

FINAL TERMS

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – Other than with respect to offers or sales of the Securities, or the Securities otherwise being made available, in the Republic of Italy during the period starting on 4 November 2025, the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "Prospectus Regulation"). Consequently, save as provided above, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II product governance / Retail investors, professional investors and ECPs – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice, portfolio management and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Securities (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

Offer Price:	The Offer Price will be equal to the Issue Price
Conditions to which the offer is subject:	The effectiveness of the offer is subject to the adoption of the resolution of admission to trading of the Securities on the EuroTLX before the Issue Date. As such, the Issuer undertakes to file the application for the Italian Securities to be admitted to trading on the EuroTLX in time for the adoption of such resolution. The Issuer, in accordance with the Distributor, reserves the right to withdraw or early close the offer for any reason at any time during the offer period (including in the event that requests exceed the issue size) and/or to cancel the issue of the Securities for any reason at any time on or prior to the Issue Date. For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such a right, each such potential investor will not be entitled to subscribe or otherwise purchase any Securities. The Distributor will repay the Offer Price and any commission paid by any investor without interest. The offer will be subject to the above provisions. In case of withdrawal or early closure, the Distributor will inform the investors that have already applied for the Securities by appropriate means (and also through a notice published on its website, if available) and repay the Offer Price and any commission paid by any investor without interest. The early closure of the Offer Period shall be effective from the day following the day of publication of the relevant notice.
Description of the application process:	Prospective investors may apply to the Distributor to subscribe for Securities in accordance with the arrangements existing between the Distributor and its customers relating to the subscription of securities generally. Investors will be notified by the Distributor of the amount allotted. Prospective investors will not be required to enter into any contractual arrangements directly with the Issuer in relation to the subscription for the Securities. The Securities may be distributed by the Distributor through door-to-door selling by means of tied agents, being financial advisors authorised to make off-premises offers (<i>consulenti finanziari abilitati all'offerta fuori sede</i>) pursuant to Articles 30 and 31 of the Legislative Decree 24 February 1998, No. 58, as amended and supplemented (the "Italian Financial Services Act") from

Pursuant to Article 30, paragraph 6, of the Italian Financial Services Act, the validity and enforceability of contracts entered into through door-to-door selling is suspended for a period of 7 (seven) days beginning on the date of subscription by the relevant investor. Within such period investors may notify the Distributor of their withdrawal in written form through registered letter with acknowledgement of receipt (*lettera raccomandata A/R*) or certified email (PEC) or by notice to the financial promoter or the Banking Center of the Distributor without payment of any charge or commission according to the condition indicated in the Subscription Form (Scheda di Adesione).

The exercise of the withdrawal right may have an impact on the number of subscribers and, therefore, may have an adverse effect on the liquidity of the Securities. Furthermore, where the investor has exercised the withdrawal right and already paid the Issue Price for such Securities, the Issue Price will be repaid to them. In such case, the investor will not receive any interest or other compensation payments in respect of the time period between the payment date and the date of repayment of the Issue Price and may only be able to re-invest the repaid Issue Price on less favourable terms.

Without prejudice to the withdrawal right applicable in case of (i) publication of supplements pursuant to Article 23 of the Prospectus Regulation, (ii) door-to-door selling and (iii) distance selling techniques, applications may not be revoked and may not be subject to conditions. All of the Securities requested through the Distributor during the Offer Period will be assigned up to the Aggregate Principal Amount of the Securities. Allotment of Securities will be managed and coordinated by the Distributor subject to the arrangements existing between the Distributor and its customers relating to the subscription of securities generally. There are no pre-identified allotment criteria. The

	Distributor will adopt allotment criteria that ensure equal treatment of prospective investors.
Details of the minimum and/or maximum amount of the application:	All of the Securities requested through the Distributor during the Offer Period will be assigned up to the maximum amount of the offer. In the event that requests exceed the total amount of the offer, the Distributor may close the Offer Period early, pursuant to item Offer Period above or may increase the amount of Securities offered during the Offer Period, also through a notice to be published on the Distributor's website, if available. The minimum amount of Securities each individual investor may subscribe for is EUR 150,000.

Whether tranche(s) have been reserved for certain countries:	Not Applicable
Process for notifying applicants of the amount allotted and an indication whether dealing may begin before notification is made:	Applicants will be notified by the Distributor of the success of their application

Up to 4% (as a percentage of the Specified Denomination and included in the Issue Price), payable by the Issuer to the Distributor. The Offer Price and the terms of the

Securities take into account such fee and, as a result, the Offer Price may be more than the market value of the Securities on the Issue Date.

