The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the Central Bank should not be considered as an endorsement of the Issuer or Guarantor or of the quality of the securities (the "**Securities**"). Investors should make their own assessment as to the suitability of investing in the Securities.

Such approval relates only to the Securities that are to be admitted to trading on the regulated market of The Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**") or on another regulated market for the purposes of the Markets in Financial Instruments Directive, (Directive 2014/65/EU) (as amended, "**MiFID II**") and/or that are to be offered to the public in any Member State of the European Economic Area (the "**EEA**") in circumstances that require the publication of a prospectus. Prospective investors should note that the Issuer is incorporated in Ireland but tax-resident in the Kingdom of Spain ("**Spain**"). Potential purchasers should note the statements on pages 687 to 696 regarding the tax treatment in Spain of income obtained in respect of the Securities and the disclosure requirements imposed by Law 10/2014 and Royal Decree 1065/2007, as amended, on the Issuer and the Guarantor relating to the Securities. Holders of Securities must seek their own advice to ensure that they comply with all procedures to ensure the correct tax treatment of their Securities is obtained.

Investors should be aware that the Issuer is not regulated by the Central Bank and that any investment in the Securities will not have the status of a bank deposit and is therefore not within the scope of the deposit protection scheme operated by the Central Bank.

The Securities have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or the securities laws of any state or other jurisdiction of the United States, and the Issuer is only offering Securities outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act ("**Regulation S**") and within the United States to qualified institutional buyers (as defined in Rule 144A under the Securities Act ("**Rule 144A**")) in reliance on Rule 144A or in other transactions exempt from registration under the Securities Act and, in each case, in compliance with applicable securities laws.

The Programme has been rated (P)A1 by Moody's Investor Service España, S.A. ("**Moody's**"). Series of Securities issued under the Programme may be rated or unrated. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency. Where a series of Securities is rated, the applicable rating(s) of a relevant Series of Securities to be issued under the Programme will be specified in the Applicable Transaction Terms. Whether or not each credit rating applied for in relation to relevant Series of Securities will be issued by a credit rating agency established in the European Union or the United Kingdom and registered under Regulation (EC) No 1060/2009 as amended (the "**CRA Regulation**") or Regulation (EC) No 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK CRA Regulation**"), as the case may be, will be disclosed in the Applicable Transaction Terms. The list of credit rating agencies registered under the CRA Regulation (as updated from time to time) is published on the website of the European Securities and Markets Authority ("**ESMA**") (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>).

The Issuer has been assigned a long-term rating of "A+" and a short-term rating of "A-1" by S&P Global Ratings Europe Limited ("**S&P**"). The Guarantor has been rated by Fitch Ratings Ireland Limited ("**Fitch**"), Moody's, S&P, DBRS Ratings GmbH ("**DBRS Morningstar**"), Scope Ratings GmbH ("**Scope Ratings**") and GBB-Rating Gesellschaft für Bonitätsbeurteilung GmbH ("**GBB-Rating**"). Each of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings and GBB-Rating is established in the European Union. Each of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings and GBB-Rating is registered under the CRA Regulation and as such, is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. None of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings or GBB-Rating is established in the United Kingdom and none has applied for registration under the UK CRA Regulation. The Guarantor ratings issued by Fitch, Moody's, S&P, DBRS Morningstar and Scope Ratings have been endorsed by Fitch Ratings Ltd ("**Fitch UK**"), Moody's Investors Service Limited ("**Moody's UK**"), DBRS Ratings Limited ("**DBRS UK**") and Scope Ratings UK Limited ("**Scope UK**"), respectively, in accordance with the UK CRA Regulation and have not been withdrawn. Fitch UK, Moody's UK, DBRS UK and Scope UK are established in the United Kingdom and registered under the UK CRA Regulation.

Credit ratings may be adjusted over time, and there is no assurance that the credit ratings stated in this Base Prospectus will be effective after the date of this Base Prospectus. A credit rating is not a recommendation to buy, sell or hold any Securities.

Amounts payable under the Securities may be calculated by reference to one or more "benchmarks" in scope of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 (as amended) (the "**EU Benchmarks Regulation**"). In this case, a statement

will be included in the applicable Final Terms or Drawdown Prospectus, as applicable, as to whether or not, as far as the Issuer is aware, the relevant administrator or the "benchmark" is included in ESMA's register of administrators and benchmarks under Article 36 of the EU Benchmarks Regulation. For the avoidance of doubt such statement will be given as of the date of the relevant Final Terms and the Issuer will not have any ongoing notification obligations in relation to the status of any administrator or any benchmark on ESMA's register of administrators and benchmarks, unless such disclosure is required under the EU Benchmarks Regulation following the issue of a public notice in relation to a significant benchmark by any relevant competent authority or other relevant official body. Certain "benchmarks" may not fall within the scope of the EU Benchmarks Regulation, including by virtue of Article 2 of that regulation and transitional provisions under the regulation may apply to certain other "benchmarks", such that at the date of the relevant Final Terms the administrator of the "benchmark" is not required to be included in the register of administrators. Note also that from 1 January 2026 the scope of the EU Benchmarks Regulation has been reduced such that only critical benchmarks, significant benchmarks, certain commodity benchmarks, EU Climate Transition Benchmarks and EU Paris-aligned benchmarks remain in mandatory scope of the core provisions in the revised regime.

*this Base Prospectus, excluding the Hong Kong Special Administrative Region of the People's Republic of China ("Hong Kong"), the Macau Special Administrative Region of the People's Republic of China ("Macau") and Taiwan.*

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Securities with a denomination of less than €100,000 (or its equivalent in any other currency) may only be made in any Member State of the EEA (each, a "**Member State**") pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Securities.

Accordingly any person making or intending to make an offer in that Member State of Securities which are the subject of an offering/placement contemplated in this Base Prospectus as completed by Applicable Transaction Terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the Issuer, the Guarantor or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State and (in either case) published, all in accordance with the Prospectus Regulation, provided that any such prospectus has subsequently been completed by Final Terms or is a Drawdown Prospectus which specifies that offers may be made in that Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or Final Terms or Drawdown Prospectus, as applicable.

Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Securities in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

**IMPORTANT – EEA RETAIL INVESTORS** – Other than as provided in the Applicable Transaction Terms in respect of any Securities, the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, save in relation to any jurisdiction(s) or period(s) for which the "Prohibition of Sales to EEA Retail Investors" is specified to be not applicable in any Applicable Transaction Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**IMPORTANT – UK RETAIL INVESTORS** – Other than as provided in the Applicable Transaction Terms in respect of any Securities, the Securities are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is either one (or both) of the following (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook ("**DISC**") for offering, selling or distributing the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Securities or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

**IMPORTANT – SWISS RETAIL INVESTORS** - If and to the extent the Securities will be offered, sold or advertised, directly or indirectly to retail clients (*Privatkundinnen und -kunden*) ("**Retail Clients**") pursuant to Article 4 para. 2 FinSA in Switzerland a key investor document (*Basisinformationsblatt*) within the meaning of Article 58 et seq. of FinSA relating to the Securities (a "**FinSA-KID**") would need to be prepared, unless the Retail Clients shall receive a key information document pursuant to the PRIIPs Regulation instead of a FinSA-KID.

**MiFID II product governance / target market** – The Applicable Transaction Terms in respect of any Securities will include a legend entitled "*MiFID II product governance*" which will outline the target market assessment in

## IMPORTANT NOTICES

respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

**UK MiFIR product governance / target market** – The Applicable Transaction Terms in respect of any Securities may, where applicable, include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

**Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time** (the "**SFA**") – Unless otherwise stated in the Applicable Transaction Terms in respect of any Securities, all Securities issued or to be issued under the Programme shall be capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

*The Securities are complex financial instruments with high risk. There are significant risks inherent in the holding of the Securities, including the risks in relation to their subordination, the circumstances in which the Guarantee and any other claim against the Guarantor may be written down or converted to ordinary shares and the implications on Securityholders (such as a substantial loss), the circumstances in which Securityholders may suffer loss as a result of holding the Securities are difficult to predict and the quantum of any loss incurred by investors in the Securities in such circumstances is also highly uncertain.*

**Guidance under the Hong Kong Monetary Authority (the "HKMA") circular** - In October 2022, the HKMA issued guidance on enhanced investor protection measures on the sale and distribution of debt instruments with loss-absorption features and related products (the "**HKMA Circular**"). Under the HKMA Circular, debt instruments with loss-absorption features, being subject to the risk of being written-down or converted to ordinary shares, and investment products that invest mainly in, or whose returns are closely linked to the performance of such instruments (together, "**Loss-Absorption Products**"), are to be targeted in Hong Kong at professional investors (as defined in the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) (the "**SFO**") and any subsidiary legislations or rules made under the SFO, "**Professional Investors**"). Unless otherwise specified in the Applicable Transaction Terms in respect of any Securities and the relevant guarantee, rights in respect of all Securities issued or to be issued under the Programme contain loss-absorption features and the Securities may therefore be considered Loss-Absorption Products under the HKMA Circular. Investors in Hong Kong should not purchase such Securities with loss-absorption features unless they are Professional Investors and understand the risks involved. Such Securities are generally not suitable for retail investors in Hong Kong in either the primary or the secondary markets.

## IMPORTANT INFORMATION RELATING TO NON EXEMPT OFFERS OF SECURITIES

Certain Tranches of Securities with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**".

### Restrictions on Non-Exempt Offers of Securities in relevant Member States of the EEA

This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Securities in each Member State in relation to which the Issuer has given its consent, as specified in the applicable Final Terms (each specified state a "**Non-exempt Offer Jurisdiction**" and together the "**Non-exempt Offer Jurisdictions**"). Any person making or intending to make a Non-exempt Offer of Securities on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided under "*Consent given in accordance with Article 5(1) of the Prospectus*" below and provided such person complies with the conditions attached to that consent.

### Consent given in accordance with Article 5(1) of the Prospectus Regulation

In the context of a Non-exempt Offer of Securities, the Issuer and the Guarantor accept responsibility, in each of the Non-exempt Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an "**Investor**") who purchases any Securities in a Non-exempt Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

None of the Issuer, the Guarantor or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer or any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

**Except in the circumstances set out in the following paragraphs, neither the Issuer nor the Guarantor has authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Securities. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and none of the Issuer, the Guarantor and, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.**

If, in the context of a Non-exempt Offer, an Investor is offered Securities by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

The financial intermediaries referred to in paragraphs (a)(i), (a)(ii) and (b) below are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

  - (ii) any financial intermediaries specified in the applicable Final Terms; and

The "**Authorised Offeror Terms**", being the terms to which the relevant financial intermediary agrees in connection with using this Base Prospectus, are that the relevant financial intermediary:

  - VI. retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to the relevant Dealer, the Issuer and the Guarantor or directly to the appropriate authorities with jurisdiction over the Issuer, the Guarantor and/or the relevant Dealer in order to enable the Issuer, the Guarantor and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules

### **IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF SECURITIES GENERALLY**

#### **No holding of Implicit Yield Securities other than Book-Entry Securities by Spanish individuals**

The sale, transfer, or acquisition of Implicit Yield Securities (as defined below) other than Book-Entry Securities, including, but not limited to, Zero Coupon Securities, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Securities other than Book-Entry Securities to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as an owner of Implicit Yield Securities other than as an owner of Book-Entry Securities or (ii) list any Implicit Yield Securities other than Book-Entry Securities on AIAF.

"**Implicit Yield Securities**" means Securities in respect of which the income derives from (a) the difference between the redemption amount and the issue price of the Securities, or (b), subject to the paragraph below, a combination of (i) an explicit coupon and (ii) the difference between the redemption amount and the issue price of the Securities.

For the purposes of this Base Prospectus and in accordance with Spanish tax regulations, Securities with the characteristics set out in (b) above will only be deemed Implicit Yield Securities if the interest payable in each year (explicit coupon) is lower than the Interest Rate of Reference applicable as of the Issue Date.

The "**Interest Rate of Reference**" shall be the interest rate applicable to each calendar quarter determined by reference to 80 per cent. of the weighted average rate fixed in the preceding calendar quarter for (a) three year Spanish Government Bond issues, if the Securities have a term of four years or less, (b) five-year Spanish Government Bond issues, if the Securities have a term of more than four years but equal or less than seven years, or (c) 10, 15 or 30-year Spanish Government Bond issues, if the Securities have a term of more than seven years, all as determined by the Calculation Agent in a commercially reasonable manner.

#### **Stabilisation**

In connection with the issue of any Tranche of Securities, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the Applicable Transaction Terms may over allot Securities or effect transactions with a view to supporting the price of the Securities at a level higher than that which might otherwise prevail. However stabilisation may not necessarily occur. Any stabilisation action may begin on or at any time after the adequate public disclosure of the Applicable Transaction Terms of the offer of the relevant Tranche of Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation-action or over-allotment shall be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

The amount paid and/or the value of assets (if any) to be delivered by the Issuer or the Guarantor, as the case may be, on redemption of the Reference Item Linked Securities may be less than the principal amount of the Reference Item Linked Securities and may in certain circumstances be zero.*

In such circumstances Holders may lose some or all of their investment.

#### ***Claims of holders under the Securities are effectively junior to those of certain other creditors***

The Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will at all times rank *pari passu* and rateably among themselves and at least *pari passu* with all other unsecured and unsubordinated outstanding obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

The guarantee in respect of the Securities (the "**Guarantee**") is an unsecured and unsubordinated preferred senior obligation of the Guarantor (*crédito ordinario preferente*). Subject to statutory preferences, the Securities will rank equally with any of the Issuer's other unsecured and unsubordinated indebtedness and the Guarantee will rank equally with any of the Guarantor's other unsecured and unsubordinated senior preferred indebtedness (*créditos ordinarios preferentes*). However, the Guarantee will be effectively subordinated to all of the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under Spanish law including the covered deposits and natural persons and micro, small and medium enterprises deposits referred to in Additional Provision 14 of Law 11/2015. The Guarantee is also structurally subordinated to all indebtedness of subsidiaries of the Guarantor insofar as any right of the Guarantor to receive any assets of such companies upon their winding-up will be effectively subordinated to the claims of the creditors of those companies in the winding-up.

In addition, the BRRD, Law and SRM Regulation 11/2015 (as defined below) contemplate that any liabilities to the Guarantor including but not limited to the Guarantee may be subject to the application of the general bail-in tool (see "*The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Securities. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity*" below).

#### ***There is no active trading market for the Securities***

Securities issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Securities which is already issued). If the Securities are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer and the Guarantor.

Although application may be made (i) to the regulated market of Euronext Dublin for the Securities to be admitted to its Official List of Euronext Dublin and trading on its regulated market, (ii) to AIAF for the Securities to be listed and admitted to trading on AIAF, (iii) to Euronext Lisbon for the Securities to be listed and admitted to trading on the regulated market of Euronext Lisbon, (iv) to WSE for the Securities to be listed and admitted to trading on the regulated market of the WSE, (v) to the Vienna Stock Exchange for the Securities to be listed and admitted to trading on the Vienna MTF, (vi) to Euronext Paris for the Securities to be listed and admitted to trading on the regulated market of Euronext Paris or (vii) to Euronext Dublin for the Securities to be admitted to its Official List of Euronext Dublin and trading on its Global Exchange Market, this does not mean that such Securities will be any more or less liquid than if such Securities were not listed and there is no assurance that such application will be accepted, that any particular Tranche of Securities will be so admitted or that an active trading market will develop.

Accordingly, a trading market for any particular Tranche of Securities may not develop or may be illiquid and Holders should be prepared to hold the Securities to maturity.

In addition, Series of the Securities issued under this Programme may be subscribed (upon issuance) by the Issuer itself or by its affiliate(s) for resales on the secondary market thereafter on the basis of investors' demand.

Accordingly, in these cases investors purchasing the relevant Securities should be aware that there may not be a liquid secondary market for the relevant Securities immediately. Even if a market does develop subsequently, it may not be liquid. Furthermore, investors should note that when subscribing the Securities the relevant Dealer may receive in consideration underwriting commissions and selling concessions. The Issuer may also offer and sell Securities directly to investors without the involvement of any Dealer. In addition, the Issuer or one of its affiliates may act market maker, liquidity provider or specialist or perform other similar roles in connection with the Securities, including inter alia acting as intermediary performing the investment service of execution of orders. In such cases, the Issuer or one of its affiliates can purchase the Securities issued by itself. In light of the above circumstances potential conflicts of interest may exist between the Issuer and/or its affiliates acting in such capacity of owners/holders of the Securities and/or market maker, liquidity provider or specialist or intermediary on the one hand and investors in the Securities on the other.

The relevant market maker, liquidity provider or specialist may act by virtue of agreements entered into with the Issuer and/or the Dealer/distributor, pursuant to which such subjects undertake to sell the Securities on the secondary market at a price calculated on the basis of predetermined conditions and/or for a maximum predetermined quantity. Where the liquidity of the Securities is supported by one or more subjects operating on the secondary market, there is a risk that the purchase price of the Securities is influenced in a prevalent manner by the activity of such subjects if the purchase price is formulated on the basis of pre-determined criteria; in such a case, in fact, the price may not reflect all the market variables and may not be indicative of the same and may, therefore, be different than the price that would have been determined independently on the market.

However, the Issuer reserves the right to cancel some or all of the Securities held by the Issuer itself or by repurchasing them from the relevant Dealer at any time prior to the final maturity of the Securities. Accordingly, the aggregate nominal amount or number of Securities outstanding at any time may be significantly less than the nominal amount outstanding on the Issue Date, and this could have a negative impact on the investor's ability to sell the Securities in the secondary market. While this risk applies to all Securities, it may be particularly the case with regard to Securities listed and/or traded on Borsa Italiana S.p.A. trading venues.

Any such right of cancellation by the Dealer or any other entity acting as Dealer, shall be exercised in accordance with applicable laws, the terms and conditions of the Securities and the applicable rules of the relevant stock exchange(s) and markets, including as to notification.

### ***The Issue Price may be greater than the market value of the Securities***

The Issue Price specified in the relevant Applicable Transaction Terms may be more than the market value of the Securities as at the Issue Date, and the price, if any, at which a Dealer or any other person is willing to purchase the Securities in secondary market transactions is likely to be lower than the Issue Price. In particular, the Issue Price may take into account amounts with respect to commissions relating to the issue and sale of the Securities as well as subscription fees, placement fees, direction fees, structuring fees and/or other additional costs as well as amounts relating to the hedging of the Issuer's obligations under the Securities, and secondary market prices are likely to exclude such amounts. Any difference between the issue price and/or offer price may have an adverse effect on the value of the Securities, particularly immediately following the offer and the issue date relating to such Securities, where any such amounts, fees and costs may be deducted from the price at which such Securities can be sold by the initial investor in the secondary market.

Furthermore, if the Securities are offered by the Issuer to the public directly on the secondary market in connection with any listing of the Securities ("**Direct Listing**"), the profit of the Securities for investors may be reduced taking into account that the purchase price of the Securities on the secondary market may be different from the Issue Price.

### ***Where Securities are issued on a partly paid basis, all the Securities will be redeemed where any investor fails to pay any subsequent instalment of the issue price***

The Issuer may issue Securities where the issue price is payable in more than one instalment. A failure by any investor to pay any instalment of the issue price in respect of the Securities held by such investor will result in all the Securities being redeemed even if all other investors have paid the relevant instalment.

### ***The Securities may be redeemed by the Issuer prior to maturity at the option of the Issuer or for taxation reasons***

Unless in the case of any particular Tranche of Securities the relevant Applicable Transaction Terms specifies otherwise, in the event that the Issuer or, as the case may be, the Guarantor would be obliged to increase the

## RISK FACTORS

amounts payable in respect of any Securities due to any withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied specifically by or on behalf of Ireland or the Kingdom of Spain where the Issuer and Guarantor are incorporated, respectively, and are tax residents of the Kingdom of Spain or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may in certain circumstances redeem all outstanding Securities in accordance with the Conditions.

If in the case of any particular Tranche of Securities the relevant Applicable Transaction Terms specifies that the Securities are redeemable at the Issuer's option in certain other circumstances, the Issuer may choose to redeem the Securities at times when prevailing interest rates may be relatively low. In addition, in the case of Securities other than Inflation Linked Securities, Credit Linked Securities, EUA Contract Linked Securities and Fund Linked Securities which are not linked in an ETF, if "AER Value Automatic Early Redemption Event" is specified as being applicable in the Applicable Transaction Terms, on the occurrence of an Automatic Early Redemption Event the Securities will be automatically redeemed at their Automatic Early Redemption Amount or, where such Securities are specified as Physical Delivery Securities, the Securities shall be redeemed by delivery of the AER Entitlement to the Holders thereof (and any cash amount to be delivered as a result of rounding down). In the case of an Equity Linked Security or Inflation Linked Security, if an Additional Disruption Event occurs and "Delayed Redemption on the Occurrence of Additional Disruption Event" is not specified in the Applicable Transaction Terms, the Issuer may redeem the Securities early. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the equivalent Securities and may only be able to do so at a significantly lower rate.

***Any change in the Underlying Transactions or their market value may materially adversely affect the Buy-Back Price payable in respect of Securities in relation to which the Specific Buy-Back Provisions apply***

If the Specific Buy-Back Provisions are specified as applicable in the Applicable Transaction Terms, investors should be aware that Santander International Products plc is not required to, but may at its option, maintain certain notional Underlying Transactions (as defined in Condition 6(k) (*Specific Buy-Back Provisions*)) from time to time. In the event that the Securities are bought-back by the Issuer prior to their scheduled Maturity Date in accordance with the Specific Buy-Back Provisions, the price of the Securities shall reflect and shall be determined taking into consideration, but will not necessarily be the same as, the Market Value (as defined in Condition 6(k) (*Specific Buy-Back Provisions*)) of such Underlying Transactions.

The Underlying Transactions, if any, will be selected from time to time by the Calculation Agent in its discretion and may be subject to change during the term of the Securities. In addition, the Issuer may elect not to maintain Underlying Transactions at any time, in which case the Issuer will not be able to buy back Securities in accordance with the Specific Buy-Back Provisions, although the Issuer may, at its option, purchase Securities at amounts other than the Buy-Back Price at any time. Any Underlying Transactions which are maintained at any time will, in any event, be notional transactions and the Issuer will not be required to maintain any actual transactions corresponding to Underlying Transactions. Any Underlying Transactions may have term(s) (or equivalent) which end prior to, on or after the Maturity Date of the Securities and/or notional amount(s) (or equivalent) that may be equal to or higher than the aggregate principal amount of the Securities. Information relating to the relevant Underlying Transactions (if any) will be made available to investors in accordance with the method of publication specified in the relevant Applicable Transaction Terms.

In the event that an investor requests that the Issuer buy-back any such Securities held by it prior to their maturity, and the Issuer accepts such request, the price of the Securities (the "**Buy-Back Price**") will be determined in a commercially reasonable manner by Banco Santander, S.A., acting in its capacity as Calculation Agent, taking into consideration but will not necessarily be the same as the Market Value of the Underlying Transactions. Any change in the Underlying Transactions and the Market Value of the Underlying Transactions may therefore materially adversely affect the Buy-Back Price payable to the relevant investor, particularly where the Underlying Transactions have term(s) which end after the Maturity Date of the Securities and/or notional amount(s) that are higher than the aggregate principal amount of the Securities.

Investors should refer to the "*Investment Considerations*" section for further information.

***Investors who hold less than the minimum Specified Denomination may be unable to sell their Securities and may be adversely affected if definitive Securities are subsequently required to be issued***

In relation to any issue of Securities which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Securities may be

traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of the minimum Specified Denomination. In such a case a Securityholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Security in respect of such holding (should definitive Securities be printed (or issued)) and would need to purchase a principal amount of Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If Securities in definitive form are issued (whether following exchange or as of the Issue Date), holders should be aware that definitive Securities which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

***Securities which are issued at a substantial discount may experience price volatility in response to changes in market interest rates***

The market value of Securities which are issued at a substantial discount (such as Zero Coupon Securities) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Securities, the greater price volatility as compared to conventional interest-bearing securities with comparable maturities.

***Exchange rates will affect the calculation of the FX Factor***

The FX Factor, where the Applicable Transaction Terms states that it applies, reflects the performance of the Specified Currency and the FX Value Reference Currency (or, where the Foreign Exchange (FX) Rate Linked Security provisions apply, the Base Currency and Subject Currency) during the life of the Securities and will be applied to the calculation of certain amounts under the Securities. An investor is therefore directly exposed to the performance of such currencies. Where such performance is adverse this may result in an overall loss to an investor.

***Risks relating to payment disruption events***

Where the Applicable Transaction Terms states that Payment Disruption Event applies, if a disruption event occurs which prohibits or prevents the Issuer from making a payment in respect of the Securities, such payment will be postponed to the earlier of: (i) a date falling 2 business days after the date on which such disruption event is no longer occurring or (ii) a date falling 60 calendar days following the scheduled due date for payment of the relevant amount, which, for the avoidance of doubt, may be later than the scheduled Maturity Date. No interest shall accrue and no event of default will result on account of such postponement. In the event the payment is postponed in accordance with (ii) above, the Issuer shall make payment of the relevant amount in U.S. Dollars, using an exchange rate to be determined by the Calculation Agent. As such, investors should note that they may be paid in a currency that is different from their investment and which may negatively impact the return on their investment.

***Risks in connection with the public offer of the Securities***

If the Securities are distributed by means of a public offer, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities. Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation.

Investors should be aware that potential conflicts of interest may arise in connection with the Securities, as any distributors or other entities involved in the offer and/or the listing of the Securities as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

In the case of Direct Listing, potential conflicts of interests may arise between the role of the Issuer as offeror and the role of: (i) the Issuer itself; and/or (ii) other entities of the Group; and/or (iii) other intermediaries, when the Issuer and/or the other entities of the Group and/or other intermediaries are performing the relevant investment service in relation to the Securities.

### *Certain risks relating to public offers of the Securities in Italy*

If the Securities are distributed by means of a public offer, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities. Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation.

The relevant Final Terms may also provide that the effectiveness of the offer of Securities is conditional upon admission to listing or to trading on the relevant regulated market and/or multilateral trading facility indicated in the relevant Final Terms, occurring by the Issue Date. In such case, in the event that admission to listing or trading of the Securities does not take place by the Issue Date for whatever reason, the Issuer may withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, the potential investor will not receive any Security, any subscription rights the potential investor has for the Securities will be cancelled and he/she will not be entitled to any compensation therefor.

The issue price and/or offer price of the Securities may include subscription fees, placement fees, direction fees, structuring fees and/or other additional costs. Any such fees and/or costs may not be taken into account for the purposes of determining the price of such Securities on the secondary market and could result in a difference between the original issue price and/or offer price, the theoretical value of the Securities, and/or the actual bid/offer price quoted by any intermediary in the secondary market. Any such difference may have an adverse effect on the value of the Securities, particularly immediately following the offer and the issue date relating to such Securities, where any such fees and/or costs may be deducted from the price at which such Securities can be sold by the initial investor in the secondary market.

Where Securities are offered to the public, as the relevant Dealer(s) and any distributors act pursuant to a mandate granted by the Issuer and they receive fees on the basis of the services performed and the outcome of the placement of such Securities, potential conflicts of interest could arise.

In addition, if it is indicated in the Final Terms that the Issuer will adopt the distribution process on the MOT described in article 2.4.3, paragraph 7 of the rules of the markets organised and managed by Borsa Italiana, the circumstance that, pursuant to this distribution process, potential investors can monitor (via market operators) the progress of the proposed purchases of the Securities during the offer period, may have an impact on the progress and results of the offer. Investors should also note that, pursuant to distribution process on the MOT indicated above, the proposed acquisition of the Securities during the offer period does not constitute conclusion of the contract, which remains subject to confirmation of the correct execution of the order and the issuance of the Securities.

***Securities issued as Green Bonds, Social Bonds or Sustainable Bonds, as described in Use of Proceeds, may not meet investor expectations or be suitable for an investor's investment criteria.***

The Applicable Transaction Terms relating to any specific Tranche of Securities may provide that an amount equal to the whole or a part of such net proceeds will be applied by the Guarantor to eligible assets (such Securities being "**Green Bonds**", "**Social Bonds**" or "**Sustainable Bonds**"), as described in the Santander Group Green, Social & Sustainability Funding Global Framework, published on the Santander web-site (see "*Use of Proceeds*").

The Guarantor or any of its affiliates (as the case may be) will exercise its judgment and sole discretion in determining the eligible assets that will be financed by the proceeds of any such Securities. The Guarantor will endeavour to allocate such proceeds to relevant eligible assets within 36 months of the issue of the relevant Securities. Such eligible assets may not meet the Guarantor's or any of its affiliates' (as the case may be) sustainable development goals or relevant framework agreements relating to green financing, as the case may be. In such case, if an asset fails to ensure continued compliance with the eligibility criteria, or if early repayment of an asset occurs, the Guarantor and/or any of its affiliates, as applicable, commits to replacing the asset with another one, respecting the eligibility criteria, within 12 months. Pending the allocation or reallocation, as the case may be, of the net proceeds of such Securities, the Guarantor or any of its affiliates, will invest the balance of the net proceeds, at its own discretion, in cash and/or cash equivalent and/or other liquid marketable instruments.

Businesses or projects which are the subject of, or related to, the relevant framework agreements may not meet investor expectations or any binding or non-binding legal or other standards regarding environmental impact. Such standards might include any present or future applicable law or regulations or under an investor's own by-laws or other governing rules, policies or investment mandates, in particular with regard to any direct or indirect environmental impact. The purchase of such Securities should be based upon such investigation as investors deem necessary.

Furthermore, the Guarantor has no contractual obligation to allocate (or cause allocation of) the proceeds of any such Securities to finance particular businesses and projects or (except as stated in the Applicable Transaction Terms) to provide reports or obtain any opinion, limited assurance or certification of a third party (whether or not solicited by the Guarantor) on, for example, the updated amount of proceeds allocated to particular businesses or projects or the environmental impacts of such financings. Even if any reports are provided or any opinion or certification obtained, these may not satisfy an investor's own by-laws or other governing rules, policies or investment mandates and such reports, opinions, limited assurances and/or certifications may be subject to amendment. Prospective investors must determine for themselves the relevance of any such report, opinion, limited assurance or certification and/or the provider of any report, opinion, limited assurance or certification for the purpose of any investment in such Securities. The providers of such reports, opinions, limited assurances and certifications may not be subject to any specific regulatory or other regime or oversight.

Any:

- (i) failure to apply the proceeds of any issue of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, in the manner described in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms;
- (ii) withdrawal of any opinion, limited assurance or certification or any opinion, limited assurance or certification being superseded by an opinion, limited assurance or certification stating that the Guarantor has not complied, in whole or in part, with any matters on which the original opinion, limited assurance or certification had opined, assured or certified; and/or
- (iii) event or circumstances resulting in any issue of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, no longer being listed or admitted to trading on any stock exchange or securities market,

may have a material adverse effect on the value of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, and could also result in adverse consequences for certain investors with investment criteria or guidelines to invest in securities to be used for a particular purpose. Holders of Green Bonds, Social Bonds or Sustainable Bonds will not have any voting rights with regards to the terms of the Green, Social & Sustainability Funding Global Framework and any changes thereto, even if such changes will not be consistent with an investor's portfolio mandate.

There is currently no widely-accepted clear definition (legal, regulatory or otherwise) of, or market consensus as to what constitutes, a "green", "social", "sustainable" or an equivalently-labelled project or asset or as to what precise attributes are required for a particular project or asset to be defined as "green", "social", "sustainable" or

such other equivalent label. Prospective investors should note a clear definition or consensus may not develop over time or if market consensus is developed, that any prevailing market consensus may significantly change. However, the EU Taxonomy (as defined in the "Investment Considerations" section) remains subject to the implementation of delegated regulations by the European Commission on technical screening criteria for the environmental objectives set out in the EU Taxonomy Regulation.

Any of the above factors (and any events that negatively affect the value of any other securities of the Issuer that are intended to finance "green", "social", "sustainable" or equivalently-labelled projects or assets) could have a material adverse effect on the value of such Securities.

Any Green Bonds issued under this Programme will not be compliant with Regulation (EU) 2023/2631 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds (the "**European Green Bond Regulation**") which entered into force on 20 December 2023 and applies from 21 December 2024 and are only intended to comply with the requirements and processes in the Green, Social & Sustainability Funding Global Framework. It is not clear if the establishment under the European Green Bond Regulation of the "European Green Bond" or "EuGB" label and the optional disclosures regime for bonds issued as "environmentally sustainable" could have an impact on investor demand for, and pricing of, green use of proceeds bonds that do not comply with the requirements of the "EuGB" label or the optional disclosures regime, such as the Green Bonds. It could result in reduced liquidity or lower demand or could otherwise affect the market price of any Green Bonds that do not comply with those standards proposed under the European Green Bond Regulation.

For the avoidance of doubt, there will be no segregation of assets and liabilities in respect of Green Bonds, Social Bonds or Sustainable Bonds. Accordingly, investors should note that payments of principal and interest (as the case may be) on Green Bonds, Social Bonds and Sustainable Bonds shall not depend on the performance of any relevant project. Holders of any Green Bonds, Social Bonds or Sustainable Bonds shall have no preferential rights nor benefit from any arrangements to enhance the performance of the relevant eligible assets.

## **2. Risk Factors Relating to Reference Item Linked Securities**

### ***Investors may lose some or all of the original investment amount***

The amount payable and/or the value of the assets (if any) deliverable to Holders on redemption of the Reference Item Linked Securities may be less than the principal amount invested by them in the Reference Item Linked Securities and may in certain circumstances be zero.

In order to realise a return upon an investment in the Reference Item Linked Securities, an investor must have correctly anticipated the timing and magnitude of an anticipated increase or the absence of a decrease in the value of the Reference Item Linked Securities relative to the Issue Price and must also be correct about when any change will occur. If the value of the Reference Item Linked Securities does not increase, or decrease, as the case may be, before such Reference Item Linked Securities are redeemed, part of the investor's investment in such Reference Item Linked Securities may be lost on such redemption. Other than in respect of Reference Item Linked Securities which are redeemable prior to the Maturity Date at the option of the Securityholder, the only means by which a Securityholder can realise value from its Reference Item Linked Securities prior to their Maturity Date is to sell such Reference Item Linked Securities at their then market price in the secondary market (if available) (see "*Illiquidity of the Secondary Market*" below).

Securities that are linked to a reference item and/or the obligations of a Reference Entity (as defined below) may be repayable in full, repayable for a minimum redemption amount or have principal at risk at maturity. Investors in Securities which have principal at risk may risk losing their entire investment (including the loss of any transaction costs paid by the investor) if the value of the reference item and/or obligation of a Reference Entity does not move in the anticipated direction. If the Securities are specified in the Applicable Transaction Terms as having a minimum redemption amount, such Securities are repayable for such amount at a minimum at maturity only and only to such extent. If Securities are redeemed or sold before their scheduled maturity or expiration, they may return less than the minimum redemption amount, the amount invested or even zero. In addition amounts payable may be subject to deductions for taxes or expenses.

Investors should note that certain Securities linked to the performance of the reference items or obligations of the Reference Entity, as the case may be, may not benefit from a minimum redemption amount or minimum cash settlement amount and investors may receive a cash amount and/or assets the value of which may be less than the

initial investment amount of the Securities and investors are exposed to the full loss of their investment (including the loss of any transaction costs paid by the investor).

### ***Fluctuations in the value of the relevant underlying will affect the value of Reference Item Linked Securities***

Fluctuations in the value of the relevant Reference Item will affect the value of Reference Item Linked Securities. Fluctuations in the value of the currency or currencies in or to which the Reference Item Linked Securities or the Reference Item itself are denominated or linked will also affect the value of such Reference Item Linked Securities.

The terms and conditions of the Reference Item Linked Securities generally may include adjustment and early redemption provisions and other terms which along with general market conditions and the financial condition of the underlying reference entity may affect the amounts due and payable and/or the value of the assets (if any) deliverable under such Reference Item Linked Securities and/or their Maturity Date. In these cases the Reference Item Linked Securities may be affected and may, in some cases, result in the Reference Item Linked Securities being redeemed early which may negatively impact the return to investors.

### ***Many factors may adversely affect the value and trading price of Reference Item Linked Securities***

Reference Item Linked Securities pose risks with regard to interim value. The interim value of the Reference Item Linked Securities varies with the price and is affected by a number of factors, many of which are beyond the Issuer's control, including but not limited to:

- (i) market interest rates;
- (ii) exposure to the performance of the Reference Item (and, in the case of Inflation Linked Securities, Equity Linked Securities and Custom Index Linked Securities, indirect exposure to the performance of the relevant index components where applicable);
- (iii) fluctuations in currency exchange rates;
- (iv) fluctuations in commodities prices;
- (v) fluctuations in bond prices;
- (vi) the liquidity of the Reference Item Linked Securities or any reference item(s) in the secondary market;
- (vii) the time remaining to any redemption date or the maturity date;
- (viii) the market price of the Reference Item Linked Securities, which may be volatile;
- (ix) if Reference Item Linked Securities reference a Reference Item's performance in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the relevant Reference Item on principal or interest payable on such Reference Item Linked Securities is likely to be magnified;
- (x) where the Reference Item(s) is/are credit linked, the creditworthiness of the specified reference entity or entities; and
- (xi) economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally and the stock exchange(s) on which the Reference Item Linked Securities may be traded.

The effects of one or a combination of these factors may mean that a Securityholder will not be able to sell any Reference Item Linked Securities prior to maturity at a price equal to or greater than the market value of the Reference Item Linked Securities on the Issue Date and such Holder may only be able to sell Reference Item Linked Securities at a discount, which may be substantial.

### ***Reference Item Linked Securities are not ordinary debt securities***

The terms of Reference Item Linked Securities differ from those of ordinary debt securities because the Reference Item Linked Securities may not pay interest on maturity, depending on the performance of the relevant underlying

Reference Item. The price of Reference Item Linked Securities may fall in value as rapidly as it may rise, and the return investors receive on Reference Item Linked Securities may be less than expected.

***The Calculation Agent has broad discretion and may take action which affects the relevant underlying reference item and/or the value of Reference Item Linked Securities***

Investors should note that, in exercising its duties in relation to Reference Item Linked Securities, the Calculation Agent may have considerable discretion in relation to certain matters which may affect amounts due and payable and/or assets deliverable under the Reference Item Linked Securities and/or their Maturity Date including (without limitation) the replacement of an underlying index, share or other asset, modification of amounts otherwise payable and/or assets deliverable on redemption or determining the closing price and/or potential early redemption of the Reference Item Linked Securities.

The Calculation Agent may make such adjustments as it considers appropriate as a consequence of certain corporate actions affecting the relevant underlying share or index. In making these adjustments, the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest, including the conflicts of interest highlighted above, in exercising this discretion.

***Illiquidity of the Secondary Market***

There may be no secondary market for the Reference Item Linked Securities. If a secondary market does exist, it may be illiquid and investors may find it difficult to trade the Reference Item Linked Securities. The number of Reference Item Linked Securities of any Series may be relatively small, further adversely affecting the liquidity of such Reference Item Linked Securities.

***Securityholders will not obtain any rights of ownership in the Reference Item(s)***

Purchasers of Securities should be aware that the Issuer is under no obligation to hold a position in any Reference Item(s) and should note that the relevant Reference Item(s) that may be held by the Issuer will not be held by the Issuer for the benefit of the purchasers of such Securities and, as such, Securityholders will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Securities.

***The past performance of a Reference Item is not indicative of future performance***

There is a risk that Reference Items perform differently than in the past and consequently any information about the past performance of the Reference Item at the time of the issuance of the Securities should not be regarded as indicative of the range of, or trends in, fluctuations in the Reference Item that may occur in the future.

***Delivery of Reference Items in respect of Physical Delivery Securities may be postponed or cash may be paid in lieu thereof***

In the case of Securities which are redeemable by delivery of assets (other than Credit Linked Securities), if a Settlement Disruption Event occurs or exists on the due date for redemption of the Securities, settlement will be postponed until the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event. The Issuer in these circumstances also has the right to pay the Disruption Cash Redemption Amount in lieu of delivering the Entitlement (as defined in the Terms and Conditions).

If a Failure to Deliver due to Illiquidity occurs, the Issuer has the right, in lieu of delivery of the assets affected by such event, to pay the Failure to Deliver Redemption Amount to the Securityholders. The Disruption Cash Redemption Amount and/or the Failure to Deliver Redemption Amount may be less than the fair market value of the Entitlement.

***Securityholders may be required to pay certain expenses in relation to Securities subject to Physical Delivery***

Holders of Securities subject to Physical Delivery must pay all Expenses relating to delivery of such Securities which may reduce the overall return on investment. As defined in the terms and conditions, "Expenses" includes all costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes arising from the delivery of the Entitlement.

***There are certain requirements to be fulfilled and payments to be made by the holder in order to receive Securities subject to Physical Delivery and the Issuer may decide to settle by way of cash payment instead in certain circumstances***

In order to receive the Entitlement in respect of a Security settled by way of Physical Delivery, the holder of any Securities other than Book-Entry Securities must deliver or send to the relevant Clearing System or Principal Paying Agent, or the Issuer, (through the relevant Monte Titoli Account Holder, in the case of Monte Titoli Book-Entry Securities or through the relevant French Law Securities Account Holder, in the case of French Law Securities), as applicable, a duly completed Asset Transfer Notice or, the Iberclear Member of any Book-Entry Securities must send a duly completed Iberclear Settlement Instruction to the Iberclear Paying Agent on or prior to the relevant time on the Cut-off Date and pay the relevant Expenses. If a Securityholder fails to deliver as required the certification of non-US beneficial ownership or certification that it is an eligible investor for US securities law purposes, the Issuer may deliver what the Calculation Agent determines to be the fair market value of the Entitlement instead of the relevant assets.

***Switchable Securities may result in materially lower investment returns***

If, in relation to a Series of Securities, interest rate payout formula "Rate of Interest (xxx) – Switchable" applies or final payout formula "Redemption (xix) – Switchable" applies (such Securities being "**Switchable Securities**"), the Issuer has a right to exercise the "Switch Condition", which will change the basis on which the interest rate payout and/or final payout (as applicable) are determined by delivering a notice to the Holders in accordance with Condition 14 (*Notices*) a specified number of Business Days prior to a relevant Valuation Date (see also the definition of "Switch Condition" in Payout Condition 5.4 (*Conditional Conditions*)) (as completed by the Applicable Transaction Terms)). The Issuer may exercise this right in its sole and absolute discretion. If the Issuer exercises the Switch Condition, the way in which the interest rate payouts and/or the final payout (as applicable) are determined will change. These changes may be detrimental to investors and could result in materially lower investment returns.

***Hedging activities may affect the market price, liquidity or value of Reference Item Linked Securities***

In connection with the offering of the Reference Item Linked Securities, the Issuer, the Guarantor and/or any of its affiliates may enter into one or more hedging transactions with respect to any potential reference item(s) or related derivatives. In connection with such hedging activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer, the Guarantor and/or any of its affiliates may enter into transactions in the reference item(s) or related derivatives which may, but are not intended to, affect the market price, liquidity or value of the Reference Item Linked Securities and which could be deemed to be adverse to the interest of the relevant Securityholders.

***Hedging transactions by the Issuer may affect the return on Reference Item Linked Securities***

The Issuer may use a portion or all of the total proceeds from the issue of the Securities for transactions to hedge the risks of the Issuer relating to Reference Item Linked Securities. In such case, the Issuer may conclude transactions that correspond to the obligations of the Issuer under the Reference Item Linked Securities. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Reference Item Linked Securities. On or before a valuation date or delivery date, the Issuer or its affiliates may take the steps necessary for closing out any hedging transactions. The price, level or value of a relevant underlying security, index or other underlying, or the portfolio of which a share, index or other underlying forms a part, may be influenced by such transactions. Entering into or closing out these hedging transactions may also influence the probability of occurrence or non-occurrence of determining events in the case of Reference Item Linked Securities with a value based on the occurrence of a certain event in relation to a relevant underlying security, index or other underlying, or the portfolio of which a share or index forms a part, which may in turn adversely affect the return (if any) received by investors.

***Conflicts of interest between the Issuer, the Guarantor and its affiliates and the Securityholders***

The Issuer, the Guarantor and its affiliates may:

- (i) engage in trading and market-making activities and hold long or short positions in the relevant reference item(s) and other instruments or derivative products based on or related to the relevant reference item(s) for their proprietary accounts or for other accounts under their management;

- (ii) issue Reference Item Linked Securities in respect of the relevant reference item(s) which are securities, or issue derivative instruments in respect thereof;
- (iii) serve as issuer, agent, manager or underwriter of such securities or other instruments;
- (iv) act as underwriter in connection with future offerings of securities which comprise the reference items; and
- (v) act as financial advisers to certain underlying companies or reference entities.

The Issuer's, the Guarantor's and its affiliates' interests with respect to such securities, instruments and products may be adverse to those of the Securityholders and such activities could present certain conflicts of interest, could influence the prices of such reference items and could adversely affect the value of the Reference Item Linked Securities. Potential conflicts of interest may also arise in connection with an issue of Securities, as any distributors or other entities involved in the offer and/or the listing of such Securities, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

Additionally, if acting as calculation agent for Equity Linked Securities or Inflation Linked Securities linked to one or more securities or indices or EUA Contract Linked Securities, Custom Index Linked Securities or Bond Linked Securities, the Guarantor or the Issuer will determine the payout (whether cash and/or assets) to the investor at maturity. The Issuer, the Guarantor and their affiliates may also carry out hedging activities related to any Equity Linked Securities or Inflation Linked Securities linked to one or more securities or indices or EUA Contract Linked Securities, Custom Index Linked Securities or Bond Linked Securities, including trading in the underlying securities and/or indices, as well as in other instruments related to the underlying securities and/or indices. The Issuer, the Guarantor and their affiliates may also trade the applicable underlying securities and/or indices and other financial instruments related to the underlying securities and/or indices on a regular basis as part of their general broker-dealer and other businesses. Any of these activities could influence the Calculation Agent's determination of adjustments made to any Equity Linked Securities or Inflation Linked Securities linked to one or more securities and/or indices and any such trading activity could potentially affect the price, level or value of the underlying securities and/or indices and or EUA Contract Linked Securities, Custom Index Linked Securities or Bond Linked Securities, which accordingly, could affect the investor's payout on any Equity Linked Securities or Inflation Linked Securities or EUA Contract Linked Securities or Custom Index Linked Securities or Bond Linked Securities.

### **3. Risks Relating to Specific Types of Reference Item Linked Securities**

#### ***Risks Relating to Fund Linked Securities***

*An investment in Fund Linked Securities is not comparable to an investment in a conventional debt security*

An investment in Fund Linked Securities will entail significant risks not associated with an investment in a conventional debt security. Payments and/or assets (if any) deliverable in respect of Fund Linked Securities will be calculated by reference to units, interests or shares in a single fund or basket of funds on such terms as set out in the Pricing Supplement, and the price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser. Where the Issuer issues Fund Linked Securities linked to one or more funds, including hedge funds, mutual funds, private equity funds or exchange traded funds, the relevant Fund Linked Securities reflect the performance of such fund(s). Accordingly, an investment in Fund Linked Securities may bear similar market risks to a direct fund investment. If the underlying fund does not perform sufficiently well, the value of the Fund Linked Securities will fall, and may in certain circumstances be zero.

In relation to ETFs (as defined below), see also "*Risks Relating to ETF Linked Securities*".

*The return on Fund Linked Securities may be significantly less than the reported performance of the relevant fund(s) and may be zero*

The amount payable and/or the value of the fund shares (if any) deliverable in respect of Fund Linked Securities will be dependent on the performance of the relevant fund(s) underlying the Fund Linked Securities, which (as applicable) may be linked to the NAV per Fund Share and/or the actual redemption proceeds the Hedge Provider or a (hypothetical) investor in the relevant fund(s) would receive. The amount payable or the value of the fund shares (if any) deliverable in respect of the Fund Linked Securities may be less than the amount payable from a

direct investment in the relevant fund(s). In certain circumstances, a fund may continue reporting a NAV per Fund Share (or Aggregate Fund Shares NAV, as the case may be), but the Hedge Provider or a (hypothetical) investor may not be able to realise their investment in the relevant fund(s) at such reported NAV per Fund Share (or the corresponding NAV per Fund Share as calculated by the Calculation Agent). In such a case, the return on the Fund Linked Securities may be less and in certain circumstances may be significantly less than the reported performance of the relevant fund(s) and may be zero.

*Fund Linked Securities may be cancelled, adjusted or redeemed early in certain circumstances*

Fund Linked Securities may be subject to cancellation or early redemption or adjustment (including as to valuation and fund substitutions) if certain corporate events (such as insolvency (or analogous event) occurring with respect to a fund; litigation against, or regulatory events occurring with respect to, a fund; suspensions of fund subscriptions or redemptions; certain changes in net asset value of a fund; or modifications to the investment objectives or changes in the nature or administration of a fund) occur, if certain valuation or settlement disruption events occur with respect to a fund, or if certain events (such as illegality, disruptions or cost increases occur).

*The issuer of fund shares or units may not disclose all relevant information*

No fund service provider will have participated in the preparation of the relevant Applicable Transaction Terms or in establishing the terms of the Fund Linked Securities, and none of the Issuer, the Guarantor or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Applicable Transaction Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in any relevant Applicable Transaction Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Fund Linked Securities.

*Holders will have no participation or ownership rights in relation to the underlying fund(s)*

Fund Linked Securities do not provide Holders with any participation rights in the underlying fund(s) and do not entitle holders of Fund Linked Securities to any ownership interest or rights in such fund(s). Except as may be otherwise provided in the Conditions and/or the relevant Applicable Transaction Terms, Holders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Securities relate.

*Fund trading strategies are complex, opaque and create the risk of significant losses which may reduce any amount payable or deliverable to holders of Fund Linked Securities*

Funds may trade and invest in a broad range of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures, swaps and options. Such financial instruments and investment techniques may also include, but are not limited to, the use of leverage, short sales of securities, transactions that involve the lending of securities to financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. These investment strategies and financial instruments create the risk of significant losses that may adversely affect the value of the fund and therefore the return on the Fund Linked Securities. Potential investors should be aware that none of the Issuer, the Guarantor, the Dealers or the Calculation Agent have any control over investments made by a fund and poor performance of a fund may significantly reduce the amount payable and/or deliverable (if any) to Holders on cancellation or redemption, as applicable, of any Fund Linked Securities. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Consequently, Holders may be exposed to the volatility in the performance of the relevant Funds which may affect the overall return on their investment.

## RISK FACTORS

*The Hedging Provider may hedge the Issuer's obligations under Fund Linked Securities without regard to the interests of holders*

In hedging the Issuer's obligations under the Fund Linked Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant fund(s), replicating the performance of the relevant fund(s) or holding any of the assets underlying the relevant fund(s). The Hedge Provider may perform any number of different hedging practices with respect to Fund Linked Securities and is not required to have regard to the interests of holders of Fund Linked Securities, notwithstanding that its actions may ultimately result in holders receiving a lower return on their investment.

*The occurrence of Extraordinary Fund Events may adversely affect the value or liquidity of the Fund Linked Securities*

If certain events ("**Extraordinary Fund Events**") including events in the determination of the Calculation Agent occur, the Issuer or, as the case may be, the Guarantor may, in its sole and absolute discretion, take no action, adjust the terms of the Fund Linked Securities to reflect such event, substitute the relevant Fund Shares or redeem the Fund Linked Securities.

*Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the Fund Linked Securities. In addition, in the event that redemption proceeds in respect of the underlying Fund Shares are not received by the Hedge Provider on or prior to the scheduled date for settlement, such settlement date may be postponed for such period as may be specified in the Applicable Transaction Terms and no additional amount shall be payable as a result of such delay.*

The Issuer will exercise its rights under the Fund Linked Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor, any Dealer or the Calculation Agent owes any duty or responsibility to any of the Holders of the Fund Linked Securities. The exercise of such rights in such manner may result in a greater loss in performance of the Fund Linked Securities than if the Issuer had taken different action.

A fund may be established as part of a master-feeder fund structure. Generally, a master-feeder fund structure involves the incorporation of a "master" fund company into which separate and distinct "feeder" funds invest. Active management of any investment strategy is, generally, performed at the master fund level. In instances where the fund(s) underlying the relevant Fund Linked Securities are "feeder" funds, the Extraordinary Fund Events extend to include the "master" fund and its service providers.

### ***Risks Relating to ETF Linked Securities***

*An investment in ETF Linked Securities is not comparable to an investment in a conventional debt security*

The Issuer may issue Securities where the amount of principal and/or interest payable in respect of the Securities are dependent upon the price or changes in the price of units or shares in an exchange traded fund or funds ("**ETFs**") or, depending on the price or changes in the price of units or shares in such ETFs, where the Issuer's obligation on redemption is to deliver a specified amount of fund shares ("**ETF Linked Securities**"). Accordingly an investment in ETF Linked Securities may bear similar market risks to a direct ETF investment but also entail significant risks not associated with an investment in a conventional ETF investment. Depending on the terms of the ETF Linked Securities (i) no or a limited amount of interest may be payable to Holders, (ii) payment of principal or interest or delivery of any specified ETF Shares may occur at a different time than expected and (iii) Holders may lose all or a substantial portion of their investment. In addition, the movements in the price of units, shares or interests in the ETFs may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the ETFs may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units, shares or interests in the ETFs, the greater the effect on yield and the return for investors.

*Holders will be exposed to the volatility of the market price of ETF Linked Securities*

The market price of ETF Linked Securities may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of units or shares in the ETFs. The price of units or shares in an ETF may be affected by the economic, financial and political events in one or more jurisdictions, including factors

affecting the exchange(s) or quotation system(s) on which any units or shares in the ETFs may be traded. In addition, the price of units or shares in an ETF may be affected by the performance of the fund service providers, and, in particular, the investment advisor. None of the Issuer, the Guarantor, any affiliate of the Issuer or Guarantor or the Calculation Agent make any representation as to the creditworthiness of any relevant ETF or any such fund's administrative, custodian, investment manager or adviser.

*The value of ETF Linked Securities is linked to the performance of the underlying ETFs which may affect the overall return on investment*

The relevant ETFs may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. The relevant ETFs may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of ETFs are often opaque. The ETFs, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Consequently, Holders may be exposed to the volatility in the performance of the ETFs which may affect the overall return on their investment.

*Holders may receive physical delivery of ETF Shares in lieu of payment of cash amounts*

Where the ETF Linked Securities include the right of the Issuer, subject to the fulfilment of a particular condition, to redeem such Securities at their maturity by delivering ETF Shares to the purchaser of such Securities, the purchasers will receive such ETF Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such ETF Shares and the risks associated with such ETF Shares. The purchaser should not assume that the Securityholder will be able to sell such ETF Shares for a specific price after the redemption of the Securities, and in particular not for the purchase price of the ETF Linked Securities. Under certain circumstances the ETF Shares may only have a very low value or a value of zero. Securityholders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such ETF Shares.

*The occurrence of Potential ETF Events or Extraordinary ETF Events may adversely affect the value or liquidity of the ETF Linked Securities*

In the event of the occurrence of certain events ("**Potential ETF Events**"), the Calculation Agent may seek to make adjustments in accordance with the ETF Linked Conditions which may reduce the overall return on investment. If certain events ("**Extraordinary ETF Events**") including events in the determination of the Calculation Agent occur, the Issuer may, take no action, require the Calculation Agent, in its sole and absolute discretion, to determine the adjustments (if any) to be made to the terms of the ETF Linked Securities to reflect such event, substitute the relevant ETF Shares or redeem the ETF Linked Securities. Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the ETF Linked Securities.

The Issuer will exercise its rights under the ETF Linked Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary ETF Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor, any Dealer or the Calculation Agent owes any duty or responsibility to any of the Holders of the ETF Linked Securities. The exercise of such rights in such manner may result in a greater loss in performance of the ETF Linked Securities than if the Issuer had taken different action.

### ***Risks Relating to Equity Linked Securities***

*Investors have no shareholder rights*

As an owner of Equity Linked Securities, investors will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to any underlying security or index.

*Risk of automatic early redemption in respect of Equity Linked Securities*

In relation to certain Equity Linked Securities, Equity Linked Securities will be automatically redeemed prior to their maturity if certain conditions specified in the relevant Applicable Transaction Terms are met. Securities of this type have an uncertain maturity date. Where such Securities are redeemed prior to their scheduled maturity date, investors may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the equivalent Equity Linked Securities.

### ***Risks Common to Equity Linked and Inflation Linked Securities***

*Investors are exposed to certain key risks, including a loss of all or a substantial portion of their investment*

An investment in Equity Linked or Inflation Linked Securities entails certain risks as set out below, which may vary depending on the specification and type or structure of the Equity Linked or Inflation Linked Securities. Potential investors in Equity Linked or Inflation Linked Securities should be aware that:

- (a) they may lose all or a substantial portion of their principal or investment, depending on the performance of each relevant underlying security or index;
- (b) the market price of such Equity Linked or Inflation Linked Securities may be very volatile;
- (c) investors in Equity Linked or Inflation Linked Securities may receive no interest;
- (d) a relevant underlying security or index may be subject to significant fluctuations that may not correlate with changes in securities prices, indices or inflation indices;
- (e) any Dividend Index may carry additional specific risks not associated with a normal share index, in particular since such index will relate to dividend payments, if any, of relevant reference shares, instead of share prices;
- (f) if a relevant underlying security or index is applied to Equity Linked Securities in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the relevant underlying security or index on principal or interest payable on such Inflation Linked Securities is likely to be magnified; and
- (g) the timing of changes in a relevant underlying security or index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant underlying security or index, the greater the effect on yield.

Prospective investors should refer to the "Investment Considerations" section and in particular the section therein entitled "Considerations Relating to Equity Linked and Inflation Linked Securities – Considerations relating to whether an investment in Equity Linked and Inflation Linked Securities is suitable for a particular investor".

*The value of Equity Linked and Inflation Linked Securities may be substantially reduced by unpredictable factors beyond the Issuer's and the Guarantor's control*

The value of the Equity Linked Securities or Inflation Linked Securities may be substantially reduced by several factors beyond the Issuer's and the Guarantor's control including:

1. *Valuation of the relevant underlying security or index.* The market price or value of an Equity Linked Security or Inflation Linked Security at any time is expected to be affected primarily by changes in the price, level or value of the relevant underlying security or index to which the Equity Linked Securities or Inflation Linked Securities are linked. As a consequence, the value of the underlying security or index may be subject to significant fluctuations that may not correlate with changes in prices or inflation indices and securities move generally. It is impossible to predict how the price, level or value of the relevant underlying security or index will vary over time. The historical performance value (if any) of the relevant underlying security or index does not indicate the future performance of the relevant underlying security or index. Factors which may have an effect on the price, level or value of the relevant underlying security or index include the rate of return of the relevant underlying security or index and, where relevant, the financial position and prospects of the issuer of the relevant underlying security or index, the market price, level or value of the applicable underlying security, index, or inflation index, or basket of securities, indices, or inflation indices. In addition, the price, level or value of the relevant underlying security or index may depend on a number of inter-related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that while the value of the Equity Linked or Inflation Linked Securities is linked to the relevant underlying security or index and will be influenced (positively or negatively) by the relevant underlying security or index, any change may not be comparable and may be disproportionate. It is possible that while the relevant underlying security or index is increasing in value, the value of the Equity Linked Securities or Inflation Linked Securities may fall. Further, the Additional Terms and Conditions of the Equity Linked Securities or Inflation Linked Securities will allow the Calculation Agent to make

## RISK FACTORS

adjustments or take any other appropriate action if circumstances occur where the Equity Linked or Inflation Linked Securities or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;

2. *Volatility.* The term "volatility" refers to the actual and anticipated frequency and magnitude of changes of the market price, level or value with respect to a relevant underlying security or index. Volatility is affected by a number of factors, such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a relevant underlying security or index will move up and down over time (sometimes more sharply than at other times) and different relevant underlying security or index will most likely have separate volatilities at any particular time;
3. *Dividend rates and other distributions.* The value of certain Equity Linked Securities could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a relevant underlying security;
4. *Interest rates.* Investments in the Equity Linked Securities or Inflation Linked Securities may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Equity Linked Securities or Inflation Linked Securities to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In general, the effects of this risk increase as the market interest rates increase;
5. *Remaining term.* Generally, the effect of pricing factors over the term of Equity Linked Securities or Inflation Linked Securities will decrease as the maturity, date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the maturity date, but may undergo temporary acceleration and/or deceleration. Even if the price, level or value of the relevant underlying share or index rises or falls there may be a reduction or increase, as the case may be, in the value of Equity Linked Securities or Inflation Linked Securities due to the other value determining factors. Given that the term of Equity Linked Securities or Inflation Linked Securities is limited, investors cannot rely on the price, level or value of the relevant underlying share or index or the value of the Equity Linked Securities or Inflation Linked Securities recovering again prior to maturity;
6. *Creditworthiness.* Investors are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights against any other person. If the Issuer or the Guarantor becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a relevant underlying share or index; and
7. *Exchange Rates.* The value of Equity Linked Securities or Inflation Linked Securities could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Equity Linked Securities or Inflation Linked Securities is to be made and any currency in which a relevant underlying share or index is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. Rates of exchange between any relevant currencies which are current rates at the date of issue of the Equity Linked Securities or Inflation Linked Securities may not be representative of the relevant rates of exchange used in computing the value of the Equity Linked Securities or Inflation Linked Securities at any time thereafter.
8. *Timing of changes to the Inflation Index or the relevant component(s) of an Inflation Index.* The timing of changes in an Inflation Index or a relevant component(s) of an Inflation Index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Inflation Index or the relevant component(s) of an Inflation Index, the greater the effect on yield.

Some or all of the above factors will influence the price that investors will receive if an investor sells its Equity Linked Securities or Inflation Linked Securities prior to maturity. Investors may have to sell certain Equity Linked Securities or Inflation Linked Securities at a substantial discount from the principal amount or investment amount if the market price, level or value of the applicable relevant underlying share or index is at, below, or not sufficiently above the initial market price, level or value or if market interest rates rise. The secondary market price of the Equity Linked Securities or Inflation Linked Securities may be lower than the market value of the issued Equity Linked Securities or Inflation Linked Securities as at the Issue Date to take into account, among other things, amounts paid to distributors and other intermediaries relating to the issue and sale of the Equity

Linked Securities or Inflation Linked Securities and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Equity Linked Securities or Inflation Linked Securities before the stated expiration or maturity date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Equity Linked Securities or Inflation Linked Securities and which may also be less than the amount and/or the value of the assets (if any) the investor would have received had the investor held the Equity Linked or Inflation Linked Securities through to maturity.

*Market Disruption Events and Disrupted Days may result in adjustments and/or early redemption of Securities*

The Calculation Agent may determine that a Market Disruption Event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, and any consequential postponement of such date of valuation may have an adverse effect on the value of the Equity Linked or Inflation Linked Securities.

In addition, the Calculation Agent may make adjustments to Equity Linked or Inflation Linked Securities to account for relevant adjustments or events in relation to the relevant underlying share or index including, but not limited to, determining a successor to the relevant underlying share or index or its sponsor (in the case of an index). In addition, in certain circumstances, the Issuer may redeem the Equity Linked or Inflation Linked Securities prior to the Maturity Date following any such event. In this case, in relation to each Equity Linked or Inflation Linked Security, the Issuer will pay an amount, if any, determined as provided in the Terms and Conditions.

*There may be correlation risk in the use of Equity Linked or Inflation Linked Securities as hedging instruments*

Any person intending to use Equity Linked or Inflation Linked Securities as a hedging instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. Equity Linked or Inflation Linked Securities may not hedge exactly a relevant underlying security or index or portfolio of which a relevant security or index forms a part. In addition, it may not be possible to liquidate Equity Linked or Inflation Linked Securities at a price which directly reflects the price, level or value of the relevant underlying security or index or portfolio of which a share or index forms part. Potential investors should not rely on the ability to conclude transactions during the term of the Equity Linked or Inflation Linked Securities to offset or limit the relevant risks. This depends on the market situation and the specific relevant underlying security or index conditions. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for the Securityholder.

*There are additional risks in relation to Equity Linked Securities or Inflation Linked Securities linked to a single emerging market security, a single emerging market index, or a basket of securities or a basket of indices composed, in part or in whole, of emerging market securities or indices*

Fluctuations in the trading prices of the underlying emerging market equity will affect the value of Equity Linked Securities or Inflation Linked Securities. Changes may result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the related countries or member nations, including economic and political developments in other countries. Of particular importance to potential risks are: (i) rates of inflation; (ii) interest rate levels; (iii) balance of payments; and (iv) the extent of governmental surpluses or deficits in the relevant country. All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the related countries, the governments of the related countries and member nations (if any), and other countries important to international trade and finance. Government intervention could materially and adversely affect the value of such Equity Linked or Inflation Linked Securities. Governments use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes to affect the trading of the underlying equity. Thus, a special risk in purchasing such Equity Linked or Inflation Linked Securities is that their trading value and amount payable and/or the value of the assets (if any) deliverable at maturity could be affected by the actions of governments, fluctuations in response to other market forces and the movement of currencies across borders. Emerging markets stocks may be more volatile than the stocks in more developed markets.

*Liquidity may affect the pricing of the relevant underlying security or index on Equity Linked and Inflation Linked Security*

The Issuer's and its affiliates' hedging costs tend to be higher the less liquidity the relevant underlying security or index has or the greater the difference between the "buy" and "sell" prices for the relevant underlying security or index or derivatives contracts referenced to the relevant underlying security or index. When quoting prices for

Equity Linked or Inflation Linked Securities, the Issuer will factor in such hedging costs and will pass them on to the Securityholders by incorporating them into the "buy" and "sell" prices. Thus, Securityholders selling their Equity Linked or Inflation Linked Securities on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Equity Linked or Inflation Linked Securities at the time of sale.

*The Issuer and the Guarantor may deal with underlying companies but do not control them*

The Issuer or the Guarantor or their respective subsidiaries may presently or from time to time engage in business with any underlying company, including entering into loans with, or making equity investments in, the underlying company or its affiliates or subsidiaries or providing investment advisory services to the underlying company, including merger and acquisition advisory services. Moreover, neither the Issuer nor the Guarantor has the ability to control or predict the actions of the underlying company or index publisher, including any actions, or reconstitution of index components, of the type that would require the calculation agent to adjust the payout to the investor at maturity.

*Fluctuations in the value of components of underlying securities or indices may be offset by other fluctuations and there may be exchange rate risk*

Fluctuations in the value of any one component of the relevant underlying security or index may, where applicable, be offset or intensified by fluctuations in the value of other components. Where the value of the components of the relevant underlying security or index is determined in a different currency to the value of the relevant underlying security or index, investors may be exposed to exchange rate risk.

*Exchange rates and exchange controls may affect the value or return of the Equity Linked or Inflation Linked Securities*

Investors in an Equity Linked or Inflation Linked Security denominated in, or the return on which is linked to value for a relevant underlying security or index denominated in currencies other than an investor's home currency are exposed to the risk of significant changes in rates of exchange between its home currency and the other relevant currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental authorities. These risks generally depend on economic and political events over which the Issuer has no control. Depreciation against the investor's home currency or the currency of the return on an Equity Linked or Inflation Linked Security would result in a decrease in the effective yield of the Equity Linked or Inflation Linked Security below its coupon rate and could result in an overall loss to an investor on the basis of the investor's home currency.

In addition, investors in UVR Inflation-Adjusted Securities, UDI Inflation-Adjusted Securities or UF Inflation-Adjusted Securities should understand that the payments in respect of such Securities are adjusted by reference to the UVR Index, UDI Index or UF Index, as applicable, in effect on the applicable payment date and so the return for investors is exposed to fluctuations in the relevant rate. In addition if certain changes are made in relation to such rate and other factors then the Calculation Agent is entitled to determine consequential adjustments to the Conditions or to determine that the Securities will be repayable at the Early Redemption Amount. In either case this means that investors will be exposed to the risk that such changes to the relevant rate occur and this may reduce the return on the Securities for investors.

### ***Risks relating to Foreign Exchange (FX) Rate Linked Securities***

*Investors may lose all or a substantial portion of their investment*

Potential investors in any such Securities should be aware that, depending on the terms of the Foreign Exchange (FX) Rate Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of assets may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion or all of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

*Movements in the foreign exchange rate(s) to which the Foreign Exchange (FX) Rate Linked Securities are linked may adversely affect the value of and return on the Foreign Exchange (FX) Rate Linked Securities*

The Issuer may issue Securities where the amount of principal and/or interest payable in respect of the Securities are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Securities are denominated ("**Foreign Exchange (FX) Rate Linked Securities**"). Accordingly an investment in Foreign Exchange (FX) Rate Linked Securities may bear similar market risks to a direct foreign exchange investment.

The foreign exchange rate(s) to which the Securities are linked will affect the nature and value of the investment return on the Securities. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency. Where the Securities are linked to the currency of an emerging market jurisdiction, such risks may be magnified – see "*Risks in relation to emerging market currencies*" below.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

*The occurrence of disruption events may result in the restriction or variation of payments and other obligations under the Foreign Exchange (FX) Rate Linked Securities*

Payments of principal and interest or other obligations of the Issuer in respect of any Foreign Exchange (FX) Rate Linked Securities may be restricted or varied upon the occurrence of certain disruption events applicable to the Securities. A relevant disruption event for an exchange rate may relate to the inability to obtain a price for the exchange rate from the applicable price source(s), illiquidity, the split of any relevant currency into a dual exchange rate, inconvertibility, non-transferability, a material change in circumstances in the jurisdiction of the Subject Currency that makes it impossible to fulfil certain hedging arrangements, a nationalisation or variations in the prices quoted for the exchange on different sources being greater than a specified percentage threshold (or not quoted for by members of a survey used to determine such source) if specified for that rate in the terms and conditions of the Securities and/or the Applicable Transaction Terms.

Following a relevant disruption event, the applicable valuation date may be postponed so long as the relevant disruption event continues, the Calculation Agent may determine the applicable exchange rate, the Securities may be redeemed early (or on the originally designated date) by payment of the applicable early redemption amount rather than any amount that would have otherwise been calculated in respect of and due on the relevant date, the related date for payment or delivery may be deferred so long as the relevant disruption event continues or a fallback reference price source or sources may be used to calculate the rate instead of the originally designated price source. Consequently, investors are exposed to the risk of an adverse effect on (i) the value of, and/or amounts or assets due in respect of, the Securities due to the occurrence of any disruption event and application of the related disruption fallback(s); or (ii) an investor's investment schedule, timetable or plans if any due date for payment and/or delivery under the Securities is postponed as a consequence of a disruption event.

