Instrument to which it relates, (b) the Futures or Options Exchange on which each such contract is traded and (c)(i) if the Securities are not Rolling Futures Contract Securities, the delivery or expiry month of such contract

or (ii) if the Securities are Rolling Futures Contract Securities, the specified period of each such contract and the Futures Rollover Date.

"Futures or Options Exchange" means the relevant exchange specified in the description of the Exchange-traded Contract in the applicable Final Terms or any successor to such exchange.

"Futures Rollover Date" means either:

- (a) the date specified as such in the applicable Final Terms; or
- (b) the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner within the period ("**Futures Rollover Period**") specified in the applicable Final Terms.

"Non-Commencement or Discontinuance of an Exchange-traded Contract" means there is no Daily Settlement Price as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to the Valuation Date, Averaging Date or other date for valuation or observation or other relevant date, as the case may be, of the relevant Current Exchange-traded Contract.

"Synthetic Debt Instrument" means the synthetic debt instrument to which an Exchange-traded Contract is related, as described in the applicable Final Terms.

Debt Security Condition 3 (*Market Disruption*), Debt Security Condition 4 (*Correction of Debt Instrument Price*) and Debt Security Condition 5 (*Redemption or Cancellation of a Debt Instrument*) will not apply if Futures Price Valuation applies.

If Futures Price Valuation applies, references in the General Security Conditions, Formulas Conditions to a "Debt Instrument" or "Debt Instruments" are deemed to be references to a Current Exchange-traded Contract or "Current Exchange-traded Contracts", as applicable.

7. Rolling Futures Contract Securities

If the applicable Final Terms specify that the Securities are "Rolling Futures Contract Securities", the Securities will be valued by reference to futures contracts relating to the Synthetic Debt Instrument that have delivery or expiry months that do not correspond with the term of the Securities. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-traded Contract and such contract shall be the Current Exchange-traded Contract until the next occurring Futures Rollover Date. Notwithstanding the provisions of Debt Security Condition 8 (*Adjustments to an Exchange-traded Contract*) or Debt Security Condition 9 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the

Calculation Agent to select an Exchange-traded Contract and/or at such time hedge the Issuer's obligations in respect of the Securities then:

- (a) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
- (b) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms).

8. Adjustments to an Exchange-traded Contract

In the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent shall make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

9. Non-Commencement or Discontinuance of an Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Issuer may take the action described in (a) below or require the Calculation Agent to take the action described in (b) below:

- (a)
 - (i) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or
 - (ii) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms); or
 - (b)
 - (i) replace the relevant Exchange-traded Contract affected by the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Affected Exchange-traded Contract**") with a substitute Exchange-traded Contract (the "**Substitute Exchange-traded Contract**") which, in the determination of the Calculation Agent acting in good faith and in a commercially reasonable manner, has similar contract specifications to those of the Affected Exchange-traded Contract and (ii) make such adjustments to adjust such terms of the Securities as it determines acting in good faith and in a commercially reasonable manner to be appropriate to preserve the economic position of the Securityholders prior to such replacement. Such replacement will be deemed to be effective as of the date selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner, and specified in the

notice referred to below. The Substitute Exchange-traded Contract will be deemed to be an **"Exchange-traded Contract"** for the purposes of the Securities.

Notwithstanding the foregoing, in the case of Italian Listed Securities the Calculation Agent will adjust any relevant terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities.

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), of any determination made by it pursuant to this Debt Security Condition 9 and the action proposed to be taken in relation thereto and the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), shall make available for inspection by Securityholders copies of any such determinations.

10. Correction of the Daily Settlement Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Securities, if the Daily Settlement Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction is published by the relevant Futures or Options Exchange, within the number of days equal to the Daily Settlement Price Correction Period of the original publication, the Daily Settlement Price to be used shall be the Daily Settlement Price as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Securities specified in the applicable Final Terms as Commodity Securities shall comprise the terms and conditions of Securities (the "**General Security Conditions**") and the additional Terms and Conditions for Commodity Securities set out below (the "**Commodity Security Conditions**"), in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion in the applicable Final Terms. "Basket of Commodities" means a basket comprising two or more Commodities and/or Commodity Indices;

In that case, (i) the last such consecutive Pricing Date shall be deemed to be the Pricing Date for the Affected Item, notwithstanding the fact that such day is a Commodity Disrupted Day, and (ii) the Calculation Agent shall determine the price or level of such Affected Item based upon the price at which the Issuer is able to sell or otherwise realise any hedge positions in respect of the Securities during the period of five Commodity Business Days following the last such consecutive Pricing Date;

The Calculation Agent shall give notice as soon as practicable to Securityholders, in accordance with General Security Condition 8 (*Notices*) of the occurrence of a Market Disruption Event and the action proposed to be taken in relation thereto.

3. Consequences of a Market Disruption Event and Disruption Fallbacks

Upon a Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent may, acting in good faith and in a commercially reasonable manner, take the action described in (a), (b) or (c) below:

- (a) the Calculation Agent shall determine if such event has a material effect on the Securities and, if so shall calculate the relevant Remuneration Amount and/or Cash Settlement Amount and/or make any other relevant calculation using, in lieu of a published price or level for that Commodity or Commodity Index, as the case may be, the price or level for that Commodity or Commodity Index as determined by the Calculation Agent using the Commodity Fallback Value; or
- (b) the Calculation Agent may substitute the relevant Commodity, Commodity Reference Price or Index Component with a Commodity, Commodity Reference Price or Index Component, as the case may be, selected by it in accordance with the criteria set out below (each, a "**Substitute Commodity**", "**Substitute Commodity Reference Price**" or a "**Substitute Index Component**") for each Commodity, Commodity Reference Price or Index Component, as the case may be, (each, an "**Affected Commodity**", "**Affected Commodity Reference Price**" or "**Affected Index Component**", as the case may be), which is affected by the Market Disruption Event and the Substitute Commodity, Substitute Commodity Reference Price or Substitute Index Component, as the case may be, will be deemed to be a "**Commodity**", "**Commodity Reference Price**" or an "**Index Component**", as the case may be, for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any one or more of the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Securities was to be determined by reference to the initial price of the Commodity, the Commodity Reference Price or the Index Component, as the case may be, the initial price or level of each Substitute Commodity, Substitute Commodity Reference Price or Substitute Index Component, as the case may be, will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

In order to be selected as a Substitute Commodity, the Substitute Commodity shall be valued on the basis of a futures contract on similar terms to, with a delivery date corresponding with and relating to the same Commodity as the Affected Commodity.

In order to be selected as a Substitute Commodity Reference Price, the Substitute Commodity Reference Price shall be a benchmark, price or quotation selected by the Calculation Agent, acting in good faith and a commercially reasonable manner and which in its determination is or will be used by market participants as a substitute for the Affected Commodity Reference Price.

In order to be selected as a Substitute Index Component, the Substitute Index Component shall be an alternative futures contract or commodity index relating to a futures contract on similar terms to the Affected Index Component.

Such substitution and the relevant adjustment(s) will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner which may, but need not, be the relevant date of the Market Disruption Event. Such substitution will be notified to the Securityholders as soon as practicable after the Substitution Date in accordance with General Security Condition 8 (*Notices*); or

- (c)
 - (i) unless Highest Value, Market Value or Monetisation Option are specified in the applicable Final Terms, the Issuer shall settle all but not some only of the Securities, each Security being settled by payment of an amount equal to the fair market value of such Security less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*);
 - (ii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(a);
 - (iii) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(b); or
 - (iv) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(c); or

- (v) if the Calculation Agent determines that such Market Disruption Event constitutes a *force majeure*, and if Commodity Security Condition 3(c)(v) is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholder in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder, which amount shall be equal to the fair market value of a Security taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Securities at their fair market value) and no such costs shall be deducted), such amount to be paid to the Securityholders on the date notified to the Securityholders in the notice of early settlement.

4. Adjustments to a Commodity Index

- (a) Successor Index Sponsor Calculates and Reports a Commodity Index

If a relevant Commodity Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (b) replaced by a successor commodity index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that commodity index (the "**Successor Commodity Index**") will be deemed to be the Commodity Index.

- (b) Modification and Cessation of Calculation of a Commodity Index

If (a) on or prior to the last Averaging Date, the last Observation Date, the Final Remuneration Pricing Date or the Final Pricing Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent contracts or commodities and other routine events) (a "**Commodity Index Modification**"), or permanently cancels a relevant Commodity Index and no Successor Commodity Index exists (a "**Commodity Index Cancellation**"), or (b) on any Averaging Date, Observation Date, Remuneration Pricing Date or other Pricing Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Commodity Index (a "**Commodity Index Disruption**" and, together with a Commodity Index Modification and a Commodity Index Cancellation, each a "**Commodity Index Adjustment Event**"), then:

- (a) the Calculation Agent shall determine if such Commodity Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the Relevant Price using, in lieu of a published level for that Commodity Index, the Commodity Fallback Value; or

- (b) (i) unless Highest Value, Market Value or Monetisation Option are specified as applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled, the Issuer will pay an amount to each Securityholder in respect of each Security, being settled at an amount equal to the fair market value of a Security taking into account the Commodity Index Adjustment Event, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*);
- (ii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(a);
- (iii) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(b); or
- (iv) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder calculated and paid on such date determined, in accordance with General Security Condition 20(c); or
- (v) if the Calculation Agent determines that such Commodity Index Adjustment Event constitutes a *force majeure*, and if Commodity Security Condition 4(b)(v) is specified in the applicable Final Terms, the Issuer will on giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*), settle all but not some only of the Securities and pay to each Securityholder an amount in respect of each Security held by such Securityholder, which amount shall be equal to the fair market value of a Security taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Securities at their fair market value) and no such costs shall be deducted), such amount to be paid to the

Securityholders on the date notified to the Securityholders in the notice of early settlement.

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities.

5. Correction of Commodity Reference Price

With the exception of any corrections published after the day which is three Commodity Business Days prior to the due date for any payment under the Securities, if the Commodity Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the Commodity Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant Commodity as so corrected. Corrections published after the day which is three Commodity Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

6. Rolling Futures Contract Securities

If the applicable Final Terms specify that the Securities are "Rolling Futures Contract Securities", the Commodity Reference Price in respect of the Securities will be valued by reference to rolling futures contracts each of which have delivery months that do not correspond with the term of the Securities. In such case, on or prior to the Issue Date, the Calculation Agent will select the relevant Futures Contract and for each following day until the Futures Rollover Date such futures contract will be the Futures Contract for the purposes of the Commodity Reference Price. On each Futures Rollover Date, the Calculation Agent will select another Futures Contract and such contract shall be the Futures Contract for the purposes of the Commodity Reference Price until the next occurring Futures Rollover Date. If on a Futures Rollover Date a Market Disruption Event or a Commodity Index Adjustment Event occurs and it is impossible or materially impracticable for the Calculation Agent to select a Futures Contract and/or at such time hedge the Issuer's obligations in respect of the Securities then the provisions of Commodity Security Condition 3 (*Consequence of a Market Disruption Event and Disruption Fallbacks*) and Commodity Security Condition 4 (*Adjustments to a Commodity Index*), as applicable, shall apply to the Securities.

ANNEX 7

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION INDEX SECURITIES

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Securities specified in the applicable Final Terms as Inflation Index Securities shall comprise the terms and conditions of Securities (the "**General Security Conditions**") and the additional Terms and Conditions for Inflation Index Securities set out below (the "**Inflation Index Security Conditions**"), in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion in the applicable Final Terms. "Delayed Index Level Event" means, in respect of any Valuation Date, that the Index Sponsor fails to publish or announce the Relevant Level;

"Fallback Bond" means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays a redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Settlement Date, (b) the next longest maturity after the Settlement Date if there is no such bond maturing on the Settlement Date or (c) the next shortest maturity before the Settlement Date, if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

"Index Cancellation" means a level for the Inflation Index has not been published or announced for two consecutive months and/or the Index Sponsor cancels the Inflation Index and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and no Successor Index exists;

If the period for which the Relevant Level was reported is a period other than a month, the Reference Month shall be the period for which the Reference Level was reported;

"Related Bond" means the bond specified as such in the relevant Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not applicable" is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the relevant Settlement Date unless "Fallback Bond: Not applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination;

"Related Bond Redemption Event" means, if specified as applicable in the relevant Final Terms, at any time prior to the Settlement Date, (a) the Related Bond is redeemed, repurchased or cancelled, (b) the Related Bond becomes repayable prior to its stated date of maturity for whatever reason, or (c) the issuer of the Related Bond announces that the Related Bond will be redeemed, repurchased or cancelled prior to its stated date of maturity;

"Valuation Date" means the Remuneration Valuation Date(s) and/or the Settlement Valuation Date specified in the applicable Final Terms;

2. Delay in Publication

2.1 If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Valuation Date, then the Relevant Level with respect to any Reference Month which is to be utilised in any calculation or determination to be made by the Calculation Agent and/or the Issuer with respect to such Valuation Date (the **"Substitute Inflation Index Level"**) shall be determined by the Calculation Agent (subject to Inflation Index Security Condition 4.2 below (*Substitute Inflation Index Level*)) as follows:

- (a) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- (b) if (i) Related Bond is specified as not applicable in the relevant Final Terms, or (ii) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (a) above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$$\text{Substitute Inflation Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level});$$

where:

"Base Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined;

"Reference Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall promptly give notice to the Securityholders in accordance with General Security Condition 8 (*Notices*) of any Substitute Inflation Index Level.

If the Relevant Level is published or announced at any time on or after the relevant Cut-Off Date specified in the applicable Final Terms, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Index Security Condition 2 will be the definitive level for that Reference Month.

3. Successor Inflation Index

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a "**Successor Inflation Index**") (in lieu of any previously applicable Index) for the purposes of the Securities as follows:

- (a) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine a "Successor Inflation Index" by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (b) if (i) Related Bond is specified as not applicable in the applicable Final Terms or (ii) a Related Bond Redemption Event has occurred and Fallback Bond is specified as not applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Inflation Index but that it will be superseded by a replacement Inflation Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Inflation Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the Inflation Index, such replacement index shall be designated a "Successor Inflation Index";
- (c) if no Successor Inflation Index has been deemed under (a) or (b) the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be; if between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if fewer than three responses are received by the Cut-Off Date or if each of the responses received state different indices the Calculation Agent will determine an appropriate alternative index, and such index will be deemed a "Successor Inflation Index"; or
- (d) if the Calculation Agent determines that there is no appropriate alternative index there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Inflation Index shall be deemed to replace the Index for the purposes of the Inflation Index Securities. Notice of the determination of a Successor Inflation Index, the effective date of the Successor Inflation Index or the occurrence of an Index Cancellation will be given to Securityholders of the Inflation Index Securities by the Issuer in accordance with General Security Condition 8 (*Notices*).

4. Adjustments

4.1 Successor Inflation Index

If a Successor Inflation Index is determined in accordance with Inflation Index Security Condition 3 above (*Successor Inflation Index*), the Calculation Agent may make any adjustment or adjustments (without limitation) to the final Cash Settlement Amount payable under the Securities (if any) and/or any other relevant term of the Securities as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner. The Issuer shall give notice to the Securityholders of any such adjustment in accordance with General Security Condition 8 (*Notices*).

4.2 Substitute Inflation Index Level

If the Calculation Agent determines a Substitute Inflation Index Level in accordance with Inflation Index Security Condition 2 (*Delay in Publication*) above, the Calculation Agent may make any adjustment or adjustments (without limitation) to (a) the Substitute Inflation Index Level determined in accordance with Inflation Index Security Condition 2 (*Delay in Publication*) above and/or (b) the Remuneration Amount and/or Cash Settlement Amount payable under the Securities (if any) and/or any other relevant term of the Securities, in each case, as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner, provided that if Inflation Index Level Adjustment is specified as applicable in the applicable Final Terms, the Calculation Agent will only be permitted to make any such adjustment in accordance with this Inflation Index Security Condition 4.2 if the Calculation Agent determines that the delay in publication was not attributable to the Issuer, but substantially, alters the economics of the Securities compared to the economics as of the Issue Date. The Issuer shall give notice to the Securityholders of any such adjustment in accordance with General Security Condition 8 (*Notices*).

4.3 Index Level Adjustment Correction

- (a) The first publication or announcement of the Relevant Level (disregarding estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Inflation Index Security Condition 4.6 below (*Index Modification*), later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National-Revised Consumer Price Index (CPI) and the ESP-Harmonised-Revised Consumer Price Index HCPI, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Valuation Date will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive

Relevant Level for such Reference Month. The Issuer shall give notice to the Securityholders of any valid revision in accordance with General Security Condition 8 (*Notices*).

- (b) If, within 30 days of publication or at any time prior to a Valuation Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Valuation Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any relevant Remuneration Amount and/or the Cash Settlement Amount payable under the Securities (if any) and/or any other relevant term of the Securities as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. The Issuer shall give notice to the Securityholders of any such adjustment and/or amount in accordance with General Security Condition 8 (*Notices*).
- (c) If a Relevant Level is published or announced at any time after the Cut-Off Date in respect of a Valuation Date in respect of which a Substitute Inflation Index Level was determined, the Calculation Agent may either (i) determine that such Relevant Level shall not be used in any calculation or determination under the Inflation Index Securities and that the Substitute Inflation Index Level shall be deemed to be the definitive Relevant Level for the relevant Reference Month, or (ii) to make any adjustment to any relevant Remuneration Amount and/or the Cash Settlement Amount payable under the Securities (if any) and/or any other relevant term of the Securities as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. If the Calculation Agent determines that any event occurs affecting the Specified Currency or Settlement Currency, as applicable, (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Cash Settlement Amount and/or any other relevant term of the Securities (including the date on which any amount is payable by the Issuer), the Calculation Agent may make such adjustment or adjustments to any relevant Cash Settlement Amount and/or any Remuneration Amount and/or any other relevant term of the Securities as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner, provided that if Currency Adjustment is specified as applicable in the applicable Final Terms, the Calculation Agent will only be permitted to make any such adjustment if

the Calculation Agent determines that the event affecting the Specified Currency or the Settlement Currency was not attributable to the Issuer, but substantially alters the economics of the Securities compared to the economics as of the Issue Date. The Issuer shall give notice to the Securityholders of any such adjustment in accordance with General Security Condition 8 (*Notices*).

4.5 **Rebasing**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the Relevant Level from the date of such rebasing; provided, however, that the Calculation Agent may make (a) if Related Bond is specified as applicable in the relevant Final Terms, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as before the rebasing, and/or (b) if Related Bond is specified as not applicable in the relevant Final Terms or a Related Bond Redemption Event has occurred, the Calculation Agent may make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, and in each case the Calculation Agent may make any adjustment(s) to any relevant Remuneration Amount and/or the Cash Settlement Amount payable under the Securities (if any) and/or any other term of the Securities as the Calculation Agent may deem necessary acting in good faith and in a commercially reasonable manner. If the Calculation Agent determines that neither (a) nor (b) above would produce a commercially reasonable result, the Issuer may settle each Security on a date notified by the Issuer to Securityholders in accordance with General Security Condition 8 (*Notices*), in which event the Issuer will pay to each Securityholder in respect of each such Security, an amount equal to the fair market value of a Security, as determined by the Calculation Agent as at the date of settlement taking into account the rebasing, less, unless if Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs. Notice of any adjustment, settlement of the Securities or determination pursuant to this paragraph shall be given to Securityholders in accordance with General Security Condition 8 (*Notices*).

manner for the modified Index to continue as the relevant Inflation Index and to account for the economic effect of the Index Modification.

- (b) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-Off Date in respect of any Valuation Date, the Calculation Agent may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Valuation Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Remuneration Payment Date and/or Settlement Date, such that the provisions of paragraph (a) above will apply, or, notwithstanding that the Index Modification has occurred following the Cut-Off Date, to make any adjustments as the Calculation Agent deems fit in accordance with paragraph (a) above.

4.7 **Index Cancellation**

If the Calculation Agent determines that an Index Cancellation has occurred, the Issuer may:

- (a) elect for the Calculation Agent to calculate the relevant Remuneration Amount and/or relevant level using, in lieu of a published level for that Inflation Index, the level for that Inflation Index, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Inflation Index last in effect prior to cancellation;
- (b)
 - (i) unless Highest Value, Market Value or Monetisation Option are specified as applicable in the applicable Final Terms, settle all but not some only of the Securities on the date notified by the Issuer to Securityholders in accordance with General Security Condition 8 (*Notices*) in which event the Issuer will pay to each Securityholder in respect of such Security held by him an amount equal to fair market value of a Security as determined by the Calculation Agent as at the date of settlement taking into account the Index Cancellation, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, payment being made in such manner as shall be notified to Securityholders in accordance with General Security Condition 8 (*Notices*);

value) and no such costs shall be deducted), such amount to be paid to the Holders on the date notified to the Holders in the notice of early settlement;

- (c) Unless Disruption Event Postponement is specified as not applicable in the applicable Final Terms, notwithstanding any provisions in the Conditions to the contrary, postpone any payment date related to such Settlement Price Date (or, if different, the day on which prices for that date would, in the ordinary course, be provided or announced by the Price Source), as the case may be (including the Settlement Date) until the Business Day following the date on which a Disruption Event is no longer subsisting and no interest or other amount shall be paid by the Issuer in respect of such postponement.

6. Rolling Futures Contract Securities

If the applicable Final Terms specify that the Securities are "Rolling Futures Contract Securities", the Securities will be valued by reference to futures contracts relating to the Currency Pair that have expiry months that do not correspond with the term of the Securities. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-trade Contract and such contract will be the Current Exchange-traded Contract until the next occurring Futures Rollover Date. Notwithstanding the provisions of Currency Security Condition 7 (*Adjustments to an Exchange-traded Contract*) or Currency Security Condition 8 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the Calculation Agent to select an Exchange-traded Contract and/or at such time hedge the Issuer's obligations in respect of the Securities then:

- (a) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-

traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or

- (b) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount.

7. Adjustments to an Exchange-traded Contract

In the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent will make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

8. Non-Commencement or Discontinuance of an Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Issuer may take the action described in (a) below or require the Calculation Agent to take the action described in (b) below:

- (a) (i) unless Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may settle the Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Securities are so settled the Issuer will pay an amount to each Securityholder in respect of each Security, being settled equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs, all as determined by the Calculation Agent

acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Security Condition 8 (*Notices*); or

- (ii) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the Unwind Costs (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Settlement Date shall settle each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Settlement Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount; or
- (b)
 - (i) replace the relevant Exchange-traded Contract affected by the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Affected Exchange-traded Contract**") with a substitute Exchange-traded Contract (the "**Substitute Exchange-traded Contract**") which, in the determination of the Calculation Agent acting in good faith and in a commercially reasonable manner, has similar contract specifications to those of the Affected Exchange-traded Contract and
 - (ii) make such adjustments to adjust the terms of the Securities as it determines acting in good faith and in a commercially reasonable manner to be appropriate to preserve the economic position of the Securityholders prior to such replacement. Such replacement will be deemed to be effective as of the date selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner, and specified in the notice referred to below. The Substitute Exchange-traded Contract will be deemed to be an "**Exchange-traded Contract**" for the purposes of the Securities.

Notwithstanding the foregoing, in the case of Italian Listed Securities the Calculation Agent will adjust any relevant terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities.

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), of any determination made by it pursuant to this Currency Security Condition 8 and the action proposed to be taken in relation thereto and the Fiscal

Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Securities), shall make available for inspection by Securityholders copies of any such determinations.

9. Correction of the Daily Settlement Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Securities, if the Daily Settlement Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction is published by the relevant Futures or Options Exchange, within the number of days equal to the Daily Settlement Price Correction Period of the original publication, the Daily Settlement Price to be used shall be the Daily Settlement Price as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

Neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Securityholder or any other person in connection with the Securities as a result of any delay in notifying Securityholders of the occurrence of an Extraordinary Fund Event, howsoever arising. If the Calculation Agent gives an Extraordinary Fund Event Notice, the Issuer shall have no obligation to make any payment or delivery in respect of the Securities until the Issuer has determined the action that it has determined to take pursuant to Fund Security Condition 4.2.

- 4.2 Following the occurrence of an Extraordinary Fund Event, the Issuer may take the action described below in 4.2(a), (b) or (c) provided that, if the Calculation Agent determines that an Extraordinary Fund Event has occurred or is continuing on the Delayed Payment Cut-off Date in accordance with the provisions of Fund Security Condition 5 below (*Settlement Date/Automatic Early Settlement Date/Termination Date Extension*), the Issuer shall determine that the action to be taken in respect of the Extraordinary Fund Event is "**Termination**".

- (iii) if no alternative fund can be determined pursuant to the preceding sub-paragraph (ii) above, use reasonable efforts to substitute the Fund with an index (or a fund tracking such index) selected by the Calculation Agent acting in good faith and in a commercially reasonable manner; and
- (iv) following any substitution in accordance with sub-paragraph (ii) or (iii) above, the Issuer may require the Calculation Agent make such determinations and/or adjustments to these Terms and Conditions and/or the Final Terms as it determines to be appropriate to take account of such Substitution.

In respect of each Underlying Interest Determination Date specified in the applicable Final Terms, the Underlying Interest Rate or, if two or more Underlying Interest Rates are specified in the applicable Final Terms, each Underlying Interest Rate will be determined in the manner specified in the applicable Final Terms. Each Underlying Interest Rate comprising a Multiple Underlying Interest Rate will be calculated separately and independently as provided below and in the applicable Final Terms.

2. **ISDA Determination**

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be the relevant Underlying ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any) specified in the applicable Final Terms. For the purposes of these Underlying Interest Rate Security Conditions, "**Underlying ISDA Rate**" means a rate equal to the Floating Rate that would be calculated by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (1) the Floating Rate Option is as specified in the relevant Final Terms;
- (2) except in the case of Overnight Floating Rate Options, the Designated Maturity is a period specified in the relevant Final Terms;

- (i) Overnight Averaging is applicable if specified in the relevant Final Terms;

 - (ii) All-in Compounded Index Method is applicable if specified in the relevant Final Terms; and
 - (iii) Compounded Index Method with Observation Period Shift is applicable if specified in the relevant Final Terms and, if so, (x) Set-in-Advance is applicable if specified as such in the relevant Final Terms, (y) Observation Period Shift is the number of Observation Period Shift Business Days specified in the relevant Final Terms or, if not so specified in the relevant Final Terms, in the ISDA Definitions and (z) Observation Period Shift Additional Business Days are the days, if any, specified as such in the relevant Final Terms;

For the purposes of this Underlying Interest Rate Security Condition 2, “**Floating Rate**”, “**Calculation Agent**”, “**Swap Transaction**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**”, “**Overnight Floating Rate Option**”, “**Overnight Compounding Method**”, “**Compounding with Lookback**”, “**Lookback**”, “**Applicable Business Days**”, “**Compounding with Observation Period Shift**”, “**Set-in-Advance**”, “**Observation Period Shift**”, “**Observation Period Shift Business Days**”, “**Observation Period Shift Additional Business Days**”, “**Compounding with Lockout**”, “**Lockout**”, “**Lockout Period Business Days**”, “**Daily Capped Rate**”, “**Daily Floored Rate**”, “**Averaging with Lookback**”, “**Averaging with Observation Period Shift**”, “**Averaging with Lockout**”, “**Index**”

Method”, “Index Floating Rate Option”, “Compounded Index Method”, “All-in Compounded Index Method” “Compounded Index Method with Observation Shift”, and “Delayed Payment” have the meanings given to those terms in the ISDA Definitions.

3. Screen Rate determination for Underlying Reference Rates other than SONIA, SOFR, €STR, SARON and CMS

Subject to the provisions of Underlying Interest Rate Security Condition 9 below, if Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be determined by the Calculation Agent as follows:

- (A) if the Underlying Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Underlying Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Underlying Interest Determination Date;
- (B) in any other case, the Calculation Agent will determine the arithmetic mean of the Underlying Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Underlying Interest Determination Date;
- (C) if, in the case of (A) above, such rate does not appear on that page or, in the case of (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will determine the Underlying Reference Rate as the rate it determines would have prevailed but for such non-availability or other event acting in good faith and using its reasonable judgment.