Taxes charged in connection with the subscription, transfer, purchase or holding of Securities must be paid by the relevant investor and the Issuer will not have any obligation in relation thereto. Investors should consult their professional tax advisers to determine the tax regime applicable to their particular situation.

For details of the tax regime applicable to subscribers in the Republic of Italy, see subsection "Taxation in Italy" in the section "Taxation" in the Base Prospectus.

What are the risks that are specific to the issuer?
The Issuer is subject to the following key risks: • <i>Risk that funds lent by the Issuer to Group Companies are not repaid:</i> The Issuer is a finance vehicle established by the Guarantor for the purpose of issuing debt securities, preferred securities (<i>participaciones preferentes</i>) and other financial instruments and on-lending the proceeds to the Guarantor and its consolidated subsidiaries (the "Group"). The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should any Group member fail to pay interest on or repay any loan in a timely fashion this could have a material adverse effect on the ability of the Issuer to fulfil its obligations under the Securities which could have an adverse impact on the rights of securityholders and the return on their investment. • <i>Certain Creditors of the Issuer will rank in priority above Securityholders:</i> Under Irish law, the claims of a limited category of preferential creditors will take priority over the claims of unsecured creditors in the event of the appointment of a liquidator or a receiver to an Irish company such as the Issuer. These preferred claims include taxes, such as income tax and corporation tax payable before the date of appointment of the liquidator or receiver and arrear of value added tax, together with accrued interest thereon and claims of employees. • <i>Risks in connection with Examination:</i> Examination is a court procedure available under the Irish Companies Act 2014 to facilitate the survival of Irish companies in financial difficulties. The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer, are each entitled to petition the court for the appointment of an examiner. The primary risks to the Securityholders if any examiner were to be appointed with respect to the Issuer are as follows: the potential for a scheme of arrangement being approved involving the writing down of the debt due by the Issuer to the securityholders; and in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant court) will take priority over the amounts secured or unsecured owing to the securityholders.

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

Key risks in respect of the Guarantor: The Guarantor is subject to the following key risks:

- *The Group's growth, asset quality and profitability, among others, may be adversely affected by a slowdown in one or more of the economies in which the Group operates, as well as volatile macroeconomic and political conditions and persistent high inflation:* Volatile conditions in the global financial markets could have a material adverse effect on the Group, including on the ability of the Group to access capital and liquidity on financial terms acceptable to the Group, if at all. If capital markets financing ceases to become available, or becomes excessively expensive, the Group may be forced to raise the rates paid on deposits to attract more customers and become unable to maintain certain liability maturities. Any such increase in capital markets funding availability or costs or in deposit rates could have a material adverse effect on its interest margins and liquidity. The Group's results are also affected by other market conditions on a global and local scale, such as an increase in protectionism and/or trade tensions, higher barriers to immigration, persistent high inflation and the effects of the coronavirus.
- *The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition:* As a financial institution, the Group including the Guarantor is subject to extensive regulation (including regulation relating to capital requirements, funding and liquidity and the development of a fiscal and banking union in the EU), which materially affects its businesses. Any legislative or regulatory action and any resulting changes to the Group's business operations, as well as any deficiencies in its compliance with such legislation and regulation, could result in significant loss of revenue, limit its ability to pursue business opportunities and provide certain products and services, affect the value of assets that it holds, require the Group to increase its prices and therefore reduce demand for its products, impose additional compliance and other costs on the Group or otherwise adversely affect its businesses.
- *Increasingly stricter capital regulations and potential requirements could have an impact on the functioning of the Group and its businesses:* Increasingly onerous capital requirements constitute one of the Guarantor's main regulatory challenges. Increasing capital requirements may adversely affect the Guarantor's profitability and create regulatory risk associated with the possibility of failure to maintain required capital levels.
- *The credit quality of the loan portfolio of the Group may deteriorate and the Group's loan loss reserves could be insufficient to cover its loan losses, which could have a material adverse effect on the Group:* Non-performing or low credit quality loans have in the past negatively impacted the Group's results of operations and could do so in the future. In particular, the amount of the reported credit impaired loans of the Group may increase in the future as a result of growth in the Group's total loan portfolio, including as a result of loan portfolios that the Group may acquire in the future (the credit quality of which may turn out to be worse than it had anticipated), or factors outside of its control, such as adverse changes in the credit quality of the Group's borrowers and counterparties or a general deterioration in economic conditions in the regions where the Group operates or in global economic and political conditions, including as a result of the continuance or escalation of the

war in Ukraine and the conflict in the Middle East. In certain markets, the combined pressure of economic downturn, high inflation and high interest rates may impact the ability of the Group's customers to repay their debt, which could have a material adverse effect on the Group's activities and operations and affect the ability of the Guarantor to fulfil its obligations under the Guarantee.