*Risks in relation to emerging market currencies*

Where the Securities are denominated in an emerging market currency or linked to one or more emerging market currency, amounts determined to be due or deliverable in respect of such Securities may be significantly more volatile and subject to less certainty as to future rates than if the Securities were linked to currencies of more developed markets. For example, emerging markets' currencies are highly exposed to the risk of a currency crisis occurring in the future.

In particular, policies or actions of any relevant governments of the jurisdictions of the Subject Currencies and Base Currencies (the "**Currency Jurisdictions**") could adversely affect the relevant exchange rate(s) (such as through market interventions of their central banks or equivalent bodies; governmental action which changes or

interferes with currency valuations or currency fluctuations that would otherwise occur in response to economic forces; and restrictions on foreign investment and currency convertibility or movement across borders). Non-governmental action may also directly or indirectly adversely affect the relevant exchange rates (such as through weak overall growth and performance of each applicable Currency Jurisdiction's economy and stock exchanges; political, economic and social uncertainty, including risks of nationalisation and expropriation of assets and natural disasters; or wars which affect any Currency Jurisdiction directly or indirectly).

Investors should note that the risk of occurrence and the severity of consequence of the matters described above may be greater with respect to any emerging market jurisdiction than they otherwise would be in relation to more developed countries. Economies in emerging markets are generally more heavily dependent upon international trade, and accordingly, may be affected adversely by trade barriers, foreign exchange controls (including taxes), managed adjustments in relative currency values and other protectionist measures imposed or negotiated with countries with which they trade.

The occurrence of any of the above circumstances may have an adverse effect on the value of the Securities and amounts due or assets deliverable, or the date for payment thereunder.

### ***General risks relating to Credit Linked Securities***

*There are specific risks relating to Credit Linked Securities*

The Issuer may issue Securities where the amount of principal and/or interest payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more entities (together "**Reference Entities**" and each, a "**Reference Entity**") and, if so, on the value of certain specified debt obligations of such Reference Entity(ies) or, where, if such events have occurred, the Issuer's obligation is to deliver certain specified assets upon redemption of the Securities.

Prospective investors in any such Securities should be aware that depending on the terms of the Credit Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Securities may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the reference entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions, over which neither the Issuer nor Guarantor has control.

This Base Prospectus contains Additional Terms and Conditions for Credit Linked Securities with terms based on (but not identical to) the 2014 Credit Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. (the "**2014 ISDA Definitions**") which are set out in "*Annex 5 – Additional Terms and Conditions for Credit Linked Securities*". In this respect investors should have regard to the risk factor entitled "*ISDA Credit Derivatives Definitions*".

The Issuer's obligations in respect of Credit Linked Securities are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a reference entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

*If Credit Linked Redemption is applicable the occurrence of Credit Events may affect the redemption date of the Securities*

Credit Linked Securities in respect of which Credit Linked Redemption is applicable may be redeemed prior to their scheduled maturity, save where: (i) Maturity Credit Redemption applies; or (ii) the Securities are Tranching Linear Basket Credit Linked Securities or Tranching Index Credit Linked Securities or Basket Tranching Credit Linked Securities or Long/Short Credit Linked Securities; or (iii) the Securities are Non-Tranching Linear Basket Credit Linked Securities or Non-Tranching Index Credit Linked Securities where Credit Payment on Maturity applies. However, where the Credit Event Redemption Amount payable in respect of Securities described in (ii) or (iii) of the foregoing section is zero and Credit Linked Redemption is applicable, the Securities will be redeemed early. Where such Securities are redeemed early following a Credit Event, investors may lose some or all of the principal invested and will not receive the full amount of interest (if any) to the extent that interest on the Security is also Credit Linked.

## RISK FACTORS

Where Maturity Credit Redemption applies or where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities where Credit Payment on Maturity Applies (as specified in the Applicable Transaction Terms) or where the Securities are Tranched Linear Basket Credit Linked Securities, Tranched Index Credit Linked Securities, Basket Tranched Index Credit Linked Securities or Long/Short Credit Linked Securities, in each case in respect of which Credit Linked Redemption is applicable, maturity of the Credit Linked Securities may be delayed until scheduled maturity of the Credit Linked Securities. Investors may therefore be forced to wait a significant time following the occurrence of the relevant Credit Event before they receive the redemption amount owed (if any).

*If Credit Linked Redemption is applicable, the occurrence of a Credit Event may affect the amount payable or deliverable on redemption of the Securities*

Where Credit Linked Redemption is applicable and cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Securities in a reduced principal amount or at zero meaning that investors may lose some or all of the principal amount invested.

Where Credit Linked Redemption is applicable and physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Securities by delivery of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount. Where the Securities provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which, for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans), are impossible or illegal to deliver on the specified settlement date, or (b) assets which the Issuer, the Guarantor and/or any affiliate has not received under the terms of any transaction entered into by the Issuer, the Guarantor and/or such affiliate to hedge the Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of principal payable on redemption.

*Increased credit risk is associated with "First-to-Default" or "Nth-to-Default" Credit Linked Securities, Linear Basket Credit Linked Securities or Index Credit Linked Securities or Long/Short Credit Linked Securities*

Where the Securities are Single Reference Entity Credit Linked Securities, First-to-Default or Nth-to-Default Credit Linked Securities, and Credit-Linked Redemption is applicable, the Securities may be subject to redemption in full as described above as a consequence of the occurrence of a Credit Event in relation to a single Credit Event the first or the nth Reference Entity in respect of which a Credit Event occurs either shortly after such credit event or, where Maturity Credit Redemption is applicable, at the scheduled maturity date.

Where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities, and Credit-Linked Redemption is applicable, where Credit Payment As You Go applies, the Securities may be subject to redemption in part upon the occurrence of a Credit Event in relation to each Reference Entity in respect of which a Credit Event occurs unless Maturity Credit Redemption is applicable in which case such Securities shall only be redeemed at the scheduled maturity date.

Where the Securities are Tranched Linear Basket Credit Linked Securities, the redemption amount of the Securities will only be reduced as described above upon the occurrence of a Credit Event in relation to a number greater than the L (being the lower tranche level) number of Reference Entities specified in the Applicable Transaction Terms but will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to a number equal to or greater than the H (being the higher tranche level) number of Reference Entities specified in the Applicable Transaction Terms. The credit risk to Securityholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Securities are Tranched Index Credit Linked Securities or Basket Tranched Index Credit Linked Securities, the redemption amount of the Securities will only be reduced as described above upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage exceeding the Attachment Point specified in the Applicable Transaction Terms or the Aggregate Loss Percentage in respect of a Basket Tranched Index Component exceeding the Attachment Point for that Basket Tranched Index Component specified in the Applicable Transaction Terms, as the case may be, but will be subject to redemption in full as described above

upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage, being equal to or greater than the Exhaustion Point specified in the Applicable Transaction Terms or the Aggregate Loss Percentage in respect of each Basket Trunched Index Component exceeding the Attachment Point for that Basket Trunched Index Component specified in the Applicable Transaction Terms, as the case may be. The credit risk to Securityholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Securities are Long/Short Credit Linked Securities, the Securities will be redeemed at an amount that is equal to the sum of the Long Redemption Amount and the Short Redemption Amount. The occurrence of Credit Events may result in a reduction of the Long Redemption Amount but an increase in the Short Redemption Amount, depending on the Long Exposure or Short Exposure selected and the relevant Reference Entities. The credit risk to Securityholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

*If Credit Linked Interest is applicable, the occurrence of Credit Events may reduce the interest payable on the Securities*

In the case of Single Reference Entity Credit Linked Securities or First-to-Default Credit Linked Securities in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date no further interest will accrue on the Securities. In the case of Nth-to-Default Credit Linked Securities in respect of which Credit Linked Interest is applicable, following the occurrence of a Trigger no further interest will accrue on the Securities. In any such circumstances, interest may cease to accrue from the Credit Event Determination Date or from the Interest Payment Date immediately preceding the Credit Event Determination Date or Trigger, depending on the elections made in the Applicable Transaction Terms.

In the case of Trunched Linear Basket Credit Linked Securities in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date with respect to a number of Reference Entities that is greater than the L (being the lower tranche) number of Reference Entities specified in the Applicable Transaction Terms and each subsequent Credit Event Determination Date thereafter, interest that is subject to the Credit Linked provisions will accrue on a decreased principal amount of the Securities until a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or greater than the H (being the higher tranche) number of Reference Entities specified in the Applicable Transaction Terms and at which point no further interest shall be due in respect of the Securities.

In the case of Trunched Index Credit Linked Securities or Basket Trunched Index Credit Linked Securities, following the occurrence of a Credit Event Determination Date with respect to which the Aggregate Loss Percentage in respect of which a Credit Event Determination Date has occurred, exceeds the Attachment Point, (being the lower tranche specified in the Applicable Transaction Terms) or, in the case of Basket Trunched Index Credit Linked Securities, the Aggregate Loss Percentage in respect of a Basket Trunched Index Component exceeds the Exhaustion Point in respect of that Basket Trunched Index Component and each subsequent Credit Event Determination Date thereafter, if Credit Linked Interest is applicable interest will accrue on a decreased principal amount of the Securities until the Scheduled Maturity Date or until a Credit Event Determination Date has occurred with respect to a number of Reference Entities such that Aggregate Loss Percentage is equal to or greater than the Exhaustion Point (being the upper tranche specified in the Applicable Transaction Terms) or, in the case of Basket Trunched Index Credit Linked Securities, the Aggregate Loss Percentage in respect of each Basket Trunched Index Component is equal to or greater than the Exhaustion Point in respect of that Basket Trunched Index Component and at which point no further interest amounts shall be due in respect of the Securities.

In the case of Long/Short Credit Linked Securities in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date in respect of a Reference Entity referenced in the Long Exposure, interest may accrue on a decreased principal amount of the Securities and may cease to accrue entirely, depending on the nature of the Long Exposure specified in the Applicable Transaction Terms.

### *Reference Entity Credit Risk*

The holders of Credit Linked Securities will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the Applicable Transaction Terms, to the full extent of their investment in such Securities. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Securityholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Security is unlikely

to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Securityholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

Investors in the Securities are accordingly exposed, as to (if Credit Linked Redemption is applicable) principal and (if Credit Linked Interest is applicable) interest, to the credit risk of one or more Reference Entities. The maximum loss to an investor in the Securities is (if Credit Linked Redemption is applicable) 100 per cent. of their initial principal investment, together with (if Credit Linked Interest is applicable) any accrued interest amounts.

For Index Credit Linked Securities and Long/Short Credit Linked Securities that reference an Index, the Reference Entities and the Reference Obligations as of the Issue Date of the Credit Linked Securities will be those set out in the Index Annex, being the list for the relevant Markit iTraxx® Europe Index (in the case of iTraxx Non-Tranch Index Credit Linked Securities or iTraxx Tranch Index Credit Linked Securities) or Markit CDXTM Index (in the case of CDX Non-Tranch Index Credit Linked Securities or CDX Tranch Index Credit Linked Securities) with the Annex Date specified in the Applicable Transaction Terms, as published by the Index Publisher (being Markit Group Limited as of the date of this Base Prospectus). Any determinations by the Index Sponsor (being Markit Indices Limited in the case of iTraxx Non-Tranch Index Credit Linked Securities and iTraxx Tranch Index Credit Linked Securities and Markit North America, Inc. in the case of CDX Non-Tranch Index Credit Linked Securities and CDX Tranch Index Credit Linked Securities, in each case as of the date of this Base Prospectus) with respect to replacement Reference Obligations and/or Successors (subject, in relation to Successors, to the further determination provisions set out in the Credit Linked Conditions), will apply for the purposes of the Credit Linked Securities and any such determinations and resulting changes in Reference Obligations and/or Reference Entities may have an adverse effect on the value of such Securities.

Additionally, if ISDA publicly announces one or more replacement Reference Obligations and/or Successors prior to the Trade Date but following the "Roll Date" (in the case of iTraxx Non-Tranch Index Credit Linked Securities or iTraxx Tranch Index Credit Linked Securities) or the "Effective Date" (in the case of CDX Non-Tranch Index Credit Linked Securities or CDX Tranch Index Credit Linked Securities) specified in the Index Annex, such replacement Reference Obligations and/or Successors will apply for the purposes of the Credit Linked Securities, notwithstanding that such announcement occurred prior to the Trade Date, and any such announcements and resulting changes in Reference Obligations and/or Reference Entities may have an adverse effect on the value of such Securities.

*Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities, including for Zero/Set Recovery Securities, Tranch Linear Basket Credit Linked Securities, Tranch Index Credit Linked Securities, Basket Tranch Index Credit Linked Securities and Long/Short Credit Linked Securities*

Interest and principal repayments on the Securities may be calculated by reference to the outstanding principal amount of the Securities. As at the Issue Date the outstanding principal amount is an amount equal to the Aggregate Principal Amount. If a Credit Event occurs in respect of a Reference Entity, then the outstanding principal amount may be reduced for the purposes of the determination of interest (if Credit Linked Interest is applicable) and/or the amount payable on redemption (if Credit Linked Redemption is applicable) by an amount equal to a predefined portion of the Aggregate Principal Amount (which may be one hundred percent of such predefined portion resulting in such portion of the outstanding principal amount being reduced in full) irrespective of the actual market recovery in respect of such Reference Entity. Therefore investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire principal amount invested.

*There is a risk that the Securities could be affected by a Credit Event or succession that took place prior to the Trade Date*

In respect of a Credit Event relating to a Series of Credit Linked Securities, a Credit Event will not be determined by the Credit Derivatives Determinations Committee unless a request for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event or circumstances constitutes a Credit Event is submitted to the DC Secretary within 60 calendar days of the occurrence of such event or circumstances unless a Credit Event Determination Date has already occurred with respect to such event. For the purposes of the succession provisions the look-back period is 90 calendar days and functions similarly. These provisions mean

that there is a time limit on the ability to act on a Credit Event or succession and that it is possible that the Securities could be affected by a Credit Event or succession that took place prior to the Trade Date if Auction Settlement is specified as the applicable Settlement Method for a Series of Securities in the relevant Applicable Transaction Terms.

### *Amendment of Credit Linked Conditions in accordance with market convention*

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions or hedging arrangements of the Issuer. Any such adjustment may amend the Securities in a way that is adverse to the Securityholders and may have a negative impact on the value of the Securities.

### *ISDA Credit Derivatives Definitions*

Whilst there are many similarities between the terms used in this Base Prospectus and the 2014 ISDA Definitions, there are also many substantial differences and a prospective investor should understand that the complete terms and conditions of the Securities are as set out in this Base Prospectus and the Applicable Transaction Terms only and that the 2014 ISDA Definitions are not incorporated by reference to either. Consequently, investing in Credit Linked Securities is not necessarily equivalent to investing a credit default swap that incorporates either the 2003 ISDA Definitions or the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit Linked Securities are subject to further evolution. Past events have shown that the view of market participants may differ as to how either set of the ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Securities may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Securities and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Securityholders.

### *Risks relating to Auction Settlement of Credit Linked Securities*

Where an Auction Final Price Determination Date occurs in respect of Credit Linked Securities, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by the relevant CDS information publisher from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Securityholders may have little or no influence in the outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their Affiliates) shall be under any obligation to consider the interests of any Securityholder and, as a result, may take action that is adverse to the interests of Securityholders.

### *Cheapest to deliver risk*

Where Physical Settlement is applicable, upon the occurrence of a Credit Event Determination Date, the Calculation Agent has the discretion to select Deliverable Obligations of the Reference Entity for delivery to the Securityholders. It is likely that the Deliverable Obligations selected by the Calculation Agent are obligations of the Reference Entity with the lowest market value that are permitted to be delivered in accordance with the terms of the Securities. In addition, the Deliverable Obligations may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Deliverable Obligation. The Calculation Agent has no liability to account to the Securityholders or any other

person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from such selection.

### *Cheapest to value risk*

Where Cash Settlement is applicable, upon the occurrence of an Event Determination Date, the Calculation Agent has the discretion to select Valuation Obligations of the Reference Entity for valuation in order to determine the Final Price. It is likely that the Valuation Obligations selected by the Calculation Agent are obligations of the Reference Entity with the lowest market value that are permitted to be valued in accordance with the terms of the Securities. This could result in a lower recovery value and hence greater losses for Securityholders. In addition, the Valuation Obligations may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Valuation Obligation which in turn would result in a lower recovery value for Securityholders.

### *Failure to deliver an Asset Transfer Notice in respect of physically settled Credit Linked Securities may result in a Securityholder receiving its share of the Entitlement*

Where, in respect of any Credit Linked Securities, Physical Settlement is specified as the relevant Settlement Method or applies as the relevant Fallback Settlement Method, and a Securityholder does not deliver a valid Asset Transfer Notice as contemplated under the Credit Linked Conditions, the Issuer may, but is not required to, elect to deliver to the relevant clearance system(s) the aggregate Entitlement in respect of such Securities, to be divided between and delivered to the relevant Securityholders by the relevant clearance system(s) in accordance with the rules of the relevant clearance system(s).

### ***Risks relating to EUA Contract Linked Securities***

#### *The occurrence of a Market Disruption Event relating to EUA Contract Linked Securities may have an adverse impact on Securityholders*

If a Market Disruption Event (as defined in EUA Contract Linked Condition 2 (Market Disruption) of Annex 8) occurs or is continuing on a date for valuation in respect of EUA Contract Linked Securities, then the Issuer may take no action, require the Calculation Agent, in its sole and absolute discretion, to determine the adjustments (if any) to be made to the terms of the EUA Contract Linked Securities to reflect such event, or redeem the EUA Contract Linked Securities. Any such adjustment or early redemption of the Securities may have an adverse effect on the value and liquidity of such Securities and accordingly the amount Securityholders can expect to receive on their investment.

#### ***Risk Relating to Early Redemption***

If the Applicable Transaction Terms specified that "EUA Contract Early Redemption Amount" is applicable, investors should be aware that such Securities are subject to early redemption for taxation reasons, on an event of default and, at the discretion of the Issuer or Guarantor, on an occurrence of a Market Disruption Event. In such circumstances, the amount payable on an early redemption of such Securities will be determined by the Calculation Agent by reference, *inter alia*, to the EUA Value which may be a positive or negative value or zero depending on the relevant price of the EUA Contracts. The relevant prices of the EUA Contracts may fluctuate due to various factors and as such, affect the return on an investor's investment in such Securities.

#### *Additional risks associated with EUA Contract Linked Securities*

Trading in carbon emissions is a developing market and is highly speculative and volatile. The carbon emissions trading market has been and may again be subject to temporary distortions or other disruptions due to various factors, including the lack of liquidity in the market, the participation of speculators and government regulation and intervention. In addition, in respect of the emissions trading market in Europe, EU allowances have allegedly been stolen or "phished" from the national registries of several European countries and from the carbon trading accounts of market participants. This has caused severe market disruption in the European carbon trading market with delivery of EU allowances suspended for significant periods. Any such disruption in the future would have a detrimental impact on the value or settlement of EUA Contract Linked Securities referencing EUA Contracts.

*The Hedging Provider may hedge the Issuer's obligations under EUA Contract Linked Securities without regard to the interests of holders*

In hedging the Issuer's obligations under the EUA Contract Linked Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the EU emissions allowance contract(s) or trading in, and holding, any EU Allowance(s). The Hedge Provider may perform any number of different hedging practices with respect to EUA Contract Linked Securities and is not required to have regard to the interests of holders of EUA Contract Linked Securities, notwithstanding that its actions may ultimately result in holders receiving a lower return on their investment.

### ***Risks relating to Bond Linked Securities***

The Issuer may issue Bond Linked Securities where the amount of principal and/or interest payable is dependent upon the price of, or changes in, the price of a bond.

Investors in any such Securities should be aware that, depending on the terms of the Bond Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of any amount of principal and/or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the Bond does not move in the anticipated direction. In addition, the movements in the price of the Bond may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the Bond may affect the actual yield to investors, even if the average price is consistent with their expectations. All these factors may affect the investments in the Securities.

The market price of such Securities may be volatile and may be affected by the time remaining to the Maturity Date, the volatility of the Bond, the distribution policy, the financial results, prospects and credit rating of the Bond Issuer as well as economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such Bond may be traded.

Upon determining that one or more Bond Adjustment Events or Additional Disruption Events has occurred the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Securities or redeem the Securities. Such action may have an adverse effect on the value and liquidity of the affected Bond Linked Securities.

### ***Risks relating to Custom Index Linked Securities***

*The Issuer may issue Custom Index Linked Securities where the amount of principal and/or interest payable is dependent upon the level of, or changes in the level of, a custom index or a basket of custom indices.*

A Custom Index will be composed by a third party specified in the Applicable Transaction Terms as the Index Administrator (the "**Index Administrator**"). The Index Administrator may itself act as or may appoint one or more other entities to act as an index calculation agent (the "**Index Calculation Agent**"). Further information in relation to each Custom Index will be provided in Part B of the Applicable Transaction Terms, including details of how investors may obtain the index rules of the Custom Index. Investors should carefully consider the index rules of the Custom Index and any other disclosure on the Custom Index prior to making a decision to invest in any Custom Index Linked Securities.

### ***Factors affecting the performance of Custom Indices***

Custom Indices generally pursue a rules-based custom trading strategy (a "**strategy**") to achieve an investment objective as described in more detail in the relevant Custom Index rules. Any potential investor in Custom Index Linked Securities should be aware that such Custom Indices usually have only a limited operating history with no live track record in achieving the stated investment objective in the medium or long term. Therefore, no assurance can be given that any such strategy on which a Custom Index is based will be successful and that such Custom Index will perform in line with or better than any relevant market benchmark or any comparable alternative strategy. Where the strategy pursued by a Custom Index is not successful, this might affect the value of and return on Custom Index Linked Securities.

Investors should also note that the performance of the underlying components ("**components**") of Custom Indices will normally have a direct effect on the performance of the Custom Index due to the way in which the Custom Index level is calculated. Investors should consider carefully the components of the Custom Index, the nature of

the underlying asset classes and the particular risks related to such assets and asset classes before they make a decision to invest in any Custom Index Linked Securities.

The components of a Custom Index may include "long" and "short" exposures to any asset. In the case of any such "long" exposure, any fall in component values may reduce the return on the Securities and in the case of any such "short" exposure, any rise in component values may reduce the return on the Securities.

*An investor in Custom Index Linked Securities will have no rights in respect of any components*

The investment exposure provided by a Custom Index is synthetic, and a notional investment in such a Custom Index does not constitute a purchase or other acquisition or assignment of any interest in any component (or any sub-components thereof).

An investment in Custom Index Linked Securities will not therefore grant an investor any rights that a direct holder might have, or give an investor a direct investment position in, any components (or any sub-components thereof). The return on your Securities may be less than if you held a direct position in a Custom Index or any component (or any sub-components) thereof, or a different product linked to such component (or sub-components).

*Risks relating to Custom Indices that employ a risk control mechanism and are regularly rebalanced*

A Custom Index may have an in-built risk target mechanism, which regulates the exposure of a Custom Index to one or more relevant components, according to the volatility of such component(s) on a regular basis. For example, as the volatility of a component rises, the Custom Index may reduce the exposure to such component(s) and conversely, as volatility falls, the Custom Index may increase the exposure to such component(s). In some cases the exposure of a Custom Index to one or more components may increase such that the exposure of the Custom Index to one or more components increases above 100 per cent. and thereby creates a leveraged exposure of the Custom Index to such component(s).

Investors should note that the level of this type of Custom Index may fall disproportionately in the case of such leveraged exposure, and investors in Custom Index Linked Securities may suffer a corresponding loss of their investment, if the market price of one or more component(s) performs negatively at a time when the Custom Index is heavily weighted to such component(s). For example, this may occur if a period of relatively low volatility of the component(s) is followed by substantial negative performance of such component(s). Conversely, a Custom Index may under certain circumstances also underperform the component(s) in periods of higher volatility where the exposure of a Custom Index to such component(s) is reduced.

The risk control mechanism employed by the Custom Index often uses historical volatility of the relevant component(s) for determining the exposure of the index to such component(s). As a rule, the adjustment of exposures in the Custom Index can only occur subsequently and therefore will apply with a lag. As a consequence, the allocation mechanism may fail to capture all market trends, resulting in a higher allocation to a component that may underperform other components thereby negatively affecting the overall performance of the Custom Index. This could mean that the Custom Index could be exposed to a spike in volatility that is higher than the targeted volatility for the Custom Index, which may result in greater losses to investors investing in a Custom Index Linked Security.

*Risks associated with leverage may be significant in a Custom Index*

A Custom Index or its components may provide for or allow leveraged investment positions. While such strategies and techniques may increase the opportunity to achieve higher returns on the Securities, they will generally also increase the risk of loss, as both returns and losses are magnified. Investors in Custom Index Linked Securities with leverage may suffer higher losses in falling or more volatile markets (all other things being equal) than if they had invested in Custom Index Linked Securities without leverage.

*Risks associated with the occurrence of a General Administrator/Benchmark Event*

The occurrence of a General Administrator/Benchmark Event may lead to redemption or adjustment of the Custom Index Linked Securities. Any such adjustment or redemption of the Securities following the occurrence of a General Administrator/Benchmark Event may have an adverse effect on the value and liquidity of such Securities and accordingly the amount Securityholders can expect to receive on their investment – see "General Administrator/Benchmark Event" below.

### *Custom Index Adjustment Events and Additional Disruption Events*

Upon determining that one or more Custom Index Adjustment Events or Additional Disruption Events has occurred the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Securities or redeem the Securities. Such action may have an adverse effect on the value and liquidity of the affected Custom Index Linked Securities.

### *Potential conflicts of interest may exist in relation to Custom Indices and Custom Index Linked Securities*

In the normal course of business, the Issuer, the Guarantor and/or its affiliates may have, or may have had, interests or positions, or may buy, sell or otherwise trade positions in or relating to the relevant Custom Index and/or the components, or may have invested, or may engage in transactions with others relating to any of these items or engaged in trading, brokerage and financing activities, as well as providing investment banking and financial advisory services in respect of the Custom Index or the components. Accordingly, the Issuer, the Guarantor or any of its affiliates may at any time hold long or short positions, and may trade or otherwise effect transactions, for its own account or the accounts of its customers in respect of the Custom Index or the components thereof. Such activity may adversely affect the level of the Custom Index and consequently the value of the Securities.

### *Discretions of the Index Administrator or Index Calculation Agent, including in relation to adjustment and extraordinary event provisions, may be a significant risk in a Custom Index*

The rules in relation to a Custom Index may grant the Index Administrator or Index Calculation Agent the discretion to make certain calculations, determinations (including about their maintenance), and amendments to the relevant Custom Index, from time to time (for example, on the occurrence of a disruption event as described below) without regard to the interests of the Securityholders. This is separate from discretions which the Issuer or the Calculation Agent may have at the level of the Securities. Where there is a corresponding applicable regulatory obligation, the Index Administrator or Index Calculation Agent shall take into account its applicable regulatory obligations in exercising these discretions, but the discretions may be exercised without the consent of the investors and may have an adverse impact on the financial return of Custom Index Linked Securities.

A typical Custom Index provides that in order to address modification or disruption events the Index Administrator has the power to adjust a Custom Index or its components, to replace components, to suspend or delay the calculation of the Custom Index or in some cases to terminate the Custom Index. Following any termination of a Custom Index, no assurance can be given that the Index Administrator will replace the Custom Index with a successor index or if it does as to how any successor index will perform or whether it can be used in connection with the Securities.

Such action may be taken to address modifications or disruptions in components or for other disruption reasons including changes in law or market conditions. In some circumstances the Index Administrator may consult as to such actions, including with an index committee, the Index Calculation Agent or in some cases certain users of the Custom Index, but no assurance can be given that this will be the case. In particular, investors in Securities may not be consulted and even if they are this may not change or prevent the proposed action the Index Administrator takes.

The impact on Custom Index Linked Securities may be significant and may lead to the Calculation Agent making changes negatively affecting the value of the Securities or in some cases early terminating the Securities.

## **4. Legal and Regulatory Risks**

### *Risks in relation to regulatory treatment for Securityholders*

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the derivatives and structured securities industries. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may restrict investment in certain Securities, have an adverse impact on the regulatory position for certain investors and/or on the incentives for certain investors to hold Securities and may thereby also affect the liquidity of such Securities in the secondary market. Investors in the Securities are responsible for analysing their own regulatory position. Prospective investors should therefore make themselves aware of the changes and requirements applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Securities.

***Transfers of Implicit Yield Securities other than Book-Entry Securities to or by Spanish Individuals will be null and void***

The sale, transfer or acquisition of Implicit Yield Securities (as defined in Condition 8 (*Taxation*) of the "*Terms and Conditions of the Securities*") other than Book-Entry Securities, including, but not limited to, Zero Coupon Securities, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Securities other than Book-Entry Securities to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as an owner of Implicit Yield Securities other than as an owner of Book-Entry Securities or (ii) list any Implicit Yield Securities other than Book-Entry Securities on AIAF, and Spanish Individuals who are Securityholders may lose all or a substantial part of their investment on such Securities.

***The regulation and reform of "benchmarks" may adversely affect the value of Securities linked to or referencing any such "benchmarks"***

A number of interest rates and other published values, indices which are "benchmarks", (including the historic London interbank offered rate ("**LIBOR**") and the euro interbank offered rate ("**EURIBOR**") and other types of indices such as indices comprised of interest rates, equities, funds, foreign exchange rates and combinations thereof) have been the subject of national and international regulatory guidance and reform aimed at supporting the transition to robust benchmarks. Most reforms have now reached their planned conclusion (including the transition away from LIBOR), and "benchmarks" remain subject to ongoing monitoring. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities referencing such a benchmark.

Regulation (EU) 2016/1011, as amended (the "**EU Benchmarks Regulation**") applies to the provision of in-scope benchmarks, the contribution of input data to an in-scope benchmark and the use of an in-scope benchmark within the EU. Among other things, it (i) requires administrators of in-scope benchmarks to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by in-scope EU supervised entities (such as the Guarantor) of in-scope benchmarks where the administrator is not appropriately authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed), subject to certain transitional provisions. From 1 January 2026, the scope of the EU Benchmarks Regulation is expected to be reduced such that only critical benchmarks, significant benchmarks, certain commodity benchmarks, EU Climate Transition Benchmarks and EU Paris-aligned benchmarks will remain in mandatory scope of the core provisions in the revised regime. Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the "**UK Benchmarks Regulation**") among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by in-scope UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, subject to certain transitional provisions, not deemed equivalent or recognised or endorsed).

Under the UK Benchmarks Regulation, the transitional provisions for third country benchmark administrators continue until 31 December 31 2030. However, under the EU Benchmarks Regulation the transitional provisions for third country benchmark administrators expired on 31 December 2025, although (in summary) if ESMA has received an application for recognition or endorsement of a third country administrator providing an EU Paris-aligned Benchmark, an EU Climate Transition Benchmark, or an in-scope commodity benchmark by such date, the benchmark concerned can be used in any in-scope existing and new financial instruments and financial contracts, unless and until the administrator's application is refused. In the case of a significant third country benchmark, such benchmark can be used by in scope supervised entities in existing and new financial instruments unless and until a public notice has been issued by ESMA in respect of such benchmark under the EU Benchmarks Regulation. There is also a transitional provision applicable to certain spot FX benchmarks until the date of entry into force of the Commission implementing act giving clarity on the scope of the spot FX exemption. This means that, in the same way that EU administrators require authorisation or registration, third country administrators now need to benefit from recognition, endorsement or equivalence for in-scope supervised entities to add a new reference to an EU Paris-aligned, EU Climate Transition or in-scope commodity benchmarks in any in-scope instruments. Third country administrators of significant benchmarks will also need to benefit from recognition, endorsement or equivalence, to avoid publication of a public notice meaning that in-scope supervised entities cannot add new references to such significant benchmarks in any in-scope instrument and triggering certain restrictions in relation to ongoing use of such benchmarks in existing in-scope instruments.

The scope of the UK Benchmarks Regulation is wide and, in addition to so-called "critical benchmark" indices such as WMR Closing Spot Rate and ICE Swap Rate®, applies, for example, to many interest rates, foreign exchange rate indices, commodity indices, equity indices and other indices (including "proprietary" indices or strategies) that are used to determine the amount payable under or the value of certain financial instruments traded on a trading venue (being certain regulated markets, multilateral trading facilities ("MTFs") or organised trading facilities ("OTFs")) or via a "systematic internaliser", or to measure the performance of certain investment funds with the purpose of tracking the return or defining the asset allocation or computing the performance fees.

The EU Benchmarks Regulation has been amended several times, most recently by Regulation 2025/914 which applied as of 1 January 2026. Whilst the core obligations of the amended regime remain broadly aligned to the former regime (and the UK Benchmarks Regulation), one of the key changes to the regime is that only benchmarks perceived to have the greatest economic relevance for the EU market (based on quantitative or qualitative criteria) will be in mandatory scope of the core provisions of the new regime. Such benchmarks will be those defined as critical (such as EURIBOR) or significant (determined based on quantitative or qualitative criteria), EU Paris-aligned benchmarks, EU Climate Transition benchmarks, and certain commodity benchmarks which will remain in scope of the mandatory application of the core provisions of the revised EU Benchmarks Regulation. An exemption will apply for certain spot FX benchmarks. Other benchmarks have fallen out of mandatory EU Benchmarks Regulation scope (other than certain limited provisions including in relation to statutory replacement of a benchmark, connected with cessation and/or non-representativeness). EU administrators of benchmarks that do not exceed the quantitative thresholds for significance may however request voluntary application of the rules (opt-in) subject to certain conditions, including an EUR 20 billion eligibility threshold.

Investors should note that benchmarks that fell out of scope of the revised EU Benchmarks Regulation regime (which are not opted-in) are no longer be regulated in the same way from 1 January 2026. This means that previously mandatory requirements, for example, regulating governance, conflicts of interest, oversight functions, input data requirements, methodology and transparency of the methodology, requirements for contributors and in relation to input data, have fallen away. Among other things, there is a risk that this could mean that the methodology of such benchmarks may become less robust, resilient or transparent (potentially being capable of being materially amended without consultation). This may reduce or increase or affect the volatility of the level of such benchmarks, or if the methodology is materially amended, trigger a Share Index Adjustment Event or Administrator/Benchmark Event (in each case, see below).

The EU Benchmarks Regulation and the UK Benchmarks Regulation also give regulators additional powers to intervene in relation to critical benchmarks (such as EURIBOR under the EU Benchmarks Regulation or WMR London 4PM Closing Spot Rate under the UK Benchmarks Regulation), including to support the orderly wind-down of a critical benchmark. Any such interventions could have a negative impact on the value or liquidity of, and return on, certain Securities linked to or referencing such a critical benchmark.

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Securities linked to or referencing a benchmark in scope of one/both of these regulations, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark. More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, may have (without limitation) the following effects on certain benchmarks: (i) increasing the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements; (ii) discouraging market participants from continuing to administer or contribute to a benchmark; (iii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark.

Amongst other developments, relevant authorities are strongly encouraging the transition away from Interbank Offered Rates ("IBORs"), such as EURIBOR, and have identified "risk free rates" to take the place of such IBORs as primary benchmarks. This includes (i) for sterling LIBOR (now ceased), a reformed Sterling Overnight Index Average ("SONIA"), as the primary sterling interest rate benchmark, (ii) for EONIA (now ceased) and EURIBOR, a Euro Short-Term Rate ("€STR") as the primary euro risk free rate, and (iii) for USD LIBOR (now ceased), the Secured Overnight Financing Rate ("SOFR") as the primary U.S. dollar interest rate benchmark. The risk free rates have a different methodology and other important differences from IBORs and have limited historical track record and may be subject to changes in their methodology. The market or a significant part thereof may also adopt an application of a risk free rate that differs significantly from that set out in the terms and conditions of the Securities, or the adoption of the risk free rate used in the Eurobond markets may differ materially from that used in other markets, such as the derivatives and loan markets. Any of these developments could result in reduced

liquidity or increased volatility or could otherwise have a material adverse effect on the value of and return on Securities linked to any such rates.

If amounts payable under any not Exempt Securities or Swiss Non-Exempt Securities are calculated by reference to one or more "benchmarks" in scope of the EU Benchmarks Regulation, a statement will be included in the relevant Final Terms as to whether or not, as far as the Issuer is aware, the relevant administrator or the "benchmark" is included in ESMA's register of administrators and benchmarks under Article 36 of the EU Benchmarks Regulation. Investors should note however that whilst such statement will be given as of the date of the relevant Final Terms, the Issuer will not have ongoing notification obligations in relation to the status of the administrator or benchmark on ESMA's register of administrators and benchmarks thereafter (for example if a benchmark is removed from the register after September 2026 as it is no longer in mandatory EU Benchmarks Regulation scope (as discussed above)), other than where such disclosure is required under the EU Benchmarks Regulation following the issue of public notice in relation to a significant benchmark.

Investors should also note that the UK Benchmarks Regulation is expected to be repealed and reformed in the near future. HM Treasury launched a consultation on a new regime for benchmarks and benchmark administrators in December 2025 (the proposed Specified Authorised Benchmarks Regime ("**SABR**"). It is likely that SABR will replace the UK Benchmarks Regulation in due course and that the scope of the UK regime will be significantly reduced to cover only systemically important benchmarks. However, these proposals are still at consultation stage and it remains to be seen what the final rules will be and the impact any such changes may have on the Securities.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by benchmark reforms and investigations in making any investment decision with respect to the Securities.

### *Constant Maturity Swap Rates (CMS Rates)*

In addition to referencing IBOR rates for purposes of the Securities, the Issuer may reference swap rates, such as constant maturity swaps or "CMS" rates. A number of swap rates that were previously based on swaps linked to an IBOR rate have now ceased and been replaced by swap rates based on swaps linked to a "risk free rate" (for example, GBP SONIA ICE Swap Rate and USD SOFR ICE Swap Rate). However, there is uncertainty as to how these new swap rates will perform (see "*Securities linked to swap rates*" below). Some swap rates are still linked to an IBOR rate (for example, the EUR ICE Swap Rate based on swaps linked to EURIBOR). Generally these are likely to become unavailable if the related IBOR rates were to cease or become non-representative.

### *General Administrator/Benchmark Event*

In addition, under the terms of the Securities a General Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or cancelled, (2)(i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn or (3) it is not commercially reasonable to continue use of the benchmark due to licensing restrictions or increased licence costs or (4) a regulatory supervisor announces the benchmark is no longer, or as of a specified future date, will no longer be, representative of any relevant underlying market(s) or (5) any relevant competent authority or other relevant official body issues a public notice with respect to the relevant Benchmark pursuant to the EU Benchmarks Regulation. The occurrence of a General Administrator/Benchmark Event may cause the Issuer to adjust the terms and conditions of the Securities or early redeem the Securities.

The Issuer has a wide discretion in making any adjustments following a General Administrator/Benchmark Event. Such adjustments may include selecting one or more successor benchmarks and making related adjustments to the Securities, including the application of an adjustment spread and, if applicable, adjustments to reflect increased costs. Such adjustments may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if the original rate had continued to be published in its original form and used for the purposes of the Securities.

It is possible that a General Administrator/Benchmark Event or details of it are announced significantly in advance of action being appropriate in relation to the relevant Securities. The Issuer is only obliged to notify investors once it has determined the action to be taken as a result of the relevant event.

### *Reference Rate Event*

A Reference Rate Event may arise if, among other things, any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or cancelled or its use is prohibited, or (2)(i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, is rejected or refused or is withdrawn or suspended, (ii) the benchmark or the administrator or sponsor of the benchmark is not included in or is removed from an official register or does not fulfil any required legal or regulatory requirement, (iii) there is an official announcement that the administrator of the relevant benchmark has ceased or will cease to provide such Reference Rate and there is no successor administrator, (iv) the relevant benchmark is no longer representative or, as of a future specified date, will no longer be representative of any relevant underlying market and economic reality that it is intended to measure or (v) any event which otherwise constitutes an "index cessation event".

For any Securities that use a Reference Rate and where ISDA Determination and 2006 ISDA Definitions are specified in the Applicable Transaction Terms, the Priority Fallback following a Reference Rate Event may refer to actions that would be taken for a Floating Rate under an interest rate swap incorporating the 2006 ISDA Definitions. Supplement 70 to the 2006 ISDA Definitions (the "**ISDA IBOR Fallbacks Supplement**") includes fallbacks which will replace any Floating Rate that is a Relevant IBOR in circumstances broadly similar to a Reference Rate Event: in broad terms a permanent cessation of that Relevant IBOR. The ISDA IBOR Fallbacks Supplement also includes fallbacks in the event that a Relevant IBOR is temporarily unavailable. "**Relevant IBORs**" (some of which have already ceased, or are expected to cease in the near term), include EURIBOR, TIBOR, BBSW and HIBOR. Once the relevant trigger event takes effect, the Floating Rate will fall back to a term adjusted risk-free rate for the relevant currency plus a spread. It should be noted that the ISDA IBORs Fallbacks Supplement will not cover all possible Floating Rates and this risk factor should be read accordingly.

Where ISDA Determination and 2021 ISDA Definitions are specified in the Applicable Transaction Terms, fallbacks are specified for all Floating Rates that are included in the Floating Rate Matrix (each as defined in the 2021 ISDA Interest Rate Derivative Definitions (the "**2021 Definitions**")) to replace the relevant Floating Rate upon a permanent cessation of such Floating Rate and/or an announcement that such Floating Rate is no longer representative. Such fallbacks will result in either: (a) the relevant Floating Rate being replaced with a specified alternative rate set out in the 2021 Definitions; or (b) in circumstances where the 2021 Definitions would otherwise provide for the application of certain 'Generic Fallback Provisions' or 'Administrator/Benchmark Event Fallbacks', these events being subject to the consequences of a Reference Rate Event.

Where ISDA Determination and 2006 ISDA Definitions are specified in the Applicable Transaction Terms, potential investors in any Securities that reference a Reference Rate should be aware that if one of more Priority Fallback(s) are specified in the definition of the relevant Floating Rate Option, then if a Reference Rate Cessation has occurred, where ISDA Determination applies the fallbacks in the ISDA IBOR Fallbacks Supplement shall apply, unless the Calculation Agent determines that (i) such application and/or any related adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders, or (ii) it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, in which case the alternative fallback provisions set out in the Conditions shall apply.

In the event that one particular tenor of a Relevant IBOR is permanently discontinued, then for so long as there is a longer and a shorter tenor still available, no trigger event will occur. Instead, the Floating Rate will be determined by interpolating between the next shortest and next longest tenors. If there are no shorter or no longer tenors available, then the rate will fall back to a term-adjusted risk-free rate plus a spread.

Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made under the Securities if the historic rate had continued being published in its historic form. Whilst IBORs are or were, as applicable, forward-looking term rates that embed bank credit risk, risk-free rates are overnight rates and, in their term versions are normally compounded in arrears as backward-looking rates and are intended to be nearly risk-free. As such, investors should be aware that the fallback rates that will apply following a trigger event under the ISDA IBOR Fallbacks Supplement may behave materially differently as interest reference rates for the Securities.

The absence of bank credit risk in the risk-free-rates may have an adverse effect on the value of the Securities. Both the ISDA IBOR Fallbacks Supplement and the 2021 Definitions provide that the applicable risk-free-rates will be term-adjusted and there will be an adjustment spread applied which may be positive, negative or zero. This is intended to reduce any transfer of economic value due to the absence of a bank credit risk premium in the replacement risk-free-rate. However, if such adjustment spread is negative, it will mean a lower rate of interest is

payable. Even where such adjustment spread is positive, there can be no assurance that the adjustment spread will fully mitigate the transfer of economic value between the Issuer and Securityholders and the adjustment spread is not intended, or able, to replicate the dynamic bank credit risk premium embedded in an IBOR.

Following the occurrence of a Reference Rate Event, where fallbacks based on the ISDA IBOR Fallbacks Supplement or the 2021 Definitions do not apply, the Calculation Agent will seek to determine (i) a replacement reference rate and (ii) the related adjustment spread required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Securityholders (or vice versa) that would otherwise arise as a result of the replacement of the Reference Rate with the replacement reference rate. If it determines the replacement reference rate and related adjustment spread, it may also determine such other amendments which it considers necessary or appropriate in order to replace the Reference Rate with the replacement reference rate and the terms and conditions shall be amended as of the cut-off date, being (A) the later of the date on which the Reference Rate ceases or becomes non-representative or 60 business days following the date of the relevant announcement or publication or (B) the later of the Issue Date and either (I) 60 business days following the date on which the Calculation Agent determines that the relevant event has occurred or (II) the date on which any material change or prohibition of use of the Reference Rate becomes effective or the date following any non-approval, rejection or suspension of any authorisation, registration or similar requirement on which the Issuer, the Calculation Agent or any other entity would not be permitted to perform its obligations in respect of the Securities, as applicable.

Any replacement reference rate shall be either a pre-nominated reference rate specified in the Applicable Transaction Terms or, if no such rate is specified, either (a) a replacement reference rate which is formally designated by a relevant central bank or other supervisory authority or the administrator of the Reference Rate or (b) a replacement reference rate that the Calculation Agent determines has been recognised or acknowledged as being the industry standard for derivative transactions which reference such Reference Rate, or (c) if the Calculation Agent determines that there is no such rate, any other replacement reference rate which it determines to be a commercially reasonable alternative. Any such replacement reference rate may be a "risk free rate". If the Calculation Agent determines that it is not possible or commercially reasonable to identify a replacement reference rate and/or adjustment spread and related amendments or to make required amendments following a Benchmark Modification or if it is or would be unlawful or contrary to any applicable licence for the Issuer or the Calculation Agent to perform the relevant actions or an adjustment spread would subject the Issuer or Calculation Agent to material additional regulatory obligations or any required adjustments would not achieve a commercially reasonable result for the Issuer or the Securityholders, in each case, prior to the cut-off date, the Issuer shall early redeem the Securities.

Following the occurrence of a Reference Rate Event but prior to the cut-off date, the Reference Rate may continue to be used for the purposes of the Securities if it is still available and representative of the underlying market and economic reality it is intended to measure and the Issuer, the Calculation Agent or any other entity is permitted to perform its obligations in respect of the Securities. Otherwise, the level of the Reference Rate will be determined by the Calculation Agent either by reference to a previously published level or by reference to an industry standard or other commercially reasonable rate, index or benchmark determined by the Calculation Agent.

The Calculation Agent has a wide discretion in making any amendments following the occurrence of a Reference Rate Event. As described above, such amendments may include selecting one or more replacement reference rates and making related amendments to the Securities, including the application of an adjustment spread and, if applicable, amendments to reflect, among other things, increased costs. Such amendments may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if the original rate had continued to be published in its original form and used for the purposes of the Securities.

It is possible that a Reference Rate Event or details of it are announced significantly in advance of action being appropriate in relation to the relevant Securities. The Issuer is only obliged to notify investors once it has determined the action to be taken as a result of the relevant event.

In addition, investors in Securities linked to Reference Rates should be aware that:

- the composition and characteristics of any pre-nominated replacement reference rate or otherwise the replacement reference rate will not be the same as those of the Reference Rate which it replaces, nor will it be the economic equivalent of such Reference Rate, and there can be no assurance that it will perform in the same way as such Reference Rate would have or that it will be a comparable substitute for such Reference Rate. Therefore, the replacement of the Reference Rate with a pre-nominated replacement

reference rate or otherwise the replacement reference rate could adversely affect the value of the Securities, the return on the Securities and the price at which a Securityholder would be able to sell such Securities;

- the failure of any pre-nominated replacement reference rate or otherwise the replacement reference rate to gain market acceptance could adversely affect the Securities;
- any pre-nominated replacement reference rate or otherwise the replacement reference rate may have a very limited history and its future performance cannot be predicted based on historical performance;
- the secondary trading market for Securities linked to any pre-nominated replacement reference rate or otherwise the replacement reference rate may be limited; and
- the administrator of any pre-nominated replacement reference rate or otherwise the replacement reference rate may discontinue such rate or make changes that could change its value and the administrator has no obligation to consider any holder's interests in doing so.

Consequently, potential investors in any Securities that reference a Reference Rate should be aware that the Reference Rate may be replaced, or the Securities may be early redeemed, in each case, without the consent of Securityholders.

### *Securities linked to swap rates*

Following a Reference Rate Cessation in respect of a Reference Rate that is a swap rate, the Calculation Agent may be required to identify a Replacement Reference Rate that the Issuer determines has been recognised or acknowledged as being an industry standard for transactions which reference such swap rate (or if there is no industry standard that is appropriate in relation to the Securities, then the Calculation Agent shall select any other interest rate, index, benchmark or other price source it determines to be a commercially reasonable alternative). Potential investors should be aware that more than one possible replacement rate may exist and if so it is possible the Calculation Agent may select the least favourable replacement rate. It is impossible to predict the effect of any such replacements on the value of the Securities. Additionally, even where administrators have published new swap rates linked to risk free rates, such as the GBP SONIA ICE Swap Rate and the USD SOFR ICE Swap Rate, there can be no guarantee that such rates will be liquid or recognised or acknowledged as being the industry standard in place of the relevant swap rate, and the method by which such new swap rates are calculated may change in the future. Consequently, the outcomes of determinations by the Calculation Agent may be unpredictable and the exercise of discretion by the Calculation Agent may adversely affect the market value of, and return (if any) on, the Securities. Further, there is no assurance that the characteristics of any replacement rate will be similar to the relevant swap rate, or that the replacement rate will produce the economic equivalent of the relevant swap rate.

### *The market continues to develop in relation to SONIA, SOFR and €STR as reference rates*

Where the Applicable Transaction Terms identifies that the Reference Rate will be determined by reference to Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily €STR, the Reference Rate will be determined on the basis of a compounded daily rate unless Index Determination is specified as applicable. Prospective investors in any Securities referencing SONIA, SOFR or €STR should be aware that the market continues to develop in relation to SONIA, SOFR and €STR as reference rates in the capital markets and their adoption as an alternative to GBP-LIBOR, USD-LIBOR, and, EONIA and EURIBOR respectively.

The market or a significant part thereof may adopt an application of SONIA, SOFR or €STR that differs significantly from that set out in the Terms and Conditions and used in relation to Securities referencing SONIA, SOFR or €STR that are issued under the Programme. Furthermore, the Issuer may in future issue Securities referencing SONIA, SOFR or €STR that differ materially in terms of interest determination when compared with any previous SONIA-, SOFR- or €STR-referenced Securities issued under the Programme. The development of compounded daily SONIA, SOFR and €STR as interest reference rates for the capital markets, as well as continued development of SONIA-, SOFR- and €STR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SONIA-, SOFR-, or €STR-referenced Securities issued under the Programme from time to time.

To the extent the SONIA, SOFR or €STR rate is not published, the applicable rate to be used to calculate the Interest Rate on Securities referencing SONIA, SOFR or €STR, as applicable, will be determined using the

fallback provisions set out in the Terms and Conditions. Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if the SONIA, SOFR or €STR rate had been so published.

### ***U.S. Dividend Equivalent Withholding***

Section 871(m) of the U.S. Internal Revenue Code, as amended (the "**Code**") causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met (such instruments, "**Specified Securities**"). If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – U.S. Dividend Equivalent Withholding*".

For purposes of withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA, Specified Securities are subject to a different grandfathering rule than other Securities. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – Foreign Account Tax Compliance Act*".

### ***Potential withholding in connection with payments under CMU Securities***

Prospective investors in Securities held through the Central Moneymarkets Unit Service (or any lawful successor thereto), being the book-entry clearing system operated by the HKMA (the "**CMU**") and as specified in the Applicable Transaction Term ("**CMU Securities**") should note that, in the absence of certainty as to whether the CMU qualifies as an entity managing a clearing and settlement system recognised by Spain or by any other OECD member country for the purposes of Article 44.5 of Royal Decree 1065/2007, investors would be required to provide the Issuer or (as the case may be) the Guarantor with all the relevant information or documentation concerning such investor's identity, tax residence or status as may constitute sufficient evidence thereof under applicable domestic tax laws and regulations as may be necessary to allow the Issuer or (as the case may be) the Guarantor making the relevant payment under the CMU Securities free and clear of any withholding or deduction for or on account of any taxes. If investors in CMU Securities failed to provide with any such information or documentation, payments of interest under the CMU Securities would be subject to Spanish withholding tax at the then-applicable rate (currently, 19 per cent.) and, in accordance with Condition 8 (*Taxation*), the Issuer or (as the case may be) the Guarantor would be required to pay an additional amounts in respect thereof.

This notwithstanding, if the Spanish tax authorities were to issue a public binding tax ruling (*consulta vinculante*) clarifying that the CMU qualifies as an entity managing a clearing and settlement system recognised by Spain or by any other OECD member country for the purposes of Article 44.5 of Royal Decree 1065/2007, Condition 8(i) would cease to apply and the Issuer's or (as the case may be) the Guarantor's obligations under Condition 8 (*Taxation*) will be equivalent to those under any other type of Securities. Prospective investors in CMU Securities should note that, as at the date of this Base Prospectus, no such public binding tax ruling (*consulta vinculante*) has been or, as far as the Issuer or Guarantor is aware, is expected to be issued by, or submitted to, the Spanish tax authorities. Holders of CMU Securities must seek their own advice to ensure that they comply with all procedures to ensure the correct tax treatment of CMU Securities. None of the Issuer, the Guarantor or any Paying Agent assumes any responsibility therefor.

### ***Risks in relation to Irish Stamp Duty***

Investors should be aware that, unless subject to an applicable exemption, where any document or transfer order is effected, outside or through a securities settlement system operated by a central securities depository transferring an interest in the Securities, the transfer of such Securities will be subject to stamp duty at a rate of 1 per cent. of the consideration paid in respect of the transfer (or if greater, the market value thereof). Stamp duty must be paid in Euro by the transferee (assuming that the transfer is an arm's length transaction) within 30 days of the date on which the transfer of such Securities is executed.

A transfer of the Securities will be exempt from Irish stamp duty where the conditions of the loan capital exemption are satisfied. Those conditions are detailed in the Irish tax disclosure referenced below. If an investor is not able to benefit from the loan capital exemption it may be possible to rely on the Irish stamp duty exemption for a transfer of foreign loan securities issued by an Irish company. For such purpose, a "foreign loan security" is a security issued outside Ireland in respect of a loan which is expressed in a currency other than euro and is neither offered for subscription in Ireland nor offered for subscription with a view to an offer for sale in Ireland of

securities in respect of the loan. Accordingly, investors should be aware that if they hold Securities that are denominated in Euro and that reference the performance of an equity index they may be required (in their capacity as transferee) to pay additional Irish stamp duty tax upon any transfer. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – Taxation in Ireland– Stamp duty*".

The Conditions provide, at Condition 6(l) (*Additional Redemption Right*), for an additional redemption right with respect to the Securities, in which the Issuer and the Securityholders may agree that the Issuer redeem some or all of the Securities at an agreed redemption amount on an agreed date. In such circumstances, the Securities will be redeemed earlier than their scheduled Maturity Date and an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of equivalent Securities and may only be able to do so at a significantly lower rate.

***The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Securities. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity***

The Bank Recovery and Resolution Directive (the "**BRRD I**"), as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC ("**BRRD II**" and together with BRRD I, the "**BRRD**") was implemented in Spain through Law 11/2015, as amended by Royal Decree-Law 11/2017, of 23 June, on urgent measures in financial matters (*Real Decreto-ley 11/2017, de 23 de junio, de medidas urgentes en materia financiera*) (the "**RDL 11/2017**") and by Royal Decree-Law 7/2021, of 27 April (the "**RDL 7/2021**") which has partially implemented BRRD II in Spain.

BRRD, as implemented in Spain through Law 11/2015 (as amended), together with Royal Decree 1012/2015, of 6 November, implementing Law 11/2015 (the "**RD 1012/2015**") and Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (as amended, replaced or supplemented from time to time, including by Regulation (EU) 2019/877 of the European Parliament and the Council of 20 May 2019, (the "**SRM Regulation**")) and its developing regulations is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in any relevant unsound or failing credit institution, investment firm, financial institution or holding company (each a "**relevant entity**") so as to ensure the continuity of the relevant entity critical financial and economic functions, while minimising the impact of a relevant entity's failure on the economy and financial system.

As provided in the BRRD, Law 11/2015 and its developing regulations contain four resolution tools and powers including bail-in which gives resolution authorities the power to write down and/or to convert certain claims of unsecured creditors (including the Securityholders and the Issuer) of a failing relevant entity (such as the Guarantor) (which write-down may result in the reduction of such claims to zero) and to convert certain unsecured debt claims to equity or other instruments of ownership (the "**general bail-in tool**"), which equity or other instruments could also be subject to any future write-down. Any application of the general bail-in tool under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings.

Additionally, the impact of such application on holders of Securities (as beneficiaries of the Guarantee) or the Issuer will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors. The exercise of the general bail-in tool and the exercise of any such powers may result in such Securityholders losing some or all of their investment. Such application could also involve the suspension of payments for a certain period, to or the disapplication of provisions in, the Terms and Conditions of the Securities. Furthermore, the determination that all or part of the Guarantee of the principal amount of any Securities or any liability of the Bank towards the Issuer will be subject to loss absorption is likely to be inherently unpredictable and may depend on a number of factors which may also be outside of the institution's control. This determination will be made by the institution's regulators and there may be many factors, including factors not directly related to the institution, which could result in such a determination.

As a result, the exercise of any power under Law 11/2015 or any suggestion of such exercise could materially adversely affect the rights of Securityholders, the price or value of any Securities and/or the ability of the relevant Issuer and the Guarantor to satisfy their respective obligations under any Securities and the Guarantee.

To the extent any resulting treatment of holders of Securities pursuant to the exercise of the general bail-in tool is less favourable than would have been the case under such hierarchy in normal insolvency proceedings, a holder

has a right to compensation under the BRRD based on an independent valuation of the relevant entity (which is referred to as the "no creditor worse off safeguard" under the BRRD). Any such compensation is unlikely to compensate that holder for the losses it has actually incurred and there is likely to be a considerable delay in the recovery of such compensation. Compensation payments (if any) are also likely to be made considerably later than when amounts may otherwise have been due under the Securities.

Further, the CMDI Reform provides for the introduction of a general depositor preference in insolvency that results in the senior preferred claims (such as those arising from the Guarantee) ranking junior to the claims of all depositors, including deposits of large corporates and other deposits that currently are not privileged claims (subject to certain exceptions, including deposits that qualify as eligible liabilities for MREL purposes). Any such general depositor preference will also affect any application of the Spanish Bail-in Power (as defined in Condition 22 (*Contractual Recognition and Acknowledgment of Bail-in Powers*)), as such application is to be carried out in the order of the hierarchy of claims in normal insolvency proceedings and any resultant write-down or conversion of the senior preferred liabilities by the Relevant Resolution Authority would be carried out before any write-down or conversion of the claims of depositors, including those of large corporates, that currently would be written-down or converted alongside the senior preferred liabilities. One of the objectives of this proposed amendment is to reduce the likelihood of deposits generally being affected in any such write-down or conversion upon the application of the Spanish Bail-in Power. However, this change may increase the risk for investors in senior preferred liabilities bearing a greater proportion of losses in the event of insolvency and upon any application of the Spanish Bail-in Power, as a result of a smaller proportion of losses being absorbed by deposits. The CMDI Reform was adopted by the European Council on 5 March 2026 and by the EU Parliament on 26 March 2026 and entry into force took place in May 2026. The directives forming part of the CMDI Reform will require transposition into the national laws of each Member State of the European Union, a process that may result in differences in implementation across jurisdictions and the timing of which remains uncertain. Accordingly, as of the date of this Base Prospectus, there remains uncertainty as to the specific impacts arising from the CMDI Reform. See the section entitled "*Investment Considerations*".

The uncertainty may adversely affect the value of Securityholders' investments in the Securities and the price and trading behaviour of the Securities may be affected by the threat of a possible exercise of any power under Law 11/2015 (including any early intervention measure before any resolution) or any suggestion of such exercise, even if the likelihood of such exercise is remote. Moreover, the Relevant Resolution Authority may exercise any such power without providing any advance notice to the Holders.

***Securityholders may not be able to exercise their rights on an event of default in the event of the adoption of any early intervention or resolution measure under Law 11/2015 and the SRM Regulation***

The Guarantor and, indirectly, the Issuer may be subject to a procedure of early intervention or resolution pursuant to the BRRD as implemented through Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation if the Guarantor or its group of consolidated credit entities is in breach (or due, among other things, to a rapidly deteriorating financial condition, it is likely in the near future to be in breach) of applicable regulatory requirements relating to solvency, liquidity, internal structure or internal controls or the conditions for resolution referred to in "*Investment Considerations – Additional information on the BRRD and SRM Regulation*" are met.

Pursuant to Law 11/2015, the adoption of any early intervention or resolution procedure shall not itself constitute an event of default or entitle any counterparty of the Issuer or Guarantor to exercise any rights it may otherwise have in respect thereof and any provision providing for such rights shall further be deemed not to apply. However, this does not limit the ability of a counterparty to declare any event of default and exercise its rights accordingly where an event of default arises either before or after the exercise of any such early intervention or resolution procedure and does not necessarily relate to the exercise of any relevant measure or power which has been applied pursuant to Law 11/2015.

Any enforcement by a Securityholder of its rights under the Securities upon the occurrence of an Event of Default following the adoption of any resolution procedure will be subject to the relevant provisions of the BRRD, as implemented through Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation in relation to the exercise of the relevant measures and powers pursuant to such procedure, including the resolution tools and powers referred to in "*Investment Considerations – Additional information on the BRRD and SRM Regulation*". Any claims on the occurrence of an Event of Default will consequently be limited by the application of any measures pursuant to the provisions of Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation. The taking of any such action could adversely affect the rights of Securityholders and the price or value of their investment in the Securities as well as the ability of the Issuer and/or the Guarantor to satisfy its obligations under

the Securities or the Guarantee. The enforcement by a holder of any rights it may otherwise have on the occurrence of any Event of Default may be limited in these circumstances.

Prospective investors should refer to the "*Investment Considerations*" section and in particular the section entitled "*Legal and Regulatory Considerations*" for more information on the BRRD and SRM Regulation.

### ***Risks Relating to the Spanish Insolvency Law affecting the Guarantor***

The Spanish Insolvency Law (as defined below) governs general insolvency and pre-insolvency proceedings in Spain.

The Spanish Insolvency Law establishes a single insolvency proceeding applicable to Spanish debtors (whether incorporated or not) and various pre-insolvency tools to try to restructure the debt. In this regard, the Kingdom of Spain has implemented the European Directive 2019/1023 of the European Parliament and of the Council of 20 June 2019 on preventive restructuring frameworks, on discharge of debt and disqualifications and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132, through Spanish Law 16/2022, of 5 September (the "**Insolvency Law Reform**").

The pre-insolvency instruments established by the Insolvency Law Reform are set out in the Second Book of the Spanish Insolvency Law, which significantly includes the restructuring plans. These pre-insolvency instruments replaced the refinancing agreements and enable the amendment of the conditions or the structure of the debtor's assets and liabilities, or its equity (among other things). The restructuring plans may also involve the transfer of assets, transfer of business units or transfer of the whole company. However, such pre-insolvency instruments are not applicable to credit institutions such as Banco Santander.

Furthermore, the Spanish Insolvency Law provides, among other things, that: (i) any claim may become subordinated if it is not reported to the insolvency administrators (*administradores concursales*) within one month from the last official publication in the Official Gazette (*Boletín Oficial del Estado*) of the court order declaring the insolvency, (ii) provisions in a contract granting one party the right to terminate it by reason only of the other's insolvency may not be enforceable (despite this, the Insolvency Law Reform introduced the possibility for the restructuring plan to terminate agreements with bilateral/reciprocal obligations when such actions is deemed necessary for the good of the restructuring plan or to avoid the insolvency of the debtor), and (iii) interest (other than ordinary interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security and the maximum secured liabilities under the relevant security and provided that a contingent claim has been reported in due course to the insolvency administrator) shall cease to accrue as from the date of the declaration of insolvency and any amount of interest accrued up to such date (other than any interest accrued under secured liabilities up to an amount equal to the lower of the value of the asset subject to the security and the maximum secured liabilities under the relevant security) shall become subordinated.

In addition, as indicated in the risk factor entitled "*The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Securities. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity*" above, the CMDI Reform provides for a general depositor preference in insolvency, among others. In particular, CMDI Reform provides for the introduction of a new tier of preferred deposits, with the result that all deposits (subject to certain exceptions) that currently are not privileged claims under Article 108.1 of BRRD (including certain deposits of large corporates and deposits by other banks) would rank above unsecured creditors but below covered deposits and other preferred deposits under current Article 108.1 BRRD. If the CMDI Reform is transposed into Spanish insolvency legislation in its current form, deposits will be granted a three-tier preference in the following order: (i) covered deposits and claims of deposit guarantee schemes, which will rank highest in the depositor preference hierarchy, (ii) that part of eligible deposits from natural persons, micro, small and medium sized enterprises and from public authorities which exceeds the coverage level, which will not rank above deposits referred to in limbs (iii), and (iii) subject to certain exceptions, other deposits not covered in (i) and (ii), which will rank above claims of unsecured creditors. Therefore, the implementation of the CMDI Reform in its current form would mean that the senior preferred claims (such as those arising from the Guarantee) will rank junior to the claims of all depositors (subject to certain exceptions), including deposits of large corporates and other deposits that are currently excluded from the above privileged claims.

## **5. Risks Relating to Renminbi Securities**

Securities settled in Renminbi or which may be settled in Renminbi ("**Renminbi Securities**") may be issued under the Programme. Renminbi Securities contain particular risks for potential investors, including:

***Renminbi is not completely freely convertible; there are significant restrictions on remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of Renminbi Securities.***

Renminbi is not completely freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been significant reduction over the years by the PRC government of control, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

Currently, participating banks in Hong Kong and a number other jurisdictions have been permitted to engage in the settlement of Renminbi current account trade transactions. However, remittance of Renminbi by foreign investors into and out of the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into and out of the PRC for settlement of capital account items are adjusted from time to time to match the policies of the PRC Government.

Although the People's Bank of China ("**PBOC**") has implemented policies improving accessibility to Renminbi to settle cross-border transactions in the past, there is no assurance that the PRC Government will liberalise control over cross border remittance of Renminbi in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in such rules. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under Renminbi Securities.

***There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Securities and the Issuer's ability to source Renminbi outside the PRC to service such Renminbi Securities.***

As a result of the restrictions imposed by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. While the PBOC has entered into agreements on the clearing of Renminbi business with financial institutions (each a "**RMB Clearing Bank**"), including, but not limited to, Hong Kong and are in the process of establishing Renminbi clearing and settlement mechanisms in a number of other jurisdictions (the "**Settlement Arrangements**"), the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from outside the PRC to square such open positions.

The offshore Renminbi market is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Securities. To the extent the Issuer is required to source Renminbi outside the PRC to service the Renminbi Securities, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all. If Renminbi is not available in certain circumstances as described in the Conditions applicable to Renminbi Securities, the Issuer can make payments in U.S. dollars or other specified currencies as set out in the Applicable Transaction Terms.

***Investment in Renminbi Securities is subject to exchange rate risks.***

The value of Renminbi against the U.S. dollar and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors.

## RISK FACTORS

The PBOC has in recent years implemented changes to the way it calculates the Renminbi's daily midpoint against the U.S. dollar to take into account market maker quotes before announcing the daily midpoint. This change, among others that may be implemented, may increase the volatility in the value of the Renminbi against other currencies. All payments with respect to Renminbi Securities will be made in Renminbi unless otherwise specified. As a result, the value of these Renminbi payments in other foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against other foreign currencies, the value of investment in other applicable foreign currency terms will decline.

In the event that access to Renminbi becomes restricted to the extent that, by reason of Renminbi Inconvertibility, Renminbi Non Transferability or Renminbi Illiquidity (as defined in the Conditions), it is impossible, impractical, illegal or impracticable for the Issuer (or, if applicable, any party to a Hedge Position), to pay or deliver any amounts or assets due in Renminbi, the Conditions allow the Issuer or, as the case may be, the Guarantor, to delay such payment in Renminbi until ten Business Days after such time the relevant Renminbi Currency Event ceases to exist; to make payment in U.S. dollars or other specified foreign currency at the prevailing spot rate of exchange; and/or to redeem the Securities by payment of the Early Redemption Amount in respect of each Calculation Amount, all as provided in more detail in the Conditions. As a result, the value of these Renminbi payments or deliveries may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other foreign currencies, the value of a holder's investment in U.S. dollar or other foreign currency terms will decline.

***Payments in respect of Renminbi Securities will only be made to investors in the manner specified in the terms and conditions of the relevant Securities.***

Investors may be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in the Renminbi Settlement Centre(s). All Renminbi payments to investors in respect of the Renminbi Securities will be made solely (i) for so long as the Renminbi Securities are represented by a Global Security or Registered Global Security held in Euroclear and Clearstream, Luxembourg or Clearstream, Frankfurt or the CMU or any alternative clearing system, by transfer to a Renminbi bank account maintained in the Renminbi Settlement Centre(s) in accordance with prevailing Euroclear and/or Clearstream, Luxembourg or Clearstream, Frankfurt or CMU rules and procedures, or (ii) for so long as Renminbi Securities are in definitive form, by transfer to a Renminbi bank account maintained in the Renminbi Settlement Centre(s) in accordance with prevailing rules and regulations. Other than as described in the Conditions, neither the Issuer nor the Guarantor can be required to make payment by any other means (including in any other currency or in bank notes or by transfer to a bank account in the PRC).

***An investment in Renminbi Securities is subject to risk of change in the regulatory regime governing the issuance of Renminbi Securities.***

Renminbi Securities issuance is subject to laws and regulations of the relevant Renminbi Settlement Centre(s). The PRC Government currently views Hong Kong as one of the key offshore RMB settled instrument centres and has established a cooperative relationship with Hong Kong's local government to develop the RMB settled instrument market. There can be no assurance that the PRC Government will continue to encourage issuance of RMB settled instruments outside of mainland China and any change in the Chinese government's policy or the regulatory regime governing the issuance of RMB settled instruments may adversely affect the Renminbi Securities.

***An investment in fixed rate Renminbi Securities is subject to interest rate risks***

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

If a Renminbi Security carries a fixed interest rate, then the trading price of such Renminbi Securities will vary with the fluctuations in Renminbi interest rates. If an investor in Renminbi Securities tries to sell such RMB Securities, then it may receive an offer that is less than the amount invested.