4. Screen Rate determination for Underlying Reference Rate being CMS

Subject to the provisions of Underlying Interest Rate Security Condition 9 below, where Screen Rate Determination is specified in the applicable Final Terms as the manner in which a Underlying Interest Rate is to be determined, and CMS is specified as the Underlying Reference Rate in the applicable Final Terms such Underlying Interest Rate, will subject as provided below, be the CMS Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Underlying Margin (if any), all as determined by the Calculation Agent and provided that the Underlying Reference Rate may not be less than zero.

If the Relevant Screen Page is not available, the Issuer shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Relevant Time on the Underlying Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Underlying Interest Determination Date shall be the arithmetic mean of such quotations, eliminating the highest

quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Underlying Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

For the purpose of this Underlying Interest Rate Security Condition 4:

"CMS Rate" shall mean the applicable swap rate for swap transactions in the Relevant Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Reference Time on the Underlying Interest Determination Date in question, all as determined by the Calculation Agent.

"CMS Reference Banks" means (i) where the Relevant Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Relevant Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Relevant Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Relevant Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case selected by the Calculation Agent.

"Designated Maturity", **"Remuneration Determination Date(s)"**, **"Margin"**, **"Rate Multiplier"**, **"Relevant Currency"**, **"Relevant Screen Page"** and **"Relevant Time"** shall have the meanings given to those terms in the applicable Final Terms.

"Relevant Swap Rate" means:

- (1) where the Relevant Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and
- (2) where the Relevant Currency is any other currency or if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

"Representative Amount" means any amount that is representative for a single transaction in the relevant market at the relevant time.

5. **Screen Rate determination for Underlying Reference Rate being SONIA**

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SONIA is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Underlying Interest Rate Security Condition 5:

"Compounded Daily SONIA", will be calculated by the Calculation Agent on each Underlying Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

"d" means the number of calendar days in the relevant Observation Period;

"d_o" means the number of London Banking Days in the relevant Observation Period;

"i" means a series of whole numbers from one to "d_o", each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in the relevant Observation Period to, and including, the last London Banking Day in such period;

"London Banking Day" or **"LBD"** means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

"n_i" for any London Banking Day "i", in the relevant Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day "i" up to, but excluding, the following London Banking Day;

"Observation Period" means, the period(s) indicated as such in the applicable Final Terms;

"p" for any Observation Period (as applicable), means the number of London Banking Days specified as the "Observation Shift Period" in the relevant Final Terms;

"SONIA Reference Rate" means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average ("SONIA") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

“**SONIA_i**” means the SONIA Reference Rate for the relevant London Banking Day “i”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Observation Period (as applicable), the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to subject to Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*), be:

- (A) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Underlying Interest Rate Security Condition 5, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

6. Screen Rate determination for Underlying Reference Rate being SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SOFR is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate for each Underlying Interest Determination Date will, subject as provided below, be the Compounded SOFR plus or minus (as

specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Underling Interest Determination Date.

For the purposes of this Underlying Interest Rate Security Condition 6:

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

“**Compounded SOFR**” with respect to any Underlying Interest Determination Date, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“**d**” is the number of calendar days in the relevant Observation Period;

“**d_o**” is the number of U.S. Government Securities Business Days in the relevant Observation Period.

“**n_i**” for any U.S. Government Securities Business Day “**i**” in the relevant Observation Period, is the number of calendar days from, and including, such U.S. Government Securities Business Day “**i**” to, but excluding, the following U.S. Government Securities Business Day (“**i+1**”);

“**SOFR**” with respect to any U.S. Government Securities Business Day, means:

- (i) the Secured Overnight Financing Rate published for such U.S. Government Securities Business Day as such rate appears on the SOFR Administrator’s Website at 3:00 p.m.

(New York time) on the immediately following U.S. Government Securities Business Day (the “**SOFR Determination Time**”); or

- (ii) subject to the provisions below, if the rate specified in (i) above does not so appear, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator’s Website;

“**SOFR Administrator**” means the Federal Reserve Bank of New York (or a successor administrator of the Secured Overnight Financing Rate);

“**SOFR Administrator’s Website**” means the website of the Federal Reserve Bank of New York, or any successor source;

“**SOFR**” means the SOFR for the relevant U.S. Government Securities Business Day “i”; and

“**U.S. Government Securities Business Day**” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

Subject to Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Underlying Interest Rate Security Condition 6, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding relevant Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

7. Screen Rate determination for Underlying Reference Rate being €STR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and €STR is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Underlying Interest Determination Date.

For the purposes of this Underlying Interest Rate Security Condition 7:

“**Compounded Daily €STR**” means, with respect to any Underlying Interest Determination Date, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference

rate for the calculation of interest) as calculated by the Calculation Agent as at the relevant Underlying Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

“**d**” means the number of calendar days in the relevant Observation Period;

“**D**” means the number specified as such in the relevant Final Terms (or, if no such number is specified, 360);

“**d_o**” means the number of T2 Settlement Days in the relevant Observation Period;

the “**€STR reference rate**”, in respect of any T2 Settlement Day, is a reference rate equal to the daily euro short-term rate (“**€STR**”) for such T2 Settlement Day as provided by the European Central Bank as the administrator of €STR (or any successor administrator of such rate) on the website of the European Central Bank (or, if no longer published on its website, as otherwise published by it or provided by it to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the T2 Settlement Day immediately following such T2 Settlement Day (in each case, at the time specified by, or determined in accordance with, the applicable methodology, policies or guidelines, of the European Central Bank or the successor administrator of such rate);

“**€STR_i**” means the €STR reference rate for the relevant T2 Settlement Day “**i**”.

“**i**” is a series of whole numbers from one to “**d_o**”, each representing the relevant T2 Settlement Day in chronological order from, and including, the first T2 Settlement Day in the relevant Observation Period; to, and including, the last T2 Settlement Day in such period;

“**n_i**” for any T2 Settlement Day “**i**” in the relevant Observation Period, means the number of calendar days from (and including) such T2 Settlement Day “**i**” up to (but excluding) the following T2 Settlement Day;

“**Observation Period**” means, the period(s) indicated as such in the applicable Final Terms; and

“**p**” for any latest Observation Period, means the number of T2 Settlement Days specified as the “**Observation Shift Period**” in the relevant Final Terms.

Subject to Underlying Interest Rate Security Condition 9, if, where any Underlying Reference Rate is to be calculated pursuant to this Underlying Interest Rate Security Condition 7, in respect of any T2 Settlement Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been

published by the relevant authorised distributors, then the €STR reference rate in respect of such T2 Settlement Day shall be the €STR reference rate for the first preceding T2 Settlement Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.

Subject to Underlying Interest Rate Security Condition 9, if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Underlying Interest Rate Security Condition 7, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding relevant Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding relevant Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

8. Screen Rate Determination for Reference Rate being SARON

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SARON is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily SARON plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Underlying Interest Rate Security Condition 5:

“**Compounded Daily SARON**”, will be calculated by the Calculation Agent on each Underlying Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SARON_{i-SIXBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“**d**” means the number of calendar days in the relevant Observation Period;

“**d₀**” means the number of SIX Business Days in the relevant Observation Period;

“**i**” means a series of whole numbers from one to “**d₀**”, each representing the relevant SIX Business Day in chronological order from, and including, the first SIX Business Day in the relevant Observation Period to, and including, the last SIX Business Day in such period;

“SIX Business Day” or **“SIXBD”** means a day (other than a Saturday or Sunday) which is not marked as currency holiday for CHF in the Trading & Currency Holiday Calendar published by SIX Swiss Exchange;

“n_i” for any SIX Business Day “i”, in the relevant Observation Period (as applicable) is the number of calendar days from, and including, such SIX Business Day “i” up to, but excluding, the following SIX Business Day;

“Observation Period” means, the period(s) indicated as such in the applicable Final Terms;

“p” for any Observation Period (as applicable), means the number of SIX Business Days specified as the “Observation Shift Period” in the relevant Final Terms;

“SARON Reference Rate” means, in respect of any SIX Business Day, a reference rate equal to the daily Swiss Average Rate Overnight (“SARON”) rate for such SIX Business Day as provided by the administrator of SARON to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the SIX Business Day immediately following such SIX Business Day; and

“SARON_i” means the SARON Reference Rate for the relevant SIX Business Day “i”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SARON only compounds the SARON Reference Rate in respect of any SIX Business Day. The SARON Reference Rate applied to a day that is a non- SIX Business Day will be taken by applying the SARON Reference Rate for the previous SIX Business Day but without compounding.

If, in respect of any SIX Business Day in the relevant Observation Period (as applicable), the Calculation Agent determines that the SARON Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SARON Reference Rate shall, subject to subject to Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*), be the SARON Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding SIX Business Day on which the SARON Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Underlying Interest Rate Security Condition 5, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination

Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

9. Benchmark Rate Replacement

- (A) Notwithstanding the provisions in Underlying Interest Rate Security Condition 3, 4, 5, 6, 7 and 8, if the Issuer (in consultation with the Calculation Agent) determines that (i) a Benchmark Rate Event has occurred and (ii) the relevant Benchmark Rate Event Effective Date will fall on or prior to the day which would have been (but for the occurrence of the Benchmark Rate Event Effective Date) an Underlying Interest Determination Date in respect of the relevant Underlying Reference Rate, then the following provisions shall apply:
- (1) in respect of each Underlying Interest Determination Date falling on or after the Benchmark Rate Event Effective Date, the Underlying Reference Rate will be substituted by the Underlying Successor Rate (as adjusted in accordance with the Adjustment Spread, if any) for determining any amount due to the Securityholders under the Securities;
 - (2) the Issuer (in consultation with the Calculation Agent) will determine the adjustments (if any) to be made to the provisions of the Securities as it deems necessary in order the Underlying Successor Rate to be used for determining any amount due to the Securityholders under the Securities;
 - (3) the Issuer shall, prior to the Benchmark Rate Event Effective Date, give notice to the Securityholders of the relevant Benchmark Rate Event, the Underlying Successor Rate and the adjustments (if any) made according to the sub-paragraph (2) above, in accordance with the General Security Condition 8 (*Notices*); and
 - (4) if the relevant Benchmark Rate Event may also constitute an Administrator/Benchmark Event in the determination of the Calculation Agent pursuant to General Security Condition 13.1, the provisions of this Underlying Interest Rate Security Condition 9 (*Benchmark Rate Replacement*) will apply.
- (B) Notwithstanding the provisions in Underlying Interest Rate Security Condition 3, 4, 5, 6, 7 and 8, if the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Material Change Event has occurred in respect of the relevant Underlying Reference Rate, then, the Issuer shall continue to use that Underlying Reference Rate so materially changed in its methodology or formula of calculation. In this case, the Issuer shall promptly notify the Paying Agents and the relevant Securityholders in accordance with the General Security Condition 8 (*Notices*) about such occurrence and the date starting from which the Underlying Reference Rate, based on the formula or methodology of calculation so materially changed, will be used for determining any amount due to the Securityholders under the Securities.

For the purposes of this Underlying Interest Rate Security Condition 9:

"Adjustment Spread" means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Issuer (in consultation with the Calculation Agent), in accordance with the Contingency Plans in force from time to time, determines is required to be applied to the Underlying Successor Rate in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Securityholders as a result of the replacement of the Underlying Reference Rate with the Underlying Successor Rate and is the spread, formula or methodology which:

- (i) is formally recommended by any Relevant Nominating Body in relation to the replacement of the Underlying Reference Rate with the Underlying Successor Rate; or
- (ii) in absence of any recommendation by any Relevant Nominating Body, the Issuer (in consultation with the Calculation Agent), determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions in relation to the replacement of the Underlying Reference Rate with the Underlying Successor Rate; or
- (iii) if no such customary market usage is recognised or acknowledged, the Issuer (in consultation with the Calculation Agent) determines (acting in good faith and in a commercially reasonable manner) to be appropriate for the replacement of the Underlying Reference Rate with the Underlying Successor Rate.

"Benchmark Rate Event" means:

- (i) the administrator of that Underlying Reference Rate, or a person acting on behalf of that administrator, has issued a public statement, or has published information, in which it is announced that that administrator has ceased or will cease to provide that Underlying Reference Rate or certain tenors for which that Underlying Reference Rate is calculated and which correspond to the relevant Underlying Interest Determination Date, permanently or indefinitely, *provided that*, at the time of the issuance of the statement or the publication of the information, there is no successor administrator that will continue to provide that Underlying Reference Rate or that tenor; or

Where "Index Credit Securities" is specified as applicable in the Final Terms, then notwithstanding anything to the contrary in these Credit Security Conditions, unless a determination by a Credit Derivatives Determinations Committee that a Successor has been identified, neither the Calculation Agent nor the Issuer may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor", unless a notice has previously been delivered to the DC Secretary in accordance with the Rules requesting that the relevant Credit Derivatives Determinations Committee be convened to Resolve a DC Credit Event Question or one or more Successors to the relevant Reference Entity, as applicable, with respect to the facts relevant to the determination to be made pursuant to the definition of "Successor", and either (i) a DC Credit Event Question Dismissal has occurred, (ii) the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved not to make a determination or (iii) the DC Secretary has publicly announced that the conditions to convening the relevant Credit Derivatives Determinations Committee to Resolve such matter have not been satisfied in accordance with the Rules.

(d) Additional Provisions

If, in accordance with the specified Transaction Type or otherwise, any Additional Provisions are applicable, these Credit Security Conditions shall take effect subject to the provisions thereof.

2. Settlement

(a) Settlement at Credit Security Settlement Date

The Issuer will settle each Credit Security on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to the Outstanding Notional Amount (as reduced from time to time in accordance with the definition thereof) of such Certificate (together with remuneration, if any, payable thereon) unless the Credit Securities have been previously settled or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(d) or 2(e)).

Where the Outstanding Notional Amount of any Credit Security is reduced to zero, then upon the performance by the Issuer of any remaining obligations in respect of the Credit Security (including pursuant to Credit Security Condition 2(b)), such Credit Security shall be deemed to have been settled in full without further payment. In the case of Tranching Credit Securities, settlement shall be in accordance with Credit Security Condition 5 (*Tranching Credit Securities*) below.

Notwithstanding the foregoing, if the Credit Securities are specified in the relevant Final Terms as being Zero Maturity Credit Securities, on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) the amount the Securityholders will receive is equal to zero (0).

(b) Settlement following Event Determination Date

Upon the occurrence of an Event Determination Date in relation to any Reference Entity, the Issuer will:

- (i) if the applicable Settlement Method is Auction Settlement, make payment in respect of each Credit Security of its *pro rata* share of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method;
- (ii) if the applicable Settlement Method is Auction Settlement (Leveraged), make payment in respect of each Credit Security of its *pro rata* share of the Auction Settlement Amount (Leveraged) on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method;
- (iii) if the applicable Settlement Method is Physical Settlement, perform its obligations in respect of each Credit Security in accordance with Credit Security Condition 7 (*Physical Settlement*);
- (iv) if the applicable Settlement Method is Cash Settlement, make payment in respect of each Credit Security of its *pro rata* share of the Credit Event Cash Settlement Amount on the Cash Settlement Date; and

- (v) if the applicable Settlement Method is Cash Settlement (Leveraged), make payment in respect of each Credit Security of its *pro rata* share of the Credit Event Cash Settlement Amount (Leveraged) on the Cash Settlement Date

Where the applicable Settlement Method is Auction Settlement, if an Event Determination Date occurs with respect to a Reference Entity following the occurrence of a Fallback Settlement Event with respect to a prior Event Determination Date in relation to such Reference Entity and no Fallback Settlement Event occurs with respect to a subsequent Event Determination Date, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, settle the Credit Securities pursuant to the occurrence of the subsequent Event Determination Date in accordance with this Credit Security Condition 2(b) by Auction Settlement.

This Credit Security Condition 2(b) shall not apply, and the Issuer shall have no obligations hereunder in respect of Zero Recovery Credit Securities. Consequently, if the Credit Securities are Zero Recovery Credit Securities, upon the occurrence of any Event Determination Date Securityholders will not receive any payment or delivery upon settlement of the Credit Securities pursuant to these Credit Security Conditions except for any remuneration due pursuant to Credit Condition 3 (*Remuneration*).

For the avoidance of doubt, this Credit Security Condition 2(b) shall apply to Credit Securities which are specified in the relevant Final Terms as being Zero Maturity Credit Securities.

In the case of Tranche Credit Securities, settlement shall be in accordance with Credit Security Condition 5 (*Tranche Credit Securities*) below and, for clarification, notwithstanding the circumstance that the applicable Settlement Method and Fallback Settlement Method are indicated in the applicable Final Terms, upon the occurrence of an Event Determination Date in relation to any Reference Entity, the Issuer will not make any payment in respect of the Tranche Credit Securities.

(c) Settlement at Maturity

Where "Settlement at Maturity" is specified as applicable, payment of any Outstanding Notional Amount, Auction Settlement Amount, Auction Settlement Amounts (Leveraged), Credit Event Cash Settlement Amounts, or Credit Event Cash Settlement Amounts (Leveraged) as applicable, shall be deferred until the later of the Credit Security Settlement Date and the last Auction Settlement Date or Cash Settlement Date or Delivery Date occurred determined in respect of any Reference Entity (and notwithstanding any other provision of the General Security Conditions or these Credit Security Conditions, no additional remuneration shall be payable on any payment of any amount which is so deferred).

(d) Settlement following a Merger Event

If this Credit Security Condition 2(d) is specified as applicable in the Final Terms, in the event that:

- (i) "Reference Entity/Securityholder Merger " is specified as applicable in the Final Terms, in the event that in the determination of the Calculation Agent a Reference Entity/Holder Merger has occurred, the Issuer shall be entitled, but not obliged, to give notice to the Holders in accordance with General Security Condition 8 (*Notices*), and redeem all but not some only of the Credit Securities on the Merger Event Settlement Date, and if the Credit Securities are so settled or, as the case may be, cancelled, the Issuer shall pay an amount to each Securityholder in respect of each Credit Security, which amount shall be the fair market value of such Credit Security taking into account the Merger Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (including without limitation any Credit Unwind Costs), all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner;
- (ii) "Reference Entity/Issuer Merger" is specified as applicable in the Final Terms, in the event that in the determination of the Calculation Agent a Reference Entity/Issuer Merger has occurred, the Issuer shall be entitled, but not obliged, to either:
 - (A) redeem the Credit Securities in accordance with (i) above; or
 - (B) replace the relevant affected Reference Entity/ies (the "**Affected Reference Entity/ies**") respectively, with Similar Reference Entity/ies. In such event, the costs of the Issuer arising in connection with any re-hedging of such substitution may be recovered through an adjustment to the remuneration payable on the Credit Securities and/or any settlement amounts payments payable under the Credit Securities. The Calculation Agent shall notify the Issuer, which shall in its turn notify the Securityholders in accordance with General Security Condition 8 (*Notices*), of the decision taken by the Issuer and any adjustments made to the terms of the Credit Securities. Details of any adjustment or decision made in relation to the above may be obtained by the Securityholders upon request at the Calculation Agent's specified address.
- (e) Additional Credit Securities Disruption Events

If the Calculation Agent determines that an Additional Credit Securities Disruption Event has occurred, the Issuer may settle all but not some of the Credit Securities by giving notice to Securityholders in accordance with General Security Condition 8 (*Notices*). If the Credit Securities are so settled, the Issuer will pay an amount to each Securityholder in respect of each Credit Security equal to the fair market value of such Credit Security taking into account the Additional Credit Securities Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in a commercially reasonable manner.
- (f) Suspension of Obligations

If there is a DC Credit Event Question in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Securityholders) from the date of such DC Credit Event Question (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred), any obligation of the Issuer to settle and make payments in respect of any Credit Security (including pursuant to Credit Security Condition 2(b) (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) insofar as it relates to the relevant Reference Entity, or pay any remuneration amount which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any remuneration amount (in each case, regardless of whether any such remuneration relates to the relevant Reference Entity), shall, insofar as it relates to the relevant Reference Entity, be and remain suspended until the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable remuneration on the Credit Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any remuneration amount (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such remuneration relates to the relevant Reference Entity). Once the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal has occurred, such suspension shall terminate and any obligations so suspended shall resume on the Credit Security Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any remuneration amount so suspended shall, subject always to Credit Security Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no additional remuneration shall be payable on any payment of remuneration or any other amounts which are deferred in accordance with this Credit Security Condition 2(f).

(g) Miscellaneous provisions relating to Settlement

If the Credit Securities are partially settled, the relevant Credit Securities or, if the Credit Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial settlement. Upon such partial settlement, the Outstanding Notional Amount of each Credit Security shall be reduced for all purposes (including calculation of remuneration amounts thereon but without duplication with any cessation of remuneration accrual pursuant to Credit Security Condition 3(a) accordingly.

(h) Basket Credit Securities where the Final Terms specify a Distribution End Date

If a Distribution Period Event Determination Date occurs with respect to any Reference Entity and any Basket Credit Securities, Credit Security Conditions 2(b) (*Settlement following Event Determination Date*), 2(c) (*Settlement at Maturity*), and 7 (*Physical Settlement*) shall not apply and the following provisions shall apply (and for clarification, in respect of such Credit Securities, in the event of any inconsistency between the following and the remainder of the Credit Security Conditions, the following shall prevail):

(a) where the Final Terms specify that "Distribution Period Settlement" applies:

- (i) irrespective of the applicable Settlement Method, the Issuer will settle each outstanding Credit Security in part, on the fifth Business Day following the Distribution End Date in an Outstanding Notional Amount corresponding to such Credit Security's *pro rata* share of the relevant Reference Entity Notional Amount by making a payment in respect of each Credit Security equal to its *pro rata* share of the related Reference Entity Notional Amount. For this purpose, in the case of an M(M)R Restructuring, Credit Security Condition 11 (a) (*Multiple Credit Event Notices*) shall not apply; and
- (ii) for the avoidance of doubt, no further Event Determination Date may occur in respect of such Reference Entity; or

(b) where the Final Terms specify that "Settlement at Maturity" applies:

- (i) with effect from such Distribution Period Event Determination Date, such Reference Entity shall no longer be treated as a Reference Entity for the purpose of these Credit Security Conditions and no further Event Determination Date may occur with respect thereto, including where the Event Determination Date relates to a Restructuring Credit Event in respect of which an Exercise Amount has been determined; and
- (ii) no adjustment shall be made to the Reference Entity Notional Amount in respect of any other Reference Entity as a result of the above (notwithstanding the definition thereof); or

(c) where the Final Terms specify that "Distribution Period Event Determination Date Disapplication" applies, notwithstanding anything to the contrary in these Credit Security Conditions, any Distribution Period Event Determination Date which occurs with respect to a Reference Entity shall not be treated as an Event Determination Date for the purpose of these Credit Security Conditions and only Event Determination Dates which occur on or after the

Distribution End Date shall be treated as Event Determination Dates for the purpose of these Credit Security Conditions.

(i) Credit Linked Remuneration Only

If Credit Linked Remuneration Only is specified as applicable in the applicable Final Terms, Credit Security Condition 3 (*Remuneration*) will apply to the Securities, but Credit Security Condition 2(a), Credit Security Condition 2(b) and Credit Security Condition 2(c) will not apply. Unless the Credit Securities have previously been settled or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(d) (*Settlement following a Merger Event*) or 2(e) (*Additional Credit Securities Disruption Events*)) the Issuer will settle each Credit Security on the relevant Credit Security Settlement Date by payment of the original Notional Amount specified in the applicable Final Terms.

3. Remuneration

(a) Calculation of Remuneration Amount

In the case of Credit Securities which are not Remuneration Reset Credit Securities and which are specified in the Final Terms to pay remuneration amounts, such remuneration amounts shall be calculated on the daily Outstanding Notional Amount of each Credit Security as the same may be reduced from time to time in accordance with the Credit Security Conditions. Security Condition 22 (*Remuneration*) shall be construed accordingly in relation to Credit Securities. Upon the occurrence of an Event Determination Date in respect of any Reference Entity, the Outstanding Notional Amount of each Credit Security shall, for the purposes of the calculation of remuneration amounts thereon, be deemed to have been reduced in an amount equal to such Credit Security's *pro rata* share of the relevant Reference Entity Notional Amount, (or in the case of Tranching Credit Securities of the corresponding Writedown Amount) (such reduction amount, the "Reduction Amount") with effect from and including:

- (i) if "Remuneration to Remuneration Payment Date" is specified as applicable in the Final Terms, the Remuneration Payment Date immediately preceding such Event Determination Date (or, in the case of the first Remuneration Payment Date, the Remuneration Commencement Date); or
- (ii) if "Remuneration to Event Determination Date" is specified as applicable in the Final Terms, such Event Determination Date.

In the case of Credit Securities which are Remuneration Reset Credit Securities and which are specified in the Final Terms to pay remuneration amounts, such remuneration amounts shall be calculated on the Notional Amount of each Credit Security and, (a) the Final Terms shall specify a coupon rate (being a percentage) in respect of each Reference Entity (each such coupon rate percentage, a "**Reference Entity Coupon Rate**") in respect of such Credit Securities, and (b) in respect of a Remuneration Period, the Remuneration Rate applicable in respect of each day of such Remuneration Period shall be the sum of

the Adjusted Reference Entity Coupon Rates in respect of the Reference Entities in respect of which an Event Determination Date has not occurred,

where:

"Adjusted Reference Entity Coupon Rate" means, in respect of a Reference Entity, a fraction calculated as the product of (i) the Reference Entity Coupon Rate applicable in respect of such Reference Entity and (ii) the Reference Entity Weighting in respect of such Reference Entity; and

"Remuneration Reset Credit Securities" means Credit Securities which are specified in the Final Terms as Remuneration Reset Credit Securities.

(b) Remuneration following Scheduled Settlement

Subject always to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), the Remuneration Amount on each Credit Security which is outstanding following the Scheduled Settlement Date shall be calculated as if such Credit Security continues to bear remuneration on its daily Outstanding Notional Amount from (and including) the Scheduled Settlement Date to (but excluding) the related Credit Security Settlement Date at a remuneration rate equal to either:

- (i) the rate that Mediobanca or Mediobanca International would pay to an independent customer in respect of overnight deposits in the currency of the Credit Securities; or
- (ii) such other rate as shall be specified for such purpose in the Final Terms.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no remuneration shall be paid with reference to the period from (and including) the Scheduled Settlement Date to (but excluding) the related Credit Security Settlement Date.

(c) Remuneration Payment Dates

Subject to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*), if the Credit Securities are settled in full pursuant to the General Security Conditions or these Credit Security Conditions, the Scheduled Settlement Date, the Credit Security Settlement Date (if not the Scheduled Settlement Date), the last Auction Settlement Date occurred, the last Cash Settlement Date occurred or the last Delivery Date occurred, as the case may be, shall be the final Remuneration Payment Date in respect of each Credit Security and the Issuer shall pay any remuneration calculated as if it was accrued and unpaid in respect of each Credit Security on such Remuneration Payment Date.