What are the key risks that are specific to the securities?

The Securities are subject to the following key risks:

- *The Securities bear the credit risk of the Issuer and the Guarantor:* Holders of Securities bear the credit risk of the Issuer and the Guarantor. That is the risk that the Issuer or the Guarantor is not able to meet its obligations under such Securities, irrespective of how any principal, interest or other payments under such Securities are to be calculated. In such circumstances holders may lose some or all of their investment.
- *Hedging activities may affect the market price, liquidity or value of the Securities:* The Issuer, the Guarantor and/or any of their affiliates may enter into one or more hedging transactions with respect to the Rate of Interest or related derivatives and such hedging activities or proprietary or other trading activities by the Issuer, the Guarantor or their affiliates may, but are not intended to, affect the market price, liquidity or value of the Securities and which could be deemed to be adverse to the interests of the holders.
- *The occurrence of certain events may adversely affect the value or liquidity of the Securities:* In the event of the occurrence of certain events affecting the Reference Item, the calculation agent may make adjustments in accordance with the terms of the Securities. Any such action may reduce the overall return on the investment of the holder or adversely affect the value and liquidity of the Securities.
- *An investment in the Securities is not comparable to an investment in a conventional debt security:* Amounts of interest and principal under the Securities may depend on the price of the Reference Item. An investment in the Securities may bear similar market risks to a direct investment in the Reference Item but also entails significant risks not associated with a conventional investment. For example, payment of principal or interest may occur at a different time than expected had holders of the Securities invested directly in the Reference Item.
- *The value of the Securities is linked to the performance of the underlying Reference Item which may affect the overall return on investment:* The Reference Item may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. The Reference Item may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of the Reference Item are often opaque. The Reference Item, as well as the markets and instruments in which it invests, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Consequently, Holders may be exposed to the volatility in the performance of the Reference Item which may affect the overall return on their investment.

Quali sono i principali fattori di rischio specifici dell'Emittente?		
L'Emittente è soggetto ai seguenti rischi principali: • <i>Rischio di mancato rimborso dei fondi prestati dall'Emittente alle Società del Gruppo:</i> L'Emittente è un veicolo finanziario costituito dal Garante allo scopo di emettere titoli di debito, titoli privilegiati (<i>participaciones preferentes</i>) e altri strumenti finanziari e di prestare i proventi al Garante e alle sue controllate consolidate (il "Gruppo"). L'Emittente dipende pertanto dal fatto che gli altri membri del Gruppo paghino gli interessi e rimborsino i loro prestiti nel rispetto delle scadenze. Se un membro del Gruppo non dovesse pagare gli interessi o rimborsare nel rispetto delle scadenze un prestito, ciò potrebbe avere un effetto negativo rilevante sulla capacità dell'Emittente di adempiere ai propri obblighi ai sensi dei Certificates, il che potrebbe avere un impatto negativo sui diritti dei Portatori dei Certificates e sul rendimento del loro investimento. • <i>Alcuni Creditori dell'Emittente avranno priorità rispetto ai Portatori dei Certificates:</i> Ai sensi della legge irlandese, i crediti di una categoria limitata di creditori privilegiati avranno priorità rispetto ai crediti dei creditori chirografari in caso di nomina di un liquidatore o di un curatore fallimentare in una società irlandese come l'Emittente. Tali crediti privilegiati comprendono le imposte, come l'imposta sul reddito e l'imposta sulle società pagabili prima della data di nomina del liquidatore o curatore e degli arretrati dell'imposta sul valore aggiunto, congiuntamente ai relativi interessi maturati e ai crediti dei dipendenti. • <i>Rischi connessi all'Examination:</i> L'<i>Examination</i> è una procedura giudiziaria disponibile ai sensi della Legge Irlandese sulle Società del 2014 (<i>Irish Companies Act 2014</i>) per facilitare la sopravvivenza delle società irlandesi in difficoltà finanziaria. L'Emittente, gli amministratori dell'Emittente, un creditore condizionato, potenziale o effettivo dell'Emittente, o gli azionisti dell'Emittente che detengano, alla data di presentazione dell'istanza, non meno di un decimo del capitale sociale avente diritto di voto dell'Emittente, hanno ciascuno il diritto di presentare istanza al tribunale per la nomina di un esaminatore (<i>examiner</i>). I rischi principali per i Portatori dei Certificates se dovesse essere nominato un esaminatore in relazione all'Emittente sono i seguenti: la possibilità che venga approvato un piano di concordato che comporti la svalutazione del debito dell'Emittente nei confronti dei Portatori dei Certificates; e nel caso in cui un piano di concordato non venga approvato e l'Emittente venga successivamente messo in liquidazione, il compenso e le spese dell'esaminatore (inclusi alcuni prestiti sostenuti dall'esaminatore per conto dell'Emittente e approvati dal tribunale competente) avranno priorità rispetto agli importi garantiti o chirografari dovuti ai Portatori dei Certificates.