***There may be PRC tax consequences with respect to investment in the Renminbi Securities***

In considering whether to invest in the Renminbi Securities, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising

under the laws of any other tax jurisdictions. The value of the Securityholder's investment in the Renminbi Securities may be materially and adversely affected if the Securityholder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those Renminbi Securities.

### **Risks Relating to the Issuer, the Guarantor and the Group**

#### **6. Risks Relating to the Issuer**

##### ***Risk that funds lent by the Issuer to Group companies are not repaid***

The Issuer is a finance vehicle established by the Guarantor for the purpose of issuing debt securities, preferred securities (*participaciones preferentes*) and other financial instruments and on-lending the proceeds to the Guarantor and its consolidated subsidiaries (the "**Group**" and references to "**we**", "**us**" or "**our**" should be construed as references to the Group). The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should any Group member fail to pay interest on or repay any loan in a timely fashion this could have a material adverse effect on the ability of the Issuer to fulfil its obligations under Securities issued under the Programme which could have an adverse impact on the rights of Securityholders and the return on their investment.

The Issuer was incorporated under the Irish Companies Acts 1963 to 2013 and is subject to the Irish Companies Act 2014 (the "**2014 Act**") and as such may be wound up pursuant to the 2014 Act and/or be subject to examinership, a court procedure which is available under the 2014 Act to facilitate the survival of Irish companies in financial difficulties.

##### ***Certain Creditors of the Issuer will rank in priority above Securityholders***

Under Irish law, the claims of a limited category of preferential creditors will take priority over the claims of unsecured creditors and holders of floating security in the event of the appointment of a liquidator or a receiver to an Irish company such as the Issuer. These preferred claims include taxes, such as income tax and corporation tax payable before the date of appointment of the liquidator or receiver and arrears of value added tax, together with accrued interest thereon and claims of employees.

##### ***Risks in connection with examinership***

*Examinership is a court procedure available under the 2014 Act to facilitate the survival of Irish companies in financial difficulties.*

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer, are each entitled to petition the court for the appointment of an examiner.

The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after his appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to his appointment. Furthermore, he may sell assets which are the subject of a fixed charge. However, if such power is exercised he must account to the holders of the fixed charge for the amount realised and discharge the amount due to them out of the proceeds of sale.

During the period of protection, the examiner will compile proposals for a compromise or scheme of arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the Irish Circuit Court or High Court (as appropriate) (each a "**Court**") when:

- (a) at least one class of creditors whose interests or claims would be impaired by implementation of the proposals, other than a class which, on a going concern valuation, would not receive any payment or keep any interest in a liquidation, has voted in favour of the proposals; and
- (b) the relevant Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement; and
- (c) the proposals are not unfairly prejudicial to the interests of any interested party.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Agent represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by the Issuer in the Transaction Documents), the Agent would be in a position to vote against any proposal not in favour of the Securityholders. The Agent would also be entitled to argue at the relevant Court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Securityholders, especially if such proposals included a writing down to the value of amounts due by the Issuer to the Securityholders.

The primary risks to the Securityholders if any examiner were to be appointed with respect to the Issuer are as follows:

- (i) the potential for a scheme of arrangement being approved involving the writing down of the debt due by the Issuer to the Securityholders,
- (ii) the potential for the examiner to seek to set aside any negative pledge in the Securities or the Transaction Documents prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period, and
- (iii) in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant Court) will take priority over the amounts secured or unsecured owing to the Securityholders.

### **7. Macro-Economic and Political Risks**

***The growth, asset quality and profitability of the Group, among others, may be adversely affected by a slowdown in one or more of the economies in which the Group operates, volatile macroeconomic and political conditions.***

A slowdown or recession in one or more of the economies in which the Group operates could lead major financial institutions, including some of the world's largest global commercial banks, investment banks, mortgage lenders, mortgage guarantors and insurance companies to experience significant difficulties, including runs on deposits, the need for government aid or assistance or the need to reduce or cease providing funding to borrowers (including to other financial institutions).

Volatile conditions in the global financial markets could also have a material adverse effect on the Group, including on the ability of the Group to access capital and liquidity on acceptable financial terms, if at all. If capital markets financing becomes unavailable or excessively expensive, the Group may be forced to raise the rates it pays on deposits to attract more customers and may be unable to maintain certain liability maturities. Any such adverse impact in capital markets funding availability or costs or in deposit rates could have a material adverse effect on its interest margins and liquidity.

In particular, the Group including the Guarantor faces, among others, the following risks related to the economic downturns and volatile conditions:

- A reduction in demand for its products and services.
- An increase or change in regulation of its industry. Compliance with such regulation would likely continue to increase the costs of the Group and may affect the pricing for its products and services, increase its conduct and regulatory risks related to non-compliance and limit its ability to pursue business opportunities.
- An inability of its customers to timely or fully comply with their existing obligations. Macroeconomic shocks may negatively impact the income of its retail and corporate customers and may adversely affect the recoverability of its loans, resulting in increased loan losses.
- The process the Group uses to estimate losses inherent in its credit exposure requires complex judgements, including forecasts of economic conditions and how these economic conditions might impair the ability of its borrowers to repay their loans. The degree of uncertainty concerning economic conditions may adversely affect the accuracy of its estimates, which may, in turn, impact the reliability of the process and the sufficiency of its loan loss allowances.

- The value and liquidity of the portfolio of investment securities that the Group holds may be adversely affected.

The recoverability of the loan portfolios of the Group, its capacity to increase lending, and its overall results of operations and financial condition depend significantly on the level of economic activity in Europe (in particular, Spain and the UK), North America (in particular, Mexico and the United States) and South America (in particular, Brazil). The credit quality of the loan portfolio of the Group may deteriorate as a result of these risks and the Group's loan loss reserves could be insufficient to cover the Group's loan losses, which can have a material adverse effect on the Group. See risk factor entitled "*The credit quality of the loan portfolio of the Group may deteriorate and the Group's loan loss reserves could be insufficient to cover its loan losses, which could have a material adverse effect on the Group*".

In addition, the Group is exposed to sovereign debt in these regions. The Group's net exposure to sovereign debt at 31 December 2025 amounted to €224,947 million (12.05 per cent of the Group's total assets at that date) of which the main exposures in the eurozone relate to Spain and Portugal with net exposure of €62,008 million and €7,307 million, respectively. In North America, the main exposures relate to Mexico and the United States (the "US" or the "United States") (€25,914 million and €25,046 million, respectively) and in South America to Brazil (€26,165 million). Recessionary conditions in the economies of Europe, North America or the South American countries in which the Group operates, would likely have a significant adverse impact on its loan portfolio and sovereign debt holdings and, as a result, on its financial condition, cash flows and results of operations.

The Group's revenues are also subject to deterioration due to unfavourable political and diplomatic developments, social instability, international conflicts, and changes in governmental policies, including expropriation, nationalisation, international ownership legislation, sanctions and trade restrictions, interest-rate caps and fiscal and monetary policies globally.

For the year ending 31 December 2025, 50 per cent. of the underlying profit attributable to the Bank areas (i.e. without considering the -€1,085 million underlying loss accounted for in the Corporate Centre resulting from centralised management of the areas) came from Europe (of which 28 per cent. was from Spain and 9 per cent. from the UK), 24 per cent. from South America (14 per cent from Brazil), 21 per cent. from North America (10 per cent. from the United States and 11 per cent. from Mexico) and 5 per cent. from the Digital Consumer Bank Europe segment. As of 31 December 2025, the Group's total assets (i.e. without considering €234,284 million total assets accounted for in the Corporate Centre and without intra-group eliminations) stood at 56 per cent. in Europe (30 per cent. in Spain and 17 per cent. in the UK), 17 per cent. in South America (11 per cent. in Brazil) 17 per cent. in North America (11 per cent. in the United States and 6 per cent. in Mexico) and 10 per cent. in the Digital Consumer Bank Europe segment.

In particular, the main regions where the Group operates are subject to the following macroeconomic and political conditions, which could have a material adverse effect on its business, results of operations, financial condition and prospects:

- After a period of persistent high inflation worldwide, particularly in Europe and the United States from 2023 onwards inflation gradually converged towards central banks' objectives, enabling interest-rate cuts in the second half of 2024 and throughout 2025. Markets remain focused on the timing and extent of policy rate moves across the Group's core geographies because of their impact on economic growth. A return to periods of high inflation could halt or reverse the recent interest-rate cuts, increase the Group's operating costs and reduce households' purchasing power, leading to higher delinquencies in the Group's credit portfolio and weaker growth as monetary and fiscal policies tighten. Conversely, faster-than-expected monetary easing could compress margins through higher deposit betas and deposit-mix shifts. Any of these developments could have a material adverse effect on the Group's operations, financial condition and prospects.
- Scenarios of political tensions and instability throughout the world stemming from a variety of factors, such as fragmentation, heightened polarisation and political interference, may lead to shifting and unpredictable outcomes in political elections, legislative and policy-making efforts, social conditions, government stability and the global economy and to a progressive erosion of the rule of law in certain long-standing democracies. Furthermore, increasing public debt levels together with high interest costs may not be sustainable and could lead certain countries to face higher sovereign risk premia and sovereign debt crises. A deterioration of the global economic, political, social and financial environment, particularly in Europe and the Americas, could have

## RISK FACTORS

a material adverse impact on the financial sector, affecting the Group's operating results, financial position and prospects.

- In particular, the risk of a return in Europe to a fragile and volatile environment, heightened political tensions or recession could be aggravated if, among others, (i) the German economy falls into recession due to reduced industrial competitiveness, (ii) EU policies to increase defense spending, rearm Europe and support Ukraine prove unsuccessful, (iii) reforms to improve labour markets, productivity and competitiveness fail, (iv) the banking union and other measures of European integration do not progress, or (v) anti-European groups become more widespread.
- Global trade tensions could intensify and negatively impact the economies of the countries where the Group operates. The US presidential administration has increased tariffs, and the possibility for new or higher trade tariffs remains. Certain US trading partners have announced retaliatory actions, including tariffs, in response. The continuation, pause or escalation of tariffs and other trade restrictions, the continued depreciation of the US dollar and other non-trade-related actions or policies implemented by the governments of the countries in which the Group operates, including those related to immigration and foreign policy, could further transform international trade relations, investment flows and supply chains significantly, resulting in continued market volatility and lower global growth, intensifying concerns over the global macroeconomic environment, inflation and the potential for a recession. Any of the foregoing could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.
- The shift in the global economy's centre of gravity from the Atlantic to the Pacific and in particular, China's increasing relevance as a key trading partner and source of financing for Latin American economies, could negatively impact United States and European banks, particularly those like the Group with limited presence in Asia, reducing the Group's global market share and customer base and affecting the Group's business, operating results, financial condition and prospects.
- Uncertain outlook for China, including weak economic growth and related policy actions, and tensions or conflicts involving China, Taiwan or the US, could negatively affect the world economy and impact the Group's operating results, financial condition and prospects.
- The economies of some of the countries where the Group operates, particularly in Latin America face long-standing structural challenges, including weaknesses in infrastructure, competitiveness and education, high levels of social inequality, rising inflation and increasing public debt levels and have experienced significant volatility in recent decades. This volatility resulted in fluctuations in deposits and in lending. In addition, some of the countries where the Group operates are particularly affected by commodities price fluctuations, which in turn may affect financial market conditions through exchange rate fluctuations, interest rate volatility and deposits volatility. In addition, the Group is exposed to variations in its net interest income and in the fair value of its assets and liabilities resulting from exchange rate fluctuations. Fiscal instability, political tensions, trade and travel restrictions and financial volatility, particularly in Brazil, Mexico, Chile and Argentina, could have a negative impact on the economy of these countries and may have a material adverse effect on the Group.
- Other risks that could negatively affect the economies and financial markets in the regions where the Group operates and lead to a slowdown of the global economy, recession, inflationary pressures and/or stagflation include (i) the depreciation of the US dollar against the euro and other currencies that could lead to a widespread loss of confidence in the US dollar; (ii) the continuance or escalation of the armed conflicts in Ukraine and the Middle East; (iii) heightened geopolitical instability arising from recent developments in certain Latin American countries, which may increase volatility in financial markets and global energy prices; (iv) other increases in the prices of energy and other commodities; (v) the breakdown of global supply chains; and (vi) the return to tighter monetary and fiscal policies, including higher interest costs.

***Geopolitical conflicts and related uncertainties, such as the continuance or escalation of the armed conflicts in Ukraine and the Middle East, could materially affect the Group's financial position and increase the Group's operational risk.***

On 24 February 2022, Russia launched a large-scale military action against Ukraine. The war in Ukraine has caused an ongoing humanitarian crisis in Europe as well as volatility in financial markets globally, heightened inflation, shortages and increases in the prices of energy, oil, gas and other commodities.

In response to the war in Ukraine, several countries, including the US, European Union member states, the UK, and other United Nations ("UN") member states, have imposed severe sanctions on Russia and Belarus. In addition, the sanctions imposed also include a ban on trading in sovereign debt and other securities. The war has exacerbated supply chain problems, particularly for those businesses most sensitive to rising energy prices. The war has led to, and could continue to lead to, further increases in energy prices, supply chain problems and inflationary pressures. These factors contribute to an environment of higher interest rates, market volatility and a slowdown in the global economy.

The scale of sanctions is unprecedented, complex and rapidly evolving, and poses continuously increasing operational risk to the Group. Its corporate framework and policies are designed to ensure compliance with applicable laws, regulations and economic sanctions in the countries in which the Group operates, including US, UK, EU and UN economic sanctions. The Group cannot predict whether any of the countries in which it operates will enact additional economic sanctions or trade restrictions in response to the war in Ukraine or to other current or future geopolitical conflicts or tensions. While the Group does not knowingly engage in direct or indirect dealings with sanctioned parties according to applicable sanctions, or in direct dealings with the sanctioned countries/territories, it may on occasion have indirect dealings within the sanctioned countries/territories, but it aims to operate in line with applicable US, EU, UK and UN blocking and sectoral sanctions regulations. The Group is committed to the ongoing enhancement of sanctions governance, list management and screening controls. However, evolving measures may increase the complexity of compliance and residual risk, including the risk of penalties if banks deal with blocked persons, even indirectly, or facilitate significant transactions involving Russia's military industry.

In February 2026, the military conflict involving Israel, Iran and the United States escalated significantly, including air and missile strikes on Iranian territory and subsequent retaliatory attacks. These developments have led to heightened regional tensions and increased geopolitical uncertainty in the Middle East, which could affect other regions and, in turn, affect energy markets, trade flows and investor sentiment. These developments have resulted, or may result, in volatility in oil and gas prices, supply chain disruptions, inflationary pressures and market uncertainty, among other consequences.

Furthermore, the risk of cyberattacks on companies and institutions has increased and could increase further as a result of the armed conflicts and other geopolitical conflicts or tensions. Although the Group is actively monitoring cyberattacks, there can be no assurance that the Group's cyber security and data protection measures and defences will be effective at identifying, preventing, mitigating or remediating any such cyberattacks.

The Group does not have a physical presence in Russia or Ukraine and its physical presence in the Middle East is very limited. Further, the Group's direct exposure to Russian, Ukrainian or Middle Eastern markets is not material. However, the ability of certain of the Group's customers to fulfil their obligations may be negatively impacted, particularly those with greater exposure to the Russian, Ukrainian or Middle Eastern markets. The impact of ongoing or increased geopolitical tensions and sanctions on global markets, macroeconomic conditions globally, and other current or future geopolitical tensions and developments, remains uncertain and may exacerbate its operational risk. As a result, the Group's businesses, results of operations and financial position could be adversely affected by any of these factors directly or indirectly arising from the armed conflicts in Ukraine and the Middle East or from other geopolitical conflicts or tensions.

***The outbreak of public health emergencies, could materially and adversely impact the business at the Group, its financial condition, liquidity and results of operations.***

The outbreak of public health emergencies may force countries to adopt measures, similar to those adopted in response to the covid-19 pandemic, that restrict economic activity, may deteriorate the macroeconomic environment and may adversely impact the business and results of operations of the Group, including, among others (i) decreased demand for its products and services, (ii) further material impairment of its loans and other assets including goodwill, (iii) decline in the value of collateral, (iv) constraints on its liquidity due to market conditions, exchange rates and customer withdrawal of deposits and continued draws on lines of credit, (v)

downgrades to its credit ratings; and (vi) operational disruptions, technology infrastructure failures, increased cybersecurity risks or governmental restrictions affecting the Group's operations. See risk factor entitled "*Credit, market and liquidity risk may have an adverse effect on the Group's credit ratings and the Group's cost of funds. Any downgrade in the Group's credit rating would likely increase the Group's cost of funding, require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts and adversely affect the Group's interest margins and results of operations*".

Any such events could materially and adversely affect the Group's business, financial condition, liquidity and results of operations.

***The UK's withdrawal from the EU has had and could continue to have a material adverse effect on the UK-based operations, financial condition and prospects of the Group.***

The UK ceased to be a member of the EU ("**Brexit**") in 2020 and a limited trade deal was agreed between the UK and the EU with the relevant new regulations coming into force on 1 January 2021.

The trade deal, however, did not include agreements on certain areas, such as financial services and data adequacy.

The Financial Services and Markets Act 2023 ("**FSMA 2023**") established a framework for HM Treasury to revoke EU-derived financial services legislation (known as assimilated EU law) and for it to be replaced by Financial Conduct Authority ("**FCA**") and Prudential Regulation Authority ("**PRA**") rules. This process of revoking and replacing assimilated EU law may result in material changes to the UK regulatory regime and the impact of these regulatory developments and changes on Santander UK plc ("**Santander UK**") is difficult to predict. Legislative divergence between EU and UK law and regulation arising out of Brexit could cause operational complications, demand additional resources to fulfil the additional requirements of having to comply with two separate regulatory regimes, and create new compliance risks.

In 2021, the EU Commission adopted an adequacy decision for the UK, allowing for the continued flow of personal data between the EU and the UK without additional safeguards or permissions. However, such adequacy decision will sunset in December 2031, unless extended or renewed. If the EU Commission's adequacy decision for the UK is not extended or renewed, this could impact personal data flows from entities in the EU to Santander UK in the UK. In the event this occurs, it may result in additional costs to Santander UK in order to facilitate those data flows, to the extent those data flows are impacted, with the UK being subject to EU transfer rules as a non-adequate jurisdiction. For more information on cross-border transfers of personal data, see "*Regulation*" – "*Data privacy and cybersecurity*".

The continuing impact of Brexit on the wider UK economy could have a material adverse effect on Santander UK's customers and, consequently, on operations, financial condition and prospects of the Group.

The Group considered these circumstances in its assessment of the recoverability of the cash-generating unit that supports Santander UK's goodwill, which was impaired in 2019 and 2020. There has been no impairment of Santander UK's goodwill since then.

***Structural demographic shifts could adversely affect the Group's business, financial condition and results of operations.***

Structural demographic shifts in the Group's core markets, including an ageing population, migration flows (whether driven by geopolitical, economic or climate-related events) and changing household formation patterns, may rapidly change local customer bases and labour markets, dampen demand for certain products (e.g., long-tenor mortgages), shift savings toward lower-margin solutions and require incremental service adaptations for senior or otherwise vulnerable customers. If the Group fails to adapt its products and channels accordingly, its revenues, costs and conduct and operational risk profile could be adversely affected.

The sustainability of public and private pension systems, including reforms to retirement ages, contribution rates, benefits or tax treatment, can materially influence the Group's customers' disposable income, savings flows and creditworthiness. In addition, the Group's own long-term employee benefit obligations are sensitive to financial and demographic assumptions (including longevity and discount rates). Changes in assumptions, generally, could increase expenses or capital needs.

Any of these factors could have a material adverse effect on the Group's business, financial condition and results of operations.

## 8. Risks Relating to the Group's Business

### *Legal, Regulatory and Compliance Risks to the business model of the Group.*

*The Group is exposed to risk of loss from legal and regulatory proceedings.*

The Group faces risk of loss from legal and regulatory proceedings, including tax proceedings, that could subject it to monetary judgements, regulatory enforcement actions, fines and penalties. The current regulatory and tax enforcement environment in the jurisdictions in which the Group operates reflects an increased supervisory focus on enforcement. Combined with uncertainty about the evolution of the regulatory regime, this may lead to material operational and compliance costs.

The Group is from time to time subject to regulatory investigations and civil and tax claims, and party to certain legal proceedings incidental to the normal course of its business, including, among others, in connection with conflicts of interest, lending and derivatives activities, relationships with its employees and other commercial, privacy, data protection, cybersecurity, tax or climate related matters. In view of the inherent difficulty of predicting the outcome of legal matters, particularly where the claimants seek very large or indeterminate damages, or where the cases present novel legal theories, involve a large number of parties, are in the early stages of investigation or discovery, or have common elements but require assessment of circumstances on a case-by-case basis, the Group cannot state with certainty what the eventual outcome of these pending matters will be or what the eventual loss, fines or penalties related to each pending matter may be, for instance, in relation to the recent judgments rendered by the Spanish Supreme Court concerning revolving credit cards

The amount of the Group's reserves in respect of these matters, which considers the likelihood of future cash outflows associated with each of such claims, is substantially less than the total amount of the claims asserted against it, and, in light of the uncertainties involved in such claims and proceedings, there is no assurance that the ultimate resolution of these matters will not significantly exceed the reserves currently accrued by the Group. As a result, the outcome of a particular matter may be material to its operating results for a particular period. As of 31 December 2025, the Group had provisions for taxes, other legal contingencies and other provisions for €4,993 million.

For example, in the UK, following the FCA motor market review in 2019 which resulted in a change in rules in January 2021, Santander Consumer (UK) plc ("**SCUK**") has received several county court claims and complaints in respect of its historical use of discretionary commission arrangements ("**DCAs**") prior to the 2021 rule changes. In January 2024, the FCA commenced a review of the use of DCAs between lenders and credit brokers ("**the FCA Review**"). Pending the conclusion of its review, the FCA paused the handling of motor finance commission related complaints until 31 May 2026 reflecting the extended timeline of the FCA Review.

After the UK Court of Appeal's decision rendered on 25 October 2024 within the judicial proceedings followed against DCAs of other financial entities, as of 31 December 2024, Santander UK recognised a provision of £293 million (€353.3 million). This provision was determined based upon the information then available. It included estimated operational and legal costs and potential awards, based on various scenarios and used a range of assumptions.

On 1 August 2025, the UK Supreme Court handed down its judgment stating that motor dealers acting as credit brokers do not owe fiduciary or disinterested duties to their customers and, as a consequence, commission payments by lenders to motor dealers would not be unlawful on that basis. In addition, the UK Supreme Court held that an unfair relationship under section 140A of the Consumer Credit Act 1974 had arisen in the Johnson case on its facts and awarded the amount of the commission paid by the lender plus interest at a commercial rate as the remedy. It also confirmed that the test for unfairness was highly fact-sensitive and outlined a series of non-exhaustive factors to consider in assessing unfair relationships in this context (indicating that no or partial disclosure was not necessarily enough on its own to constitute an unfair relationship).

On 7 October 2025, the FCA published its proposals for an industry-wide redress scheme under section 404 of the Financial Services and Markets Act to compensate motor finance customers and launched a public consultation period.

In light of the proposed sectoral scheme and taking into account the objections raised and the uncertainty surrounding both the final decision to be adopted by the FCA and the outcome of any potential legal challenges, the Santander UK group reviewed the potential impact on SCUK in relation to the vehicle finance market. The range of scenarios has been updated, which has resulted in an additional estimated charge of £183 million (€213.6 million). As of 31 December 2025, the total provision amounted to £461 million (€528.1 million). This continues

to include estimates for operational and legal costs and potential awards reflecting an increased likelihood of a higher number of cases than had previously been predicted as eligible for redress as well as an increased possibility that a remedy is sought to be imposed which extends beyond reversing any damaging financial consequences caused by any unfair relationships. The provision is based on various scenarios using a range of assumptions, including potential changes to the proposed scheme following responses to the consultation or publication of the FCA's final scheme rules.

There continue to be significant uncertainties as to the nature, extent and timing of redress payments. Therefore, while the ultimate financial impact of this matter could materially differ from the amount of the provision as of the date of this Base Prospectus, such impact is not expected to be material for the Group as of that date.

*The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition.*

As a financial institution, the Group including the Guarantor is subject to extensive regulation, which materially affects its businesses.

In Spain and the other jurisdictions where the Group including the Guarantor operates, there is continuing political, competitive and regulatory scrutiny of the banking industry, including banking practices, products, services and pricing policies. Political involvement in the regulatory process, in the behaviour and governance of the banking sector and in the major financial institutions in which the local governments have a direct financial interest and in their products and services, and the prices and other terms they apply to them, is likely to continue. Accordingly, the statutes, regulations and policies to which the Group including the Guarantor is subject may be changed at any time. In addition, the interpretation and the application by regulators of the laws and regulations to which the Group is subject may also change from time to time. Extensive legislation and regulation affecting the financial services industry has been adopted in regions that directly or indirectly affect the Group's business, including Spain, the United States, the EU, the UK, Latin America and other jurisdictions, and further regulations are in the process of being implemented. The manner in which those laws and related regulations are applied to the operations of financial institutions is continuously evolving. Moreover, to the extent these regulations are implemented inconsistently in the various jurisdictions in which the Group operates, it may face higher compliance costs. Any legislative or regulatory actions and any required changes to its business operations resulting from such legislation and regulations, as well as any deficiencies in its compliance with such legislation and regulation, could result in significant loss of revenue, limit the ability of the Group to pursue business opportunities in which the Group might otherwise consider engaging, limit the Group's ability to provide certain products and services, affect the value of assets that it holds, require the Group to increase its prices and therefore reduce demand for its products, impose additional compliance and other costs on the Group or otherwise adversely affect its businesses.

In particular, legislative or regulatory actions resulting in enhanced prudential standards, in particular with respect to capital and liquidity, could impose a significant regulatory burden on the Guarantor or on its bank subsidiaries and could limit the bank subsidiaries' ability to distribute capital and liquidity to the Guarantor, thereby negatively impacting the Guarantor. Future liquidity standards could require the Guarantor to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, which would negatively affect its net interest margin. Moreover, the Guarantor's regulatory and supervisory authorities, periodically review the Guarantor's allowance for its loan losses.

Such regulators and supervisors may recommend the Guarantor to increase its allowance for loan losses or to recognise further losses. Any such additional provisions for loan losses, as recommended by these regulatory and supervisory agencies, whose views may differ from those of the Guarantor's management, could have an adverse effect on its earnings and financial condition. Accordingly, there can be no assurance that future changes in regulations or in their interpretation or application will not adversely affect the Group.

The wide range of regulations, actions and proposals which most significantly affect, or which could most significantly affect, the Group in the future, relate to capital requirements, funding and liquidity and development of a fiscal and banking union in the EU, which are discussed in further detail below. Moreover, there is uncertainty regarding the future of financial reforms in the US and the impact that potential financial reform changes to the U.S. banking system may have on ongoing international regulatory proposals. In general, regulatory reforms adopted or proposed in the wake of the financial crisis have increased and may continue to materially increase the Group's operating costs and negatively impact the Group's business model. Furthermore, regulatory authorities have substantial discretion in how to regulate banks, and this discretion, and the means available to the regulators, have been increasing during recent years. Regulation may be imposed on an ad hoc basis by governments and

regulators in response to a crisis, and these may especially affect financial institutions such as the Group that are deemed to be a global systemically important institution ("**G-SII**"). The main regulations and regulatory and governmental oversight that can adversely impact the Group include but are not limited to the items below.

*Increasingly stricter capital regulations and potential requirements could have an impact on the functioning of the Group and its businesses*

Increasingly onerous capital requirements constitute one of the Guarantor's main regulatory challenges. Increasing capital requirements may adversely affect the Guarantor's profitability and create regulatory risk associated with the possibility of failure to maintain required capital levels.

In 2011, the framework known as Basel III, which is a full set of reform measures to strengthen the regulation, supervision and risk management of the banking sector, was introduced (see "*Investment Considerations – Additional information on the BRRD and SRM Regulation – Capital requirements, liquidity, funding and structural reform*"). This aimed to boost the banking sector's ability to absorb impacts caused by financial and economic stress, improve risk management and corporate governance, and improve banking transparency and disclosures. Concerning capital, Basel III redefines available capital at financial institutions (including new deductions and raising the requirements for eligible equity instruments), tightens the minimum capital requirements, compels financial institutions to operate permanently with surplus capital (capital "buffers"), and includes new requirements for the risks considered.

The amendments to the solvency requirements of credit institutions and various transparency regulations, from the practical standpoint, grant priority to high-quality capital (Common Equity Tier 1 or "**CET1**"), introducing stricter eligibility criteria and more stringent ratios, in a bid to guarantee higher standards of capital adequacy in the financial sector.

The European Central Bank (the "**ECB**") is required under Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the "**SSM Regulation**") to carry out a supervisory review and evaluation process (the "**SREP**") at least on an annual basis.

The Guarantor announced on 30 October 2025 that it had received from the ECB its decision regarding the prudential minimum capital requirements effective as of 1 January 2026, following the results of SREP. The ECB's decision maintains an unchanged Pillar 2 requirement (P2R) of 1.74 per cent. at a consolidated level, of which at least 0.98 per cent. must be covered with CET1. Accordingly, the minimum CET1 and capital requirements as of 1 January 2026 are 9.85 per cent. and 14.11 per cent. on a consolidated basis, respectively. As of 31 December 2025, on a consolidated basis, the Group's total capital ratio phased-in was 17.8 per cent. while its CET1 ratio phased in was 13.5 per cent.

In addition, the Guarantor shall comply with the TLAC/MREL Requirements (as defined in section "*Investment Considerations – Additional information on the BRRD and SRM Regulation – MREL Requirements*"). The Bank announced on 7 May 2025 that it received, a formal notification from the Bank of Spain with its binding minimum requirement for own funds and eligible liabilities ("**MREL**"), both total and subordinated, for the resolution group of Banco Santander (the "**Resolution Group**") at a sub-consolidated level, as determined by the Single Resolution Board (the "**SRB**"). The total MREL requirement currently in effect, is 31.92 per cent. of the resolution group's total risk weighted assets. The subordination requirement that is in effect is 10.95 per cent. Future requirements are subject to ongoing review by the resolution authority.

See "*Investment Considerations – Additional information on the BRRD and SRM Regulation – MREL Requirements*" for additional information.

In this regard, there can be no assurance that the application of the existing regulatory requirements, standards or recommendations will not require the Guarantor to issue additional securities that qualify as own funds or eligible liabilities, to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on the Group's business, results of operations and/or financial position.

Any failure by the Guarantor and/or the Group to maintain its Pillar 1 minimum regulatory capital ratios and any Pillar 2 additional capital requirements could result in administrative actions or sanctions (including restrictions on Discretionary Payments, as defined in section "*Investment Considerations – Additional information on the BRRD and SRM Regulation – Capital Requirements*"), which, in turn, may have a material adverse impact on the Group's results of operations.

## RISK FACTORS

Moreover, it should not be disregarded that new and more demanding additional regulatory requirements, standards or recommendations may be applied in the future.

All the applicable regulations and the approval of any other regulatory requirements could have an adverse effect on the Group's activities and operations, and most particularly affect the ability of the Guarantor to distribute dividends. Therefore, these regulations could have a material adverse effect on the Group's business, results of operations and/or financial position.

*The Group is subject to potential action by any of its regulators or supervisors, particularly in response to customer complaints.*

As noted above, the business and operations of the Group are subject to increasingly significant rules and regulations that are required to conduct banking and financial services business. These apply to business operations, affect financial returns, include reserve and reporting requirements, and prudential and conduct of business regulations. These requirements are set by the relevant central banks and regulatory authorities that authorise, regulate and supervise the Group in the jurisdictions in which it operates.

In their supervisory roles, the regulators seek to maintain the safety and soundness of financial institutions with the aim of strengthening the protection of customers and the financial system. The supervisors' continuing supervision of financial institutions is conducted through a variety of regulatory tools, including the collection of information by way of prudential returns, reports obtained from skilled persons, visits to firms and regular meetings with management to discuss issues such as performance, risk management and strategy. In general, these regulators have a more outcome-focused regulatory approach that involves more proactive enforcement and more punitive penalties for infringement. As a result, the Group faces increased supervisory scrutiny (resulting in increasing internal compliance costs and supervision fees), and in the event of a breach of its regulatory obligations the Group is likely to face more stringent regulatory fines. Some of the regulators, have been focusing intently on consumer protection and on conduct risk and could continue to do so. This has included a focus on the design and operation of products, the behaviour of customers and the operation of markets. Such a focus could result, for example, in pricing regulations that could restrict the ability of the Group to charge certain levels of interest in credit transactions or in regulation that would prevent the Group from bundling products that it offers to its customers. Some of the laws in the relevant jurisdictions in which the Group operates, give the regulators the power to make temporary product intervention rules either to improve a firm's systems and controls in relation to product design, product management and implementation, or to address problems identified with financial products. These problems may potentially cause significant detriment to consumers because of certain product features or governance flaws or distribution strategies. Such rules may prevent institutions from entering into product agreements with customers until such problems have been solved. Some of the regulatory regimes in the relevant jurisdictions in which the Group operates, requires the Group to be in compliance across all aspects of its business, including the training, authorisation and supervision of personnel, systems, processes and documentation. If it fails to comply with the relevant regulations, there would be a risk of an adverse impact on its business from sanctions, fines or other actions imposed by the regulatory authorities. Customers of financial services institutions, including Group's customers, may seek redress if they consider that they have suffered loss as a result of the mis-selling of a particular product, or through incorrect application of the terms and conditions of a particular product. Given the inherent unpredictability of litigation and the evolution of judgements by the relevant authorities, it is possible that an adverse outcome in some matters could harm the reputation of the Group or have a material adverse effect on its operating results, financial condition and prospects arising from any penalties imposed or compensation awarded, together with the costs of defending such an action, thereby reducing its profitability.

*The Group is subject to review by tax authorities, and an incorrect interpretation of tax laws and regulations by the Group may have a material adverse effect on it.*

The preparation of the tax returns of the Group requires the use of estimates and interpretations of complex tax laws and regulations and is subject to review by tax authorities. The Group is subject to the income tax laws of Spain and the other jurisdictions in which it operates. These tax laws are complex and subject to different interpretations by the taxpayer and relevant governmental tax authorities, which are sometimes subject to prolonged evaluation periods until a final resolution is reached. In establishing a provision for income tax expense and filing returns, the Group must make judgements and interpretations about the application of these inherently complex tax laws. If the judgement, estimates and assumptions the Group uses in preparing its tax returns are subsequently found to be incorrect, there could be a material adverse effect on Group's results of operations. In some jurisdictions, the interpretations of the tax authorities are unpredictable and frequently involve litigation, which introduces further uncertainty and risk as to tax expense.

## RISK FACTORS

*The Group may not be able to detect or prevent money laundering and other financial crime activities fully or on a timely basis, which could expose it to additional liability and could have a material adverse effect on the Group.*

The Group is required to comply with applicable anti-money laundering and combating the financing of terrorism ("AML/CFT"), anti-bribery and corruption, sanctions and other laws and regulations (collectively, financial crime compliance ("FCC") regulations).

These laws and regulations require the Group, among other things, to conduct full customer due diligence (including sanctions and politically exposed person screening), keep its customer, account and transaction information up to date and have FCC policies and procedures in place detailing what is required from those responsible. The Group is also required to conduct FCC training for its employees and to report suspicious transactions and activity to appropriate law enforcement following full investigation by Group's local FCC team.

Financial crime continues to be the subject of enhanced regulatory scrutiny and supervision by regulators globally. FCC regulations are increasingly complex and detailed. Key standard-setting and regulatory bodies continue to provide guidelines to strengthen the interaction and cooperation between prudential and AML or combating the financing of terrorism ("CFT") supervisors. Compliance with these laws and regulations requires automated systems, sophisticated monitoring and skilled compliance personnel.

The Group maintains updated policies and procedures aimed at detecting and preventing the use of its banking network for money laundering and other financial crime related activities. However, emerging technologies, such as cryptocurrencies and innovative payment methods, could limit Group's ability to track the movement of funds. The ability of the Group to comply with the legal requirements depends on its ability to improve detection and reporting capabilities and reduce variation in control processes and oversight accountability. These require implementation and embedding within its business effective controls and monitoring, which in turn requires on-going changes to systems and operational activities.

Financial crime is continually evolving and, as noted, is subject to increasingly stringent regulatory oversight and focus. This requires proactive and adaptable responses from the Group so that the Group is able to deter threats and criminality effectively. As a global bank, the Group is particularly exposed to this risk. Even known threats can never be fully eliminated, and there have been, and may in the future be, instances where the Group may be used by other parties to engage in money laundering and other illegal or improper activities. In addition, the Group relies heavily on its employees to assist the Group by spotting such activities and reporting them, and its employees have varying degrees of experience in recognising criminal tactics and understanding the level of sophistication of criminal organisations. Where the Group outsources any of its customer due diligence, customer screening or anti financial crime operations, it remains responsible and accountable for full compliance and any breaches. If the Group is unable to apply the necessary scrutiny and oversight of third parties to whom it outsources certain tasks and processes, there remains a risk of regulatory breach.

If the Group is unable to fully comply with applicable laws, regulations and expectations, regulators and relevant law enforcement agencies have the ability and authority to impose significant fines and other penalties on the Group, including requiring a complete review of its business systems, day-to-day supervision by external consultants and ultimately the revocation of the Group's banking licence.

The Group has been, and may in the future be, subject to negative coverage in the media about it or its clients, including with respect to alleged conduct such as failure to detect and/or prevent any financial crime activities or comply with FCC regulations. Negative media coverage of this type about the Group, whether it has merit or not, could materially and adversely affect its reputation and perception among current and potential clients, investors, vendors, partners, regulators and other third parties, which in turn could have a material adverse effect on the Group's operating results, financial condition and prospects as well as damage its customers' and investors' confidence and the market price of its securities.

The reputational damage to the business of the Group and global brand could be severe if it were found to have breached FCC requirements. Its reputation could also suffer if the Group is unable to protect its customers' bank products and services from being used by criminals for illegal or improper purposes.

In addition, while the Group reviews its relevant counterparties' internal policies and procedures with respect to such matters, it expects its relevant counterparties to maintain and properly apply their own appropriate compliance procedures and internal policies. Such measures, procedures and internal policies may not be completely effective in preventing third parties from using its (and its relevant counterparties') services as a conduit for illicit purposes (including illegal cash transactions) without the Group's (and its relevant

counterparties') knowledge. If the Group is associated with, or even accused of being associated with, breaches of FCC requirements the Group's reputation could suffer and/or it could become subject to fines, sanctions and/or legal enforcement (including being added to 'watch lists' that would prohibit certain parties from engaging in transactions with the Group), any one of which could have a material adverse effect on its operating results, financial condition and prospects.

Any such risks could have a material adverse effect on the Group's operating results, financial condition and prospects.

*See "The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition".*

*Changes in taxes and other assessments may adversely affect the Group.*

The legislatures and tax authorities in the tax jurisdictions in which the Group operates regularly enact reforms to the tax and other assessment regimes to which it and its customers are subject to. Such reforms include changes in tax rates and, occasionally, enactment of temporary taxes, the proceeds of which are earmarked for designated governmental purposes.

The effects of these changes and any other changes that result from enactment of additional tax reforms cannot be quantified and there can be no assurance that any such reforms would not have an adverse effect upon the business of the Group.

For example, in 2024, Law 7/2024, of 20 December, established a new tax on interests and commissions for fiscal years 2025, 2026 and 2027. In respect of fiscal year 2025, the expense corresponding to income accrued during such financial year, recognised as income tax in the Group's consolidated financial statements, amounted to €353 million, which will be paid in 2026.

### **Credit Risks.**

*The credit quality of the loan portfolio of the Group may deteriorate and the Group's loan loss reserves could be insufficient to cover its loan losses, which could have a material adverse effect on the Group.*

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent to a wide range of the businesses of the Group. Non-performing or low credit quality loans have in the past negatively impacted the Group's results of operations and could do so in the future. In particular, the amount of the reported credit impaired loans of the Group may increase in the future as a result of growth in the Group's total loan portfolio, including as a result of loan portfolios that the Group may acquire in the future (the credit quality of which may turn out to be worse than it had anticipated), or factors beyond the Group's control, such as adverse changes in the credit quality of its borrowers and counterparties or a general deterioration in economic conditions in the regions where the Group operates or in global economic and political conditions, including as a result of the continuance or escalation of the armed conflicts in Ukraine and the Middle East. In certain markets, the combined pressure of economic downturn, high inflation and high interest rates may impact the ability of the Group's customers to repay their debt. If the Group was unable to control the level of its credit impaired or poor credit quality loans, this could have a material adverse effect on the Group.

The loan loss reserves of the Group are based on its current assessment of and expectations concerning various factors affecting the quality of its loan portfolio. These factors include, among other things, the financial condition of the borrowers of the Group, repayment abilities and repayment intentions, the realisable value of any collateral, the prospects for support from any guarantor, government macroeconomic policies, interest rates and the legal and regulatory environment. Because many of these factors are beyond the Group's control and there is no infallible method for predicting loan and credit losses, the Group cannot assure that its current or future loan loss reserves will be sufficient to cover actual losses. If the Group's assessment of and expectations concerning the above mentioned factors differ from actual developments, if the quality of its total loan portfolio deteriorates, for any reason, or if the future actual losses exceed the estimates of expected losses of the Group, it may be required to increase its loan loss reserves, which may adversely affect the Group. Additionally, in calculating the Group's loan loss reserves, the Group employs qualitative and quantitative criteria and statistical models which may not be reliable in all circumstances and which are dependent upon data that may not be complete. For further details regarding the Group's risk management policies, see *"Failure to successfully implement and continue to improve the risk management policies, procedures and methods of the Group, including its credit risk management systems, could materially and adversely affect the Group, and it may be exposed to unidentified or unanticipated risks"*.

At 31 December 2025, net loans and advances to customers of the Group amounted to €1,076,315<sup>1</sup> million (compared to €1,054,069 million as of 31 December 2024).

The loan portfolio of the Group is primarily located in Europe (in particular, Spain and the UK), North America (in particular, the United States) and South America (in particular, Brazil). At 31 December 2025, Europe accounted for 56 per cent. of the Group's total loan portfolio (Spain accounted for 25 per cent. of its total loan portfolio and the UK, where the loan portfolio consists primarily of residential mortgages, accounted for 23 per cent.), North America accounted for 17 per cent. (of which the United States represents 12 per cent. of its total loan portfolio), South America accounted for 14 per cent. (of which Brazil represents 8 per cent. of its total loan portfolio) and the Digital Consumer Bank Europe segment accounted for 13 per cent.

Mortgage loans are one of the Group's principal assets, comprising 40 per cent. of its net loans and advances as of 31 December 2025, mainly located in Spain and the UK. 82 per cent. of such mortgage loans are residential. If Spain or the UK experience situations of economic stagnation, persistent housing oversupply, decreased housing demand, rising unemployment levels, increasing interest rates, subdued earnings growth, greater pressure on disposable income, a decline in the availability of mortgage finance or continued global markets volatility, for instance, home prices could decline, while mortgage delinquencies, forbearances and the Group's NPL ratio<sup>2</sup> could increase, which in turn could have a material adverse effect on the Group's business, financial condition and results of operations. At 31 December 2025, the NPL ratio of residential mortgage loans for the Group in Spain and the UK was 1.03 per cent. and 0.87 per cent., respectively.

At 31 December 2025 the total Group NPL ratio stood at 2.91 per cent. as compared to 3.05 per cent. at 31 December 2024 NPL coverage as of 31 December 2025 was 66 per cent. as compared to 65 per cent. a year earlier.

Impairment on financial assets not measured at fair value through profit or loss (net) of the Group in 2025 was €12,546 million (mainly related to loans and advances to customers), a 3.4 per cent. increase as compared to €12,136 million in 2024.

At 31 December 2025, the gross amount of the Group's refinancing and restructuring operations was €25,235 million (2 per cent. of total gross loans and credits), of which €7,145 million have real estate collateral. At the same date, the net amount of non-current assets held for sale amounted €75,011 million, of which €2,487 million were foreclosed assets.

*The value of the collateral securing the loans of the Group may not be sufficient, and the Group may be unable to realise the full value of the collateral securing its loan portfolio.*

The value of the collateral securing the Group's loan portfolio may fluctuate or decline due to factors beyond its control, including as a result of macroeconomic factors, especially those affecting Europe, North America and South America, or the continuance or escalation of the armed conflicts in Ukraine and the Middle East. The value of the collateral securing its loan portfolio may be adversely affected by force majeure events, such as natural disasters (including as a result of climate change), particularly in locations where a significant portion of its loan portfolio is composed of real estate loans.

The Group may also lack sufficiently recent information on collateral values, which may result in an inaccurate assessment for impairment losses of its loans secured by such collateral.

If any of the above were to occur, the Group may need to make additional provisions to cover actual impairment losses, which could materially and adversely affect its results of operations and financial condition.

Technological changes in the auto industry, accelerated by environmental regulations, could affect the auto consumer business of the Group in the EU and the United States, particularly residual values of leased vehicles. This transformation could impact the Group's auto finance business as a result of (i) the transition from fuel to electric engines, environmental aspects related to emissions and transition risks derived from political and regulatory decisions (e.g., traffic restrictions in city centres), (ii) growing customer preferences for car leasing, subscription, car sharing and other services instead of vehicle ownership, (iii) increased market concentration in certain manufacturers, distributors and other agents, and (iv) the expansion of online sales channels. In addition, the auto industry could face supply chain disruption and shortages of batteries, semi-conductors and other

components linked to geopolitical tensions, conflicts and macroeconomic uncertainty, affecting guarantees, residual used car value and loan delinquencies. Although the Group monitors the auto portfolios and dealers and it has launched specific action plans to address particular issues, these structural changes and disruptions could have a material adverse effect on its operating results, financial condition and prospects.

At 31 December 2025, 40 per cent. of the Group's loans and advances to customers were secured by property collateral while 25 per cent. were secured by other types of collateral (securities, pledges and others).

*The Group is subject to counterparty risk in its banking business.*

The Group is exposed to counterparty risk in addition to credit risks associated with lending activities. Counterparty risk may arise from, for example, investing in securities of third parties, entering into derivative contracts under which counterparties have obligations to make payments to the Group or executing securities, futures, currency or commodity trades from proprietary trading activities that fail to settle at the required time due to non-delivery by the counterparty or systems failure by clearing agents, clearing houses or other financial intermediaries.

The Group routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual funds, hedge funds and other institutional clients. Defaults by, and even rumours or questions about the solvency of, certain financial institutions and the financial services industry generally have led to market-wide liquidity problems and could lead to losses or defaults by other institutions. Many of the routine transactions the Group enters into expose it to significant credit risk in the event of default by one of its major counterparties.

### ***Operational and technology risks.***

*Any failure to improve or upgrade the information technology infrastructure and information management systems and networks of the Group in an effective, timely and cost-effective manner including in response to emerging technologies and to new or modified privacy, cybersecurity and data laws, rules and regulations, could have a material adverse effect on the Group.*

The ability of the Group to remain competitive depends in part on its ability to improve or upgrade its information technology in an effective, timely and cost-effective manner. It must continually make significant investments in, and improvements to, the information technology infrastructure and information management systems of the Group in order to meet the needs of its customers and to comply with evolving regulatory requirements, and operational and resilience expectations. While the Group expects to continue investing, there is no assurance it will achieve or sustain the level of capital expenditures necessary to support the continuous improvement and upgrading of its information technology infrastructure and information management systems and networks. There is also no assurance that the Group's investment strategy will be successful. To the extent that the Group is dependent on any particular technology or technological solution, it may face adverse consequences if such technology or technological solution becomes non-compliant with existing industry standards or applicable laws, rules or regulations, fails to meet or exceed the capabilities of its competitors' equivalent technologies or technological solutions, becomes increasingly expensive to service, retain and update, becomes subject to third party claims of intellectual property infringement, misappropriation or other violation, has security vulnerabilities or malfunctions or functions in a way the Group did not anticipate or are unable to rectify. Additionally, new technologies and technological solutions, such as artificial intelligence ("AI"), distributed ledger technology ("DLT") and quantum computing, are continually being released. As such, it is difficult to predict the problems the Group may encounter in improving its technologies' functionality. There is no assurance that the Group will be able to successfully adopt new technology as critical systems and applications become obsolete and better ones become available. Large scale programmes to modernise technology, data and reporting, including compliance with evolving prudential reporting frameworks, are complex and time-consuming, often requiring many years to execute. Delays in execution, data-quality issues, or control weaknesses may lead to supervisory actions, fines, remediation costs or constraints on strategic initiatives.

DLT, including blockchain and related infrastructures, is increasingly being explored and adopted across financial markets and payment systems. While these technologies may offer greater efficiency, transparency and traceability, they also introduce specific technological and operational risks and challenges that may affect the integrity and resilience of financial systems. DLT relies on cryptographic consensus mechanisms, distributed governance and, in some cases, open-source protocols, all of which may be vulnerable to design flaws, governance disputes and security vulnerabilities. Limitations in scalability, latency and interoperability across networks may also hinder performance and reliability. Moreover, divergent regulatory approaches across jurisdictions and

potential fragmentation of market infrastructures and compliance tools could amplify operational and compliance risks. A growing reliance on DLT-based platforms could disrupt traditional payment, custody and settlement processes, creating dependencies on new technological frameworks and third-party providers. Financial institutions that fail to adapt to such developments may face increased competitive and operational risks. As legacy systems migrate toward hybrid or fully distributed environments, the Group may encounter transitional, technological and integration challenges affecting system resilience, data integrity and cybersecurity. Some examples of the use of DLT across the Group include the use of DLT-based platforms in certain wholesale payments and market activities, including participation in industry initiatives such as “Fnlity”, a wholesale payment system currently live with digital Sterling, as well as the use of internal DLT-based platforms in certain countries to support tokenization of financial assets. These factors, individually or in combination, could adversely affect the Group’s ability to deliver critical services without disruption, to comply with evolving regulatory and supervisory expectations, and to maintain secure and continuous operations.

Quantum computing poses a significant emerging risk to existing encryption standards by potentially creating new security vulnerabilities, enabling data breaches, authentication bypasses and other new types of cyber threats. As regulatory and supervisory scrutiny of post-quantum readiness increases, financial institutions face growing compliance and implementation pressures. The transition to post-quantum cryptography (PQC) is complex due to legacy systems, interdependent banking infrastructures and evolving international standards. Uneven or delayed adoption across the financial ecosystem could prolong reliance on quantum-vulnerable encryption, thereby increasing systemic exposure and delaying a coordinated and secure transition.

Any failure to effectively improve or upgrade the information technology infrastructure and information management systems and networks, or to timely adapt to emerging technologies, evolving cybersecurity threats or changing regulatory standards, could have a material adverse effect on the Group.

*Any failure or disruption of the Group's operational processes or systems, or any cyberattack, data breach, data loss or other security incident affecting the Group's systems or those of its third-party vendors, could adversely affect the Group's business, financial condition or reputation, and could result in significant legal or regulatory exposure.*

Like other financial institutions, in conducting the Group's banking operations, the Group receives, manages, holds, transmits and otherwise processes certain proprietary, confidential, sensitive and personal data including personal data of customers and employees as well as a large number of assets. Accordingly, the business of the Group relies on its ability to process a large number of transactions efficiently and accurately, and on its ability to rely on its digital technologies, computer and email services, software and networks, as well as on the secure storage, transmission and otherwise processing of proprietary confidential, sensitive and personal data and other information using the computer systems and networks of the Group or those of its third party vendors, including cloud-based platforms and software as a service (SaaS) solutions. The Group's operations must also comply with complex and evolving laws and regulations in the countries in which the Group operates. The proper and secure functioning of its financial controls, accounting and other data collection and processing systems is critical to its business and to its ability to compete effectively. Cyberattacks, data breaches, data losses and other security incidents, including fraudulent withdrawal of money, can result from, among other things, inadequate personnel, inadequate or failed internal control processes and systems, or external events or actors that interrupt normal business operations and may include disruptions, failures, service outages, unauthorised access or misuse, software bugs, server malfunctions, software and hardware failure, defective software or hardware updates, malware and ransomware, social engineering and phishing attacks, denial-of-service attacks, misconduct, fraud, and other events that could have a serious impact on the Group. The Group also faces the risk that the design of its or its third-party vendors' cybersecurity controls and procedures prove to be inadequate or are circumvented such that its data or client records are incomplete, not recoverable or not securely stored. Moreover, it is not always possible to deter or prevent employee errors or misconduct, and the precautions the Group takes to detect and prevent this activity may not always be effective. Any material disruption or slowdown of the systems of the Group could cause information, including data related to customer requests, to be lost or to be delivered to its clients with delays or errors, which could reduce demand for its services and products, produce customer claims and materially and adversely affect the Group.

The Group prioritises early identification, monitoring and mitigation of risks (including those resulting from its interactions with third parties) in its goal to provide a resilient and secure operational environment. In this regard, although (i) the Group has policies, procedures, and controls in place designed to safeguard proprietary, confidential, sensitive and personal data, (ii) the Group takes protective technical measures and monitor and develop the Group's systems and networks to protect the Group's technology, infrastructure, data and information from misappropriation or corruption, and (iii) the Group works with its clients, vendors, service providers,

counterparties and other third parties to develop secure data and information processing, collection, authentication, management, usage, storage and transmission capabilities and to ensure the eventual destruction of proprietary, confidential, sensitive and personal data, the Group, its third-party vendors or other third parties with which the Group does business have been and may continue to be subject to cyberattacks, data breaches, data losses, and other security incidents. For example, on 14 May 2024, the Group announced that it had become aware of an unauthorised access to a Santander database that included certain customer and employee information hosted by a third-party provider (the **"2024 Unauthorised Access"**).

The implementation of the Group's cybersecurity, policies, procedures, controls and technical measures is designed to reduce the risk of such cyberattacks, data breaches, data losses and other security incidents but does not guarantee full protection or a risk-free environment. This is especially applicable in the current global environment, with the armed conflicts in Ukraine and the Middle East resulting in an increased risk of cyberattacks, data breaches, data losses and other security incidents and other disruptions in response to, or retaliation for, the sanctions and costs imposed on Russia and certain other countries directly or indirectly involved in the armed conflicts. Additionally, the shift to remote work policies for a significant portion of the Group's workforce, as they access the Group's secure systems and networks remotely and its customers' increased reliance on digital banking products and other digital services, including mobile payment products, has also increased the risk of cyberattacks, data breaches, data losses and other security incidents (see – *"The outbreak of public health emergencies, could materially and adversely impact the business at the Group, its financial condition, liquidity and results of operations"*).

While the Group generally performs cybersecurity due diligence on its key vendors, because it does not control its vendors and its ability to monitor their cybersecurity is limited, the Group cannot ensure the cybersecurity measures they take will be sufficient to protect any information it shares with them. Due to applicable laws and regulations or contractual obligations, the Group may be held responsible for cyberattacks, data breaches, data losses and other security incidents attributed to its vendors as they relate to the information the Group share with them.

In addition, the Group may also be impacted by cyberattacks against national critical infrastructures of the countries where it operates, such as telecommunications networks. The Group's information technology systems are dependent on such critical infrastructure and any cyberattack against such critical infrastructure could negatively affect its ability to service its customers. As the Group does not operate such critical infrastructure, it has limited ability to protect its information technology systems from the adverse effects of a cyberattack.

The Group has seen in recent years the information technology systems and networks of companies and organisations being increasingly targeted, and the techniques used to obtain unauthorised, improper or illegal access to such information technology systems and networks have become increasingly complex and sophisticated, including through the use of AI. Furthermore, such techniques change frequently and are often not recognised or detected until after they have been launched and can originate from a wide variety of sources, including not only organised crime, hackers, activists, terrorists, nation-states, nation-state supported actors and others, any of which may see their effectiveness enhanced by the use of AI. As attempted attacks continue to evolve in scope and sophistication, the Group may incur significant costs in order to modify, adapt or enhance its protective measures against such attacks, or to investigate or remediate any vulnerability or resulting breach, or in communicating cyberattacks, data breaches, data losses or other security incidents to its customers, affected individuals or regulators, as applicable.

If the Group cannot maintain effective and secure proprietary, confidential, sensitive and personal data, or if the Group or its third-party vendors fall victim to successful cyberattacks, penetrations, compromises, breaches or circumventions of the Group's information technology systems or networks, such as the 2024 Unauthorised Access, or experience other data breaches, data losses or other security incidents in the future, the Group may incur substantial costs and suffer other negative consequences, such as disruption to its operations, misappropriation of proprietary, confidential, sensitive or personal data, remediation costs (including liabilities for stolen assets or information, repairs of system damage, among others), increased cybersecurity protection costs, lost revenues arising from the unauthorised use of proprietary, confidential, sensitive or personal data or the failure to retain or attract its customers following an operational or security incident, litigation and legal risks (including claims from customers, employees or other third parties, regulatory action, reporting obligations, investigation, fines and penalties), increased insurance premiums, reputational damage affecting its customers' and the investors' confidence, as well as damages to the Group's competitiveness, stock price and long-term shareholder value. In addition, the Group's remediation efforts may not be successful, and it may not have adequate insurance to cover these losses. While the Group maintains insurance coverage, it cannot assure that such coverage will be adequate or otherwise protect the Group from liabilities or damages with respect to claims alleging

compromises of proprietary, confidential, sensitive or personal data or otherwise relating to data privacy, data protection and cybersecurity matters. In addition, the Group cannot be sure that its existing insurance coverage will continue to be available on acceptable terms or at all, or that its insurers will not deny coverage to any future claim. Moreover, even when a failure of or interruption in the Group's or its third-party vendors' systems or facilities is resolved in a timely manner or an attempted cyberattack, data breach, data loss or other security incident is successfully avoided or thwarted, substantial resources and management attention are expended in doing so, and to successfully avoid or resolve any such incidents, the Group may be required to take actions that could adversely affect customer satisfaction or retention, as well as harm its reputation.

Any of the cyberattacks, data breaches, data losses and other security incidents described above could have a material adverse effect on the Group's business, financial condition and results of operations.

*The Group relies on third parties and affiliates for important products and services.*

Third party vendors and certain affiliated companies provide key components to the business infrastructure of the Group such as loan and deposit servicing systems, back office and business process support and software, information technology production and support, internet connections and network access, including cloud-based services and software as a service (SaaS) solutions, as well as those of the Group's service providers. Relying on these third parties and affiliated companies can be a source of operational and regulatory risk to the Group, including with respect to security breaches, service outages and other disruptions or failures affecting such parties. The Group is also subject to risk with respect to security breaches, service outages and other disruptions or failures affecting the vendors and other parties that interact with these service providers. As the interconnectivity of the Group with these third parties and affiliated companies increases, the Group increasingly faces the risk of operational failure with respect to their systems. The Group may be required to take steps to protect the integrity of its operational systems, thereby increasing its operational costs and potentially decreasing customer satisfaction.

In addition, any problems caused by these third parties or affiliated companies, including as a result of them not providing the Group their services for any reason, or performing their services poorly, could adversely affect its ability to deliver products and services to customers and otherwise conduct its business, which could lead to reputational damage and regulatory investigations and intervention. While the Group has diversified providers for the main services and keeps strict and close monitoring on them, in some instances, replacing these third-party vendors could also entail significant delays and expense. Further, the operational and regulatory risk that the Group faces as a result of these arrangements may be increased to the extent that it restructures such arrangements. Any restructuring could involve significant expense to the Group and entail significant delivery and execution risk which could have a material adverse effect on its business, operations and financial condition.

*The Group utilises AI, which could expose the Group to liability or adversely affect its business.*

The Group utilises and continues to explore additional uses of AI in connection with its business, products and services. Particularly, the Group is using AI for transaction monitoring and sanctions screening, improving customer experience and automating processes to reduce operational risk, among others.

However, there are significant risks involved in utilising AI and no assurance can be provided that the Group's use will enhance its products or services or produce the intended results. For example, AI models may be flawed, trained on insufficient or poor-quality data, reflect unwanted forms of bias or contain other errors or inadequacies, any of which may not be easily detectable. AI solutions (including those supplied by third parties) may produce false, inaccurate, misleading, biased or otherwise deficient inferences or outputs, rely on data, technology or intellectual property to which the Group or any of its contractors, vendors or service providers lack rights, or be subject to new documentation, transparency, governance and validation expectations. Strengthening controls to address these risks, such as human oversight, testing and independent model validation, may increase costs and affect time-to-market, and any errors or inadequacies in AI systems used for control functions (such as transaction monitoring or sanctions screening) could lead to operational disruptions, compliance failures, regulatory scrutiny, reputational harm, fines or penalties. AI may subject the Group to new or heightened legal, regulatory, ethical, operational, reputational or other challenges; AI may involve inappropriate or controversial data practices by developers and end-users, or other factors adversely affecting public opinion of AI, any of which could impair the acceptance of AI solutions, including those incorporated into the Group's products and services. The Group also depends on third-party models, datasets and infrastructure; outages, changes in functionality or terms, or concentration in a limited number of providers could disrupt the Group's operations or increase costs.

If the AI solutions that the Group creates or uses are deficient, inaccurate or controversial, it could incur operational inefficiencies, competitive harm, legal liability, brand or reputational harm, or other adverse impacts on its business and financial results. There can be no assurance that the use of AI by the Group will be successful in reducing its operational risk or increasing its operational efficiencies or otherwise result in its intended outcomes.

Additionally, the use of AI solutions by companies has resulted in and may continue to result in, cyberattacks, data breaches, data losses and other security incidents that implicate the proprietary, confidential, sensitive and personal data of AI users. For example, if any of the Group's employees, contractors, vendors of service providers or other third parties with which the Group does business use any third-party AI-powered solutions in connection with the Group's business, it may lead to the inadvertent disclosure or incorporation of the Group's proprietary, confidential, sensitive or personal data into third-party systems or publicly available or third-party training sets (including so-called data leakage) which may impact its ability to realise the benefit of the Group's intellectual property or proprietary, confidential, sensitive or personal data, harming its competitive position and business. If the Group does not have sufficient rights to use the data or other material or content on which its AI solutions or other AI tools it uses rely, the Group also may incur liability through the violation of applicable laws and regulations, third-party intellectual property, privacy or other rights, or contracts to which the Group is a party (including third-party claims of intellectual property infringement, misappropriation or other violation or other misuse of data, content or technology, regulatory enforcement actions and contractual remedies). Further, the use of AI solutions within products or services that the Group uses or that are used by the Group's contractors, vendors, service providers or other third parties with which the Group does business may pose similar risks, and the Group has limited ability to control the manner in which third-party products are developed or maintained or the manner in which third-party services are provided.

### ***Liquidity and Funding Risks***

*Liquidity and funding risks are inherent in the Group's business and could have a material adverse effect on it.*

Liquidity risk is the risk that the Group either does not have sufficient financial resources available to meet its obligations as they are due, or can only secure them at excessive cost. This risk is inherent in any banking business and can be heightened by a number of enterprise-specific factors, including over-reliance on a particular source of funding, changes in credit ratings or market-wide phenomena such as market dislocation, including as a result of the continuance or escalation of the armed conflicts in Ukraine and the Middle East. While the Group has in place liquidity management processes to mitigate and control these risks, as well as an organisational model based on autonomous subsidiaries in terms of capital and liquidity which limits the possibility of contagion between them, systemic market factors make it difficult to eliminate these risks completely. Constraints in the supply of liquidity, including in inter-bank lending, could materially and adversely affect the cost of funding of the Group's business, and extreme liquidity constraints may affect its current operations and its ability to fulfil regulatory liquidity requirements, as well as limit growth possibilities.

The cost for the Group to obtain funding is directly related to prevailing interest rates and to its credit spreads. Increases in interest rates and/or in the Group credit spreads could significantly increase the cost of its funding. For example, throughout 2022 and 2023, the ECB, the Bank of England, the Federal Reserve and other central banks increased interest rates to contain inflation and it was not until mid-2024 that they started to decrease rates. Variations in credit spreads are market-driven and may be influenced by perceptions of creditworthiness and general market conditions of the Group. Changes to interest rates and in the credit spreads of the Group may occur frequently and could be unpredictable and highly volatile.

The Group relies, and will continue to rely, primarily on retail deposits to fund lending activities. The ongoing availability of this type of funding is directly related to its solvency and to the success of its policies, and it is also sensitive to a variety of factors beyond the Group's control, such as general economic conditions and the confidence of retail depositors in the economy and in the financial services industry, and the availability and extent of deposit guarantees, as well as competition for deposits with other banks and neobanks or with other products, such as mutual funds. Any of these factors could increase the amount of retail deposit withdrawals in a short period of time, thereby reducing the ability of the Group to access retail deposit funding on appropriate terms, or at all, in the future. If these circumstances were to arise, this could have a material adverse effect on the operating results of the Group, financial condition and prospects.

Difficulties or liquidity issues faced by certain financial entities could cause withdrawals of deposits from these entities and volatility in international markets. The spread or potential spread of these or other issues to the broader

## RISK FACTORS

financial sector could have a material adverse effect on the Group's operating results, financial condition and prospects.

Central banks took extraordinary measures to increase liquidity in the financial markets as a response to the financial crisis and the covid-19 pandemic. In Europe, the ECB's pandemic emergency purchase programme ("PEPP") finalised at the end of March 2022, although maturing principal payments have been repurchased until December 2024. Although the programme has concluded, the ongoing reduction of the PEPP portfolio may still influence market liquidity conditions and the Group's funding costs.

Additionally, the activities of the Group could be adversely impacted by liquidity tensions arising from generalised drawdowns of committed credit lines by the customers of the Group.

The Group cannot assure that in the event of a sudden or unexpected shortage of funds in the banking system, the Group will be able to maintain levels of funding without incurring high funding costs, a reduction in the term of funding instruments or the liquidation of certain assets. If this were to happen, the Group could be materially adversely affected.

Finally, the implementation of internationally accepted liquidity ratios might require changes in business practices that affect the profitability of the Group. The liquidity coverage ratio ("LCR") is a liquidity standard that measures if banks have sufficient high-quality liquid assets to cover expected net cash outflows over a 30-day liquidity stress period. At 31 December 2025, the consolidated LCR ratio in accordance with the ECB requirements of the Group was 145 per cent., exceeding internal and regulatory requirements. The net stable funding ratio ("NSFR") provides a sustainable maturity structure of assets and liabilities such that banks maintain a stable funding profile in relation to their activities. At 31 December 2025, the NSFR ratio stood at 126 per cent. for the Group and over 100 per cent for all of the Group's main subsidiaries.

***Credit, market and liquidity risk may have an adverse effect on the Group's credit ratings and the Group's cost of funds. Any downgrade in the Group's credit rating would likely increase the Group's cost of funding, require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts and adversely affect the Group's interest margins and results of operations.***

Credit ratings affect the cost and other terms upon which the Group is able to obtain funding. Rating agencies regularly evaluate the Group, and their ratings of the Group's debt are based internal methodologies dependent on a number of factors, including the Group's financial strength and conditions affecting the financial services industry. In addition, due to the methodology of the main rating agencies, the Group's credit rating is affected by the rating of Spanish sovereign debt. The Group credit rating is in most cases above Spain's sovereign debt rating; however, if Spain's rating is downgraded the Group's credit rating would also likely be downgraded.

Any downgrade in the Group's debt credit ratings would likely increase the Group's borrowing costs and require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts, and could limit the Group's access to capital markets and adversely affect the Group's commercial business. For example, a ratings downgrade could adversely affect the Group's ability to sell or market some of the Group's products, engage in certain longer-term and derivatives transactions and retain the Group's customers, particularly customers who need a minimum rating threshold in order to invest. In addition, under the terms of certain of the Group's derivative contracts and other financial commitments, the Group may be required to maintain a minimum credit rating or terminate such contracts or require the posting of collateral. Any of these results of a ratings downgrade could reduce the Group's liquidity and have an adverse effect on the Group, including the Group's operating results and financial condition.

The Group has the following ratings by the major rating agencies as of the report dates indicated below:

The Group conducts substantially all of the Group's material derivative activities through Banco Santander and Santander UK. The Group estimates that as of 31 December 2025, if all the rating agencies were to downgrade Banco Santander's long-term senior debt ratings by one notch, the Group would be required to post up to €146 million in additional collateral pursuant to derivative and other financial contracts. A hypothetical two-notch downgrade would result in a further requirement to post up to €66 million in additional collateral. The Group estimates that as of 31 December 2025, if all the rating agencies were to downgrade Santander UK's long-term credit ratings by one notch, and thereby trigger a short-term credit rating downgrade, this could result in contractual outflows from Santander UK's total liquid assets of £1.4 billion (equivalent to €1.6 billion) of cash and additional collateral that Santander UK would be required to post under the terms of secured funding and derivatives contracts. A hypothetical two-notch downgrade would result in a further outflow of £1.2 billion (equivalent to €1.4 billion) of cash and collateral under secured funding and derivatives contracts.

While certain potential impacts of these downgrades are contractual and quantifiable, the full consequences of a credit rating downgrade are inherently uncertain, as they depend on numerous dynamic, complex and inter-related factors and assumptions, including market conditions at the time of any downgrade, whether any downgrade of the Group's long-term credit rating precipitates downgrades to the Group's short-term credit rating, and assumptions about the potential behaviours of various customers, investors and counterparties. Actual outflows could be higher or lower than the preceding hypothetical examples, depending upon certain factors including which credit rating agency downgrades the credit rating of the Group, any management or restructuring actions that could be taken to reduce cash outflows and the potential liquidity impact from loss of unsecured funding (such as from money market funds) or loss of secured funding capacity. Although unsecured and secured funding stresses are included in the Group's stress testing scenarios and a portion of the Group's total liquid assets is held against these risks, a credit rating downgrade could still have a material adverse effect on the Group.

In addition, if the Group were required to cancel the Group's derivatives contracts with certain counterparties and were unable to replace such contracts, the Group's market risk profile could be altered.

There can be no assurance that the rating agencies will maintain the current ratings or outlooks. In general, the future evolution of the Group's ratings is linked, to a large extent, to the general macroeconomic outlook (including as a result of the continuance or escalation of the armed conflicts in Ukraine and the Middle East) on the Group's asset quality, profitability and capital. Failure to maintain favourable ratings and outlooks could increase the

Group's cost of funding and adversely affect interest margins, which could have a material adverse effect on the Group.