- (d) Subject to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*), if the Credit Securities are partially settled following the occurrence of an Event Determination Date in respect of a Reference Entity, the Remuneration Amount(s) payable in respect of each outstanding Credit Security in respect of the Remuneration Period in which such an Event Determination date occurs shall be

calculated pursuant to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*) and shall be paid as follows:

- (i) if “Remuneration to Remuneration Payment Date” is specified as applicable in the Final Terms, any Remuneration Amount(s) payable on each outstanding Credit Security shall be paid on the next following Remuneration Payment Date; or
 - (ii) if “Remuneration to Event Determination Date” is specified as applicable in the Final Terms, and
 - (X) “Remuneration Paid at Remuneration Payment Date” is specified as applicable in the Final Terms, any Remuneration Amount(s) payable on each outstanding Credit Security shall be paid on the next following Remuneration Payment Date; or
 - (Y) “Remuneration Paid at Settlement Date” is specified as applicable in the Final Terms, then (i) on the relevant Auction Settlement Date, Cash Settlement Date or Delivery Date, as the case may be, the Issuer shall pay for each Credit Security a portion of the Remuneration Amount(s) (the “Settled Remuneration Amount”) calculated on the basis of a Remuneration Period running from (and including) the Remuneration Payment Date immediately preceding that Event Determination Date (or, in the case of the first Remuneration Payment Date, the Remuneration Commencement Date) up to (but excluding) such Event Determination Date and on the basis of a notional amount equal to the Reduction Amount, and (ii) on the next following Remuneration Payment Date the Issuer shall pay for each Credit Security the Remuneration Amount(s) calculated pursuant to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*) for the relevant Remuneration Period minus the Settled Remuneration Amount already paid on the relevant Auction Settlement Date, Cash Settlement Date or Delivery Date, as the case may be.
- (e) Hybrid Remuneration Securities
- (i) If Hybrid Remuneration (Simple) is specified as applicable in the applicable Final Terms, Credit Security Condition 3(a) (*Calculation of Remuneration Amount*) and 3(b) (*Remuneration following Scheduled Settlement*) will not apply for the purpose of the calculation of the Remuneration to be calculated in accordance with the provisions of General Security Condition 22(c) (*Linked Remuneration Amount Certificates*) (the “**Linked Remuneration**”). The Linked Remuneration will be calculated in accordance with the provisions of General Security Condition 22(c) (*Linked Remuneration Amount Certificates*) on the basis of the terms and the original Notional Amount, specified in the applicable Final Terms.
 - (ii) If Hybrid Remuneration (Credit) is specified as applicable in the applicable Final Terms, Credit Security Condition 3(a) (*Calculation of Remuneration Amount*) will apply for the purpose of the calculation of the Linked Remuneration. The Linked Remuneration will be calculated in accordance with the provisions of General Security Condition 22(c) (*Linked Remuneration*

Amount Certificates) on the basis of the terms specified in the applicable Final Terms and the Notional Amount as reduced according to Credit Security Condition 3(a) (*Calculation of Remuneration Amount*).

(f) **Bonus Remuneration Credit Securities**

If the Credit Securities are Bonus Remuneration Credit Securities, an additional amount shall be payable on either:

- (i) where "Single Payment" is specified as the applicable Bonus Remuneration Type in the relevant Final Terms, the Bonus Remuneration Payment Date; or
- (ii) where "Running Basis" is specified as the applicable Bonus Remuneration Type in the relevant Final Terms, the specified Bonus Remuneration Payment Dates,

in relation to the Credit Securities in an amount equal, in respect of each Credit Security, to the initial Notional Amount thereof multiplied by the Outstanding Bonus Remuneration Rate, and where the Running Basis is applicable, multiplied by the Bonus Coupon Day Count Fraction.

4. First-to-Default Credit Securities and Nth-to-Default Credit Securities

- (i) Where the Credit Securities are First to Default Credit Securities, Credit Security Condition 2 (*Settlement*) and 3 (*Remuneration*) shall apply upon the occurrence of the first Event Determination Date in respect of any Reference Entity.
- (ii) Where the Credit Securities are Nth-to-Default Credit Securities, an Event Determination Date shall not be taken into account for the purposes of Credit Security Condition 2 (*Settlement*) and Credit Security Condition 3 (*Remuneration*) unless and until the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to N (as specified in the Final Terms). Unless "Multiple Default Trigger" is specified as applicable in the Final Terms, with effect from such date, no Event Determination Date shall occur in respect of any other relevant Reference Entity. Where "Multiple Default Trigger" is specified as applicable, the provisions of Credit Security Condition 2 (*Settlement*) and Credit Security Condition 3 (*Remuneration*) shall apply in respect of every subsequent Event Determination Date until, if M is specified as applicable in the applicable Final Terms, the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to M (as specified in the Final Terms).

5. Tranched Credit Securities

The following provisions shall apply in respect of Credit Securities that are Tranched Credit Securities. For clarification, in respect of such Credit Securities, in the event of any inconsistency between the following and the remainder of the Credit Security Conditions, the following shall prevail:

- (i) Unless the Credit Securities have been previously settled in full or purchased and cancelled in full (including pursuant to any Credit Security Condition), the Issuer will settle each Tranching Credit Security on the Credit Security Settlement Date by payment of an amount equal to the Outstanding Notional Amount of such Credit Security (together with remuneration, if any, payable thereon) plus if specified as applicable in the Final Terms, its *pro rata* share of the Aggregate Incurred Recovery Amount, provided that (unless Credit Security Condition 2(b) is specified not to be applicable in the Final Terms or the Final Price is specified in the Final Terms) if an Unsettled Credit Event has occurred, (A) a Settlement Preliminary Amount will be payable on the Credit Security Settlement Date and a Settlement Residual Amount will be payable on the Final Settlement Date, and (B) the Aggregate Incurred Recovery Amount (if any) in respect of each Tranching Credit Security shall be payable on the Final Settlement Date instead of the Credit Security Settlement Date. For the avoidance of doubt, no remuneration amount shall be payable in respect of any Aggregate Incurred Recovery Amount or any payment or postponement of payment thereof.
- (ii) If the Outstanding Notional Amount of any Tranching Credit Security is reduced to zero, such Credit Security will be settled in full, by payment of an amount equal to its *pro rata* share of the Aggregate Incurred Recovery Amount (if any) on the Final Settlement Date, and, for the avoidance of doubt, no remuneration amount shall be payable in respect of any Aggregate Incurred Recovery Amount or any payment or postponement of payment thereof) and the Issuer shall have no further obligations in respect of such Credit Securities.
- (iii) Credit Security Condition 3(b) (*Remuneration following Scheduled Settlement*) shall not apply, and no interest shall accrue from (and including) the Scheduled Settlement Date. No remuneration shall be payable in respect of any postponement of the payment of any remuneration, settlement amount, Auction Settlement Amount, Credit Event Cash Settlement Amount or any other amounts.

 - (A) without prejudice to the sub-paragraphs below, that a Credit Event has occurred or may occur on or prior to any Remuneration Payment Date;
 - (B) that a Potential Failure to Pay has occurred or may occur on or prior to any Remuneration Payment Date;
 - (C) that a Potential Repudiation/Moratorium has occurred or may occur on or prior to any Remuneration Payment Date;
 - (D) that a Credit Event Resolution Request Date has occurred or may occur on or prior to any Remuneration Payment Date; or

- (E) (unless Credit Security Condition 2(b) is specified not to be applicable in the Final Terms or the Final Price is specified in the Final Terms) that an Unsettled Credit Event has occurred,

then remuneration (if any) on such Tranching Credit Security shall be calculated on an Outstanding Notional Amount as reduced by its *pro rata* share of the sum of : (i) the maximum Incurred Loss Amounts and (ii) the maximum Incurred Recovery Amounts (if specified as applicable in the Final Terms), which could be determined (assuming an Auction Final Price, Weighted Average Final Price or Final Price of zero) (a "**Deemed Remuneration Reduction**") with effect from and including the Remuneration Payment Date (or, if none, the Remuneration Commencement Date) immediately preceding the date of such determination or (in the case of the occurrence of an Unsettled Credit Event) the relevant date applicable pursuant to Credit Security Condition 3(a) (*Cessation of Interest Accrual*). In such case, the related Remuneration Shortfall Amount (if any) shall be payable on the related Remuneration Shortfall Payment Date. No remuneration shall be payable in respect of any such postponement of payment of any Remuneration Shortfall Amount or any other remuneration or other amounts.

- (v) If any day is a Final Price Calculation Date with respect to more than one Reference Entity, the Loss Amount, the Recovery Amount, the Incurred Loss Amount and the Incurred Recovery Amount (if applicable) with respect to each Reference Entity shall be calculated in the order that either of the following events occurred with respect to such Reference Entities: (i) the Credit Event Resolution Request Date (provided that if a Credit Event Resolution Request Date occurs in respect of more than one such Reference Entity on the same day, the first Reference Entity in respect of which the DC Secretary announces that the relevant DC Credit Event Question was effective and the relevant Credit Derivatives Determinations Committee was in possession of the relevant Publicly Available Information, in each case in accordance with the "Credit Event Resolution Request Date" definition, shall be deemed to have satisfied this condition first) or (ii) the delivery of the Credit Event Notice (provided that if any of the relevant Credit Event Notices are delivered at the same time, in a sequential order as determined by the Calculation Agent).

6. Combination Credit Securities and Hybrid Credit Securities

(a) Combination Credit Securities

Where the Credit Securities are Combination Credit Securities, amounts payable in respect of remuneration thereon and by way of settlement thereof (including, for clarification, pursuant to the occurrence of a Credit Event), and the dates on which such amounts fall to be paid, will be calculated:

- (i) in the case of remuneration, as though the Credit Securities were of the type specified in the Final Terms under the heading "Credit-linked Remuneration Type" and as further specified in the Final Terms under the heading "Terms relating to Credit Linked Remuneration"; and

- (ii) in the case of amounts payable on settlement of the Credit Securities, as though the Credit Securities were of the type specified in the Final Terms under the heading "Credit-linked Principal Type" and as further specified in the Final Terms under the heading "Terms relating to Credit Linked Principal".

Where the Credit Securities are subject to settlement in full in circumstances where, pursuant to the above, further amounts are or may be payable subsequently in respect of remuneration thereon, then, only to the extent required by the terms of any relevant clearing system in order to permit payment of such remuneration, each Credit Securities shall be deemed to remain outstanding in an amount equal to one unit of the Specified Currency. No payment shall be made in respect of such outstanding amount, and each Credit Securities which is deemed to be outstanding on such basis shall be cancelled in full on the last date for payment of remuneration thereon.

(b) **Hybrid Credit Securities**

Where Hybrid Securities (Principal) is specified as applicable in the Final Terms, then:

- (i) if the Final Terms provide that "Credit Underlying Override" is applicable, then any obligations of the Issuer in respect of the Credit Securities (or, as applicable, the relevant portions of the Notional Amounts thereof) following the occurrence of an Event Determination Date shall be as determined pursuant to these Credit Security Conditions and related provisions of the Final Terms;
- (ii) if the Final Terms specify that "Non-Credit Underlying Override" is applicable, then the obligations of the Issuer following the occurrence of an Event Determination Date shall continue to be subject to any provision for early redemption of the Credit Securities arising in connection with the relevant Underlying Reference;
- (iii) if the Final Terms specify that "Adjusted Redemption Calculation Basis" is applicable, then any reference to the "Calculation Amount" for the purpose of determining any amount payable on redemption of the Securities shall be to the Outstanding Notional Amount; and
- (iv) if no Event Determination Date occurs, references in Credit Security Condition 2(a) to settlement by payment of the Outstanding Notional Amount of the Credit Securities shall be a reference to redemption by payment of the final payment determined in connection with the relevant Underlying Reference.

7. Physical Settlement

(a) **Delivery and payment**

If Physical Settlement applies to any Credit Security, then, upon the occurrence of an Event Determination Date, the Issuer shall, on or prior to the related Physical Settlement Date and subject to Credit Security Condition 7(b), Credit Security Condition 7(c) and Credit Security Condition 7(f),

settlement such Credit Security in full (or, where such Credit Security is a Basket Credit Security or Linear Basket Credit Security, in part, in an Outstanding Notional Amount corresponding to such Credit Security's *pro rata* share of the relevant Reference Entity Notional Amount), respectively, by:

- (a) Delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement or NOPS Amendment Notice, as applicable; and
- (b) paying such Credit Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Securityholder, it is impossible or illegal for the Issuer or the relevant Securityholder to accept Delivery of any of the Deliverable Obligations (other than a Deliverable Obligation described in paragraph (d) of the definition of "Deliverable Obligation") specified in a Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement or NOPS Amendment Notice, as applicable, other than as a result of an event or circumstance contemplated in Credit Security Condition 7(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an event of default or breach of agreement for the purpose of the Certificates and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Securityholder holds Credit Securities in an Outstanding Notional Amount greater than the Specified Denomination, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Security of such Securityholder shall be aggregated for the purposes

of this Credit Security Condition 7. If the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of each Credit Securities to be settled pursuant to this Credit Security Condition 7(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Security Condition 7 (*Physical Settlement*) shall be made in such manner as the Issuer shall determine, in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (i) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment or novation (where Deliverable Obligations include Assignable Loans or Consent Required Loans) or participation (where Deliverable Obligations include Direct Loan Participations) shall be payable by the relevant Securityholders, and if any stamp tax or transaction tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Securityholders; and
- (ii) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Securityholders or the Issuer, as appropriate, determined by the Calculation Agent in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Securityholders pursuant to (i) and/or (ii) above, as applicable, have been paid to the satisfaction of the Issuer.

(f) Physical Delivery Confirmation Notice

Where "Physical Settlement according to General Security Condition 21.1" is specified as applicable in the applicable Final Terms, a Securityholder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Security Condition 7(f) upon the occurrence of an Event Determination Date and delivery of the Notice of Physical Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Security and delivered a Physical Delivery Confirmation Notice in accordance with General Security Condition 21.1 (*Physical Delivery Confirmation Notice Requirement*). For so long as the Credit Securities are held in any clearing system,

any communication from such clearing system on behalf of the Securityholder containing the information required in a Physical Delivery Confirmation Notice will be treated as a Physical Delivery Confirmation Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the Outstanding Notional Amount of Credit Securities to which the relevant a Physical Delivery Confirmation Notice relates.

Where "Alternative Physical Settlement" is specified as applicable in the applicable Final Terms, the provisions of this this Credit Security Condition 7(f) will not apply to the relevant Securities and the manner in which the Issuer will pay or deliver assets or amounts due to the Securityholder under Credit Security Condition 7 will be indicated in the applicable Final Terms.

8. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) any of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, such Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds;
- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans;
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans; and

- (iv) more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified in the Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics, if any, specified in the Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law".
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated or Matured" and "Not Bearer".
- (iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (v) For the avoidance of doubt the provisions of this Credit Security Condition 8 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

(d) Maximum Maturity

For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

(e) Financial Reference Entity Terms and Governmental Intervention

If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in respect of a Reference Entity, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

(f) Prior Deliverable Obligation or Package Observable Bond

For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Security Condition 11(b) (Mod R) and Credit Security Condition 11(c) (Mod Mod R) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

(g) Subordinated European Insurance Terms

If "Subordinated European Insurance Terms" is specified as applicable in respect of the Reference Entity, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

(h) Accrued Interest

With respect to any Credit Securities for which:

- (i) "Physical Settlement" is specified to be the Settlement Method in the related Final Terms (or for which Physical Settlement is applicable as the Fallback Settlement Method), the Outstanding Principal Balance of the Deliverable Obligations being Delivered will exclude accrued but unpaid interest, unless "Include Accrued Interest" is specified in the related Final Terms, in which case, the Outstanding Principal Balance of the Deliverable Obligations being Delivered will include accrued but unpaid interest;
- (ii) "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or if Cash Settlement is applicable as the Fallback Settlement Method), and:
 - (A) "Include Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall include accrued but unpaid interest;
 - (B) "Exclude Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall not include accrued but unpaid interest; or

- (C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the related Final Terms, the Calculation Agent shall determine based on the then current market practice in the market of the Reference Obligation or Valuation Obligation, as applicable, whether the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof; or
 - (iii) Credit Security Condition 7(b) (*Partial Cash Settlement Due to Impossibility or Illegality*) or Credit Security Condition 7(c) (*Non-Delivery of Deliverable Obligations*) is applicable, the Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.
- (i) **Asset Package Delivery**

"**Asset Package Delivery**" will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.

If the "Sovereign No Asset Package Delivery Supplement" is applicable in respect of a Reference Entity, then, notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to such Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

9. **Successors**

- (a) **Provisions for determining a Successor**
 - (i) Subject as set out in Credit Security Condition 1(c) (*Index Credit Securities*), the Calculation Agent may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor"; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under the definition of "Successor" (or the provisions relating to the determination of a Successor) on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under the definition of "Successor", if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (ii) An entity may only be a Successor if:
 - (I) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after January 1, 2014;
 - (II) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity;
 - (III) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event; and
 - (IV) in respect of Index Credit Securities, the Successor is an entity identified by the relevant Index Sponsor on or following the Trade Date where the relevant Credit Derivatives Determinations Committee has, in relation to a Successor Resolution Request Date, not identified a Successor in accordance with the Rules.
- (iii) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (iv) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(b) Single Reference Entity

Where the Credit Securities are Single Reference Entity Credit Securities and a Succession Date has occurred and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into the same number of new Credit Securities as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Securities;
 - (ii) in respect of each deemed new Credit Security, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
 - (iii) all other terms and conditions of the original Credit Securities will be replicated in each deemed new Credit Security except that the Calculation Agent shall make such modifications as it determines are required in order to preserve the economic effects of the original Credit Securities in the deemed new Credit Securities (considered in aggregate).
- (c) First-to-Default, Nth-to-Default, Linear Basket

Where the Credit Securities are First-to-Default Credit Securities, Nth-to-Default Credit Securities or Linear Basket Credit Securities:

- (i) where a Succession Date has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into a number of new Credit Securities equal to the number of Successors. Each such new Credit Security shall include a Successor and each and every one of the unaffected Reference Entities and the provisions of Credit Security Condition 9(b) (i) to (iii) (inclusive) shall apply thereto;
 - (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession Date) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Date, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
 - (iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Date) would be a Successor to a Legacy Reference Entity pursuant to a Succession Date:
 - (A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.
- (d) Basket Credit Securities, Tranching Credit Securities and Index Credit Securities

Where the Credit Securities are Basket Credit Securities or Tranching Credit Securities or Index Credit Securities, and one or more Successors have been identified in respect of a Reference Entity that has

been the subject of a related Succession Date (the "**Affected Entity**"), then, with effect from the Succession Date:

- (i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) below);
- (ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;
- (iv) the Calculation Agent may make any modifications to the terms of the Credit Securities which it determines may be required to preserve the economic effects of the Credit Securities prior to the Succession Date (considered in the aggregate); and
- (v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Date, be represented by multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

10. Provisions relating to LPN Reference Entities, CoCo Supplement and Narrowly Tailored Credit Event Supplement

(a) LPN Reference Entities

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

- (i) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;
- (ii) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (iii) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (iv) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation; and

- (v) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

(b) Provisions relating to CoCo Supplement

The following provisions shall apply in respect of a Reference Entity if the "CoCo Supplement" is applicable:

- (i) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within paragraph (a) of the definition thereof.
- (ii) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes.
- (iii) The following terms shall have the following meanings:

"Coco Provision" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"Trigger Percentage" means the trigger percentage specified in respect of the Reference Entity (or if no such trigger percentage is specified, 5.25 per cent.).

"Capital Ratio" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

(c) Provisions relating to Narrowly Tailored Credit Event Supplement

If the "Narrowly Tailored Credit Event Supplement" is specified in the Final Terms as applicable in respect of a Reference Entity, then:

- (i) Credit Deterioration Requirement shall be applicable; and
- (ii) Fallback Discounting shall be applicable.

11. Restructuring Credit Event

(a) Multiple Credit Event Notices

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such notice applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Security Conditions (including, without limitation, as to the determination of any Auction Settlement Amount, Auction Settlement Amount (Leveraged), Credit Event Cash Settlement Amount, Credit Event Cash Settlement Amount (Leveraged) and Loss Amount) shall be deemed to apply to an aggregate Outstanding Notional Amount of Credit Securities equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (iii) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

If any Credit Security is subject to partial settlement in accordance with this Credit Security Condition 11, the relevant Credit Security or, if the Credit Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial settlement.

- (iv) For the avoidance of doubt, in the case of a First-to-Default Credit Security, once a Restructuring Credit Event has occurred in respect of a Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Reference Entity that was the subject of the first occurring M(M)R Restructuring. In the case of an Nth-to-Default Credit Security, if an M(M)R Restructuring has occurred in respect of the Nth Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Nth Reference Entity. In the case of a Linear Basket Credit Security (including Nth to Default Linear Basket Credit Securities), the fact that an M(M)R Restructuring has occurred in respect of a Reference Entity shall not preclude delivery of a Credit Event Notice in respect of any other Reference Entity, provided that if in respect of an Nth to Default Linear Basket Credit Security, no Credit Event Notice may be served in respect of a number of Reference Entities exceeding M.

(b) Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in

a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if such Deliverable Obligation or, as applicable, Valuation Obligation:

(A) is a Fully Transferable Obligation; and

(B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date.

(c) Mod Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If the relevant Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, as applicable) or, as applicable, the relevant Valuation Obligation selected, is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date or, as applicable, the Relevant Valuation Date (in which case it shall be deemed to have been refused), the Issuer shall, as soon as reasonably practicable, notify the relevant Securityholders of such refusal (or deemed refusal) and:

(i) each such Securityholder may designate a third party (which may or may not be an Affiliate of such Securityholder) to take Delivery of the Deliverable Obligation on its behalf; and

(ii) if a Securityholder does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Securities for which Delivery has not occurred, by payment of the relevant Partial Cash Settlement Amount to such Securityholder. For the avoidance of doubt Credit Security Condition 7(b) will not apply to this paragraph.

(d) General Terms relating to Mod R and Mod Mod R

For the purposes of making a determination pursuant to "Mod R" and "Mod Mod R", final maturity date shall, subject to Credit Security Condition 11(c) (Mod Mod R), be determined on the basis of the terms of the Deliverable Obligation or, as applicable, Valuation Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation or, as applicable, Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(e) Multiple Holder Obligations

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Security Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Securityholders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct

and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

(b) Reversal of DC Resolutions

If, where a calculation or determination with respect to the Credit Securities has been made by the Calculation Agent in reliance upon a DC Resolution or otherwise resulted from a DC Resolution, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed in part, save to the extent of any such redemption). The Calculation Agent, acting in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such reversal, including any payment of additional remuneration or any reduction in any remuneration or any other amount payable under the Credit Securities. For the avoidance of doubt, no accruals of remuneration shall be taken into account when calculating any such adjustment payment.

(c) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Security Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or any Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Securityholders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer, amend, pursuant to this Credit Security Condition 12(c) any of the terms and conditions of the Credit Securities other than the Credit Security Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions ("**Successor Provisions**") which are published by ISDA and which supersede the 2014 ISDA Credit Derivatives Definitions, for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of the Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Security Conditions.

This Credit Security Condition 12(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(d) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Securityholders in accordance with General Security Condition 8 (*Notices*) provided that any failure or delay in giving such notice to Securityholders shall not affect the rights of the Issuer in relation thereto. (e) Effectiveness of Notices

event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in paragraph (i) less any amounts subtracted in accordance with this paragraph (ii), the "**Non-Contingent Amount**"); and

- (iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- A. unless otherwise specified, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (II) the Relevant Valuation Date, as applicable; and

If "Fallback Discounting" is applicable with respect to a Reference Entity, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph B. above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (a) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

- (b) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee *mutatis mutandis*.

Publication of Credit Derivatives Auction Settlement Terms

A Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon a specified Auction Final Price determined in accordance with an auction procedure (each, an "**Auction**"). If an Auction is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of Auction Settlement Terms first published as Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("ISDA") on 12 March 2009 (the "**Form of Auction Settlement Terms**"). Securityholders should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases. The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Securities. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at www.isda.org (or any successor website thereto). Examples of specific Auction Settlement Terms used for specific Credit Events are available on ISDA's Credit Derivatives Determinations Committees website at <https://www.cdsdeterminationscommittees.org/credit-default-swaps-archive/>. The Credit Derivatives Determinations Committee will additionally make several related determinations, including the date on which the Auction will be held (the "**Auction Date**"), the institutions that will act as participating bidders in the Auction (the "**Participating Bidders**") and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology

Determining the Auction Currency Rate

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders

(determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "Physical Settlement Buy Request") or as buyer (in which case, such commitment will be a "Physical Settlement Sell Request"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradeable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

Auction Final Price when the Open Interest is Filled

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "Cap Amount" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

Auction Final Price when the Open Interest is Not Filled

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

Restructuring

Following certain Restructuring credit events, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a

Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

ANNEX B TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

CREDIT DERIVATIVES DETERMINATIONS COMMITTEES

In making certain determinations with respect to the Credit Securities, the Calculation Agent may but is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA on its Credit Derivatives Determinations Committees website at <https://www.cdsdeterminationscommittees.org/dc-rules> (or any successor website thereto) as of 28 September 2018 as amended on 27 January 2020 (the "**Rules**") and is subject to the rules as published by ISDA from time to time and as amended from time to time. This summary is not intended to be exhaustive and prospective investors should also read the Rules and reach their own views prior to making any investment decisions. A copy of the Rules published by ISDA is available at: <https://www.cdsdeterminationscommittees.org/dc-rules/> (or any successor website thereto).

Capitalised terms used but not defined in this summary have the meaning specified in the Final Terms or the Rules, as applicable.

Establishment of the Credit Derivatives Determinations Committees

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the date hereof, the Calculation Agent (or one of its Affiliates) is neither a voting member nor a non-voting member on any of the Credit Derivatives Determinations Committees, though it could potentially become a voting member or a non-voting member on future Credit Derivatives Determinations Committees (the list of members is updated in April of each year, see the ISDA Credit Derivatives Determinations Committees website at <https://www.cdsdeterminationscommittees.org/about-dc-committees/> for information about them). See "Risk Factors – Conflicts of Interest – Credit Derivatives Determinations Committees" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, either the 2014 ISDA Credit Derivatives Definitions, as amended from time to time (the "**2014 Definitions**") or the 2003 ISDA Credit Derivatives Definitions as supplemented by the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement to the 2003 ISDA Credit Derivatives Definitions, published by ISDA on 14 July 2009 (the "**Updated 2003 Definitions**"). ISDA may serve as, or may, at any time and from time to time, appoint (including in order to replace a prior DC Secretary) a third party to serve as the secretary (the "DC Secretary") of each Credit Derivatives Determinations Committee. The terms of any such appointment shall be agreed between ISDA and such third party, but will require such third party to comply with the then-current Rules (as amended from time to time) in its role as DC Secretary. The DC Secretary will perform administrative duties and make certain determinations as provided for under the Rules.

Decision-making Process of the Credit Derivatives Determinations Committees

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not applicable to the Securityholders, unless specified otherwise in the terms of the Credit Securities. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Credit Securities. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Securityholders. See "Risk Factors - Risks Associated with Credit Derivatives Determinations Committees" for further information. The terms of the Credit Securities provide that the Securityholders will be subject to certain determinations by the Credit Derivatives Determinations Committees. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Securityholders.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Credit Securities without any action by the Securityholders. Securityholders (in their capacity as holders of the Credit Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80% of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Securityholders of such information (other than as expressly provided in the Final Terms). Securityholders shall therefore be responsible for obtaining such information. See "Risk Factors – Risks Associated with Credit Derivatives Determinations Committees".

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Securityholders. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Credit Securities and materially affect the Securityholders. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Credit Securities are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Securityholders, as further described below.

Credit Events

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and, if applicable, the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether an Event Determination Date will occur under the Credit Securities. If the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, then an Event Determination Date is deemed to have occurred in respect of the Credit Securities.

Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to be made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which

only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. The Credit Derivatives Determinations Committees may also make determinations in relation to (i) Standard Reference Obligations and if applicable replacement Standard Reference Obligations in accordance with the Standard Reference Obligation Rules and (ii) whether or not Asset Package Delivery is applicable pursuant to the 2014 Definitions and if so, any Asset Package relating to a Prior Deliverable Obligation or Package Observable Bond, as applicable. In addition, the Credit Derivatives Determinations Committees will be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "Relevant Seller") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Credit Securities.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Credit Securities.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process. Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Securityholders. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than or equal to 60%, the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60% and 80%, all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Securityholders should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at or prior to the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Securityholders unresolved for a period of time.