Principali fattori di rischio relativi al Garante: Il Garante è soggetto ai seguenti rischi principali:		
<i>La crescita, la qualità degli attivi e la redditività del Gruppo, tra l'altro, potrebbero essere influenzate negativamente da un rallentamento di una o più economie in cui il Gruppo opera, nonché da condizioni macroeconomiche volatili e condizioni politiche:</i> Condizioni di volatilità nei mercati finanziari globali potrebbero avere un effetto negativo rilevante sul Gruppo, anche per quanto riguarda la capacità del Gruppo di accedere a capitali e liquidità a condizioni finanziarie accettabili per il Gruppo, se non del tutto. Se il finanziamento sui mercati dei capitali cessa di essere disponibile, o diventa eccessivamente oneroso, il Gruppo potrebbe essere costretto ad aumentare i tassi pagati sui depositi per attirare un maggior numero di clienti e diventare incapace di rispettare determinate scadenze in relazione alle proprie passività. Qualsiasi aumento della disponibilità o dei costi di finanziamento sui mercati dei capitali o dei tassi sui depositi potrebbe avere un effetto negativo rilevante sui margini di interesse e sulla liquidità del Gruppo. I risultati del Gruppo sono influenzati anche da altre condizioni di mercato su scala globale e locale, come un aumento del protezionismo o delle tensioni commerciali, l'innalzamento delle barriere all'immigrazione e gli effetti del coronavirus. <i>Tra i rischi che potrebbero influire negativamente sulle economie e sui mercati finanziari delle regioni in cui il Gruppo opera, e portare a un rallentamento dell'economia globale, a una recessione, a pressioni inflazionistiche e/o alla stagnazione, si annoverano: (i) il perdurare o l'intensificarsi dei conflitti in Ucraina e in Medio Oriente, (ii) l'aumento dei prezzi dell'energia e di altre materie prime, (iii) l'interruzione delle catene di approvvigionamento globali e (iv) il ritorno a politiche monetarie e fiscali restrittive, incluso l'aumento dei tassi di interesse.</i> <i>Il Gruppo, compreso il Garante, è soggetto a un'ampia regolamentazione e supervisione normativa e governativa che potrebbe influire negativamente sulla sua attività, operatività e condizione finanziaria:</i> In quanto istituto finanziario, il Gruppo, compreso il Garante, è soggetto ad un'ampia regolamentazione (compresa quella relativa ai requisiti patrimoniali, ai finanziamenti e alla liquidità e allo sviluppo di un'unione fiscale e bancaria nell'UE), che influisce materialmente sulle sue attività. Qualsiasi azione legislativa o regolamentare e qualsiasi conseguente modifica alle operazioni commerciali del Gruppo, nonché eventuali carenze nella sua conformità a tale legislazione e regolamentazione, potrebbero comportare una significativa perdita di ricavi, limitare la sua capacità di perseguire opportunità commerciali e fornire determinati prodotti e servizi, incidere sul valore delle attività che detiene, richiedere al Gruppo di aumentare i prezzi e quindi ridurre la domanda dei suoi prodotti, imporre ulteriori costi di conformità e di altro tipo al Gruppo o incidere altrimenti in modo negativo sulle sue attività. <i>Normative e potenziali requisiti patrimoniali sempre più severi potrebbero avere un impatto sul funzionamento del Gruppo e delle sue attività:</i> Requisiti patrimoniali sempre più onerosi costituiscono una delle principali sfide regolamentari per il Garante. L'aumento dei requisiti		