### **Market Risks**

*The Group's financial results are constantly exposed to market risk. The Group is subject to fluctuations in interest rates and other market variables, which may materially and adversely affect the Group and its profitability.*

The Group's financial results are constantly exposed to market risk. In 2022, 2023 and the first half of 2024, the Group was exposed to inflationary pressures, increases in the prices of energy, oil, gas and other commodities. The continuance or escalation of the armed conflicts in Ukraine and the Middle East or other geopolitical conflicts could continue to cause high market volatility, which could materially and adversely affect the Group and its trading and banking book.

Economic activities exposed to market risk include (i) transactions where risk is assumed as a consequence of potential changes in interest rates, inflation rates, exchange rates, stock prices, credit spreads, commodity prices, volatility and other market factors; (ii) the liquidity risk from the products and markets of the Group; and (iii) the balance sheet-related liquidity risk.

Interest rate risk arises from movements in interest rates that reduce the value of a financial instrument, a portfolio or the Group. It can affect loans, deposits, debt securities, most assets and liabilities held for trading, and derivatives.

Interest rates are sensitive to many factors beyond the Group's control, including monetary policies, regulatory actions affecting the financial sector and domestic and international economic and political conditions. Variations in interest rates could affect the interest earned on the assets and the interest paid on the borrowings of the Group, thereby affecting its interest income/(charges), which constitutes the majority of its revenue, and could reduce its growth rate or result in losses. In addition, costs in which the Group incurs as it implements strategies to reduce interest rate exposure could increase in the future, which could in turn affect its results.

A low-interest rate environment, such as that experienced in the eurozone, in the UK and in the US from 2013 to 2022, could result in rates on many of the Group's interest-bearing deposit products being priced at or near zero or negative, limiting its ability to further reduce rates and thereby negatively impacting its margins and the Group's results of operations.

Throughout 2022 and 2023, central banks, including the ECB, the Bank of England and the Federal Reserve, increased interest rates to contain inflation. From 2023 onwards, inflation gradually converged towards central banks' objectives, enabling interest rate cuts in the second half of 2024 and throughout 2025.

Increases in interest rates may reduce the volume of loans that the Group originates. Sustained high interest rates have historically discouraged customers from borrowing and have resulted in increased delinquencies in outstanding loans and deterioration in the quality of assets. Increases in interest rates may reduce the value of the Group's financial assets and may reduce gains or require the Group to record losses on sales of its loans or securities. Additionally, a flattening or inversion of the yield curve, combined with persistent inflationary pressures, could adversely affect the Group's business and results of operations.

Exchange rate risk is the possibility of loss because the currency of a long or open position will depreciate against the base currency. It can affect debt in subsidiaries whose local currency is not the euro, as well as loans denominated in a foreign currency.

Equity risk is the possibility of loss from open positions in securities if their market price or expected future dividends fall. It affects shares, stock market indices, convertible bonds and derivatives with shares as the underlying asset (put, call, equity swaps, etc.).

The performance of financial markets may cause changes in the value of the Group investment and trading portfolios. Prolonged volatility in global equity and fixed-income markets, driven by geopolitical uncertainty, monetary tightening cycles and investor risk aversion, has had a significant impact on the financial sector. Continued volatility may affect the value of the Group investments in equity securities and, depending on their fair value and future recovery expectations, could result in a permanent impairment requiring write-offs against the results of the Group.

Other market risks include inflation rate risk, credit spread risk, commodity price risk and volatility risk.

Additionally, the Group is also exposed to more complex market risks, such as correlation risk, market liquidity risk, prepayment or cancellation risk and subscription risk. In addition, balance sheet liquidity risk (unlike market liquidity risk) is the possibility of loss caused by forced disposal of assets or cash flow imbalance if the bank meets its payment obligations late or at excessive cost. Such situations may cause losses through forced asset sales or margin compression resulting from mismatches between expected inflows and outflows.

Market risk affects (i) the Group interest income / (charges); (ii) the market value of its assets and liabilities, in particular of its securities holdings, loans and deposits and derivatives transactions; and (iii) other areas of its business such as the volume of loans originated or credit spreads.

Market risk could also include unforeseen risks arising during periods of market disruption or when market prices do not reflect fundamental values.

If any of these risks were to materialise, net interest income or the market value of the Group's assets and liabilities could suffer a material adverse impact.

*The Group is subject to market, operational and other related risks associated with its derivative transactions that could have a material adverse effect on the Group.*

The Group enters into derivative transactions for trading purposes as well as for hedging purposes. The Group is subject to market, credit and operational risks associated with these transactions, including basis risk (the risk of loss associated with variations in the spread between the asset yield and the funding and/or hedge cost) and credit or default risk (the risk of insolvency or other inability of the counterparty to a particular transaction to perform its obligations thereunder, including providing sufficient collateral).

Market practices and documentation for derivative transactions differ by country. In addition, the execution and performance of these transactions depend on the Group's ability to maintain adequate control and administration systems. Moreover, the Group's ability to adequately monitor, analyse and report derivative transactions continues to depend, largely, on its information technology systems. Any deficiencies in these controls or systems could heighten the risks associated with derivative transactions and have a material adverse effect on the Group.

The use of derivative instruments may also give rise to other risks, including valuation risk, model risk and market liquidity risk, particularly during periods of volatility or market stress. In such circumstances, the fair value of derivative positions may fluctuate significantly, affecting the Group's results and regulatory capital.

At 31 December 2025, the notional value of the trading derivatives in the books of the Group amounted to €10,250,140 million (with a fair value of €58,355 million of debit balance and €51,968 million of credit balance).

At 31 December 2025, the nominal value of the hedging derivatives held in the books of the Group within its financial risk management strategy and designed to reduce asymmetries in the accounting treatment of its operations amounted to €505,992 million (with fair value of €4,427 million in assets and €4,294 million in liabilities).

*Market conditions have resulted and could result in material changes to the estimated fair values of the Group's financial assets. Negative fair value adjustments could have a material adverse effect on its operating results, financial condition and prospects.*

In the past, financial markets have been subject to significant stress resulting in steep falls in perceived or actual financial asset values, particularly due to volatility in global financial markets and the resulting widening of credit spreads, including as a result of the armed conflicts in Ukraine and the Middle East. The Group holds significant exposures to securities, loans and other investments recorded at fair value which exposes it to potential negative fair value adjustments. Asset valuations in future periods, reflecting then-prevailing market conditions, may result in negative changes in the fair values of the financial assets of the Group and these may also translate into increased impairments, including as a result of more stringent regulatory or reputational requirements. In addition, the value ultimately realised by the Group on disposal may be lower than the current fair value. Any of these factors could require the Group to record negative fair value adjustments, which may have a material adverse effect on its operating results, financial condition or prospects.

In addition, to the extent that fair values are determined using financial valuation models, such values may be inaccurate or subject to change, as the data used by such models may not be available or may become unavailable due to changes in market conditions, particularly for illiquid assets, and particularly in times of economic instability. In such circumstances, its valuation methodologies require the Group to make assumptions,

judgements and estimates in order to establish fair value. Reliable assumptions are difficult to make and are inherently uncertain while valuation models are inherently complex and imperfect predictors of actual results. Any consequential impairments or write-downs could have a material adverse effect on the operating results, financial condition and prospects of the Group.

### ***Risks related to the industry of the Group***

*Goodwill impairments may be required in relation to acquired businesses.*

The Group has made business acquisitions in recent years and may make further acquisitions in the future. It is possible that the goodwill that has been attributed, or may be attributed, to these businesses may have to be written down if Group's valuation assumptions are reassessed as a result of any deterioration in their underlying profitability, asset quality or other relevant matters. Impairment testing of goodwill is performed annually, or more frequently if there are impairment indicators present, and involves a comparison of the carrying amount of the cash-generating unit with its recoverable amount. Goodwill impairment does not, however, affect the regulatory capital of the Group. The Group recognised impairment of €20 million, €4 million and €4 million in 2023, 2024 and 2025 respectively. There can be no assurance that the Group will not have to write down the value attributed to goodwill in the future, which would adversely affect its results and net assets.

*Changes in the pension liabilities and obligations of the Group could have a material adverse effect on it.*

The Group provides retirement benefits for many of its former and current employees through several defined benefit pension plans. The Group calculates the amount of its defined benefit obligations using actuarial techniques and assumptions, including mortality rates, the rate of increase of salaries, discount rates, inflation, the expected rate of return on plan assets, and others. The accounting and disclosures of the Group's benefit obligations are based on IFRS and on those other requirements defined by the local supervisors. Given the nature of these obligations, changes in the assumptions that support valuations, including market conditions, can result in actuarial losses which would impact the financial condition of the Group's pension funds. Because pension obligations are generally long-term obligations, fluctuations in interest rates have a material impact on the projected costs of its defined benefit obligations and therefore on the amount of pension expense that it accrues.

Any increase in the current size of the funding deficit in the Group's defined benefit pension plans could result in the Group having to make increased contributions to reduce or satisfy the deficits, which would divert resources from use in other areas of its business. Any such increase may be due to certain factors over which the Group has limited or no control. Increases in its pension liabilities and obligations could have a material adverse effect on its business, financial condition and results of operations.

At 31 December 2025, the provision for pensions and other obligations of the Group amounted to €2,649 million.

*The Group depends in part on dividends and other funds from subsidiaries.*

Some of the Group's operations are conducted through its financial services subsidiaries. As a result, its ability to pay dividends, to the extent the Group decides to do so, depends in part on the ability of its subsidiaries to generate earnings and to pay dividends. Payment of dividends, distributions and advances by the Group's subsidiaries will be contingent upon their earnings and business considerations and is or may be limited by legal, regulatory and contractual restrictions. For instance, the repatriation of dividends from its Argentine subsidiaries has been subject to certain restrictions. Additionally, the Group's right to receive any assets of any of its subsidiaries as an equity holder of such subsidiaries upon their liquidation or reorganisation will be effectively subordinated to the claims of its subsidiaries' creditors, including trade creditors. The Group also has to comply with increased capital requirements, which could result in the imposition of restrictions or prohibitions on "discretionary payments" including the payment of dividends and other distributions to the Group by its subsidiaries.

In 2020, given the uncertainty about the economic impact of the covid-19 pandemic, the ECB, the Prudential Regulation Authority of the UK and the Federal Reserve of the United States, imposed limitations on the distribution of dividends which were in force until the third quarter of 2021. Since then, supervisors assess the capital and dividend distribution plans for each entity as part of their regular supervisory process and make individualised recommendations.

To the extent that these recommendations, or other similar measures that may be taken by supervisory authorities from other regions, are applied by some of the subsidiaries of the Group, they could have a material adverse effect on its business, financial condition and results of operations.

At 31 December 2025, dividend income for the Guarantor represented 38 per cent. of its total income.

*Increased competition, including from non-traditional providers of banking services such as financial technology providers, and industry consolidation may adversely affect the Group's results of operations.*

The Group faces substantial competition in all parts of its business, including in payments, in originating loans and in attracting deposits. The competition in originating loans comes principally from other domestic and foreign banks, mortgage banking companies, consumer finance companies, insurance companies and other lenders and purchasers of loans.

In addition, there has been a trend towards consolidation in the banking industry, which has created larger banks with which the Group must now compete. There can be no assurance that this increased competition will not adversely affect its growth prospects, and therefore its operations. The Group also faces competition from non-bank competitors, such as brokerage companies, department stores (for some credit products), leasing and factoring companies, mutual fund and pension fund management companies and insurance companies.

Non-traditional providers of banking services, such as e-commerce providers, mobile telephone companies and internet search engines may offer and/or increase their offerings of financial products and services directly to customers. These non-traditional providers of banking services currently have an advantage over traditional providers because they are not subject to banking regulation. Several of these competitors may have long operating histories, large customer bases, strong brand recognition and significant financial, marketing and other resources. They may adopt more aggressive pricing and rates and devote more resources to technology, infrastructure and marketing.

New competitors may enter the market or existing competitors may adjust their services with unique product or service offerings or approaches to providing banking services. If the Group is unable to successfully compete with current and new competitors, or if it is unable to anticipate and adapt its offerings to changing banking industry trends, including technological changes, its business may be adversely affected. In addition, the Group's failure to effectively anticipate or adapt to emerging technologies or changes in customer behaviour, including among younger customers, could delay or prevent its access to new digital-based markets, which would in turn have an adverse effect on its competitive position and business. Furthermore, the widespread adoption of new technologies, including distributed ledger technology, AI, quantum computing and/or biometrics, to provide services such as digital currencies, cryptocurrencies and payments, could require substantial expenditures to modify or adapt the existing products and services of the Group as it continues to grow its internet and mobile banking capabilities and could entail new direct risks (including financial and non-financial risks) and indirect risks related to loss of business opportunities. Its customers may choose to conduct business or offer products in areas that may be considered speculative or risky. Further growth of such new technologies and mobile banking platforms could negatively impact the value of the investments of the Group in bank premises, equipment and personnel for its branch network. The persistence or acceleration of this shift in demand towards internet and mobile banking may necessitate further changes to its retail distribution strategy, which may include closing, restructuring and/or selling certain branches of the Group (as the Group has been doing in recent years). These actions could lead to losses on these assets and may lead to increased expenditures to renovate, reconfigure or close a number of its remaining branches or to otherwise reform its retail distribution channel. Furthermore, if the Group fails implement such changes to its distribution strategy swiftly and effectively could have an adverse effect its competitive position.

In particular, the Group faces the challenge of competing in an ecosystem where the relationship with the consumer is based on access to digital data and interactions. This access is increasingly dominated by digital platforms, which are already eroding its results in very relevant markets such as payments. This privileged access to data can be used as leverage to compete with the Group in other adjacent markets and may reduce its operations and margins in core businesses such as lending or wealth management. The alliances that its competitors are starting to build with large technology firms can make it more difficult for the Group to successfully compete with them and could adversely affect it.

Increasing competition could also require that the Group increases its rates offered on deposits or lower the rates it charges on loans, which could also have a material adverse effect on the Group, including its profitability. It may also negatively affect its business results and prospects by, among other things, limiting its ability to increase its customer base and expand its operations and increasing competition for investment opportunities.

If the Group's customer service levels were perceived by the market to be materially below those of its competitor financial institutions, the Group could lose existing and potential business. If the Group is not successful in

## RISK FACTORS

retaining and strengthening customer relationships, it may lose market share, incur losses on some or all of its activities or fail to attract new deposits or retain existing deposits, which could have a material adverse effect on the Group's operating results, financial condition and prospects.

*If the Group is unable to manage the growth of its operations, integrate successfully its inorganic growth, or execute successfully any of its strategic actions this could have an adverse impact on its profitability.*

The Group allocates management and planning resources to develop strategic plans, priorities, policies and targets, including for organic growth, and to identify potential acquisitions and divestitures and areas for restructuring its businesses. The execution of these initiatives is subject not only to external factors but also to its decisions, including those that alter or redefine its business practices, operational frameworks, strategic objectives, corporate priorities, internal policies, and procedural guidelines. The Group cannot provide assurance that it will, in all cases, be able to deliver its strategic plans, priorities, policies and targets.

Furthermore, in order to grow and remain competitive, the Group will need to adapt to changes to meet the demands and expectations of regulators, its clients, shareholders and other stakeholders, including in relation to matters of public policy, regardless of whether there is a legal requirement to do so. The Group cannot guarantee that it will be able to implement changes to any of its strategic plans, priorities, policies and targets, in a timely and appropriate manner, or that it will be able to accurately predict trends, initiatives and business practices of financial institutions. It is also possible that regulators, its clients, shareholders and other stakeholders might not be satisfied or even disagree with its strategic plans, priorities, policies and targets, or the speed of their adoption, implementation, evolution and consequences.

From time to time, the Group evaluates acquisition, partnership, divestiture and other strategic opportunities that it believes offer additional value to its shareholders and are consistent with its business strategy. However, the Group may not be able to identify suitable acquisition, partnership, divestiture or other strategic candidates. Additionally, the Group may be unable to complete ongoing or future acquisitions, partnerships, divestitures or other strategic transactions in a timely or cost-effective manner, on the originally announced terms, or at all.

Even if the Group successfully completes any such transactions, the Group may not be able to successfully realise the expected results, benefits or synergies in a timely manner or at all. These results, benefits or synergies could also be adversely affected by acquisition or divestiture related charges and contingencies. In particular, its ability to benefit from any acquisitions and partnerships will depend in part on its successful integration of those businesses. Any such integration entails significant risks such as unforeseen difficulties in integrating operations and systems, unexpected liabilities or contingencies relating to the acquired businesses, including legal claims and delivery and execution risks. The Group can give no assurance that its expectations with regards to integration and synergies will materialise. In addition, any acquisition or venture could result in inconsistencies in standards, controls, procedures and policies. Moreover, the success of any acquisition or venture will, at least in part, be subject to a number of political, economic and other factors that are beyond our control. Any of these factors, individually or collectively, could have a material adverse effect on the Group.

The Group may also be subject to litigation in connection with, or as a result of, any such transactions, including claims from terminated employees, customers, suppliers or third parties. For example, the Group may be held responsible for the activities of an acquired business in the case of an acquisition. This includes liability for actions or non-compliance of an acquired business prior to its acquisition or in connection with its acquisition or integration. In the case of a divestiture, the Group may be required to indemnify the buyer for certain liabilities, including for uncapped amounts, in connection with claims against the divested entity or business.

Completion and integration of any such transactions may also divert management attention from other matters, result in additional costs and expenses or adversely affect the Group's relationships with its customers, suppliers, employees and any other third parties, any of which may adversely affect the Group's business or results of operations.

The challenges that may arise from its decisions include:

- managing efficiently the operations and employees of expanding businesses;
- maintaining or growing its existing customer base;
- assessing the value, strengths and weaknesses of investment or acquisition candidates, including local regulations that could reduce or eliminate expected synergies;

- financing strategic investments or acquisitions;
- aligning its current information technology systems adequately with those of an enlarged group;
- applying its risk management policy effectively to an enlarged group;
- managing a growing number of entities without over-committing management or losing key personnel; and
- meeting the expectations of regulators and its clients, shareholders and other stakeholders.

Moreover, the success of the acquisition or venture will at least in part be subject to a number of political, economic and other factors that are beyond the control of the Group. Any of these factors, individually or collectively, could have a material adverse effect on the Group.

Examples of recent transactions subject to the execution risks described above include (i) the disposal of Santander Bank Polska, S.A., (ii) the acquisition of TSB Banking Group plc (“**TSB**”), a commercial bank in the United Kingdom, and (iii) the acquisition of Webster Financial Corporation (“**Webster**”), holding company for Webster Bank, N.A., a commercial bank in the United States. Provided that all the relevant closing conditions are satisfied in a timely manner, the Group expects that the integration of TSB and Webster will begin in 2026.

Furthermore there can be no assurance that changes to the Group's operating model, such as the reorganisations of its primary and secondary segments, will yield expected benefits within the expected timeframes.

Any failure to manage growth effectively, an inability to successfully adapt to changing conditions or to execute successfully any of its strategic actions, or any changes in its business practices, operational framework, strategic objectives, corporate priorities, internal policies and procedural guidelines could have a material adverse effect on its operating results, financial condition and prospects.

### ***Risk Management***

*Failure to successfully implement and continue to improve the risk management policies, procedures and methods of the Group, including its credit risk management systems, could materially and adversely affect the Group, and it may be exposed to unidentified or unanticipated risks.*

Risk management is a central part of the activities of the Group. The Group seeks to manage and control its risk exposure through a forward-looking management model, based on robust governance and advanced risk management tools, supported by a risk culture that permeates the organisation. While the Group's management model uses a broad and diversified set of risk monitoring, control and mitigation techniques, such a model may not be fully effective at mitigating all types of risks in all economic or market environments, including risks that it may fail to identify or anticipate.

Some of the tools and metrics of the Group for managing risk are based on observed historical market behaviour. The Group applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. These tools and metrics may fail to predict future risk exposures. These risk exposures could, for example, arise from factors the Group did not anticipate or correctly evaluate in its statistical models. As a result, the losses of the Group could be significantly higher than the historical measures indicate. In addition, its statistical models may not take all risks into account or measure emerging risks correctly.

The Group's approach to managing risks could prove insufficient, exposing it to material unanticipated losses. The Group could face adverse consequences (i) if its decisions, are based on models that are poorly developed, implemented or used; (ii) if the modelled outcome is misunderstood or used for purposes for which it was not designed; or (iii) if the data and inputs used in the models are incorrect or insufficient. If existing or potential customers or counterparties believe the risk management of the Group is inadequate, they could take their business elsewhere or seek to limit their transactions with it. Any of these factors could have a material adverse effect on the reputation, operating results, financial condition and prospects of the Group.

As a retail bank, one of the main types of risks inherent to the business of the Group is credit risk. For example, an important feature of its credit risk management system is the use of an internal credit rating to assess the particular risk profile of individual customers and SMEs. As this process involves detailed analyses of the customer, taking into account both quantitative and qualitative factors, it is subject to human or information technology systems errors. In exercising their judgement regarding the customers' current or future credit risk

behaviour of the Group, its management models may not always be able to assign an accurate credit rating, which may result in a higher exposure to credit risks than indicated by the Group's risk rating system.

Some of the models and other analytical and judgement-based estimations the Group uses in managing risks are subject to review by, and require the approval of, regulators. If models do not comply with all their expectations, regulators may require the Group to make changes to such models, may approve them with additional capital requirements or may restrict or preclude their use. Any of these possible situations could have a material impact on its operating results, financial condition and prospects.

The Group sets concentration limits according to risk appetite, develops risk policies and reviews to manage credit risk concentration and is subject to regulatory limits on large exposures. However, if the Group fails to anticipate deteriorating sectors or regions, does not comply with internal or regulatory concentration limits, or if one or more of the Group's largest borrowers fail to service their loans, the Group's operating results financial condition and prospects could be adversely affected.

Failure to effectively implement, consistently monitor or continuously improve the credit risk management system of the Group may result in an increase in the level of non-performing loans and a higher risk exposure for the Group, which could have a material adverse effect on it.

In addition, failure to successfully execute any of the Group's decisions and actions affecting or changing its practices, operations, priorities, strategies, policies, procedures or frameworks, could have a material adverse effect on the Group.

The board of directors of the Group is responsible for the approval of the Group's general policies and strategies, and in particular the corporate risk framework, and for defining the risk appetite. In addition to the executive committee, which maintains a special focus on risk, the board has a specific risk supervision, regulation and compliance committee.

### **Model risk**

*The Group relies on models for many of its decisions. Their inaccurate or incorrect use could have a material adverse effect on the Group.*

The Group uses models for (i) admission (scoring and rating), and behavioural credit processes, (ii) the definition of credit limits, and (iii) the calculation of capital, and provisions, and of market, structural, operational, compliance and liquidity risks, among others. A model is a system, approach or quantitative method that applies statistical, economic, financial or mathematical theories, techniques or hypotheses to transform input data into quantitative estimates and forecasts. It involves simplified representations of real-world relationships between characteristics, values and observed assumptions that allows the Group to focus on specific aspects.

Model risk is the negative consequence of decisions based on inaccurate, improper or incorrect use of models. Sources of model risk include (i) incorrect or incomplete data in the model itself or the modelling method used in systems; and (ii) incorrect use or implementation of the model.

Model risk can cause financial loss, erroneous commercial and strategic decision-making or damage to the Group's transactions any of which could have a material adverse effect on the Group's operating results, financial condition and prospects. In addition, the Group's regulatory models and the underlying methodologies are subject to scrutiny from the Group's supervisors, who could identify potential weaknesses or deficiencies that may result in enforcement actions, including sanctions, fines and/or the imposition of stricter capital requirements, as well as mandates and recommendations with respect to the methodologies underlying the Group's models, which could also lead to more onerous or inefficient capital consumption.

Unprecedented movements in economic and market drivers related to external events such as the armed conflicts in Ukraine and the Middle East or global trade tensions arising from increased tariffs have required ongoing monitoring and adjustment of financial models (including credit loss and provisions models, capital models, traded risk models and models used in the asset/liability management process) to comply with guidance and recommendations of standard setters, regulators and supervisors, particularly for credit loss models. These conditions have also led to the use of mitigants for model limitations, such as adjustments to model outputs to reflect management judgment considerations. The performance and usage of models have been and may continue to be impacted by the consequences of external events. In addition, data obtained during these external events may not be representative of normal economic conditions and may distort the calibration of the models in the future, which could have a material adverse effect on the Group.

In addition, the fair value of the Group's financial assets, determined using financial valuation models, may be inaccurate or subject to change and, as a consequence, the Group may have to recognise impairments or write-downs that could have a material adverse effect on the Group's operating results, financial condition and prospects. See the risk factor entitled "*Market conditions have resulted and could result in material changes to the estimated fair values of the Group's financial assets. Negative fair value adjustments could have a material adverse effect on its operating results, financial condition and prospects*".

### **General risks**

#### ***Other General Risks related to the industry of the Group***

*Climate change can create transition risks, physical risks, and other risks that could adversely affect the Group.*

Climate change may imply two primary drivers of risk that could adversely affect the Group:

- Transition risks associated with the move to a low-carbon economy, both at idiosyncratic and systemic levels, such as through policy, regulatory and technological changes and business and consumer preferences, which could increase the Group's expenses and impact its strategies.
- Physical risks related to discrete events, such as flooding and wildfires, and extreme weather impacts and longer-term shifts in climate patterns, such as extreme heat, sea level rise and more frequent and prolonged droughts, which could result in financial losses that could impair asset values and the creditworthiness of the Group's customers. Such events could disrupt the Group's operations or those of its customers or third parties on which the Group relies and does business with, including through direct damage to assets and indirect impacts from supply chain disruption and market volatility.

These primary drivers could materialise, among others, in the following risks:

- Credit risks: Physical climate change could lower corporate revenues, increase operating costs and lead to increased credit exposure. Severe weather could also affect collateral value. Additionally, companies with business models not aligned with the transition to a low-carbon economy may face a higher risk of reduced corporate earnings and business disruption due to local regulations or market shifts.
- Market risks: Market changes in the most carbon-intensive sectors could affect energy and commodity prices, corporate bonds, equities and certain derivatives contracts. Increasing frequency of severe weather events could affect macroeconomic conditions, weakening fundamental factors such as economic growth, employment and inflation and lead to higher market volatility.
- Liquidity risks: Companies could face liquidity risks derived from cash outflows to improve their reputation in the market or to address climate-related problems. Extreme weather events could also affect the value of the Group's high-quality liquid assets or cause sovereign debt to rise limiting the Group's access to capital markets.
- Operational risks: Severe weather events could directly damage assets and impact business continuity, both the Group's customers and the Group's. Climate-related financial risks could also cause operational risk losses from litigation if, for example, the Group is perceived to misrepresent sustainability-related practices, achievements, metrics, goals or targets.
- Regulatory compliance risks: Increased regulatory compliance risk may result from the increasing focus, pace, breadth and depth of regulatory expectations requiring implementation in short timeframes across multiple jurisdictions, from conflicting priorities among jurisdictions in which the Group operates and from changes in public policy, laws and regulations in connection with climate change and related environmental sustainability matters.
- Reputational risk: The Group's reputation and client relationships may be damaged as a result of its practices, disclosures and decisions related to climate change and the environment, or to the practices or involvement of its clients, vendors or suppliers in certain industries or projects being associated with causing or exacerbating climate change. Furthermore, parties who may suffer

losses from the effects of climate change may seek compensation from those they hold responsible such as state entities, regulators, investors and lenders. The Group could face conduct risks derived from misrepresentations in its sustainability-related disclosures, including its practices, achievements, metrics, goals and targets or the sustainability characteristics of the Group's products or of its customers, investors or other stakeholders (greenwashing).

- Strategic risks: The Group's strategy could be affected if it fails to achieve its targets, including those related to the activities that the Group finances and those concerning its own operations.

Because the timing and severity of climate change remain uncertain and continue to evolve rapidly, the Group's risk management strategies may not be effective in mitigating climate risk exposure. Additionally, the Group may become subject to new, heightened or conflicting regulatory requirements relating to climate change, which may result in increased regulatory, compliance or other costs. As the risks, perspective and focus of regulators, shareholders, employees, and other stakeholders regarding climate change are evolving rapidly, including in certain jurisdictions where sustainability-related practices are subject to heightened political and regulatory scrutiny, it can be difficult to assess the ultimate impact on the Group of climate change-related risks, compliance risks, and uncertainties.

The Group periodically discloses information such as emissions and other climate-related performance data, statistics, metrics and/or targets. If the Group lacks robust and high-quality climate-related procedures, controls and data, the Group may not be able to disclose reliable climate-related information. In addition, because such climate-related information is based on current expectations and future estimates about the Bank's and third-parties' operations and businesses and addresses matters that are uncertain to varying degrees, the Group may not be able to meet its estimates and targets or it may not be able to achieve them within the timelines it announces. Actual or perceived shortcomings with respect to these emissions and other climate-related initiatives and reporting could result in litigation or regulatory enforcement and impact its ability to hire and retain employees, increase its customer base, and attract and retain certain types of investors.

Initiatives and business practices of financial institutions with respect to climate matters and other matters of public policy, including environmental, social and governance (ESG) matters, have recently become the subject of significant scrutiny by regulatory agencies and government officials. In particular, there are a growing number of regulatory initiatives in certain jurisdictions aimed at discouraging or limiting the consideration of ESG factors by financial institutions, as well as investigations or proceedings asserting that consideration of ESG factors by financial institutions conflict with certain regulatory requirements or the expectations of their clients, shareholders and other stakeholders. Such differing, sometimes conflicting, views and regulations on sustainability and ESG-related matters increase the risk that certain of its actions, or lack of action, on such matters will be perceived negatively or result in scrutiny by regulators or legal proceedings. Additionally, the overall expectations of regulators and its clients, shareholders and other stakeholders in certain jurisdictions, particularly in Europe, with respect to certain of these issues may differ significantly from those in other jurisdictions, such as the United States. Furthermore, its relationships or ability to transact with clients and customers, and with governmental or regulatory bodies in certain jurisdictions could be adversely affected if its decisions with respect to doing business with companies in certain sensitive industries are perceived to harm those companies, result in violations of law or breaches of fiduciary duty or to align with particular ideological, political or social views. The Group is also exposed to associated risks of non-compliance with relevant legal requirements, including fines, penalties, litigation, regulatory sanctions, difficulties in obtaining governmental approvals, restrictions on its business activities or reputational damage, any of which could be material. Additionally, its participation in, or association with, certain groups or initiatives and its business practices or positions with respect to matters of public policy, including ESG matters, could be criticized by activists, governmental authorities and its clients, shareholders and other stakeholders. Any of the conditions described above, or its failure to identify other climate-related risks, could have a material adverse effect on its business, financial condition and results of operations.

*The financial problems faced by its customers could adversely affect the Group.*

Potential market turmoil and economic recession could materially and adversely affect the liquidity, credit ratings, businesses and/or financial condition of the customers of the Group, which could in turn increase its non-performing loans ratio, impair its loans and other financial assets and result in decreased demand for borrowings and deposits in general. In addition, the customers of the Group may significantly decrease their risk tolerance for non-deposit investments such as stocks, bonds and mutual funds, which would adversely affect its fee and commission income. Any of the conditions described above could have a material adverse effect on the business, financial condition and results of operations of the Group.

## RISK FACTORS

*The ability of the Group to maintain its competitive position depends, in part, on the success of new products and services the Group offers to its customers and on its ability to offer products and services that meet the customers' needs during the whole life cycle of the products or services. The Group's failure to manage various risks it faces as it expands its range of products and services that could have a material adverse effect on the Group.*

The success of the operations and profitability of the Group depend, in part, on the success of new products and services it offers to its customers and on its ability to offer products and services that meet their needs during their entire life cycle. However, customers' needs or desires may change over time, and such changes may render the products and services of the Group obsolete, outdated or unattractive and it may not be able to develop new products that meet its customers' changing needs. The success of the Group is also dependent on its ability to anticipate and leverage new and existing technologies that may have an impact on products and services in the banking industry. Technological changes may further intensify and complicate the competitive landscape and influence customer behaviour. If the Group cannot respond in a timely fashion to the changing needs of its customers, including as a result of an ageing population, it may lose existing or potential customers, which could in turn materially and adversely affect the Group. In addition, the cost of developing and maintaining innovative products is likely to affect its results of operations.

The Group faces the challenge of simplifying range of its products and services and, at the same time, being able to satisfy the needs of its clients by offering new products and services. The development of these new products and services exposes it to new and potentially increasingly complex risks, such as conduct risk in the Group's relationships with customers, and increased development expenses. The employees and risk management systems of the Group, as well as its experience and that of its partners, may not be adequate to enable the Group to properly manage such risks. Any or all of these factors, individually or collectively, could have a material adverse effect on the Group.

While the Group has successfully increased its customer service levels in recent years, should these levels ever be perceived by the market to be materially below those of its competitors, the Group could lose existing and potential new business. If the Group is not successful in retaining and strengthening customer relationships, it may lose market share, incur losses on some or all of its activities or fail to attract new deposits or retain existing deposits. Additionally, reputational or operational incidents associated with new products could affect customer trust and brand perception, amplifying competitive pressures. Any of the conditions described above could have a material adverse effect on the Group's operating results, financial condition and prospects.

*The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel.*

The continued success of the Group depends partly on the continued service of key members of its senior executive team and other key employees. The ability to continue to attract, train, motivate and retain highly qualified and talented professionals is a key element of the strategy of the Group. The successful implementation of this strategy and culture depends on the availability of skilled and appropriate management, both at the Group's head office and in each of its business units. If the Group or one of its business units or other functions does not adequately staff operations, or loses one or more key senior executives or other key employees and fails to replace them promptly and effectively, its business, financial condition and results of operations, including control and operational risks, may be adversely affected.

*The ability of the Group to attract and retain qualified employees depends on perceptions of its culture, social and corporate governance policies and management, its profile in the markets in which the Group operates and the professional opportunities the Group offers.*

In addition, the financial industry faces and may continue to face more stringent regulation of employee compensation, which could have an adverse effect on the ability of the Group to hire or retain the most qualified employees. If the Group does not attract and appropriately train, motivate and retain qualified professionals, its business may be adversely affected.

*Damage to the reputation of the Group could cause harm to its business prospects.*

Maintaining a robust risk management framework based on sound ethical principles and corporate values is critical to protect the Group's reputation and the Group's brand, attract and retain customers, investors and employees and conduct business transactions with counterparties. Damage to the reputation of the Group could materially and adversely affect how the Group is perceived by current and potential clients, investors, vendors, partners, regulators and other third parties, which in turn could have a material adverse effect on the Group's operating results, financial condition, and prospects as well as damage its customers' and investors' confidence and the

market price of its securities. Harm to such reputation can arise from numerous sources, including, among others, employee misconduct (such as fraud or unethical behaviour), litigation or regulatory enforcement, failure to deliver minimum standards of service and quality, negative perceptions regarding the Group's ability to maintain the security of its technology systems and protect customer data (including as a result of a cyberattack, data breach, data loss or other security incident), dealing with sectors that are not well perceived by the public (such as weapons industries or embargoed countries), dealing with customers in sanctions lists, rating downgrades, significant variations in the share price of the Group over time, compliance failures, unethical behaviour, actual or alleged improper conduct in areas such as lending, sales, marketing, corporate governance or culture, and the activities of customers and counterparties, including activities that negatively affect the environment. The Group's reputation could also suffer if it is the subject of negative coverage in the media, whether it has merit or not.

Actions by the financial services industry generally or by certain members of, or individuals in, the industry can also affect the reputation of the Group. For example, the role played by financial services firms in the financial crisis and the resulting shift toward increasing regulatory supervision and enforcement have led to a decline in public perception of the Group and others in the financial services industry.

Additionally, the Group could suffer significant reputational harm from negative perceptions regarding the Group's approach to environmental, social and corporate governance policies. There has been increased focus by customers, shareholders, investor advocacy groups, employees, regulators and other stakeholders on these topics, and the Group's policies, practices and disclosures in these areas could come under scrutiny. Governments may implement new or additional regulations and standards or investors, customers and other stakeholders may impose new expectations or focus investments in ways that cause significant shifts in disclosure, consumption and behaviours that may have negative impacts on the Group's reputation and business. If regulators or stakeholders consider the Group's efforts ineffective, inadequate or unsatisfactory, whether real or perceived, it could harm its reputation, business and prospects and the Group could be subject to enforcement or other supervisory actions.

The Group could also suffer significant reputational harm if it fails to identify and manage potential conflicts of interest properly. The failure, or perceived failure, to adequately address conflicts of interest could affect the willingness of clients to deal with the Group or could result in litigation or enforcement actions against the Group, which could have an adverse effect on its operating results, financial condition and prospects.

The Group may be the subject of misinformation and misrepresentations deliberately propagated in media or social media to harm its reputation or for other deceitful purposes, including by short sellers seeking to profit by spreading false or misleading information about the Group. There can be no assurance that it will effectively neutralise and contain any false information that may be propagated regarding the Group, which could have an adverse effect on its operating results, financial condition and prospects.

*The Group engages in transactions with its subsidiaries or affiliates that others may not consider to be on an arm's-length basis.*

The Group and its affiliates have entered into a number of services agreements pursuant to which it renders services, such as administrative, accounting, finance, treasury, legal services and others.

Spanish and US law provide for several procedures designed to ensure that the transactions entered into with or among the financial subsidiaries and/or affiliates of the Group do not deviate from prevailing market conditions for those types of transactions.

The Bank is likely to continue to engage in transactions with its affiliates. Future conflicts of interests may arise between the Group and any of its affiliates, or among its affiliates, which may not be resolved in its favour.

### **Reporting and control risks.**

*Changes in accounting standards could impact reported earnings.*

The accounting standard setters and other regulatory bodies periodically change the financial accounting and reporting standards that govern the preparation of the consolidated financial statements of the Group. These changes can materially impact how the Group records and reports its financial condition and results of operations, as well as affect the calculation of its capital ratios. In some cases, the Group could be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements.

## RISK FACTORS

*The financial statements of the Group are based in part on assumptions and estimates which, if inaccurate, could cause material misstatement of the results of its operations and financial position.*

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. Estimates, judgements and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The accounting policies deemed critical to the results and financial position of the Group, based upon materiality and significant judgements and estimates, include impairment of loans and advances, goodwill impairment, valuation of financial instruments, deferred tax assets provision and pension obligation for liabilities. See risk factor "*The Group is exposed to risk of loss from legal and regulatory proceedings*".

If the judgements, estimates and assumptions the Group uses in preparing its consolidated financial statements are subsequently found to be incorrect, there could be a material effect on its results of operations and a corresponding effect on its funding requirements and capital ratios.

*Disclosure controls and procedures over financial and non-financial reporting may not prevent or detect all errors or acts of fraud.*

Disclosure controls and procedures, including internal controls over financial and non-financial reporting (including climate-related reporting), are designed to provide reasonable assurance that information required to be disclosed by the Group in reports filed or submitted under the US Securities Exchange Act of 1934 (the "**Exchange Act**") is accumulated and communicated to management, and recorded, processed, summarised and reported within the time periods specified in the US Securities and Exchange Commission's rules and forms.

These disclosure controls and procedures have inherent limitations, including the possibility that judgements in decision-making can be faulty and that breakdowns occur because of errors or mistakes. Additionally, controls can be circumvented by any unauthorised override of the controls. Consequently, the businesses of the Group are exposed to risk from potential non-compliance with policies, employee misconduct or negligence and fraud, as well as from deficiencies or delays in the preparation or submission of our financial or regulatory reports, which could result in regulatory sanctions, civil claims, increased regulatory scrutiny or reputational or financial harm. In recent years, a number of multinational financial institutions have suffered material losses due to the actions of 'rogue traders' or other employees. It is not always possible to deter employee misconduct and the precautions the Group takes to prevent and detect this activity may not always be effective. Accordingly, because of the inherent limitations in the control system, misstatements due to error or fraud may occur and not be detected.

### INVESTMENT CONSIDERATIONS

*This Investment Considerations section sets out important information and considerations in relation to the Securities which prospective investors should take into account prior to making an investment decision.*

#### **Considerations Relating to the Securities Generally**

##### *Considerations in relation to the Specific Buy-Back Provisions*

Investors should be aware that the Specific Buy-Back Provisions will not affect the right of the investors to receive timely payments of principal and interest on the Securities. In consideration of the Issuer being able to maintain the notional Underlying Transactions in relation to the Securities, the Issuer will pay an Extra-Yield on the Securities (as such term is defined in Condition 6(k)(ii) (*Extra-Yield*)).

In addition, the Specific Buy-Back Provisions may apply only to Securities where Banco Santander, S.A. acts as the sole Dealer and the Calculation Agent and where the Specified Denomination in respect of each Security is equal to at least EUR 100,000 (or its equivalent amount in the Specified Currency).

Investors should refer to the Risk Factor entitled "*Any change in the Underlying Transactions or their market value may materially adversely affect the Buy-Back Price payable in respect of Securities in relation to which the Specific Buy-Back Provisions apply*" for further information on the risks relating to the Specific Buy-Back Provisions.

##### *Considerations in relation to Global Securities or Registered Global Securities held by or on behalf of Euroclear and Clearstream, Luxembourg, Clearstream, Frankfurt, the CMU or DTC*

Unless otherwise specified in the relevant Applicable Transaction Terms, Securities issued under the Programme may be represented by one or more Global Securities or Registered Global Securities. Such Global Securities or Registered Global Securities, unless otherwise specified in the relevant Applicable Transaction Terms, will be (in the case of Bearer Securities) deposited with a common depositary or, as the case may be, common safekeeper for Euroclear and/or Clearstream, Luxembourg or Clearstream, Frankfurt or, in the case of Global Securities to be cleared through the CMU, deposited with a sub-custodian for the CMU, or (in the case of Registered Securities) registered in the name of a common depositary or, as the case may be, common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg or registered in the name of a nominee for DTC or, in the case of Registered Securities that are cleared through the CMU, will be registered in the name of the HKMA as operator of the CMU and deposited with a sub-custodian for the CMU. Except in the limited circumstances described in the relevant Global Security or Registered Global Security, investors will not be entitled to receive Securities in definitive form.

Each of Euroclear, Clearstream, Luxembourg, Clearstream, Frankfurt, the CMU and DTC, and their respective direct and indirect participants, will maintain records of the beneficial interests in the Global Securities or ICSD Registered Global Securities, as applicable. While the Securities are represented by one or more Global Securities or Registered Global Security, investors will be able to trade their beneficial interests only through the relevant clearing system and their respective participants Securities are held.

While the Securities are represented by one or more Global Securities or Registered Global Security, the Issuer and the Guarantor will discharge their payment obligations under the Securities by making payments through the relevant clearing system. A holder of a beneficial interest in a Global Security or Registered Global Security must rely on the procedures of the relevant clearing system and its participants to receive payments under the relevant Securities. The Issuer and the Guarantor have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Securities or Registered Global Security.

Holders of beneficial interests in the Global Securities or Registered Global Security will not have a direct right to vote in respect of the relevant Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Securities or Registered Global Securities will not have a direct right under the Global Securities or Registered Global Securities to take enforcement action against the Issuer or the Guarantor in the event of a default under the relevant Securities but will have to rely upon their rights under the Deed of Covenant.

## INVESTMENT CONSIDERATIONS

### *Considerations in relation to Definitive Registered Securities*

Where the Securities are issued in definitive registered form, a Securityholder's title to the Securities depends on entry of such Securityholder's name in a register kept by the Registrar on behalf of the Issuer, rather than possession of the Definitive Registered Security. The Definitive Registered Security that a Securityholder receives is not a document of title, but evidence that such Securityholder's name has been entered in the register. Investors should be aware that a Definitive Registered Security is transferable by execution of a written transfer instrument and it is not considered a negotiable instrument under English law.

### *Considerations in relation to Book-Entry Securities, Monte Titoli Book-Entry Securities, French Law Securities, Finnish Securities and Swedish Securities as dematerialised securities and reliance on clearing system procedures for transfer, payment and communication with the Issuer*

Book-Entry Securities issued under the Programme will not be evidenced by any physical note. They will only be represented by book entries in the Spanish Central Securities Depository (Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal ("**Iberclear**")) or the Iberclear participants. Holders will be entitled to request as evidence certificates made or issued by Iberclear or Iberclear participants, as the case may be. Ownership of Book-Entry Securities will be recorded and transfer effected only through the book entry system and register maintained by Iberclear.

In the case of Monte Titoli Book-Entry Securities, the Securities will not be represented by paper certificates and the transfer and exchange of Securities will take place exclusively through an electronic book-entry system managed by Euronext Securities Milan (formerly Monte Titoli S.p.A). Accordingly, the Securities will be held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli, for the account of the relevant Monte Titoli Account Holders. If the Securities have been accepted for clearance by Monte Titoli they will at all times be held in book-entry form and title to the Securities will be evidenced by book entries pursuant to the relevant provisions of the Financial Services Act, as amended and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Securities. However, the Securityholders may ask the relevant intermediaries for certification pursuant to Article 83-quinquies of the Financial Services Act. The person for the time being shown in the records of Monte Titoli or Monte Titoli Account Holder as applicable as the holder of a particular amount of Securities (in which regard any securities or other document issued by Monte Titoli as to the amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of a manifest error) shall be treated by the Issuer and the Agent as the holder of such amount of such Securities for all purposes.

In accordance with the provisions of the French Code *monétaire et financier*, title to French Law Securities cleared through Euroclear France is evidenced exclusively by book-entries (*inscriptions en compte*) in the accounts of the French Law Securities Account Holder. No physical document of title, including *certificats représentatifs* as provided for under Article R.211-7 of the French Code *monétaire et financier*, will be issued in respect of such French Law Securities. The transfer of French Law Securities issued in bearer dematerialised form (*au porteur*) is effected solely through registration in the accounts of the relevant French Law Securities Account Holders. The person whose name appears in the records of the relevant French Law Securities Account Holder is deemed to be the legal holder of the French Law Securities for all purposes.

Swedish Securities will be issued in uncertificated and dematerialised book-entry form in accordance with the SFIA Act, all as more fully described in the Applicable Transaction Terms. No global or definitive registered Swedish Securities will be issued. The Swedish Securities will be transferable only in accordance with the provisions of the SFIA Act, other applicable Swedish legislation and the rules and regulations applicable to, and/or issued by, Euroclear Sweden AB ("**Euroclear Sweden**").

Finnish Securities will be issued in uncertificated and dematerialised book-entry form in accordance with the Finnish Act on the Book-Entry System and Clearing Operations (Fin. *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (348/2017, as amended)) and with the Finnish Act on Book-Entry Accounts (Fin. *laki arvo-osuustileistä* (827/1991, as amended)), all as more fully described in the Applicable Transaction Terms. No global or definitive registered Securities will be issued. The Finnish Securities will be registrable and transferable only in accordance with the legislation, rules and regulations applicable to, and/or issued by, Euroclear Finland Oy ("**Euroclear Finland**"). Finnish Securities will be subject to automatic redemption and be cash settled.

### *Considerations in relation to CMU Securities*

## INVESTMENT CONSIDERATIONS

The CMU is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the members of this service ("**CMU Members**") of capital markets instruments ("**CMU Instruments**") which are specified in the CMU Manual (as such term is defined in the Conditions) as capable of being held within the CMU.

The CMU is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. Membership of the services is open to all financial institutions regulated by the Hong Kong Monetary Authority, the Securities and Futures Commission, the Insurance Authority or the Mandatory Provident Fund Schemes Authority. For further details on the full range of the CMU's custodial services, please refer to the CMU Manual.

The CMU has an income distribution service which is a service offered by the CMU to facilitate the distribution of interest, coupon or redemption proceeds (collectively, the "**income proceeds**") by CMU Members who are paying agents to the legal title holders of CMU Instruments via the CMU system. Furthermore, the CMU has a corporate action platform which allows an issuer (or its agent) to make an announcement/notification of a corporate action and securityholders to submit the relevant certification. For further details, please refer to the CMU Manual.

An investor holding an interest through an account with either Euroclear or Clearstream in any Securities held in the CMU will hold that interest through the respective accounts which Euroclear and Clearstream each have with the CMU.

### *Considerations in relation to Global Securities or Registered Global Securities held through the CMU*

The Issuer's or Guarantor's (as applicable) obligation to make any payments under Securities cleared through CMU will be discharged upon payment to the CMU Lodging and Paying Agent, and no claims may be brought directly against the Issuer or Guarantor (as applicable) in respect of amounts so paid.

So long as any Security is represented by a Global Security or Registered Global Security held on behalf of the CMU, each person for whose account interest in the Global Security or Registered Global Security is credited as being held in the CMU, as notified by the CMU to the CMU Lodging and Paying Agent in a relevant CMU Issue Position Report, will be the only person entitled to receive payments on the Securities represented by the Global Security or Registered Global Security. Such person(s) must look solely to the CMU Lodging and Paying Agent for his share of each payment made by the Issuer or the Guarantor (as applicable) in respect of the Global Security or Registered Global Security, and in relation to all other rights arising under the Global Security or Registered Global Security, subject to and in accordance with the respective rules and procedures of the CMU. The Issuer or the Guarantor (as applicable) will be discharged by payment to the CMU Lodging and Paying Agent, and such person(s) shall have no claim directly against the Issuer or the Guarantor (as applicable) in respect of payments due on the Securities for so long as the Securities are represented by the Global Security or Registered Global Security in respect of each amount so paid. Investors are exposed to the creditworthiness of the CMU Lodging and Paying Agent and may suffer a loss in their investment if the CMU Lodging and Paying Agent delays in making or fails to make the relevant payment to the aforesaid person(s) upon receiving the relevant payment from the Issuer or the Guarantor (as applicable).

Since the CMU operator can act only on behalf of the CMU participants, who in turn may act on behalf of persons who hold interests through them, the ability of persons having interests in the Global Security or Registered Global Security to pledge such interests to persons or entities that are not CMU participants, or otherwise take action in respect of such interests, may be affected by the lack of definitive Securities. Any payments by CMU participants to indirect participants will be governed by arrangements between the CMU participants and such indirect participants.

Payments, transfers, exchanges, and other matters relating to interests in the Global Securities or Registered Global Securities may be subject to various policies and procedures adopted by the CMU operator from time to time. None of the Issuer, the Guarantor, the Dealer, the Principal Paying Agent, the CMU Registrar, the CMU Lodging and Paying Agent, the other Agents, nor any of their agents, will have any responsibility or liability for any aspect of the CMU operator's records relating to, or for payments made on account of, interests in the Global Security or Registered Global Security, or for maintaining, supervising or reviewing any records relating to such interests.

The CMU operator is under no obligation to maintain or continue to operate the CMU and/or to perform or continue to perform the procedures described above. Accordingly, the CMU and such procedures may be

## INVESTMENT CONSIDERATIONS

discontinued or modified at any time. None of the Issuer, the Guarantor, the Dealer, the Principal Paying Agent, the CMU Registrar, the CMU Lodging and Paying Agent, the other Agents nor any of their agents will have any responsibility for the performance by the CMU operator or the CMU participants of their respective obligations under the rules and procedures governing their operations.

### *Considerations in relation to Securities that are issued as Green Bonds, Social Bonds or Sustainable Bonds*

Prospective investors should have regard to the information set out in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Securities together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Guarantor that the use of such proceeds for any project will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations including, amongst others, the EU Taxonomy and the EU Taxonomy Regulation, the European Green Bond Regulation or Regulation EU 2020/852 as it forms part of domestic law in the UK by virtue of the EUWA, or any further regulations, guidance or standards that may be approved or created or by its own by-laws or governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental or sustainability impact of any project or uses, the subject of or related to, the Green, Social & Sustainability Funding Global Framework.

Furthermore, it should be noted that there is currently no widely-accepted clear definition of, nor market consensus as to what constitutes, a "green", "social" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear consensus will develop over time or that any prevailing market consensus will not significantly change.

A basis for the determination of such "green" project definition has been established in the EU with the publication in the Official Journal of the EU on June 22, 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of June 18, 2020 (the "**Sustainable Finance Taxonomy Regulation**") on the establishment of a framework to facilitate sustainable investment (the "**EU Sustainable Finance Taxonomy**"). The EU Sustainable Finance Taxonomy is subject to further development by way of the implementation by the European Commission through delegated regulations of technical screening criteria for the environmental objectives set out in the Sustainable Finance Taxonomy Regulation (including for example, through Commission Delegated Regulation (EU) 2021/2139).

In addition, the European Green Bond Regulation entered into force on 20 December 2023 and is applicable from 21 December 2024. This regulation includes a set of requirements that securities shall comply with in order to be labelled as "European Green Bonds" or "EUGB", in particular the full allocation (before the maturity of any European Green Bond) of the proceeds of such bonds to economic activities aligned with the EU Taxonomy Regulation in accordance with the categories set forth in Article 4 of the European Green Bond Regulation. Additionally, the European Green Bond Regulation establishes specific transparency requirements, with which issuers shall comply with prior and post an issuance of bonds labelled as "European Green Bonds" or "EUGB". However, as of the date of this Base Prospectus further guidelines are to be developed by the European Commission in relation to the European Green Bond Regulation. Therefore, the requirements of any such label may evolve from time to time.

Any Green Bonds issued under this Base Prospectus will not be compliant with the European Green Bond Regulation and are only intended to comply with the requirements and processes in the Green, Social & Sustainability Funding Global Framework. It is not clear at this stage if the establishment of the "EUGB" label and the optional disclosures regime for bonds issued as "environmentally sustainable" will have an impact on investor demand for, and pricing of, green bonds that do not comply with the requirements of the European Green Bond Regulation, such as the Green Bonds issued under this Programme. This could result in reduced liquidity or lower demand or could otherwise affect the market price of any Green Bonds issued under this Programme that do not comply with the EU Green Bond Regulation.

Accordingly, no assurance is or can be given to investors that any project or use(s) the subject of, or related to, any project will meet any or all investor expectations regarding such "green", "social" or "sustainable" or other equivalently-labelled performance objectives or requirements of such labels as they may evolve from time to time or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Green Assets and Eligible Social Assets.

## INVESTMENT CONSIDERATIONS

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Guarantor and including any post-issuance reports) which may or may not be made available in connection with the issue of any Green Bonds, Social Bonds or Sustainable Bonds and in particular with any project, to fulfil any environmental, social and/or other criteria. Any such report, assessment, opinion or certification would provide an opinion on certain environmental and related considerations and is not intended to address any credit, market or other aspects of an investment in any Securities, including without limitation market price, marketability, investor preference or suitability of any security. Any such report, assessment, opinion or certification would only be a statement of opinion, not a statement of fact. As at the date of this Base Prospectus, the providers of such opinions, reviews, certifications and post-issuance reports are not subject to any specific regulatory or other regime or oversight. The EU Green Bond Regulation will introduce a supervisory regime of external reviewers of European Green Bonds but this is not due to take full effect until 21 June 2026.

In the event that any Green Bonds, Social Bonds or Sustainable Bonds are listed or admitted to trading on any dedicated "green", "environmental", "social" or "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or the Guarantor or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or the Guarantor or any other person that any such listing or admission to trading will be obtained in respect of any such Green Bonds, Social Bonds or Sustainable Bonds or, if obtained, that any such listing or admission to trading will be maintained during the life of the Securities.

While it is the intention of the Guarantor that the proceeds of any Green Bonds, Social Bonds or Sustainable Bonds so specified for the relevant project are applied, in, or substantially in, the manner described in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms, there can be no assurance that the relevant project or use(s) the subject of, or related to, any project, will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such project. Nor can there be any assurance that such project will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Guarantor. Any such event or failure by the Guarantor will not constitute an Event of Default under the relevant Securities, or give rise to any other claim of a holder of such Green Bond, Social Bond or Sustainable Bond, as the case may be.

The Green Bonds are not issued as "European Green Bonds" in accordance with European Green Bond Regulation and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds.

### *Additional considerations associated with Securities that pay a floating rate of interest referencing SOFR*

The New York Federal Reserve began to publish SOFR in April 2018. Although the New York Federal Reserve has published historical indicative SOFR information going back to 2014, such prepublication historical data inherently involves assumptions, estimates and approximations. Investors should not rely on any historical changes or trends in SOFR as an indicator of the future performance of SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in other benchmark or market rates. As a result, the return on and value of Securities that pay a floating rate of interest by reference to SOFR may fluctuate more than floating rate debt securities that are linked to less volatile rates.

The manner of adoption or application of reference rates based on SOFR in the bond market may differ materially compared with the application and adoption of SOFR in other markets, such as the derivatives and loan markets. Investors should carefully consider how any potential inconsistencies between the adoption of reference rates based on SOFR across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities that reference SOFR.

The New York Federal Reserve notes on its publication page for SOFR that use of SOFR is subject to important limitations, including that the New York Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the Securities. If the manner in which SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may result in a reduction or elimination of the amount of interest payable on such Securities that reference SOFR and a reduction in the trading prices of such Securities.

### Considerations Relating to Reference Item Linked Securities

#### *Considerations in relation to regulatory consequences for a holder of Reference Item Linked Securities*

There may be regulatory and other consequences associated with the ownership by certain investors of certain Reference Item Linked Securities. Each purchaser of Securities must conduct its own investigation into its regulatory position with respect to the potential purchase of Securities, and none of the Issuer, the Guarantor, the Dealer or the Arranger assumes any obligation or liability whatsoever to such purchaser in such regard.

#### *Considerations in relation to taxation of Reference Item Linked Securities*

Potential purchasers of Reference Item Linked Securities should be aware that stamp duty and other taxes and/or charges may be levied in accordance with the laws and practices in countries where the Reference Item Linked Securities are transferred and/or where any potential reference items are delivered, or elsewhere.

The considerations set out under this "*Considerations in relation to taxation of Reference Item Linked Securities*" section do not consider the tax treatment of payments in respect of Reference Item Linked Securities. Potential purchasers of Reference Item Linked Securities should note that the tax treatment of payments in respect of Reference Item Linked Securities may be different (and in some cases significantly different) from these considerations.

Potential purchasers of Reference Item Linked Securities who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax laws and regulations and their application and interpretation by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

### Considerations Relating to Equity Linked and Inflation Linked Securities

#### *Considerations relating to whether an investment in Equity Linked and Inflation Linked Securities is suitable for a particular investor*

Each potential investor should determine whether an investment in the Securities is appropriate in its particular circumstances. An investment in Equity Linked or Inflation Linked Securities requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Equity Linked or Inflation Linked Securities and be aware of the related risks.

An investment in Equity Linked or Inflation Linked Securities is only suitable for potential investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Equity Linked or Inflation Linked Securities and the information contained or incorporated by reference into this document;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on their overall investment portfolio;
- (c) understand thoroughly the terms of the Equity Linked or Inflation Linked Securities and are familiar with the behaviour of the relevant underlying security or index and financial markets;
- (d) are capable of bearing the economic risk of an investment in the Equity Linked or Inflation Linked Securities until the maturity date of the Equity Linked or Inflation Linked Securities;
- (e) recognise that it may not be possible to dispose of the Equity Linked or Inflation Linked Securities for a substantial period of time, if at all, before the maturity date; and
- (f) are able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect the investment in the Equity Linked or Inflation Linked Securities and the investor's risks.

Equity Linked or Inflation Linked Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate

## INVESTMENT CONSIDERATIONS

addition of risk to their overall portfolios. A potential investor should not invest in Equity Linked Securities or Inflation Linked Securities unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Equity Linked or Inflation Linked Securities will perform under changing conditions, the resulting effects on the value of the Equity Linked or Inflation Linked Securities and the impact this investment will have on the potential investor's overall investment portfolio.

Investors should refer to the Risk Factor entitled "*Risks Common to Equity Linked and Inflation Linked Securities*" for information on the risks relating to these types of investment.

### *Considerations relating to exchange rates and exchange controls*

Investors should consult their financial and legal advisers as to any specific risks entailed by an investment in Equity Linked or Inflation Linked Securities that are denominated or payable in, or the return on which is linked to values for a relevant underlying security or index denominated in a currency other than the currency of the country in which such investor resides or in which such investor conducts its business, which is referred to as their home currency. Such Equity Linked or Inflation Linked Securities are not appropriate investments for investors who are not sophisticated in foreign currency transactions.

Investors should refer to the Risk Factor entitled "*Exchange rates and exchange controls may affect the value or return of the Equity Linked or Inflation Linked Securities*" for information on the risks relating to such an investment.

### **Considerations Relating to EUA Contract Linked Securities**

#### *Additional investment considerations in respect of EUA Contract Linked Securities*

In respect of EUA Contract Linked Securities, Securityholders will receive an amount (if any) on redemption determined by reference to the value of the underlying EUA Contract and/or EUA Contract Linked Securities will pay interest calculated by reference to the value of the underlying EUA Contract.

A Market Disruption Event will occur if there is a disruption in respect of an EUA Contract as a result of (a) price source disruption, (b) ability to trade, (c) the disappearance of an EUA Contract Reference Price, (d) a limit price event, (e) a change in composition, methodology or taxation, (f) the ability to deliver or accept EU Allowances, the discontinuation of the scheme for transferring EU Allowances, a suspension by the relevant registries of operations relating to recording the issue, holding, transfer, acquisition, surrender, cancellation and/or replacement of EU Allowances, (g) issues in relation to the establishment and functioning of the relevant registries or transaction logs maintained in respect of EU allowance transactions or (h) the enactment of any EU or EU member state law or regulation which directly or indirectly imposes a restriction on the number of EUAs that the hedge provider is permitted to hold.

If a Market Disruption Event occurs:

- (a) the Issuer or, as the case may be, the Guarantor may take no action;
- (b) the Calculation Agent, acting on the instructions of the Issuer (or the Guarantor, as the case may be), may make any adjustment(s) to the terms of the EUA Contract Linked Securities as it considers appropriate; or
- (c) the Issuer or, as the case may be, the Guarantor may redeem the EUA Contract Linked Securities by payment of the Early Redemption Amount or the EUA Contract Early Redemption Amount, as applicable.

In addition, if the reference price of an EUA Contract is subsequently corrected, the corrected reference price will be used if corrected within 30 calendar days of the original publication, provided that, if the corrected level is published less than three EUA Contract Business Days prior to a due date for payment it will be disregarded.

If the Applicable Transaction Terms specifies that the EUA Contract Linked Securities are linked to the performance of a futures contract, the considerations described above will apply to such futures contract by reference to the underlying EUA Contract. If the Applicable Transaction Terms specify that the EUA Contract Linked Securities are "Rolling Futures Contract Securities", the reference price of the EUA Contract will be valued by reference to futures contracts with delivery months that do not match the Redemption Date of the EUA Contract Linked Securities. The Calculation Agent will select a new futures contract on each Futures Rollover Date

## INVESTMENT CONSIDERATIONS

specified in the Applicable Transaction Terms. If it is impossible or materially impracticable to select a new futures contract and/or hedge the Issuer's obligations in respect of the EUA Contract Linked Securities, the consequences of a Market Disruption Event described above will apply.

### *Additional investment considerations in respect of EU Allowances*

The market for carbon emission allowances or credits has emerged as a consequence of the Kyoto Protocol and covers both industrial and developing countries. Industrial countries are allocated emissions allowances under the Kyoto Protocol. The EU introduced its own emission trading scheme in 2005 pursuant to Directive 2003/87/EC, as amended from time to time, which extends beyond the 2012 termination of the Kyoto Protocol.

One EU Allowance corresponds to the emission by the Securityholder of one tonne of carbon dioxide (CO<sub>2</sub>) equivalent during a specified period which is valid for meeting certain emissions related obligations. The EU's member states issue new EU Allowances annually to each company subject to the EU's emission trading scheme. These awards are made in accordance with an allocation plan approved by the European Commission which is based on the EU's application of the Kyoto Protocol's obligations to the industries covered by the EU's emission trading scheme. By 30 April in each year, companies are obliged to "surrender" a number of EU Allowances corresponding to their actual emissions in the preceding year. EU Allowances can also be rolled over from one year to the next if a company emits less carbon dioxide or carbon-equivalent greenhouse gas than the EU allowances it holds. EU Allowances have a limited or no value outside the EU's emissions trading scheme.

### **Considerations relating to Custom Index Linked Securities**

#### *Additional investment considerations in respect of Custom Index Linked Securities*

The level of a Custom Index is published net of hedging and transaction costs, and net of any calculation fee, each of which is deducted on the basis provided for in the relevant Custom Index rules, which may be on a daily basis. Such costs or fees will act as a drag on the performance of Custom Indices, and will generally adversely affect the value of any Securities linked to them.

Additionally, investors should note that the notional costs or fees reflected in the calculation of a Custom Index may not necessarily reflect the actual or realised costs that would be incurred by a direct investor in the relevant Custom Index components, which could be larger or smaller from time to time. This is because such costs or fees are normally calculated by referring to pre-determined rates which may exceed actual costs of investing in the components. The Index Administrator (or its affiliates) may benefit if the notional fees or costs embedded in the Custom Index exceed the actual costs that may be incurred by the Index Administrator (or its affiliates) in hedging transactions that may be entered into in respect of the Custom Index.

Custom Indices which employ a risk control mechanism are often rebalanced frequently and, in some cases, as often as daily, to adjust the exposure of a Custom Index to the relevant components. Costs associated with rebalancing will reduce the levels of a Custom Index and may in turn reduce the return on Securities linked to such Custom Indices. Investors should be aware that rebalancing costs may have an adverse effect on the performance of a Custom Index and may reduce returns achieved by an investor with a Custom Index Linked Security.

#### *Use of derivative instruments or techniques may be a significant risk in a Custom Index*

Custom Indices may use derivative techniques or contain components which are derivative instruments, such as options or futures contracts. This can mean that the Custom Index is exposed to components or asset classes in an unexpected way with different results as compared to a Custom Index that offers a direct exposure to components or an asset class.

It is also possible that a Custom Index uses derivative techniques or contains components which offer exposure to asset classes in other non-linear ways. For example, the use of options may mean that the Custom Index only increases in value if certain conditions are met such as the price or level of a particular reference asset rising or falling in a particular way. If such conditions are not met then the Custom Index level may perform in a negative way due to such derivative techniques or components.

#### *Hedging activity may affect the level of a Custom Index*

By issuing Custom Index Linked Securities, the Issuer, the Guarantor and/or any other entity within the Group will have an exposure to the relevant Custom Index(ices) and its/their related components. The Issuer, the

## INVESTMENT CONSIDERATIONS

Guarantor and/or any other entity within the Group may take risk positions to hedge this exposure in its sole discretion and in a principal capacity. Investors in any Custom Index Linked Security will not have any rights in respect of any of the Issuer's, the Guarantor's and/or any other entity's hedge positions, including any shares, futures, options, or other derivatives. The Issuer, the Guarantor and/or any other entity within the Group may execute its hedging activity by trading in the components of a Custom Index on or before any rebalancing day in respect of the Custom Index. Such trading may have an adverse impact on the level at which such components are rebalanced which may adversely impact on the performance of the Custom Index. The Issuer's, the Guarantor's and/or any other Group entity's hedging activity, and hence the size of such impact, will be linked to the amount of new and outstanding Custom Index Linked Securities at the relevant time and then-prevailing market conditions and may affect the market price of or liquidity in the relevant market of a Custom Index.

### *Custom Indices may rely on external data and data sources*

Custom Indices may rely on data from external data providers and data sources which have been selected and pre-defined by the Index Administrator. The Index Administrator may change the data providers and the data sources from time to time in accordance with its internal governance procedures provided that any new data provider or data source meets its requirements. There is a risk that this data may be inaccurate, inaccessible, delayed or not up to date. In addition, the Index Administrator or the Index Calculation Agent, as the case may be, make no warranty as to the correctness or completeness of that information and take no responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the value of a relevant Custom Index, and are not under any obligation to independently verify such data (or to advise any investor in Securities linked to a Custom Index of any inaccuracy, omission, mistake or error of which it becomes aware). There is also a risk that while the data is accurate, the data feed to the Index Administrator is impaired. Such impairment to either the data or the data feed could affect the performance or continued operability of a Custom Index. There is also a risk to the continuity of Custom Indices in the event that the Index Administrator ceases to exist. If certain external data is not available, the Index Administrator or Index Calculation Agent may determine the necessary data in order to maintain the continuity of the Custom Index but this may not always be possible and the Custom Index may instead be terminated.

### *Custom Indices may rely on the Index Administrators' infrastructure and electronic systems*

Custom Indices may rely on the Index Administrators' and/or Index Calculation Agent's infrastructure and electronic systems (including internal data feeds). Any breakdown or impairment to such infrastructure or electronic systems could affect the continued operability of a Custom Index.

## **Legal and Regulatory Considerations**

### *Risks in Relation to Spanish Taxation*

Royal Decree Law 8/2014, of 4 July, introduced a 0.03 per cent. tax on bank deposits in Spain. This tax is payable annually by Spanish banks. There can be no assurance that additional national or transnational bank levies or financial transaction taxes will not be adopted by the authorities of the jurisdictions where the Bank operates.

### *Risks related to the Spanish withholding tax regime*

Under Spanish Law 10/2014 and Royal Decree 1065/2007, as amended, income payments in respect of the Securities, other than income payments in respect of Book-Entry Securities to Personal Income Tax taxpayers, will be made without withholding tax in Spain. The Issuer is required pursuant to Spanish law to provide certain information regarding the Securities to the Spanish tax authorities. The Issuer, Guarantor and the Principal Paying Agent or the Iberclear Paying Agent, as applicable, have arranged certain procedures to facilitate the collection of information concerning the Securities. The Issuer or the Guarantor (as the case may be) will withhold Spanish withholding tax from any payment in respect of any income due under the above-mentioned Securities (as applicable) as to which the required information has not been provided and will not gross up payments in respect of any such withholding tax. In addition, the Issuer or the Guarantor (as the case may be) will withhold Spanish withholding tax from any payment in respect of Book-Entry Securities to Personal Income Tax taxpayers.

The Agency Agreement provides that the Principal Paying Agent or the Iberclear Paying Agent, as applicable, will, to the extent applicable, comply with the relevant procedures to facilitate the collection of information concerning the Securities. The procedures may be modified, amended or supplemented, to, among other reasons, reflect a change in applicable Spanish law, regulation, ruling or interpretation thereof or to reflect a change in applicable clearing system rules or procedures or to add procedures for one or more new clearing systems. See "*Taxation and Disclosure of Information in connection with Payments –Taxation in Spain*". None of the Issuer,

## INVESTMENT CONSIDERATIONS

the Guarantor, the Dealers, the Principal Paying Agent or the Iberclear Paying Agent assume any responsibility therefore.