The Composition of the Credit Derivatives Determinations Committees

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and up to three non-voting consultative members (currently none). Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members would consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. There may also be one or more CCP non-voting members for specific regions.

Securityholders will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Securityholders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be

replaced. The Securityholders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Credit Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Securityholders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Securityholders and the Securityholders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Securityholders should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Securityholders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Securityholders of such information (other than as expressly provided in the Final Terms). Failure by the Securityholders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Final Terms and Securityholders are solely responsible for obtaining any such information.

Amendments to the Rules

The Rules may be amended from time to time without the consent or input of the Securityholders and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.

"Transaction Documents" means the Security Trust Deed, the Custody Agreement, the Account Bank Agreement, the Charged Agreement(s), the Additional Charged Agreement(s), the Supplemental Trust Deed, the Issue and Paying Agency Agreement and any Additional Charging Document in each case entered into in relation to and as the same relate to such Series and all agreements incidental to the issue of the Securities of such Series;

2. Security

- (a) *Security*: Pursuant to the Security Trust Deed, MBFL's obligations under the Securities and the Charged Agreement(s) will be secured by the following security, in each case save to the extent the relevant asset or right is charged under an Additional Charging Document:
 - (i) a first fixed charge and a first ranking assignment by way of security of all of the Issuer's Rights in, to and under the Collateral Assets; and
 - (ii) a first ranking assignment by way of security of all of the Issuer's Rights under each Charged Agreement, each Additional Charged Agreement and the Issue and Paying Agency Agreement in respect of such Securities.
- (b) The applicable Final Terms will specify (i) any Charged Agreement(s), being a Transfer Agreement entered into together, if applicable, with a Credit Support Document (ii) any Additional Charged Agreement and (iii) whether any other security interest will be created under the Security Trust Deed and/or under an Additional Charging Document.
- (c) *Realisation of Mortgaged Property upon early settlement or Event of Default*: If the Security in relation to any of the Mortgaged Property becomes enforceable where the Securities are declared immediately due and payable pursuant to Secured Security Condition 7 (*Events of Default*) or otherwise as specified in the Final Terms, the Security Trustee or, where permitted in accordance with Secured Security Condition 9 (*Disposal of Collateral Assets*) the Liquidation Agent may in its discretion and, if requested by an Instructing Creditor, shall (in each case, subject to being indemnified and/or secured and/or prefunded to its satisfaction) realise such Mortgaged Property and/or take such action as may be

permitted under applicable laws against any obligor in respect of such Mortgaged Property. The Security Trustee and Liquidation Agent will not have any liability as to the consequence of such action and will not have regard to the effect of such action on individual Securityholders or the Counterparty. On the occurrence of any such event, the Charged Agreement(s) may, if so provided therein, terminate in accordance with its or their terms.

3. Application of Proceeds

The Security Trust Deed provides for the application of the Realisation Amount in accordance with the relevant Security Ranking Basis specified below (following payment of (i) all amounts due to the Security Trustee and/or any receiver or other appointee under or pursuant to the Security Trust Deed, including any costs, expenses and taxes incurred in connection with enforcement or realisation in accordance with the Security Trust Deed and thereafter (ii) the Liquidation Agent in respect of its fees and expenses and thereafter (iii) all amounts due and unpaid to the Fiscal Agent under clause 11 of the Issue and Paying Agency Agreement).

Where Collateral Arrangements Only is specified as applying in the Final Terms the "**Security Ranking Basis**" means the Realisation Amount will be applied first, in the meeting claims of the Securityholders under the Securities on a *pari passu* and *pro rata* basis, and second, in paying any remaining amount to MBFL.

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms:

The applicable Final Terms will specify the "**Security Ranking Basis**" in accordance with which the Realisation Amount will be applied being one of the following (or otherwise as specified in the applicable Final Terms):

- (i) "**Securityholder Priority Basis**", meaning first in meeting claims of the Securityholders under the Securities on a *pari passu* and *pro rata* basis and, thereafter, in meeting the claims of the Counterparty under the Charged Agreement(s); or
- (ii) "**Pari Passu Basis**", meaning in meeting the claims of the Securityholders and the Counterparty under the Charged Agreement(s) on a *pari passu* and *pro rata* basis; or
- (iii) "**Counterparty Priority Basis**", meaning first, in meeting the claims of the Counterparty under the Charged Agreement(s) and, thereafter, in meeting the claims of the Securityholders on a *pari passu* and *pro rata* basis.

For the avoidance of doubt, the Counterparty shall not have any claim in respect of the Issuer's Rights under the Charged Agreement(s). Where more than one Counterparty is specified in the Final Terms then the Security Ranking Basis will be as specified in the Final Terms.

4. Shortfall after Application of Proceeds

In the event that, following the application of the Realisation Amount in accordance with the applicable Security Ranking Basis, the amount payable to a Securityholder in respect of each Security held by him or her is less than the Security Termination Amount (the difference being referred to as a "**Shortfall**"), MBFL (failing which, the

Guarantor) shall remain liable for such Shortfall, but any such Securityholders shall not have recourse to the Mortgaged Property secured in respect of any other Series of Securities.

5. Adjustment of Collateral Assets

This Secured Security Condition applies where Collateral Arrangements Only is specified as applying in the Final Terms.

The Final Terms will specify whether “Adjustment of Collateral Assets” applies to Secured Securities and where this is applicable, MBFL may or, in some cases, will be obliged to adjust Collateral Assets from time to time as described below. If no such specification is made in the Final Terms, Adjustment of Collateral Assets will be deemed to be not applicable.

Where Adjustment of Collateral Assets applies then MBFL may or must, as applicable, from time to time, at its own cost and subject to the Security Trust Deed, by giving not less than 2 Business Days' notice (an “**Adjustment Notice**”) in writing to the Security Trustee exercise its rights or perform its obligations as follows:

- (a) If “Issuer Collateral Assets Optional Top Up Right” is specified as applying in the Final Terms, MBFL may at its option provide further Eligible Collateral and secure this in favour of the Security Trustee on the same terms *mutatis mutandis*, as the other Collateral Assets; and/or
- (b) If “Issuer Collateral Assets Excess Removal Right” is specified as applying in the Final Terms, MBFL may at its option require that any loans, cash, securities or other assets for the time being comprising the Collateral Assets are released from the Security Interests in accordance with the Security Trust Deed and transferred to it for its own account provided that immediately following such transfer the Collateral Assets Coverage Requirement is met, even though this may not be the case subsequently; and/or
- (c) If “Issuer Collateral Assets Maintenance Obligation” is specified as applying in the Final Terms, MBFL must at all times ensure the Collateral Assets Coverage Requirement is met and where required in order to do so must provide further Eligible Collateral and secure this in favour of the Security Trustee on the same terms, *mutatis mutandis* as the other Collateral Assets; and/or
- (d) If “Issuer Collateral Assets Substitution Right (with coverage test)” is specified as applying in the Final Terms, MBFL may require that any loans, cash, securities or other assets for the time being comprising the Collateral Assets be replaced by Eligible Collateral and the Security Trustee shall accordingly release the Collateral Assets from the Security Interests in accordance with the Security Trust Deed to enable such adjustment, provided that upon any release of the substituted Collateral Assets from the Security Interests, the replacement Collateral Assets are secured by MBFL on the same terms *mutatis mutandis* as the substituted Collateral Assets and the Collateral Assets Coverage Requirement must be met immediately following the adjustments, even if this is not the case subsequently; and/or
- (e) If “Issuer Collateral Assets Substitution Right (without coverage test)” is specified as applying in the Final Terms, MBFL may require that any loans, cash, securities or other assets for the time being

comprising the Collateral Assets be replaced by Eligible Collateral and the Security Trustee shall accordingly release the Collateral Assets from the Security Interests in accordance with the Security Trust Deed to enable such adjustment, provided that upon any release of the substituted Collateral Assets from the Security Interests, the replacement Collateral Assets are secured by MBFL on the same terms *mutatis mutandis* as the substituted Collateral Assets and the aggregate Value of the Collateral Assets immediately following such adjustment must be at least equal to the aggregate Value of the Collateral Assets immediately prior to such adjustment, even if this is not the case subsequently.

The Final Terms will specify whether Value Basis or Nominal Basis will apply and the criteria for the Eligible Collateral.

In any of the above cases, all requirements of any relevant stock exchange or competent authority and any other conditions specified in the Final Terms must be complied with.

Following its delivery of an Adjustment Notice to the Security Trustee, MBFL must also notify the Fiscal Agent, the Custodian, the Account Bank, the Calculation Agent, the Liquidation Agent and the Securityholders as soon as reasonably practicable provided that any failure to do so will not affect the validity of the relevant adjustment to the Collateral Assets.

6. Early Settlement

- 6.1 *Early settlement upon termination of a Charged Agreement:* If “Early settlement upon a Charged Agreement Termination” is specified as applicable in the Final Terms, the Securities may be redeemed at the option of MBFL in whole, but not in part, any time, on giving not less than 30 nor more than 60 days’ notice (or such other period of notice as set out in the applicable Final Terms) to Securityholders in accordance with General Security Condition 8 (*Notices*) (which notice shall be irrevocable), in the event that, where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms, if any applicable Transfer Agreement, Credit Support Document or Additional Charged Agreement is terminated in accordance with its terms prior to its stated date of termination.
- 6.2 *Early settlement upon a Regulatory Event:* If “Early settlement upon a Regulatory Event” is specified as applicable in the Final Terms, the Securities may be redeemed at the option of MBFL in whole, but not in part, any time, on giving not less than 30 nor more than 60 days’ notice (or such other period of notice as set out in the applicable Final Terms) to Securityholders in accordance with General Security Condition 8 (*Notices*) (which notice shall be irrevocable), in the event that a change in applicable law or regulation occurs that results, or will result, solely by reason of the Securities being outstanding, in the relevant Issuer being required to be regulated by any additional jurisdiction or regulatory authority, or being subject to any additional legal requirement or regulation considered by the relevant Issuer to be materially onerous to it.
- 6.3 *Early settlement amount:* Each Security settled early pursuant to this Secured Security Condition 6 will be redeemed at its Security Termination Amount.

7. Events of Default

If any of the following events (each an "**Event of Default**") occurs and is continuing, the holder of a Security of any Series may give written notice to the Fiscal Agent, the Liquidation Agent and the Security Trustee each at its specified office that such Security is immediately repayable, whereupon the Security Termination Amount (calculated on the basis that MBFL and the Guarantor are obligors of the highest creditworthiness) such Security shall become immediately due and payable:

- (a) **Default in payment:** default is made for a period of (i) 5 Business Days or more in the payment of any Security Termination Amount, Automatic Early Settlement Amount, Optional Cash Settlement Amount (Call), Optional Cash Settlement Amount (Put), Instalment Amount, Cash Settlement Amount or other payment amount (excluding any Remuneration Amount) on any of the Securities or (ii) for a period of 15 Business Days or more in the payment of any Remuneration Amount due in respect of the Securities or any of them;
- (b) **Failure to deliver:** MBFL fails to deliver any Entitlement or Early Settlement Entitlement on the due date for delivery and such failure to deliver has not been remedied within 30 calendar days of notice of such failure having been given to MBFL by any Securityholder, provided that an Event of Default shall not occur under this Secured Security Condition 7(b) if any of the conditions to settlement to be satisfied by the Securityholder have not been so satisfied as at the due date for delivery;
- (c) **Failure to perform any other Obligation:** MBFL or the Guarantor (where applicable) is in breach of or fails duly to perform any other obligation under or in respect of the Securities, the MBFL Deed of Guarantee, the Security Trust Deed, the Issue and Paying Agency Agreement, the Custody Agreement, or Account Bank Agreement and such failure continues for more than 30 days after the service by a holder of a Security or the Security Trustee of notice on MBFL requiring the same to be remedied;
- (d) **General suspension of payments:** MBFL or the Guarantor (where applicable) suspends its payments generally;
- (e) **Bankruptcy, composition or similar event:** a court or administrative in the country of domicile of MBFL or the Guarantor (where applicable) institutes bankruptcy proceedings or reorganisation proceedings or administrative dissolution without liquidation or composition proceedings to avert a bankruptcy or MBFL or the Guarantor (where applicable) applies for institution of such proceedings or any event occurs in relation to MBFL or the Guarantor (where applicable) which under the laws of the Republic of Italy or Luxembourg has an analogous effect to such proceedings;
- (f) **Cross-default:** (i) any other present or future indebtedness of MBFL or the Guarantor for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity as a result of any payment default thereon by MBFL or, as the case may be, the Guarantor, or (ii) any such indebtedness is not paid when due or, as the case may be, within an applicable grace period, or (iii) MBFL or the Guarantor fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of any moneys borrowed or raised **provided that** an event of default pursuant to

paragraphs (i), (ii) or (iii) above of this Secured Security Condition 7 shall only occur if: (A) the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one of the events mentioned in paragraphs (i), (ii) or (iii) above have occurred and is continuing exceeds €35,000,000 and (B) MBFL or the Guarantor is not contesting in good faith in a competent court in a recognised jurisdiction that the relevant indebtedness or guarantee and/or indemnity is due and enforceable, as appropriate;

- (g) **Insolvency:** either MBFL or the Guarantor is (or is deemed by law or a court to be) insolvent or bankrupt or unable to pay its debts, proposes or makes a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any part of (or of a particular type of) the debts of MBFL or the Guarantor as the case may be;
- (h) **Winding-up:** an order is made or an effective resolution is passed for the winding-up or dissolution or administration of MBFL or the Guarantor applies or petitions for a winding-up or administration order in respect of itself or ceases or threatens to cease to carry on all or substantially all of its business or operations, in each case except for the purposes of and pursuant to or in connection with a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation, deconsolidation or disposal or contribution in kind of assets or branches of business;
- (i) **Ownership:** MBFL ceases to be controlled by Mediobanca (except in the case of a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation or similar transaction by which Mediobanca assumes the payment obligations of MBFL under the Securities);
- (j) **Illegality:** it is or will become unlawful for MBFL to perform or comply with any one or more of its obligations under any of the Securities;
- (k) **Guarantee:** the MBFL Deed of Guarantee ceases to be a valid and binding obligation of the Guarantor or it becomes unlawful for the Guarantor to perform its obligations under the MBFL Deed of Guarantee or the MBFL Deed of Guarantee is claimed by MBFL or the Guarantor not to be in full force and effect (except in the case of a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation or similar transaction by which Mediobanca assumes the payment obligations of MBFL under the Securities); or
- (l) if specified in the Final Terms any Additional Event of Default occurs in respect of the relevant Series of Securities.

For the purpose of paragraph (f) above, any indebtedness for borrowed money which is in a currency other than euro shall be translated at the spot rate for the sale of the relevant currency against the purchase of euro in Luxembourg as quoted by a leading bank selected by the Fiscal Agent for this purpose on the day in Luxembourg on which such premature repayment becomes due or, as the case may be, such default occurs (or, if for any reason such a rate is not available on that day, on the earliest possible date thereafter).

8. Enforcement

Following an Event of Default which is continuing the Security Trustee may, at any time, at its discretion and without notice, take such action under or in connection with any of the Security Documents as it may think fit (including, without limitation, enforcing the Security upon the Security becoming enforceable), provided that it shall not be bound to take any such action unless:

- (a) it shall have been so directed in writing by the Instructing Creditor; and
- (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.

No Securityholder shall be entitled to enforce the Security or to proceed directly against MBFL to enforce the other provisions of the Security Document(s) unless the Security Trustee, having become bound so to enforce or to proceed, fails so to do within a reasonable time and such failure is continuing.

In the event that the Realisation Amount is insufficient to pay all amounts due to the Securityholders, MBFL (failing which the Guarantor) shall remain liable for the Shortfall. No Securityholder shall be entitled to have recourse to the Mortgaged Property secured in respect of any other Series of Securities.

9. Disposal of Collateral Assets

- (a) If an Event of Default has occurred or the Securities are otherwise declared immediately due and payable and, in either case, an Instructing Creditor has directed the Security Trustee to take action to enforce the Security, the Security Trustee will as soon as reasonably practicable notify the Liquidation Agent of this (such notice a "**Collateral Liquidation Event Notice**") and the Liquidation Agent will take action to dispose of the Collateral Assets pursuant to this Secured Security Condition 9 (such disposal being a "**Collateral Liquidation Event**").

The Liquidation Agent shall not otherwise be required to monitor, enquire or satisfy itself as to whether a Collateral Liquidation Event might arise. Prior to receipt by it of a Collateral Liquidation Event Notice, the Liquidation Agent may assume that no such event has occurred.

The Liquidation Agent shall be entitled to rely on a Collateral Liquidation Event Notice without investigation.

- (b) Following receipt by it of a valid Collateral Liquidation Event Notice the Liquidation Agent will on behalf of MBFL and the Guarantor, so far as is practicable in the circumstances effect a liquidation of the Collateral Assets for settlement as soon as reasonably practicable following the effective delivery of the related Collateral Liquidation Event Notice.

Following the occurrence of a Collateral Liquidation Event and effective delivery of a valid Collateral Liquidation Event Notice, the security shall be released without further action on the part of the Security Trustee to the extent necessary for the Liquidation Agent to effect the disposal of the Collateral Assets. Nothing in this paragraph will operate to release the charges and other security interests over the proceeds of the liquidation of the Collateral Assets.

The Liquidation Agent must account to the Security Trustee for all of the proceeds of disposal and apply these only as directed by the Security Trustee.

PROVISIONS RELATING TO THE SECURITIES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Security will be in bearer form. Consequently, in relation to any Tranche of Securities represented by a Global Security, references in the Terms and Conditions of the Securities to "**Securityholder**" are references to the bearer of the relevant Global Security which, for so long as the Global Security is held by a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that common depositary.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Security (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the relevant Issuer to the bearer of such Global Security and in relation to all other rights arising under the Global Security. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Security will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Securities are represented by the Global Security, Accountholders shall have no claim directly against the relevant Issuer in respect of payments due under the Securities and such obligations of the relevant Issuer will be discharged by payment to the bearer of the Global Security.

Exchange of Temporary Global Securities

Whenever any interest in a Temporary Global Security is to be exchanged for an interest in a Permanent Global Security, the relevant Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Security, duly authenticated to the bearer of the Temporary Global Security; or
- (b) in the case of any subsequent exchange, an increase in the number of Securities represented by such Permanent Global Security, where applicable, in accordance with its terms,

as specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Security to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Security is to be exchanged for Definitive Securities, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of the relevant number of Definitive Securities, duly authenticated, to the bearer of the Temporary Global Security against the surrender of the Temporary Global Security to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Security has not been delivered or the principal amount thereof, where applicable, increased by 5.00 p.m. (Luxembourg time) on the seventh day after the bearer of a Temporary Global Security has requested exchange of an interest in the Temporary Global Security for an interest in a Permanent Global Security; or
- (b) Definitive Securities have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Temporary Global Security has requested exchange of the Temporary Global Security for Definitive Securities; or
- (c) a Temporary Global Security (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Securities or the date for final settlement of a Temporary Global Security has occurred and, in either case, payment in full of the amounts falling due thereunder has not been made to the bearer of the Temporary Global Security in accordance with the terms of the Temporary Global Security on the due date for payment,

then the Temporary Global Security (including the obligation to deliver a Permanent Global Security or increase the number of Securities represented thereby, where applicable, or deliver Definitive Securities, as the case may be) will become void at 5.00 p.m. (Luxembourg time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Security will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Security or others may have under the Deeds of Covenant. Under the Deeds of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Security will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Security became void, they had been the holders of a number of Definitive Securities equal to the number of Securities they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Where the Securities are listed on Euronext Dublin and its rules so require, the relevant Issuer will give notice of the exchange of the Permanent Global Security for Definitive Securities pursuant to General Security Condition 8 (*Notices*).

Exchange of Permanent Global Securities

Whenever a Permanent Global Security is to be exchanged for Definitive Securities, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of the relevant number of Definitive Securities, duly authenticated to the bearer of the Permanent Global Security against the surrender of the Permanent Global Security to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) Definitive Securities have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Permanent Global Security has duly requested exchange of the Permanent Global Security for Definitive Securities; or

- (b) a Permanent Global Security (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Securities or the date for final settlement of the Securities has occurred and, in either case, payment in full of the amounts falling due thereunder has not been made to the bearer of the Permanent Global Security in accordance with the terms of the Permanent Global Security on the due date for payment,

then the Permanent Global Security (including the obligation to deliver Definitive Securities) will become void at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Security will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Security or others may have under the Deeds of Covenant). Under the relevant Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Security will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Security became void, they had been the holders of a number of Definitive Securities equal to the number of Securities they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Where the Securities are listed on Euronext Dublin and its rules so require, the relevant Issuer will give notice of the exchange of the Permanent Global Security for Definitive Securities pursuant to General Security Condition 8 (*Notices*)

Conditions applicable to Global Securities

Each Global Security will contain provisions which modify the Terms and Conditions of the Securities as they apply to the Global Security. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Security will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Security to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the relevant Issuer in respect of the Securities.

Notices: Notwithstanding General Security Condition 8 (*Notices*) of the Securities, while all the Securities are represented by a Permanent Global Security (or by a Permanent Global Security and/or a Temporary Global Security) and the Permanent Global Security is (or the Permanent Global Security and/or the Temporary Global Security are) deposited with a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, notices to Securityholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Securityholders in accordance with General Security Condition 8 (*Notices*) of the Securities on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system; *provided, however, that*, so long as the Securities are listed on the Official List of Euronext Dublin and its rules so require, notices will also be published in a leading newspaper having general circulation in Ireland or on the website of the Euronext Dublin (<http://www.euronext.com/en/markets/dublin>).

- Corporate & Investment Banking (CIB): in WB, half the revenues and loan book is originated by the Italian market, the other half by other countries (notably France, Spain and the United Kingdom); while Specialty Finance activities are focused on the domestic Italian market. As at 30 June 2024 the division employs 732 staff (including the staff of Arma Partners), around 250 of whom are based outside Italy);
- Consumer Finance (CF): this activity is addressed primarily to the Italian market, and, as at 30 June 2024, employs 1,563 staff working from 327 branches/agencies; recently, in its attempts to strengthen the digital channels, Compass has launched HeyLight, a new international BNPL platform, which will enable Compass to grow in Switzerland as well, through commercial agreements with distributors, luxury brands and technology operators;

- Leasing activities primarily target the domestic market.

THE STRATEGIC PLAN

Mediobanca is committed to executing its new Strategic Plan 2023-26 “One Brand-One Culture”. The Strategic Plan outlines the Mediobanca Group's strategy to consolidate its Private and Investment Banking model, which combines a market leader CIB platform with a rapidly-growing Wealth Management platform, while also leveraging on the other businesses as well.

The Group aims to be:

- The bank of choice for clients looking for the ability to structure complex, high value-added deals, which Mediobanca is able to close because of its differentiating features: its high-quality people, culture, and responsible approach;
- A counterparty with an acknowledged reputation, solid and reliable, able to unlock value from the talent and distinctive characteristics of its human capital;
- A distinctive investment opportunity for our shareholders, concentrated on low-risk and capital-light growth, and outperforming the sector in terms of stakeholder remuneration.
- The Strategic Plan sets targets in terms of growth in revenues, EPS, profitability, and shareholder remuneration. Selective growth in profitable assets will enable the Bank to preserve an adequate risk/return profile, and stable RWAs due to a change in the capital management policy. Significant investment in distribution channels for all business segments (sales force in Wealth Management to grow by 25%, investment banking to grow in the advisory and capital markets areas; and further growth in digital channels), plus ongoing scouting of opportunities to grow via acquisitions.
- Since Mediobanca's incorporation, a responsible approach to banking based on a long-term perspective has been part of its DNA, an approach which fits well with the Environmental, Social and Governance (ESG strategy), which is integrated into the Group's business plan with the objective of creating value over the long term for all stakeholders. The financial and non-financial commitments undertaken by the Group in this area have been translated into qualitative and quantitative targets that are measurable over time, and integrated into the evaluation programmes for the entire corporate population and for senior management.

The targets referred to are subdivided further according to the relevant divisions. In particular, Wealth Management is aiming to take the share of ESG products (SFDR Article 8-9 funds) represented in client portfolios to over 50%, to increase the Group's own manufacture of ESG funds (with nine new funds to be added in the course of the Strategic Plan), and new green mortgages to reach 19% of the new total new business. The Corporate and Investment Banking division has set up an advisory team focused on energy transition, which in FY 2023-24 has already impacted positively on multiple climate-related transactions in line with the Strategic Plan targets (50% of bonds originated and 40% of new loans have ESG characteristics). Consumer Finance aims to increase its ESG loans at a CAGR of 15%. The Insurance division aims to improve the Group's stability and

visibility. The Holding Functions division aims to issue at least two Sustainability bonds. The first of these has already been issued, in September 2023 (the € 500 million Sustainability SNP).

For the sake of completeness, the following events should be noted that will impact on the Group's area of consolidation starting from the next financial year:

LEGAL AND ARBITRATION PROCEEDINGS

As at the date of this Base Prospectus, none of the proceedings involving Mediobanca and its consolidated subsidiaries may have, or have had in the recent past, a material impact on the Group's financial position or profitability, and as far as Mediobanca is aware, no litigation, arbitration or administrative proceedings which may have such material impact has either been announced or is pending.

As at 30 June 2024, the item "Provisions for risks and charges" amounted to €137.7 million with commitments and guarantees down (from €21.6 million to €20.8 million). The reduction from €110.7 million to €99.4 million in the provisions for risks and charges to cover legal and tax risks is attributable to developments in the legal/tax disputes outstanding. The component attributable to staff expenses, most of which last year consisted in provisions for to launch an early retirement and staff turnover programme, decreased from €28.2 million to €16.9 million. The stock as at 30 June 2024 was made up as follows: Mediobanca €51.8 million (€67.3 million), Mediobanca Premier €30.9 million (€32 million), Compass €19.9m (€29 million), SelmaBipiemme Leasing €7.3

million (€6.1 million), CMB Monaco €2.6 million (€2.2 million), other Group Legal Entities €3.7 million (€2.3 million).

It is believed that the provision for risks and charges as at 30 June 2024 is sufficient to cover any charges relating to the cases that have been brought against Mediobanca and the other Group Legal Entities and to cover other contingent liabilities.

A description of the main tax disputes and litigation pending is provided below, purely for information purposes:

Litigation pending and tax disputes

Civil Proceedings - Claim for damages

Among the most significant legal proceedings there is the following should be noted:

- regarding the effects of the so-called “Lexitor” ruling of the Court of Justice of the European Union, Law No. 136/2023 was published in the Official Journal on 9 October 2023 after the Constitutional Court, by ruling dated 22 December 2022, declared the partial unconstitutionality of Article 11-octies, paragraph 2, of the “Sostegni Bis” Decree, thus enacting, with amendments, Law-Decree No. 104 of 10 August 2023 (referred to as “Asset Decree”), whose Article 27 added a new regulation of early repayment under consumer credit contracts concluded before 25 July 2021 (date of entry into force of Law No. 106 of 23 July 2021, thus amending the “Sostegni Bis” Decree which, in turn, had amended Article 125-sexies of the Italian Consolidated Banking Act). As a result of such regulation, consumers will be entitled to a proportional reduction of all costs incurred in relation to consumer credit contracts, including if they were concluded before 25 July 2021, without prejudice to the statute of limitations under the law (10 years). Mediobanca continued to reimburse upfront charges upon written request from the customers, also when managing out-of-court and judicial disputes, using the risk provisions set aside in previous years to cover this contingent liability. This provision, which amounted to €13.2 million at 30 June 2023, stood at €10.2 million at 30 June 2024.
- with regard to disputes relating to the hiring of bankers and financial advisors and relating to the indemnification policy, the current provision is equal to €15.6 million.