patrimoniali può incidere negativamente sulla redditività del Garante e creare un rischio regolamentare connesso alla possibilità di non riuscire a mantenere i livelli di capitale richiesti. <i>La qualità del credito del portafoglio crediti del Gruppo potrebbe deteriorarsi e le riserve per perdite su crediti del Gruppo potrebbero essere insufficienti a coprire le perdite su crediti, il che potrebbe avere un effetto negativo rilevante sul Gruppo:</i> I crediti in sofferenza o di bassa qualità creditizia hanno avuto in passato e potrebbero avere in futuro un impatto negativo sui risultati operativi del Gruppo. In particolare, l'importo dei crediti deteriorati segnalati dal Gruppo potrebbe aumentare in futuro a causa della crescita del portafoglio crediti totale del Gruppo, anche a causa di portafogli crediti che il Gruppo potrebbe acquisire in futuro (la cui qualità creditizia potrebbe rivelarsi peggiore di quanto previsto), o di fattori al di fuori del suo controllo, come cambiamenti negativi nella qualità del credito dei mutuatari e delle controparti del Gruppo o un deterioramento generale delle condizioni economiche nelle regioni in cui il Gruppo opera o delle condizioni economiche e politiche globali, anche a causa delle guerre in Ucraina e Medio Oriente. Se il Gruppo non fosse in grado di controllare il livello dei crediti deteriorati o di scarsa qualità, questo potrebbe avere un effetto negativo rilevante sulle attività e sulle operazioni del Gruppo e incidere sulla capacità del Garante di adempiere ai propri obblighi ai sensi della Garanzia.
Quali sono i principali rischi specifici dei titoli?
I Certificates sono soggetti ai seguenti rischi principali: <i>I Certificates sopportano il rischio di credito dell'Emittente e del Garante:</i> I Portatori dei Certificates sopportano il rischio di credito dell'Emittente e del Garante. Si tratta del rischio che l'Emittente o il Garante non siano in grado di adempiere ai propri obblighi ai sensi di tali Certificates, indipendentemente dal modo in cui devono essere calcolati il capitale, gli interessi o altri pagamenti ai sensi di tali Certificates. In tali circostanze i portatori potrebbero perdere una parte o la totalità del loro investimento. <i>Le attività di copertura possono influenzare il prezzo di mercato, la liquidità o il valore dei Certificates:</i> L'Emittente, il Garante e/o una qualsiasi delle loro affiliate possono stipulare una o più operazioni di copertura rispetto al Tasso di Interesse o ai relativi derivati e tali attività di copertura o attività di trading proprietario o di altro tipo da parte dell'Emittente, del Garante o delle loro affiliate possono, ma non sono pensate per, influenzare il prezzo di mercato, la liquidità o il valore dei Certificates e potrebbero essere considerate contrarie agli interessi dei portatori. <i>Il verificarsi di determinati eventi può influire negativamente sul valore o sulla liquidità dei Certificates:</i> Nel caso in cui si verificano determinati eventi che interessano gli Elementi di Riferimento, l'agente di calcolo può effettuare rettifiche in conformità al regolamento dei Certificates. Tali azioni possono ridurre il rendimento complessivo dell'investimento del portatore o influenzare negativamente il valore e la liquidità dei Certificates. <i>Un investimento nei Certificates non è paragonabile a un investimento in un titolo di debito convenzionale:</i> Gli importi degli interessi e del capitale dei Certificates possono dipendere dal prezzo degli Elementi di Riferimento. Un investimento nei Certificates può comportare rischi di mercato simili a quelli di un investimento diretto negli Elementi di Riferimento, ma comporta anche rischi significativi non connessi ad un investimento convenzionale. Ad esempio, il pagamento del capitale o degli interessi potrebbe avvenire in un momento diverso rispetto a quello previsto se i Portatori dei Certificates avessero investito direttamente negli Elementi di Riferimento. <i>Il valore dei Certificates è legato alla performance degli Elementi di Riferimento sottostanti, che può influire sul rendimento complessivo dell'investimento:</i> Gli Elementi di Riferimento possono negoziare e investire in un'ampia gamma di investimenti quali titoli di debito e azionari, materie prime o indici di materie prime e valute estere e possono stipulare operazioni in derivati, inclusi, a titolo esemplificativo, futures e opzioni. Gli Elementi di Riferimento possono spesso essere illiquidi e possono essere negoziati solo su base mensile, trimestrale o anche meno frequentemente. Le strategie di negoziazione degli Elementi di Riferimento sono spesso poco trasparenti. Gli Elementi di Riferimento, così come i mercati e gli strumenti in cui investono, spesso non sono soggetti a controlli da parte di autorità governative, organismi di autoregolamentazione o altre autorità di vigilanza. Di conseguenza, i Portatori possono essere esposti alla volatilità della performance degli Elementi di Riferimento, che può incidere sul rendimento complessivo del loro investimento.