Notwithstanding the above, and if despite this selling restriction, the Securities are held by Spanish resident individuals and deposited with a Spanish resident entity acting as depositary or custodian, payments in respect of such Securities (and, under certain circumstances, to Spanish entities subject to Corporate Income Tax) may be subject to withholding by such depositary or custodian at the current rate of 19 per cent. The Issuer or the Guarantor (as case may be) will not gross up payments in respect of any such withholding tax.

In addition, in the case of Implicit Yield Securities including those with a duration of more than 12 months, in order for the Issuer to reimburse them, the holders are required to provide the Issuer with the legally required securities issued by a Spanish financial institution or established in Spain which accredits the prior acquisition of such Implicit Yield Securities and the corresponding acquisition price. In accordance with the legislation currently in force, in the case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof. The Issuer or the Guarantor (as case may be) will not gross up payments in respect of any withholding tax arising from said Implicit Yield Securities.

### **Additional information on the BRRD and SRM Regulation**

#### *Capital requirements, liquidity, funding and structural reform*

The Guarantor, as a Spanish financial institution, is subject to the Capital Requirements Regulation (Regulation (EU) No 575/2013) (the "**CRR**") and the Capital Requirements Directive (Directive 2013/36/EU) ("**CRD IV**"). through which the EU began implementing the Basel III capital reforms from 1 January 2014. While the CRD IV required national transposition, the CRR was directly applicable in all the EU member states. This regulation is complemented by several binding technical standards and guidelines issued by the European Banking Authority ("**EBA**"), directly applicable in all EU member states, without the need for national implementation measures. The implementation of the CRD IV into Spanish law has taken place through Royal Decree Law 14/2013 and Law 10/2014, Royal Decree 84/2015, Bank of Spain Circular 2/2014 and Bank of Spain Circular 2/2016.

On 27 October 2021, the European Commission published legislative proposals to amend the CRR and the CRD IV, as well as a separate legislative proposal to amend the CRR and the BRRD in the area of resolution. In particular, the main objectives of the European Commission's legislative proposals were to finalise the implementation of Basel III by strengthening the risk-based capital framework enhancing the focus on ESG risks in the prudential framework, further harmonising supervisory powers and tools and reducing institutions' administrative costs related to public disclosures and to improve access to institutions' prudential data. These legislative proposals included: (i) a Directive of the European Parliament and of the Council amending the CRD IV with respect to supervisory powers, sanctions, third-country branches, and environmental, social and governance risks and amending the BRRD; (ii) a Regulation of the European Parliament and of the Council and its annex amending the CRR with respect to requirements for credit risk, credit valuation adjustment risk, operational risk, market risk and the output floor; and (iii) a regulation of the European Parliament and of the Council amending the CRR and the BRRD with respect to the prudential treatment of G-SIIs with a multiple point of entry resolution strategy and a methodology for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities (the "**CRR III Banking Package**" or the so-called "daisy chain" proposal).

The European Parliament and the Council adopted on 19 October 2022 Regulation (EU) 2022/2036 amending CRR and BRRD. On 24 April 2024, the European Parliament voted to approve the amendments to the CRR and the CRD IV proposed within the CRR III Banking Package. On 19 June 2024, Regulation (EU) 2024/1623 of the European Parliament and of the Council of 31 May 2024 amending the CRR as regards requirements for credit risk, credit valuation adjustment risk, operational risk, market risk and the output floor (the "**CRR III**") and Directive (EU) 2024/1619 of the European Parliament and of the Council of 31 May 2024 amending Directive 2013/36/EU as regards supervisory powers, sanctions, third-country branches, and environmental, social and governance risks (the "**CRD VI**") were published in the Official Journal of the EU. The CRR III has become generally applicable since 1 January 2025 (with some exceptions) and Spain has not transposed the CRD VI Directive yet.

In order to complete the EU banking union, a single deposit guarantee scheme is still needed, which may require a change to the existing European treaties. This is the subject of continued negotiation by European leaders to ensure further progress is made in European fiscal, economic and political integration. Thus, due to the fact that the integration of deposit guarantee schemes into a single scheme for countries participating in the EU Banking

Union is perceived as a "third pillar" of such EU banking union (the other two "pillars" being the single supervisory mechanism (the "**SSM**") and the single resolution mechanism (the "**SRM**"), both already in force), on 26 January 2021, the European Commission launched a targeted public consultation on technical aspects on a new review of the BRRD, Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Banking Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/78/EC (the "**SRM Regulation**"), and Directive 2014/49/EU of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes (the "**DGSD**"). The consultation was open until 20 April 2021 and was split into two main sections: a section covering the general objectives of the review focus, and a section seeking technical feedback on stakeholders experience with the current framework and the need for changes in the future framework, notably on (i) resolution, liquidation and other available measures to handle banking crises, (ii) level of harmonization of creditor hierarchy in the EU and impact on no creditor worse-off principle, and (iii) depositor insurance.

Although no agreement was reached on potential changes during the public consultation, on 18 April 2023, the European Commission published a package of legislative proposals to reform the current framework for bank crisis management and deposit insurance (the "**CMDI Reform**"). The CMDI Reform involves the revision of BRRD, the SRM Regulation and Directive 2014/49/EU on deposit guarantee schemes. On 25 June 2025, the Council and the European Parliament reached a political agreement on the CMDI Reform. The agreement on the CMDI Reform, aims to (i) expand the access to industry safety nets, by which banks with insufficient MREL at the time of resolution can, as a last resort, rely on DGS or resolution funds (or SRF in the banking union) to finance their resolution without bailing in their depositors; (ii) clarify how the existing public interest assessment (PIA) should be conducted by resolution authorities to initiate a resolution procedure (in particular, when assessing disruption to the real economy, the resolution authority should focus on both the national and regional levels); (iii) harmonise the approach to carry out the so-called "least cost test" to determine whether a bank should be able to use the resources of the DGS instead of using other measures such as liquidation through an insolvency procedure; and (iv) introduce a new tier of preferred deposits, with the result that (subject to certain exceptions) all deposits that currently are not privileged claims under Article 108.1 of BRRD (including certain deposits of large corporates and deposits by other banks) would rank above unsecured creditors but below covered deposits and other preferred deposits under current Article 108.1 BRRD. If the CMDI Reform is transposed into Spanish insolvency legislation in its current form, deposits would be granted a three-tier preference in the following order: (a) covered deposits and claims of deposit guarantee schemes, which would rank highest in the depositor preference hierarchy, (b) that part of eligible deposits from natural persons, micro, small and medium-sized enterprises and from public authorities which exceeds the coverage level, which would rank above deposits referred to in limb (c), and (c) subject to certain exceptions, other deposits not covered in limbs (a) and (b), which would rank lowest in the depositor preference hierarchy and above claims of unsecured creditors. As of the date of this Base Prospectus, the CMDI Reform was adopted by the European Council on 5 March 2026 and by the EU Parliament on 26 March 2026 and entered into force in May 2026. The directives forming part of the CMDI Reform will require transposition into the national laws of each Member State of the European Union.

### *Capital Requirements*

Basel III, as implemented through the Capital Requirements Regulations, seeks to consistently define capital and set minimum capital requirements for credit institutions. Credit institutions, such as the Bank, are required, on a standalone and consolidated basis, to hold a minimum amount of regulatory capital of 8 per cent. of risk weighted assets (of which at least 4.5 *per cent.* must be Common Equity Tier 1 ("**CET1**") capital and at least 6 per cent. must be Tier 1 capital (the "**Minimum Pillar 1 Capital Requirements**").

In addition to the Minimum Pillar 1 Capital Requirements, the CRD IV also introduced five capital buffer requirements that must be met with CET1 capital: (1) the capital conservation buffer for unexpected losses, requiring additional CET1 of up to 2.5 per cent. of total risk weighted assets; (2) the institution-specific counter-cyclical capital buffer (consisting of the weighted average of the counter-cyclical capital buffer rates that apply in the jurisdictions where the relevant credit exposures are located), which may require as much as additional CET1 capital of 2.5 per cent. of total risk weighted assets or higher pursuant to the requirements set by the competent authority; (3) the G-SIIs buffer requiring additional CET1 which shall be not less than 1 per cent. of risk weighted assets; (4) the other systemically important institutions ("**O-SII**") buffer, which may be as much as 2 per cent. of

## INVESTMENT CONSIDERATIONS

risk weighted assets; and (5) the CET1 systemic risk buffer to prevent systemic or macroprudential risks of at least 1 per cent. of risk weighted assets (to be set by the competent authority). Entities are required to comply with the 'combined buffer requirement' (broadly, the combination of the capital conservation buffer, the institution-specific counter-cyclical buffer and the higher of (depending on the institution) the systemic risk buffer, the G-SIIs buffer and the O-SII buffer, in each case as applicable to the institution). Under the CRD V, where an institution is subject to a systemic risk buffer, that buffer will be cumulative with the applicable G-SIIs buffer or the other systemically important institution buffer.

While the capital conservation buffer and the G-SII buffer are mandatory, the Bank of Spain has greater discretion in relation to the counter-cyclical capital buffer, the O-SII buffer and the systemic risks buffer. The ECB also has the ability to provide certain recommendations in this respect.

As of the date of this Base Prospectus, the Bank is required to maintain a capital conservation buffer of additional CET1 capital of 2.5 per cent. of risk weighted assets, a G-SII buffer of additional CET1 capital of 1.25 per cent. of risk weighted assets and a counter-cyclical capital buffer of additional CET1 capital of 0.5554 per cent. of risk weighted assets.

Moreover, article 104 of the CRD IV, as implemented by Article 68 of Law 10/2014, and similarly Article 16 of Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the "**SSM Regulation**"), also contemplate that in addition to the minimum Pillar 1 capital requirements and any applicable capital buffer, supervisory authorities may impose further Pillar 2 capital requirements to cover other risks, including those risks incurred by the individual institutions due to their activities not considered to be fully captured by the minimum capital requirements under the CRD IV and CRR, which should be set according to the specific situation of an institution excluding macroprudential or systemic risks, but including the risks incurred by individual institutions due to their activities (including those reflecting the impact of certain economic and market developments on the risk profile of an individual institution). This may result in the imposition of additional binding capital requirements on the Bank and/or the Group pursuant to this Pillar 2 framework. Any failure by the Group to maintain its Pillar 1 minimum regulatory capital ratios and any Pillar 2 additional capital requirements or TLAC/MREL Requirements (as defined below) could result in administrative actions or sanctions (including restrictions on discretionary payments), which, in turn, may have a material adverse impact on its results of operations.

In accordance with Articles 104a and b of the CRD V, as implemented in Spain by Article 69 and 69bis of Law 10/2014, that the institutions specific Pillar 2 capital shall consist of two parts: the abovementioned Pillar 2 requirements and Pillar 2 guidance. Pillar 2 guidance is not directly binding and a failure to meet Pillar 2 guidance does not automatically trigger legal action, even though the ECB expects banks to meet Pillar 2 guidance. Failure to comply with the Pillar 2 guidance is not relevant for the purposes of triggering the automatic restriction of the distribution and calculation of the 'Maximum Distributable Amount' (as defined below) but, in addition to certain other measures, competent authorities are entitled to impose further Pillar 2 capital requirements where an institution repeatedly fails to follow the Pillar 2 capital guidance previously imposed.

The ECB is required to carry out assessments under the CRD IV of the additional Pillar 2 capital requirements at least on an annual basis that may be imposed for each of the European banking institutions subject to SSM and accordingly requirements may change from year to year. Any additional capital requirement that may be imposed on the Group by the ECB pursuant to these assessments may require the Group to hold capital levels similar to, or higher than, those required under the full application of the CRD IV. There can be no assurance that the Group will be able to continue to maintain such capital ratios.

In addition to the above, the EBA published on 19 December 2014 its final guidelines for common procedures and methodologies in respect of its supervisory review and evaluation process ("**SREP**"), as revised on 18 March 2022 with the aim of implementing the amendments to the CRD V Directive and CRR II and promoting convergence towards best supervisory practices (the "**EBA SREP Guidelines**"). Included in this were the EBA's proposed guidelines for a common approach to determining the amount and composition of additional Pillar 2 capital requirements implemented on 1 January 2016. Under these guidelines, national supervisors must set a composition requirement for the Pillar 2 additional capital requirements to cover certain specified risks of at least 56 per cent. CET1 capital and at least 75 per cent. Tier 1 capital. Under Article 104(a) of CRD V (implemented into Spanish law by Article 94.6 of Royal Decree 84/2015), EU banks are now allowed to meet Pillar 2 requirements with these minimum proportions of CET1 capital and tier 1 capital.

The EBA SREP Guidelines also contemplate that national supervisors should not set additional capital requirements in respect of risks which are already covered by capital buffer requirements and/or additional

## INVESTMENT CONSIDERATIONS

macroprudential requirements; and, accordingly, the above 'combined buffer requirement' is in addition to the Pillar 1 and Pillar 2 capital requirements. Therefore capital buffers would be the first layer of capital to be eroded pursuant to the applicable stacking order, as set out in the 'Opinion of the EBA on the interaction of Pillar 1, Pillar 2 and combined buffer requirements and restrictions on distributions' published on 16 December 2015. In this regard, under Article 141 of the CRD IV, Member States of the EU must require that an institution that fails to meet the 'combined buffer requirement', be prohibited from paying any 'Discretionary Payments' (which are defined broadly by the CRD IV as payments relating to CET1, variable remuneration and discretionary pension benefits and distributions relating to Additional Tier 1 Instruments (as defined in the Terms and Conditions of the Securities)), until it calculates its applicable restrictions and communicates them to the regulator. Thereafter, any such Discretionary Payments shall be subject to such restrictions. The restrictions shall be scaled according to the extent of the breach of the 'combined buffer requirement' and calculated as a percentage of the profits of the institution since the last distribution of profits or 'Discretionary Payment'. Such calculation shall result in a Maximum Distributable Amount in each relevant period. As an example, the scaling is such that in the bottom quartile of the 'combined buffer requirement', no 'discretionary distributions' will be permitted to be paid. Articles 43 to 49 of Law 10/2014 and Chapter II of Title II of Royal Decree 84/2015 implement the above provisions in Spain. In particular, Article 48 of Law 10/2014 and Articles 73 and 74 of Royal Decree 84/2014 deal with restrictions on distributions. Furthermore, pursuant to article 16bis of Law 11/2015 and article 48ter of Law 10/2014, the calculation of the Maximum Distributable Amount, as well as consequences of, and pending, such calculation could also take place as a result of the breach of MREL and a breach of the leverage ratio buffer requirement.

Note that, as indicated above, the "combined buffer requirement" is in addition to the Minimum Pillar 1 Capital Requirements and to the Pillar 2 guidance. Pillar 2 requirement should be positioned in the relevant stacking order of own funds requirements above the applicable Minimum Pillar 1 Capital Requirements and below the combined buffer requirement. Considering that the Pillar 2 guidance constitutes a non-binding capital target positioned above the applicable Minimum Pillar 1 Capital Requirements, the Pillar 2 requirement and the combined buffer requirement, the combined buffer requirement would be the first layer of capital to be eroded after the Pillar 2 guidance pursuant to the applicable stacking order.

The Guarantor announced on 30 October 2025 that it had received from the ECB its decision regarding the prudential minimum capital requirements effective as of 1 January 2026, following the results of SREP. The ECB's decision maintains an unchanged Pillar 2 requirement of 1.74 per cent. at a consolidated level of which at least 0.98 per cent. must be covered with CET1. Accordingly, the minimum CET1 and capital requirements as of 1 January 2026 are 9.85 per cent. and 14.11 per cent. on a consolidated basis, respectively. As of 31 December 2025, on a consolidated basis, the Group's total capital ratio phased-in was 17.8 per cent. while its CET1 ratio phased-in was 13.5 per cent.

Although CRR and CRD V do not require disclosure of the Pillar 2 guidance, the Market Abuse Regulation (MAR) ESMA Guidelines on delay in the disclosure of inside information and interaction with prudential supervision, as amended on 5 January 2022, provide that Pillar 2 guidance may be inside information if, for example, the difference between the Pillar 2 guidance and the institution's level of capital is not minor and is likely to involve a major reaction by the institution, such as a capital increase; or if the institution's Pillar 2 guidance is not in line with market expectations. To the extent that Pillar 2 guidance constitutes inside information, it will need to be disclosed pursuant to the obligations applicable to the Bank contained in Regulation (EU) No 596/2014 of April 16, 2014, on market abuse.

In addition to the above, the CRR also contains a binding 3 per cent. Tier 1 leverage ratio ("**LR**") requirement, and which institutions must meet in addition and separately to their risk-based requirements.

Moreover, Article 92.1a of CRR includes a leverage ratio buffer for G-SIIs to be met with Tier 1 Capital and set at 50 per cent. of the applicable risk weighted G-SIIs buffer and that is in force since 1 January 2023. Pursuant to Article 141b of the CRD IV and Article 48ter of Law 10/2014, G-SIIs are also obliged to determine their Maximum Distributable Amount and restrict Discretionary Payments where they do not meet the leverage ratio buffer requirement under Article 92.1a of CRR.

### *MREL Requirements*

Under Article 92a of CRR, institutions such as the Bank that are identified as resolution entities and are G-SII shall satisfy the following requirements for own funds and eligible liabilities: (a) 18 per cent of risk weighted assets, and (b) 6.75 per cent. of its leverage ratio exposure (the Pillar 1 TLAC/MREL Requirements for G-SIIs). On top of that, Article 45 of the BRRD provides that Member States shall ensure that institutions meet, at all

times, a minimum MREL requirement (the "**TLAC/MREL Requirements**"). Therefore, institutions such as the Bank could be subject to an institution-specific TLAC/MREL requirement, which may be higher than the Pillar 1 TLAC/MREL Requirements for G-SIIs.

According to the new Article 16.a) of the BRRD, any failure by an institution to meet the 'combined buffer requirement' when considered in addition to the applicable minimum TLAC/MREL Requirements is intended to be treated in a similar manner as a failure to meet the 'combined buffer requirement' on top of its minimum regulatory capital requirements (i.e. a resolution authority will have the power to impose restrictions or prohibitions on Discretionary Payments by the Bank). The referred Article 16.a) of the BRRD includes a potential nine month grace period, whereby the resolution authority will assess on a monthly basis whether to exercise its powers, after such nine-month period the resolution authority is compelled to exercise its power to restrict Discretionary Payments (subject to certain limited exceptions). These restrictions have been implemented in Spain by means of Article 16bis of Law 11/2015.

On 7 May 2025, the Bank announced that it had received a formal notification from the Bank of Spain with its binding minimum MREL requirement, both total and subordinated, for the Resolution Group at a sub-consolidated level, as determined by the SRB. The total MREL requirement that is currently in effect is 31.92 per cent of the resolution group's total risk weighted assets. The subordination requirement that is in effect is 10.95 per cent. Future requirements are subject to ongoing review by the resolution authority.

Additionally, the Basel Committee is currently in the process of reviewing and issuing recommendations in relation to risk asset weightings which may lead to increased regulatory scrutiny of risk asset weightings in the jurisdictions that are members of the Basel Committee.

### *Liquidity Requirements*

In addition to the above, the Group shall also comply with the liquidity coverage ratio ("**LCR**") and the net stable funding ratio ("**NSFR**") requirements provided in CRR. As of 31 December 2025, the Group's consolidated LCR was 145 per cent., above the 100 per cent. minimum requirement. In relation to the NSFR, the institutions shall maintain from 28 June 2021 an NSFR (calculated in accordance with Title IV of the CRR) of at least 100 per cent.. As of 31 December 2025, the Group's consolidated NSFR was 126 per cent., which is above the minimum requirement of 100 per cent.

In this regard, there can be no assurance that the application of the existing regulatory requirements, standards or recommendations will not require the Group to issue additional securities that qualify as own funds or eligible liabilities, to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on the Group's business, results of operations and/or financial position.

### *EU fiscal and banking union*

The project of achieving a European banking union was launched in the summer of 2012. Its main goal is to resume progress towards the European single market for financial services by restoring confidence in the European banking sector and ensuring the proper functioning of monetary policy in the eurozone.

The banking union is expected to be achieved through new harmonized banking rules (the "**single rulebook**") and a new institutional framework with stronger systems for both banking supervision and resolution that will be managed at the European level. Its two main pillars are the SSM and the "SRM".

The SSM (comprised by both the ECB and the national competent authorities) is designed to assist in making the banking sector more transparent, unified and safer. In accordance with the SSM Regulation, the ECB fully assumed its new supervisory responsibilities within the SSM, in particular direct supervision of the largest European banks (including us), on 4 November 2014.

The SSM represented a significant change in the approach to bank supervision at a European and global level, and resulted in the direct supervision by the ECB of the largest financial institutions, including us, and indirect supervision of around 3,500 financial institutions and is now one of the largest in the world in terms of assets under supervision. In the coming years, the SSM is expected to continue working on the establishment of a new supervisory culture importing best practices from the 19 national competent authorities that are part of the SSM and promoting a level playing field across participating Member States. Several steps have already been taken in this regard such as the publication of the Supervisory Guidelines; the approval of the Regulation (EU) No 468/2014 of the ECB of 16 April 2014, establishing the framework for cooperation within the SSM between the

## INVESTMENT CONSIDERATIONS

ECB and national competent authorities and with national designated authorities (the "**SSM Framework Regulation**"); the approval of a Regulation (Regulation (EU) 2016/445 of the European Central Bank of 14 March 2016 on the exercise of options and discretions available in Union law) as well as a set of guidelines on the application of CRR's national options and discretions, etc. In addition, the SSM represents an extra cost for the financial institutions that have to fund it through the payment of supervisory fees.

The other main pillar of the EU banking union is the SRM, the main purpose of which is to ensure a prompt and coherent resolution of failing banks in the EU at minimum cost for the taxpayers and the real economy. The SRM Regulation (as defined below) establishes uniform rules and procedure for the resolution of credit institutions and certain investment firms in the framework of the SRM and establishes a Single Resolution Fund ("**SRF**"). Under the intergovernmental agreement ("**IGA**") signed by 26 EU member states on 21 May 2014, contributions by banks raised at national level were transferred to the SRF. The new SRB, which is the central decision-making body of the SRM, started operating on 1 January 2015 and assumed its full resolution powers on 1 January 2016. The SRB is responsible for managing the SRF and its mission is to ensure that credit institutions and other entities under its oversight, which face serious difficulties, are resolved effectively with minimal costs to taxpayers and the real economy. From that date onwards, the SRF is also in place and is funded by contributions from the EU banks in accordance with the methodology approved by the Council of the EU.

The funding obligations of the SRF entered into force on 1 January 2016, and after eight years from that date, the available financial means of the SRF were set to be, in principle, of at least 1 per cent. of the amount of covered deposits of all participating banks. The SRB communicated on 15 February 2024 that no regular annual contributions were to be collected in 2024 from the institutions falling in scope of the SRF, as the target level of at least 1.00 per cent. of covered deposits held in the EU Member States participating in the SRM had been met (in line with Directive 2014/59/EU, of May 15, establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD I**"), as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of May 20, 2019 (the "**BRRD II**" and together with BRRD I, the "**BRRD**")).

In order to complete such banking union, a single deposit guarantee scheme is still needed, which may require a change to the existing European treaties. This is the subject of continued negotiation by European leaders to ensure further progress is made in European fiscal, economic and political integration.

Regulations adopted towards achieving a banking and/or fiscal union in the EU and decisions adopted by the ECB in its capacity as the main supervisory authority of the Group may have a material impact on its business, financial condition and results of operations.

Moreover, regulations adopted on structural measures to improve the resilience of EU credit institutions may have a material impact on the business, financial condition, results of operations and prospects of the Group. These regulations, if adopted, may also cause the Group to invest significant management attention and resources to make any necessary changes.

### *Deposit Guarantee Fund ("DGF") and SRF*

The Group belongs to the DGF, which is aimed at guaranteeing the return of guaranteed deposits when the depository institution has been declared bankrupt (*concurso de acreedores*) or when deposits are not returned, provided an agreement has not been reached to commence a resolution process of the institution up to the limit contemplated in Royal Decree-Law 16/2011, of 14 October 2011, creating the DGF for credit institutions. The standard annual contribution to be made by institutions to the fund is determined by the DGF Management Committee, pursuant to the provisions of Bank of Spain Circular 5/2016 of 27 May on the calculation method to ensure that the contributions by member institutions of the DGF are proportional to their risk profile, as amended by Circular 1/2018 of 31 January 2018.

In addition, in March 2014, the European Parliament and the Council reached a political agreement on the creation of the second pillar of the banking union, the SRM. The main objective of the SRM is to ensure that all possible bankruptcies that occur in the future in the banking union are managed efficiently, at a minimum cost to taxpayers and the actual economy. The SRM's scope of activity is identical to that of the SSM, being a central authority.

The regulations governing the banking union are aimed at ensuring that the banks and their shareholders (primarily) and, if required, the bank's creditors (partly), are those that finance resolutions. Nevertheless, another source of finance must also be available if the contributions by shareholders and bank creditors are insufficient. This is the SRF, administered by the SRB, which is the ultimate entity responsible for deciding whether or not the

## INVESTMENT CONSIDERATIONS

resolution of the bank should be initiated, while the operating decisions are made in conjunction with the national resolution authorities. The regulations establish that banks must contribute to the SRF for eight years.

The SRB calculates the contributions to be made by each entity to the SRF, in accordance with the provisions of Regulation (EU) 806/2014 of the European Parliament and of the Council of 15 July 2014. The calculation is based on:

- (a) contributions that are calculated in proportion to the individual entity's liabilities, excluding net worth and guaranteed deposits, with respect to the total liabilities minus net worth and guaranteed deposits of all the authorised entities in the participating Member States («annual base contribution»); and
- (b) contributions that are calculated according the entity's risk profile («risk-adjusted contribution»).

As of 31 December 2025, the Bank and its domestic bank subsidiaries were members of the DGF. The contributions made by the Bank to the DGF amounted to €14 million in 2025. Contributions made by the Group to the different local deposit guarantee funds amounted to €478 million in 2025.

### *Non-performing exposures*

On 15 March 2018, the ECB published its supervisory expectations on prudent levels of provision for nonperforming loans ("NPLs"). The document was published as a subsequent addendum (the "**Addendum**") to the ECB's guidance on non-performing loans for credit institutions of 20 March 2017, which clarified the ECB's supervisory expectations with regard to the identification, measurement, management and write-off of NPLs. The ECB states that the Addendum sets out what it considers to be prudential provisioning of non-performing exposures ("NPEs"), in order to avoid an excessive build-up of non-covered aged NPLs on banks' balance sheets in the future, which would require specific supervisory measures.

In this respect, the ECB states that it will assess any differences between banks' practices and the prudential provisioning expectations laid out in the Addendum at least annually and will link the supervisory expectations in this Addendum to new NPLs classified as such from 1 April 2018 onwards. In addition, banks will therefore be asked to inform the ECB of any differences between their practices and the prudential provisioning expectations, as part of the SREP supervisory dialogue, as from early 2021. This could ultimately result in the ECB requiring banks to apply specific adjustments to their net worth calculations when the accounting treatment applied by the bank is not considered prudent from a supervisory perspective which, in turn, could have an impact on the banks' capital position.

In August 2019, the ECB further revised its supervisory expectations for prudential provisioning of new NPEs taking into account the adoption of the new Regulation (EU) 2019/630, which outlines the Pillar 1 treatment for NPEs, complements existing prudential rules and requires a deduction from own funds when NPEs are not sufficiently covered by provisions or other adjustments.

Notwithstanding the foregoing, on 20 March 2020 among the package of measures adopted in reaction to the covid-19 pandemic outbreak, the ECB announced further measures introducing supervisory flexibility regarding the treatment of NPLs, in particular to allow banks to fully benefit from guarantees and moratoriums put in place by public authorities to tackle the current distress. In light of that scenario, the EBA has also issued statements regarding the prudential framework in relation to the classification of loans in default, classification of exposures under the definition of forbearance or as defaulted under distressed restructuring, and their accounting treatment. In particular, the EBA has clarified that generalised payment delays due to legislative initiatives and addressed to all borrowers do not lead to any automatic classification in default, forbearance or unlikelihood to pay (individual assessments of the likelihood to pay should be prioritised) and has clarified the requirements for public and private moratoria, which if fulfilled, are expected to help avoid the classification of exposures under the definition of forbearance or as defaulted under distressed restructuring.

### **Digital Service Tax in Spain**

On 15 October 2020, Spain enacted the Law 4/2020 that introduced a new tax on certain digital services. This law entered into force on 16 January 2021. The Digital Services Tax ("**DST**") is an indirect tax applicable to the provision of certain digital services when users are located in Spain (online advertising services targeted at users, online intermediary services and data transmissions) at a rate of 3 per cent. over gross income. Companies will be subject to the tax if (i) net turnover is over €750 million (globally), and (ii) total revenues from taxable digital services in Spain are over €3 million. The Preamble of the Law states the provisional nature of the DST until an international consensus on the taxation of digital business models is reached.

### **Tax on Interest Margin and Commissions of certain financial entities**

On 21 December 2024, Spain enacted Law 7/2024 creating a new Tax on Interest Margin and Commissions of certain financial entities, applicable for three fiscal years beginning 1 January 2024 and which targets the positive margin of interest and commissions obtained in Spain by credit institutions, financial credit establishments, and Spanish branches of foreign credit institutions. The tax features a progressive rate structure ranging from 1% to 7 per cent. (the latter applying to taxable bases exceeding EUR 5 billion), with a notable reduction of EUR 100m in the tax base for calculating the taxable amount. The tax liability can be reduced by 25 per cent. of the Corporate Income Tax liability for the same fiscal year, with specific proportional rules applying for CIT consolidated groups. Furthermore, a deduction applies when return on assets (ROA) falls below 0.7 per cent., demonstrating the legislator's intention to avoid excessive taxation.

### **Global Minimum Tax**

On 22 December 2022, the European Commission approved Directive 2022/2523 ensuring a minimum effective tax rate for the global activities of large multinational groups. The Directive follows closely the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting and should have been transposed by the Member States into domestic law throughout 2023, and should enter into force for fiscal years starting on 1 January 2024. Pillar Two rules apply to multinational groups with a turnover of more than EUR 750 million and entails a minimum tax of 15 per cent. calculated on adjusted accounting profit on a jurisdiction-by-jurisdiction basis. On 21 December 2024, the Spanish Official Gazette published Law 7/2024 that transposes the European Directive and approves a domestic top-up tax from 2024. Nonetheless, note the Spanish domestic legislation has introduced permanent and transitional safe harbors (aligned with the Directive) to ease the initial compliance burden. In other relevant countries where the Group is present the regulation is enacted or substantially enacted (mainly in the UK and in EU countries).

### **Data and technology considerations**

#### *Data privacy and cybersecurity*

The Group receives, maintains, transmits, stores and otherwise process proprietary, sensitive and confidential data, including public and non-public personal information of its customers, employees, counterparties and other third parties, including, but not limited to, personally identifiable information and personal financial information. The collection, sharing, use, retention, disclosure, protection, transfer and other processing of this information is governed by stringent federal, state, local and foreign laws, rules, regulations and standards, and the legal and regulatory framework for privacy, data protection and cybersecurity is in considerable flux and evolving rapidly. As data privacy and cybersecurity risks for banking organisations and the broader financial system have significantly increased in recent years, privacy, data protection and cybersecurity issues have become the subject of increasing legislative and regulatory focus.

Internationally, virtually every jurisdiction in which the Group operates has established its own privacy, data protection and cybersecurity legal and regulatory framework with which the Group must comply. For example, on 25 May 2018, the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (the "**General Data Protection Regulation**" or "**GDPR**") became directly applicable in all Member States of the EU. To align the Spanish legal regime with the GDPR, Spain has enacted the Organic Law 3/2018, of 5 December, on Data Protection and the safeguarding of digital rights. Additionally, following the UK's withdrawal from the EU, the Group is also subject to the UK General Data Protection Regulation ("**UK GDPR**") (i.e., a version of the GDPR as implemented into UK law).

The GDPR and UK GDPR, together with national legislation, regulations and guidelines of the EU Member States governing the processing of personal data, impose strict obligations and restrictions on the ability to collect, use, retain, protect, disclose, transfer and otherwise process personal data. In particular, the GDPR and UK GDPR include obligations and restrictions concerning the lawfulness and transparency of the processing, the security and the transfer of personal data, and making notifications with respect to certain security breaches, among others. The GDPR and UK GDPR also impose significant fines and penalties for non-compliance of up to the higher of 4 per cent. of annual worldwide turnover or €20 million (or £17.5 million under the UK GDPR), and, for other specified infringements, fines and penalties of up to the higher of 2 per cent. of annual worldwide turnover or €10 million (or £8.7 million under UK GDPR). European data protection authorities have already imposed fines for GDPR violations up to, in some cases, hundreds of millions of euros. While the UK GDPR has previously imposed substantially the same obligations as the GDPR, the UK GDPR does not automatically incorporate future changes to the GDPR unless and until such changes are adopted under UK law. Moreover, the UK Data (Use and Access)

## INVESTMENT CONSIDERATIONS

Act, which makes several modifications to UK data protection law, received Royal Assent and came into force on 19 June 2025. These changes deviate from the GDPR, and permit further deviations in the form of regulatory guidance or secondary legislation, which creates a risk of divergent parallel regimes and related uncertainty, along with the potential for increased compliance costs and risks for affected businesses.

Compliance with the GDPR, the UK GDPR and other data protection regimes as well as adaptation to their respective updates, such as the European Commission's proposal for a new regulation (Digital Omnibus Act) or the UK Data (Use and Access) Act 2025 and the resolutions and opinions of the relevant authorities, requires and may in the future require substantial adjustments to the procedures and policies of the Group. These changes could adversely impact the Group's business by increasing its operational and compliance costs. The Group expects the number of jurisdictions adopting their own privacy, data protection and cybersecurity laws, as well as the regulations, rules and other actions adopted by the relevant authorities, to increase, which will likely require the Group to devote additional significant operational resources to its compliance efforts and incur additional significant expenses. This legal, regulatory and operational environment is also likely to increase its exposure to risk of claims that the Group has not complied with all applicable privacy, data protection and cybersecurity laws, rules, regulations and standards.

Additionally, the EU adopted Regulation (EU) 2022/2554, or the Digital Operational Resilience Act ("**DORA**"), in November 2022, which became effective from 17 January 2025. Together with related legislative initiatives such as Directive (EU) 2022/2555 (the NIS 2 Directive), the forthcoming Cyber Resilience Act and the Critical Entities Resilience Directive, DORA forms part of a broader EU framework aimed at enhancing operational and cybersecurity resilience across the financial sector. DORA, which applies as *lex specialis* for the financial sector regarding cybersecurity, aims to achieve a common level of digital operational resilience as well as consolidate and upgrade existing Information Communication Technologies ("**ICT**") risk requirements that had been addressed separately in different regulations and directives, and complements the horizontal obligations set out under the NIS 2 Directive. DORA establishes a set of uniform requirements for digital operational resilience structured in five pillars: (i) ICT risk management and governance, (ii) ICT-related incident management, classification and reporting, (iii) digital operational resilience testing, (iv) management of third-party ICT risk, and (v) information and intelligence sharing.

Privacy, data protection and cybersecurity laws, rules, regulations and standards continue to evolve and may result in ever-increasing public scrutiny and escalating levels of enforcement and sanctions. The Group may become subject to new laws, rules or regulations concerning privacy, data protection or cybersecurity, which could require to incur significant additional costs and expenses in an effort to comply. While the Group have taken steps designed to mitigate the impact of risks and uncertainties in connection with applicable privacy, data protection and cybersecurity laws, rules, regulations and standards by implementing supplementary measures designed in accordance therewith, the efficacy and longevity of any steps the Group may take to mitigate their impact remain uncertain due to the fast-moving legal and regulatory environment. The Group could also be adversely affected if such new laws, rules or regulations or standards are adopted or if existing legislation or regulations are modified or interpreted such that the Group is required to alter its systems, processes or privacy policies. If privacy, data protection or cybersecurity laws, rules, regulations or standards are implemented, interpreted or applied in a manner inconsistent with the Group's current practices or policies, or if it fails to comply (or is perceived to have failed to comply) with applicable laws, rules, regulations or standards relating to privacy, data protection and cybersecurity, the Group may be subject to substantial fines, civil or criminal penalties, costly litigation (including class actions), claims, proceedings, judgments, awards, penalties, sanctions, regulatory enforcement actions, government investigations or inquiries, or other adverse impacts, or be ordered to change its business practices, policies or systems in a manner that adversely impacts the Group's operating results, any of which could have a material adverse effect on its operating results, financial condition and prospects.

### *Artificial Intelligence ("AI")*

The Group utilises and is continuing to explore further uses of AI in connection with its business, products and services. Particularly, the Group is using AI for transaction monitoring and sanctions screening, improving customer experience and automating processes to reduce operational risk, among others. However, regulation of AI is rapidly evolving worldwide as legislators and regulators are increasingly focused on these powerful emerging technologies. The technologies underlying AI and its uses are subject to a variety of laws and regulations, including intellectual property, privacy, data protection, cybersecurity, consumer protection, competition, and equal opportunity laws, and are expected to be subject to increased regulation and new laws or new applications of existing laws and regulations. AI is the subject of ongoing review by various US governmental and regulatory agencies, and various US states and other foreign jurisdictions are applying, or are considering applying, their platform moderation, cybersecurity, and data protection laws and regulations to AI or are

## INVESTMENT CONSIDERATIONS

considering legal and regulatory frameworks for AI. In particular, multiple jurisdictions have adopted or are considering AI-specific requirements. Supervisory guidance in some jurisdictions also addresses AI-related privacy, data protection and cybersecurity and third-party risk management.

For example, in Europe, the EU's Artificial Intelligence Act (the "**AI Act**") entered into force on 1 August 2024. The AI Act establishes, among other things, a risk-based governance framework for regulating AI systems operating in the EU market. This framework would categorise AI systems based on the risks associated with such AI systems' intended purposes as creating "unacceptable", "high", "limited" or "minimal" risks. There is a risk that the Group's current or future AI-powered software or applications may be categorized as certain risk categories that may obligate the Group to comply with the applicable requirements of the AI Act, which may impose additional costs on the Group, increase its risk of liability, or adversely affect its business. For example, "high" risk AI systems are required, among other things, to implement and maintain certain risk and quality management systems, conduct certain conformity and risk assessments, use appropriate data governance and management practices, including in development and training, and meet certain standards related to testing, technical robustness, transparency, human oversight, and cybersecurity. Even if the Group's current AI-powered software or applications are not categorised as "high" risk AI systems, it may be subject to additional transparency and other obligations for "limited" or "minimal" risk AI systems. The AI Act has a phased approach to compliance (including an initial prohibition on certain uses from 2 February 2025 and requirements for high-risk systems applying from 2 August 2027) and has extraterritorial effect where AI is provided or its outputs are used in the EU. The AI Act sets forth certain penalties, including fines of up to the greater of EUR 35 million or 7 per cent. of worldwide annual turnover for the prior year for violations related to offering prohibited AI systems or data governance, fines of up to the greater of EUR 15 million or 3 per cent. of worldwide annual turnover for the prior year for violations related to the requirements for "high" risk AI systems, and fines of up to the greater of EUR 7.5 million or 1.5 per cent. of worldwide annual turnover for the prior year for violations related to supplying incorrect, incomplete or misleading information to EU and member state authorities. This regulatory framework is expected to have a material impact on the way AI is regulated in the EU (and, potentially, globally), together with developing guidance and decisions in this area.

The Group may not be able to anticipate how to respond to these rapidly evolving laws and regulations, and it may need to expend resources to adjust the Group's offerings in certain jurisdictions if the legal and regulatory frameworks are inconsistent across jurisdictions. Furthermore, because AI technology itself is highly complex and rapidly developing, it is not possible to predict all of the legal or regulatory risks that may arise relating to the use of AI. If laws and regulations relating to AI are implemented, interpreted or applied in a manner inconsistent with the Group's current practices or policies, such laws and regulations may adversely affect the Group's use of AI and its ability to provide and to improve its services, require additional compliance measures and changes to its operations and processes, result in increased compliance costs and potential increases in civil claims against the Group, any of which could adversely affect its operating results, financial condition and prospects.

**ISSUE OF SECURITIES**

Securities will be issued on a continuous basis in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Securities of each Series being intended to be interchangeable with all other Securities of that Series. Each Series may be issued in tranches (each a "**Tranche**") on different issue dates. In this section the expression "necessary information" means, in relation to any Tranche of Securities, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and the Guarantor and of the rights attaching to the Securities. In relation to the different types of Securities which may be issued under the Programme, the Issuer and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Securities which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Securities.

Any information relating to the Securities which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Securities which are not Exempt Securities or are Swiss Non-Exempt Securities will be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Securities, may be contained in a Drawdown Prospectus.

For a Tranche of Securities which are not Exempt Securities or are Swiss Non-Exempt Securities and are the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Securities which is the subject of Final Terms are the Conditions as completed by the applicable Final Terms.

For a Tranche of Securities which are Exempt Securities or are Swiss Non-Exempt Securities, any information which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to such Tranche of Securities will be contained in the applicable Pricing Supplement. Such Pricing Supplement will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Securities which are Exempt Securities other than Swiss Non-Exempt Securities and are subject to a Pricing Supplement are the Conditions, as supplemented, amended or replaced by the applicable Pricing Supplement.

The terms and conditions applicable to any particular Tranche of Securities which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Applicable Transaction Terms (or Final Terms or Pricing Supplement, as the case may be) shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted by a single document containing the necessary information relating to the Issuer and the Guarantor and the relevant Securities.

- (i) *Application:* This Condition 5(a) is applicable to the Securities only if the Fixed Rate Security Provisions are specified in the relevant Applicable Transaction Terms as being applicable.
  - (ii) *Accrual of interest:* The Securities bear interest from the Interest Commencement Date at the Rate of Interest payable in arrears on each Interest Payment Date, subject as provided in Condition 7 (*Payments, Talons and Physical Delivery*) and Condition 5(b)(vii) (*Reference Item Linked Interest Securities*). Each Security will cease to bear interest from the due date for final redemption unless, upon due presentation (in the case of Securities other than Book-Entry Securities), payment of the Redemption Amount or the payment and/or delivery of the Entitlement (if applicable) due is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5(a)(ii) (as well after as before judgment) until whichever is the earlier of (A) the day on which all sums due and/or assets comprised in the Entitlement in respect of such Security up to that day are received by or on behalf of the relevant Securityholder and (B) the day which is seven days after the Principal Paying Agent, the French Paying Agent, the Iberclear Paying Agent or the Registrar (as the case may be) or any agent appointed by the Issuer to deliver such assets to Securityholders has notified the Securityholders that it has received all sums due and/or assets comprised in the Entitlement in respect of the Securities up to such seventh day (except to the extent that there is any subsequent default in payment and/or delivery).

If a Broken Amount is specified in the Applicable Transaction Terms, the amount of interest payable in respect of the specified Interest Payment Date shall be the relevant Broken Amount and, if the Securities are in more than one Specified Denomination, shall be the relevant Broken Amount in respect of the relevant Specified Denomination.
  - (iv) *Calculation of interest amount:* The amount of interest payable in respect of each Security for any period for which a Fixed Coupon Amount or Broken Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount (or, in the case of Partly Paid Securities, to the Outstanding Principal Amount in respect of the Calculation Amount as of the first day of the relevant Interest Period), multiplying the product by the relevant Day Count Fraction. The resultant figure shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Security divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- (b) ***Floating Rate Securities, ETF Linked Securities, Fund Linked Securities, CMS Linked Securities, Reference Item Linked Securities and Other Reference Item Linked Interest Securities***

Each Security will cease to bear interest from the due date for final redemption unless, upon due presentation (in the case of Securities other than Book-Entry Securities), payment of the Redemption Amount or the payment and/or delivery of the Entitlement (if applicable) due is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (A) the day on which all sums due and/or assets comprised in the Entitlement in respect of such Security up to that day are received by or on behalf of the relevant Securityholder and (B) the day which is seven days after the Principal Paying Agent, the French Paying Agent, the Iberclear Paying Agent or the Registrar (as the case may be) or any agent appointed by the Issuer to deliver such assets to Securityholders has notified the Securityholders that it has received all sums due and/or assets comprised in the Entitlement in respect of the Securities up to such seventh day (except to the extent that there is any subsequent default in payment and/or delivery).
- (iii) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Applicable Transaction Terms as the manner in which the Rate(s) of Interest or Rate is/are to be determined, then, subject to the provisions of Condition 5(h) (*Reference Rate Event*), such Rate of Interest or the relevant Rate in respect of an Interest Period will be determined by the Calculation Agent on the following basis and the Rate of Interest or Rate shall be determined in accordance with Condition 5(b)(v) (in the case of Floating Rate Securities) or Condition 5(b)(vii) (*Reference Item Linked Interest Securities*) (in the case of Reference Item Linked Interest Securities):
- (A) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

  - (C) if a Reference Rate Event has not occurred and, in the case of paragraph (A) above, such rate does not appear on that page or, in the case of paragraph (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Rate of Interest or Rate will be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to the nearest comparable benchmarks or other reference source(s) then available.
- (iv) *ISDA Determination:* If ISDA Determination is specified in the relevant Applicable Transaction Terms as the manner in which the Rate(s) of Interest or Rate is/are to be determined, the Rate applicable to the Securities for each Interest Period will be the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Applicable Transaction Terms;

- (ix) *Calculation of Interest Amount*: The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Security for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount (or, in the case of Partly Paid Securities, to the Outstanding Principal Amount in respect of the Calculation Amount as of the first day of the relevant Interest Period), multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the relevant Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Security divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- (x) *Calculation of other amounts*: If the relevant Applicable Transaction Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Applicable Transaction Terms.
- (xi) *Publication*: The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents or, in the case of CMU Securities, the CMU Lodging and Paying Agent and each competent authority, stock exchange and/or quotation system (if any) by which the Securities have then been admitted to listing, trading and/or quotation as soon as practicable after such determination. Notice thereof shall also promptly be given to the Securityholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Security having the minimum Specified Denomination.

## TERMS AND CONDITIONS OF THE SECURITIES

- (xii) *Notifications, etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Guarantor, the Paying Agents, the Securityholders and the Couponholders and, in the case of the CMU Securities, the CMU Lodging and Paying Agent and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

For Securities listed on the MOT and/or admitted to trading on EuroTLX – Bond-X segment and/or Euronext Access Milan, the Calculation Agent and/or the Issuer, as the case may be will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to Borsa Italiana no later than (i) two Milan Business Days prior to the first day of each Interest Period in the case of Securities to be traded on an ex coupon basis (*corso secco*); or (ii) three Milan Business Days prior to the relevant Interest Period End Date in the case of Securities to be traded on a cum-coupon basis (*tel quel*). Notice of the foregoing will be published in accordance with Condition 14 (*Notices*) as soon as possible after the determination and in no event later than four Milan Business Days thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to Borsa Italiana. The Issuer will cause the early redemption of the Securities to be notified to Borsa Italiana three Milan Business Days in advance at the latest.

## TERMS AND CONDITIONS OF THE SECURITIES

- (iii) The Interest Amount (if any) in respect of each principal amount of Securities equal to the Calculation Amount and an Interest Payment Date will be an amount in the Specified Currency (rounded to the nearest sub-unit of the Specified Currency with half a sub-unit being rounded upwards) calculated by the Calculation Agent in its sole and absolute discretion equal to the Calculation Amount multiplied by the Rate of Interest.

- (v) In the event that on the due date for final redemption of any Security upon due presentation thereof, payment of the Redemption Amount is improperly withheld or refused, such Security will accrue interest (as well after as before judgment) in respect of each Security of a principal amount equal to the Calculation Amount on each day during the period from (and including) the due date for redemption of such Security and ending on whichever is the earlier of (a) the day on which all sums due in respect of such Security up to that day are received by or on behalf of the relevant Securityholder and (b) the day which is seven days after the Principal Paying Agent, the French Paying Agent, the Iberclear Paying Agent or the Registrar or, in the case of CMU Securities, the CMU Lodging and Paying Agent or the CMU Registrar (as the case may be) has notified the Securityholders that it has received all sums due in respect of such Security up to such seventh day (except to the extent that there is any subsequent default in payment), such interest to be calculated by applying to the Calculation Amount an overnight deposit rate in respect of the Specified Currency and adjusting the resulting amount by a day count fraction, all as determined by the Calculation Agent in its sole and absolute discretion, as appropriate, from such source(s) as it may select for such day.

(f) ***Zero Coupon Securities***

Reference Rate Event constitutes a Reference Rate Cessation Event in respect of the Floating Rate Option for a Reference Rate and if one or more Priority Fallback(s) are specified in the definition of such Floating Rate Option in the 2006 Definitions, then subject as provided below such Priority Fallback(s) shall apply and the Calculation Agent shall, without the consent of the Securityholders, make such other adjustments to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Interest Determination Date, Interest Amount, Interest Payment Date, Interest Period and Rate of Interest) as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s). Fallbacks in the 2006 Definitions (including where applicable any reference bank quotations or fallbacks set out in Supplement number 70 to the 2006 Definitions (Amendments to the 2006 Definitions to include new IBOR fallbacks)) will only be followed as provided for in this paragraph, if applicable, and subject as provided below; or

- (ii) 2021 Definitions is specified in the Applicable Transaction Terms,
  - I. subject to paragraph II below, the Calculation Agent determines that such Reference Rate Event constitutes a Reference Rate Cessation Event in respect of the Floating Rate Option for a Reference Rate, then such Permanent Cessation Fallback as specified for the relevant Floating Rate Option in the Floating Rate Matrix (all as defined in the 2021 Definitions) shall apply;

(including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Interest Determination Date, Interest Amount, Interest Payment Date, Interest Period and Rate of Interest) as it determines necessary or appropriate in order to account for the effect of applying such Permanent Cessation Fallback and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Permanent Cessation Fallback.

The Permanent Cessation Fallback in respect of the Floating Rate Option for a Reference Rate in the Floating Rate Matrix will only be followed as provided for in this paragraph, if applicable, and subject as provided below.

- (2) If:
- (i) ISDA Determination does not apply pursuant to Condition 5(b)(iv) (*ISDA Determination*);
  - (ii) ISDA Determination and 2006 Definitions are specified in the Applicable Transaction Terms and (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of interest, or (y) the Calculation Agent determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Floating Rate Option in the 2006 Definitions; or
  - (iii) ISDA Determination and 2021 Definitions are specified in the Applicable Transaction Terms and (x) the specified Permanent Cessation Fallback fails to provide any appropriate means of determining the rate of interest, or (y) the Calculation Agent determines that the application of the Permanent Cessation Fallback and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Permanent Cessation Fallback and/or to make any adjustments to the Conditions, or (z) any of sub-paragraphs (1)II to IV above apply in respect of such Floating Rate Option,

then the Calculation Agent shall, subject as provided below, seek to identify a Replacement Reference Rate in respect of such Reference Rate. If the Calculation Agent identifies a Replacement Reference Rate in respect of such Reference Rate prior to the Cut-off Date it shall:

- (x) seek to determine the related Adjustment Spread; and
- (y) determine the amendments (if any) to the Conditions of the Securities which it considers are necessary and/or appropriate in order to replace such Reference Rate with the relevant Replacement Reference Rate (as adjusted by the Adjustment Spread) (the "**Replacement Reference Rate Amendments**").

## TERMS AND CONDITIONS OF THE SECURITIES

Following the determination by the Calculation Agent of the Replacement Reference Rate and the related adjustments, the Calculation Agent shall notify the Issuer of such determination and the Conditions of the Securities shall be amended as of the Cut-off Date. Prior to the Cut-off Date, the Issuer shall notify the Securityholders in accordance with Condition 14 (*Notices*) of the occurrence of the relevant Reference Rate Event and the action to be taken in relation thereto.

- (B) If the relevant Reference Rate Event is a Benchmark Modification, as an alternative to Condition 5(h)(i)(A) above, the Calculation Agent may instead prior to the Cut-off Date:
  - (1) determine that no Replacement Reference Rate or other amendments to the Conditions of the Securities are required as a result of such Benchmark Modification; or
  - (2) determine the adjustment(s) to the Conditions of the Securities as are necessary or appropriate to account for the effect of such material change and the effective date of any such adjustment(s).

Following any such determination, the Calculation Agent shall notify the Issuer of the action, if any, to be taken in relation thereto and, where adjustment(s) are required to be made to the Conditions of the Securities pursuant to Condition 5(h)(i)(B)(2) above, the Conditions shall be amended as of the relevant effective date and the Issuer shall notify the Securityholders in accordance with Condition 14 (*Notices*) of the occurrence of the relevant Benchmark Modification and the action to be taken in relation thereto. No notice to Securityholders is required where Condition 5(h)(i)(B)(1) above applies.

### (ii) Early Redemption

If:

with respect to any Reference Rate Event, the Calculation Agent determines that it is not possible or commercially reasonable to identify a Replacement Reference Rate and/or determine any Adjustment Spread or the related Replacement Reference Rate Amendments prior to the Cut-off Date in accordance with Condition 5(h)(i)(A); or

- (A) with respect to a Benchmark Modification, the Calculation Agent determines that Condition 5(h)(i)(B) above applies, but that it is not possible or commercially reasonable to make any amendments to the Conditions of the Securities which it determines are required following the occurrence of the Benchmark Modification prior to the Cut-off Date in accordance with such Condition 5(h)(i)(B) above;
- (B) it (i) is or would be unlawful at any time under any applicable law or regulation or (ii) would contravene any applicable licensing requirements, for the Issuer or the Calculation Agent to perform the actions prescribed in these Conditions (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time);
- (C) the Calculation Agent determines that an Adjustment Spread is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Issuer or the Calculation Agent to material additional regulatory obligations (such as the obligations for administrators under BMR); or
- (D) the Calculation Agent determines that having identified a Replacement Reference Rate and determined an Adjustment Spread on or before the Cut-off Date in accordance with these Conditions, the adjustments provided for would not achieve a commercially reasonable result for either the Issuer or the Securityholders,

## TERMS AND CONDITIONS OF THE SECURITIES

the Issuer shall give notice to the Securityholders in accordance with Condition 14 (*Notices*) as soon as reasonably practicable after the relevant determination and the Issuer shall redeem all, but not some only, of the Securities on a day selected by the Issuer, each Security being redeemed at the Early Redemption Amount, together with, if so specified in the Applicable Transaction Terms, accrued interest.

### (iii) Interim Adjustments

If, following a Reference Rate Event but prior to the Cut-off Date, the relevant Reference Rate is required for any determination in respect of the Securities:

- (A) if (1) in relation to a Reference Rate Cessation Event, the Reference Rate Cessation Event Date has not yet occurred, or (2) in relation to an Administrator/Benchmark Event, the Administrator/Benchmark Event Date has not yet occurred, the level of such Reference Rate shall be determined pursuant to the terms that would apply to the determination of such Reference Rate as if no Reference Rate Event had occurred; or
- (B) otherwise, the level of such Reference Rate shall be determined by the Calculation Agent in its discretion by reference to either (i) the rate published in respect of such Reference Rate at the time such Reference Rate is ordinarily determined on the day immediately prior to (1) the Reference Rate Cessation Event Date or (2) the Administrator/Benchmark Event Date, as applicable or, if no rate is published at the time or that rate cannot be used in accordance with applicable law or regulation, by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with applicable law or regulation, as applicable or (ii) such other rate that is, in the determination of the Calculation Agent, recognised or acknowledged as being an industry standard (or otherwise customarily widely adopted) replacement rate or, if the Calculation Agent determines there is no such replacement rate, such other interest rate, index, benchmark or other price source that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate and the Issuer shall give notice to the Securityholders in accordance with Condition 14 (*Notices*) as soon as reasonably practicable of the action to be taken in relation thereto.

### (iv) Determinations

Any adjustment to the Conditions of the Securities (including the determination of any adjustment spread or factor, however defined) which the Calculation Agent determines is necessary or appropriate pursuant to the above provisions of this Condition 5(h):

- (A) shall be made to the extent reasonably practicable, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market) and Relevant Market Data;
- (B) may include, where applicable and without limitation, (1) technical, administrative or operational changes (including without limitation, changes to determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction of any time delay or lag between the calculation or observation period of a rate and the related payment dates and other administrative matters) that the Calculation Agent determines are appropriate, (2) the application of any adjustment factor or adjustment spread (whether or not expressly referenced in the relevant provision and which may be positive or negative) and (3) adjustments to reflect any increased costs to the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s); and
- (C) may be applied on more than one occasion, may be made as of one or more effective dates and may (but does not have to) involve the selection of a

## TERMS AND CONDITIONS OF THE SECURITIES

successor or replacement rate which is determined on a backwards-looking compounding basis by reference to a "risk-free rate".

For the avoidance of doubt, (I) the Calculation Agent is not obliged to make any determination in relation to any Reference Rate Event if the relevant Cut-off Date would fall after the earlier of (x) the date the relevant Reference Rate is no longer used to determine any amount payable under the Securities and (y) the Maturity Date of the Securities and (II) the Issuer and/or the Calculation Agent may make all determinations and/or adjustments and take all actions in respect of the Securities as are provided for in connection with a Reference Rate Event, notwithstanding that such Reference Rate Event may have occurred before the Issue Date of the Securities.

In relation to the Securities listed on the MOT, the Calculation Agent and/or the Issuer as the case may be in exercising its discretion under the relevant Conditions, shall act in good faith and in a commercially reasonable manner, and use generally accepted methodologies in making adjustments in the event of disruption to the underlying assets. Notwithstanding any other provision of the Conditions, the Calculation Agent and/or the Issuer as the case may be may make any adjustment that it determines appropriate to any terms of such Securities, in accordance with the relevant Conditions, to preserve the economic equivalent of the obligations of the Issuer under the Securities, save as otherwise specified in the Applicable Transaction Terms.

(i) ***Swedish Securities***

Notwithstanding anything to the contrary in the Conditions, interest on Swedish Securities for which Accrual is specified as applicable in the Applicable Transaction Terms shall be calculated from (but excluding) the Interest Commencement Date to (and including) the Interest Payment Date.

(j) ***Redemption Interest***

Notwithstanding anything to the contrary in these Conditions, if "Redemption Interest" is specified as applicable in the Applicable Transaction Terms, the interest otherwise due in respect of each Interest Payment Date falling on or prior to the Redemption Interest Settlement Date specified in the Applicable Transaction shall be aggregated and the Issuer shall only be obliged to make payment of such amount on such Redemption Interest Settlement Date.

For the avoidance of doubt: (a) no additional interest or other amounts shall accrue or be payable as a result of any such interest being paid after the relevant Interest Payment Date or, in the case of Credit Linked Securities, Postponed Interest Payment Date (if applicable) pursuant to this Condition 5(j) (*Redemption Interest*); (b) references to payment of accrued interest under these Conditions shall be without duplication to any such aggregated amount(s); and (c) in the case of Credit Linked Securities, any interest in respect of each Interest Payment Date (if any) falling on or prior to the Credit Event Determination Date (if applicable) shall be deemed due and payable on or prior to such Credit Event Determination Date for the purposes of the Credit Linked Conditions, notwithstanding that such interest shall be paid on the Redemption Interest Settlement Date.

### 6. **Redemption, Purchase and Options**

(a) ***Final Redemption***

Unless previously redeemed, purchased and cancelled as provided below, each Security will be redeemed (i) at its Final Redemption Amount on the Maturity Date, or (ii) if Physical Settlement is specified as applicable in the Applicable Transaction Terms (each such Security a "**Physical Delivery Security**"), by delivery of the Entitlement (as provided in Condition 7 (*Payments, Talons and Physical Delivery*)) on the Delivery Date, or (iii) if it is a Credit Linked Security and is to be settled pursuant to Credit Linked Condition 4 (*Physical Settlement*), by delivery of the Entitlement, subject to the terms of the Credit Linked Conditions.

(b) ***Redemption for taxation reasons***

The Securities may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date or, if so specified thereon, at any time, on giving not less than 30 nor more than 60 days' notice to the Securityholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), (subject as provided below, together with interest accrued to the date fixed for redemption), if (i) the Issuer (or, if the Guarantee were called, the Guarantor) has or will become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of Ireland or Spain or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date, and (ii) such obligations cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional amounts if a payment in respect of the Securities (or either Guarantee, as the case may be) were then due. Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Principal Paying Agent or (in the case of Book-Entry Securities) the Iberclear Paying Agent or (in the case of French Law Securities) the French Paying Agent or (in the case of CMU Securities) the CMU Lodging and Paying Agent or (in the case of Swedish Securities) the Swedish Issuing and Paying Agent or (in the case of Finnish Securities) the Finnish Issuing and Paying Agent, a certificate signed by a director of the Issuer (or the Guarantor, as the case may be) stating that the Issuer (or the Guarantor, as the case may be) is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer (or the Guarantor, as the case may be) so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such additional amounts as a result of such change or amendment.

(c) ***Redemption or adjustment for a General Administrator/Benchmark Event***

In the event that a General Administrator/Benchmark Event occurs, at any time following the occurrence of such event, the Issuer may (at its option):

For the avoidance of doubt, where the settlement instructions contemplated by this sub-paragraph (3) apply, this replaces the requirement to deliver an Asset Transfer Notice in accordance with the provisions below. All instructions for settlement to be delivered in accordance with this subparagraph (3) will be referred to as the **"Iberclear Settlement Instruction"**.

For the purposes hereof, **"Cut-off Date"** means (a) other than where "Automatic Early Redemption" is specified as applicable in the Applicable Transaction Terms, the date specified as such in the Applicable Transaction Terms or if not so specified, the fifth Business Day immediately preceding the Delivery Date and (b) if "Automatic Early Redemption" is specified as applicable in the Applicable Transaction Terms, the fifth Business Day immediately preceding the relevant Automatic Early Redemption Date in respect of which an Automatic Early Redemption Event has occurred.

### (B) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice or the Iberclear Settlement Instruction, as the case may be, is duly completed and in proper form shall be made by the relevant Paying Agent, the Issuer or the Registrar, as the case may be, in each case, in consultation with the Principal Paying Agent (in the case of Securities other than Book-Entry Securities), and shall be conclusive and binding on the Issuer, the Guarantor (if applicable), the Paying Agent(s), any Delivery Agent and the relevant Securityholder. Subject as set out below, any Asset Transfer Notice or Iberclear Settlement Instruction, as the case may be, so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent or the Issuer, as applicable (in the case of Securities other than Book-Entry Securities) and/or any Delivery Agent (as applicable) immediately after being delivered or sent as provided in paragraph (A) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the relevant Paying Agent, the Issuer or the Registrar, as the case may be, in each case, in consultation with the Principal Paying Agent (as applicable), it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

## TERMS AND CONDITIONS OF THE SECURITIES

If such Iberclear Settlement Instruction is subsequently corrected to the satisfaction of the Iberclear Paying Agent it shall be deemed to be a new Iberclear Settlement Instruction submitted at the time such correction was delivered as provided above.

The relevant Delivery Agent, Registrar or Paying Agent or the Issuer, as applicable, shall use its reasonable efforts as soon as reasonably practicable to notify the Securityholder submitting an Asset Transfer Notice or, in respect of Book-Entry Securities, the Iberclear Member submitting the Iberclear Settlement Instruction, if, in consultation with the Principal Paying Agent (in the case of Securities other than Book-Entry Securities), it has determined that such Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor, the Delivery Agent, the Paying Agents or the Registrar shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

No Asset Transfer Notice or Iberclear Settlement Instruction may be withdrawn after receipt thereof by the Delivery Agent, the Registrar or a Paying Agent or the Issuer, as the case may be, as provided above. After delivery of an Asset Transfer Notice or Iberclear Settlement Instruction, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

The Entitlement will be delivered on the date fixed for redemption (such date, subject to adjustment in accordance with this Condition 7(n), the "**Delivery Date**"), at the risk of the relevant Securityholder in the manner provided below and provided that the Asset Transfer Notice or (in the case of Book-Entry Securities) the Iberclear Settlement Instruction, is duly delivered as provided above not later than the close of business in each place of reception on the Cut-Off Date.

If a Securityholder fails to give an Asset Transfer Notice or (in the case of Book-Entry Securities) an Iberclear Settlement Instruction, as provided herein with a copy to each relevant party prior to the close of business in each place of reception on the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Delivery Date at the risk of such Securityholder in the manner set out below, provided that, if in respect of a Security, an Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is not delivered to each relevant party, prior to the close of business in each place of reception on the 90th calendar day following the Cut-off Date then (a) if "Assessed Value Payment Amount" is specified as applicable in the Applicable Transaction Terms, the Issuer shall as soon as reasonably practicable following such date determine the Assessed Value Payment Amount (as defined below) and in respect of such Security shall pay the Assessed Value Payment Amount to the relevant Securityholder in lieu of delivery of the Entitlement as soon as reasonably practicable following determination of the Assessed Value Payment Amount, or (b) if "Assessed Value Payment Amount" is not specified as applicable in the Applicable Transaction Terms, the Issuer's obligations in respect of such Security and the Guarantor's obligations pursuant to the Guarantee in respect of such Security shall be discharged and no further liability in respect thereof shall attach to the Issuer or the Guarantor, as applicable. Upon payment of the Assessed Value Payment Amount, if applicable, the Issuer's and the Guarantor's obligations in respect of such Security shall be discharged. For the avoidance of doubt, in the circumstances described above, such Securityholder shall not be entitled to any payment, whether of interest or otherwise, as a result of a failure to give an Asset Transfer Notice or Iberclear Settlement Instruction

## TERMS AND CONDITIONS OF THE SECURITIES

(as applicable) in relation to a Delivery Date and no liability in respect thereof shall attach to the Issuer or the Guarantor as applicable.

The Issuer (or any Delivery Agent on its behalf) shall, at the risk of the relevant Securityholder, deliver (or procure the delivery) of the Entitlement for each Security, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Securityholder in the relevant Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) or in such manner as is specified in the Applicable Transaction Terms. All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes ("**Expenses**") arising from the delivery of the Entitlement, in respect of such Securities shall be for the account of the relevant Securityholder and no delivery of the Entitlement shall be made until all Expenses have been paid by the relevant Securityholder to the satisfaction of the Issuer.

### (C) General

Securities held by the same Securityholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Securities, provided that, the aggregate Entitlements in respect of the same Securityholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Securityholder.

Following the Delivery Date in respect of a share forming part of the Entitlement, all dividends on the relevant shares to be delivered will be payable to the relevant party according to market practice assuming a sale of the shares has been executed on the Delivery Date. Any such dividends to be paid to a Securityholder will be paid to the account specified by the Securityholder in the relevant Asset Transfer Notice as referred to in Condition 7(n)(i)(A) (*Asset Transfer Notices*).

For such period of time after delivery of the Entitlement until the Delivery Date (the "**Intervening Period**"), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

### (D) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the Applicable Transaction Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion (and in consultation with the Calculation Agent with respect to French Law Securities) to satisfy its obligations in

## TERMS AND CONDITIONS OF THE SECURITIES

respect of the relevant Security by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion (and in consultation with the Calculation Agent with respect to French Law Securities) to satisfy its obligations in respect of the relevant Security by payment to the relevant Securityholder of the Disruption Cash Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with Condition 14 (*Notices*). Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with Condition 14 (*Notices*) that a Settlement Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

**"Disruption Cash Redemption Amount"** means, in respect of any relevant Security, the fair market value of such Security (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

**"Settlement Business Day"** has the meaning specified in the Applicable Transaction Terms; and

**"Settlement Disruption Event"** means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer or the Guarantor, as the case may be, as a result of which the Issuer or the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the Conditions and/or the Applicable Transaction Terms.

(E) Failure to Deliver due to Illiquidity

If "Failure to Deliver due to Illiquidity" is specified as applying in the Applicable Transaction Terms and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **"Affected Relevant Assets"**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **"Failure to Deliver due to Illiquidity"**), then:

- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this Condition 7(n); and

## TERMS AND CONDITIONS OF THE SECURITIES

- (2) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion (and in consultation with the Calculation Agent with respect to French Law Securities) to satisfy its obligations in respect of the relevant Security by payment to the relevant Securityholder of the Failure to Deliver Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with Condition 14 (*Notices*). Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with Condition 14 (*Notices*) that the provisions of this Condition 7(n)(i)(E) apply.

For the purposes hereof, "**Failure to Deliver Redemption Amount**" means, in respect of any relevant Security, the fair market value of such Security (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(ii) Variation of Settlement

If the Applicable Transaction Terms indicates that the Issuer has an option to vary settlement in respect of the Securities, the Issuer may at its sole and unfettered discretion in respect of each such Security, elect not to pay the relevant Securityholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Securityholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Securityholders, as the case may be. Notification of such election will be given to Securityholders in accordance with Condition 14 (*Notices*).

(iii) Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount

Notwithstanding any provision of these Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of Securities to which this Condition 7(n)(i) applies, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises assets which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other assets which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, to the relevant Securityholders, but in lieu thereof to make payment to the relevant Securityholder on the Delivery Date of an amount equal to the fair market value of the Entitlement on or about the time of so electing as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Securityholders in accordance with Condition 14 (*Notices*) and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount, such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradable**" security shall mean (i) with respect to the United States, a security which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradable security for purposes of the Securities Act,

## TERMS AND CONDITIONS OF THE SECURITIES

in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a security not subject to any legal restrictions on transfer in such jurisdiction.

(iv) **Rights of Securityholders and Calculations**

None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Securities.

The purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(v) **For the purposes of the Conditions:**

**"Assessed Value Payment Amount"** means, in respect of a Security, an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the Entitlement in respect of such Security less the cost to the Issuer and/or its Affiliates of unwinding any underlying relating hedging arrangements, all as determined by the Issuer.

(o) ***Payment Disruption Event***

If "Payment Disruption Event" is specified as applicable in the Applicable Transaction Terms, where the Calculation Agent determines that a Payment Disruption Event has occurred or is likely to occur:

- (i) the next date for payment of any amount due in respect of the Securities will be postponed to the earliest to occur of (A) the date falling 2 Business Days after the date on which the Calculation Agent determines that the Payment Disruption Event is no longer occurring or in existence or (B) the date falling 60 calendar days following the scheduled due date for payment of the relevant amount (the **"Postponed Payment Date"**), which, for the avoidance of doubt, may be later than the scheduled Maturity Date. No interest shall accrue and no Event of Default will result on account of such postponement; and
- (ii) (i) in the case of (i)(A) above, the Issuer will pay the relevant amount due in respect of the Securities in the Specified Currency on the Postponed Payment Date, or (ii) in the case of (i)(B) above, the Issuer shall give notice to the Securityholders as soon as practicable in accordance with Condition 14 (*Notices*), and (x) convert the relevant amount due in respect of the Securities into U.S. Dollars using the rate of exchange between the Specified Currency and the U.S. Dollar that the Calculation Agent determines 5 Business Days prior to the Postponed Payment Date and taking into consideration all information that it deems relevant. The Issuer will pay such amount in U.S. Dollars less the cost to the Issuer and/or any of its Affiliates (if any) of unwinding any underlying related hedging arrangements in connection with such Payment Disruption Event and/or the related payment, and the Issuer shall have no further obligations whatsoever for the relevant payment under the Securities or (y) if the Calculation Agent determines that it is not possible to determine the rate of exchange, the Issuer may early redeem all the Securities at an amount in U.S. Dollars determined to be the fair market value of such Securities less Associated Costs.