Tax – Administrative proceedings

With regard to the dispute pending with the tax authorities, it should note that there were no significant changes with respect to the previous year:

- With reference to Mediobanca’s alleged failure to apply withholding taxes on interest expense paid under a secured financing transaction between the financial years 2014/2015 and 2017/2018 (for a total of €8.1 million plus interest and penalties), four disputes have been activated, one of which was terminated in favour of Mediobanca with a final judgement, two were won in the second instance judgements and one was won in the first instance judgement for the Bank.
- With regard to the alleged failure to apply transparency and tax rules as required by the Controlled Foreign Companies (CFC) legislation to income earned by CMB Monaco and CMG Monaco in the 2013, 2014 and

2015 fiscal years (totalling €53.7 million, plus penalties and interest), the Bank won the first two instances of judgement. These disputes are now pending at the Court of Cassation.

Additional tax proceedings

Apart from those described above, the following disputes remain outstanding:

- Two minor disputes relating the failure to reimburse interest accrued on VAT credits in leasing transactions (for a value of just under €3 million);
- five disputes involving direct and indirect tax of minor amounts and at different stages of the ruling process, involving a total certified amount of €0.9 million.

Finally, with regard to the proceedings initiated before the District Court of California, pursuant to the so-called “RICO” law (Racketeer Influenced and Corrupt Organizations Act), in which CMB Monaco was involved, it should be noted that last June 13 the Court acknowledged CMB Monaco’s withdrawal from the proceedings without financial loss, with the preclusion of any further action in any jurisdiction.

Proceedings with the supervisory authorities

- Both Mediobanca and those of the Group Legal Entities that are also banks are subject to inspections by the supervisory authorities as part of their normal banking activity.

MATERIAL AGREEMENTS

Neither Mediobanca nor any of the companies controlled by Mediobanca has entered into or participates in agreements outside of their normal course of business which could result an obligation or entitlement for Group members that would impact significantly on the Issuer’s ability to meet its obligations in respect of the holders of financial instruments issued or to be issued.

("**BMPS**") published a press release announcing that it had taken the decision to launch a voluntary public exchange offer pursuant to Articles 102 and 106, paragraph 4, of the Italian Financial Services Act on all the ordinary shares of Mediobanca, including any treasury shares held by Mediobanca (the "**BMPS Exchange Offer**"). The launch of the BMPS Exchange Offer is subject to certain authorisations required by the applicable laws and regulations. On 28 January 2025, following a meeting of its Board of Directors, Mediobanca published a press release in relation to its rejection of the BMPS Exchange Offer. Copies of both the abovementioned press releases are available on the websites of, respectively, BMPS and Mediobanca.

Voluntary public exchange offer launched by Medionaca on the ordinary shares of Banca Generali S.p.A.

On 28 April 2025 Mediobanca published a press release announcing that it had taken the decision to the launch of a voluntary public exchange offer pursuant to Articles 102 and 106, paragraph 4 of the Financial Services Act on all the ordinary shares of Banca Generali S.p.A. ("**Banca Generali**") admitted to trading on Euronext Milan, including any treasury shares held by Banca Generali (the "**Mediobanca Exchange Offer**"); the consideration will consist of shares in Assicurazioni Generali S.p.A. owned by Mediobanca. The Mediobanca Exchange Offer is subject to certain conditions, including the approval by the shareholders of Mediobanca in an ordinary business general meeting (which has been called to take place on 16 June 2025), as required by Article 104 of the Finance Service Act and the authorizations required by the applicable laws and regulations. On 28 April 2025 following a meeting of its Board of Directors, Banca Generali published a press release in relation to the Mediobanca Exchange Offer. Copies of both the abovementioned press releases are available on the websites of, respectively, Mediobanca and Banca Generali.

Mediobanca approved the consolidated 9 month results as at 31 March 2025

On 8 May 2025 the press release related to the approval of the consolidated results as at and for the nine-month period ended on 31 March 2025 was published.

FINANCIAL INFORMATION OF MEDIOBANCA - BANCA DI CREDITO FINANZIARIO S.P.A.

The consolidated annual financial statements of Mediobanca as at and for the years ended on 30 June 2024 and 2023 were prepared in accordance with the International Financial Reporting Standards (“**IFRS**”) and International Accounting Standards (“**IAS**”) issued by the International Accounting Standards Board (“**IASB**”), and the respective interpretations issued by the IFRS Interpretations Committee (“**IFRIC**”), which were adopted by the European Union.

The unaudited consolidated interim financial statements of Mediobanca as at and for the six months ended 31 December 2023 have been prepared in accordance with IFRS as adopted by the European Union.

All the above consolidated financial statements, prepared in each case together with the notes thereto, are incorporated by reference in this Base Prospectus. See “*Documents Incorporated by Reference*”.

The annual consolidated financial statements referred to above have both been audited by EY S.p.A., whose reports thereon are attached to such annual financial statements.

REGULATORY ASPECTS

The Mediobanca Group is subject to extensive regulation and supervision by the Bank of Italy, CONSOB, the ECB and is also subject to the authority of the Single Resolution Board ("**SRB**"). The banking laws to which the Mediobanca Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of such institutions and limit their exposure to risk. In addition, the Mediobanca Group must comply with financial services laws that govern its marketing and selling practices. New acts of legislation and regulations may be introduced in Italy and the European Union that may affect the Mediobanca Group, including proposed regulatory initiatives that could significantly alter the Mediobanca Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the "**Basel Committee**").

In accordance with the regulatory frameworks described above and consistent with the regulatory framework being implemented at the European Union level, the Mediobanca Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Mediobanca Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

Basel III and the CRD IV Package

In the wake of the global financial crisis that began in 2008, the Basel Committee on Banking Supervision ("**BCBS**") approved, in the fourth quarter of 2010, revised global regulatory standards ("**Basel III**") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement since 2019.

In January 2013, the BCBS revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio with a full implementation in 2019 as well as expanding the definition of high-quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities. Regarding the other liquidity requirement, the net stable funding ratio, the BCBS published the final rules in October 2014 which took effect from 1 January 2018.

The Basel III framework has been implemented in the EU through new banking requirements: Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the “**CRD IV Directive**”) and Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No. 648/2012, as amended or replaced from time to time (the “**CRD IV Regulation**” and together with the CRD IV Directive, the “**CRD IV Package**”). The CRD IV Package has been subsequently updated by Regulation (EU) No. 2019/876 (“**CRR II**”), Regulation (EU) 2024/1623 (“**CRR III**”) and Directive (EU) No. 2019/878 (“**CRD V**”) and, recently, by CRD VI and CRR III. Unless otherwise stated in this Supplement, any reference to CRD shall be read as referencing to CRD IV, as subsequently amended and reinstated, and any reference to CRR, shall be read as referencing to CRR as subsequently amended and reinstated from time to time.

Full implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements are now largely fully effective as of 1 January 2019 and some minor transitional provisions provide for phase-in until 2024). Further details on the implementation of the Banking Reform Package (as defined below) are provided in the paragraph “*Revision to the CRD IV Package*” below.

National options and discretions that were so far exercised by national competent authorities are now exercised by the Single Supervisory Mechanism (“**SSM**”) in a largely harmonised manner throughout the Banking Union. In this respect, on 14 March 2016, the European Central Bank (the “**ECB**”) adopted Regulation (EU) No. 2016/445 on the exercise of options and discretions, as subsequently amended. Depending on the manner in which these options/discretions had been exercised by the national competent authorities and on the manner in which the SSM will exercise them in the future, additional/lower capital requirements may result.

In addition to the capital requirements under CRD and the CRR, the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014, as subsequently amended, (“**BRRD**”) introduces requirements for banks to maintain at all times a sufficient aggregate amount of own funds and eligible liabilities (the “**Minimum Requirement for Own Funds and Eligible Liabilities**”, or “**MREL**”). The Issuer has to meet MREL requirements on a consolidated basis. MREL constrains the structure of liabilities and may require the use of subordinated debt, which would have an impact on cost and potentially on the Issuer’s financing capacity.

In Italy, the Government approved a Legislative Decree on 12 May 2015 (“**Decree 72/2015**”) implementing the CRD IV Directive and amending the Italian Banking Act. Decree 72/2015 entered into force on 27 June 2015. Decree 72/2015 impacts, *inter alia*, on:

- proposed acquirers of holdings in credit institutions, requirements for shareholders and members of the management body (Articles 23 and 91 of the CRD IV Directive);
- competent authorities’ powers to intervene in cases of crisis management (Articles 64, 65, 102 and 104 of the CRD IV Directive);
- reporting of potential or actual breaches of national provisions (so called whistleblowing, Article 71 of the CRD IV Directive); and

- administrative penalties and measures (Article 65 of the CRD IV Directive).

The Bank of Italy firstly published supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013, as subsequently amended from time to time by the Bank of Italy, (the “**Circular No. 285**”) which came into force on 1 January 2014, implementing the CRD IV Package and the Banking Reform Package, and setting out additional local prudential rules. The CRD IV Package is also supplemented in Italy by technical rules relating to the CRD IV Directive and the CRD IV Regulation published through delegated regulations of the European Commission and guidelines of the EBA which can be either of direct application under Italian law or built into the Bank of Italy’s supervisory guidance as the case may be.

As part of the CRD IV Package, certain transitional arrangements as implemented by the Circular No. 285 have been gradually phased-out. The transitional arrangements which provide for the regulatory capital recognition of outstanding instruments which qualified as Tier I and Tier II capital instruments under the framework which the CRD IV Package replaced but which no longer meet the minimum criteria under the CRD IV Package have been gradually phased out.

Capital Requirements

According to Article 92 of the CRD IV Regulation, as amended by the CRR II, institutions shall at all times satisfy the following own funds requirements: (i) a CET1 Capital ratio of 4.5 per cent.; (ii) a Tier 1 Capital ratio of 6 per cent.; (iii) a Total Capital ratio of 8 per cent, and (iv) the Leverage Ratio of 3 per cent. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5 per cent from 1 January 2019 (pursuant to Article 129 of the CRD IV and Part I, Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer ("CCyB")*: set by the relevant competent authority between 0% - 2.5% of credit risk exposures towards counterparties each of the home Member State, other Member States and third countries (but may be set higher than 2.5 % where the competent authority considers that the conditions in the Member State justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Part I, Title II, Chapter I, Section III of Circular No. 285). The Bank of Italy has set, and decided to maintain, the CCyB (relating to exposures towards Italian counterparties) at 0% for the fourth quarter of 2024;
- *Capital buffers for globally systemically important banks ("G-SIBs")*: set as an "additional loss absorbency" buffer varying depending on the sub-categories on which the globally systemically important institutions ("G-SIIs") are divided into. The lowest sub-category shall be assigned a G-SII buffer of 1 % of the total risk exposure amount calculated in accordance with Article 92(3) of the CRD IV Regulation and the buffer assigned to each sub-category shall increase in gradients of at least 0,5 % of the total risk exposure amount calculated in accordance with Article 92(3) of the CRD IV Regulation. G-SIBs is determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global cross border activity and complexity) and, being phased in from 1 January 2016 (pursuant to Article 131 of the CRD IV and

Part I, Title II, Chapter I, Section IV of Circular No. 285), became fully effective on 1 January 2019. Based on the most recently updated list of G-SIIs published by the Financial Stability Board (“FSB”), neither the Issuer (nor any member of the Mediobanca Group) is a G-SIB and therefore they do not need to comply with a G-SIBs capital buffer requirement (or a leverage ratio buffer); and

- *Capital buffers for other systemically important banks at a domestic level ("O-SIIs")*: up to 3.0% as set by the relevant competent authority (reviewed at least annually), to compensate for the higher risk that such banks represent to the financial system (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285). The Bank of Italy has recently identified the Mediobanca Group as an O-SII entity, therefore the Issuer does comply with an O-SII capital buffer requirement equal to 0.125% in 2024 and 0.250% from 2025.

In addition to the above-mentioned capital buffers, under Article 133 of the CRD IV Directive, as amended by the CRD V, each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 capital for the financial sector or one or more subsets of that sector in order to prevent and mitigate long-term non-cyclical systemic or macroprudential risks not otherwise covered by the CRD IV Package, in the sense of a risk of disruption in the financial system with the potential of having serious negative consequences on the financial system and the real economy in a specific Member State.

With update No. 38 of 22 February 2022, the Circular No. 285 was amended in order to provide for, *inter alia*, the introduction of:

- (i) the possibility for the Bank of Italy to activate the systemic risk buffer (“**SyRB**”) for banks and banking groups authorised in Italy. In particular, the requirement to maintain a systemic risk buffer of Common Equity Tier 1 is intended to prevent and mitigate macro-prudential or systemic risks not otherwise covered with the macro-prudential instruments provided for by the CRD IV Regulation, as amended by the CRR II, the anti-cyclical capital buffer and the capital buffers for G-SII and for O-SII. The buffer ratio for systemic risk can be applied to all exposures or to a subset of exposures and to all banks or to one or more subsets of banks with similar risk profiles; and
- (ii) some macro-prudential instruments based on the characteristics of customers or loans (so-called “borrower-based measures”). Specifically, these are measures that are not harmonised at European level, which can be used to counter systemic risks deriving from developments in the real estate market and from high or rising levels of household and non-financial corporate debt.

The Bank of Italy exercised its authority to introduce a SyRB on 26 April 2024. The Bank of Italy decided to apply to all licensed banks in Italy a SyRB equal to 1.0 per cent. of credit and counterparty risk-weighted exposures to residents in Italy. The target rate of 1.0 percent is to be achieved gradually by building up a reserve equal to 0.5 percent of material exposures by 31 December 2024, and the remaining 0.5 percent per cent. by 30 June 2025.

Furthermore, with update No. 39 of 13 July 2022, the Circular No. 285 was amended in order to align its provisions with Articles 104 to 104c of the CRD IV Directive, as amended by the CRD V. In particular, the

amendments introduced to Part I, Chapter 1, Title III of the Circular No. 285 provide for, *inter alia*, the introduction of:

- (i) A clear differentiation between components of Pillar 2 Requirements estimated from an ordinary perspective and the Pillar 2 Guidance determined from a stressed perspective which supervisory authorities may require banks to hold; and
- (ii) The possibility for supervisory authorities to require additional capital in the presence of excessive leverage risk, under both ordinary and stressed conditions (P2R and Leverage Ratio and Pillar 2 Guidance Leverage Ratio).

Failure by an institution to comply with buffer requirements described above (“**Combined Buffer Requirements**”) may trigger restrictions on distributions by reference to the so-called Maximum Distributable Amounts (“**MDA**”) and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 to 141c of the CRD IV Directive).

In addition, Mediobanca Group is subject to the Pillar 2 Requirements for banks imposed under the CRD IV Package, which will be impacted, on an on-going basis, by the SREP. The SREP is aimed at ensuring that institutions have adequate arrangements and strategies in place to maintain liquidity and capital, including in particular the amounts, types and distribution of internal capital commensurate to their risk profile, in order to ensure sound management and coverage of the risks to which they are or might be exposed, including those revealed by stress testing, as well as risks the institution may pose to the financial system.

The quantum of any Pillar 2 Requirement imposed on a bank, the type of capital which it must apply to meeting such capital requirements, and whether the Pillar 2 requirement is “stacked” below the capital buffers (i.e. the bank’s capital resources must first be applied to meeting the Pillar 2 requirements in full before capital can be applied to meeting the capital buffers) or “stacked” above the capital buffers (i.e. the bank’s capital resources can be applied to meeting the capital buffers in priority to the Pillar 2 requirement) may all impact a bank’s ability to comply with the Combined Buffer Requirement.

In its publication of the 2016 EU-wide stress test results on 29 July 2016, the EBA has recognised a distinction between “Pillar 2 requirements” (stacked below the capital buffers) and “Pillar 2 capital guidance” (stacked above the capital buffers). With respect to Pillar 2 capital guidance, the publication stated that, in response to the stress test results, competent authorities may (among other things) consider “setting capital guidance, above the combined buffer requirement”. Competent authorities have remedial tools if an institution refuses to follow such guidance. The ECB published a set of “Frequently asked questions on the 2016 EU-wide stress test”, confirming this distinction between Pillar 2 requirements and Pillar 2 capital guidance and noting that “Under the stacking order, banks facing losses will first fail to fulfil their Pillar 2 capital guidance. In case of further losses, they would next breach the combined buffers, then Pillar 2 requirements, and finally Pillar 1 requirements”.

The distinction between “Pillar 2 requirements” and “Pillar 2 capital guidance” has been codified by the CRD V. Whereas the former are mandatory requirements imposed by supervisors to address risks not covered or not sufficiently covered by Pillar 1 and buffer capital requirements, the latter refers to the possibility for competent authorities to communicate to an institution their expectations for such institution to hold capital in excess of its

capital requirements (Pillar 1 and Pillar 2) and Combined Buffer Requirements in order to cope with forward-looking and remote situations. Under the CRD V, only Pillar 2 requirements, and not Pillar 2 capital guidance, will be relevant in determining whether an institution is meeting its Combined Buffer Requirement.

Non-compliance with Pillar 2 capital guidance does not amount to a failure to comply with capital requirements, but should be considered as a "pre alarm warning" to be used in a bank's risk management process. If capital levels go below Pillar 2 capital guidance, the relevant supervisory authorities, which should be promptly informed in detail by the bank of the reasons of the failure to comply with the Pillar 2 capital guidance, will take into consideration appropriate and proportional measures on a case by case basis (including, by way of example, the possibility of implementing a plan aimed at restoring compliance with the capital requirements including capital strengthening requirements).

On 18 March 2022, the EBA published its final report on revised Guidelines on common procedures and methodologies for SREP and supervisory stress testing. The EBA has developed the revised SREP Guidelines in order to implement the changes brought by CRD V and CRR II (as defined below). In particular, the revision of the Guidelines, while keeping the original framework with the main SREP elements intact, reflects, among other things, the introduction of the assessment of the risk of excessive leverage and the revision of the methodology for the determination of the Pillar 2 Guidance. Additional relevant changes are related to the enhancement of the principle of proportionality and the encouragement of cooperation among prudential supervisory authorities and AML/CFT supervisors, as well as resolution authorities. The Bank of Italy reported its intention to comply with the Guidelines and amended the Circular No. 285 accordingly. The guidelines apply from 1 January 2023.

The CRD IV Package introduced a leverage ratio with the aim of restricting the level of leverage that an institution can take on, to ensure that an institution's assets are in line with its capital. The Leverage Ratio Delegated Regulation (EU) No. 2015/62 was adopted on 10 October 2014 and was published in the Official Journal of the European Union in January 2015 amending the calculation of the leverage ratio compared to the current text of the CRD IV Regulation ("**Leverage Ratio Regulation**"). Institutions have been required to disclose their leverage ratio from 1 January 2015. The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio and leverage ratio in order to enhance regulatory harmonisation in Europe through the Single Rule Book. The CRR II complemented the system of reporting and disclosure, as envisaged in the Leverage Ratio Regulation, by the introduction of the Leverage Ratio as own fund requirement.

Liquidity and leverage requirements

The CRD IV Package also introduced the LCR. This is a stress liquidity measure based on modelled 30-day outflows. Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 supplementing the CRR with regard to liquidity coverage requirement for credit institutions ("**LCR Delegated Act**") was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. On 20 May 2022, amendments to the LCR Delegated Act were published in the Official Journal (Commission Delegated Regulation (EU) 2022/786 of 10 February 2022) and has applied as of July 2022. Most of these amendments has been introduced to better allow the credit institutions issuing covered bonds to comply, on one hand, with the general liquidity coverage requirement for a 30 calendar day stress period and, on the other hand, with the cover

pool liquidity buffer requirement, as laid down by Directive (EU) 2019/2162 of the European Parliament and of the Council. The NSFR is part of the Basel III framework and aims to promote resilience over a longer time horizon (1 year) by creating incentives for banks to fund their activities with more stable sources of funding on an on-going basis. The NSFR has been introduced as a requirement in the CRR II published in June 2019 and is applicable from June 2021.

Revision to the CRD IV Package

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks and investment firms (“**Banking Reform Package**”). The Banking Reform Package amends many existing provisions set out in the CRD IV Package, the BRRD and the SRMR. These proposals were agreed by the European Parliament, the Council of the EU and the European Commission and were published in the Official Journal of the EU on 7 June 2019 entering into force 20 days after, even though most of the provisions are applicable as of 28 June 2021, allowing for a smooth implementation of the new provisions.

The Banking Reform Package includes:

- (i) revisions to the standardised approach for counterparty credit risk;
- (ii) changes to the market risk rules which include the introduction first of a reporting requirement pending the implementation in the EU of the latest changes to the FRTB (as defined below) published in January 2019 by the BCBS and then the application of own funds requirements as of 1 January 2023;
- (iii) a binding leverage ratio (and related improved disclosure requirements) introduced as a backstop to risk-weighted capital requirements and set at 3% of an institution's Tier 1 capital;
- (iv) a binding NSFR (which will require credit institutions and systemic investment firms to finance their long-term activities (assets and off-balance sheet items) with stable sources of funding (liabilities) in order to increase banks' resilience to funding constraints). This means that the amount of available stable funding will be calculated by multiplying an institution's liabilities and regulatory capital by appropriate factors that reflect their degree of reliability over a year. The NSFR will be expressed as a percentage and set at a minimum level of 100%, indicating that an institution holds sufficient stable funding to meet its funding needs during a one-year period under both normal and stressed conditions. The NSFR will apply at a level of 100% at individual and a consolidated level starting from 28 June 2021, unless competent authorities waive the application of the NSFR on an individual basis as of two years after the date of entry into force of the EU Banking Reform Package;
- (v) changes to the large exposures limits, now calculated as the 25% of Tier 1; and
- (vi) improved own funds calculation adjustments for exposures to SMEs and infrastructure projects.

In particular, on 7 June 2019, the legal acts of the “Banking Reform Package” regarding the banking sector have been published on the EU Official Journal. Such measures include, together with the amendments to the BRRD and to SRMR, (i) CRR II amending the CRD IV Regulation as regards the leverage ratio, the net stable funding

ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and (ii) CRD V amending the CRD IV as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures. The amendments proposed better align the current regulatory framework to international developments in order to promote consistency and comparability among jurisdictions.

Such measures entered into force on 27 June 2019, while a) the CRR II is applicable from 28 June 2021, excluding some provisions with a different date of application (early or subsequent), b) the CRD V and BRRD 2 shall be implemented into national law by 28 December 2020 excluding some provisions which will be applicable subsequently.

In Italy, the Government approved a Legislative Decree on 8 November 2021 (“**Decree 182/2021**”) implementing the CRD V Directive and amending the Italian Banking Act. Decree 182/2021 entered into force on 30 November 2021. Decree 182/2021 impacts, *inter alia*, on:

- proposed acquirers of holdings in credit institutions, requirements for shareholders and members of the management body (Articles 22, 23 and 91 of the CRD V Directive);
- competent authorities’ powers to impose additional own fund requirements (Articles 104 and 104a of the CRD V Directive);
- authorisation regime applicable to financial holding companies and mixed financial holding companies (Article 21a of the CRD V Directive); and
- regime governing the banking groups and introduction of the status of “intermediate EU parent” (Article 21c of the CRD V Directive).

Moreover, it is worth mentioning that the BCBS concluded the review process of the models (for credit risk, counterparty risk, operational risk and market risk) for the calculation of minimum capital requirements, including constraints on the use of internal models and introducing the so-called “output floor” (setting a minimum level of capital requirements calculated on the basis of internal models equal, when fully implemented, to 72.5 per cent. of those calculated on the basis of the standardised methods). The main purpose is to enhance consistency and comparability among banks. The new framework was finalised for market risk in 2016 and finally revised in January 2019. The new framework for credit risk and operational risk was completed in December 2017.

On 27 October 2021, the European Commission published, a legislative proposal to amend the CRD V and the CRR II (the so-called “**2021 Reform Package**”). In particular, the 2021 Reform Package legislative initiative aims at implementing in the EU the 2017 Basel Accord and further elements not included in such international framework contributing to financial stability and to the steady financing of the economy in the context of the post-COVID 19 crisis recovery. On 19 June 2024, Directive (EU) 1619/2024 of the European Parliament and Council of 31 May 2024 amending Directive 2013/36/EU as regards supervisory powers, sanctions, third-country branches, and environmental, social and governance risks (CRD VI) and Regulation (EU) 1623/2024 of

the European Parliament and of the Council of 31 May 2024 amending Regulation (EU) No 575/2013 as regards requirements for credit risks, credit valuation adjustment risk, operational risk and the output floor (CRR III) were published in the Official Journal of the European Union and entered into force on 9 July 2024. Save for certain exemptions, most of the provisions set forth in the CRR III will apply from 1st January 2025, while the domestic acts and regulations enacted by the Member States to implement the changes brought by the CRD VI shall become effective on 11 January 2026.

The main changes the CRD VI and the CRR III are about to introduce relate to:

- (i) the introduction of the output floor to reduce the excessive variability of banks' capital requirements calculated with internal models. Notably, the output floor works as a lower limit ("floor") on the capital requirements ("output") that banks calculate when using their internal models. The output floor aims at enhancing the confidence in risk-based capital requirements and to improve the solidity of banks that make use of internal models, making capital requirements more comparable across banks;
- (ii) implementation of the Basel III agreement to strengthen Union banks' resilience face at the main risk areas (credit risk; market risk; and operational risk);
- (iii) environmental, social and governance risks (ESG). Under the newly introduced banking package, banks would need to draw up transition plans under the prudential framework that will need to be consistent with the sustainability commitments banks undertake under other pieces of Union laws, such as the Corporate Sustainability Reporting Directive. Competent authorities will oversee how banks handle ESG risks and include ESG considerations in the context of the annual supervisory examination review (i.e. SREP);
- (iv) strengthened supervision. The supervisory powers and tools have been increased and further harmonized. Notably, supervisors will be given more powers to check if certain transactions (e.g. large acquisitions) undertaken by banks are sound and do not entail excessive risks for banks; and
- (v) clear rules for third country banks operating in the Union. The CRD VI will introduce minimum harmonizing conditions for the establishment of third-country banks in the EU.

Once the CRD VI and the CRR III will be fully implemented and transposed in the Union, the regulatory changes brought by these pieces of legislation will impact the entire banking system and consequently could determine changes in the capital calculation and increase capital requirements, which as at the date of this Base Prospectus cannot be entirely foreseen.

This reform is relevant for Mediobanca as it should allow, starting from 2025, and according to the phase in-regime provided for by the CRR III, to definitively apply the so-called "Danish Compromise" to its equity holding in Assicurazioni Generali. It would therefore allow Mediobanca to weight at 370% such equity holding, instead of deducting it from Common Equity Tier 1 capital, in compliance with the concentration risk limit.

Regular monitoring exercise includes also a monitoring exercise to assess the impact of the Basel III framework on a sample of EU banks that the EBA conducts in coordination and in parallel with the BCBS ("**Basel III Monitoring Exercise**"). This exercise assesses the impact of the latest regulatory developments at BCBS level in the following area: (a) global regulatory framework for more resilient banks and banking systems; (b) the

Liquidity Coverage Ratio and liquidity risk monitoring tools; (c) the leverage ratio framework and disclosure requirements; (d) the Net Stable Funding Ratio; and (e) the post-crisis reforms.

The impact of the Basel III is assessed using mostly the following measures:

- (i) percentage impact on minimum required Tier 1 capital (MRC);
- (ii) impact, in basis point, on the current actual Tier 1 capital ratio; and
- (iii) Tier 1 shortfall resulting from the full implementation of Basel III, namely the capital amount that banks need to fulfil the Basel III MCR.

According to EBA Decision no. EBA/DC/2021/373 concerning information required for the monitoring of Basel supervisory standards published on 18 February 2021, as subsequently amended, (“**EBA Decision**”), the Basel III Monitoring Exercise is mandatory, on an annual basis, for a representative set of EU and EEA credit institutions identified by the relevant competent authorities.