For the purposes of the above, **"Payment Disruption Event"** means an event or circumstance which (a) prevents, restricts or delays the Issuer from converting or delivering relevant currencies, (b) imposes capital or exchange controls, (c) implements changes to laws relating to foreign investments or, (d) otherwise prohibits or prevents the Issuer from making a payment or performing an obligation required of it as a result of war, catastrophe, governmental action or other event beyond its control, including the relevant currency's exclusion as a full settlement currency in the clearing systems.

In that event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts as may be necessary in order that the net amounts received by the holders and the Couponholders after such withholding or deduction shall equal the respective amounts of principal and interest which would have been received in respect of the Securities, Receipts or (as the case may be) Coupons, in the absence of such withholding or deduction; except that no additional amounts shall be payable with respect to any payment in respect of any Security, Receipt or Coupon or (as the case may be) under the English Law Deed of Guarantee or the French Law Guarantee (as applicable):

- (e) to, or to a third party on behalf of, Spanish resident corporate entities subject to Spanish Corporate Income Tax, if the Spanish Tax Authorities determine that the Securities do not comply with applicable exemption requirements, including those specified in the Reply to the Consultation of the Directorate General for Taxation (*Dirección General de Tributos*) dated 27 July 2004 and require a withholding to be made; or

- (i) in respect of any CMU Securities, to, or to a third party on behalf of, a holder where the Issuer or (as the case may be) the Guarantor (or any agent acting on its behalf) has not been provided with such information or documentation concerning such holder's identity, tax residence or status as may constitute sufficient evidence thereof under applicable domestic tax laws and regulations, and as may be necessary to allow the relevant payment to be made free and clear of any withholding or deduction for or on account of any taxes, or as may be required in order to comply with any applicable tax procedures or reporting obligations under the laws or regulations of any relevant tax jurisdiction. The sale, transfer, or acquisition of Implicit Yield Securities other than Book-Entry Securities, including, but not limited to, Zero Coupon Securities, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Securities other than Book-Entry Securities to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor (i) will recognise any Spanish Individual as an owner of Implicit Yield Securities other than as an owner of Book-Entry Securities or (ii) list any Implicit Yield Securities other than Book-Entry Securities on AIAF.

For the purposes of these Terms & Conditions:

"**Implicit Yield Securities**" means Securities in respect of which the income derives from (i) the difference between the redemption amount and the issue price of the Securities, or (ii), subject to the paragraph below, a combination of (A) an explicit coupon and (B) the difference between the redemption amount and the issue price of the Securities.

For the purposes of these Conditions and in accordance with Spanish tax regulations, Securities with the characteristics set out in (ii) above will only be deemed Implicit Yield Securities if the interest payable in each year (explicit coupon) is lower than the Interest Rate of Reference applicable as of the Issue Date.

If the Securities are Swedish Securities, claims against the Issuer and the Guarantor for payment in respect of the Securities shall be prescribed and become void unless made within ten years (in the case of amounts in respect of principal or termination) or five years (in the case of interest) from the appropriate Relevant Date in respect thereof. The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a videoconference platform) of Securityholders to consider any matter affecting their interest, including modification by Extraordinary Resolution (or, as the case may be, written resolution which shall take effect as if it were an Extraordinary Resolution) of the Securities (including these Conditions insofar as the same may apply to such Securities). An Extraordinary Resolution duly passed at any such meeting shall be binding on all the Securityholders, whether present or not and on all relevant Couponholders, except that any Extraordinary Resolution proposed, inter alia, (i) to amend the dates of maturity or redemption of the Securities, any Instalment Date or any date for payment of interest thereon, (ii) to reduce or cancel the principal amount of any Instalment Amount of, any Entitlement in respect of, or any premium payable on redemption of, the Securities, (iii) to reduce the rate or rates of interest

The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three-fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than 95 per cent. in principal amount of the Securities for the time being outstanding or (iii) consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Principal Paying Agent) by or on behalf of the holders of not less than three-fourths in principal amount of the Securities for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Securityholders. An Extraordinary Resolution passed by the Securityholders will be binding on all the Securityholders, whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

If a holder of Swedish Securities held through a nominee (a "**Swedish Indirect Securityholder**") attends the meeting (in person or through a duly authorised agent) and shows a certificate from the relevant nominee showing that such Swedish Indirect Securityholder on the fifth (5th) Stockholm Business Day prior to the meeting was a holder of Swedish Securities, the Swedish Indirect Securityholder shall be regarded as the holder of such Swedish Securities for the purposes of this Condition 11(a).

These Conditions may be supplemented, amended, modified, or replaced in relation to any Series of Securities by the terms of the applicable Pricing Supplement or Drawdown Prospectus in relation to such Series. These Conditions may be completed in relation to any Series of Securities by the terms of the applicable Final Terms in relation to such series.

### (1) General

Pursuant to Article L.213-6-3 I of the French *Code monétaire et financier*:

- (A) the Securityholders shall not be grouped in a *masse* having separate legal personality and acting in part through a representative of the Securityholders (*représentant de la masse*) and in part through general meetings; however,
- (B) the following provisions of the French *Code de commerce* shall apply: Articles L.228-46-1, L.228-57, L.228-58, L.228-59, L.228-60, L.228-60-1, L.228-61 (with the exception of the first paragraph thereof), L.228-65 (with the exception of (i) sub-paragraphs 4° and 6° of paragraph I and (ii) paragraph II), L.228-66, L.228-67, L.228-68, L.228-76, L.228-88, R.228-65, R.228-66, R.228-67, R.228-68, R.228-70, R.228-71, R.228-72, R.228-73, R.228-74 and R.228-75 of the French *Code de commerce*, and
- (C) whenever the words "*de la masse*", "*d'une même masse*", "*par les représentants de la masse*", "*d'une masse*", "*et au représentant de la masse*", "*de la masse intéressée*", "*dont la masse est convoquée en assemblée*" or "*par un représentant de la masse*", appear in those provisions, they shall be deemed to be deleted, and subject to the following provisions of this Condition 11(b).

A Resolution may be passed with respect to any matter that relates to the common rights (*intérêts communs*) of the Securityholders.

A Resolution may be passed on any proposal relating to the modification of the Conditions including any proposal, (i) whether for a compromise or settlement, regarding rights which are the subject of litigation or in respect of which a judicial decision has been rendered, and (ii) relating to a total or partial waiver of the guarantees granted to the Securityholders, the deferral of any interest payment and the modification of the amortization or interest rate provisions.

For the avoidance of doubt, neither a General Meeting nor a Written Decision has power, and consequently a Resolution may not be passed to decide on any proposal relating to (a) the modification of the objects or form of the Issuer, (b) the issue of Securities benefiting from security over assets (*surété réelle*) which will not benefit to Securityholders, (c) the potential merger (*fusion*) or demerger (*scission*) including partial transfers of assets (*apports partiels d'actifs*) under a demerger regime of or by the Issuer; (d) the transfer of the registered office of a European Company (*Societas Europaea* – SE) to a different Member State of the European Union.

However, each Securityholder is a creditor of the Issuer and as such enjoys, pursuant to Article L.213-6-3 IV of the French *Code monétaire et financier*, all the rights and prerogatives of individual creditors in the circumstances described above, including any right to object (*former opposition*).

## TERMS AND CONDITIONS OF THE SECURITIES

Each Securityholder is entitled to bring a legal action against the Issuer for the defence of its own interests; such a legal action does not require the authorisation of the General Meeting.

The Securityholders may appoint a nominee to file a proof of claim in the name of all Securityholders in the event of judicial reorganisation procedure or judicial liquidation of the Issuer.

Pursuant to Article L.228-85 of the French *Code de commerce*, in the absence of such appointment of a nominee, the judicial representative (*mandataire judiciaire*), at its own initiative or at the request of any Securityholder will ask the court to appoint a representative of the Securityholders who will file the proof of Securityholders' claim.

### (3) Convening of a General Meeting

A General Meeting may be held at any time, on convocation by the Issuer. One or more Securityholders, holding together at least one-thirtieth of the principal amount of the French Law Securities outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such demand, the Securityholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under Condition 14 (*Notices*), not less than fifteen calendar days prior to the date of such General Meeting on first convocation and, five calendar days on second convocation.

### (4) Arrangements for Voting

Each Securityholder has the right to participate in a General Meeting in person, by proxy, by correspondence or by videoconference or by any other means of telecommunication allowing the identification of participating Securityholders.

Each Security carries the right to one vote.

In accordance with Article R.228-71 of the French Code de commerce, the right of each Securityholder to participate in General Meetings will be evidenced by the entries in the books of the relevant French Law Securities Account Holder of the name of such Securityholder as of 0:00, Paris time, on the second Paris business day preceding the date set for the meeting of the relevant General Meeting.

Decisions of General Meetings must be published in accordance with the provisions set forth in Condition 14 (*Notices*).

### (5) Chairman

The Securityholders present at a General Meeting shall choose one of them to be chairman (the "**Chairman**") by a simple majority of votes present or represented at such General Meeting (notwithstanding the absence of a quorum at the time of such vote). If the Securityholders fail to designate a Chairman, the Securityholder holding or representing the highest number of French Law Securities and present at such meeting shall be appointed Chairman, failing which the Issuer may appoint a Chairman. The Chairman appointed by the Issuer need not be a Securityholder. The Chairman of an adjourned meeting need not be the same person as the Chairman of the original meeting from which the adjournment took place.

### (6) Quorum and Voting

- (a) in the case of Index Linked Securities, Share Linked Securities, Fund Linked Securities linked to an ETF or Securities relating to a Cross Asset Basket:
  - (i) where "Scheduled Trading Day (Per Share Basis)", "Scheduled Trading Day (Per Share Index Basis)" or "Scheduled Trading Day (Per Fund Share Basis)" is specified in the Applicable Transaction Terms:
    - (A) if **"Omission"** is specified as applying in the Applicable Transaction Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level, price or amount provided that, if through the operation of this provision no Averaging Dates would occur, then the Averaging Date will not be omitted and the provisions of the definition of **"Valuation Date"** will apply for purposes of determining the relevant level, price or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or

If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be

deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of Valuation Date below;

If the first succeeding Valid Date in relation to such Fund Share has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that last such consecutive Scheduled Trading Day is already an Averaging Date) in respect of such Fund Share, and (B) the Calculation Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of Valuation Date below; or

In that case: (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date for the Affected Item (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date), and (ii) the Calculation Agent shall (x) where an Affected Item is a Share Index, determine the Settlement Level using the level of that Share Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Share Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in that Share Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day) or (y) where an Affected Item is a Share, determine the Settlement Price using its good faith estimate of the value for the Affected Item as of the Valuation Time on the last such consecutive Scheduled Trading Day, and otherwise in accordance with the Valuation Date provisions; or

  - (ii) if "**Postponement**" is specified as applying in the Applicable Transaction Terms, then the provisions of the definition of Valuation Date will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
  - (iii) if "**Modified Postponement**" is specified as applying in the Applicable Transaction Terms then:
    - (A) where the Securities are Custom Index Linked Securities relating to a single Custom Index, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Custom Index Business Day is already an Averaging Date), and (B) the Calculation Agent

If the early redemption of the Securities occurs, then the Issuer will pay to the Securityholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

**Consequences of Tender Offer:** in respect of any Tender Offer, on or after the relevant Tender Offer Date, the Share Issuer and the Shares will not change, but the Calculation Agent shall either (i) (A) make such adjustment to the coupon amount or any other terms of the Securities as the Calculation Agent determines appropriate to account for the economic effect on the Securities of such Tender Offer (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Securities), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the relevant shares traded on such options exchange and (B) determine the effective date of that adjustment, or (ii) if the Calculation Agent determines that no adjustment that it could make under (i) will produce a commercially reasonable result, the Calculation Agent will notify the Issuer that the relevant consequence shall be the early redemption of the Securities. If the early redemption of the Securities occurs, then the Issuer will pay to the Securityholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

**Consequences of Nationalisation, Insolvency Filing and Delisting:** upon the Issuer's becoming aware of the occurrence of a Nationalisation, Insolvency Filing or Delisting, the early redemption of the Securities will take place (as determined by the Calculation Agent) and then the Issuer will pay to the Securityholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

**Correction of the Share Price:** in the event that the Share price on the Exchange which is utilised for any calculation or determination made under these Securities is subsequently corrected and the correction is published by the Exchange within one Settlement Cycle after the original publication, the Issuer may notify the Securityholder of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust the terms of these Securities to account for such correction.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

Applicable Transaction Terms or, if no such time is specified, the time at which the official closing level of the Share Index is calculated and published by the Share Index Sponsor.

### 2. MARKET DISRUPTION EVENTS

#### 2.1 "Market Disruption Event" means either:

- (i) (a) the occurrence or existence, in respect of any Component Security, of:
  - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
  - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
  - (3) an Early Closure in respect of such Component Security; and
- (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists and comprises 20 per cent. or more of the level of the Share Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Share Index, of: (a) a Trading Disruption Event; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Share Index shall be based on a comparison of (x) the portion of the level of the Share Index attributable to that Component Security to (y) the overall level of the Share Index, in each case using the official opening weightings as published by the Sponsor as part of the market "opening data".

- 2.2 "Trading Disruption" means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to the Share on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.
- 2.3 "Exchange Disruption" means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security or (ii) futures or options contracts relating to the Share Index on the Related Exchange.
- 2.4 "Early Closure" means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Automatic Early Redemption Valuation Date, an Averaging Date, a Knock-in Determination Day or a Knock-out Determination Day, an Observation Date or a Valuation Date, as the case may be. Without limiting the obligation of the Calculation Agent to notify the Issuer as set forth in the preceding sentence, failure by the Calculation Agent to notify the Issuer of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day on the Securities.

Where Exchange Business Day (Cross Asset Basis) and Scheduled Trading Day (Cross Asset Basis) are specified as applicable in the Applicable Transaction Terms for (i) Index Linked Securities, (ii) Equity Linked Securities and/or (iii) ETF Linked Securities, a "Disrupted Day" shall also mean any Scheduled Trading Day on which a Disrupted Day occurs under and as defined in the Equity Linked Conditions and/or ETF Linked Conditions.

- 2.6 "Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

### 3. ADJUSTMENTS

- 3.1 If the Share Index is (i) not calculated and announced by the Share Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor sponsor acceptable to the Calculation Agent, or (iii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Share Index, then in each case that index (the "**Successor Share Index**") will be deemed to be the Share Index.

- 3.2 If (i) on or prior to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date, the Share Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Share Index or in any other way materially modifies that Share Index (other than a modification prescribed in that formula or method to maintain that Share Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Share Index Modification**") or permanently cancels the Share Index and no Successor Share Index exists (an "**Share Index Cancellation**") or (ii) on any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date in respect of this Security, the Share Index Sponsor fails to calculate and announce a relevant Share Index (an "**Share Index Disruption**" and together with a Share Index Modification and a Share Index Cancellation, each an "**Share Index Adjustment Event**"), then the Calculation Agent shall determine if such Share Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant Strike Price(s), Initial Price(s), Valuation Price(s), Final Price(s) and Barrier(s) and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Securities as the Calculation Agent determines appropriate to account for that Share Index Adjustment Event, using, in lieu of a published level for that Share Index, the level for that Share Index as at that Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Share Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Share Index immediately prior to that Share Index Adjustment Event.

### 3.3 Correction of Share Index

In the event that any price or level published on the Exchange or by the Share Index Sponsor and which is utilised for any calculation or determination made under the Securities is subsequently corrected and the correction is published by the Exchange or the Share Index Sponsor within one Settlement Cycle after the original publication, the Issuer may notify the Securityholder of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction.

"Clearance System Business Day" means, in respect of a clearance system, any day on which such clearance system is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

**"Settlement Cycle"** means, in respect of the Share Index, the number of Clearance System Business Days following a trade in such shares on the Exchange in which settlement will customarily occur according to the rules of the Exchange (if there are multiple Exchanges in respect of the Share Index, the longest such period).

**"Settlement Disruption Event"** means, in respect of a Component Security, an event beyond the control of the Hedging Party(ies) as a result of which the relevant clearance system cannot clear the transfer of such Component Security.

**"Change in Law"** means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Hedging Party(ies) determine(s) in good faith that (X) it has become illegal to hold, acquire or dispose of Shares relating to the Hedging Transaction(s), or (Y) it will incur a materially increased cost in performing its obligations (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**"Hedging Disruption"** means that the Hedging Party(ies) is/are unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), being both transaction(s) and asset(s) the Hedging Transaction(s).

**"Hedging Party(ies)"** means the Issuer and, if any, the entity with which the Issuer agrees the Hedging Transaction(s).

**"Insolvency Filing"** means that the issuer of a Component Security institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to proceedings seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the Component Security shall not be deemed an Insolvency Filing.

#### 4.2 Consequences: upon the Issuer becoming aware of the occurrence of an Additional Disruption Event:

- (i) the Calculation Agent shall, on or after the occurrence of such Additional Disruption Event, substitute the Share Index (the **"Affected Share Index"**) with a new similar index (the **"Substitute Share Index"**) and the Substitute Share Index will be deemed to be the Share Index for the purpose of the Securities. The Calculation Agent will make such adjustments, if any, to any one or more of the relevant Strike Price(s), Initial Price(s), Valuation Price(s), Final Price, Barrier, Weighting and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Securities as the Calculation Agent determines appropriate to account for that Additional Disruption Event and the substitution of the Affected Share Index, using, in lieu of a published level for the Affected Share Index, the published level for the Substitute Share Index multiplied, if need be, as determined by the Calculation Agent, by a linking coefficient to ensure continuity in the condition of the underlying of the Securities. The Calculation Agent shall determine the effective date of the substitution and the adjustments (if any) to the terms of the Securities; or
- (ii) if the Calculation Agent determines that no substitution that it could make under paragraph (i) above will produce a commercially reasonable result, the Calculation Agent will notify the Issuer and the Issuer will early redeem the Securities and therefore pay to the Securityholders

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

**"Related Exchange"** means each exchange or quotation system specified as such for each Share in the Applicable Transaction Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to each Share has temporally relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to each Share on such temporary substitute exchange or quotation system as on the original Related Exchange), provided that where "All Exchanges" is specified as the Related Exchange in the Applicable Transaction Terms, **"Related Exchange"** shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Share.

### 4.2 Consequences:

If an Extraordinary Event occurs in relation to one or more Shares in the Share Basket, subject to paragraph (c) below, the Issuer may take any of the relevant actions described in paragraphs (a) (in the case of a Merger Event or a Tender Offer) and (b) (in the case of a Merger Event, Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event) below as it deems appropriate:

#### (a) Adjustment

Subject to paragraph (c) below, upon the occurrence of (i) a Merger Event, on or after the relevant Merger Date or (ii) a Tender Offer, on or after the relevant Tender Offer Date, require the Calculation Agent to (A) make such adjustment to any one or more of the Relevant Asset and/or the Entitlement (where the Securities are Physical Delivery Securities), the coupon amount or any other terms of the Securities as the Calculation Agent determines appropriate to account for the economic effect on the Securities of such Merger Event or Tender Offer, as the case may be (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Securities), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event or Tender Offer, as the case may be, by an options exchange to options on the relevant Shares traded on such options exchange, and (B) determine the effective date of that adjustment.

#### (b) Substitution

Subject to paragraph (c) below, upon the occurrence of a Merger Event, Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, require the Calculation Agent to, on or after the occurrence of the Merger Date (in the case of a Merger Event), Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, as the case may be, substitute each Share which is affected by such Merger Event, Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, as the case may be (each an **"Affected Share"**) of the relevant Share Issuer (each an **"Affected Share Issuer"**), with a Share selected by it in accordance with the criteria for Share selection set out below (each a **"Substitute Share"**) and the Substitute Share will be deemed to be a **"Share"** and the relevant issuer of such Substitute Share, a **"Share Issuer"** for the purposes of the Securities. The Calculation Agent will make such adjustments, if any, to any one or more of the Relevant Asset and/or the Entitlement (where the Securities are Physical Delivery Securities), the coupon amount or any other terms of the Securities as the Calculation Agent determines appropriate to account for the economic effect on the Securities of such Merger Event, Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, as the case may be (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Securities), which may, but need not, be determined by reference to the adjustment(s) made in respect of Merger Event, Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, as the case may be, by an options exchange to options on the relevant Shares traded on such options exchange, provided that, if any amount payable under the Securities was to be determined by reference to an initial price (the **"Initial Price"**) of any Affected Share, the relevant Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

Where:

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

"B" is the Initial Price of the relevant Affected Share; and

"C" is the fair market value of the relevant Affected Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and adjustments to the Share Basket will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") in its sole and absolute discretion.

The Weighting of each Substitute Share will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must satisfy the following criteria, as determined by the Calculation Agent in its sole and absolute discretion:

- (i) in the case of a Merger Event where the relevant share is not already included in the Share Basket, the relevant share shall be an ordinary share of the entity or person (other than the Affected Share Issuer) involved in the Merger Event that is, or that as of the relevant Merger Date is promptly scheduled to be, (A) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (B) not subject to any currency exchange controls, trading restrictions or other trading limitations; or
- (ii) in the case of a Merger Event where a share would otherwise satisfy the criteria set out in paragraph (i) above, but such share is already included in the Share Basket or such share does not satisfy the criteria set out in paragraph (i) above, or in the case of a Nationalisation, Insolvency Filing, Delisting or Additional Disruption Event, as the case may be:
  - (A) the relevant issuer of the share shall belong to the same economic sector as the Affected Share Issuer; and
  - (B) the relevant issuer of the share shall have a comparable market capitalisation, international standing and exposure as the Affected Share Issuer,

provided that, in the case of Securities listed and admitted to trading on the MOT, the Substitute Share shall be listed on a stock exchange, market or quotation system which is acceptable to Borsa Italiana S.p.A.

(c) Early Redemption

If the Calculation Agent determines that no adjustment that it could make under paragraph (a) above or any substitution that it could make under paragraph (b) above will produce a commercially reasonable result, the Calculation Agent will notify the Issuer that the relevant consequence shall be the early redemption of the Securities and then the Issuer will pay to the Securityholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

**Correction of the Share Price:** in the event that the Share price on the Exchange which is utilised for any calculation or determination made under these Securities is subsequently corrected and the correction is published by the Exchange within one Settlement Cycle after the original publication, the Issuer may notify of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust the terms of these Securities to account for such correction.

**"Scheduled Trading Day (Per Share Index Basis)"** means, in respect of each Share Index, any Scheduled Trading Day on which (i) the relevant Share Index Sponsor is scheduled to publish the level of the Share Index; and (ii) the relevant Related Exchange is scheduled to be open for trading during their respective regular trading session(s).

**"Settlement Level"** means, subject as referred to in relation to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, Observation Date or Valuation Date, as the case may be, (i) if Averaging is not specified in the Applicable Transaction Terms, the Relevant Level for the relevant Settlement Level Date, or (ii) if Averaging is specified in the Applicable Transaction Terms, the arithmetic mean of the Relevant Levels of each Index in the Share Index Basket on each Averaging Date or (iii) if Averaging (Per Index) is specified in the Applicable Transaction Terms, the arithmetic mean of the Relevant Levels for the relevant Index on each Averaging Date, all as determined by or on behalf of the Calculation Agent in a commercially reasonable manner.

**"Settlement Level Date"** means any Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date, as the case may be.

**"Specified Maximum Days of Disruption"** means the number of days specified in the Applicable Transaction Terms, or if not so specified, five Scheduled Trading Days.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

**"Valuation Time"** means (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Share Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the Coupon Valuation Time or the Redemption Valuation Time, as the case may be, specified in the Applicable Transaction Terms or, if no such time is specified, the time at which the official closing level of the Share Index is calculated and published by the Share Index Sponsor.

### 2. MARKET DISRUPTION EVENTS

#### 2.1 "Market Disruption Event" means either:

- (i) (a) the occurrence or existence, in respect of any Component Security, of:
  - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
  - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
  - (3) an Early Closure in respect of such Component Security; and
- (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists and comprises 20 per cent. or more of the level of the Share Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Share Index, of: (a) a Trading Disruption Event; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Share Index shall be based on a comparison of (x) the portion of the level of the Share Index attributable to that Component Security to (y) the overall level of the Share Index, in each case using the official opening weightings as published by the Sponsor as part of the market "opening data".

- 2.2 **"Trading Disruption"** means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to the Share on the Exchange; or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.
- 2.3 **"Exchange Disruption"** means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security; or (ii) futures or options contracts relating to the Share Index on the Related Exchange.
- 2.4 **"Early Closure"** means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

- 2.5 **"Disrupted Day"** means any Scheduled Trading Day on which: (i) the Share Index Sponsor fails to publish the level of the Share Index; (ii) the Related Exchange fails to open for trading during its regular trading session; or (iii) other than in the case of a Share Dividend Index, a Market Disruption Event has occurred. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Automatic Early Redemption Valuation Date, an Averaging Date, a Knock-in Determination Day or a Knock-out Determination Day, an Observation Date or a Valuation Date, as the case may be. Without limiting the obligation of the Calculation Agent to notify the Issuer as set forth in the preceding sentence, failure by the Calculation Agent to notify the Issuer of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day on the Securities.

Where Exchange Business Day (Cross Asset Basis) and Scheduled Trading Day (Cross Asset Basis) are specified as applicable in the Applicable Transaction Terms for (i) Index Linked Securities, (ii) Equity Linked Securities and/or (iii) ETF Linked Securities, a "Disrupted Day" shall also mean any Scheduled Trading Day on which a Disrupted Day occurs under and as defined in the Equity Linked Conditions and/or ETF Linked Conditions.

- 2.6 **"Scheduled Valuation Date"** means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

### 3. ADJUSTMENTS

- 3.1 If any of the Share Indices is (i) not calculated and announced by the Share Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor sponsor acceptable to the Calculation Agent, or (iii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Share Index, then in each case that index (the **"Successor Share Index"**) will be deemed to be the Share Index.

- 3.2 If (i) on or prior to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date, the Share Index Sponsor of any of the Share Indices announces that it will make a material change in the formula for or the method of calculating that Share Index or in any other way materially modifies that Share Index (other than a modification prescribed in that formula or method to maintain that Share Index in the event of changes in constituent stock and capitalisation and other routine events) (a **"Share Index Modification"**) or permanently cancels the Share Index and no Successor Share Index exists (a **"Share Index Cancellation"**) or (ii) on any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date in respect of this Security, the Share Index Sponsor of any of the Indices fails to calculate and announce a relevant Share Index (a **"Share Index Disruption"** and together with a Share Index Modification and a Share Index Cancellation, each a **"Share Index Adjustment Event"**), then the Calculation Agent shall determine if such Share Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant Strike Price(s), Initial Price(s), Valuation Price(s), Final Price, Barrier, and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Securities as the Calculation Agent determines appropriate to account for that Share Index Adjustment Event, using, in lieu of a published level for that Share Index, the level for that Share Index as at that Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Share Index last effect prior to the change, failure or cancellation, but using only those securities that comprised that Share Index immediately prior to that Share Index Adjustment Event;

### 3.3 Correction of Share Index

In the event that any price or level published on the Exchange or by the Share Index Sponsor of any of the Indices and which is utilised for any calculation or determination made under the Securities is subsequently corrected and the correction is published by the Exchange or the Share Index Sponsor within one Settlement Cycle after the original publication, the Issuer may notify the Securityholder of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

**"Settlement Cycle"** means, in respect of any the Indices, the period of Clearance System Business Days following a trade in such shares on the Exchange in which settlement will customarily occur according to the rules of the Exchange (if there are multiple Exchanges in respect of the Share Index, the longest such period).

**"Clearance System Business Day"** means, in respect of a clearance system, any day on which such clearance system is (but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

**"Settlement Disruption Event"** means, in respect of a Component Security, an event beyond the control of the Hedging Party(ies) as a result of which the relevant clearance system cannot clear the transfer of such Component Security.

### 4. ADDITIONAL DISRUPTION EVENTS

#### 4.1 Definitions:

**"Additional Disruption Event"** means any of the following events:

**"Change in Law"** means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Hedging Party(ies) determine(s) in good faith that (X) it has become illegal to hold, acquire or dispose of Shares relating to the Hedging Transaction(s), or (Y) it will incur a materially increased cost in performing its obligations (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**"Hedging Disruption"** means that the Hedging Party(ies) is/are unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), being both transaction(s) and asset(s) to the Hedging Transaction(s).

**"Hedging Party(ies)"** means the Issuer and, if any, the entity with which the Issuer agrees the Hedging Transaction(s).

**"Insolvency Filing"** means that the issuer of a Component Security institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to proceedings seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the Component Security shall not be deemed an Insolvency Filing.

#### 4.2 Consequences: upon the Issuer becoming aware of the occurrence of an Additional Disruption Event:

- (i) the Calculation Agent shall, on or after the occurrence of such Additional Disruption Event: (1) substitute each Share Index affected by such Additional Disruption Event (each an **"Affected Share Index"**) with a new similar index (each a **"Substitute Share Index"**) and each Substitute Share Index will be deemed to be a Share Index for the purpose of the Securities. The Calculation Agent will make such adjustments, if any, to any one or more of the Strike Price(s), Initial Price(s), Valuation Price(s), Final Price, Barrier, and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Securities as the Calculation Agent determines appropriate to account for that Additional Disruption Event, using, in lieu of a published level for each Affected Share Index, the published level for the relevant Substitute Share Index multiplied, if need be, as determined by the Calculation Agent, by a linking coefficient to ensure continuity in the condition of the underlying of the Securities. The Calculation Agent shall determine the effective date of the substitution and the adjustments (if any) to the terms of the Securities; or

## **ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES**

- (ii) if the Calculation Agent determines that no substitution that it could make under sub-paragraph (i) above will produce a commercially reasonable result, the Calculation Agent will notify the Issuer and the Issuer will early redeem the Securities and therefore pay to the Securityholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED SECURITIES

### ANNEX 2 ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED SECURITIES

The terms and conditions applicable to Inflation Linked Securities shall comprise the Terms and Conditions of the Securities (the "**Conditions**") and the additional terms and conditions for Inflation Linked Securities linked to one or more Inflation Indices set out below (the "**Inflation Linked Conditions**"), in each case subject to completion in the Applicable Transaction Terms. The definitions set out in Annex 1 (*Additional Terms and Conditions for Equity Linked Securities*) will also apply in relation to a Series of Inflation Linked Securities unless the context otherwise requires, or such term is defined otherwise herein, and for the purposes of such definitions, the definition of Share Index shall be deemed to be a reference to Inflation Index.

In the event of any inconsistency between the Conditions and the Inflation Linked Conditions, the Inflation Linked Conditions shall prevail. In the event of any inconsistency between the Inflation Linked Conditions and the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or the Inflation Linked Conditions and (ii) the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), shall prevail.

#### Section 1

##### Inflation Index Description

##### 1. Delay of Publication

If any level of an Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Securities and/or any other determination in respect of the Securities (a "**Relevant Level**") has not been published or announced by the day that is five Business Days prior to the next Determination Date, the Calculation Agent shall determine a Substitute Inflation Index Level (in place of such Relevant Level) as follows:

- 1.1 if Related Bond is specified as applicable in the relevant Applicable Transaction Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- 1.2 if (i) Related Bond is specified as not applicable in the relevant Applicable Transaction Terms, or (ii) the Calculation Agent is not able to determine a Substitute Inflation Index Level under paragraph 1.1 above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$$[Substitute\ Inflation\ Index\ Level = Base\ Level \times (Latest\ Level/Reference\ Level)];\ or$$

- 1.3 otherwise in accordance with any formula specified in the relevant Applicable Transaction Terms,

where:

**"Base Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

**"Latest Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

**"Reference Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Determination Date, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this paragraph 1 (*Delay of Publication*), will be the definitive level for that Reference Month.

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED SECURITIES

### 2. Cessation of Publication

If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Calculation Agent shall determine a Successor Inflation Index (in lieu of any previously applicable Inflation Index) for the purposes of the Securities by using the following methodology:

- (a) If at any time a Successor Inflation Index has been designated by the Calculation Agent pursuant to the terms and conditions of the Related Bond, such Successor Inflation Index shall be designated a "Successor Inflation Index" for the purposes of all subsequent Determination Dates, notwithstanding that any other Successor Inflation Index may previously have been determined under Paragraph 2(b), 2(c) or 2(d) below; or
- (b) If a Successor Inflation Index has not been determined under Paragraph 2(a) above and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect; or
- (c) If a Successor Inflation Index has not been determined under Paragraph 2(a) or 2(b) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement Inflation Index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to Paragraph 2(d) below; or
- (d) If no Successor Inflation Index has been deemed under Paragraph 2(a), 2(b) or 2(c) above by the fifth Business Day prior to the next Determination Date the Calculation Agent will determine an appropriate alternative index for such Determination Date, and such index will be deemed a "Successor Inflation Index", the Calculation Agent shall determine the method of determining the Relevant Level if no such alternative Inflation Index is available.

### 3. Rebasing of the Inflation Index

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Inflation Index**") will be used for purposes of determining the level of such Inflation Index from the date of such rebasing; **provided, however, that** the Calculation Agent shall make such adjustments as are made by the Calculation Agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

### 4. Material Modification Prior to Determination Date

If, on or prior to the day that is five Business Days before a Determination Date, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index then the Calculation Agent shall make any such adjustments to the Inflation Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

### 5. Manifest Error in Publication

If, within 30 days of publication and prior to the redemption of the Securities or payments in respect of any relevant Determination Date in relation to the Securities, the Calculation Agent determines that the

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED SECURITIES

Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will notify the holders of the Securities in accordance with Condition 14 (*Notices*) of (i) that correction, (ii) the adjusted amount that is then payable under the Securities as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, **provided that** any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Determination Date has occurred, within five Business Days after notice of such amount payable by the Calculation Agent, (b) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Determination Date has not occurred, as an adjustment to the payment obligation on the next Determination Date, or (c) if there is no further Determination Date, within five Business Days after notice of such amount, payable by the Calculation Agent.

### 6. Inflation Index Level Adjustment Correction

In relation to any inflation index, unless otherwise specified in the definition of the relevant Inflation Index set out in Section 3 (*Inflation Indices*) of this Annex 2 (*Additional Terms and Conditions for Inflation Linked Securities*), as specified in the Applicable Transaction Terms, either: (i) the first publication or announcement of the level of the Inflation Index (disregarding estimates) by the relevant Inflation Index Sponsor for any Reference Month shall be final and conclusive and, subject to this Condition 6, later revisions to the level of the Inflation Index for such Reference Month will not be used in any calculations; or (ii) the first publication or announcement of a level of the Inflation Index (disregarding estimates) published by the relevant Inflation Index Sponsor or, if revised, any subsequent revision of such level for a Reference Month shall be final and conclusive for such Reference Month, provided that such revisions are published or announced up to and including the day that is two Business Days prior to any relevant Determination Date.

### 7. Additional Disruption Events:

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Securities shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Securities shall continue, the Calculation Agent may make such adjustment as the Calculation Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption or payment terms of the relevant Securities and/or any other adjustment which change or adjustment shall be effective on such date as the Calculation Agent shall determine.
- (c) If the Issuer determines that the relevant Securities shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Securities and the Issuer's obligations under the Securities shall be satisfied in full upon payment in respect of each Security of an amount equal to the fair market value of such Security, on such day as is selected by the Calculation Agent in its sole and absolute discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Security), less the proportion attributable to that Security of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Calculation Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Calculation Agent of the occurrence of an Additional Disruption Event.

**"Determination Date"** means an Interest Payment Date, Maturity Date or other relevant payment date as may be specified in the Applicable Transaction Terms in relation to the Securities;

**"Fallback Bond"** means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

**"Hedge Positions"** means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, commodities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Securities;

**"Inflation Index Sponsor"** means, in respect of an Inflation Index, the entity specified as such in the relevant Applicable Transaction Terms or, if no entity is specified, the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index;

**"Reference Month"** means the calendar month for which the level of the relevant Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month will be the period for which the Inflation Index level was reported;

**"Related Bond"** means the bond specified in the relevant Applicable Transaction Terms, or if no bond is so specified, the Fallback Bond. If the Related Bond is the "Fallback Bond", then for any Related Bond determination under these Conditions, the Calculation Agent shall use the Fallback Bond (as that is defined in this Section 2 (*Definitions*) hereof). If no bond is specified in the relevant Applicable Transaction Terms as the Related Bond and "Fallback Bond: Not applicable" is specified in the relevant Applicable Transaction Terms there will be no Related Bond. If a bond is selected as the Related Bond in the relevant Applicable Transaction Terms, and that bond redeems or matures before the relevant

In considering whether the occurrence of an event or set of circumstances triggers an Extraordinary Fund Event, the Calculation Agent may have regard to the combined effect, from the Trade Date, of any event or set of circumstances, as the case may be, if such event or set of circumstances occurs more than once.

### 4. Consequences of an Extraordinary Fund Event

- (i) determine the weighted average price at which a Hypothetical Investor can redeem the Fund Shares in the relevant Fund in such number as determined by the Calculation Agent in its sole and absolute discretion as soon as it is reasonably practicable following the Extraordinary Fund Event;
- (ii) for a period of no longer than 14 calendar days following the date on which a Hypothetical Investor would have received proceeds from a redemption order in full submitted by the Hedge Provider as soon as practicable following the occurrence of an Extraordinary Fund Event, use reasonable efforts to substitute the Fund Shares with shares, units or other similar interests in an alternative fund which, in the sole and absolute determination of the Calculation Agent, has similar characteristics to the relevant Fund, including, but not limited to, comparable investment objectives, investment restrictions and investment processes and has service providers acceptable to the Calculation Agent; and
- (iii) if no alternative fund can be determined pursuant to sub-paragraph (ii) above, use reasonable efforts to substitute the Fund with an index (or a fund tracking such index) selected by the Calculation Agent in its sole and absolute discretion,

and following any substitution in accordance with sub-paragraph (ii) or (iii) above, the Issuer or, as the case may be, the Guarantor may, in its sole and absolute discretion, require the Calculation Agent to make such determinations and/or adjustments to these Terms and Conditions and/or the Applicable Transaction Terms as it determines to be appropriate to take account of such Substitution.

In the event of any inconsistency between the Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail.*

*Defined terms used in these Credit Linked Conditions or the related section of the Applicable Transaction Terms where the same term may be used in another Annex to the Conditions (e.g. Valuation Date) shall have the meanings given in these Credit Linked Conditions or in the section of the Applicable Transaction Terms relating to Credit Linked Securities.*

Unless otherwise stated in these Credit Linked Conditions or in the Applicable Transaction Terms, in the event that any day specified in the section "Credit Linked Security Provisions" in the Applicable Transaction Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Securities for which more than one Reference Entity or Index is specified in the Applicable Transaction Terms, all references to "the Reference Entity" or to "the Index" herein shall be construed to refer to the Reference Entity or the Index in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Credit Linked Securities will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity or Index does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Credit Linked Securities may take the form of Single Reference Entity Credit Linked Securities, First-to-Default Credit Linked Securities, Nth-to-Default Credit Linked Securities, Linear Basket Credit Linked Securities, Index Credit Linked Securities or Long/Short Credit Linked Securities. In the case of Linear Basket Credit Linked Securities and Index Credit Linked Securities, the Securities may be either Non-Tranched ("**Non-Tranched Linear Basket Credit Linked Securities**") or "**Non-Tranched Index Credit Linked Securities**", as the case may be) to which either Credit Payment on Maturity or Credit Payment As You Go will apply or Tranched ("**Tranched Linear Basket Credit Linked Securities**") or "**Tranched Index Credit Linked Securities**") (as the case may be). In addition, Index Credit Linked Securities may be Basket Tranched Index Credit Linked Securities ("**Basket Tranched Index Credit Linked Securities**"). Notwithstanding the use of the term "Index", Index Credit Linked Securities are not Index Linked Securities. A Credit Linked Security may also be a Zero Coupon Security.

Credit Linked Securities may be issued in respect of which:

- (a) "Credit Linked Interest" is applicable but "Credit Linked Redemption" is not applicable;
- (b) "Credit Linked Interest" is not applicable but "Credit Linked Redemption" is applicable; and
- (c) "Credit Linked Interest" and "Credit Linked Redemption" are both applicable.

If "Credit Linked Interest" is applicable, Credit Linked Condition 5 (*Accrual of Interest*) shall apply in respect of the Securities. If "Credit Linked Interest" is not applicable, Credit Linked Condition 5 (*Accrual of Interest*) shall not apply in respect of the Securities.

If "Credit Linked Redemption" is applicable, Credit Linked Condition 1 (*Redemption of Credit Linked Securities*) and other Credit Linked Conditions relevant in respect of redemption following the occurrence of a Credit Event Determination Date shall apply in respect of the Securities. If "Credit Linked Redemption" is not applicable, Credit Linked Condition 1 (*Redemption of Credit Linked Securities*) and other Credit Linked Conditions relevant

in respect of redemption following the occurrence of a Credit Event Determination Date shall not apply in respect of the Securities.

The Applicable Transaction Terms shall specify, inter alia:

- (a) the type of Credit Linked Securities;
- (b) whether the "Credit Linked Interest" and/or "Credit Linked Redemption" is applicable;
- (c) the Settlement Method (if applicable) and, where Auction Settlement applies, the applicable Fallback Settlement Method;

- (f) the Trade Date, the Scheduled Maturity Date and if different from the Scheduled Maturity Date, the Credit Observation End Date;
- (g) the Reference Entity Notional Amount (if applicable) in respect of each Reference Entity;
- (h) the Long Nominal Exposure Percentage and the Short Nominal Exposure Percentage (if applicable) in respect of the Long/Short Credit Linked Securities;
- (i) "H" and "L" in the case of Tranching Linear Basket Credit Linked Securities;
- (j) the Attachment Point(s) and the Exhaustion Point(s) in the case of Tranching Index Credit Linked Securities or Basket Tranching Index Credit Linked Securities;
- (k) the Credit Multiplier, the Credit Event Reduction Factor and LLM and/or SLM (in each case to the extent applicable); and
- (l) the Transaction Type applicable to each Reference Entity if Standard Terms is specified as being applicable in the Applicable Transaction Terms.

Certain elections in respect of Credit Linked Securities and one or more Reference Entities may be made by specifying that the Standard Terms is applicable in the Applicable Transaction Terms.

In the case of Index Credit Linked Securities, certain information relating to the Credit Index will be as specified in the Index Annex named in the Credit Applicable Transaction Terms.

The application of any of Credit Linked Conditions 6 (*Repudiation/Moratorium Extension*), 7 (*Grace Period Extension*), 8 (*Credit Derivatives Determinations Committee Extension*), 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Securities*) or 11 (*Settlement Suspension*) shall, for the avoidance of doubt, not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such provisions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such provisions, the Calculation Agent may elect in its discretion which provision shall apply and under which provision or provisions it shall exercise its discretion.

### **1. Redemption of Credit Linked Securities**

- (a) Unless previously redeemed or purchased and cancelled and provided that a Credit Event Determination Date has not occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Security on the Maturity Date by payment of the Final Redemption Amount. If a Credit Event Determination Date has occurred in respect of any Reference Entity and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, the Issuer shall redeem each Credit Linked Security as described below. References in these Credit Linked Conditions to a Credit Linked Security or a Security are, unless the context otherwise requires, to a principal amount of Credit Linked Securities equal to the Calculation Amount. Any payment of a "pro rata" amount in respect of a Security will be determined by reference to its principal amount relative to the then Aggregate Principal Amount of the Securities.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

- (b) Where the Securities are Single Reference Entity Credit Linked Securities and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Securities will be settled in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*) or Credit Linked Condition 4 (*Physical Settlement*), as applicable or, if the Securities are Zero/Set Recovery Securities, the provisions of paragraph (h) below will apply.
- (c) Where the Securities are First-to-Default Credit Linked Securities, if a Credit Event Determination Date has occurred in relation to any of the specified Reference Entities and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, then the Securities will be settled in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*), Credit Linked Condition 4 (*Physical Settlement*) or the provisions of paragraph (h) below, as applicable, in relation only to the First Reference Entity (as defined in the definition of Credit Event Determination Date) or, if the Securities are Zero/Set Recovery Securities, the provisions of paragraph (h) below will apply.
- (d) Where the Securities are Nth-to-Default Credit Linked Securities, if a Credit Event Determination Date has occurred in relation to one or more of the specified Reference Entities and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, notwithstanding any provision to the contrary in these Credit Linked Conditions, no settlement in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*), Credit Linked Condition 4 (*Physical Settlement*), or the provisions of paragraph (h) below, as applicable, will occur until such time as a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities (a "**Trigger**"). The Reference Entity in respect of which a Credit Event Determination Date has occurred which causes the Trigger to occur is referred to as the "**Triggering Reference Entity**" and the Relevant Number is the number specified as such in the Applicable Transaction Terms. As of the day on which the Calculation Agent determines that a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities then (i) Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*) or Credit Linked Condition 4 (*Physical Settlement*), as applicable, shall apply in relation only to the Triggering Reference Entity or (ii) if the Securities are Zero/Set Recovery Securities, the provisions of paragraph (h) below will apply.
- (e) Where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities to which Credit Payment on Maturity applies, Tranched Linear Basket Credit Linked Securities, Tranched Index Credit Linked Securities, Basket Tranched Index Credit Linked Securities or Long/Short Credit Linked Securities, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, then, in respect of each Credit Linked Security, each Security shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, subject as provided in paragraph (i) below.

For the avoidance of doubt, this paragraph (e) will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

In respect of Tranched Linear Basket Credit Linked Securities and for the avoidance of doubt, where a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or less than L (as defined below), then the Credit Event Redemption Amount will be par.

In respect of Tranched Index Credit Linked Securities and for the avoidance of doubt, where the Attachment Point is not exceeded by the Aggregate Loss Percentage following the occurrence of any Credit Event Determination Date, then the Credit Event Redemption Amount will be par.

In respect of Basket Tranched Index Credit Linked Securities and for the avoidance of doubt, where the relevant Attachment Point is not exceeded by the relevant Aggregate Loss Percentage following the occurrence of any Credit Event Determination Date in respect of each of the Basket Tranched Index Components, then the Credit Event Redemption Amount will be par.

Prior to each date on which a payment is due on the Credit Linked Securities, the Issuer shall procure that Securityholders are notified in accordance with Condition 14 (*Notices*) of each Credit Event that has occurred since the previous payment date, provided that any delay or failure in the delivery of a such notice shall not affect the validity of any Credit Event Determination Date.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

- (f) Where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities to which Credit Payment As You Go applies and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Securityholders in accordance with Condition 14 (*Notices*) and (ii) in respect of each Credit Linked Security:
- (i) the Issuer shall pay as an Instalment Amount for the purposes of Condition 6(g) (*Redemption by Instalments*) an amount equal to the relevant Credit Event Amount, if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date; and
  - (ii) each Security shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if on or prior to the Credit Event Redemption Date and save where any Floored Amount is payable, a Credit Event Determination Date has occurred in respect of all the specified Reference Entities each Credit Linked Security will be redeemed (together with accrued interest, if any) at the final Credit Event Amount on the final Credit Event Payment Date, subject as provided in paragraph (i) below

For the avoidance of doubt part (i) of this provision will apply and part (ii) of this provision will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (g) Where only a part of an issuance of Securities is credit linked (which will be the case where the Credit Multiplier is less than 1), references in these Credit Linked Conditions to the "Scheduled Maturity Date" shall be references to the Scheduled Maturity Date of the credit linked part of the Securities only and notwithstanding any other provision of the Conditions, the Maturity Date of the Securities shall be the later of the Maturity Date determined in accordance with these Credit Linked Conditions, and the final Instalment Date specified in the Applicable Transaction Terms.
- (h) Where the Securities are Zero/Set Recovery Securities then if a Credit Event Determination Date has occurred in respect of any Reference Entity (in the case of Single Reference Entity Credit Linked Securities, Linear Basket Credit Linked Securities, Index Credit Linked Securities, First-to-Default Credit Linked Securities or Long/Short Credit Linked Securities) or in respect of the Triggering Reference Entity (in the case of Nth- to-Default Credit Linked Securities) then following a Credit Event Determination Date in respect of any such Reference Entity the provisions of Credit Linked Conditions 2 (*Auction Settlement*), 3 (*Cash Settlement*) or 4 (*Physical Settlement*) will not apply but (i) each Single Reference Entity Credit Linked Security, First-to-Default Credit Linked Security and Nth-to-Default Credit Linked Security will be redeemed by payment of the Credit Event Redemption Amount, if any, on the Credit Event Redemption Date together with accrued interest, if any, and (ii) each Linear Basket Credit Linked Security, Index Credit Linked Security or Long/Short Credit Linked Security may be redeemed (or otherwise) as provided in paragraph (e) or (f) above, as applicable and/or paragraph (i) below, if applicable.
- (i) Where any Credit Event Redemption Amount is zero (whether the Securities are Zero/Set Recovery Securities or otherwise) then, other than for the payment of any accrued interest or any other due but unpaid amounts or any interest amount not subject to the Credit Linked Conditions, the Securities will be cancelled as of the Credit Event Redemption Date or, if other, the day on which it is determined that the Credit Event Redemption Amount is or would be, were it to be so calculated in respect of such day, zero with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit Linked Securities.
- (j) For the avoidance of doubt, the aggregate outstanding principal amount in respect of Zero Coupon Securities is equal to 100 per cent. of their face amount.
- (k) For the avoidance of doubt the provisions of Credit Linked Conditions 6 (*Repudiation/Moratorium Extension*), 7 (*Grace Period Extension*), 8 (*Credit Derivatives Determinations Committee Extension*), 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Securities*) and 11 (*Settlement Suspension*) may each apply to First-to-Default Credit Linked Securities and Nth-to-Default

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

Credit Linked Securities meaning that subject to paragraph 1(g) above, the Maturity Date may be delayed beyond the Scheduled Maturity Date in certain circumstances.

- (l) If any purchase and cancellation of Securities occurs under Condition 6(d) (*Purchases*) or any further issue under Condition 13 (*Further Issues*), the Calculation Agent will make such adjustments to the Applicable Transaction Terms and/or these Credit Linked Conditions as it determines appropriate (including Reference Entity Notional Amounts) to ensure the Securities continue to reflect economic intentions.

### 2. Auction Settlement

- (a) Where Auction Settlement is specified as the applicable Settlement Method in the Applicable Transaction Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an "**Auction Settlement Notice**") to the Securityholders in accordance with Condition 14 (*Notices*) of the relevant Credit Event and Credit Event Determination Date, provided that, if the Issuer has notified Securityholders of the relevant Credit Event and Credit Event Determination Date pursuant to the last paragraph of Credit Linked Condition 1(e) (*Redemption of Credit Linked Securities*) such notice shall constitute the Auction Settlement Notice in respect of such Credit Event, and, subject to these Credit Linked Conditions where "Credit Linked Redemption" is specified as applicable in the Applicable Transaction Terms only, in particular Credit Linked Condition 1 (*Redemption of Credit Linked Securities*), redeem all but not some only of the Credit Linked Securities, each Credit Linked Security being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Credit Linked Specified Currency on the Credit Event Redemption Date.
- (b) Unless settlement has occurred in accordance with paragraph (a) above, if:
  - (i) an Auction Cancellation Date occurs;
  - (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
  - (iii) a DC Credit Event Question Dismissal occurs; or
  - (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred in respect of the relevant Credit Event on or prior to the date falling three Business Days after such Credit Event Determination Date:

then:

- (x) if Fallback Settlement Method – Cash Settlement is specified as applicable in the Applicable Transaction Terms, the Issuer shall redeem the Credit Linked Securities in accordance with Credit Linked Condition 3 (*Cash Settlement*); or
- (y) if Fallback Settlement Method – Physical Delivery is specified as applicable in the Applicable Transaction Terms, the Issuer shall redeem the Credit Linked Securities in accordance with Credit Linked Condition 4 (*Physical Settlement*).

*If a Credit Event Determination Date has occurred and the Securities become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Credit Linked Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Securities in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Securities.*

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

### 3. Cash Settlement

If a Credit Event Determination Date has occurred, then where Cash Settlement is specified as the applicable Settlement Method in the Applicable Transaction Terms or if Credit Linked Condition 2(b)(iv)(x) (*Auction Settlement*) above applies, the Issuer shall give notice (such notice a "**Cash Settlement Notice**") to the Securityholders in accordance with Condition 14 (*Notices*), and, where "Credit Linked Redemption" is specified as applicable, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1 (*Redemption of Credit Linked Securities*), redeem all but not some only of the Credit Linked Securities, each Credit Linked Security being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Credit Linked Specified Currency on the Credit Event Redemption Date.

If Cash Settlement applies and "Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then, unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be included in the Valuation Obligations Portfolio only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If Cash Settlement applies and "Mod Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be included in the Valuation Obligations Portfolio only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

***If a Credit Event Determination Date has occurred and the Securities become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Credit Linked Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Securities in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Securities.***

### 4. Physical Settlement

If a Credit Event Determination Date has occurred, then where Physical Delivery is specified as the applicable Settlement Method in the Applicable Transaction Terms or if Credit Linked Condition 2(b)(iv)(y) (*Auction Settlement*) above applies, then, subject to any prior redemption, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a "Notice of Physical Settlement") to the Securityholders in accordance with Condition 14 (*Notices*), and where "Credit Linked Redemption" is specified as applicable subject to these Credit Linked Conditions, in particular Credit Linked Condition 1 (*Redemption of Credit Linked Securities*), redeem all but not some only of the Credit Linked Securities, each Credit Linked Security being redeemed by the Issuer by the Delivery of the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the Terms and Conditions of the Securities and these Credit Linked Conditions. Where Asset Package Delivery applies, the provisions of the second paragraph of the definition of "Deliver" shall apply and the Calculation Agent may make any adjustment in relation to provisions for physical delivery and determination of the Entitlement to take account of the relevant Asset Package.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value. The Notice of Physical Settlement shall include (i) details of the relevant Reference Entity, (ii) the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation. The aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer intends to Deliver shall be the relevant "**Aggregate Outstanding Amount**".

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Securityholders in accordance with Condition 14 (*Notices*), (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Securityholders in accordance with Condition 14 (*Notices*), prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Securityholders (in accordance with Condition 14 (*Notices*)) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If Physical Settlement applies and "Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then, unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If Physical Settlement applies and "Mod Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

*If a Credit Event Determination Date has occurred and the Securities become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged*

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

*its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the principal amount of a Credit Linked Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Securities in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Securities.*

### 5. Accrual of Interest

- (a) Where "Credit Linked Interest" is specified in the Applicable Transaction Terms to not apply or the Credit Linked Conditions are specified in the Applicable Transaction Terms not to apply to any interest provisions of the Securities then, notwithstanding the occurrence of a Credit Event Determination Date, for such purposes, each Security will continue to bear interest in accordance with Condition 5(a)(ii) (*Accrual of Interest*) up to but excluding the Scheduled Maturity Date (with such date being deemed to be the final Interest Payment Date).
- (b) If "Credit Linked Interest" is applicable but "Credit Linked Redemption" is not applicable, then notwithstanding that "Credit Linked Redemption" is not applicable, any notice that the Issuer would be obliged under the Credit Linked Conditions to provide to Securityholders if "Credit Linked Redemption" were applicable, shall nevertheless be provided to Securityholders unless the Calculation Agent determines that such notice is not relevant given "Credit Linked Redemption" is not applicable.
- (c) Where the Securities are Single Reference Entity Credit Linked Securities, First-to-Default Credit Linked Securities, or Nth-to- Default Credit Linked Securities, and "Credit Linked Interest" is specified as applicable in the Applicable Transaction Terms, then, subject as provided in paragraph (d) below in respect of Nth-to-Default Credit Linked Securities, if and to the extent that:
  - (i) "Accrual of Interest up to Credit Event" is specified in the Applicable Transaction Terms as not applicable to any interest provisions of the Securities then, notwithstanding Condition 6(a)(ii)(ii) (*Accrual of Interest*), each Security to which the Credit Linked Conditions apply shall, to the extent to which "Credit Linked Interest" is expressed to apply to such Securities, cease to bear interest from the Interest Payment Date immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Payment Date such Interest Payment Date, or, if the Credit Event Determination Date falls prior to the first Interest Payment Date, no interest shall accrue on the Securities; or
  - (ii) "Accrual of Interest up to Credit Event" is specified in the Applicable Transaction Terms as applicable to any interest provisions of the Securities then, notwithstanding Condition 6(a)(ii) (*Accrual of Interest*), each Security to which the Credit Linked Conditions apply shall, to the extent to which "Credit Linked Interest" is expressed to apply to such Securities, cease to bear interest from the Credit Event Determination Date with such accrued interest being determined for this purpose as though the Credit Event Determination Date was an Interest Payment Date but accrued interest will only be payable on the Credit Event Redemption Date; and

provided that, in the case of paragraph (i) or (ii) above if:

- (x) Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), Credit Linked Condition 7 (*Grace Period Extension*) or Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*) applies in respect of the Securities and, in the case of Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 7 (*Grace Period Extension*), a Failure to Pay has not occurred on or prior to the Grace Period Extension Date or, in the case of Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*), a Credit Event has not occurred on or prior to the DC Cut-off Determination Date, as the case may be; and/or
- (y) Credit Linked Condition 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Securities*) applies in respect of the Securities and a Credit Event Determination Date or the Repudiation/Moratorium Extension Condition, as applicable, has not occurred or are not satisfied on or prior to the Postponed Maturity Date,

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

then to the extent that "Credit Linked Interest" is expressed to apply to the Securities, interest will accrue as provided in Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), Credit Linked Condition 7 (*Grace Period Extension*), Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*) or Credit Linked Condition 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Securities*), as the case may be.

- (d) Where the Securities are Nth-to-Default Credit Linked Securities and "Credit Linked Interest" is applicable, no interest adjustment in accordance with this Credit Linked Condition 5 will occur until such time as a Trigger has occurred. As of the day on which the Calculation Agent determines that a Trigger has occurred, then the Credit Event Determination Date will be deemed to have occurred only on such day.
- (e) Where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities to which Credit Payment on Maturity applies, Tranched Linear Basket Credit Linked Securities, Tranched Index Credit Linked Securities, Basket Tranched Index Credit Linked Securities or Long/Short Credit Linked Securities, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity and "Credit Linked Interest" is specified as applicable then, in respect of each Credit Linked Security unless the Credit Linked Security is a Zero Coupon Security, the interest calculation basis described in paragraph (g) below will apply.

For the avoidance of doubt this paragraph (e) will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

- (f) Where the Securities are Non-Tranched Linear Basket Credit Linked Securities or Non-Tranched Index Credit Linked Securities to which Credit Payment As You Go applies and "Credit Linked Interest" is specified as applicable then, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Securityholders in accordance with Condition 14 (*Notices*) and (ii) in respect of each Credit Linked Security unless the Credit Linked Security is a Zero Coupon Security, the interest calculation basis described in paragraph (g) below will apply.

For the avoidance of doubt paragraph (f) above will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (g) In the case of Linear Basket Credit Linked Securities or Index Credit Linked Securities or Long/Short Credit Linked Securities, each Security will bear interest pursuant to, and in accordance with, Condition 5 (*Interest Provisions*), and for such purposes the Calculation Amount shall be deemed to be each Security's *pro rata* share of the Adjusted Credit Outstanding Nominal Amount (provided that, in the case of Partly Paid Securities the Outstanding Principal Amount of the Securities shall be deemed to be the Adjusted Credit Outstanding Nominal Amount), in each case on the relevant Interest Payment Date or the relevant date for payment pursuant to Credit Linked Conditions 6 (*Repudiation/Moratorium Extension*), 7 (*Grace Period Extension*), 8 (*Credit Derivatives Determinations Committee Extension*), 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Securities*) or 11 (*Settlement Suspension*). For the avoidance of doubt, this paragraph (g) is intended to apply to Linear Basket Credit Linked Securities or Index Credit Linked Securities or Long/Short Credit Linked Securities which are Zero Coupon Securities, subject to the provisions of paragraph (h) below.

**"Partial Cash Settlement Amount"** is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, determined as provided in this Credit Linked Condition less if applicable (C) a *pro rata* share of Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero provided that where (i) the relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and the Calculation Agent determines in its sole discretion that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation or Hedge Disruption Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent in its sole discretion equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs.

**"Partial Cash Settlement Date"** is deemed to be the date falling three Business Days after the calculation of the Final Price.

**"Quotation"** means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the Applicable Transaction Terms, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation or Hedge Disruption Obligation with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Securities in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent in its sole and absolute discretion; and

Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.

For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

### 18. Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 15 September 2014)

- (a) If this Credit Linked Condition 18 is specified as applicable in the Applicable Transaction Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply: provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Obligation" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*), and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Deliverable Obligation" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed by reference to the Prior Reference Obligation;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:
  - (i) **"Reference Obligation"** means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the Applicable Transaction Terms or set forth on the relevant LPN Reference Obligations List (each a **"Markit Published LPN Reference Obligation"**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, any Additional LPN and each Additional Obligation; and
  - (ii) the following additional definitions shall apply:

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

**"Additional LPN"** means any bond issued in the form of a loan participation note (a **"LPN"**) by an entity (the **"LPN Issuer"**) for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the **"Underlying Loan"**) or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the **"Underlying Finance Instrument"**), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

**"Additional Obligation"** means each of the obligations listed as an Additional Obligation of the Reference Entity in the Applicable Transaction Terms or set forth on the relevant LPN Reference Obligations List (each a **"Markit Published LPN Reference Obligation"**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date.

**"First Ranking Interest"** means a charge, security interest (or other type of interest having similar effect) (an **"Interest"**), which is expressed as being **"first ranking"**, **"first priority"**, or similar (**"First Ranking"**) in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

**"LPN Reference Obligation"** means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

### 19. Amendment of Credit Linked Conditions

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions (i) to incorporate and/or reflect (a) further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or (b) the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect or account for a Hedge Disruption Event. Any amendment made in accordance with this Credit Linked Condition 19 shall be notified to the Securityholders in accordance with Condition 14 (*Notices*).

### 20. Early redemption of Reference Obligation Only Securities following a Substitution Event

If the Securities are Reference Obligation Only Securities relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) interest (if any) shall cease to accrue on the Credit Linked Securities from and including the Interest Payment Date immediately preceding the relevant Substitution Event Date or, if no Interest Payment Date has occurred, no interest will accrue on the Credit Linked Securities; and
- (b) each principal amount of Credit Linked Securities equal to the Calculation Amount set out in the Applicable Transaction Terms will be redeemed by the Issuer at its relevant Reference Obligation Only Termination Amount specified in, or determined in the manner specified in,

### 21. DC Resolution Adjustment Events

If following the publication of a DC Resolution (the "**Prior DC Resolution**"), a further DC Resolution (the relevant "**Further DC Resolution**") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may, in its sole and absolute discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the Conditions or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements.

### 22. Physical Delivery

### *French Law Securities*

In order to receive the Entitlement in respect of a Physical Delivery Security, the relevant Securityholder must arrange for the French Law Securities Account Holder through which the French Law Securities are held to deliver on its behalf to the French Paying Agent, with a copy to the Issuer and the Delivery Agent, not later than the close of business in each place of receipt on the Cut-off Date, a duly completed Asset Transfer Notice.

the Issuer shall, at the risk of the relevant Securityholder, Deliver or procure the Delivery of the Entitlement of each Security, pursuant to the details specified in the Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, or in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Securityholder in the relevant Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, on the Credit Settlement Date. Where the Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, stipulates that the Entitlement should be Delivered to a specified clearing system, the Issuer's or the Guarantor's obligation to Deliver such Entitlement will be discharged by Delivery to, or to the order of, the relevant clearing system and each of the persons shown in the records of the relevant clearing system as the account holder must look solely to the relevant clearing system for his share of any Entitlement so Delivered.

#### (ii) If a Securityholder fails to give an Asset Transfer Notice or (in the case of Book-Entry Securities) an Iberclear Settlement Instruction as provided herein with a copy to the Principal Paying Agent or the Issuer, as applicable, on or prior to the Cut-Off Date, then:

Securityholder, to, or to the order of, any relevant Clearance System(s) in which the Securities are held and its obligation to Deliver any such Entitlement so Delivered shall be discharged thereby. Each of the persons shown in the records of the relevant Clearance System as the holder of a particular amount of the Securities must look solely to the relevant Clearance System for his share of each such Entitlement so Delivered to, or to the order of, such Clearance System. For the purposes of paragraph (iv) below, each Clearance System will be deemed to be a single Securityholder and each Clearance System will be requested to divide and deliver such Entitlements in accordance with its rules; or

- (B) the Entitlement(s) will be Delivered as soon as practicable after the Scheduled Credit Settlement Date (in which case, such date of Delivery shall be deemed to be the Credit Settlement Date) at the risk of such Securityholder in the manner provided below, provided that if, in respect of a Security, an Asset Transfer Notice or an Iberclear Settlement Instruction (as applicable) is not delivered to each relevant party prior to the close of business in each place of reception on the day falling 180 calendar days after the Cut-Off Date, the obligations of the Issuer and the Guarantor in respect of such Security shall be discharged and neither the Issuer nor the Guarantor shall have any liability in respect thereof. For the avoidance of doubt, in such circumstances such Securityholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Credit Settlement Date falling after the date fixed for redemption and no liability in respect thereof shall attach to the Issuer.
- (iii) To the extent that the Issuer is not satisfied that the Delivery Expenses have been or will be paid in full by the relevant Securityholder on or prior to the relevant Credit Settlement Date, the Issuer may, in its sole discretion, elect to reduce the Entitlement(s) to be Delivered to that Securityholder by an amount(s) which by market value (determined at the time of reduction by reference to such valuation sources as the Issuer determines appropriate) in aggregate is at least equal to the aggregate Delivery Expenses that it determines, in its sole discretion, have not been paid or otherwise accounted for (the Entitlement as so reduced, the "**Reduced Entitlement**"). Where the Issuer elects to make such a reduction, in accordance with this Credit Linked Condition 22(e)(iii) the Issuer's obligation to Deliver the Entitlement(s) shall be discharged in full by Delivery of the Reduced Entitlement(s) in accordance with the provisions of this Credit Linked Condition 22(e). The provisions of these Credit Linked Conditions shall apply *mutatis mutandis* to any such Delivery of the Reduced Entitlement.
- (iv) For the purpose of determining the Entitlements in respect of the Securities, Securities held by the same Securityholder will be aggregated. The aggregate Entitlement(s) to be delivered in respect of each such aggregated holding will be rounded down to the nearest whole unit of the relevant Deliverable Obligation (or, where there is more than one type of Deliverable Obligation, each of the Deliverable Obligations), as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Deliverable Obligation or of each of the Deliverable Obligations, as the case may be, will not be delivered but in lieu thereof the Issuer shall pay to the Securityholders in respect of their respective holding an additional amount in the Specified Currency equal to the fair market value of such fraction(s) in such manner as shall be determined by the Calculation Agent in good faith and in a commercially reasonable manner and notified to Securityholders in accordance with Condition 14 (*Notices*).
- (v) Delivery of the Entitlement in respect of the Securities is subject to all applicable laws, regulations and practices in force on the Credit Settlement Date and none of the Issuer, the Guarantor or any of their Affiliates or agents and the Paying Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer, the Guarantor or any of their Affiliates or agents and the Paying Agents shall under any circumstances be liable for any acts or defaults of Euroclear or Clearstream, Luxembourg, Clearstream, Frankfurt or DTC in relation to the performance of their duties in relation to the Securities.

(f) **General**

(g) ***Undeliverable Obligations and Hedge Disruption Obligations***

In relation to each Deliverable Obligation constituting the Entitlement, the Issuer will Deliver or procure the Delivery of the relevant Deliverable Obligation in accordance with this Credit Linked Condition 22 on the Credit Settlement Date, provided that if all or some of the Deliverable Obligations included in the Entitlement in respect of a Security are Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver or, if applicable, shall attempt to Deliver where possible all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, up to and including (i) the 30th Business Day following the Credit Settlement Date or (ii) such earlier date as the Calculation Agent may select and notify to the Securityholders in accordance with Condition 14 (*Notices*) taking into account the terms of any Hedging Arrangements (the "**Final Delivery Date**"), provided further that if all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, are not Delivered by the Final Delivery Date the provisions of Credit Linked Condition 10 (*Partial Cash Settlement*) shall apply.

(h) ***Securities represented by a U.S. Registered Global Security***

If any Security represented by a U.S Registered Global Security is to be redeemed by Delivery of an Entitlement, the relevant provisions relating to such Delivery shall be set out in the applicable Pricing Supplement.

**23. Standard Terms**

If Standard Terms are specified as applicable in the Applicable Transaction Terms, the provisions set out in SCHEDULE 1 to these Credit Linked Conditions in respect of the Standard Terms specified in the Applicable Transaction Terms shall apply.

**24. 2019 Narrowly Tailored Credit Event Provisions**

If this Credit Linked Condition 24 is specified as applicable in the Applicable Transaction Terms (whether by application of the Standard Terms or otherwise), the following provisions will apply:

- (a) The definition of "Failure to Pay" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) shall be deleted and replaced with the following:

**"Failure to Pay"** means after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period) the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure provided that, if an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination. If "Credit Deterioration Requirement" is specified as applicable in the Applicable Transaction Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

the Reference Entity. In the event that the Calculation Agent makes any such determination, it may take into account the guidance note set out in paragraph 3 (*Interpretive Guidance*) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019).".

- (b) The definition of "Outstanding Principal Balance" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) shall be deleted and replaced with the following:

**"Outstanding Principal Balance"** means the outstanding principal balance of an obligation which will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Accrued Interest above, the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any);
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined in accordance with paragraph (a) above less any amounts subtracted in accordance with this paragraph (b), the **"Non-Contingent Amount"**); and
- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (i) unless otherwise specified, in accordance with the terms of the obligation in effect on either (A) the relevant PSN Effective Date (or, if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (B) the relevant Valuation Date; and
- (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (ii) above, **"applicable laws"** shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "Fallback Discounting" is specified as applicable in the Applicable Transaction Terms (whether by application of the Standard Terms or otherwise), then, notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (ii) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee."

### 25. Additional Provisions for Senior Non-Preferred Reference Obligations

Notwithstanding anything to the contrary in the Credit Linked Conditions, the provisions of this Credit Linked Condition 25 will apply as follows in respect of each Reference Entity in respect of which the Seniority Level is specified as "Senior Non-Preferred Level" in the applicable Issue Terms:

- (a) The definition of "Reference Obligation" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) shall be amended by the insertion of the following language after the words "if any" after the first line of such definition:

"provided that, irrespective of any Original Non-Standard Reference Obligation specified in the Applicable Transaction Terms, if (i) a Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List, such Standard Reference Obligation shall be deemed to constitute the Reference Obligation, or (ii) no such Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List but such Standard Reference Obligation has previously been specified on the SRO List, there shall be deemed to be no Reference Obligation applicable to such Reference Entity and such previously specified Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity shall be deemed to constitute the Prior Reference Obligation".
- (b) The definition of "Seniority Level" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) shall be deleted and replaced with the following:

""**Seniority Level**" means "Senior Non-Preferred Level"".
- (c) For the purposes of the Credit Linked Conditions, a Senior Non-Preferred Obligation shall constitute a Subordinated Obligation and it shall be deemed that there is a relevant Reference Obligation which is a Subordinated Obligation for the purposes of the definitions of "Excluded Obligation" and "Relevant Obligations" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*).
- (d) A Traditional Subordinated Obligation shall constitute a Further Subordinated Obligation for the purposes of the Credit Linked Conditions.
- (e) "Subordination" shall have the meaning ascribed to it in the definition of "Obligation Characteristics" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Securities*) and such term shall be applied in the assessment of any Obligation without regard to how the Obligation is described by the laws of any relevant jurisdiction,

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED SECURITIES

### ANNEX 6 ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED SECURITIES

The terms and conditions applicable to Foreign Exchange (FX) Rate Linked Securities shall comprise the Terms and Conditions of the Securities (the "**Conditions**") and the additional terms and conditions for Foreign Exchange (FX) Rate Linked Securities set out below (the "**Foreign Exchange (FX) Rate Linked Security Conditions**"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Applicable Transaction Terms and in each case subject to completion in the Applicable Transaction Terms. In the event of any inconsistency between the Conditions and the Foreign Exchange (FX) Rate Linked Security Conditions, the Foreign Exchange (FX) Rate Linked Security Conditions shall prevail. In the event of any inconsistency between the Foreign Exchange (FX) Rate Linked Security Conditions and the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or the Foreign Exchange (FX) Rate Linked Security Conditions and (ii) the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be) shall prevail.

#### 1. Non-EM Valuation and Disruption Provisions

The provisions of this Foreign Exchange (FX) Rate Linked Security Condition 1 apply unless EM Foreign Exchange (FX) Rate Provisions are specified as applicable in respect of a Subject Currency in the Applicable Transaction Terms.

##### (a) Disruption Events

The occurrence of any of the following events, in respect of any Base Currency, Subject Currency and/or Subject Currencies, shall be a "**Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation; or
- (viii) Renminbi Currency Event, where this is specified as applicable in the Applicable Transaction Terms; and/or

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (viii) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of the Disrupted Day, would have been an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be. Where a relevant event or circumstance would constitute both a Renminbi Currency Event and one or more of the other Disruption Events above then the Renminbi Currency Event will be deemed not to have occurred.

##### (b) Consequences of a Disruption Event

Upon a Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply the applicable Disruption Fallback in determining the consequences of the Disruption Event.

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED SECURITIES

**"Disruption Fallback"** means a source or method that may give rise to an alternative basis for determining the Settlement Price when a Disruption Event occurs or exists on a day that is an Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published or announced by the Price Source). The Calculation Agent shall take the relevant actions specified in either paragraph (i), (ii) or (iii) below:

- (i) if an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day, the Calculation Agent will determine that the relevant Averaging Date or Settlement Price Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day (in the case of the Strike Date or Valuation Date) or Valid Date (in the case of an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day), unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the originally scheduled Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, is a Disrupted Day in which case the Calculation Agent may determine that the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be (irrespective, in the case of an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day, of whether that last consecutive Scheduled Trading Day is already an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be) and may determine the Settlement Price by using commercially reasonable efforts to determine a Settlement Price as of the Valuation Time on the last such consecutive Scheduled Trading Day taking into consideration all available information that in good faith it deems relevant; or
- (ii) if an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being not applicable in the Applicable Transaction Terms, on giving notice to Securityholders in accordance with Condition 14 (*Notices*), the Issuer shall redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the fair market value of such Security, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Securityholders in accordance with Condition 14 (*Notices*); or
- (iii) if an Averaging Date, any Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being applicable in the Applicable Transaction Terms, the Calculation Agent shall calculate the fair market value of each Security less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Foreign Exchange (FX) Disruption Amount**") as soon as practicable following the occurrence of the Disruption Event (the "**Calculated Foreign Exchange (FX) Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Foreign Exchange (FX) Disruption Amount plus interest accrued on the Calculated Foreign Exchange (FX) Disruption Amount on a daily basis from and including the Calculated Foreign Exchange (FX) Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its principal amount.

### (c) **Postponement of payment or settlement days**

Where any Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is postponed as a consequence of the provisions of this Foreign Exchange (FX) Rate Linked Security Condition 1, then the corresponding date for payment or delivery of any asset shall fall on the later of (a) the date for such payment or delivery otherwise determined in accordance with the Applicable Transaction Terms and (b) the day falling on the Number of Postponement Settlement Days specified in the Applicable Transaction Terms (or, if none are so specified, two Business Days) after the

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED SECURITIES

last occurring Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock out Determination Day, as the case may be.

### 2. EM Currency Valuation and Disruption Provisions

The provisions of this Foreign Exchange (FX) Rate Linked Security Condition 2 apply where EM Foreign Exchange (FX) Rate Provisions are specified as applicable in respect of a Subject Currency in the Applicable Transaction Terms.

#### (a) EM Disruption Events

If so specified in the Applicable Transaction Terms, the occurrence of any of the following events, in respect of any Base Currency, Subject Currency and/or Subject Currencies, shall be an "**EM Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation;
- (viii) Price Materiality;
- (ix) Renminbi Currency Event, where this is specified as applicable in the Applicable Transaction Terms; and/or

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (ix) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of the Disrupted Day, would have been an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be. Where a relevant event or circumstance would constitute both a Renminbi Currency Event and one or more of the other EM Disruption Events above then the Renminbi Currency Event will be deemed not to have occurred.

#### (b) Consequences of an EM Disruption Event

Upon an EM Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant EM FX Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the EM Disruption Event: (a) EM Calculation Agent Determination where the applicable EM Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable EM Disruption Fallback where the applicable EM Disruption Event is a Price Source Disruption or Price Materiality.

#### (c) Unscheduled Holiday

If the Calculation Agent determines that a date that would otherwise have been a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is an Unscheduled Holiday in respect of a Subject Currency, then such date shall be the immediately succeeding Scheduled Trading Day after the occurrence of the Unscheduled Holiday, subject as provided above, and provided that if such Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, has not occurred on or before the EM Maximum Days of

## **ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED SECURITIES**

Postponement following the originally designated Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, then the next Scheduled Trading Day after such period that would have been a Scheduled Trading Day but for the Unscheduled Holiday shall be deemed to be the relevant date for valuation and the Settlement Price shall be determined by the Calculation Agent on such day in its sole discretion acting in good faith having taken into account relevant market practice and by reference to such additional source(s) as it deems appropriate.

### **(d) Cumulative Events**

## ANNEX 7 – ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

### ANNEX 7 ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

*If specified as applicable in the Applicable Transaction Terms, the terms and conditions applicable to payouts shall comprise the Conditions and the additional terms and conditions for payouts set out below (the "**Payout Conditions**"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Applicable Transaction Terms and subject to completion in the Applicable Transaction Terms. In the event of any inconsistency between (i) the Conditions and/or any other Annex and (ii) the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or any other Annex and/or the Payout Conditions and (ii) the Applicable Transaction Terms, the Applicable Transaction Terms shall prevail.*

#### 1. Reference Item Linked Securities

##### (a) Use of Payout Conditions

These Payout Conditions set out the methodology for determining various payouts and product features in respect of the Securities. The applicable text shown in Payout Conditions 2 (*Interest Rates Payout Formula(e) and Final Payouts for Reference Item Linked Securities*), 3 (*Automatic Early Redemption Amounts*), 4 (*Entitlement Amounts for Physical Delivery*) and 5 (*Definitions*) will be extracted, included and completed at the paragraph indicated in the Applicable Transaction Terms on the basis that (i) applicable text (including, where appropriate, section headings and terms defined in Payout Condition 5 (*Definitions*) which are required to be completed) from the relevant Payout Condition will be set out at the paragraph indicated in the Applicable Transaction Terms and (ii) inapplicable text (and any terms defined in Payout Condition 5 (*Definitions*) which are not required to be completed) need not be included. For the avoidance of doubt, a Rate of Interest or a Final Payout may equal the sum of two or more payouts. In addition, where Payout Condition 8 (*UVR Inflation-Adjusted Securities*), Payout Condition 9 (*UDI Inflation-Adjusted Securities*) or Payout Condition 10 (*UF Inflation-Adjusted Securities*) applies, the words "adjusted by the relevant Inflation Adjusted Rate" may be added where appropriate together with the appropriate text shown in Payout Conditions 2 (*Interest Rates Payout Formula(e) and Final Payouts for Reference Item Linked Securities*), 3 (*Automatic Early Redemption Amounts*), 4 (*Entitlement Amounts for Physical Delivery*) and 5 (*Definitions*).

##### (b) Use of Terms

Terms in these Payout Conditions or in the Applicable Transaction Terms may be attributed a numerical or letter suffix value when included in the Applicable Transaction Terms. Without limitation, the suffix can be denoted as "j", "k", "m", "q", "n", "t", "i", "A", "B", "C" or "1", "2", "3" etc. and the term may be completed on the basis of the number or numbers represented by "j", "k", "m", "q", "n", "t", "i", "A", "B", "C" or "1", "2", "3" etc. as chosen at the time of an issue of Securities. Moreover suffixes may be placed in series as necessary, such as "A(1)", "B(1)", "C(1)" etc. When applicable and in order to improve the reading and intelligibility of the formula(e) in the Applicable Transaction Terms, the applicable suffixes may be included, completed and the relation between the term and the suffix will be explained and may be presented as a table, if necessary, in the Applicable Transaction Terms. A term in Payout Condition 5 (*Definitions*) may be included in the relevant Applicable Transaction Terms section more than once if there is more than one number represented by the term "n", "t" or "i". Conjunctions (e.g. or, and, but) and punctuation may also be included where appropriate. Suffixes may denote that a relevant term relates to an asset, item or date associated with that suffix.

The constituent parts of any formula(e) or term(s) used in these Payout Conditions and that are to be specified in the Applicable Transaction Terms may be replaced in the Applicable Transaction Terms by the prescribed amount, level, or percentage or other value or term (the "**Variable Data**"). If a Variable Data has a value of either zero or one, or is not applicable in respect of the relevant formula(e), then the related formula(e) may be simplified, for the purpose of improving the reading and intelligibility in the formula(e) in Applicable Transaction Terms, by deleting such Variable Data.

The Applicable Transaction Terms will specify the Interest Basis applicable in respect of a Security. Such Securities are, where the Interest Basis is: Equity Linked, an "**Equity Linked Interest Security**"; Inflation Linked, an "**Inflation Linked Interest Security**"; Reference Item Rate Linked, a "**Reference**

### 6. Settlement Exchange Rate Provisions

If Settlement Exchange Rate Provisions and Settlement Currency Payment are both specified as applicable in the Applicable Transaction Terms, then notwithstanding the Securities are denominated in, and calculations made in respect of, the Specified Currency (the "**SER Subject Currency**"), all payments shall be made in the Settlement Currency (the "**Settlement Currency**" or the "**SER Base Currency**").

The Calculation Agent will determine the amount to be paid in the SER Base Currency by applying the Settlement Exchange Rate to the amount that would have been payable in the SER Subject Currency were it not for the provisions of this Payout Condition 6.

Any such payment shall be made on the date such payment would have otherwise been due provided that, if limb (b) of the definition of "Settlement Exchange Rate" below applies, such payment may be deferred in accordance with Payout Condition 6.1(e) (*Postponement of payment or settlement days*) if the SER Valuation Date is postponed as set out herein. No additional interest or other amount shall be payable in respect of any such delay.

If Settlement Exchange Rate Provisions are specified as applicable in the Applicable Transaction Terms but Settlement Currency Payment is specified as not applicable then instead of the above procedures the Calculation Agent will determine the Settlement Exchange Rate to be used in the determination of the Final Payout. The Maturity Date or Optional Redemption Date may also be deferred in accordance with Payout Condition 6.1(e) (*Postponement of payment or settlement days*) if the SER Valuation Date is postponed as set out herein. No additional interest or other amount will be payable in respect of any such delay.

#### 6.1 SER Valuation and Disruption Provisions

The provisions of this Payout Condition 6.1 apply where Settlement Exchange Rate Provisions are specified as applicable in the Applicable Transaction Terms and limb (b) of the definition of "Settlement Exchange Rate" below applies.

##### (a) SER Disruption Events

If so specified in the Applicable Transaction Terms, the occurrence of any of the following events, in respect of any SER Base Currency and/or SER Subject Currency, shall be a "**SER Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;

## ANNEX 7 – ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation;
- (viii) Price Materiality; and/or

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (viii) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with Condition 14 (*Notices*) of the occurrence of a SER Disrupted Day on any day that, but for the occurrence of the SER Disrupted Day, would have been a SER Valuation Date.

### **(b) Consequences of a SER Disruption Event**

Upon a SER Disruption Event occurring or continuing on any SER Valuation Date (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant SER Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the SER Disruption Event: (a) Calculation Agent Determination where the applicable SER Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable SER Disruption Fallback where the applicable SER Disruption Event is a Price Source Disruption or Price Materiality.

### **(c) SER Unscheduled Holiday**

If the Calculation Agent determines that a date that would otherwise have been a SER Valuation Date is a SER Unscheduled Holiday in respect of the SER Subject Currency, then such date shall be the immediately succeeding SER Scheduled Trading Day after the occurrence of the SER Unscheduled Holiday, subject as provided above, and provided that if such SER Valuation Date has not occurred on or before the SER Maximum Days of Postponement then the next SER Scheduled Trading Day after such period that would have been a SER Scheduled Trading Day but for the SER Unscheduled Holiday shall be deemed to be the relevant date for valuation and the Settlement Exchange Rate shall be determined by the Calculation Agent on such day in its sole discretion acting in good faith having taken into account relevant market practice and by reference to such additional source(s) as it deems appropriate.

### **(d) SER Cumulative Events**

If "SER Cumulative Events" is specified as applicable in the Applicable Transaction Terms in respect of a SER Subject Currency then, in no event shall the total number of consecutive calendar days during which a SER Valuation Date is deferred due to either (i) a SER Unscheduled Holiday or (ii) a SER Valuation Postponement (or a combination of both (i) and (ii)) exceed the SER Maximum Cumulative Days of Postponement in the aggregate. If a SER Valuation Date is postponed by the number of calendar days equal to the SER Maximum Cumulative Days of Postponement and at the end of such period (i) a SER Unscheduled Holiday shall have occurred or be continuing on the day immediately following such period (the "**Final Day**"), then such Final Day shall be deemed to be the relevant SER Valuation Date and (ii) if a Price Source Disruption shall have occurred or be continuing on the Final Day, then Valuation Postponement shall not apply and the Settlement Exchange Rate shall be determined in accordance with the next applicable SER Disruption Fallback.

### **(e) Postponement of payment or settlement days**

Where any SER Valuation Date is postponed as a consequence of the provisions of this Payout Condition 6.1, then the corresponding date for payment or delivery of any assets shall fall on the later of (a) the date for such payment or delivery otherwise determined in accordance with the Applicable Transaction Terms and (b) the day falling the SER Number of Postponement Settlement Days specified in the Applicable Transaction Terms (or, if none are so specified, two Business Days) after the SER Valuation Date.

Other than where limb (a) of the definition of "*Settlement Exchange Rate*" below applies, if the Calculation Agent determines that a SER Additional Disruption Event has occurred, the Issuer may redeem the Securities by giving notice to Securityholders in accordance with Condition 14 (*Notices*). If the Securities are so redeemed the Issuer will pay an amount to each Securityholder in respect of each Security held by him which amount shall be the fair market value of a Security, taking into account the SER Additional Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Securityholders in accordance with Condition 14 (*Notices*).

### 3. Determination of Market Disruption Events

On any date from and including the Trade Date (for this purpose it being deemed that on each such day the Relevant Price of an EUA Contract is required to be determined as if it was a Pricing Date), the Calculation Agent will determine if a Market Disruption Event has occurred acting in good faith and in a commercially reasonable manner. Where the occurrence of an event or set of circumstances is capable of triggering more than one type of Market Disruption Event, the Issuer or, as the case may be, the Guarantor may determine which type of Market Disruption Event is to be triggered, in its sole and absolute discretion.

In considering whether the occurrence of an event or set of circumstances triggers a Market Disruption Event, the Calculation Agent may have regard to the combined effect, from the Trade Date, of any event or set of circumstances, as the case may be, if such event or set of circumstances occurs more than once.

Where a Market Disruption Event (as determined by the Calculation Agent) has occurred on any day (an "**MDE Date**") occurring on or after the Trade Date, the Calculation Agent may in its sole option determine on the MDE Date or any subsequent date that such Market Disruption Event has occurred, regardless of whether the relevant Market Disruption Event is ongoing on the day of such determination.

### 4. Consequences of a Market Disruption Event and Disruption Fallbacks

- 4.1 If the Calculation Agent determines that a Market Disruption Event has occurred, the Issuer or, as the case may be, the Guarantor shall, as soon as reasonably practicable after having been notified of such determination by the Calculation Agent, give notice ("Market Disruption Event Notice") to the Holders in accordance with Condition 14 (*Notices*) (which notice shall be irrevocable) of the occurrence of such Market Disruption Event (the date on which an Market Disruption Event Notice is given, a "Market Disruption Event Notification Date") and set out, if determined at that time, the action that it has determined to take in respect of the Market Disruption Event pursuant to EUA Contract Linked Security Condition 4.2 below. Where the action that the Issuer or, as the case may be, the Guarantor has determined to take is not, for whatever reason, set out in the Market Disruption Event Notice, the action that the Issuer or, as the case may be, the Guarantor has determined to take shall be set out in a subsequent notice given to Holders in accordance with Condition 14 (*Notices*) as soon as reasonably practicable after the Market Disruption Event Notification Date.

The Issuer or, as the case may be, the Guarantor shall provide Holders with a Market Disruption Event Notice as soon as reasonably practicable following the determination of an Market Disruption Event. However, neither the Issuer, the Guarantor nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Holder or any other person in connection with the Securities as a result of any delay, howsoever arising. If the Issuer or, as the case may be, the Guarantor gives a Market Disruption Event Notice, it shall have no obligation to make any payment or delivery in respect of the EUA Contract Linked Securities until it has determined the action that it has determined to take pursuant to EUA Contract Linked Condition 4.2 below.

- 4.2 Following the occurrence of a Market Disruption Event, the Issuer or, as the case may be, the Guarantor in its sole and absolute discretion may take the action described below in paragraph (a), (b), or (c).

(a) **No Action**

If the Issuer or, as the case may be, the Guarantor in its sole and absolute discretion determines that the action to be taken in respect of the Market Disruption Event is to be "**No Action**", then the EUA Contract Linked Securities shall continue and there shall be no amendment to the Terms and Conditions and/or the Applicable Transaction Terms.

(b) **Adjustment**

## ANNEX 8 – ADDITIONAL TERMS AND CONDITIONS FOR EUA CONTRACT LINKED SECURITIES

If the Issuer or, as the case may be, the Guarantor in its sole and absolute discretion determines that the action to be taken in respect of the Market Disruption Event is to be "**Adjustment**", then the Calculation Agent acting on instructions from the Issuer (or, as the case may be, the Guarantor) may determine, in its sole and absolute discretion, the appropriate adjustment(s), if any, to be made to any of the terms of these Terms and Conditions and/or the Applicable Transaction Terms (including adjusting any cost or cost adjustment) to take account of the economic effect of the Market Disruption Event and determine the effective date of such adjustment. Such adjustments may but do not have to include determining any EUA Contract Fallback Value(s).

(c) **Termination**

If the Issuer or, as the case may be, the Guarantor determines that the action to be taken in respect of the Market Disruption Event is to be "**Termination**", on giving notice to Holders in accordance with Condition 14 (*Notices*) (which such notice may be included in the Market Disruption Event Notice in respect of the relevant Market Disruption Event) the outstanding EUA Contract Linked Securities shall be redeemed by payment of the Early Redemption Amount. Payment will be made in such manner and on such date as shall be notified to the Holders in accordance with Condition 14 (*Notices*).

(d) **General**

In determining to take a particular action as a result of an Market Disruption Event, neither the Issuer nor the Guarantor is under any duty to consider the interests of Holders or any other person. Any obligation or role of the Issuer or Guarantor specified in these EUA Contract Linked Conditions may be performed on its behalf by the Calculation Agent.

### 5. **Correction of EUA Contract Reference Price**

With the exception of any corrections published after the day which is three EUA Contract Business Days prior to the due date for any payment under the Securities, if the EUA Contract Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the EUA Contract Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant EUA Contract as so corrected. Corrections published after the day which is three EUA Contract Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

### 6. **Rolling Futures Contract Securities**

If the Applicable Transaction Terms specify that the Securities are "**Rolling Futures Contract Securities**", the EUA Contract Reference Price in respect of the Securities will be valued by reference to rolling futures contracts each of which have delivery months that do not correspond with the term of the Securities. In such case, on or prior to the Issue Date, the Calculation Agent will select the relevant Futures Contract and for each following day until the Futures Rollover Date such futures contract will be the Futures Contract for the purposes of the EUA Contract Reference Price. On each Futures Rollover Date, the Calculation Agent will select another Futures Contract and such contract shall be the Futures Contract for the purposes of the EUA Contract Reference Price until the next occurring Futures Rollover Date. If on a Futures Rollover Date a Market Disruption Event occurs and it is impossible or materially impracticable for the Calculation Agent to select a Futures Contract and/or at such time hedge the Issuer's obligations in respect of the Securities then the provisions of EUA Contract Linked Condition 4.2 (*Consequences of a Market Disruption Event and Disruption Fallbacks*) shall apply to the Securities.

"m" is as specified in the Applicable Transaction Terms.

"Market Value" is as specified in the Applicable Transaction Terms.

"Pending Interest", if applicable, is as specified in the Applicable Transaction Terms.

- 7.2 In the event that a Market Disruption Event occurs and the Issuer or, as the case may be, the Guarantor determines that the action to be taken in respect of the Market Disruption Event is to be "Termination" pursuant to EUA Contract Linked Security Condition 4.2(c) (*Termination*) or the Securities are to be early redeemed for any other reason under the Conditions or the Applicable Transaction Terms, the Calculation Agent will as soon as reasonably practicable designate a Final Pricing Date which will apply for each EUA Contract. Such scheduled Final Pricing Date will be the same for each EUA Contract but any adjustment of the Final Pricing Date for an EUA Contract pursuant to the definition of "Pricing Date" in EUA Contract Linked Condition 1 (*Definitions*) will be applied separately in respect of each EUA Contract. For example, the Final Pricing Date for one EUA Contract might be the scheduled Pricing Date, while the Final Pricing Date for the other EUA Contract might be delayed pursuant to such definition.

- 7.3 In the circumstances described in EUA Contract Linked Condition 7.2 above, the Securities shall be redeemed at their Early Redemption Amount on the Early Redemption Payment Date.

"Early Redemption Payment Date" means five Business Days following the last immediately occurring Final Pricing Date as the same may be adjusted pursuant to the definition of Pricing Date.

##### (b) Modification and Cessation of Calculation of a Custom Index and Custom Index Disruption Event

If (i) on or prior to the last Settlement Level Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Custom Index or in any other way materially modifies that Custom Index (other than a modification prescribed in that formula or method to maintain that Custom Index in the event of changes in constituent component(s) and capitalisation, contracts or commodities and other routine events) (a "**Custom Index Modification**"), or permanently cancels a relevant Custom Index and no Successor Custom Index exists (a "**Custom Index Cancellation**"), or (ii) on a Settlement Level Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Custom Index or it is not a Custom Index Business Day (a "**Custom Index Disruption Event**" and, together with a Custom Index Modification and a Custom Index Cancellation, each a "**Custom Index Adjustment Event**"), then:

- (iii) where the Calculation Agent determines that no other action will produce a commercially reasonable result, the Issuer, in its sole and absolute discretion may, on giving notice to Securityholders in accordance with Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment to the Securityholders of the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Securities.

  - (ii) redeem the Securities by giving notice to Securityholders in accordance with Condition 14 (*Notices*). If the Securities are so redeemed the Issuer will pay an amount equal to the Early Redemption Amount to each Securityholder in respect of each Security as determined by the Calculation Agent.

14. [ROC TAXATION]

[N.B.: To be inserted if Securities are listed on the Taipei Exchange: The following is a general description of the principal of the Republic of China ("ROC") tax consequences for investors receiving interest in respect of, or disposing of, the Securities and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.

This general description is based upon the law as in effect on the date hereof and that the Securities will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Securities.]

***Interest on the Securities***

As the Issuer is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest [or deemed interest] to be paid on the Securities.

ROC corporate holders must include the interest [or deemed interest]<sup>23</sup> receivable under the Securities as part of their taxable income and pay income tax at a flat rate of 20 per cent (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax ("AMT") is not applicable.

***Sale of the Securities***

In general, the sale of corporate bonds or financial bonds is subject to a 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Securities will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Securities will be subject to STT at 0.1 per cent. of the transaction price,

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Securities. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the Income Basic Tax Act of the ROC (also known as the AMT Act), the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders may be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

#### 15. [ROC SETTLEMENT AND TRADING]

*[N.B.: To be inserted if Securities are listed on the Taipei Exchange:* An investor with a securities book-entry account with a ROC securities broker and a foreign currency deposit account with a ROC bank may request the approval of the Taiwan Depository & Clearing Corporation ("TDCC") to the settlement of the Securities through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by the TDCC, the Securities may be so cleared and settled. In such circumstances, TDCC will allocate the respective Securities position to the securities book-entry account designated by such investor in the ROC. The Securities will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEx as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Securities in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interests in the Securities through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Securities to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second ROC business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one ROC business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC

banks with which the holder has the foreign currency deposit account.]

## 7. U.S. TAX CONSIDERATIONS

[The Securities are [not] Specified Securities for purposes of Section 871(m).] [Based on market conditions on the date of these Final Terms, the Issuer has made a preliminary determination that the Securities are [not] Specified Securities for purposes of

Section 871(m). This is a preliminary determination only that is subject to change based on market conditions on the Issue Date. If the Issuer's final determination is different then it will give notice of such determination.] [Please contact [give name(s) and address(es) of Issuer contact] for further information regarding the application of Section 871(m) to the Securities.] *(The Securities will not be Specified Securities if they (i) are issued prior to January 1, 2027 and are not "delta-one" for U.S. tax purposes or (ii) do not reference any U.S. equity or any index that contains any component U.S. equity or otherwise provide direct or indirect exposure to U.S. equities. If the Securities reference a U.S. equity or an index that contains a component U.S. equity or otherwise provide direct or indirect exposure to U.S. equities and (i) are issued prior to January 1, 2027 and provide a return that does not differ significantly from the return on an investment in the underlying, or (ii) are issued on or after January 1, 2027, further analysis would be required.)*

## 8. [ROC TAXATION]

*[N.B.: To be inserted if Securities are listed on the Taipei Exchange:* The following is a general description of the principal of the ROC tax consequences for investors receiving interest in respect of, or disposing of, the Securities and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.

This general description is based upon the law as in effect on the date hereof and that the Securities will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Securities.]

### ***Interest on the Securities***

As the Issuer is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest [or deemed interest] to be paid on the Securities.

ROC corporate holders must include the interest [or deemed interest]<sup>10</sup> receivable under the Securities as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is under NT\$120,000), as they are

<sup>10</sup>

Applicable for Zero Coupon Securities only.

## PRO FORMA PRICING SUPPLEMENT

subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax ("AMT") is not applicable.

### *Sale of the Securities*

In general, the sale of corporate bonds or financial bonds is subject to a 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Securities will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Securities will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Securities. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the Income Basic Tax Act of the ROC (also known as the AMT Act), the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders may be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

## 9. [ROC SETTLEMENT AND TRADING]

[N.B.: To be inserted if Securities are listed on the Taipei Exchange: An investor with a securities book-entry account with a ROC securities broker and a foreign currency deposit account with a ROC bank may request the approval of the Taiwan Depository & Clearing Corporation ("TDCC") to the settlement of the Securities through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by the TDCC, the Securities may be so cleared and settled. In such circumstances, TDCC will allocate the respective Securities position to the securities book-entry account designated by such investor in the ROC. The Securities will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Securities in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or

## PRO FORMA PRICING SUPPLEMENT

Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interests in the Securities through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Securities to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second ROC business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one ROC business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.]

If so specified in the Applicable Transaction Terms, Registered Securities may be represented, in whole or in part, by an ICSD Registered Global Security (as defined below) that is deposited with or on behalf of a common depositary or, in the case of an ICSD Registered Global Security to be held under the New Safekeeping Structure (as defined below), a common safekeeper, for Euroclear and Clearstream, Luxembourg, or a nominee thereof for credit to the respective accounts of beneficial owners of the Securities represented thereby. Beneficial interests in the ICSD Rule 144A Registered Global Securities and ICSD Reg S Registered Global Securities (each as defined below) shall be represented through book-entry accounts of participants in Euroclear and/or Clearstream, Luxembourg. Purchasers of Securities may elect to hold interests in ICSD Rule 144A Registered Global Securities or, as the case may be, ICSD Reg S Registered Global Securities through any of Euroclear or Clearstream, Luxembourg if they are participants in such systems or indirectly through organisations which are participants in such systems. ICSD Registered Global Securities will be subject to the restrictions and procedures referred to under *"ICSD Registered Global Securities"* below.

If so specified in the Applicable Transaction Terms, Registered Securities may be represented, in whole or in part, by a CMU Reg S Registered Global Security (as defined below). which will be deposited with a sub-custodian nominated by the HKMA as operator of the CMU and registered in the name of the HKMA in its capacity as operator of the CMU. Beneficial interests in the CMU Reg S Registered Global Security (as defined below) shall be represented through book-entry accounts of participants in the CMU. Purchasers of Securities may elect to hold interests in CMU Reg S Registered Global Securities through the CMU if they are participants in such systems or indirectly through organisations which are participants in such systems.

If so specified in the Applicable Transaction Terms, Registered Securities may be represented, in whole or in part, by a Definitive Registered Security registered in the name of the holder thereof.

Bearer Securities shall be represented initially by a temporary global Security in bearer form, without Coupons (a **"Temporary Global Security"**), which shall be deposited (a) in the case of a global Security which is not intended to be issued in new global note form (a **"Classic Global Note"** or **"CGN"**), as specified in the relevant Applicable Transaction Terms, with or on behalf of a common depositary located outside the United States for Euroclear and Clearstream, Luxembourg; (b) in the case of a global Security which is intended to be issued in new global note form (a **"New Global Note"** or **"NGN"**), as specified in the relevant Applicable Transaction Terms, with a common safekeeper for Euroclear and/or Clearstream, Luxembourg, (c) in the case of a Global Security which is intended to be issued via Clearstream, Frankfurt (a **"CBF Security"**), as specified in the relevant Applicable Transaction Terms, with Clearstream, Frankfurt; or (d) in the case of a global Security which is intended to be cleared through the CMU, on the original issue date of the relevant Tranche with a sub-custodian nominated by the HKMA as operator of the CMU. Beneficial interests in such Temporary Global Security shall be exchangeable for beneficial interests in a permanent global Security in bearer form, without coupons (a **"Permanent Global Security"** and each of a Temporary Global Security and a Permanent Global Security, a **"Global Security"**), in an equal aggregate principal amount, not earlier than the 40th day after the applicable closing date upon certification of non-U.S. ownership, as set forth in the Programme Manual. Such exchange will be made upon certification to the effect that the holder is (i) a person that is not a United States person, (ii) a United States person

that is (A) a foreign branch of a United States financial institution (as defined in United States Treasury Regulations Section 1.165-12(c)(1)(iv)) subscribing for or purchasing for its own account or for resale or (B) a United States person who acquired Securities through a foreign branch of a United States financial institution and who holds the Securities through such financial institution on the date of such certification (and in each case (A) or (B), that the financial institution agrees to comply with the requirements of section 165(j)(3)(A), (B) or (C) of the United States Internal Revenue Code of 1986 and the United States Treasury Regulations promulgated thereunder) or (iii) a financial institution that acquired Securities for purposes of resale during the restricted period (as defined in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7) (or any successor United States Treasury Regulations Section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010)), and such financial institution certifies that it has not acquired the Securities for purposes of resale directly or indirectly within the United States or its possessions or to a United States person. A financial institution, whether or not described in (i) or (ii) above, that purchases Securities for purposes of resale during the restricted period, may only give the certification described in (iii) above. Except in the limited circumstances described below or as otherwise set forth in the Applicable Transaction Terms, owners of beneficial interests in the Global Securities shall not be entitled to receive Securities in definitive form. For details of how Securities may be transferred see "*Terms and Conditions of the Securities – Condition 2 (Form, Denomination and Title)*".

In the United States securities market, the presumption is that settlement of all trades of Securities will occur on the basis of the trade date plus one business day.

Registered Securities may be evidenced by (i) one or more Registered Global Securities in an aggregate principal amount equal to the principal amount of the Securities of such Series, which shall be exchangeable in the limited circumstances described below for Registered Securities in definitive form, each evidenced by an individual definitive security (an "**Individual Definitive Registered Security**") or (ii) one or more Definitive Registered Securities in an aggregate principal amount equal to the principal amount of the Securities of such Series.

Bearer Securities will initially be issued in the form of a Temporary Global Security, without Coupons, in an initial aggregate principal amount equal to the principal amount of the Securities of such Series, which shall be exchangeable as described below.

Where the Global Securities issued in respect of any Tranche are in NGN form or the ICSD Registered Global Securities are held under the New Safekeeping Structure ("**NSS**"), as the case may be, the Applicable Transaction Terms will also indicate whether or not such Global Securities or ICSD Registered Global Securities are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Securities or the ICSD Registered Global Securities are so held does not necessarily mean that the Securities of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for NGNs and ICSD Registered Global Securities which are held under NSS will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear or Clearstream, Luxembourg.

A Security may be accelerated by the Securityholder(s) in certain circumstances described in Condition 10 (*Events of Default*). In such circumstances, where any Security is still represented by a Global Security or a Registered Global Security and the Global Security or Registered Global Security (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Securities or the Maturity Date has occurred and, in either case, the payment in full of the amount due has not been made in accordance with the provisions of the Global Security or Registered Global Security then from 5.00 p.m. (London time) (or in the case of CMU Securities, 5.00 p.m. (Hong Kong time)) on such day, each account holder which has Securities represented by such Global Security or Registered Global Security credited to its securities accounts with Euroclear and/or Clearstream, Luxembourg, Clearstream, Frankfurt or the CMU, as the case may be, will become entitled to proceed directly against the Issuer and will acquire all those rights that it would have had if at the relevant time it held, executed and authenticated Securities in definitive form in respect of the relevant Securities (including the right to claim and receive all payments due at any time in respect of the relevant Securities) subject to and in accordance with the terms of a deed of covenant (the "**Deed of Covenant**") dated 4 June 2026 and executed by the Issuer, and the relevant Global Security or Registered Global Security and, from that time, the holder of the Global Security or Registered Global Security will have no further rights under such Global Security or Registered Global Security (but without prejudice to the rights which the holder or any other person may have under the Deed of Covenant).

## *Registered Securities*

### **Registered Securities in global form**

#### *General*

Unless otherwise specified in the relevant Applicable Transaction Terms, Registered Securities of the same Series will be represented, in whole or in part, by either (i) a Rule 144A Registered Global Security and/or a Reg S Registered Global Security that is registered in the name of a nominee for DTC and deposited on or about the relevant issue date with the custodian for DTC, for credit to the respective accounts of beneficial owners of the Securities represented thereby (respectively, a "**DTC Rule 144A Registered Global Security**" and a "**DTC Reg S Registered Global Security**" and each a "**U.S. Registered Global Security**"), (ii) a Rule 144A Registered Global Security and/or an Reg S Registered Global Security that is either (a) registered in the name of a common depository (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common depository (in the case of a Registered Security that is not to be held under the New Safekeeping Structure), or (b) registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common safekeeper (in the case of a Registered Security that is to be held under the New Safekeeping Structure), in each case for credit to the respective accounts of beneficial owners of the Securities represented thereby (respectively, an "**ICSD Rule 144A Registered Global Security**" and an "**ICSD Reg S Registered Global Security**" and each an "**ICSD Registered Global Security**"); or (iii) a global security in registered form, without Receipts or Coupons intended to be issued via the CMU, which will be deposited on the original issue date of the relevant Tranche with a sub-custodian nominated by the HKMA as operator of the CMU and registered in the name of the HKMA in its capacity as operator of the CMU (a "**CMU Reg S Registered Global Security**").

Where the Registered Global Securities issued in respect of any Tranche are intended to be held under the NSS, the Applicable Transaction Terms will indicate whether or not such Registered Global Securities are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Registered Global Securities are to be so held does not necessarily mean that the Securities of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for a Registered Global Security held under the NSS will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

U.S. Registered Global Securities, ICSD Registered Global Securities and CMU Reg S Registered Global Securities will be sold in reliance on specific registration exemptions of the Securities Act. U.S Registered Global Securities will be subject to special restrictions and procedures referred to under "*U.S. Registered Global Securities*" below, ICSD Registered Global Securities will be subject to special restrictions and procedures referred to under "*ICSD Registered Global Securities*" below and CMU Reg S Registered Global Securities will be subject to special restrictions and procedures referred to under "*CMU Reg S Registered Global Securities*" below.

#### *U.S. Registered Global Securities*

Registered Securities that are sold in reliance on Rule 144A will be represented by a DTC Rule 144A Registered Global Security, unless otherwise specified in the Applicable Transaction Terms. A DTC Rule 144A Registered Global Security in the form provided in the Programme Manual (and any Securities issued in exchange therefor) will be subject to certain restrictions on transfer set forth therein and will bear the legend regarding such restrictions described under "*Transfer Restrictions*".

Registered Securities that are sold outside the United States in reliance on Regulation S will be represented by a DTC Reg S Registered Global Security, unless otherwise specified in the Applicable Transaction Terms. On or prior to the 40th day after the later of the commencement of the offering and the date of delivery of the Securities represented by a DTC Reg S Registered Global Security, a beneficial interest therein may be transferred to a person who takes delivery in the form of an interest in a DTC Rule 144A Registered Global Security of the same Series, but only upon receipt by the Registrar of a written certification from the transferor (in the form provided in the Programme Manual) to the effect that such transfer is being made to a person who the transferor reasonably believes is purchasing for its own account or accounts as to which it exercises sole investment discretion and that such person and each such account is a QIB within the meaning of Rule 144A, in each case in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the

United States or any other jurisdiction. After such 40th day, such certification requirement will no longer apply to such transfers.

Beneficial interests in a DTC Rule 144A Registered Global Security may be transferred to a person who takes delivery in the form(s) of an interest in a DTC Reg S Registered Global Security of the same Series, whether before, on or after such 40th day, but only upon receipt by the Registrar of a written certification from the transferor (in the form provided in the Programme Manual) to the effect that such transfer is being made outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act or pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available) and that, if such transfer occurs on or prior to such 40th day, the interest transferred will be held immediately thereafter through Euroclear or Clearstream, Luxembourg.

Any beneficial interest in a U.S. Global Security that is transferred to a person who takes delivery in the form of a beneficial interest in another U.S. Registered Global Security of the same Series will, upon transfer, cease to be a beneficial interest in the first mentioned U.S. Registered Global Security, will become a beneficial interest in such other U.S. Registered Global Security and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other U.S. Registered Global Security for as long as it remains such a beneficial interest.

### *Book-Entry System (DTC)*

Upon the issuance of a U.S. Registered Global Security, DTC or its custodian will credit, on its internal system, the respective principal amount of the individual beneficial interests represented by such U.S. Registered Global Security to the accounts of persons who have accounts with DTC. Ownership of beneficial interests in a U.S. Registered Global Security will be limited to persons who have accounts with DTC (including Euroclear and Clearstream, Luxembourg), or persons who hold interests through participants. Ownership of beneficial interests in a U.S. Registered Global Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants), which may include Euroclear and Clearstream, Luxembourg, as described below.

So long as DTC, or its nominee, is the registered holder of a U.S. Registered Global Security, DTC or such nominee, as the case may be, will be considered the sole owner and holder of the Securities represented by such U.S. Registered Global Security for all purposes under the Agency Agreement and the Securities. Unless DTC notifies the Issuer that it is unwilling or unable to continue as depository for such Security, or ceases to be a "clearing agency" registered under the Exchange Act, or an Event of Default has occurred and is continuing with respect to such Security, DTC is at any time unwilling or unable to continue as a depository and a successor depository is not appointed by the Issuer within 90 days or, in respect of a DTC Reg S Registered Global Security only, Euroclear or Clearstream, Luxembourg or DTC is closed for business for a continuous period of 14 days or announces an intention to permanently cease business or an Event of Default has occurred and is continuing with respect to such Security, the Issuer will (i) issue Rule 144A Individual Definitive Registered Securities in exchange for the relevant DTC Rule 144A Registered Global Security and/or (ii) issue Reg S Individual Definitive Registered Securities in exchange for the relevant DTC Reg S Registered Global Securities. In the case of Rule 144A Individual Definitive Registered Securities issued in exchange for DTC Rule 144A Registered Global Securities, such Rule 144A Individual Definitive Registered Securities will bear, and be subject to, the legend described under "*Transfer Restrictions*". Except in the limited circumstances described in this paragraph, owners of beneficial interests in a U.S. Registered Global Security will not be entitled to receive physical delivery of Individual Definitive Registered Securities. In addition, no beneficial owner of an interest in a U.S. Registered Global Security will be able to transfer that interest except in accordance with DTC's applicable procedures (in addition to those under the Agency Agreement and, if applicable, those of Euroclear and Clearstream, Luxembourg as participants of DTC).

Investors may hold their interests in a DTC Reg S Registered Global Security through Euroclear or Clearstream, Luxembourg (as participants of DTC), if they are participants in such systems, or indirectly through organisations which are participants in such systems. Beginning 40 days after the later of the commencement of the offering and the date of delivery of the Securities represented by such DTC Reg S Registered Global Security (but not earlier), investors may also hold such interests through organisations other than Euroclear and Clearstream, Luxembourg that are participants in the DTC system. Euroclear and Clearstream, Luxembourg will hold interests in a DTC Reg S Registered Global Security on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of DTC.

## FORM OF SECURITIES

Investors may hold their interests in a DTC Rule 144A Registered Global Security directly through DTC, if they are participants in such system, or indirectly through organisations which are participants in such system.

Payments of the principal of and any premium, interest, and other amounts on any U.S. Registered Global Security will be made to DTC or its nominee, as the registered owner thereof. Neither the Issuer, the Guarantor, the Registrar, the Transfer Agent nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a U.S. Registered Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that DTC or its nominee, upon receipt of any payment in respect of a U.S. Registered Global Security held by it or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such U.S. Registered Global Security as shown on the records of DTC or its nominee. The Issuer also expects that payments by participants to owners of beneficial interests in a U.S. Registered Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in accordance with DTC's procedures and will be settled in same-day funds. The laws of some states of the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in a U.S. Registered Global Security to such persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in a U.S. Registered Global Security to pledge such interest to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate of such interest. Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Securities described above, cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream, Luxembourg participants, on the other hand, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its respective depository; however, such crossmarket transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with its rules and procedures and within its established deadlines. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in any U.S. Registered Global Security in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream, Luxembourg.

Because of time zone differences, the securities account of a Euroclear or Clearstream, Luxembourg participant purchasing an interest in a U.S. Registered Global Security from a DTC participant will be credited during the securities settlement processing day (which must be a business day for Euroclear or Clearstream, Luxembourg, as the case may be) immediately following the DTC settlement date and such credit of any transactions in interests in a U.S. Registered Global Security settled during such processing day will be reported to the relevant Euroclear or Clearstream, Luxembourg participant on such day. Cash received in Euroclear or Clearstream, Luxembourg as a result of sales of interests in a U.S. Registered Global Security by or through a Euroclear or Clearstream, Luxembourg participant will be received for value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream, Luxembourg cash account only as of the business day following settlement in DTC.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of a U.S. Registered Global Security (including the presentation of Securities for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in such U.S. Registered Global Security are credited and only in respect of such portion of the aggregate principal amount of such U.S. Registered Global Security as to which such participant or participants has or have given such direction. However, if there is an Event of Default under a U.S. Registered Global Security, DTC will exchange such U.S. Registered Global Security for Individual Definitive Registered Securities, which it will distribute to its participants.

DTC has advised the Issuer as follows: DTC is a limited purpose trust company organised under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the

Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organisations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in the U.S. Registered Global Securities among participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither the Issuer nor the Guarantor will have any responsibility for the performance by DTC, Clearstream, Luxembourg or Euroclear or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

### *ICSD Registered Global Securities*

If so specified in the Applicable Transaction Terms, Registered Securities sold to qualified institutional buyers in reliance on Rule 144A under the Securities Act will initially be represented, in whole or in part, by an ICSD Rule 144A Registered Global Security. If so specified in the Applicable Transaction Terms, Registered Securities sold to non-U.S. persons outside the United States in reliance on Regulation S will be represented, in whole or in part, by an ICSD Reg S Registered Global Security. ICSD Registered Global Securities will be either (i) registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common depositary (in the case of a Registered Security that is not to be held under the New Safekeeping Structure), or (ii) registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common safekeeper (in the case of a Registered Security that is to be held under the New Safekeeping Structure), in each case for credit to the respective accounts of beneficial owners of the Securities represented thereby.

Investors may hold their interests in an ICSD Registered Global Security through Euroclear or Clearstream, Luxembourg, if they are participants in such systems, or indirectly through organisations that are participants in such systems. Euroclear and Clearstream, Luxembourg will hold interests in an ICSD Registered Global Security on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositaries or safekeepers, as applicable.

So long as the common depositary, or, in the case of a Registered Security to be held under the New Safekeeping Structure, the common safekeeper, or the relevant nominee, is the registered holder of an ICSD Registered Global Security, the common depositary, common safekeeper or such nominee, as the case may be, will be considered the sole owner and holder of the Securities represented by the relevant ICSD Registered Global Security for all purposes under the Agency Agreement and such Securities. Holders of beneficial interests in an ICSD Registered Global Security will not be entitled to have any portion of such ICSD Registered Global Security registered in their names, will not receive or be entitled to receive delivery of Individual Definitive Registered Securities in exchange for their interests in an ICSD Registered Global Security and will not be considered the owners or holders of such ICSD Registered Global Security (or any Securities represented thereby) under the Agency Agreement or the Securities. In addition, no beneficial owner of an interest in an ICSD Registered Global Security will be able to transfer that interest except in accordance with applicable procedures of Euroclear and Clearstream, Luxembourg (in addition to those under the Agency Agreement referred to herein).

Payments of the principal of and any premium, interest and other amounts on any ICSD Registered Global Security will be made to the common depositary, common safekeeper or its nominee as the registered owner thereof. Neither the Issuer, the Guarantor, the Registrar, the Transfer Agent nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in an ICSD Registered Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that each of Euroclear and Clearstream, Luxembourg, upon receipt of any such payment in respect of an ICSD Registered Global Security represented by a Registered Global Security held by a common depositary or common safekeeper (or its nominee), will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the ICSD Registered Global Security evidenced by such Registered Global Security as shown on the records of Euroclear or

Clearstream, Luxembourg, as the case may be. The Issuer also expects that payments by participants to owners of beneficial interests in an ICSD Registered Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg and will be settled in immediately available funds.

ICSD Registered Global Securities will bear a legend to the effect set forth in "*Transfer Restrictions*". Book-entry interests in ICSD Registered Global Securities will be subject to the restrictions on transfers and certification requirements discussed under "*Transfer Restrictions*".

Transfer of ownership interests in an ICSD Rule 144A Registered Global Security ("**Restricted Book-Entry Interests**") to persons wishing to take delivery of Restricted Book-Entry Interests will at all times be subject to such transfer restrictions.

Restricted Book-Entry Interests may be transferred to a person who takes delivery in the form of any ownership interests in an ICSD Reg S Registered Global Security ("**Unrestricted Book-Entry Interests**") only upon delivery by the transferor of a written certification (in the form provided in the Programme Manual) to the effect that such transfer is being made in accordance with Regulation S or Rule 144 (if available) under the Securities Act. Prior to 40 days after the date of initial issuance of the Securities, ownership of Unrestricted Book-Entry Interests will be limited to persons that have accounts with Euroclear or Clearstream, Luxembourg or persons who hold interests through Euroclear or Clearstream, Luxembourg and any sale or transfer of such interest to U.S. persons shall not be permitted during such period unless such resale or transfer is made pursuant to Rule 144A.

Unrestricted Book-Entry Interests may be transferred to a person who takes delivery in the form of Restricted Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Programme Manual) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Transfer Restrictions*" and in accordance with any applicable securities laws of any other jurisdiction.

Any beneficial interest in an ICSD Registered Global Security that is transferred to a person who takes delivery in the form of a beneficial interest in another ICSD Registered Global Security will, upon transfer, cease to be a beneficial interest in the first mentioned ICSD Registered Global Security and will become a beneficial interest in such other ICSD Registered Global Security and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other ICSD Registered Global Security for as long as it remains such a beneficial interest.

### *CMU Reg S Registered Global Securities*

If so specified in the Applicable Transaction Terms, Registered Securities which are intended to be sold to non-U.S. persons outside the United States in reliance on Regulation S and issued via the CMU will be represented, in whole or in part, by a CMU Reg S Registered Global Security, which will be deposited with a sub-custodian nominated by the HKMA as operator of the CMU and registered in the name of the HKMA in its capacity as operator of the CMU.

Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of the Securities, beneficial interests in a CMU Reg S Registered Global Security may not be offered or sold to, or for the account or benefit of, a U.S. person and such CMU Reg S Registered Global Security will bear a legend regarding such restrictions on transfer.

Persons holding beneficial interests in CMU Reg S Registered Global Securities will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Securities in fully registered form.

Payments of principal, interest and any other amount in respect of the CMU Reg S Registered Global Securities will, in the absence of provision to the contrary, be made to the persons shown on the Register as the registered holder of the CMU Reg S Registered Global Securities. None of the Issuer, the CMU Lodging and Paying Agent or the CMU Registrar will have any responsibility or liability for any aspect of the records relating to or payments

or deliveries made on account of beneficial ownership interests in the CMU Reg S Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Securities in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 7(b) (*Registered Securities*) of the Conditions) to the person(s) for whose account(s) interests in the relevant CMU Reg S Registered Global Security are being held with the CMU in accordance with CMU Rules at the relevant time, immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a CMU Reg S Registered Global Security will be exchangeable (free of charge), in whole but not in part, for definitive Registered Securities only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default has occurred and is continuing, (ii) the Issuer has been notified that the CMU has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Securities represented by the CMU Reg S Registered Global Security in definitive form. The Issuer will promptly give notice to Securityholders in accordance with Condition 14 (*Notices*) of the Conditions and provide a sufficient number of executed Securities to the CMU Registrar at the same time if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, the CMU or its nominee (acting on the instructions of any holder of an interest in such CMU Reg S Registered Global Security) may give notice to the CMU Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the CMU Registrar requesting exchange. Any such exchange shall occur not later than ten days after the date of receipt of the first relevant notice by the CMU Registrar provided that a sufficient number of executed Securities have been provided by the Issuer.

No beneficial owner of an interest in a CMU Reg S Registered Global Security will be able to transfer such interest, except in accordance with the applicable procedures of the CMU.

### **Registered Securities in definitive form**

If specified in the Applicable Transaction Terms, Registered Securities may be represented on issue by a Definitive Registered Security, registered in the name of the holder thereof.

Payments of principal, interest or any other amount in respect of the Registered Securities in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 7(b) (*Registered Securities*)) immediately preceding the due date for payment in the manner provided in that Condition.

*Physical Delivery in relation to ICSD Registered Global Securities:* In order to obtain delivery of any Entitlement in respect of any Physical Delivery Security represented by an ICSD Registered Global Security, any Asset Transfer Notice should be delivered to the Principal Paying Agent in the manner acceptable to Euroclear or Clearstream, Luxembourg which is expected to be by authenticated SWIFT message and must include an irrevocable instruction to the relevant clearing system to debit the relevant securities account with the relevant Securities on or before the date of delivery of the Entitlement.

### ***Bearer Securities***

Bearer Securities shall initially be issued in the form of a Temporary Global Security, without Coupons, in an initial aggregate principal amount equal to the principal amount of the Securities of such Series, which shall be exchangeable, unless otherwise specified in the Applicable Transaction Terms, (i) for a Permanent Global Security, without Coupons attached, which shall in turn be exchangeable (in whole, but not in part) in limited circumstances in the form of definitive Bearer Securities, with or without Coupons attached, or for interests in a Registered Security of such Series, (ii) in whole but not in part, directly for definitive Bearer Securities, with or without Coupons attached, which shall in turn be exchangeable at the option of the Securityholder for interests in a Registered Security of such Series or (iii) directly for interests in a Registered Security. Purchasers in the United States (including its territories, its possessions and other areas subject to its jurisdiction) will not be able to receive Bearer Securities.

The Principal Paying Agent or, in the case of CMU Securities, the CMU Lodging and Paying Agent shall deliver each Temporary Global Security executed and authenticated: (1) in the case of a Classic Global Note, to the common depository; (2) in the case of an NGN, to the common safekeeper in each case for the benefit of Euroclear and Clearstream, Luxembourg; (3) in the case of CBF Securities, to Clearstream, Frankfurt; or (4) in the case of CMU Securities that are Bearer Securities, on the original issue date of the relevant Tranche to the sub-custodian nominated by the HKMA as operator of the CMU, for credit against payment in immediately available funds on the date of settlement to the respective accounts of the holders of the Securities of the Series represented by such Temporary Global Security.

The bearer of a Global Security will be considered the sole owner and holder of the Securities represented by such Global Security for all purposes under the Agency Agreement and such Securities. Owners of beneficial interests in a Global Security will not be considered the owners or holders of such Global Security (or any Securities represented thereby) under the Agency Agreement or the Securities. In addition, no beneficial owner of an interest in a Global Security will be able to transfer that interest except in accordance with applicable procedures of Euroclear and Clearstream, Luxembourg or Clearstream, Frankfurt or the CMU (in addition to those under the Agency Agreement referred to herein).

Payments of the principal of and any premium, interest and other amounts on any Global Security will be made to the bearer thereof. Neither the Issuer, the Guarantor nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that each of Euroclear and Clearstream, Luxembourg or Clearstream, Frankfurt or the CMU, upon receipt of any such payment in respect of a Global Security held by a common depository or its nominee or by a common safekeeper or sub-custodian nominated by the HKMA as operator of the CMU, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Security as shown on the records of Euroclear or Clearstream, Luxembourg or Clearstream, Frankfurt or the CMU, as the case may be. The Issuer also expects that payments by participants to owners of beneficial interests in a Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

On or after the date (the "**Exchange Date**") which is the earlier of (i) the first Business Day following the expiration of a period of 40 days after the date on which the Securities of such Series were issued and (ii) the first day on which interest, if any, is paid on the Securities of such Series, beneficial interests in the Temporary Global Security of a Series as to which the Principal Paying Agent has received certification as to the non-U.S. beneficial ownership thereof as required by United States Treasury Regulations and as set forth in the Programme Manual, interests in the Temporary Global Security will, upon presentation thereof to or to the order of the Principal Paying Agent, be exchanged (i) for interests in a Permanent Global Security of such Series, (ii) other than in respect of CMU Securities, directly for interests in a Registered Global Security of such Series, or (iii) in whole but not in part, directly for one or more definitive Bearer Securities of the same Series, in each case pursuant to the procedures set forth in the next paragraph, with respect to that portion of such Temporary Global Security; provided, however, that, if definitive Bearer Securities and (if applicable) Coupons have already been issued in exchange for a portion of such Temporary Global Security or for all of the Securities represented for the time being by such Permanent Global Security because Euroclear and/or Clearstream, Luxembourg and/or Clearstream, Frankfurt or the CMU do not regard the Permanent Global Security to be fungible with such definitive Bearer Securities, then such Temporary Global Security may only thereafter be exchanged for definitive Bearer Securities and (if applicable) Coupons pursuant to the terms of the Agency Agreement and of such Securities. Notwithstanding the foregoing, in respect of Temporary Global Securities that are CMU Securities, the CMU may require that exchange for interests in the Permanent Global Security is made in whole but not in part and, in such event, no such exchange will be effected until all persons appearing in the records of the CMU as entitled to an interest in the Temporary Global Security have been so certified.

If the Applicable Transaction Terms specifies that a Temporary Global Security is exchangeable for definitive Bearer Securities or a Permanent Global Security becomes exchangeable for definitive Bearer Securities, the Issuer shall procure the prompt delivery (free of charge to the bearer) of definitive Bearer Securities (or, as described below, Registered Securities) to the order of the Principal Paying Agent within 30 days of the bearer requesting exchange, and, in the case of a Temporary Global Security in respect of which the Applicable

## FORM OF SECURITIES

Transaction Terms specifies that the D Rules are applicable, upon receipt of the certifications required by United States Treasury Regulations referred to above.

Any definitive Bearer Security delivered in exchange for a beneficial interest in a Temporary Global Security or Permanent Global Security shall bear substantially the same legends as are set forth on the face of the Temporary or Permanent Global Security for which it was exchanged. No Bearer Security may be delivered nor may any interest be paid on any Bearer Security until the person entitled to receive such Bearer Security or such interest furnishes the certifications required by United States Treasury Regulations referred to above.

Where the Applicable Transaction Terms specifies that the Securities are "Exchangeable Bearer Securities" then, upon the conditions set out in the Agency Agreement, Permanent Global Security and definitive Bearer Securities representing such Securities may be exchanged for the same aggregate principal amount of Individual Definitive Registered Securities of the same Series in authorised denominations, or, if so indicated in the Applicable Transaction Terms, for beneficial interests in a Registered Global Security, at the request in writing of the Holder and, in the case of an exchange of definitive Bearer Securities, upon surrender of such definitive Bearer Securities to be exchanged (together with all unmatured Coupons, if any, relating to it) to the specified office of the Registrar, its duly authorised agent or any other Transfer Agent. Where, however, an Exchangeable Bearer Security is surrendered for exchange after the Clearing System Business Day before the due date for any payment of interest or any Instalment Amount, or such other record Date as may be applicable, the Coupon in respect of that payment of interest or Receipt in respect of that Instalment Amount need not be surrendered with it.

No holder of any Security may require a Permanent Global Security or definitive Bearer Security to be exchanged for a Registered Security during the period of 15 days ending on the due date for any payment of principal on that Security. Securities issued pursuant to the exchanges described above will be available from the specified office of the Registrar, its duly authorised agent or any other Transfer Agent.

Subject as provided below, until exchanged in full, Global Securities of a Series shall in all respects be entitled to the same benefits under the Agency Agreement as definitive Bearer Securities of such Series authenticated and delivered thereunder, except that principal of and any premium, interest, additional amounts and other amounts on a Temporary Global Security will not be payable unless a certification, as described herein, is given by the persons appearing in the records of Euroclear or Clearstream, Luxembourg or Clearstream, Frankfurt or CMU as the owner of the Temporary Global Security or portions thereof being presented for payment, and unless a corresponding certification by Euroclear or Clearstream, Luxembourg or Clearstream, Frankfurt or CMU shall have been delivered prior to each such date on which such amounts are to be paid.

In respect of CMU Securities, whilst any Bearer Security is represented by a Temporary Global Security, payments of principal, interest (if any) and any other amount payable in respect of the Securities due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Security) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Temporary Global Security are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by the CMU Lodging and Paying Agent.

Prospective purchasers are hereby notified that sellers of the Securities may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A of the Securities Act. The Securities will be subject to restrictions on resale and transfer. See "*Transfer Restrictions*".

Securities in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations promulgated thereunder.

In connection with any Securities which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver such Securities (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date (the "**Resale Restriction Termination Date**"), within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Securities prior to the Resale Restriction Termination Date, a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering, an offer or sale of Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from, or in a transaction not subject to the registration requirements of the Securities Act and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

Such Dealers as may be specified in the relevant Applicable Transaction Terms may offer and sell Securities in accordance with Rule 144A under the Securities Act ("**144A Resales**") subject to compliance with all applicable United States selling restrictions.

In connection with any such 144A resale, each such Dealer has represented, undertaken and agreed that it has taken or will take reasonable steps to ensure that the purchaser is aware that the Securities have not been, and will not be, registered under the Securities Act or the securities laws of any state or other jurisdiction of the United

Securities denominated in Singapore dollars and issued to persons in Singapore by a person carrying on a deposit-taking business (whether in Singapore or elsewhere) with a maturity period of less than 12 months and a denomination of less than S\$200,000 would be treated as deposits for the purposes of the Banking Act 1970 of Singapore (the "**Singapore Banking Act**"), unless the Securities are issued to certain persons, including either:

- (a) the value calculated by deducting any outstanding amounts in respect of any credit facility that is secured by the residence from the estimated fair market value of the residence; and
- (b) S\$1 million.

In addition, even where Securities issued in Singapore dollars with a denomination of less than S\$200,000 are not treated as deposits for the purposes of the Singapore Banking Act, certain additional information is required to be furnished to investors in Singapore by an issuer which is carrying on a deposit-taking business. *In such case, please refer to the Applicable Transaction Terms for such further information.*

The information provided below does not purport to be a complete summary of tax law and practice currently applicable in Spain and is subject to any changes in law and the interpretation and application thereof, which could be made with retroactive effect.*

#### Indirect Taxation

Whatever the nature and residence of the holder of a beneficial interest in the Securities (each, a "**Beneficial Owner**"), the acquisition and transfer of the Securities will be exempt from indirect taxes in Spain, in accordance with Article 338 of the Securities Market Law, approved by Law 6/2023, of 17 March, for example exempt from

transfer tax and stamp duty, in accordance with the consolidated text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September 1993, and exempt from value added tax, in accordance with Law 37/1992, of 28 December 1992, regulating such tax, as amended from time to time.

### 1. **Individuals with Tax Residence in Spain**

#### 1.1 **Personal Income Tax (*Impuesto sobre la Renta de las Personas Físicas*)**

Spanish individuals ("*personas físicas*") with tax residency in Spain (each a "**Spanish Individual**") are subject to PIT on a worldwide basis. Accordingly, income obtained from the Securities will be taxed in Spain when obtained by persons that are considered resident in Spain for tax purposes. The fact that a Spanish company pays interest or guarantees payments under a Security will not lead an individual or entity to be considered tax-resident in Spain.

Both interest payments periodically received and income derived from the transfer, redemption or exchange of the Securities constitute a return on investment obtained from the transfer of a person's own capital to third parties in accordance with the provisions of Section 25 of the PIT Law, and therefore must be included in the investor's PIT savings taxable base pursuant to the provisions of the aforementioned law and taxed at a flat rate of 19 per cent. on the first €6,000, 21 per cent. for taxable income between €6,000.01 and €50,000, 23 per cent. for taxable income between €50,000.01 and €200,000, 27 per cent. for taxable income between €200,000.01 and €300,000, and 30 per cent. for taxable income exceeding €300,000.

According to Article 44.4 of the Royal Decree 1065/2007, in relation to withholding taxes, the Spanish Issuer would be obliged to withhold taxes in Spain on any interest paid under the Book-Entry Securities to PIT payers.

In that sense, in the case of Book-Entry Securities, other than Implicit Yield Securities with a duration of more than 12 months, the information procedures set out in Royal Decree 1065/2007 would need to be compiled with.

In addition, with respect to Implicit Yield Securities with a maturity of more than twelve (12) months, the information procedures set out in the PIT regulations would also need to be observed.

For that reason, in the case of Implicit Yield Securities with a maturity of more than twelve (12) months, the Issuer will proceed to reimburse them provided that the holder thereof accredits their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain. In accordance with the legislation currently in force, in case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof.

#### 1.2 **Net Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Net Wealth Tax may be levied in Spain on resident individuals, on a worldwide basis. In particular, individuals with tax residency in Spain are subject to Net Wealth Tax to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Securities which they hold as at 31 December each year, the applicable rates ranging between 0.2 per cent. and 3.5 per cent. The final tax rates may vary depending on any applicable regional tax laws, and some reductions may apply.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022 and, although it was introduced as a two year direct wealth tax, in December 2023, it was extended indefinitely. In general terms, it applies, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt. The amount payable for this tax could be reduced by the amount paid for Wealth Tax.

The rates of the "Solidarity Tax" are:

<b>Taxable base up to (Euros)</b>	<b>Tax due (Euros)</b>	<b>Rest of taxable base (Euros)</b>	<b>Rate</b>
0.00	0.00	3,000,000.00	0%

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

3,000,000.00	0.00	2,347,998.03	1.7%
5,347,998.03	39,915,97	5,347,998.03	2.1%
10,695,996.06	152,223,93	Any excess	3.5%

Notwithstanding the foregoing, note that this regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the net wealth, not tax exempt, are greater than €3.7 million.

Prospective investors are advised to seek their own professional advice in this regard.

### 1.3 **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to the Spanish Inheritance and Gift Tax in accordance with the applicable Spanish regional and State rules. The applicable effective tax rates currently range between 0 per cent. and 81.6 per cent. depending on relevant factors.

## 2. **Legal Entities with Tax Residency in Spain**

### 2.1 **Corporate Income Tax (*Impuesto sobre Sociedades*)**

Both interest received periodically and income deriving from the transfer, redemption or repayment of the Securities are subject to Corporate Income Tax (at the current general rate of 25 per cent.) in accordance with the rules for this tax. This general rate will not be applicable to all Corporate Income Tax taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent.). Special rates apply in respect of certain types of entities (such as qualifying collective investment institutions at the rate of 1 per cent.).

In accordance with Sections 4 and 5 of Article 44 of Royal Decree 1065/2007, there is no obligation to withhold on interest payable under the Securities issued in accordance with the Law 10/2014 and on the reimbursement of the Implicit Yield Securities with a duration of equal to or less than 12 months to Spanish CIT taxpayers (which for the sake of clarity, include Spanish tax resident investment funds and Spanish tax resident pension funds). Consequently, the Issuer will not withhold on interest payments from the Securities or on the reimbursement of Implicit Yield Securities to Spanish CIT taxpayers provided that the relevant information about the Securities is duly submitted.

According to Article 61.q) of the Corporate Income Tax Regulations, the Spanish Issuer would not be obliged to withhold taxes in Spain on any interest paid under the Implicit Yield Securities with a maturity of more than 12 months, other than Bearer Securities and Registered Securities, to Spanish CIT taxpayers provided that such Implicit Yield Securities would be issued in book entry form and admitted to trading on an official secondary securities market or in the Alternative Fixed Income Market in Spain. In addition, according to Article 61.s) of the Corporate Income Tax Regulations, the Spanish Issuer would not be obliged to withhold taxes in Spain on any interest paid under the Implicit Yield Securities with a maturity of more than 12 months, other than Book-Entry Securities, to Spanish CIT taxpayers provided that such Implicit Yield Securities would be listed and admitted to trading on an official securities market in an OECD country.

Likewise, in relation to the Implicit Yield Securities referred in the two preceding paragraphs, the information procedures set out in the CIT regulations would also need to be observed. In this respect, it is necessary to distinguish the procedure to be followed in the case of Securities issued in accordance with the Law 10/2014 or Implicit Yield Securities with a maturity equal to or less than 12 months, from the procedure applicable to the Implicit Yield Securities with a maturity of more than 12 months.

In the case of Implicit Yield Securities including, but not limited to, Zero Coupon Securities, with a duration of more than 12 months, the Issuer will proceed to reimburse them provided that the holder thereof accredits their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain. In

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

accordance with the legislation currently in force, in case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof.

In the case of Securities held by Spanish resident entities and deposited with a Spanish resident entity acting as depositary or custodian, payments of interest under the Securities may be subject to withholding tax at the generally applicable rate of 19 per cent., if the Securities do not comply with applicable exemption requirements including those specified in the Reply to the Consultation of the Directorate General for Taxation (*Dirección General de Tributos*) dated 27 July 2004 in which case the required withholding will be made by the depositary or custodian.

Notwithstanding the above, amounts withheld, if any, may be credited by the relevant investors against their final CIT liability.

### 2.2 **Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Spanish resident legal entities are neither subject to Wealth Tax, nor to Solidarity Tax.

### 2.3 **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Legal entities with tax residency in Spain which acquire ownership or other rights over the Securities by inheritance, gift or legacy are not subject to Inheritance and Gift Tax and must include the market value of the Securities in their taxable income for Corporate Income Tax purposes.

## 3. **Individuals and Legal Entities with no Tax Residency in Spain**

### 3.1 **Non-Resident Income Tax (*Impuesto sobre la Renta de No Residentes*)**

#### (a) *Non-Spanish resident investors acting through a permanent establishment in Spain*

Ownership of the Securities by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Securities form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Securities are the same as those for Spanish Corporate Income Tax taxpayers.

In the same way, the reimbursement of Implicit Yield Securities with a maturity of more than 12 months will follow the same procedure as those for Spanish Corporate Income Tax taxpayers.

#### (b) *Non-Spanish resident investors not acting through a permanent establishment in Spain*

Both interest payments received periodically and income deriving from the transfer, redemption or repayment of the Securities issued in accordance with the Law 10/2014 and Implicit Yield Securities with a maturity equal to or less than 12 months, obtained by individuals or entities who have no tax residency in Spain, and which are Non-Resident Income Tax taxpayers with no permanent establishment in Spain, are exempt from such Non-Resident Income Tax on the same terms laid down for income from public debt provided that the relevant information about such Securities is duly submitted to the Issuer.

In the case of Implicit Yield Securities with a maturity of more than 12 months, the Spanish Issuer would not be obliged to withhold taxes in Spain to Non-Resident Income Tax taxpayers if the holder provides the Issuer with a certificate of tax residence issued by the tax authorities of the relevant country.