On 4 October 2024, EBA published its third mandatory Basel III Monitoring Report which assess the impact that Basel III full implementation will have on EU banks in 2033. According to this assessment, the full Basel III implementation would result in an average increase of 7.8% at full implementation date in 2033. The main contributing factors are the output floor and the operational risk. Thus, to comply with the new framework, banks would need EUR 0.6 billion of additional Tier 1 capital.

On 4 May 2020, EBA published its final draft technical standards on specific reporting requirements for market risk, in accordance with the mandate set out in the provisions of the CRR II.

In particular, the implementing technical standards (“**ITS**”) introduced uniform reporting templates, the template related instructions, the frequency and the dates of the reporting, the definitions and the IT solutions for the specific reporting for market risk. These ITS introduce the first elements of the Fundamental Review of the Trading Book (FRTB) into the EU prudential framework by means of a reporting requirement. Based on the ITS submitted by the EBA, the European Commission adopted the Implementing Regulation no. 2021/453/EU of 15 March 2021 which applied from 5 October 2021.

As a final note, on 18 January 2024, the EBA launched a public consultation on draft Guidelines on the management of Environmental, Social and Governance (ESG) risks. The draft Guidelines set out requirements for institutions for the identification, measurement, management and monitoring of ESG risks, including through plans aimed at addressing the risks arising from the transition towards an EU climate-neutral economy. The consultation run until April 2024 but, as at the date of this Supplement, no Final Report has been published.

ECB Single Supervisory Mechanism

On 15 October 2013, the SSM Regulation for the establishment of SSM. The SSM Regulation provides the ECB, in conjunction with the national competent authorities of the Eurozone and participating Member States, with direct supervisory responsibility over "banks of significant importance" in those Member States. "Banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the

national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism and/or (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities. Mediobanca has been classified as a significant supervised entity pursuant to the SSM Regulation and Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 (the "**SSM Framework Regulation**") and, as such, is subject to direct prudential supervision by the ECB.

The relevant national competent authorities continue to be responsible, in respect of the Mediobanca Group, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB is exclusively responsible for the prudential supervision of Mediobanca, which includes, *inter alia*, the power to: (i) authorise and withdraw authorisation; (ii) assess acquisition and disposal of holdings; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate governance practices and internal capital adequacy assessment controls and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities. The ECB may exercise options and discretions under the SSM and SSM Framework Regulation in relation to Mediobanca.

The Bank Recovery and Resolution Directive

The BRRD, entered into force on 2 July 2014, is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an institution that is failing or likely to fail so as to ensure the continuity of the institution's critical financial and economic functions, while minimizing the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone (except for the asset separation tool) or in combination with other resolution tools where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the institution or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims into shares or other instruments of ownership (i.e. other instruments that confer ownership, instruments that are convertible into or give the right to acquire shares or other instruments of ownership, and instruments representing interests in shares or other instruments of ownership) (the "**general**

bail-in tool”). Such shares or other instruments of ownership could also be subject to any future application of the BRRD. For more details on the implementation in Italy please refer to the paragraphs below.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down/convert into shares or other instruments of ownership at the point of non-viability and before any other resolution action is taken ("**non-viability loss absorption**"). Any shares issued to holders of subordinated notes upon any such conversion may also be subject to any application of the general bail-in tool. The point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution or its group will no longer be viable unless the relevant capital instruments are written-down/converted or extraordinary public support is to be provided.

Resolution authorities have the power to amend or alter the maturity of certain debt instruments issued by an institution under resolution, amend the amount of interest payable under such instruments, the date on which the interest becomes payable (including by suspending payment for a temporary period) and to restrict the termination rights of holders of such instruments. The BRRD also provides for a Member State, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. Resolution authorities may provide public equity support to an institution and/or take the institution into public ownership. Such measures must be taken in accordance with the EU state aid framework and will require a contribution to loss absorption from shareholders and creditors via write- down, conversion or otherwise, in an amount equal to at least 8 % of total liabilities (including own funds).

As an exemption from these principles, the BRRD allows for three kinds of extraordinary public support to be provided to a solvent institution without triggering resolution: 1) a State guarantee to back liquidity facilities provided by central banks according to the central banks' conditions; 2) a State guarantee of newly issued liabilities; or 3) an injection of own funds in the form of precautionary recapitalisation. In the case of precautionary recapitalization EU state aid rules require that shareholders and junior bond holders contribute to the costs of restructuring.

An SRF (as defined below) was set up under the control of the SRB (as defined below). It ensures the availability of funding support while the bank is resolved. It is funded by contributions from the banking sector. The SRF can only contribute to resolution if at least 8 per cent. of the total liabilities, including own funds, of the bank have been bailed-in.

The BRRD requires all Member States to create a national, prefunded resolution fund, reaching a level of at least 1 per cent. of covered deposits by 31 December 2024. The National Resolution Fund for Italy was created in November 2015 and required both ordinary and extraordinary contributions to be made by Italian banks and investment firms. In the Banking Union, the National Resolution Funds set up under the BRRD were superseded by the single resolution fund, established by the European Regulation no. 806/2014 as of 1 January 2016 ("**Single Resolution Fund**" or "**SRF**") and those funds have been pooled together gradually. Therefore, as of 2016, the Single Resolution Board calculates, in line with the Council Implementing Regulation no. 2015/81/EU (the "**Council Implementing Act**"), the annual contributions of all institutions authorised in the Member States

participating in the SSM and the SRM. The SRF is financed by the European banking sector. The total target size of the Fund is equal to at least 1 per cent. of the covered deposits of all banks in the Member States participating in the Banking Union. The SRF is to be built up over eight years, beginning in 2016, to the target level of EUR 55 billion (the basis being 1 per cent. of the covered deposits in the financial institutions of the Banking Union). Once this target level is reached, in principle, the banks will have to contribute only if the resources of the SRF are actually used in order to deal with resolutions of other institutions. In February 2024, the SRB announced that the financial means available in the SRF at 31 December 2023 represented Euro 78 billion and therefore reached the target level of at least 1% of covered deposits held in the Member States participating in the SRM. As such, no regular annual contributions are being collected in 2024 from the institutions in scope of the SRF, including the Issuer.

Under the BRRD, the target level of the National Resolution Funds was set at national level and calculated on the basis of deposits covered by deposit guarantee schemes. Under the SRM, the target level of the SRF is European and is the sum of the covered deposits of all institutions established in the participating Member States. This results in significant variations in the contributions by the banks under the SRM as compared to the BRRD. As a consequence of this difference, when contributions would have been paid based on a joint target level starting as of 2016, contributions of banks established in Member States with a high level of covered deposits could abruptly have decreased, while contributions of those banks established in Member States with fewer covered deposits could abruptly have increased. In order to prevent such abrupt changes, the Council Implementing Act (i.e. Council Implementing Regulation no. 2015/81) provides for an adjustment mechanism to remedy these distortions during the transitional period by way of a gradual phasing in of the SRM methodology.

Implementation of the BRRD in Italy

The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely Legislative Decrees No. 180/2015 and 181/2015 (together, the “**BRRD Decrees**”), both of which were published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16 November 2015. Legislative Decree No. 180/2015 is a stand-alone law which implements the provisions of BRRD relating to resolution actions, while Legislative Decree No. 181/2015 amends the existing Banking Act and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Decrees entered into force on the date of publication on the Italian Official Gazette (i.e. 16 November 2015), save that: (i) the general bail-in tool applies from 1 January 2016; and (ii) a “depositor preference” granted for deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs is effective from 1 January 2019.

It is important to note that, pursuant to article 49 of Legislative Decree No. 180/2015, resolution authorities may not exercise the write down/conversion powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments) that exceeds the value of the assets, pledge, lien or collateral against which it is secured. The BRRD specifically contemplates that *pari passu* ranking liabilities may be treated unequally. Further, although the BRRD provides a safeguard in respect of shareholders and creditors upon application of resolution tools, Article 75 of the BRRD sets out that such

protection is limited to the incurrence by shareholders or, as appropriate, creditors, of greater losses as a result of the application of the relevant tool than they would have incurred in a winding up under normal insolvency proceedings. It is therefore possible not only that the claims of other holders of junior or *pari passu* liabilities may have been excluded from the application of the general bail-in tool, but also that the safeguard referred to above does not apply to ensure equal (or better) treatment compared to the holders of such fully or partially excluded claims. This is due to the fact that the safeguard is not intended to address such possible unequal treatment but rather to ensure that shareholders or creditors do not incur greater losses in a bail-in (or other application of a resolution tool) than they would have received in a winding up under normal insolvency proceedings.

Certain categories of liability are subject to the mandatory exclusions from bail-in foreseen in Article 44(2)(g) of the BRRD. For instance, most forms of liability for taxes, social security contributions or to employees benefit from privilege under Italian law and as such are preferred to ordinary senior unsecured creditors in the context of liquidation proceedings. Article 108 of the BRRD requires that Member States modify their national insolvency regimes such that deposits of natural persons and micro, small and medium sized enterprises in excess of the coverage level contemplated by deposit guarantee schemes created pursuant to the BRRD have a ranking in normal insolvency proceedings which is higher than the ranking which applies to claims of ordinary, unsecured, non-preferred creditors. In addition, the BRRD does not prevent Member States, including Italy, from amending national insolvency regimes to provide other types of creditors, with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors. Legislative Decree No. 181/2015 has amended the creditor hierarchy in the case of admission of Italian banks and investment firms to resolution as well as compulsory liquidation procedures by providing that, as from 1 January 2019, all deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs will benefit from a preference in respect of senior unsecured liabilities, though with a ranking which is lower than that provided for individual/SME deposits exceeding the coverage limit of the deposit guarantee scheme. On 25 October 2017 the European Parliament, the Council and the European Commission agreed on elements of the review of the BRRD. As part of this process Article 108 of the BRRD was amended by Directive (EU) 2017/2399. Member States were required to adopt and publish relevant laws, regulations and administrative provisions necessary to comply with the amendment to the creditor hierarchy by 29 December 2018.

Legislative Decree No. 181/2015 has also introduced strict limitations on the exercise of the statutory rights of set-off normally available under Italian insolvency laws, in effect prohibiting set-off by any creditor in the absence of an express agreement to the contrary.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

Revisions to the BRRD framework

The Banking Reform Package included Directive (EU) 2019/879, which provides for a number of significant revisions to the BRRD (known as "**BRRD II**"). BRRD II provides that Member States are required to ensure implementation into local law by 28 December 2020 with certain requirements relating to the implementation of the standard on total loss absorbing capacity for systematically important banks ("**TLAC**") applying from

January 2022 while the transitional period for full compliance with MREL requirements is foreseen until 1 January 2024, with interim targets for a linear build-up of MREL set at 1 January 2022. The Banking Reform Package includes, amongst other things:

- (i) full implementation of the FSB's TLAC standard in the EU and revisions to the existing MREL regime. Additional changes to the MREL framework include changes to the calculation methodology for MREL, criteria for the eligible liabilities which can be considered as MREL, the introduction of internal MREL and additional reporting and disclosure requirements on institutions;
- (ii) introduction of a new category of "top-tier" banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed €100 billion;
- (iii) the introduction of a new moratorium power for resolution authorities and requirements on the contractual stays in resolution; and
- (iv) amendments to the article 55 regime in respect of the contractual recognition of bail-in.

Changes to the BRRD under BRRD II will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

On 1 December 2021, Legislative Decree no. 193 of 8 November 2021 ("**Decree No. 193**"), implementing the BRRD II into the Italian jurisdiction, entered into force, amending Legislative Decree no. 180/2015 (Decree no. 180) and the Italian Banking Act.

The provisions set forth in the Decree No. 193 includes, among other things:

(i) Changes to the MREL regulatory framework

The amendments introduced to Legislative Decree no. 180/2015 aligned the Italian regulatory framework regulating MREL, and the criteria according to which it is calculated, to the provisions set forth in BRRD II.

In particular, the amended version of Decree No. 180 clearly envisages that MREL shall be determined by the Bank of Italy on the basis of the following criteria:

- (a) the need to ensure that the application of the resolution tools to the resolution entity is adequate to meet the resolution's objectives;
- (b) the need to ensure that the resolution entity and its subsidiaries belonging to the same corporate group subject to resolution have sufficient own funds and eligible assets to ensure that, if the bail-in tool or write-down or conversion powers, respectively, were to be applied to them, losses could be absorbed and that it is possible to restore the total capital ratio and, as applicable, the leverage ratio to a level necessary to enable them to continue to comply with the conditions for authorisation, according to the regulatory framework currently in force, even if the resolution plan envisages the possibility for certain classes of eligible liabilities to be excluded from bail-in or to be transferred in full to a recipient under a partial transfer;
- (c) the size, the business model, the funding model and the risk profile of the entity; and

(d) the extent to which the failure of the entity would have an adverse effect on financial stability, due to the interconnectedness of the entity with other institutions or entities or with the rest of the financial system.

(ii) New ranking for subordinated instruments of banks which do not qualify as own fund

Article 91 of the Banking Law has been modified by Decree No. 193 to transpose into the Italian legislative framework the provisions envisaged by Article 48(7) of the BRRD II.

In particular, according to the amended version of Article 91, subordinated instruments which do not qualify (and no part thereof is recognized) as own funds items shall rank senior to own funds items (including any instruments only partly recognized as own funds items) and junior to senior non-preferred instruments. Moreover, if own funds items cease, in their entirety, to be classified as such, they will rank senior to own funds items but junior to senior non-preferred instruments.

The abovementioned provisions also apply to instruments issued before the entrance into force of Decree No. 193, such as 1 December 2021.

(iii) New minimum denomination requirement

Article 12-ter of the Italian Banking Act, introduced by Decree No. 193, provides for the determination of a minimum unit value for bonds and debt securities issued by banks or investment firms equal to Euro 200,000 for subordinated bonds and other subordinated securities or Euro 150,000 for Senior Non Preferred debt instruments (*“strumenti di debito chirografario di secondo livello”*).

Any contracts entered into with non-professional investors and relating to investment services having as their object the instruments referred to in Article 12-ter of the Italian Banking Act issued after 1 December 2021, that do not respect the minimum unit value, shall be declared as null and void (Article 25-quarter of the Financial Services Act, as amended by Decree No. 193).

Without prejudice to the restrictions outlined above on the sale to retail investors, the ban previously in force on the placement of Senior Non Preferred debt instruments with non-qualified investors has been repealed by Article 5 of Decree No. 193.

Also, certain provisions of the BRRD II remain subject to regulatory technical standards and implementing technical standards to be prepared by the European Banking Authority. In addition to the BRRD II, it is possible that the application of other relevant laws, the CRD V and the CRR II and any amendments thereto or other similar regulatory proposals, including proposals by the FSB on cross-border recognition of resolution actions, could be used in such a way as to result in the Securities absorbing losses in the manner described above. Any actions by the relevant resolution authority pursuant to the powers granted to it as a result of the transposition of the BRRD, as amended by the BRRD II, or other measures or proposals relating to the resolution of financial institutions, may adversely affect the rights of holders of the Securities, the price or value of an investment in the Securities and/or the Issuer's ability to satisfy its obligations under the Securities.

On 24 April 2024, Directive (EU) 2024/1174 of the European Parliament and of the Council of 11 April 2024, amending Directive 2014/59/EU and Regulation (EU) 2014/806 as regards certain aspects of the minimum

requirements for own funds and eligible liabilities was published in the European Official Journal (the **Daisy Chain Act**). Whilst the amendments to Article 12d of the SRM Regulation are directly applicable in the Member States from 14 November 2024, Member States shall adopt and publish the measures necessary to comply with the changes brought by the provisions laid down by the BRRD by 13 November 2024. The relevant implementing national acts and regulations shall apply from 14 November 2024.

Among the others, the new rules of the Daisy Chain Act aim to give the resolution authorities the power of setting internal MREL on a consolidated basis subject to certain conditions. Where the resolution authority allows a banking group to apply such consolidated treatment, the intermediate subsidiaries will not be obliged to deduct their individual holdings of internal MREL.

Moreover, the Daisy Chain Act would introduce a specific MREL treatment for “liquidation entities”. Those are defined as entities within a banking group earmarked for winding-up in accordance with insolvency laws, which would, therefore, not be subject to resolution action (conversion or write-down of MREL instruments). On this basis and as a rule, liquidation entities will not be obliged to comply with an MREL requirement, unless the resolution authority decides otherwise on a case-by-case basis for financial stability protection reasons. The own funds of these liquidation entities issued to the intermediate entities will not need to be deducted except when they represent a material share of the own funds and eligible liabilities of the intermediate entity.

In addition to the above, it is worth mentioning that on 19 June 2024 the Council announced the beginning of the negotiations with the European Parliament on the final shape of the legislative proposal on the Crisis Management and Deposits Insurance (“**CMDI Reform**”) framework. The package consists of four legislative proposals that would amend existing EU legislation: the BRRD, the Deposit Guarantee Scheme Directive (“**DGSD**”) and the SRMR. New aspects of the framework could include: i) expanding the scope of resolution through a revision of the public interest assessment to include a regional impact so more eurozone banks could be brought into the resolution framework, ii) the use of deposit guarantee schemes to help banks, especially the small ones, to meet a key threshold for bearing losses of 8% of their own funds and liabilities, which then allows them to have access to the Single Resolution Fund, also funded by bank contributions, and help sell the problem banks’ assets and fund their exit from the market, iii) amending the hierarchy of claims in insolvency and scrapping the “super-preference” of the DGS to put all deposits on equal pegging in an insolvency, but still above ordinary unsecured creditors with the aim of enabling the use of DGS funds in measures other than pay out of covered deposits without violating the least cost test.

Implementation of the BRRD in Luxembourg

The BRRD has been implemented in Luxembourg by the law of 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (*loi du 18 décembre 2015 relative aux mesures de résolution, d'assainissement et de liquidation des établissements de crédit et de certaines entreprises d'investissement ainsi qu'aux systèmes de garantie des dépôts et d'indemnisation des investisseurs, telle que modifiée*), as amended from time to time (the “**Luxembourg BRRD Law**”) which entered into force on 28 December 2015. The Luxembourg BRRD Law gives power to the CSSF in its capacity as a resolution authority to take certain early intervention measures and gives certain resolution tools and resolution powers to the CSSF as the Luxembourg resolution authority and acknowledges the power of the SRB as central resolution authority

within the banking union to implement resolution measures. The CSSF has, inter alia, the power to impose, in certain circumstances, a suspension of activities. Any suspension of activities can, to the extent determined by the CSSF, result in the partial or complete suspension of the performance of agreements entered into by Mediobanca International.

The Single Resolution Mechanism

On 19 August 2014, SRMR entered into force. The SRMR became operational on 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the SRB with national resolution authorities, which entered into force on 1 January 2015. The SRMR was subsequently updated with the Banking Reform Package in June 2019. The SRMR, which complements the SSM, applies to all banks supervised by the SSM. It will mainly consist of the SRB and the SRF.

Regulation (EU) No. 2019/877 of the European Parliament and of the Council of 20 May 2019 ("**SRM II Regulation**") amends the SRM Regulation as regards the loss-absorbing and recapitalization of credit institutions and investment firms.

The Single Resolution Mechanism framework ensures that, instead of national resolution authorities, there will be a single authority – i.e. the SRB – which takes all relevant decisions for the resolution of banks being supervised by the SSM and part of the Eurozone. In line with the changes to BRRD II described above, revisions to the provisions of the SRM Regulation (in relation to MREL) are due to change in due course.

In this context, as mentioned above, it is also worth mentioning that, as part of the CMDI Reform, amendments to the SRM, have been recently proposed by the European co-legislator. The main purpose of this legislative reform is to build on the objectives of the crisis management framework and to ensure a more consistent approach to resolution so that any bank in crisis can exit the market in an orderly manner, while preserving the financial stability, taxpayer money and ensuring deposit confidence.

Lastly, the SRMR was amended by the Daisy Chain Act. As better detailed in the SRB Communication on the Daisy Chain Act, published on 30 September 2024, according to Article 12d(2a) of the SRM Regulation, as amended by Article 2 of the Daisy Chain Act:

- i. the SRB shall not determine the MREL for liquidation entities unless it considers justified to determine said requirement in an amount exceeding the amount sufficient to absorb losses. As per the definition laid down by the SRM Regulation, "liquidation entity" shall be read as referencing to an entity in respect of which the group resolution plan or, for entity that is not part of a group, the resolution plan, provides that the entity is to be wound up under the normal insolvency proceedings, or an entity, within the resolution group other than a resolution entity, in respect of which the group resolution does not provide for the exercise of write-down and conversion powers; and
- ii. Article 77(2) and Article 78(a) of the CRR, setting forth the prior authorisation regime to reduce eligible liabilities instruments, shall not apply to liquidation entities for which the board of the SRB has not determined the MREL.

The above changes would apply from 14 November 2024. The SRB announced that – in line with the principles of good administration and legal certainty – in the course of 2024 resolution planning cycle, the previously adopted decisions setting the MREL at the level equal to the loss absorption amount will be repealed with effect as of 14 November 2024.

PLAN OF DISTRIBUTION

References in this Base Prospectus to "**Mandated Dealer(s)**" are to the entity listed in the paragraph headed "**Dealer**" in the section headed "Description of the Issuance Programme" above and to such additional entities which are appointed from time to time as dealers in respect of the whole Programme (and whose appointment has not been terminated). References to "**Dealers**" are to all entities appointed from time to time as a dealer solely in respect of one or more Tranches, which may include but is not limited to, any Mandated Dealer(s).

The Issuers may from time to time appoint one or more Dealer(s) in respect of the Programme or in relation to a single Tranche only during the term of the Securities. Any such new Dealer(s) shall accede to the Dealer Agreement by execution of a dealer accession letter substantially in the form set out in Schedule 4 (*Form of Dealer Accession Letter*) to the Programme Manual (the "**Dealer Accession Letter**") and will become a party to a dealer agreement dated 6 June 2025 between the Issuers, Guarantor and Mandated Dealer, as further amended or supplemented from time to time (the "**Dealer Agreement**") with all the authority, rights, powers, duties and obligations of a Dealer as if originally named as a Dealer thereunder.

Subject to the terms and conditions of the Dealer Agreement, the Securities will be offered on a continuous basis by each Issuer to the Mandated Dealers. However, in respect of single Tranches, the relevant Issuer has reserved the right to sell Securities directly on its own behalf to Dealers which are not Mandated Dealers.

The relevant Issuer may also offer and sell Securities directly to investors without the involvement of any Dealer.

The Securities may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Securities may also be sold by the relevant Issuer through the Dealers, acting as agents of such Issuer. The Dealer Agreement also provides for Securities to be issued in syndicated Tranches which are jointly and severally underwritten by two or more Dealers.

Pursuant to the terms and conditions of the Dealer Agreement, the relevant Issuer, failing which, where applicable, the Guarantor, has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Securities. The Dealer Agreement may be terminated in relation to all the Dealers or any of them by Mediobanca and Mediobanca International, acting together or, in relation to itself and Mediobanca and Mediobanca International only, by any Dealer, at any time on giving not less than ten Business Days' notice.

General

The selling restrictions described below may be supplemented or modified by the agreement of the relevant Issuer, the Guarantor (where applicable) and the Dealers following a change in a relevant law, regulation or directive. Any such supplement or modification will be set out in a supplement to this Base Prospectus.

No action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

The Dealer and each further Dealer appointed under the Programme has agreed that it will comply with all relevant laws, regulations and directives in force in each jurisdiction in which it purchases, offers, sells or

delivers Securities or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Securities under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the relevant Issuer, the Guarantor (where applicable), nor any other Dealer shall have responsibility therefor.

Prohibition of sales to EEA Retail Investors

If the Final Terms in respect of any Securities includes a leged entitled "Prohibition of Sales to EEA Retail Investors", the Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area (the "**EEA**"). For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"); and
- (b) the expression "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

If the Final Terms in respect of any Securities does not include a leged entitled "Prohibition of Sales to EEA Retail Investors", in relation to each Member State of the EEA (each, a "**Relevant Member State**"), the Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may make an offer of such Securities to the public in that Relevant Member State:

- (a) if the final terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State,

provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the relevant Issuer has consented in writing to its use for the purpose of the Non-exempt Offer;

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Securities referred to in paragraphs (a) to (d) above shall require any of the Issuers or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation, or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

It being understood that, any offer of Securities whose Final Terms does not include a legend entitled “Prohibition of Sales to EEA Retail Investors” could be subject to further selling restrictions to retail investors and consequently no key information document, under Regulation (EU) No 1286/2014 (as amended), may be available. Therefore, offering or selling the Securities, or otherwise making them available to any retail investor in the EEA may be unlawful.

For the purposes of this provision, the expression an “**offer of Securities to the public**” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, and the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129, as amended from time to time.

The Securities do not constitute a participation in a collective investment scheme within the meaning of the Swiss Collective Investment Schemes Act (“CISA”) and are not subject to the authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA. Therefore, investors in the Securities are not eligible for the specific investor protection under the CISA. The Securities are neither issued nor guaranteed by a Swiss financial intermediary. Investors are exposed to the credit risk of the Issuers, respectively of the Guarantor.

The Base Prospectus will be filed with SIX Exchange Regulation AG pursuant to Article 54 para. 2 of the Swiss Financial Services Act (“FinSA”), and may be obtained in electronic or printed form, free of charge on the websites of the Issuers (www.mediobanca.com) and copies may be obtained free of charge from the Issuers upon request at their registered addresses.

In the case of offerings of Securities that constitute debt instruments with a “derivative character” (as such expression is understood under the FinSA and its implementing ordinance) that will be made to private (retail) clients in Switzerland, a key information document prepared in accordance with the PRIIPs Regulation or FinSA will be made available.

Japan

The Securities have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; (the “FIEA”). Accordingly, each Dealer has represented, warranted and agreed (and each further Dealer appointed under the Programme will be required to represent, warrant and agree) that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and other applicable laws, regulations and ministerial guidelines of Japan

- (vi) *Anti-money laundering, bribery and corruption*: complies with, and takes appropriate steps in relation to, applicable anti-money laundering, anti-bribery, prevention of corruption and "know your client" Rules, and does not permit any application for Securities in circumstances where the financial intermediary has any suspicions as to the source of the purchase monies;
- (vii) *Record-keeping*: retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to the Issuer, the Guarantor and the relevant Dealer or directly to the appropriate authorities with jurisdiction over the Issuer, the Guarantor and/or

the relevant Dealer in order to enable the Issuer, the Guarantor and/or the relevant Dealer to comply with anti-money laundering, anti-bribery and "know your client" Rules applying to the Issuer, the Guarantor and/or the relevant Dealer;

- (xii) *Legal or publicity names*: does not use the legal or publicity names of the relevant Dealer, the Issuer or any other name, brand or logo registered by any entity within their respective groups or any material over which any such entity retains a proprietary interest or in any statements (oral or written), marketing material or documentation in relation to the Securities;
- (xiii) *Any other conditions*: agrees to any other conditions set out in paragraph 12 of Part B of the relevant Final Terms.

3. Governing Law and Jurisdiction

The relevant financial intermediary agrees that:

- (a) the contract between the Issuer, the Guarantor and the financial intermediary formed upon acceptance by the financial intermediary of the offer of the Issuer and the Guarantor to use this Base Prospectus with their consent in connection with the relevant Public Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;
- (b) the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Authorised Offeror Contract (including a dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) and accordingly the relevant financial intermediary submits to the exclusive jurisdiction of the English courts;
- (c) each relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit but, subject to this, a person who is not a party to the Authorised Offeror Contract has no right to enforce any term of the Authorised Offeror Contract; and
- (d) the parties to the Authorised Offeror Contract do not require the consent of any person not a party to the Authorised Offeror Contract to rescind or vary the Authorised Offeror Contract at any time.

FORM OF FINAL TERMS

The Final Terms in respect of each Tranche of Securities will be in the following form completed to reflect the particular terms of the relevant Securities and their issue. Text in this section appearing in italics does not form part of the form of the Final Terms but denotes directions for completing the Final Terms.

[PRIIPs Regulation / Prospectus Regulation / PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

These Final Terms will also be deposited with SIX Exchange Regulation Ltd.

In case of offerings of Securities that constitute debt instruments with a "derivative character" (as such expression is understood under the FinSA and its implementing ordinance) that will be made to private (retail) clients in Switzerland, a key information document prepared in accordance with the PRIIPs Regulation or FinSA will be made available.]

PART D – SUMMARY OF THE SPECIFIC ISSUE

[Insert Summary of the specific issue]

TAXATION

The following is a general summary of certain Italian, Luxembourg, Irish, French, Swiss, UK and certain other tax consequences of the purchase, the ownership and the disposal of the Securities. It does not purport to be a comprehensive description of all the tax aspects which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors and of Securities, some of which (such as dealers in securities or commodities and certain non-Italian resident Securityholders purchasing Securities convertible or exchangeable into shares) may be subject to special rules.

Prospective investors are advised to consult in any case their own tax advisers concerning the overall tax consequences of their purchase, ownership and disposal of the Securities. Only these advisers are in a position to duly consider the specific situation of the prospective investor.

This summary assumes that Mediobanca is resident for tax purposes in the Republic of Italy and that Mediobanca International and MBFL are resident for tax purposes in Luxembourg respectively and are structured and conduct their business in the manner outlined in this Prospectus. Changes in Mediobanca and/or Mediobanca International's and/or MBFL's organisational structure, tax residence or the manner in which each of them conducts its business may invalidate this summary. This summary also assumes that each transaction with respect to the Securities is at arm's length.

Where in this summary English terms and expressions are used to refer to Italian, Luxembourg, Irish, French, Swiss or other non-UK concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Italian, Luxembourg, Irish, French, Swiss or other non-UK concepts under the relevant Italian, Luxembourg, Irish, French, Swiss or other non-UK tax laws.

This summary is based upon the laws and/or practice in force as at the date of this Prospectus, which are subject to any changes in law and/or practice occurring after such date, which could be made on a retroactive basis.

None of Mediobanca, Mediobanca International or MBFL will update this summary to reflect changes in law and/or practice. If any such change should occur, the information in this summary could become obsolete.

(A) Italian tax regime of the Securities issued by Mediobanca

The Securities may be subject to different tax regimes depending on whether:

- (a) they represent derivative financial instruments or bundles of derivative financial instruments, through which the Securityholders purchase indirectly underlying financial instruments; or
- (b) they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity.

Securities representing derivative financial instruments or bundles of derivative financial instruments

Tax on income and capital gains

Italian resident investors

Payments in respect of Securities qualifying as securitised derivative financial instruments as well as capital gains of the Securities received by Securityholders which are (a) Italian resident companies or similar entities (including Italian permanent establishments of non-Italian residents to which the Securities are effectively connected), (b) Italian resident partnerships carrying out commercial activities or similar commercial entities (c) Italian resident individuals engaged in entrepreneurial activities to which the Securities are effectively connected, are included in the relevant holder's taxable income and are therefore subject to the Italian corporate income tax regime (corporate income tax, IRES, is currently levied at the rate of 24 per cent. - 27.5 per cent. rate in case the Securityholder is a credit or a financial institution other than a management company of an undertaking for collective investment or "*società di intermediazione mobiliare*" ("**SIM**")), or to personal income tax regime (personal income tax, IRPEF, is currently levied at progressive rates between 23% up to 43% plus regional and municipal surtaxes), as the case may be, according to the ordinary rules. In certain cases, depending on the *status* of the Securityholder, such proceeds may also have to be included in its taxable base for regional income tax on business activities (IRAP, currently levied at the general rate of 3.9 per cent., increased to 4.65 per cent. and 5.90 per cent. in case, respectively, of banks and other financial institutions and insurance companies. IRAP rate may be varied up to 0.92 per cent. by certain Italian regions);

According to Article 5 of Legislative Decree No. 461 of 21 November 1997 ("**Decree 461**"), payments in respect of Securities as well as capital gains realised by (a) Italian resident individual not engaged in entrepreneurial activities to which the Securities are effectively connected, (b) an Italian partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a *de facto* partnership not carrying out commercial activities or professional associations or (c) an Italian private or public institution not carrying out mainly or exclusively commercial activities, upon the sale for consideration or redemption of the Securities are subject to a substitute tax (*imposta sostitutiva*) currently at rate of 26 per cent.. In respect of the application of the substitute tax, said Securityholders listed above may opt for one of the three regimes described below:

- (a) Under the tax declaration regime ("**Tax Declaration Regime**"), which is the standard regime for the taxation of capital gains, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all payments in respect of Securities and all capital gains, net of any incurred capital loss of the same nature, realised pursuant to all sales or redemptions of the Securities carried out during any given tax year. The overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, must be reported in the annual tax return and *imposta sostitutiva* must be paid on such gains together with any balance income tax due for the relevant year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years.
- (b) As an alternative to the Tax Declaration Regime, the Securityholders may elect to pay the *imposta sostitutiva* separately on payments received in respect of Securities and capital gains realised on each sale or redemption of the Securities under the so called "*regime del risparmio amministrato*" provided for by Article 6 of Decree 461 (the "**Administrative Savings Regime**"). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the Administrative Savings Regime being timely made in writing by the

relevant Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities, as well as on capital gains realized as at revocation of its mandate, net of any relevant incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Where a sale or redemption of the Securities results in a capital loss, such loss may be offset against with capital gains of the same nature subsequently realised, within the same relationship of deposit, in the same tax year or in the following tax years up to the fourth. Under the Administrative Savings Regime, the Securityholder is not required to declare the capital gains in the annual tax return.

- (c) Where the Securities are part of a portfolio managed under the so called "*regime del risparmio gestito*" provided for by Article 7 of Decree 461 (the "**Asset Management Regime**") by an Italian asset management company or an authorized financial intermediary, any payments received as well as capital gains realised upon sale, transfer or redemption of the Securities will not be subject to the substitute tax on capital gains but will contribute the determination of the annual accrued appreciation of the managed portfolio, subject to 26 per cent. annual substitutive tax, to be paid by the managing authorised intermediary. Any depreciation of the managed portfolio at year end may be carried forward against appreciation accrued in each of the following years up to the fourth. The Securityholder is not required to declare the capital gains realised in the relevant annual tax return if under the Asset Management Regime.

Any capital gains on Securities (as well as increase or decrease of their relevant fair market value) held by Italian resident open-ended or closed-ended collective investment funds, SICAVs or SICAFs not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014 (the "**UCIs**") contribute to determine the increase in value of the managed assets of the UCIs accrued at the end of each tax year. UCIs will not be subject to taxation on such increase, but a withholding tax of 26% will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted with amendments by Law No. 410 of 23 November 2001, where a Securityholder is an Italian resident real estate investment fund established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 or an Italian SICAF, to which the provisions of Legislative Decree No. 44 of 4 March 2014 applies (the "**Real Estate UCIs**"), capital gains realised will be subject neither to substitute tax nor to any other income tax in the hands of the Real Estate UCI. The income of the Real Estate UCI, depending on the status and percentage of participation by the unitholders/shareholders, is (i) directly subject to tax in their hands or (ii) subject to a withholding tax at the rate of 26 per cent. upon distribution or redemption or disposal of the units/shares.

Any capital gains on Securities held by a Securityholders who is an Italian pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. *ad hoc* annual substitute tax.

Non-Italian resident investors

Capital gains realised by non-Italian-resident Securityholders without a permanent establishment in Italy to which the Securities are effectively connected from the sale or redemption of Securities traded on regulated markets in Italy or abroad are not subject to the substitute tax, regardless of whether the Securities are held in Italy. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Securityholders who hold the Securities with an Italian authorised financial intermediary and elect to be subject to the Asset Management Regime or are subject to the Administrative Savings Regime, may be required to produce in due time to the Italian authorised financial intermediary an appropriate self-declaration (*autocertificazione*) that they are not resident in Italy for tax purposes.

Capital gains realised by non-Italian resident Securityholders without a permanent establishment in Italy to which the Securities are effectively connected from the sale or redemption of Securities not traded on regulated markets issued by an Italian or non-Italian resident issuer may in certain circumstances be taxable in Italy, if the Securities are held in Italy.

However, where the Securities are not traded on a regulated market in Italy or abroad, pursuant to the provisions of Decree No. 461, non-Italian resident beneficial owners of the Securities with no permanent establishment in Italy to which the Securities are effectively connected are exempt from the substitute tax in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Securities if they are resident for tax purposes in a state or territory included in the "**White List**" (i.e. Decree of the Minister of Finance dated 4 September, 1996, as amended and supplemented from time to time and to be updated every six months period according to Article 11, par. 4, let. c) of Legislative Decree No. 239 of 1 April 1996. Last amendment made on 23 March 2017). The same exemption applies where the beneficial owners of the Securities are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in countries included in the White List, even if they do not have the status of taxpayers in their own country of residence; or (iii) Central Banks or entities which manage, inter alia, the official reserves of a foreign State. Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Securities are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they provide in time with the authorised financial intermediary an appropriate self-declaration (*autocertificazione*) stating that they meet the requirement indicated above. Additional statements may be required for non-Italian resident Securityholders who are institutional investors.

Non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities are connected that may benefit from a double taxation treaty with the Republic of Italy providing that capital gains realised upon the sale or redemption of Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to the substitute tax in the Republic of Italy on any capital gains realised upon the sale or redemption of Securities. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Securityholders who hold the Securities with an Italian authorised financial intermediary and elect to be subject to the Asset Management Regime or are subject to the Administrative Savings Regime, may be required to produce in due time to the Italian authorised financial intermediary

appropriate documents which include, *inter alia*, a statement from the competent tax authorities of the country of residence.

Please note that for a non-Italian resident, the Administrative Savings Regime shall automatically apply, unless it is expressly waived this regime, where the Securities are deposited in custody or administration with an Italian resident authorised financial intermediary or permanent establishment in the Republic of Italy of a foreign intermediary.

Securities representing debt instruments implying a "use of capital" not having 100 per cent. capital protection guaranteed by the Issuer

Payments relating to Securities issued by Mediobanca that are not deemed to fall within the category of (a) bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) or of (b) shares or securities similar to shares (*azioni or titoli similari alle azioni*), may qualify as atypical securities (*titoli atipici*) for Italian tax purposes, and are subject to a withholding tax, levied at the rate of 26 per cent., pursuant to Art. 5 of Law Decree No. 512 of 30 September 1983. For this purpose, pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986, securities similar to bonds are securities that (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management.

Where the Securityholder is (i) an Italian resident individual engaged in an entrepreneurial activity to which the Securities are connected, (ii) an Italian resident company or a similar Italian resident commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Securities are effectively connected, (iv) an Italian resident commercial partnership or (v) an Italian resident commercial private or public institution, the 26 per cent. withholding tax applies as provisional withholding tax. In all other cases, including when the Securityholder is a non-Italian resident, the withholding tax is a final withholding tax.

Double taxation treaties entered into by Italy may apply allowing for a lower (generally 10 per cent. or, in certain cases, nil) rate of withholding tax in case of payments to non-Italian resident Securityholders, subject to proper compliance with relevant subjective and procedural requirements.

Any gain obtained from the sale or the exercise of the Securities would be subject to the same tax regime as described under "Securities representing derivative financial instruments or bundles of derivative financial instruments", above.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Securities (which qualify as "atypical" securities as defined above), if such Securities are included (i) in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant to Article 1, paragraph 100 -114 of Law No. 232 of 11 December 2016 ("Law No. 232") as subsequently amended and restated from time to time and for long-term individual savings account established from 1 January 2020 by Article 13-*bis* of Law Decree No. 124 of 26 October 2019, converted by Law No. 157 of 19 December 2019, as applicable from time to time ("Decree

No. 124”), as subsequently amended and restated from time to time.

(B) Tax regimes applicable to Securities issued by Mediobanca International and MBFL

The following information is of a general nature only and is based on the laws presently in force in Luxembourg and Italy as indicated, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities issued by Mediobanca International or MBFL should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law and Italian tax law, to which they may be subject.

Please be aware that the residence concept used under section 1 below applies for Luxembourg income tax assessment purposes only. Any reference in this Part (B) to a tax, duty, levy, impost or other charge or withholding tax or a tax of a similar nature refers to Luxembourg tax law and/or concepts only in respect of Section 1 and Italian tax law and/or concepts in respect of Section 2. Also, please note that a reference to Luxembourg income tax encompasses Luxembourg corporate income tax (impôt sur le revenu des collectivités), municipal business tax (impôt commercial communal), employment fund's contribution (contribution au fonds pour l'emploi), as well as personal income tax (impôt sur le revenu) generally. Investors may further be subject to Luxembourg net wealth tax (impôt sur la fortune) as well as other duties, levies or taxes. Luxembourg corporate income tax, net wealth tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident in Luxembourg for tax purposes. Individual taxpayers resident in Luxembourg are generally subject to Luxembourg personal income tax and the employment fund's contribution. Under certain circumstances, where an individual Luxembourg taxpayer acts in the course of the management of a professional or business undertaking, Luxembourg municipal business tax may apply as well.

1. Tax treatment of the Securities in Luxembourg

Luxembourg tax residency of the holders of the Securities

A holder of the Securities will not become resident, or be deemed to be resident, in Luxembourg by reason only of the holding of the Securities, or the execution, performance, delivery and/or enforcement of the Securities.

Withholding tax

All payments of arm's length and non-profit participating interest and principal by the relevant Luxembourg Issuer in the context of the holding, disposal, redemption or repurchase of the Securities can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to the application of the Luxembourg law of 23 December 2005 introducing a final withholding tax on certain interest deriving from savings income, as amended (the "**Relibi Law**").

Under the Relibi Law, payments of interest or similar income under the Securities by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg and acting in the course of its private wealth will be subject to a withholding tax at the rate of 20% (the "**20% Withholding Tax**"), which is the responsibility of the Luxembourg paying agent to apply.

Luxembourg resident individual holders of Securities acting in the course of their private wealth can opt to self-declare and pay a self-assessed 20% tax levy on receipt of interest payments made by non-Luxembourg paying agents located in an EU Member State other than Luxembourg, or a State of the European Economic Area (the "**Self-Assessed 20% Tax Levy**"). If such an option is exercised by an individual holder for a fiscal year, that option is irrevocable for that individual holder for that fiscal year, and makes that individual responsible for applying and paying the Self-Assessed 20% Tax Levy in respect of interest they receive on Securities. For the above purposes, the "paying agent" under the Relibi Law is the economic operator or a professional of the financial sector that pays interest or allocates the payment of the interest in the course of its normal economic activity to the immediate benefit of the beneficial owner – i.e. the last person in the payment chain before the Luxembourg resident individual.

Income taxation of the holders of the Securities

Taxation of Luxembourg non-residents

Under the existing laws of Luxembourg, the exercise or sale of Securities by a non-resident Holder does not give rise to taxable income in Luxembourg, unless such Securities were held as business assets by such non-resident through a permanent establishment or through a permanent representative in Luxembourg. A non-resident corporate holder of the Securities or an individual holder of the Securities acting in the course of the management of a professional or business undertaking, that has a permanent establishment or permanent representative in Luxembourg to which or to whom such Securities are attributable, is subject to Luxembourg income tax on interest accrued or received and on any gains realised upon the sale or disposal, in any form whatsoever, of the Securities.

Taxation of Luxembourg residents

Holders of Securities who are residents of Luxembourg will not be liable to any Luxembourg income tax on repayment of principal.

(a) Individual holders of Securities

Individual holders of Securities who are residents in Luxembourg, receiving interest in the course of the management of his or her private wealth, are subject to Luxembourg income tax at progressive rates in respect of interest received, under the Securities, except if (i) 20 % Withholding Tax has been levied on such payments in accordance with the Relibi Law, or (ii) the individual holder of the Securities has opted for the application of a Self-Assessed 20 % Tax Levy in full discharge of income tax in accordance with the Relibi Law.

Such individuals are not subject to taxation on capital gains upon the disposal of the Securities, unless the disposal of the Securities (whether by sale, redemption or exchange) precedes the acquisition of the Securities or the Securities are disposed of within six months of the date of acquisition of these Securities. Upon the sale, of the Securities, individual Luxembourg resident holders of the Securities must however include the portion of the redemption price corresponding to accrued but unpaid interest in their taxable income except if tax has been levied on such interest in accordance with the Relibi Law.

If an individual holder of Securities acting in the course of management of a professional or business

undertaking he/she is the subject to Luxembourg tax as described below in the section “*Corporate holders of Securities*”.

(b) Corporate holders of Securities

A corporate holder of Securities must include any interest accrued or received or any gain realised on the sale or disposal (i.e. the difference between the disposal price and the fiscal value of the Securities disposed of) in any form whatsoever, of the Securities, in its taxable income for Luxembourg income tax assessment purposes.

Luxembourg resident companies holders of the Securities which are companies benefiting from a special tax regime, such as (i) family wealth management companies subject to the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) undertakings for collective investment subject to the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended; (iii) specialised investment funds subject to the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; or (iv) companies regulated by the Luxembourg law of 23 July 2016 on reserved alternative investment funds as amended, not investing in risk capital, are exempt from income tax in Luxembourg and thus, income derived from the Securities, as well as gains realised on the sale or disposal, in any form whatsoever, exempt from such tax (the “**Luxembourg Special Tax Regime Treatment**”).

Net wealth tax

In respect of individuals, the Luxembourg law of 23 December 2005 abrogating the net wealth tax for individuals and adopting other measures, as amended, has abolished the net wealth tax with effect from 1 January 2006. Luxembourg net wealth tax will not be levied on a corporate holder of Securities unless: (i) such holder is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions; or (ii) such Security is attributable to an enterprise or part thereof which is carried on through a permanent establishment or a permanent representative in Luxembourg.

A resident corporate holder of Securities or non-resident corporate holder of Securities that maintains a permanent establishment, permanent representative or a fixed place of business in Luxembourg to which such Securities are attributable, is subject to Luxembourg net wealth tax on such Securities, except if such holder is governed by (i) the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended; (iii) the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; (iv) the Luxembourg law of 22 March 2004 on securitisation, as amended; (v) the Luxembourg law of 15 June 2004 on venture capital vehicles, as amended; (vi) professional pension institutions in the form of variable capital companies (sociétés d'épargne-pension à capital variable - SEPCAVs) or associations (associations d'épargne-pension - ASSEPs) governed by Luxembourg the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; or (vii) it is a company that is subject to the Luxembourg law of 23 July 2016 on reserved alternative investment funds as amended.

However, further to the Luxembourg law of 18 December 2015 on net wealth tax aspects, as amended certain companies such as (i) securitisation companies governed by the Luxembourg law of 22 March 2004 on

securitisation, as amended; (ii) risk capital companies governed by the Luxembourg law of 15 June 2004 relating to the investment company in risk capital, as amended; (iii) professional pension institutions in the form of variable capital companies (*sociétés d'épargne-pension à capital variable* - SEPCAVs) or associations (*associations d'épargne-pension* - ASSEPs) governed by Luxembourg the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; and (iv) reserved alternative investment funds under the form of corporations which invest in risk capital, subject to the Luxembourg law of 23 July 2016 on reserved alternative investment funds as amended, should fall within the scope of the minimum net wealth tax, which may vary depending on the total amount and type of assets held. As from financial year 2025, such minimum net wealth tax may either range between EUR 535 and EUR 4,815 (the "**Luxembourg Minimum Net Wealth Tax**").

Other taxes

1. Registration duties

It is not compulsory that the Securities be subject to any other formality in Luxembourg with any notary, court or other authority in Luxembourg, in order to ensure the legality, validity, enforceability or admissibility as evidence of any of the Securities in Luxembourg, or that any registration tax, transfer tax, capital tax, stamp duty or any other similar tax or duty will be payable in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgment in the courts of Luxembourg) of the Securities, unless the Securities are registered (or lodged with a notary's records), either voluntarily or by order of a Luxembourg court or official authority, or if they are attached (*annexés*) to any document subject to mandatory registration in Luxembourg (such as a public deed).

2. VAT

There should not be any Luxembourg value added tax payable in respect of payments in consideration for the issuance of the Securities or in respect of the payment of interest or principal under the Securities or the transfer of Securities, provided that Luxembourg value added tax may, however, be payable in respect of fees charged for certain services rendered to the relevant Issuer, if for Luxembourg value added tax purposes such services are rendered, or are deemed to be rendered, in Luxembourg and an exemption from Luxembourg value added tax does not apply with respect to such services.

3. Inheritance and gift tax

No Luxembourg inheritance tax is levied on the transfer of Securities upon the death of a Securities holder in cases where the deceased was not a resident of Luxembourg at the time of his death for inheritance tax purposes.

Luxembourg gift tax will be levied in the event that the gift is made pursuant to a notarial deed signed before a Luxembourg notary or is otherwise registered in Luxembourg.

2. Tax treatment of the Securities in Italy for Italian resident investors

Any gain obtained from the sale or the exercise of the Securities would be subject to the same tax regime as described under (A) "Italian tax regime of the Securities issued by Mediobanca", above.

Where an Italian resident Securityholder is an individual who was not tax resident of Italy for at least 9 of the past 10 years, but he/she transferred the tax residence to Italy and opted for the application of a the EUR 100,000 substitute tax on his/her annual foreign-sourced income pursuant to Article 24-*bis* of Presidential Decree No. 917 of 22 December 1986, as introduced by the Law No. 232 of 11 December 2016, the payment of such substitute tax will be substitutive of any income tax due on the foreign-sourced income, including capital gains on the sale or redemption of Securities held out of the Italian territory.

In case Securities representing debt instruments implying a "use of capital" do not guarantee the total reimbursement of the principal, under Italian tax law they should qualify as "atypical securities" pursuant to Law Decree No. 512 of 30 September 1983, payments in respect of such Securities received by Italian resident individual Securityholders would be subject to the following regime:

- (a) if the Securities are placed (*collocati*) in Italy, payments made to individual investors holding the Securities not in connection with an entrepreneurial activity will be subject to a 26 per cent. final withholding tax. This withholding tax is levied by the entrusted Italian resident bank or financial intermediary, if any, that is involved in the collection of payments on the Securities, in the repurchase or in the transfer of the Securities;
- (b) if the Securities are not placed (*collocati*) in Italy or in any case where payments on the Securities are not received through an entrusted Italian resident bank or financial intermediary (that is involved in the collection of payments on the Securities, in the repurchase or in the transfer thereof) and no withholding tax is levied, the individual beneficial owners will be required to declare the payments in their income tax return and subject them to a final substitute tax at a rate of 26 per cent.. The Italian individual Securityholder may elect instead to pay ordinary IRPEF at the progressive rates applicable to them in respect of the payments; if so, the Italian individual Securityholder should generally benefit from a tax credit for withholding taxes applied outside Italy, if any.

The 26 per cent. withholding tax does not apply to payments made to an Italian resident Securityholder which is (i) an Italian resident commercial partnership, (ii) an Italian resident company or a similar Italian resident commercial entity (including the Italian permanent establishment of foreign entities to which the Program Securities are effectively connected) and (iii) a commercial private or public institution. In particular, in such cases, payments must be included in the relevant Securityholder's annual income tax return to be therefore subject to ordinary Italian business income taxation (and, in certain circumstances, depending on the status of the Securityholder, also to IRAP) and the beneficial owners should be generally entitled to a tax credit for any withholding tax applied outside Italy.

(C) Irish Taxation of the Securities issued by Mediobanca, Mediobanca International and MBFL

The following is a summary of the Irish withholding tax treatment of the Securities. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities.

The summary is based upon the laws of Ireland and the published practices of the Revenue Commissioners of

Ireland as in effect on the date of this Base Prospectus. Prospective investors in the Securities should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Securities including, in particular, the effect of any state or local law taxes, if applicable.

Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

- Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
- Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax;

Such withholding tax arises at the standard rate of income tax (currently 20 per cent) to payments of Irish source yearly interest and Irish source annual payments, and at a prescribed rate of 25 per cent to distributions.

On the basis that the relevant Issuer is not resident in Ireland for the purposes of Irish tax, nor does the relevant Issuer operate in Ireland through a branch or agency with which the issue of the Securities is connected, nor are the Securities held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Securities, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the relevant Issuer or any paying agent acting on behalf of the relevant Issuer (save as described at Irish Encashment Tax below) should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, for as long as the Securities are quoted on a stock exchange, an investor should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

Irish Encashment Tax

Payments on any Securities paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Securities will be subject to Irish withholding tax at a prescribed rate of 25 per cent. This is unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland. In addition, an exemption applies where the payment is made to a company where that company is beneficially entitled to that income and is or will be within the charge to corporation tax in respect of that income.

4. Payments made by the Guarantor under the Guarantee

There is no express position of the Italian tax authorities on the tax treatment applicable on payments performed by a guarantor in lieu of the Issuer.

In principle, whilst payments made by the Italian Guarantor to the holders of Securities in order to refund the amount invested in the Securities should not give rise to any tax liability since they do not qualify as payments of income, payments made by the Italian Guarantor to the holders of Securities in relation to interest and other proceeds due on the Securities by the issuer, may give rise to Italian tax liability.

According to a certain interpretation of Italian tax law, payments of interest performed by the Guarantor would have the same legal nature of that originally payable by the issuer and thus could be treated, in certain circumstances, as a payment made by the issuer and thus be subject to the tax regime described in the previous paragraph (A) in case of an Italian issuer. Conversely, according to a different interpretation of the law the payments performed by the Guarantor change the nature of the amounts due since the Guarantor pays the relevant amount in relation to a different and new legal title and thus the relevant tax treatment of the payments shall be examined based on such new legal title and on the nature and residence of the recipient.

(D) General Provisions applicable in Italy to both Mediobanca, Mediobanca International and MBFL Issues

Tax monitoring

Pursuant to Italian Law Decree No. 167 of 28 June 1990, converted with amendments by Law No. 227 of 4 August 1990, as amended from time to time, Italian resident individuals, non-commercial entities, non-commercial partnerships and similar entities, who are the beneficial owners of investments abroad or of foreign

financial assets (including Securities held abroad and/or Securities issued by a non-Italian resident issuer), must, in certain circumstances, report the aforesaid to the Italian Tax Authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time prescribed for the income tax return).

The above reporting requirement does not apply with respect to (i) foreign investments (including the Securities) deposited for management with Italian financial intermediaries or relevant contracts entered into through their intervention, upon condition that any related income has been subject to tax by such financial intermediaries, or (ii) if the foreign investments are exclusively composed of deposits and/or bank accounts and their aggregate value does not exceed EUR 15,000 throughout the year.

Inheritance and gift taxes

Transfers of any valuable asset (including the Securities) as a result of death or donation (or other transfer for no consideration) of Italian residents and of non-Italian residents, but in such latter case limited to assets held within the Italian territory (which, for presumption of law, includes Securities issued by Italian resident issuers), are generally taxed in Italy as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding EUR 1,000,000.00 for each beneficiary;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift;
- (iii) transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding EUR 100,000.00 for each beneficiary; and
- (iv) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the beneficiary has a serious disability recognised by law, inheritance and gift taxes apply on its portion of the net asset value exceeding EUR 1,500,000.00.

Moreover, an anti-avoidance rule is provided for by Article 16 of Law No. 383 of 18 October 2001 in the case of a gift of assets, such as the Securities, whose sale for consideration would give rise to capital gains to be subject to the *imposta sostitutiva* provided for by Decree 461, as subsequently amended. In particular, if the donee sells the Securities for consideration within five years from their receipt as a gift, the latter is required to pay the relevant *imposta sostitutiva* as if the gift had never taken place.

The *mortis causa* transfer of financial instruments included in a long-term savings account (*piano individuale di risparmio a lungo termine*), that meets the requirements set forth by Article 1, paragraphs 100 - 114 of Law 232 and Article 1, paragraphs 211 – 215 of Law 145, as implemented by the Ministerial Decree 30 April 2019, and in a long-term individual savings account established from 1 January 2021, by Article 13-bis of Decree 124, as

subsequently amended and restated by Article 136 of Decree 34 and by Article 68 of Decree 104, are exempt from inheritance taxes.

Transfer tax

Contracts relating to the transfer of Securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of EUR 200; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 13 par. 2^{ter} of the Tariff Part I attached to Presidential Decree No. 642 of 26 October 1972, as subsequently amended, a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by a financial intermediary to its clients in respect of any financial product and instrument, including the Securities, which may be deposited with such financial intermediary in Italy. The stamp duty applies at a rate of 0.2 per cent. and it cannot exceed EUR 14,000 for taxpayers which are not individuals. This stamp duty is determined on the basis of the market value or, if no market value figure is available, on the basis of face value or redemption value, or in the case the face or redemption values cannot be determined, on the basis of purchase value of the financial assets (including banking bonds, *obbligazioni* and capital adequacy financial instruments) held.

It may be understood that the stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the Securities are held with an Italian-based financial intermediary.

The statement is deemed to be sent at least once a year, including with respect to the instruments for which is not mandatory nor the deposit nor the release nor the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable based on the period accounted.

Pursuant to the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises a banking, financial or insurance activity in any form within the Italian territory.

As clarified by resolution No. 20 of 4 February 2025 of the Italian tax authority, stamp duty applies both to Italian resident securityholders and to non-Italian resident securityholders, to the extent that the securities are held with an Italian based financial intermediary. Conversely, if the securities are held directly by the securityholders outside Italy, stamp duty does not apply, and instead, wealth tax is applicable exclusively to Italian resident securityholders (see “Wealth Tax on securities deposited abroad” below).

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Law Decree No. 201 of 6 December 2011 converted with amendments by Law No. 214 of 22 December 2011, as subsequently amended, Italian resident individuals, non-business entities and partnerships (and similar entities) which are resident in Italy and hold financial instruments, including the

Securities, outside the Italian territory are required to declare them in their own annual tax return and pay a wealth tax at the current rate of 0.20 per cent. for each year. Starting from fiscal year 2024, the wealth tax applies at the rate of 0.4 per cent for financial assets held in countries or territories listed in the Ministerial Decree dated 4 May 1999.

This tax is calculated on an annual basis on the market value of the Securities at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due). The maximum wealth tax amount due is set at EUR 14,000 per year for taxpayers other than individuals. The financial assets held abroad are excluded from the scope of the wealth tax, if such financial assets are administered by Italian financial intermediaries pursuant to an administration agreement.

Italian Financial Transaction Tax

Where the Issuer decides to redeem the Securities at their maturity by delivering shares to the investor, an Italian Financial Transaction Tax ("**FTT**") may apply. In particular, Article 1(491) of Law No. 228 of 24 December 2012 (the "**Stability Law for 2013**") introduced a stamp duty-like FTT of 0.2 per cent. on the transfer of shares and other equity-like instruments issued by Italian resident entities (for this purpose, residence must be determined on the basis of the location of the entity's registered office). This also encompasses any financial instruments that have such shares or equity-like instruments as their underlying assets, irrespective of the issuer's residence. The FTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The FTT rate is reduced by half to 0.1 per cent. if the transfer takes place on a regulated market or multilateral trading system. The FTT is determined with reference to the net daily balance of purchase and sale transactions performed by the same person in the same financial instrument. In particular, the taxable base is determined by multiplying: (i) the number of securities corresponding to the sum of the net daily balance of purchase and sale transactions for each financial instrument for which there are net purchases (as opposed to net sales); and (ii) the weighted average price of the purchases of such financial instruments carried out on the relevant day.

Article 1(492) of the Stability Law for 2013 introduces a fixed levy FTT that applies to all transactions involving equity derivatives which have Italian shares, Italian equity-like instruments or Italian equity-related instruments as their underlying assets. An equity derivative is subject to the FTT if the underlying or reference value consists of more than 50 per cent., of the market value of Italian shares, Italian equity-like instruments or Italian equity-related instruments, as measured on either: (i) the date of issuance, for financial instruments traded on regulated markets or on multilateral trading systems; or (ii) the date when the relevant contract is entered into in all other cases. The FTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The amount of tax due depends on the type of derivative instrument and on the contract's value, but is subject to a maximum of Euro 200. This FTT is reduced to 1/5 of the relevant amount if the transfer takes place on a

regulated market or multilateral trading system. If a derivative is equity-settled, the consequent share transaction is ordinarily subject to the FTT under Article 1(491) of the Stability Law for 2013.

The FTT under Article 1(491) of the Stability Law for 2013 is due by and borne by the (ultimate) transferee of the shares or equity-like instruments. The FTT under Article 1(492) of the Stability Law for 2013 is due by each party involved in the relevant transaction. The FTT must be paid and accounted for to the Italian tax authorities by any intermediary intervening in any way in the execution of such transactions, e.g. banks, fiduciary companies or investment firms licensed to provide investment services on a professional basis to the public in accordance with Article 18 of Italian Legislative Decree No. 58 of 24 February 1998, including non-Italian resident intermediaries. However, the Stability Law for 2013 provides that such an intermediary is permitted to refrain from executing the relevant transaction until they have received the amount of FTT due on the transaction from the relevant person referred to above. Non-Italian resident intermediaries may appoint an Italian withholding agent as a tax representative in order to take care of the compliance regarding the FTT. In the event that several financial intermediaries are involved, the obligation to make the payment of the FTT to the Italian tax authorities falls on the party that directly receives the transaction order from the parties. If no intermediary is involved in a transaction, the relevant parties referred to above must pay the FTT due directly to the Italian tax authorities.

A 0.02 per cent. FTT has also been introduced on high frequency trading carried out on the Italian financial market.

Some exemptions may apply.

(E) French Taxation of the Securities issued by Mediobanca, Mediobanca International and MBFL

This summary is based on tax laws and taxation practice, as in effect and applied as at the date of this Base Prospectus and is intended to provide general information only. This section does not address all French tax considerations that may be relevant to an investor. In some cases, different rules and specific exemptions can be applicable, depending, in particular, on the characterisation of the Securities for French tax purposes or on the specific tax situation of the investor. Tax laws, taxation practices and their interpretation are constantly under change, which changes may sometimes have a retroactive effect and may change the conclusions set out in this summary. Investors should seek professional advice with respect to the tax consequences of an investment in the Securities, taking into account the particular aspects of their situation.

This summary assumes that the Securities will be treated as debt securities under French tax law and that the income and gains from the Securities do not have a French source. It does not discuss the taxation of derivatives, neither does it determine the conditions under which structured products can be treated differently from debt under French tax law. It also assumes that each Issuer is not a tax resident for French tax purposes and does not act through a permanent establishment in France in relation to the Securities. Finally, it is based on the assumption that there will be no substitution of the Issuers and do not address the consequences of any such substitution (notwithstanding that such substitution may be permitted by the terms and conditions of the Securities).

Withholding of French tax by Mediobanca, Mediobanca International and MBFL

Income paid or accrued by the Issuers on the Securities will remain outside of the scope of the French withholding tax legislation to the extent such Securities are not issued through a French branch or permanent establishment of the Issuers.

Taxation of French tax resident individuals

Taxation of income

The income deriving from the Securities, including the sums that may be regarded as redemption premiums, are generally treated as interest from a French tax perspective.

Interest and other income received by individual holders of Securities who are French tax residents and who do not hold their Securities in connection with a business they carry on, are taxable in the hands of the investor to income tax and social surtaxes following a two-step process.

Interest and other similar revenues received by French tax resident individuals are first subject to a non-discharging withholding tax ("*prélèvement forfaitaire non libératoire*" - PFNL) withheld at a flat-rate of 12.8% as well as 17.2% of social surtaxes. The PFNL is considered to be an advance payment on the final tax liability. The PFNL must be withheld and reported by the paying agent of such income in the meaning of the French withholding tax legislation, and usually is the financial institution keeping the bank or financial account of the investor.

If the paying agent is established outside France, the individual investor is responsible for paying the income tax prepayment and the social surtaxes directly to the French tax authorities no later than the 15th day of the month

following the payment received under the Securities. If the paying agent is established outside France, in an EU or EEA member state, it can however be appointed by the taxpayer as tax representative to account for and pay the PFNL on behalf of the taxpayer

Upon final taxation, the income paid to a French tax resident individual is then in principle taxed at a flat rate of 30% (12.8% of income tax and 17.2% of social surtaxes – together referred to as the “prélèvement forfaire unique” or PFU) or, upon election, under the ordinary progressive brackets of income tax (the election would apply on all investment income and capital gains) at a standard progressive rate of up to 45%. If the French tax resident individual elects for the application of the ordinary progressive brackets, a 6.8% portion of the aforementioned social surtaxes should be deductible from the taxable income of the following tax year.

Should the amount of the PFNL exceed the final tax liability, the difference would be refunded to the French resident individual.

If the French resident individual receives income subject to a withholding tax in the Issuers’ jurisdictions, a French tax credit may be available under the applicable tax treaty.

Taxation of capital gains

Capital gains derived from the disposal of the Securities should be in principle subject to the PFU, at a global rate of 30% (12.8% of personal income tax and 17.2% of social surtaxes). If the French tax resident individual elects for the application of the ordinary progressive brackets, a 6.8% portion of the aforementioned social surtaxes should be deductible from the taxable income of the following tax year. Absent such election, no portion of social surtaxes will be deductible from the taxable income.

If French tax resident holders of Securities dispose of them at a loss, capital losses can in principle be offset against capital gains recognized during the same year and having the same nature, the excess being carried forward for a maximum of 10 years. Conversely, capital losses will not be otherwise deductible for income tax purposes.

In case of settlement, redemption or other forms or repayment by way of physical delivery of shares, the taxation of the corresponding income may, in certain circumstances, be deferred until the disposal of the received shares. French resident individuals should consult their advisors regarding these aspects.

Exceptional contribution on high income (“Contribution exceptionnelle sur les hauts revenus”)

An exceptional contribution on high income may be applicable to French tax resident holders of Securities, where their “reference income” exceeds EUR 250,000 for a single person or EUR 500,000 for a couple taxed on a joint basis.

The “reference income” for the relevant fiscal year would include income and gains realised in relation to the Securities.

This contribution is equal to 3% of the fraction of the “reference income” above EUR 250,000 for a single person (or EUR 500,000 for a couple) and, 4% on the “reference income” over EUR 500,000 for a single person

(or EUR 1 million for a couple).

Differential contribution on high income (“Contribution différentielle sur les hauts revenus »)

The Finance Act for 2025 introduced a so-called differential contribution applicable to French tax resident with high-income: if the total amount of income tax and exceptional contribution on high income results in an effective taxation rate below 20%, the differential contribution will apply to reach the 20% tax threshold.

At this stage, the contribution is intended to apply only to income received with respect of financial year 2025.

Gift and inheritance taxes

Subject to the provisions of the relevant bilateral tax treaty, French gift or inheritance taxes would be levied on the transfer of the Securities by way of gift by, or on the death of, French tax resident holder, if:

- a) the holder of Securities is a resident in France; or
- b) the beneficiary is resident in France and has been so resident for at least six years over the ten preceding years; or
- c) if both the holder of Securities, and the beneficiary are non-French residents, the transferred assets are located in France. Assets located in France for French gift/inheritance tax purposes would include receivables and other forms of debt instruments over a debtor established in France.

The tax bands and rates depend, in particular, on the kinship between the individuals concerned.

Taxation of French tax resident corporate investors

Corporate income tax and additional contribution – general aspects

As a general rule, income or capital gains in relation to the Securities are subject to corporate income tax at the standard rate of 25% (or to specific rates applicable depending on a company's turnover and the level of its taxable profits) on an accruals basis. An additional contribution of 3.3% of the amount of corporate income tax due by the taxpaying company may be due if that company is subject to a corporate income tax charge exceeding EUR 763,000. The Finance Act for 2025 introduced an exceptional contribution on profits for large companies at a rate of 20.6% when their turnover is between €1 billion and €3 billion, or 41.2% when it exceeds €3 billion. This surcharge will apply to the first financial year ending on or after 31 December 2025 and will be based on the average CIT owed with respect to the financial year during which the surcharge is due and the previous financial year.

Capital losses are generally treated as ordinary losses which may be set off against operational profits. The remaining losses may be carried forward indefinitely, but their use is limited, for a given year, to EUR 1 million plus 50% of the taxable profit exceeding this amount. The Finance Act for 2025 introduced a limitation on the carry forward of losses for companies whose cumulative tax losses over the three consecutive fiscal years ending in 2023, 2024, and 2025 exceed €2.5 billion: the portion of the loss exceeding this threshold in respect of the 1ST financial year closed as from 31st December 2025 may not be carried forward. Besides, an option can be made by the holders of Securities in order to carry back the losses against their prior taxable result but limited to the

taxable profit of the previous year and up to the limit of EUR 1 million.

If the French corporate resident holder of Securities receives income subject to a withholding tax in the Issuers jurisdictions, a French tax credit may be available under the applicable tax treaty.

Taxation of interest and redemption premiums

In principle, interest payments are taxed at the above-mentioned standard corporate income tax rate (or the reduced rate applicable to small companies where the relevant conditions are met) on an accrual basis.

If the French corporate resident holder of Securities receives income subject to a withholding tax in the Issuers jurisdictions, a French tax credit may be available under the applicable tax treaty.

Any redemption premium would be taxed at the above-mentioned standard corporate income tax rate (or to reduced rates applicable to small and medium companies meeting certain requirements). However, if the estimated value of the redemption premium exceeds the purchase value of the Securities by 10% or more and the average issue price of the Securities is less than 90% of the estimated redemption value, the taxation of such premium is spread according to the actuarial method. The taxation of the premium is hence spread on an annual basis over the lifetime of the Securities until the maturity.

Taxation of Capital gains

Capital gains derived from the disposal of the Securities, by corporate resident holders should be taxable at standard rate. The taxable gains should be reduced by the amount of the fraction of interest and redemption premiums taxed under the actuarial method.

In case of settlement, redemption or other forms or repayment by way of physical delivery of shares, the taxation of the corresponding income may, in certain circumstances, be deferred until the disposal of the received shares. French corporate resident holders of Securities should specifically consult their own tax advisors regarding these aspects.

Taxation of non-French tax resident investors

Income and capital gains derived from the Securities, received by individuals who are not residents of France for tax purposes are not taxable in France.

The income and capital gains derived from Securities by corporate investors who have neither their corporate seat nor their effective place of management in France, are not taxable in France unless the Securities form part of the business property of a French permanent establishment (these investors should instead generally refer to the “Taxation of French tax resident corporate investors” section above).

Transfer Taxes

The subscription, purchase or subsequent sale of Securities, is not in principle subject to transfer tax in France. However, the following may be relevant in connection with Securities, which are settled or redeemed by way of

physical delivery of shares issued by a French company:

- a) The settlement, redemption or other forms or repayment by way of physical delivery of outstanding shares in French companies should generally give rise to French transfer taxes pursuant to administrative guidelines. The conversion or exchange of Securities against shares issued by a public company whose registered office is located in France for consideration is, in principle, subject to a 0.1% transfer tax³⁸ (the "French Transfer Tax"), provided, in the case of shares listed on a recognised stock exchange, that the transfer is evidenced by a written deed or agreement executed in France (BOI-ENR-DMTOM-40-10-10 n°40).
- b) A financial transaction tax (the "French Financial Transaction Tax") is imposed, subject to certain exceptions, on certain acquisitions of French shares (or certain assimilated securities) which are listed on a recognised stock exchange where the relevant issuer's stock market capitalisation exceeds EUR 1 billion (on 1st December of the previous calendar year). The rate of the French Financial Transaction Tax is 0.4% of the acquisition price from 1st April 2025. There are a number of exemptions from the French Financial Transaction Tax and investors shall revert to their counsel to identify whether they can benefit from them.
- c) If the French Financial Transaction Tax is effectively due in respect of a transaction that would normally trigger the payment of the French Transfer Tax mentioned in (a) above, an exemption in respect of the French Transfer Tax is applicable.

The settlement or redemption of Securities by way of physical delivery of shares issued by non-French companies will generally not be subject to French transfer taxes unless such transfer is evidenced by a written deed or agreement signed in France.

(E) Swiss Taxation of the Securities issued by Mediobanca, Mediobanca International and MBFL

The following is a summary of the Swiss tax treatment of the Securities. The summary does not purport to be an exhaustive description of all of the Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities.

The summary is based on the laws of Switzerland as in effect on the date of this Base Prospectus. Prospective investors in the Securities should consult their own advisers as to the Swiss or other tax consequences.

Swiss withholding tax

As the Issuers are not incorporated in Switzerland, the income derived from the Securities should not be subject to Swiss withholding tax provided that the Issuers are at all times resident and effectively managed from outside of Switzerland and do not maintain a permanent establishment in Switzerland.

³⁸ Other rates and specific rules may apply in specific circumstances (e.g. a 3% rate if the shares have been issued by a French private company or a French partnership, or a 5% rate if the shares have been issued by a company regarded as a "real estate company" for French transfer tax purposes).

Swiss stamp duty

Swiss stamp duty is payable on the transfer of taxable securities³⁹ provided that the transaction involves a Swiss securities dealer⁴⁰ acting either as a broker or as counterparty.

Among other things⁴¹, the following are considered as securities when they are issued by a person resident in Switzerland:

- Shares;
- Bonds⁴²;
- Units in collective investment schemes.

Instruments issued by a person domiciled abroad and fulfilling the same economic functions as the securities mentioned above are assimilated to securities issued by a person resident in Switzerland.

In particular⁴³, the following are considered as securities dealers:

- Banks;
- Individuals and legal entities who trade collective investment shares on behalf of third parties, or who act as investment advisors or asset managers in the purchase and sale of collective investment shares;
- Swiss pension funds;
- Swiss corporations holding balance sheet assets in taxable securities in excess of CHF 10 million.

Depending on the respective qualification of each type of Securities, the subscription of said Securities may be subject to Swiss stamp duty if the transaction involves a Swiss securities dealer for stamp duty purposes acting either as a broker or as a counterparty. In this case, the stamp duty should amount to 0.15% (half of the ordinary rate) of the counter value as the Issuers qualifies as foreign banks. The stamp tax liability is the responsibility of the Swiss securities dealer, which typically recharges this cost to its clients.

The resale of Securities may be subject to stamp duty if the transaction involves a Swiss securities dealer for stamp duty purposes acting as a broker or as a counterparty. Where applicable, the amount of stamp duty will be either 0.075%, 0.15% or 0.3% depending on the characterization of the investors.

The redemption of Securities in view of cancelation is in any case exempt from Swiss stamp duty.

³⁹ As defined by Article 13 para. 2 of the Swiss Stamp Duty Act.

⁴⁰ As defined by Article 13 para. 3 of the Swiss Stamp Duty Act.

⁴¹ For the exhaustive list, please refer to Article 13 para. 2 of the Swiss Stamp Duty Act.

⁴² As defined by Article 4 para. 3 and 4 of the Swiss Stamp Duty Act.

⁴³ For the exhaustive list, please refer to Article 13 para. 3 of the Swiss Stamp Duty Act.

i. *Swiss residents holding Securities as part of their private assets (private investors)*

Swiss-residents holding Securities as part of their private (as opposed to commercial) assets qualify as private investors.

All income derived from the Securities will be added to the income of the private investors. Said income will be subject to income tax at the ordinary (progressive) rate. The income tax rate varies significantly depending on the canton (and municipality) of residence. As a matter of illustration, the maximum tax rate is 45% in Geneva, 39.7% in Zurich, and 22.2% in Zug (all taxes - federal, cantonal and municipal - included).

As a general principle, capital gains earned by the private investors from the sale of their Securities will be exempt from Swiss income tax.

Additionally, the market value of the Securities will be added to the wealth of the private investors and subject to Swiss wealth tax at the ordinary (progressive) rate. The wealth tax rate also varies significantly depending on the canton (and municipality) of residence. As a matter of illustration, the maximum tax rate is 1.01% in Geneva, 0.65% in Zurich, and 0.23% in Zug (all taxes - cantonal and municipal - included).

ii. *Swiss residents under the "forfait" tax regime*

Swiss residents that benefit from the so-called "forfait" tax regime owe income and wealth tax on the basis of their "forfait" irrespective of their effective income and wealth. Thus, the income derived from the Securities should not have any consequences for Swiss residents under the "forfait" tax regime.

iii. *Swiss residents holding shares as part of their commercial assets (professional investors)*

Swiss-residents holding Securities as part of their commercial (as opposed to private) assets qualify as professional investors.

The professional investors are subject to Swiss income tax levied at the ordinary (progressive) rate on both the income and the capital gains derived from the Securities.

Regarding the sale of Securities, the positive difference between their sale price and their book value is subject to Swiss income tax.

In addition, Securities owned by Swiss professional investors are subject to wealth tax based on the book value of the investment.

Swiss professional investors who keep accounting records are taxed in accordance with the principle of "determinance" (*infra* b.i) but at the ordinary (progressive) rate.

b. Legal entities

i. *Corporations*

Swiss corporations are taxed in accordance with the principle of "*determinance*". According to said principle, the Swiss tax administration uses the corporation's profit as recorded in its financial statements as a basis for determining its taxable income and its taxable capital.

As a result, Swiss corporations will be subject to Swiss corporate income tax on any income derived from the Securities irrespective of the nature of said income (interest, dividends, capital gains, etc.) to the extent that such income affects the corporation's profit as recorded in its financial statement.

To the same extent, the disposal and the redemption of the Securities will be subject to Swiss corporate income tax on the difference between their sale price and their book value.

The ordinary actual corporate income tax rate varies importantly depending on the canton (and municipality) of residence of the company. As a matter of illustration, the tax rate is 14.7% in Geneva, 19.61% in Zurich, 11.85% in Zug (all taxes - federal, cantonal and municipal - included).

Additionally, Securities owned by Swiss corporations are subject to a corporate capital tax based on the book value of the investment. The corporate capital tax rate also varies significantly depending on the canton (and municipality) of residence of the company. As a matter of illustration, the maximum tax rate is 0.401% in Geneva, 0.170% in Zurich, and 0.071% in Zug (all taxes - cantonal and municipal - included).

ii. *Exempted legal entities*

Certain legal entities are exempt from income and capital tax. This exemption applies to profits (ordinary income and capital gains) derived from the Securities.

The tax exemption applies notably⁴⁴ to the following types of entities:

- The Confederation and its establishments;
- The Swiss pension funds;
- The domestic social insurance and compensation funds, including unemployment insurance, health insurance, old age, disability and survivors' insurance funds.

Swiss inheritance/gift tax

The cantons (except Schwyz and Obwald) levy a Swiss inheritance/gift tax on all the deceased's/donor's worldwide assets provided that the deceased/donor was resident in the canton.

The tax rates vary significantly from canton to canton and according to the degree of parenthood to the deceased/donor. In most of the cantons, the transfer of wealth by inheritance/gift to the spouse or direct offspring is tax-free. As a matter of illustration, the tax rate for non-related persons is 54.6% in Geneva, 36% in Zurich and 20% in Zug.

⁴⁴ For the exhaustive list, please refer to Article 13 para. 3 of the Swiss Stamp Duty Act.

(F) United Kingdom taxation of Securities issued by Mediobanca, Mediobanca International and MBFL

The following is a general summary of the relevant Issuer's understanding of certain aspects of current United Kingdom law and published HM Revenue & Customs ("**HMRC**") practice relating to certain aspects of United Kingdom taxation in respect of Securities issued by Mediobanca, Mediobanca International and MBFL. It applies only to persons who are the absolute beneficial owners of Securities may not apply to certain classes of persons, such as dealers and persons connected with the relevant Issuer, to whom special rules may apply.

Prospective Securityholders who are in any doubt as to their tax position or who may be subject to tax in any jurisdiction other than the United Kingdom should seek independent professional advice without delay.

United Kingdom withholding tax

The Issuers may make payments in respect of the Securities without deduction or withholding for or on account of United Kingdom tax where such payments do not have a "United Kingdom source". Interest paid by Issuers on Securities may have a United Kingdom source ("**UK Interest**"); for example interest paid by Issuers on Securities secured on assets situated in the United Kingdom may have a United Kingdom source.

Payments of UK Interest made in respect of Securities which carry a right to interest and are listed on a "recognised stock exchange" within the meaning of section 1005 Income Tax Act 2007 ("**ITA 2007**"), or are admitted to trading on a multilateral trading facility operated by a regulated recognised stock exchange within the meaning of section 987 ITA 2007 may be made without withholding or deduction for or on account of United Kingdom income tax.

Section 1005(3) ITA 2007 provides that securities will be listed on a recognised stock exchange if (and only if) they are admitted to trading on that exchange, and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange. Euronext Dublin is a recognised stock exchange. Accordingly, provided the Securities are and continue to be admitted to trading on Euronext Dublin and officially listed as described above, the relevant Issuer is entitled to make payments of UK Interest on such Securities without deduction for or on account of United Kingdom income tax.

In cases falling outside the exemptions described above, United Kingdom UK Interest on Securities may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20%) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

If Securities are issued at a discount to their principal amount, any such discount element is not subject to any United Kingdom withholding tax. If Securities are redeemed at a premium to principal amount (as opposed to being issued at a discount) then, depending on the circumstances, such premium may constitute a payment of interest for United Kingdom tax purposes and hence be subject to the United Kingdom withholding tax rules outlined above.

(G) Proposed European Financial Transactions Tax (FTT)

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Certain primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under current Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States. It may therefore be amended prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

(H) The Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" (as defined by FATCA) may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting or related requirements. The Issuers have each registered with the U.S. Internal Revenue Service as a reporting foreign financial institution for these purposes.

A number of jurisdictions (including Italy and Luxembourg) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, are uncertain and may be subject to change.

Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and

Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of an Issuer). However, if additional Securities (as described under "Terms and Conditions – Further Issues") that are not distinguishable from previously issued Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all such Securities, including those Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Securityholders should consult their own tax advisors regarding how these rules may apply to their investment in the Securities. In the event that any withholding would be required pursuant to FATCA or an IGA with respect to payments on Securities, no person will be required to pay additional amounts as a result of the withholding.

- (18) Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, Mediobanca and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively

trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of Mediobanca or Mediobanca's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with Mediobanca routinely hedge their credit exposure to Mediobanca consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Securities issued under the Programme. Any such short positions could adversely affect future trading prices of Securities issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purpose of this paragraph the term "affiliates" includes also parent companies.

Such consent may be given to all (general consent) or only one or more (individual consent) specified Dealers and/or financial intermediaries and/or for a limited or indefinite period, as stated in the Final Terms, and for Italy, Ireland, Luxembourg and/or France (as indicated in the relevant Final Terms) as member states in which the Base Prospectus has been passported and which will be indicated in the relevant Final Terms.

Such consent by the Issuers is subject to each Dealer and/or financial intermediary complying with the terms and conditions described in this Base Prospectus and the relevant Final Terms as well as any applicable selling restrictions. The distribution of this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms as well as the offering, sale and delivery of the Securities in certain jurisdictions may be restricted by law.

Each Dealer and/or each financial intermediary, if any, and/or each person into whose possession this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms come are required to inform themselves about and observe any such restrictions. The Issuers reserve the right to withdraw its consent to the use of this Base Prospectus in relation to certain Dealers and/or each financial intermediary.

In case of an offer being made by a Dealer or a financial intermediary, such Dealer or financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

If the Final Terms state that the consent to use the Base Prospectus is given to all Dealers or financial intermediaries (general consent), any Dealer or financial intermediary using the Base Prospectus is required to state on its website that it uses the Base Prospectus in accordance with the consent and the conditions attached thereto.

If the Final Terms state that the consent to use the prospectus is given to one or more specified Dealers or financial intermediaries (individual consent), any new information with respect to Dealers or financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published on the website <http://www.mediobanca.com>.