To make the above exemptions effective, it will be necessary to comply with the information provision obligations described below. For these purposes, it is necessary to distinguish the procedure to be followed in the case of Securities issued in accordance with Law 10/2014 or Implicit Yield Securities with a maturity equal to or less than 12 months, from the procedure applicable to Implicit Yield Securities with a maturity of more than 12 months.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### 3.2 **Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to the Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory exceed EUR 700,000 would be subject to Wealth Tax in tax year 2026, the applicable rates ranging between 0.2 per cent. and 3.5 per cent..

Non-Spanish resident legal entities are not subject to Wealth Tax.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022 and, although it was introduced as a two year direct wealth tax, in December 2023, it was extended indefinitely. In general terms, it applies, under certain conditions, to those non-Spanish residents having properties or rights over properties located in Spain, or that can be exercised within the Spanish territory. The amount payable for this tax could be reduced by the amount paid for Wealth Tax.

The rates of the "Solidarity Tax" are:

<b>Taxable base up to (Euros)</b>	<b>Tax due (Euros)</b>	<b>Rest of taxable base (Euros)</b>	<b>Rate</b>
0.00	0.00	3,000,000.00	0%
3,000,000.00	0.00	2,347,998.03	1.7%
5,347,998.03	39,915,97	5,347,998.03	2.1%
10,695,996.06	152,223,93	Any excess	3.5%

Notwithstanding the foregoing, note that the regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the value of the properties and rights over properties located in Spain, or that can be exercised within the Spanish territory, of the non-Spanish residents not tax exempt, are greater than €3,700,000.

Non-Spanish resident legal entities are not subject to Solidarity Tax.

Prospective investors are advised to seek their own professional advice in this regard.

### 3.3 **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Individuals who do not have tax residency in Spain who acquire ownership or other rights over the Securities by inheritance, gift or legacy, and who reside in a country with which Spain has entered into a double tax treaty in relation to Inheritance and Gift Tax will be subject to the relevant double tax treaty.

If the provisions of the foregoing paragraph do not apply, such individuals will be subject to Inheritance and Gift Tax in accordance with Spanish regional and state legislation. The applicable Spanish Inheritance and Gift Tax rate would range between 0 per cent. (full exemption) and 81.6 per cent., depending on relevant factors. As such, prospective investors should consult their tax advisers.

Non-Spanish resident legal entities which acquire ownership or other rights over the Securities by inheritance, gift or legacy are not subject to Inheritance and Gift Tax. They will be subject to Non-Resident Income Tax. If the legal entity is resident in a country with which Spain has entered into a double tax treaty, the provisions of such treaty will apply. In general, double tax treaties provide for the taxation of this type of income in the country of residence of the beneficiary.

## 4. **Obligation to inform the Spanish tax authorities of the ownership of the Securities**

With effect as from 1 January 2013, Law 7/2012, of 29 October, as implemented by Royal Decree 1558/2012, of 15 November, introduced new annual reporting obligations applicable to Spanish residents

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

(i.e. individuals, legal entities, permanent establishments in Spain of non-resident entities) in relation to certain foreign assets or rights.

Consequently, if the Securities are deposited with or placed in the custody of a non-Spanish entity, holders resident in Spain will be obliged, if certain thresholds are met as described below, to declare before the Spanish tax authorities, between 1 January and 31 March every year, the ownership of the Securities held on 31 December of the immediately preceding year (e.g. to declare between 1 January 2025 and 31 March 2025 the Securities held on 31 December 2024).

This obligation would only need to be complied with if certain thresholds are met: specifically, if the only rights/assets held abroad are the Securities, this obligation would only apply if the value of the Securities together with other qualifying assets held on 31 December exceeds €50,000 (with the corresponding valuation to be made in accordance with Wealth Tax rules). If this threshold is met, a declaration would only be required in subsequent years if the value of the Securities together with other qualifying assets increases by more than €20,000 as against the declaration made previously. Similarly, cancellation or extinguishment of the ownership of the Securities before 31 December should be declared if such ownership was reported in previous declarations.

### **5. Information about the Securities in Connection with Payments**

#### **5.1 Securities issued in accordance with Law 10/2014 or Implicit Yield Securities with a term equal to or less than 12 months**

In the case of Securities issued in accordance with Law 10/2014 or Implicit Yield Securities with a duration equal to or less than 12 months, the Issuer is currently required by Spanish law to file an annual return with the Spanish tax authorities in which it reports on certain information relating to the Securities.

In the case of Book-Entry Securities, other than Implicit Yield Securities with a duration of more than 12 months, according to Section 44.4 of Royal Decree 1065/2007, for the purpose of preparing the annual return referred to above, certain information with respect thereto must be submitted to the Issuer at the time of each payment.

Such information would be the following:

- (a) identification of the Securities (as applicable) in respect of which the relevant payment is made;
- (b) the date on which relevant payment is made;
- (c) the total amount of the relevant payment;
- (d) the amount of income corresponding to PIT taxpayers, except segregated coupons and segregated principal for which reimbursement an intermediary entity is involved; and
- (e) the amount of income which, according to paragraph 2 of article 44 of Royal Decree 1065/2007, must be paid gross.

In respect of Bearer Securities and Registered Securities, other than Implicit Yield Securities with a maturity of more than 12 months, in accordance with Section 44.5 of Royal Decree 1065/2007, for the purpose of preparing the annual return referred to above, certain information with respect thereto must be submitted to the Issuer at the time of each payment.

Such information would be the following:

- (a) identification of the Securities (as applicable) in respect of which the relevant payment is made;
- (b) the date on which relevant payment is made;
- (c) the total amount of the relevant payment; and
- (d) the amount of the relevant payment corresponding to each entity that manages a clearing and settlement system for securities situated outside Spain.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

In particular, the Principal Paying Agent or (in the case of Book-Entry Securities) the Iberclear Paying Agent (or any other entity that holds securities on behalf of third parties within clearing and settlement systems domiciled in the Spanish territory) must certify the information above about such Securities by means of a certificate the form of which is attached as Annex 1 of this Base Prospectus. In light of the above, the Issuer and the Principal Paying Agent or the Iberclear Paying Agent, as applicable, have arranged certain procedures to facilitate the collection of information concerning such Securities. Investors should note that the Issuer does not accept any responsibility relating to the procedures established for the collection of information concerning the Securities.

Accordingly, the Issuer will not be liable for any damage or loss suffered by any holder who would otherwise be entitled to an exemption from Spanish withholding tax but whose income payments are nonetheless paid net of Spanish withholding tax because these procedures prove ineffective. Moreover, the Issuer will not pay any additional amounts with respect to any such withholding. See "*Risk Factors*". The procedures for providing documentation referred to in this section are set out in detail in the Agency Agreement which may be inspected during normal business hours at the specified office of the Principal Paying Agent or the Iberclear Paying Agent. In particular, if the Principal Paying Agent does not act as common depositary, the procedures described in this section will be modified in the manner described in the Agency Agreement.

If, following clarifications by the Spanish Tax Authorities, procedures in relation to Royal Decree 1065/2007 are subsequently amended, the Issuer, the Principal Paying Agent and the Iberclear Paying Agent will implement such procedures as may be required to enable the Issuer to comply with its obligations under applicable legislation as clarified by the Spanish Tax Authorities.

Please note that the procedure set out in Section 7 (*Implicit Yield Securities that are Book-Entry Securities with a maturity of more than 12 months*) below would also apply for Implicit Yield Securities with a maturity equal or less than 12 months when the holders are Spanish individuals taxpayers.

*Set out below is Annex 1. Sections in English have been translated from the original Spanish and such translations constitute direct and accurate translations of the Spanish language text. In the event of any discrepancy between the Spanish language version of the certificate contained in Annex 1 and the corresponding English translation, the Spanish tax authorities will give effect to the Spanish language version of the relevant certificate only.*

### 6. **No holding of Implicit Yield Securities other than Book-Entry Securities by Spanish Individuals**

The sale, transfer, or acquisition of Implicit Yield Securities other than Book-Entry Securities including, but not limited to, Zero Coupon Securities, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Securities other than Book-Entry Securities to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as owner of Implicit Yield Securities other than as an owner of Book-Entry Securities or (ii) list any Implicit Yield Securities other than Book-Entry Securities on AIAF.

### 7. **Implicit Yield Securities that are Book-Entry Securities with a maturity of more than 12 months**

In case of Implicit Yield Securities that are Book-Entry Securities with a duration of more than 12 months, the reimbursement proceeding requires that the holder (i) provides the Issuer with a certificate of tax residence issued by the tax authorities of the country of its tax residence, in the case of Non-Resident Income Tax taxpayers, according to which no withholding tax should apply upon such reimbursement and (ii) accredits their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain.

In accordance with the legislation currently in force, in the case of failure to provide the certificate in relation to the prior acquisition and the corresponding acquisition price, the Issuer will not proceed to pay to the holder the reimbursement thereof.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### 8. The Spanish financial transactions tax

The Spanish law which implements the Spanish financial tax (the "**Spanish FTT**") was approved on 7 October 2020 (the "**FTT Law**") and the FTT Law was published in the Spanish Official Gazette (*Boletín Oficial del Estado*) on 16 October 2020. The Spanish FTT came into force three months after the publication of the FTT Law in the Spanish Official Gazette (that is, on 16 January 2021).

Spanish FTT will charge a 0.2 per cent. rate on specific acquisitions of listed shares issued by Spanish companies whose market capitalisation exceeds €1 billion, regardless of the jurisdiction of residence of the parties involved in the transaction. The tax payer will be the financial traders that transfer or execute the purchase order and must submit an annual tax return.

The list of the Spanish companies with a market capitalisation exceeding €1 billion at 1 December of each year will be published on the Spanish tax authorities' website before 31 December each year. For the purposes of transactions closed during 2025, the Spanish tax authorities issued a list of entities whose market capitalisation exceeded €1 billion as of 1 December 2024, that will fall within the scope of the Spanish FTT.

In principle, the Spanish FTT does not affect transactions involving bonds or debt or similar instruments.

Prospective investors are advised to seek their own professional advice in relation to the Spanish FTT.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### Taxation in the Principality of Andorra

*The following is a general description of certain Andorran tax considerations based upon the laws currently in force in the Principality of Andorra ("Andorra").*

#### **Introduction**

This information has been drafted based upon the following Andorran tax legislation in force as of the date of this Base Prospectus:

- (i) For legal entities resident for tax purposes in Andorra which are Corporate Income Tax ("**Corporate Income Tax**" or "**CIT**") taxpayers, the (a) Law 95/2010, of 29 December 2010, on the Corporate Income Tax, as amended from time to time and the (b) Decree 595/2023 of 29 December 2023, on the Corporate Income Tax Regulations, as amended from time to time (both referred to as "**Corporate Income Tax Regulations**"); and
- (ii) For individuals being residents for tax purposes in Andorra which are Personal Income Tax ("**Personal Income Tax**" or "**PIT**") taxpayers, the (a) Law 5/2014, of 24 April 2014, on Personal Income Tax and the (b) Decree 596/2023 of 29 December 2023, as amended from time to time (both referred to as "**Personal Income Tax Regulations**").

The acquisition and transfer of the Securities will be exempt from indirect taxes in Andorra.

#### **Legal Entities with Tax Residency in Andorra**

##### **(a) Corporate Income Tax ("*Impost sobre Societats*")**

Both interests received periodically and income deriving from the transfer, redemption or repayment of the Securities are subject to Corporate Income Tax (at the current general rate of 10 per cent.) in accordance with the Corporate Income Tax Regulations. This general rate will not be applicable to all Corporate Income Tax taxpayers and, for instance, a special rate (0 per cent.) applies for collective investment undertakings.

##### **(b) Other considerations (Wealth, Gifts and heritances)**

Andorran tax legislation does not provide for wealth tax. Consequently, the mere holding of the Securities is not a taxable event.

Andorran tax legislation does not provide for specific inheritance and gifts tax. However, Andorran-resident legal entities which acquire ownership or other rights over the Securities by inheritance or gift must include the market value of the Securities (or the market value of the rights so acquired) in their taxable income for Corporate Income Tax Regulations purposes.

#### **Individuals with Tax Residency in Andorra**

##### **(a) Personal Income Tax ("*Impost sobre la Renda de les Persones Físiques*")**

Both interests received periodically and income deriving from the transfer, redemption or repayment of the Securities are subject to Personal Income Tax (at the current general rate of 10 per cent.) in accordance with the Personal Income Tax Regulations as a part of saving tax base. The Personal Income Tax establishes an exemption of €3,000 per year applicable to the saving tax base.

In accordance with the Personal Income Tax Regulations, there is a withholding obligation on interest payable to Andorran PIT taxpayers. Consequently, the Local Entity will withhold on interest payments to Andorran PIT at a 10 per cent. fix rate.

However, the Personal Income Tax Regulations establish a €3,000 exemption per year for the benefit of Andorran tax resident individuals.

##### **(b) Other considerations (Wealth, Gifts and heritances)**

Andorran tax legislation does not provide for wealth tax nor inheritance or gifts tax.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### Taxation in Austria

*This summary is based on Austrian tax laws as currently in force and as applied on the date of this Base Prospectus. The laws and their interpretation by the tax authorities and tax courts may change and such changes may also have retroactive effect. The following comments reflect the Issuer's understanding of certain aspects of Austrian tax laws in connection with the acquisition, ownership, disposition and redemption of the Securities. They are of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. For their particular case, prospective investors should consult their professional legal and tax advisors.*

### General Remarks

Individuals resident in Austria are subject to Austrian income tax (*Einkommensteuer*) on their worldwide income (unlimited income tax liability). Individuals qualify as residents if they have either their permanent domicile and/or their habitual abode in Austria. Otherwise, they are non-resident individuals subject to income tax only on income from certain Austrian sources (limited income tax liability).

Companies resident in Austria are subject to Austrian corporate income tax (*Körperschaftsteuer*) on their worldwide income (unlimited corporate income tax liability). Companies qualify as residents if they have their place of effective management and/or their legal seat in Austria. Otherwise they are non-residents subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability).

Under Austrian tax law, individuals are subject to income tax pursuant to the Austrian Income Tax Act 1988 (*Einkommensteuergesetz* 1988, Federal Law Gazette 1988/400 as amended – "ITA") generally at progressive tax rates between 0 per cent. and 55 per cent. Corporate entities are subject to a corporate income tax at a rate of 23 per cent. pursuant to the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz* 1988, Federal Law Gazette 1988/40 I as amended – "CITA").

In case of unlimited and limited (corporate) income tax liability, Austria's right to levy taxes may be restricted by double taxation treaties.

There is no transfer tax, registration tax or similar tax payable in Austria by the holders of Securities as a consequence of the acquisition, ownership, disposition or redemption of Securities (when issued in bearer form only). The sale and purchase of Securities is not subject to Austrian stamp duty provided that no other transaction potentially taxable under the Federal Stamp Duty Act (*Gebührengesetz* 1957, Federal Law Gazette 1957/267 as amended) such as an assignment is entered into for which a document (*Urkunde*) within the meaning of the Stamp Duty Act is executed.

### *Austrian Resident Individuals*

Income derived from debt instruments such as the Securities qualifies as investment income (*Einkünfte aus Kapitalvermögen*). Such income comprises not only current income, i.e. interest payments and similar earnings, but also "realized" capital gains (*Einkünfte aus realisierten Wertsteigerungen von Kapitalvermögen*) from the sale or redemption of debt instruments, irrespective of whether they have been held as business or non-business assets and irrespective of whether the profits have been realized within a particular holding period. According to the relevant provisions of the ITA, in the tax base is, in general, the difference (surplus) between the proceeds from the sale or redemption of the debt instruments, i.e. their selling or redemption price, and their purchase price (acquisition cost).

Such profits, i.e. current income and "realized" capital gains, are in principle subject to a special tax rate of 27.5 per cent. (*Kapitalertragsteuer*, Capital Proceeds Tax – "CPT") and will be deducted by the custodian bank (*depotführende Stelle*) or the paying office (*auszahlende Stelle*), if located in Austria. Expenses which are directly connected with income subject to the special tax rate are not deductible. However, as regards profits from debt instruments such as the Securities, the special tax rate will only apply in cases where the instruments have in the primary offering been offered to an undetermined number of people (a "public offer"). This tax is in principle "final", which means that no further tax will be levied on such income and capital gains and that they do not have to be declared in other tax declarations of the taxpayer (in particular, a personal tax rate exceeding 27.5 per cent. will not apply). In case the taxpayer applies for regular taxation (*Regelbesteuerungsoption* - which they might do in case their personal tax rate is below 27.5 per cent.) or for the offsetting of losses (*Verlustausgleichsoption*), taxation is not final. In such case the taxpayer is not required to disclose all capital income in the tax return. The option for regular taxation may be exercised independently from the option for the offsetting of losses by filing a respective request to the tax office. It leads to an assessment for income tax and to the application of the regular,

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

progressive income tax rate (currently amounting to a maximum of 55 per cent. whereby the 55 per cent. tax rate applies, according to the currently existing legal framework up to and including 2029, only for yearly taxable income exceeding €1,000,000) on all taxable capital gains.

With regard to the offset of losses, Austrian tax law provides for several restrictions. Losses from capital income are not freely offsettable against all other types of income. Instead, losses can only be offset against other capital income. Cross-category offsetting (e.g. using capital losses to reduce employment or business income) is not permitted. Within the same income category (capital income) several loss offsetting restrictions apply as well.

In principle, every Austrian custodial institution (custodian bank or paying agent) performs an automatic loss offset for private assets (not business assets) to the extent possible within its scope of responsibility. It issues a so-called "loss offset certificate". As of 2025, Austrian custodial institutions are obliged (upon request by taxpayers with unlimited tax liability) to prepare a comprehensive tax report in accordance with the Tax Reporting Ordinance (Federal Law Gazette II No. 213/2024). The mandatory automatic transmission of the so-called "loss offset certificate" is no longer required.

Moreover, taxpayers may apply for a non-automatic loss offset, especially in connection with foreign investment income, by applying for the offsetting of losses (*Verlustausgleichsoption*) or by requesting to opt into the regular taxation regime (*Regelbesteuerungsoption*).

Further, pursuant to the relevant provisions of the ITA, the withdrawal or transfer of debt instruments such as the Securities from their current investor's securities account shall, as a general rule, also trigger CPT, unless one of the exemptions contained in the ITA applies. These exemptions are all based on the idea that no CPT shall be deducted, in cases where the taxation in Austria of potential future profits deriving from the sale or redemption of the transferred debt instruments remains in fact possible. In addition, exit tax rules (*Wegzugsbesteuerung*) apply if Austria loses its right to tax the Securities in the event of certain transfers or relocation, which are not discussed herein.

In its international dimension, the capital gains tax applies only and CPT will only be deducted, if either the custodian bank (*depotführende Stelle*) or - under certain conditions - the paying office (*auszahlende Stelle*) is located in Austria. In most cases the paying office (*auszahlende Stelle*) will be the bank with which the investor maintains their securities account. The term "custodian bank" refers to banks (its branches and offices) providing the securities account to the investor and not to any other bank up in the holding chain. The custodian bank or, if applicable, the paying office will be responsible for the deduction of the capital gains tax (CPT) and its transfer to the respective Austrian tax office.

To the extent that no CPT is deducted due to the lack of a custodian bank (*depotführende Stelle*) or a paying office (*auszahlende Stelle*) located in Austria, the income derived from debt instruments such as the Securities must be included into the respective taxpayer's tax declaration, if such profits are received by an Austrian resident individual subject to unlimited income tax liability. In this case, the special tax rate of 27.5 per cent. equally applies.

The Issuer does not assume any responsibility for Austrian CPT (*Kapitalertragsteuer*) to be withheld by any custodian bank (*depotführende Stelle*) or a paying office (*auszahlende Stelle*) located in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

### *Austrian Resident Corporate Investors*

Resident corporate investors deriving business income from the Securities may avoid the deduction of CPT by filing a statement of exemption with the securities account keeping bank (or the paying office) and (via the bank/paying office) with the competent Austrian tax office to the fact that the payment received is due to a commercial enterprise subject to taxation in Austria (*Befreiungserklärung*). As of 1 January 2025, the statements of exemptions from CPT (*Befreiungserklärung*) must be submitted electronically to the Austrian tax authorities. Income derived from the Securities by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 23 per cent. A special tax regime applies for private foundations (*Privatstiftungen*).

### **Non-Resident Individuals and Non-Resident Corporate Investors**

Interest income falls within the limited income tax liability applicable to non-resident individuals in case the interest payment is qualified "domestic" (section 98 para 1 no. 5 of the ITA) and provided that CPT has to be deducted. Interest payments will be qualified domestic in case the debtor's domicile, legal seat or place of effective

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

management is located in Austria or in case the debtor is an Austrian branch of a foreign bank. Interest income derived from debt instruments (interest payments, realised capital gains) will be qualified domestic in case the debt securities have been issued by an Austrian issuer. For non-resident corporate entities deriving business income from Securities the current exemption in section 98 para 1 no. 5 of the ITA will continue to apply pursuant to which interest payments which are not received by individuals are exempt from the limited income tax liability. In addition, an exemption will apply in case interest income is received by individuals which are resident in countries in respect of which an automatic exchange of financial account information (see below) with Austria is implemented. The justification of residence in such a country must be proven by a certificate of residence. Further, non-resident corporate investors deriving business income from Securities may avoid the deduction of CPT by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian paying office.

Applicable double taxation treaties may provide for a reduction of or relief from CPT. In case non-residents receive income from Securities through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors. Investors should consult their professional advisers to clarify their position.

### Other Taxes

Due to a decision of the Austrian Constitutional Court (*Verfassungsgerichtshof*), the Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) has been abolished with effect of August 1, 2008. However, pursuant to section 121a of the Federal Fiscal Code (*Bundesabgabenordnung*, Federal Law Gazette 1961/194 as amended), gifts exceeding certain amounts must be notified to the Austrian tax authorities within a three-month notification period. In addition, it should be mentioned that certain gratuitous transfers of assets to (Austrian or foreign) private law foundations and comparable legal estates are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Federal Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*, Federal Law Gazette I 2008/85). This tax is triggered, if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. The tax is based on the market value of the transferred assets less any debt economically linked to these assets. In general, the applicable tax rate amounts to 3.5 per cent. However, in certain cases a higher tax rate of 25 per cent. applies.

### Taxation in France

*The following is an overview of certain tax consequences relating to the holding of the Securities. This overview is based on the laws and regulations in full force and effect in France as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that this overview is of a general nature and does not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or disposal of the Securities.*

#### **Withholding taxes**

*The following has been prepared on the assumption that the Issuer is not a French resident for French tax purposes (whether actually or constructively) and does not have a branch, permanent establishment or other place of business in France.*

The withholding tax treatment of the Securities issued by the Issuer will depend on their nature and characterisation for French tax purposes.

#### *Securities issued by the Issuer constituting debt instruments for French tax purposes*

Payments with respect to Securities issued by the Issuer which are treated as debt instruments for French tax purposes would be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A I of the French *Code général des impôts*, subject to certain exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

withholding at an aggregate rate of 18.6 per cent. on such interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

*Securities issued by the Issuer not constituting debt instruments for French tax purposes*

Payments with respect to Securities issued by the Issuer which are not treated as debt instruments for French tax purposes would not be subject to any mandatory withholding tax in France.

### **Transfer tax and other taxes**

*The following may be relevant in connection with Securities which may be settled or redeemed by way of physical delivery of (i) certain listed shares or certain assimilated securities issued by a company whose registered office is situated in France or (ii) securities representing such shares (or assimilated securities). In circumstances where the Securities are settled or redeemed by way of physical delivery of assets (other than certain listed French shares (or certain assimilated securities) or securities representing certain listed French shares (or certain assimilated securities)), investors are urged to consult their advisor to assess the potential French tax consequences.*

Pursuant to Article 235 *ter* ZD of the French *Code général des impôts*, a financial transaction tax (the "**French FTT**") is applicable, to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) within the meaning of Article L 211-41 of the French *Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the year in which the imposition occurs (the "**French Shares**") or (ii) a security (*titre*) representing French Shares (irrespective of the location of the registered office of the issuer of such security). The rate of the French FTT is 0.4 per cent. of the acquisition value of the French Shares (or securities representing French Shares). There are a number of exemptions from the French FTT and investors should consult with their counsel to identify whether they can benefit from them.

If the French FTT applies to an acquisition of French Shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

### **Taxation in Ireland**

The following is an overview of certain tax consequences relating to the holding of the Securities. This overview is based on the laws and regulations in full force and effect in Ireland as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that this overview is of a general nature and does not constitute legal or tax advice and should not be understood as such. It deals with holders of Securities who beneficially own their Securities as an investment and who are not associated with the Issuer (otherwise than by virtue of holding the Securities). Particular rules not discussed below may apply to certain classes of taxpayers holding Securities such as dealers in securities. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or disposal of the Securities.

### **Withholding tax**

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which could include interest paid on the Securities. However, an exemption from withholding on interest payments exists under Section 64 of the Taxes Consolidation Act, 1997 (the "**1997 Act**") for certain interest bearing securities ("**quoted Eurobonds**") issued by a body corporate (such as the Issuer) which are quoted on a recognised stock exchange (which would include Euronext Dublin).

Any interest paid on such quoted Eurobonds can be paid free of withholding tax provided:

- (a) the person by or through whom the payment is made is not in Ireland; or
- (b) the payment is made by or through a person in Ireland, and either:

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

- (i) the quoted Eurobond is held in a clearing system recognised by the Irish Revenue Commissioners (Euroclear and Clearstream, Luxembourg are so recognised), or
- (ii) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as an Irish paying agent) in the prescribed form.

So long as the Securities are quoted on a recognised stock exchange and are held in Euroclear and/or Clearstream, Luxembourg, interest on the Securities can be paid by the Issuer and any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax.

In certain circumstances, Irish tax will be required to be withheld at the rate of 25 per cent from interest on any quoted Eurobond, where such interest is collected by a bank or other agent in Ireland on behalf of any Securityholder.

### ***Taxation of Securityholders***

Notwithstanding that a Securityholder may receive interest on the Securities free of withholding tax, the Securityholder may still be liable to pay Irish income tax. Interest paid on the Securities may have an Irish source and therefore be within the charge to Irish income tax, pay related social insurance "PRSI" and the universal social charge. Ireland operates a self-assessment system in respect of income tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

However, interest on the Securities will be exempt from Irish income tax if the recipient of the interest is resident in a relevant territory (a member state of the European Union (other than Ireland) or in a country with which Ireland has a comprehensive double taxation agreement) provided either (i) the Securities are quoted Eurobonds and are exempt from withholding tax as set out above, (ii) the Securities are not or cease to be quoted Eurobonds exempt from withholding tax and the recipient of the interest is a company resident in a relevant territory that generally taxes foreign source interest.

In addition, provided that the Securities are quoted Eurobonds and are exempt from withholding tax as set out above, the interest on the Securities will be exempt from Irish income tax if the recipient of the interest is (i) a company under the control, directly or indirectly, of persons who by virtue of the law of a relevant territory are resident in that country and that person or persons are not themselves under the control whether directly or indirectly of a person who is not resident in such a country, or (ii) a company, the principal class of shares of such company, or another company of which the recipient company is a 75 per cent. subsidiary, is substantially and regularly traded on one or more recognised stock exchanges in Ireland or a relevant territory or a stock exchange approved by the Irish Minister for Finance.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Securities are held or attributed may have a liability to Irish corporation tax on the interest.

Securityholders receiving interest on the Securities which does not fall within the above exemptions may be liable to Irish income tax, PRSI and the universal social charge on such interest.

### ***Capital gains tax***

A holder of Securities may be subject to Irish tax on capital gains on a disposal of Securities unless such holder is neither resident nor ordinarily resident in Ireland and does not carry on a trade in Ireland through a branch or agency in respect of which the Securities are used or held.

### ***Capital acquisitions tax***

A gift or inheritance comprising of Securities will be within the charge to capital acquisitions tax if either (i) the donor or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the donor is domiciled in Ireland irrespective of his residence or that of the donee/successor) or (ii) the Securities are regarded as property situate in Ireland. Bearer securities are generally regarded as situated where they are physically located at any particular time. Registered Securities are generally regarded as situated where the principal register of Securityholders is maintained or is required to be maintained, but the Securities may be regarded as situated in Ireland regardless of their physical location or the location of the register as they represent a debt owed by an Irish incorporated debtor which may be secured over Irish property.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Accordingly, if such Securities are comprised in a gift or inheritance, the gift or inheritance may be within the charge to tax regardless of the residence status of the disponent or the donee/successor.

### *Stamp duty*

Any document or transfer order effected through a securities settlement system operated by a central securities depository transferring an interest in the Securities is potentially subject to 1 per cent. Irish stamp duty. However, if the terms of the loan capital exemption are satisfied, no stamp duty is payable. There are four conditions that must be satisfied to avail of this exemption:

- (a) the Securities must not carry a right of conversion into shares of an Irish incorporated company;
- (b) the Securities must not carry rights similar to those attaching to shares, including voting rights, entitlement to a share of profits or a share in surplus on liquidation of the Issuer;
- (c) the Securities must be issued for a price which is not less than 90 per cent. of the nominal value of the Securities; and
- (d) the Securities must not carry a right to a sum in respect of repayment or interest which is related to certain movements in an index or indices (based wholly or partly and directly or indirectly on stocks or marketable securities) specified in any document relating to the Securities.

A second possible exemption may apply to the Securities if the loan capital exemption above is not available. The transfer of foreign loan securities issued by an Irish company is exempt from stamp duty. For this purpose, a "foreign loan security" is a security issued outside Ireland in respect of a loan which is expressed in a currency other than euro and is neither offered for subscription in Ireland nor offered for subscription with a view to an offer for sale in Ireland of securities in respect of the loan.

Where the above exemptions (or any other available exemption) do not apply, the transfer of a Security will be subject to stamp duty at a rate of 1 per cent of the consideration paid in respect of the transfer (or if greater, the market value thereof) which must be paid in Euro by the transferee (assuming an arm's length transfer) within 30 days of the date on which the transfer of the Security is executed.

### **Taxation in Italy**

*The following is a summary of current Italian law and practice relating to the taxation of Securities. The statements herein regarding taxation are based on the laws in force in Italy and published practices of the Italian tax authorities issued as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of Securities.*

*This summary does not describe the tax consequences for an investor with respect to Securities that will be redeemed by physical delivery. Prospective Securityholders are advised to consult their own tax advisers concerning the overall tax consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities, including in particular the effect of any state, regional or local tax laws. The following summary assumes that the Issuer is not resident in Italy for tax purposes.*

*In any case, Italian legal or tax concepts may not be identical to the concepts described by the same English term as they exist under terms of different jurisdictions and any legal or tax concept expressed by using the relevant Italian term shall prevail over the corresponding concept expressed in English terms.*

*Law No. 111 of 9 August 2023, published in the Official Gazette No. 189 of 14 August 2023 ("**Law 111**"), delegates power to the Italian Government to enact, within thirty-six months from its publication, one or more legislative decrees implementing the reform of the Italian tax system (the "**Tax Reform**"). According to Law 111, the Tax Reform will significantly change the taxation of financial incomes and capital gains and introduce various*

### **Italian tax treatment of the Securities**

As clarified by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, the Securities may be subject to different tax regimes depending on whether:

- (i) they represent a debt instrument implying a use of capital (*impiego di capitale*), through which the relevant holders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity; or
- (ii) they represent derivative financial instruments or bundles of derivative financial instruments that do not entail a use of capital, through which the holders purchase indirectly underlying financial instruments for the purpose of obtaining a profit deriving from the negotiation of such underlying financial instruments.

#### **1. Securities representing debt instruments implying a "use of capital"**

##### *a. Securities classified as a bonds instrument*

##### *Italian resident holders*

Legislative Decree No. 239 of 1 April 1996, as subsequently amended ("**Decree No. 239**"), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

For these purposes, debentures similar to bonds are defined as debentures that incorporate an unconditional obligation to pay, at redemption or maturity, an amount not less than their principal amount (whether or not providing for interim payments), that do not give any right to directly or indirectly participate in the management of the relevant Issuer or of the business in relation to which they are issued nor any type of control on such management and do not provide for a remuneration which is entirely linked to the profits of the issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued. Please note that, from 1 January 2027, the provisions included in the Decree No. 239 (Articles 1-9 and 11) will be incorporated, with no changes with respect to what is relevant in this issuance, into the consolidated law on payments and collection, referred to in the Italian Legislative Decree No. 33 of 24 March 2025 (Articles 62-71).

Where an Italian resident Securityholder is (i) an individual not engaged in an entrepreneurial activity to which the relevant securities are connected, (ii) a partnership (other than a *società in nome collettivo* or a *società in accomandita semplice* or a similar partnership) or a *de facto* partnership not carrying out commercial activities, (iii) a non-commercial private or public institution (other than a company), a trust not carrying out mainly or exclusively commercial activities or the Italian State or other public and territorial entity, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to Securities, accrued during the relevant holding period, are subject to a withholding tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent. unless the relevant holder has entrusted the management of his financial assets, including the Securities, to an authorised intermediary and has opted for the so called "*risparmio gestito*" regime (see under "*Capital gains tax*", below). In the event that holders described under (i) to (iii) are engaged in an entrepreneurial activity to which the relevant Securities are connected, the *imposta sostitutiva* applies as a provisional tax. Interest will be included in the relevant beneficial owner's Italian income tax return and will be subject to Italian ordinary income taxation and the *imposta sostitutiva* may be recovered as a credit that can be offset against the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Where an Italian resident holder is a company or similar commercial entity pursuant to Article 73 of Presidential Decree No. 917 of 22 December 1986, as amended and supplemented ("**TUIR**") or a permanent establishment in Italy of a foreign company to which Securities are effectively connected and such securities are deposited with an authorised intermediary, interest, premium and other income from such Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant holder's income tax return and are therefore subject to general Italian corporate taxation ("**IRES**") and, in certain circumstances, depending on the "status" of the holder, also to the regional tax on productive activities ("**IRAP**").

Payments of interest, premium and other income deriving from the Securities made to Italian resident real estate investment funds and Italian resident real estate investment companies with fixed capital (SICAF, i.e. *società di investimento a capitale fisso*) (the "**Real Estate Funds**") complying with the relevant legal and regulatory requirements and subject to the regime provided for by, *inter alia*, Law Decree No. 351 of 25 September 2001 and/or Law Decree No. 44 of 4 March 2014, each as amended, are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of such Real Estate Funds, provided that the Securities are timely deposited with an Intermediary (as defined below). Subsequent distributions made in favour of unitholders or shareholders of the Real Estate Fund and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Real Estate Fund may be subject, in certain circumstances, to a withholding tax of 26 per cent.. Moreover, subject to certain conditions, depending on the status of the investor and the percentage of its participation, income realised by Real Estate Funds may be attributed to the relevant investors and subject to tax in their hands irrespective of its actual collection and in proportion to the percentage of ownership of units or shares on a tax transparency basis.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund other than a Real Estate Fund, a SICAF (an investment company with fixed share capital) other than a Real Estate SICAF or a SICAV (an investment company with variable capital) established in Italy (the "**Fund**") and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Securities are held by an authorised intermediary, interest, premium and other income accrued during the holding period on such securities will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results but a withholding tax of 26 per cent., may apply, in certain circumstances to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Tax**").

Where an Italian resident holder is a pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) and Securities are deposited with an authorised intermediary, interest, premium and other income relating to such securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions and limitations (including minimum holding period requirement) and limitations, interest, premium and other income may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("**SIMs**"), fiduciary companies, *società di gestione del risparmio* ("**SGRs**"), stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an "**Intermediary**") as subsequently amended and integrated.

An Intermediary to be entitled to apply the *imposta sostitutiva* must (i) be (a) resident in Italy or (b) a permanent establishment in Italy of a non-Italian resident financial intermediary or (c) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree No. 239; and (ii) intervene, in any way, in the collection of interest or in the transfer of Securities. For the purpose of the application of the *imposta sostitutiva*, a transfer of Securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant securities or in a change of the Intermediary with which such Securities are deposited.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a holder or, absent that, by the issuer. If interest, premium and other income on the Securities are not collected through an Intermediary or any entity paying interest and as such no *imposta sostitutiva* is levied, the Italian resident beneficial owners listed above will be required to include interest, premium and other income in their yearly income tax return and subject them to a final substitute tax at a rate of 26 per cent.

### *Non-Italian resident holders*

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident holder of interest or premium and other income relating to Securities provided that, if the securities are held in Italy, the non-Italian resident holder declares itself to be a non-Italian resident according to Italian tax regulations.

### *b. Securities classified as atypical securities*

Interest payments relating to Securities that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) and qualify as *titoli atipici* ("atypical securities") pursuant to Article 5 of Law Decree No. 512 of 30 September 1983, as amended ("**Decree No. 512**") may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are debentures that incorporate an unconditional obligation to pay, at redemption or maturity, an amount not lower than their nominal value (whether or not providing for interim payments), and that do not give any right to directly or indirectly participate in the management of the relevant Issuer or of the business in relation to which they are issued nor any type of control on such management and do not provide for a remuneration which is entirely linked to the profits of the issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Securities that are classified as atypical securities, if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Such withholding tax does not apply to interest payments made to an Italian resident holder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership (with the exception of general partnership, limited partnership and similar entities), or (iii) a commercial private or public institution.

Interest payments relating to atypical securities received by non-Italian resident beneficial owners (not having a permanent establishment in Italy to which the Securities are effectively connected) are generally not subject to tax in Italy provided that, if the Securities are held in Italy, the non-Italian resident holder declares itself to be non-Italian resident according to the Italian tax regulations.

### *c. Payments made by a non-resident guarantor*

There is no authority directly regarding the Italian tax regime of payments on Securities made by a Guarantor. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such payments than that set forth herein or that the Italian court would not support such an alternative treatment.

With respect to payments made to Italian resident holders by a non-Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payment made by the Italian non-resident guarantor could be treated, in certain circumstances, as a payment made by the Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

### *d. Fungible issues*

Pursuant to Article 11(2) of Decree No. 239, where the Issuer issues a new tranche of securities forming part of a single series with a previous tranche of securities falling within the category of bonds or bond-like securities, for the purposes of calculating the amount of interest subject to *imposta sostitutiva* (if

any), the issue price of the new tranche of securities will be deemed to be the same as the issue price of the original tranche of securities. This rule applies where (a) the new tranche of securities is issued within 12 months from the issue date of the previous tranche of securities and (b) the difference between the issue price of the new tranche of securities and that of the original tranche does not exceed 1 per cent. of the nominal value of the securities multiplied by the number of years of the duration of the securities. There is no authority directly regarding the applicability of such regime also to securities issued by non-Italian resident Issuer. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such further issuance.

### e. *Capital gains tax*

#### *Italian resident holders*

Any gain obtained from the sale, early redemption or redemption of Securities would be treated as part of the taxable income for IRES purposes (and, in certain circumstances, depending on the "status" of the holder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the relevant securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the relevant securities are connected.

Where an Italian resident holder is (i) an individual not holding Securities in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such holder from the sale, early redemption or redemption of such securities would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Under some conditions and limitations, holders may set off capital gains with their capital losses.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Securities if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below:

1. under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for holders under (i) to (iii) above, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian taxpayer pursuant to all sales, early redemption or redemptions of the relevant Securities carried out during any given tax year. These holders must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years;
2. as an alternative to the tax declaration regime, Italian resident holders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale, early redemption or redemption of the relevant Securities (the "*risparmio amministrato*" regime provided for by Article 6 of the Legislative Decree No. 461 of 21 September 1997, the "**Decreto No. 461**"). Such separate taxation of capital gains is allowed subject to (i) Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant holder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale, early redemption or redemption of Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the holder or using funds provided by the holder for this purpose. Under the *risparmio*

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

*amministrato* regime, where a sale, early redemption or redemption of Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the holder is not required to declare the capital gains in its annual tax return; and

3. any capital gains realised or accrued by Italian holders under (i) to (iii) above who have entrusted the management of their financial assets, including Securities, to an authorised intermediary and have validly opted for the so-called "*risparmio gestito*" regime (regime provided by Article 7 of Decree No. 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the holder is not required to declare the capital gains realised in its annual tax return. Any capital gains realised by a holder which is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. The Fund will not be subject to taxation on such result, but the Collective Investment Fund Tax will apply.

Any capital gains realised by a Securityholder that is a Real Estate Fund will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the Real Estate Fund. Subsequent distributions made in favour of unitholders or shareholders of the Real Estate Fund and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Real Estate Fund may be subject, in certain circumstances, to a withholding tax of 26 per cent.. Moreover, subject to certain conditions, depending on the status of the investor and the percentage of its participation, income realised by Real Estate Funds may be attributed to the relevant investors and subject to tax in their hands irrespective of its actual collection and in proportion to the percentage of ownership of units or shares on a tax transparency basis.

Any capital gains realised by an Italian Securityholder that is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio accrued at the end of the relevant tax period which is exempt from income tax. Subsequent distributions made in favour of unitholders or shareholders and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Fund may be subject, in certain circumstances, to the Collective Investment Fund Tax.

Any capital gains realised by a holder which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax. Subject to certain conditions and limitations (including minimum holding period requirement) and limitations, capital gains realised upon sale or redemption of the Securities may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

### *Non-Italian resident holders*

Capital gains realised by non-Italian resident holders not having a permanent establishment in Italy to which the Securities are effectively connected from the sale or redemption of Securities are not subject to Italian taxation, provided that the relevant securities (i) are traded on regulated markets in Italy or abroad or (ii) if not traded on regulated markets, are held outside Italy.

The Italian tax authorities have clarified that the notion of multilateral trading facility ("**MTF**") under EU Directive 2014/65/CE (so called MiFID II) can be assimilated to that of "regulated market" for income tax purposes; conversely, organized trading facilities ("**OTF**"), not falling in the definition of MTF under MiFID II, cannot be assimilated to "regulated market" for Italian income tax purposes.

Capital gains realised by non-Italian resident holders from the sale or redemption of Securities not traded on regulated markets and deposited with a bank, a SIM or certain authorised financial intermediary in Italy are not subject to the *imposta sostitutiva*, provided that the relevant holder of the instrument qualifies as the beneficial owner of the capital gain (certain types of institutional investors are deemed to be

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

beneficial owners by operation of law) and (i) is resident for income tax purposes in a country included in the list provided under Decree No 239 and possibly further amended by future decrees issued pursuant to Article 11(4)(c) of Legislative Decree No. 239 (the "**White List**"); or (ii) is an international entity or body set up in accordance with international agreements ratified in Italy; or (iii) is a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation, in any case, to the extent that the relevant non-Italian resident holders file in due course an appropriate self-declaration (*autocertificazione*) stating that they meet the requirements indicated above.

If none of the conditions above are met and the Securities are deposited with a bank, a SIM or certain authorised financial intermediaries in Italy, capital gains realised by non-Italian resident holders are subject to the *imposta sostitutiva* at the current rate of 26 per cent.. In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of the securities are to be taxed only in the country of tax residence of the recipient and comply with the relevant formalities, will not be subject to *imposta sostitutiva* in Italy, provided that all conditions for the application of the said double taxation treaty are met.

### 2. **Securities classified as derivative financial instruments or bundles of derivative financial instruments**

Based on the principles stated by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, payments in respect of Securities qualifying as securitised derivative financial instruments not entailing a "use of capital" (*impiego di capitale*) as well as capital gains realised through the sale of the same securities would be subject to Italian taxation according to the same rules described under the section headed "*Capital gains tax*" above.

#### *Inheritance and gift taxes*

Pursuant to Law Decree No. 262 of 3 October 2006 (and, starting from 1 January 2027, Legislative Decree No. 123 of August 1, 2025), converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

The transfer of financial instruments as a result of death is exempt from inheritance tax when such financial instruments are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

#### *Transfer tax*

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds (*atti pubblici e scritture private autenticate*) are subject to fixed registration tax at a rate of Euro 200; (ii) private deeds (*scritture private non autenticate*) are subject to registration tax only in case of use (*caso d'uso*), explicit reference (*enunciazione*) or voluntary registration.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Stamp duties*

Pursuant to Article 13(2-ter) of Annex A (*Tariffa*) of Presidential Decree No. 642 of 26 October 1972 (starting from 1 January 2027, Annex III of Legislative Decree No. 123 of August 1, 2025) as amended, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by Italian based financial intermediaries to their clients for the securities deposited in Italy. The stamp duty applies at a rate of 0.2 per cent. and cannot exceed €14,000, for taxpayers different from individuals; this stamp duty is determined on the basis of the market value or - if no market value figure is available - the nominal value or redemption amount of the securities held.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 29 July 2009, as subsequently amended, supplemented and restated) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory. The communication is deemed to be sent to the customers at least once a year, even for instruments for which it is not mandatory.

### *Wealth tax on securities deposited abroad*

Pursuant to Article 19(18) of Law Decree No. 201 of 6 December 2011, Italian resident individuals, non-commercial entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of TUIR) resident in Italy for tax purposes holding the securities outside the Italian territory are required to pay a wealth tax at the rate of 0.2 per cent. (0.4 per cent., as of 2024, in case of financial assets held in States or territories with privileged tax regime identified by the Ministerial Decree of the Ministry of Economy and Finance of May 4, 1999) ("IVAFA"). For taxpayers other than individuals, IVAFA cannot exceed Euro 14,000 per year.

This tax is calculated on the market value of the securities at the end of the relevant year or, if no market value figure is available, the nominal value or the redemption value of such securities held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

### *Italian Financial Transactions Tax*

Pursuant to Article 1(491 *et seq*) of Law No. 228 of 24 December 2012, a financial transaction tax ("FTT") applies to (i) transfers of property rights in shares and other participating securities issued by Italian resident companies (together, the "**Relevant Participating Instruments**"); (ii) transfers of property rights in financial instruments representing any such Relevant Participating Instruments, whether or not such financial instruments are issued by Italian resident issuers (such financial instruments, together the Relevant Participating Instruments, the "**Relevant Instruments**"); and (iii) derivative transactions referencing Relevant Instruments (i.e. derivative transactions or derivative financial instruments and certain equity-linked securities having an underlying mainly represented by one or more of Relevant Instruments or whose value is mainly linked to the Relevant Instruments) including securitised derivatives referencing Relevant Instruments (e.g. certificates).

With respect to derivative transactions referencing Relevant Instruments including securitised derivatives the FTT applies regardless of the tax residence of both the counterparties of the transactions and/or where the transaction is executed. The FTT is levied at a fixed amount of between Euro 0.01875 and Euro 200 per transaction, which varies depending on the features and notional value of the securitised derivatives. Where a securitised derivative is settled by physical settlement, the FTT is also due upon the transfer of the ownership rights in the underlying Relevant Instruments. A reduced FTT (one fifth of the standard rate) is payable in respect of transactions executed on certain qualifying regulated markets or multilateral trading facilities.

The FTT due in respect of derivative transactions referencing Relevant Instruments including securitised derivatives is payable by both counterparties to a transaction. However, the FTT does not apply where one of the parties to the transaction is the European Union, the ECB (European Central Bank), central banks of the EU Member States, foreign Central Banks or entities which manage the official reserves of a foreign State, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist including, *inter alia*, for (i) subjects who carry on market making activities; (ii) mandatory social security entities and pension funds

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) entities merely interposed in the execution of a transaction.

Pursuant to Article 19 of Ministerial Decree of 21 February 2013, the FTT is levied by the banks and other financial intermediaries (*società fiduciarie e imprese di investimento abilitate all'esercizio professionale nei confronti del pubblico dei servizi e delle attività di investimento*) ("**Intermediaries**") that are involved, in any way, in the execution of the transaction and subsequently paid to the Italian Revenue. If more than one Intermediary is involved in the execution of the transaction, the FTT is levied by the Intermediary who receives the order of execution by the purchaser of the Relevant Instruments or, in the case of a derivative transaction or securitised derivative referencing a Relevant Instrument, by the counterparty to or purchaser of such derivative. Intermediaries not resident in Italy can appoint an Italian representative for the purposes of the FTT. If no Intermediaries are involved in the execution of the transaction, the relevant FTT must be paid by each relevant party to the transaction themselves.

### Taxation in Germany

*The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Securities. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the tax laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.*

*As each Series or Tranche of Securities may be subject to a different tax treatment due to the specific terms of such Series or Tranche of Securities as set out in the Applicable Transaction Terms, the following section only provides some general information on the possible tax treatment. Tax consequences that may arise if an investor combines certain series of Securities so that he or she derives a certain return are not discussed herein.*

*The law as currently in effect provides for a reduced tax rate ("flat tax regime" – Abgeltungsteuer) for certain investment income and, in particular, interest income on the part of German tax resident private investors. There is an on-going discussion in Germany as to whether the reduced tax rate should be increased or abolished altogether so that investment income would be taxed at regular rates. It is still unclear, whether, how and when the current discussion may result in any legislative changes.*

*Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Securities, including the effect of any state, local or church taxes, under the tax laws of Germany and any country in which they are resident or whose tax laws apply to them for other reasons.*

### German Tax Residents

This section "*German Tax Residents*" refers to persons who are tax residents of Germany (i.e. persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany).

#### *Withholding tax on on-going payments and capital gains*

On-going payments received by a non-business Securityholder will be subject to German withholding tax if the Securities are kept or administered in a custodial account with a German branch of a German securities institution or a German branch of a German or non-German bank or financial services institution (each, a "**Disbursing Agent**", *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). For individual Securityholders who are subject to church tax, an electronic information system for church withholding tax purposes applies in relation to investment income, with the effect that church tax will be collected by the Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the investor will be assessed to church tax. Further, church tax is not collected by way of withholding if the investment income forms part of income from trade business, self-employment, agriculture and forestry, or letting and leasing.

The same treatment applies to capital gains (i.e. the difference between the proceeds from the disposal, redemption, repayment or assignment after deduction of expenses directly related to the disposal, redemption, repayment or assignment and the cost of acquisition) derived by a non-business Securityholder provided the Securities have been kept or administered in a custodial account with the same Disbursing Agent since the time

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

of their acquisition. If similar Securities kept or administered in the same custodial account were acquired at different points in time, the Securities first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where Securities are acquired and/or sold or redeemed in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively with the result that any currency gains or losses are part of the capital gains. If the Issuer exercises the right to substitute the Issuer of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new securities issued by the new Issuer. Such substitution could result in the recognition of a taxable gain or loss for the respective investors. The Substitute shall agree to indemnify each Securityholder for any tax incurred by such Securityholder relating to the substitution of the Issuer pursuant to the relevant provisions as set out in the Applicable Transaction Terms. The indemnities to be paid may constitute taxable income. If interest coupons or interest claims are disposed of separately (i.e. without the Securities), the proceeds from the disposal are subject to withholding tax. The same applies to proceeds from the payment of interest coupons or interest claims if the Securities have been disposed of separately.

If Securities qualifying as a forward/future or option transaction (*Termingeschäft*) according to sec. 20 para. 2 sent. 1 no. 3 German Income Tax Act (*Einkommensteuergesetz*) are settled by a cash payment, capital gains realised upon exercise (i.e. the cash amount received minus directly related costs and expenses, e.g. the acquisition costs) are subject to withholding tax. In the event of physical delivery, the acquisition costs of such Securities plus any additional sum paid upon exercise are generally regarded as acquisition costs of the underlying assets received upon physical settlement. Withholding tax may then apply to any gain resulting from the subsequent disposal, redemption, repayment or assignment of the assets received, in particular if they are securities. In case of certain assets being the underlying (e.g. commodities or currencies) a subsequent sale of the underlying received may not be subject to German withholding tax as outlined in this section but any disposal gain may be fully taxable at the personal income tax rate of the non-business Securityholder.

In case of a physical settlement (not qualifying as forward/future or option transactions) of certain Securities which grant the Issuer the right to physically deliver the underlying securities or the Securityholder to demand the physical delivery of the underlying securities instead of a cash payment, upon physical delivery the acquisition costs of the Securities may be regarded as proceeds from the disposal, redemption, repayment or assignment of the Securities and hence as acquisition costs of the underlying securities received by the non-business Securityholder upon physical settlement; any consideration received by the Securityholder in addition to the underlying securities may be subject to withholding tax. To the extent the provision mentioned above is applicable, generally no withholding tax has to be withheld by the Disbursing Agent upon physical settlement as such exchange of the Securities into the underlying securities does not result in a taxable gain for the non-business Securityholder. However, withholding tax may then apply to any gain resulting from the disposal, redemption, repayment or assignment of the securities received in exchange for the Securities. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Securities (after deduction of expenses related directly to the disposal, if any).

To the extent the Securities have not been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge, plus church tax, if applicable) on 30 per cent. of the disposal proceeds (plus interest accrued on the Securities ("**Accrued Interest**", *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Securities by the previous Disbursing Agent or by a statement of a bank, financial services or securities institution from another Member State of the European Union or the European Economic Area or from certain other countries (e.g. Switzerland or Andorra).

According to administrative guidance, where a Security qualifies as a full risk security (*Vollrisikozertifikat*) which provides for several payments to be made to the Securityholder such payments shall qualify as taxable investment income, unless the terms and conditions of the Securities explicitly provide for the redemption or partial redemption during the term of the Securities and these terms and conditions are complied with. Should the terms and conditions of these Securities not provide for payment at maturity or is no such payment made because the underlying value of the security has left a defined range, the acquisition cost of the security can now generally be taken into account as tax deductible loss.

In computing any German tax to be withheld, the Disbursing Agent generally deducts from the basis of the withholding tax negative investment income realised by a non-business Securityholder of the Securities via the Disbursing Agent (e.g. losses from the sale of other securities with the exception of shares in stock corporations).

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

The Disbursing Agent also deducts Accrued Interest on the Securities or other securities paid separately upon the acquisition of the respective security by a non-business Securityholder via the Disbursing Agent. In addition, subject to certain requirements and restrictions, the Disbursing Agent credits foreign withholding taxes levied on investment income in a given year regarding securities held by a non-business Securityholder in the custodial account with the Disbursing Agent.

Non-business Securityholders are entitled to an annual allowance (*Sparer-Pauschbetrag*) of EUR 1,000 (EUR 2,000 for couples and partners filing jointly) for all investment income received in a given year. Upon the non-business Securityholder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Securityholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Securities held by a corporation while ongoing payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred). The same may apply where the Securities form part of a trade or business, subject to further requirements being met.

### ***Taxation of current income and capital gains***

The personal income tax liability of a non-business Securityholder deriving income from capital investments under the Securities is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in the case of Securities kept in custody abroad or if no Disbursing Agent is involved in the payment process, the non-business Securityholder must report his or her income and capital gains derived from the Securities on his or her tax return and then will also be taxed at a rate of 25 per cent. (plus solidarity surcharge and church tax thereon, where applicable). If the withholding tax on a disposal, redemption, repayment or assignment has been calculated from 30 per cent. of the disposal proceeds (rather than from the actual gain), a non-business Securityholder may, and in case the actual gain is higher than 30 per cent. of the disposal proceeds must also, apply for an assessment on the basis of his or her actual acquisition costs. Further, a non-business Securityholder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any amounts over withheld being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemised basis is not permitted.

The offsetting of losses incurred by a non-business Securityholder is subject to several restrictions. Losses incurred with respect to the Securities can only be offset against investment income of the non-business Securityholder realised in the same or the following years. Any losses realised upon the disposal of shares in stock corporations received in exchange for the Securities can only be offset against capital gains deriving from the disposal of shares.

Where Securities form part of a trade or business, the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Securities form part of a trade or business, interest (accrued) must be taken into account as income. Where Securities qualify as zero coupon securities and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. The respective Securityholder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Securityholder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the Securityholder. Where Securities form part of a German trade or business, the current income and gains from the disposal, redemption, repayment or assignment of the Securities may also be subject to German trade tax. Where according to an applicable accounting standard Securities include an embedded derivative, the Securityholder may have to account for a receivable and a derivative. The deduction of losses from derivatives may be ring-fenced as discussed below.

Generally the deductibility of capital losses from Securities which qualify for tax purposes as forward/future or option transactions and which form part of a trade or business is limited. These losses may only be applied against profits from other forward/future or option transactions derived in the same or, subject to certain restrictions, the previous year. Otherwise these losses can be carried forward indefinitely and, within certain limitations, applied against profits from forward/future or option transactions in subsequent years. This generally does not apply to forward/future or option transactions hedging risks from the Securityholder's ordinary business, unless the underlying of the hedge is a stock in a corporation. Further special rules apply to credit institutions, financial services institutions and finance companies within the meaning of the German Banking Act or as securities institutions within the meaning of the German Securities Institution Act.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

In the case of physically settled Securities, special limitations may apply to losses from the disposal of an underlying which is a share in a corporation or a unit of an equity investment fund.

### **German Investment Taxation**

If a Security (in particular a Security which is physically settled by delivery of fund shares, fund units or similar instruments or a Security which replicates the performance of an investment fund) was considered to qualify as an investment fund unit within the meaning of the German Investment Tax Act (*Investmentsteuergesetz*), tax consequences different from those discussed above would apply. A Securityholder subject to German taxation may then be required to include into his or her taxable income unrealized gains from the appreciation in value of the Security which may be deemed to be a portion of the fair market value of the Security at the relevant time. In general, the taxed unrealized gains will be deductible in computing the capital gain derived from the disposal, redemption or termination of the Security.

### **Non-German Tax Residents**

Interest and capital gains are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Securityholder or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii), a tax regime similar to that explained above in the subsection "*German Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and capital gains. However, where the income is subject to German taxation as set forth in the preceding paragraph and the Securities are kept or administered in a custodial account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Securities are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Security or an interest coupon are paid by a Disbursing Agent to a non-resident upon delivery of the Securities or interest coupons, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

### **Solidarity surcharge**

The solidarity surcharge has been partially abolished as of the assessment period 2021 for certain individuals. The solidarity surcharge shall, however, continue to apply for investment income and, thus, on withholding taxes levied. In case the individual income tax burden for a non-business Securityholder tax resident in Germany is lower than 25 per cent. such Securityholder can apply for his/her investment income being assessed at his/her individual tariff-based income tax rate in which case solidarity surcharge would be refunded (see above).

### **Inheritance and Gift Tax**

No inheritance or gift taxes with respect to any Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Security is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

### **Other Taxes**

No stamp, issue or registration taxes or similar duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

### **Taxation in the Netherlands**

#### **Introduction**

The following summary outlines certain principal Dutch tax consequences of the acquisition, holding, redemption and disposal of the Securities, but does not purport to be a comprehensive description of all Dutch tax considerations that may be relevant. For purposes of Dutch tax law, a holder of Securities may include an individual or entity who does not have the legal title of these Securities, but to whom nevertheless the Securities or the income thereof is attributed based on specific statutory provisions or on the basis of such individual or entity having an interest in the Securities or the income thereof. This summary is intended as general information

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

only and each prospective investor should consult a professional tax adviser with respect to the tax consequences of the acquisition, holding, redemption and disposal of the Securities.

This summary is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and it does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Dutch corporate and individual income tax consequences for:

- (a) investment institutions (*fiscale beleggingsinstellingen*);
- (b) pension funds, exempt investment institutions (*vrijgestelde beleggingsinstellingen*) or other entities that are not subject to or exempt from Dutch corporate income tax;
- (c) holders of Securities holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and holders of Securities of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutorily defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit-sharing rights in the Issuer;
- (d) persons to whom the Securities and the income therefrom are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*);
- (e) holders of Securities for whom the benefits from the Securities qualify for the participation exemption within the meaning of article 13 of the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*) or would qualify for the participation exemption had the corporate holders of Securities been resident in the Netherlands;
- (f) entities which are a resident of Aruba, Curaçao or Sint Maarten and that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba and the Securities are attributable to such permanent establishment or permanent representative; and
- (g) individuals to whom the Securities or the income there from are attributable to employment activities which are taxed as employment income in the Netherlands.

For the purpose of the Dutch tax consequences described herein, it is assumed that the Issuer is neither a resident of the Netherlands nor deemed to be a resident of the Netherlands for Dutch tax purposes nor has a permanent establishment in the Netherlands to which the Securities are attributed.

Where this summary refers to 'the Netherlands' or 'Dutch', such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

This summary does not describe the consequences of the exchange or the conversion of the Securities.

### **Dutch Withholding Tax**

All payments made by the Issuer under the Securities may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

### **Dutch Corporate and Individual Income Tax**

#### *Residents of the Netherlands*

If a holder of Securities is a resident of the Netherlands or deemed to be a resident of the Netherlands for Dutch corporate income tax purposes and is fully subject to Dutch corporate income tax or is only subject to Dutch corporate income tax in respect of an enterprise to which the Securities are attributable, income derived from the

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Securities and gains realised upon the redemption or disposal of the Securities are generally taxable in the Netherlands (at up to a maximum rate of 25.8 per cent.).

If an individual is a resident of the Netherlands or deemed to be a resident of the Netherlands for Dutch individual income tax purposes, income derived from the Securities and gains realised upon the redemption or disposal of the Securities are taxable at the progressive rates (at up to a maximum rate of 49.5 per cent.) under the Dutch Income Tax Act 2001, if:

- (a) the individual is an entrepreneur (*ondernemer*) and has an enterprise to which the Securities are attributable or the individual has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Securities are attributable; or
- (b) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which includes activities with respect to the Securities that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (a) nor condition (b) above applies to the holder of the Securities, taxable income with regard to the Securities must in principle be determined on the basis of a deemed return on savings and investments (*sparen en beleggen*). This deemed return on savings and investments is determined based on the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year (1 January), insofar as the individual's yield basis exceeds a statutory threshold (*heffingsvrij vermogen*) (EUR 59,357 in 2026). The individual's yield basis is determined as the fair market value of certain qualifying assets held by the individual less the fair market value of certain qualifying liabilities on 1 January. The individual's deemed return is calculated by multiplying the individual's yield basis with a 'deemed return percentage' (*effectief rendementspercentage*), which percentage depends on the actual composition of the yield basis, with separate deemed return percentages for savings (*banktegoeden*), other investments (*overige bezittingen*) and debts (*schulden*). As of 1 January 2026, the percentage for other investments, which include the Securities, is set at 6.00 per cent..

However, on 19 July 2025, the Dutch Counterevidence Act (*Wet tegenbewijsregeling* box 3) entered into force with retroactive effect. The Dutch Counterevidence Act codifies case law of the Dutch Supreme Court (*Hoge Raad*), in which the Dutch Supreme Court ruled that the system of taxation based on a 'deemed return' with respect to an individual's savings and investments contravenes Section 1 of the First Protocol to the European Convention on Human Rights, in combination with Section 14 of the European Convention on Human Rights, if the deemed return applicable to the savings and investments exceeds the actual return in the relevant calendar year. The Dutch Counterevidence Act provides that, if an individual demonstrates that the actual return is lower than the deemed return, only the actual return should be taxed under the regime for savings and investments. The Dutch Counterevidence Act also prescribes the method by which the actual return should be determined. The deemed or actual return on savings and investments is taxed at a rate of 36 per cent..

### *Non-residents of the Netherlands*

If a person is neither a resident of the Netherlands nor is deemed to be a resident of the Netherlands for Dutch corporate or individual income tax purposes, such person is not liable to Dutch income tax in respect of income derived from the Securities and gains realised upon the redemption or disposal of the Securities, unless:

- (a) the person is not an individual and such person (1) has an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands to which permanent establishment or a permanent representative the Securities are attributable, or (2) is, other than by way of securities, entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in the Netherlands and to which enterprise the Securities are attributable.

This income is subject to Dutch corporate income tax at up to a maximum rate of 25.8 per cent..

- (b) the person is an individual and such individual (1) has an enterprise or an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands to which permanent establishment or permanent representative the Securities are attributable, or (2) realises income or gains with respect to the Securities that qualify as income from miscellaneous activities in the Netherlands which include activities with respect to the Securities that exceed regular, active portfolio management (*normal, actief vermogensbeheer*), or (3) is, other than by way of securities, entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands and to which enterprise the Securities are attributable.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

Income derived from the Securities as specified under (1) and (2) by an individual is subject to individual income tax at progressive rates up to a maximum rate of 49.5 per cent.. Income derived from a share in the profits of an enterprise as specified under (3) that is not already included under (1) or (2) will be taxed on the basis of a deemed or actual return on savings and investments (as described above under "*Residents of the Netherlands*").

### **Dutch Gift and Inheritance tax**

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of the Securities by way of gift by, or on the death of, a holder of Securities, unless:

- (a) the holder of the Securities is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (b) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

### **Dutch Value Added Tax**

In general, no value added tax will arise in respect of payments in consideration for the issue of the Securities or in respect of a cash payment made under the Securities, or in respect of a transfer of the Securities.

### **Other Dutch Taxes and Duties**

No Dutch registration tax, customs duty, transfer tax, stamp duty, capital tax or any other similar documentary tax or duty will be payable by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Securities.

### **Taxation in Peru**

The discussion in this Base Prospectus regarding Peruvian tax considerations is not intended or written to be used and cannot be used or relied upon by any person, for the purpose of avoiding Peruvian taxation, and was written to support the promotion or marketing of this offering. Prospective investors should consult an independent tax advisor with respect to the Peruvian tax consequences of acquiring, owning or disposing of the Securities.

The following is a general summary of certain material Peruvian tax consequences that may be relevant with respect to the purchase, ownership or disposition of the Securities by non-Peruvian and Peruvian holders. This summary is not intended to be a comprehensive description of all Peruvian tax considerations that may be relevant to a decision by non-Peruvian holders to make an investment in the Securities.

For purposes of this section, "non-Peruvian holder" means (i) any individual who is not domiciled in Peru; and, (ii) any legal entity incorporated outside of Peru, *provided* that it does not conduct any trade or business through a permanent establishment in Peru or hold the Securities through a Peruvian branch. A non-Peruvian individual will be deemed domiciled in Peru for tax purposes if such individual has resided or has remained in Peru for more than 183 calendar days during any 12-month period. The change on the condition of residence will be effective as of January 1 of the following calendar year.

For purposes of this section, the term "Peruvian holder" means a beneficial owner of a Security who, for Peruvian income tax purposes, is treated as a resident of Peru. A legal entity is treated as a Peruvian tax resident whether it has been incorporated in Peru, or it is deemed to be a permanent establishment in Peru of a foreign entity. An individual is deemed to be a Peruvian tax resident if such individual (i) is a Peruvian citizen and has a regular residence in Peru, or (ii) is not a Peruvian citizen but has resided in Peru for a period of at least 183 calendar days during any 12-month period.

The following considerations are general, and consequences may vary if a tax treaty signed by Peru is applicable. The tax treaties currently in force are those signed with Chile, Canada, Brazil, Portugal, Mexico, Korea, Switzerland, Japan and the Decision No. 578 applicable to countries that are members of the Andean Community (Colombia, Ecuador, Bolivia and Peru). The tax treaty signed with the United Kingdom is currently in force, however, it will be in effect for Income tax purposes as from January 1<sup>st</sup> 2027. If a non-Peruvian holder of the Securities is a resident of any of those countries, we recommend consulting an independent tax advisor.

### ***Income tax***

#### **(a) *Payment of interest***

As: (i) the Issuer of the Securities is a company that does not qualify as an entity domiciled in Peru for purposes of the Peruvian Income Tax Law (*Ley del Impuesto a la Renta*), whose Unified Text has been approved by Supreme Decree N° 179-2004-EF, as amended, and its regulations, approved by Supreme Decree N° 122-94-EF, as amended; and, (ii) the net proceeds from the offering of the Securities will not be directly placed or economically used in Peru; interest paid on the Securities to non-Peruvian holders will not be subject to Peruvian income tax.

On the other hand, interest paid on the Securities to Peruvian holders (companies incorporated and domiciled in Peru and individuals domiciled in Peru) will be taxable income of foreign source under Peruvian Income Tax Law and its regulations. Accordingly, Peruvian holders should include such interest within their foreign source taxable income, considering that the positive balance after off-setting such taxable income against their foreign source losses (except for losses generated in a "non-cooperative", "low tax", "zero tax" or "preferential tax regime" countries or territories, as defined under Peruvian Income Tax Law and its regulations) should be incorporated within their net taxable income for purposes of their annual income tax return.

### ***Value added tax***

Interests paid on the Securities are not subject to Peruvian Value added tax (*Impuesto General a las Ventas*, or "VAT").

The sale, exchange or disposition of the Securities is not subject to VAT.

### ***Financial transaction tax***

In Peru, there is a financial transactions tax or "FTT", which taxes at a rate of 0.005 per cent. any debit or credit made in an account opened with a Peruvian bank or any other financial institution, within the Peruvian Financial System or "PFS", either in Peruvian or foreign currency. Therefore, the issue price paid for the Securities deposited in a PFS bank account will be subject to FTT, as will the subsequent withdrawal of that amount. Likewise, interest

and principal paid from or deposited in a PFS bank account will also be subject to the FTT. The taxpayer of the FTT is the holder of the PFS bank account.

- (v) specific general partnerships with their registered office or management in the territory of the Republic of Poland and its partner; or
- (vi) a taxable person and their foreign establishment, and in the case of a tax capital group – a company being its part and its foreign establishment.

(each of being a manifestation of an existence an **"Affiliation"**)

**"Exercising a Significant Influence"** shall mean:

- (i) holding directly or indirectly at least 25 per cent. of:
  - (A) shares in the capital, or
  - (B) voting rights in the supervisory, decision-making or managing bodies, or
  - (C) shares in or rights to participate in the profits, losses or the property or their expectative, including participation units and investment securities, or
- (ii) the actual ability of a natural person to influence key economic decisions taken by a legal person or an organisational unit without legal personality, or
- (iii) being the spouse or a relative by consanguinity or by affinity up to the second degree.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Taxation of a Polish tax resident individual*

Under Art. 3.1 of the Personal Income Tax Act dated 26 July (the "**PIT Act**"), natural persons, if residing in the Republic of Poland, are liable for tax on their total income (revenue) irrespective of the location of the sources of revenue (unlimited obligation to pay tax).

Under Art. 3.1a of the PIT Act, a Polish tax resident individual is a natural person who (i) has their centre of personal or business interests located in Poland or (ii) stays in Poland for longer than 183 days in a year, unless any relevant tax treaty dictates otherwise.

According to Art. 17 of the PIT Act, income from the Securities should be treated as money capital (*kapitały pieniężne*) source of income, which includes (i) interest (discount) from securities (Art. 17.1.3 of the PIT Act), (ii) redemption of Securities generating periodical proceeds by the issuer (*wykup przez emitenta obligacji, od których są należne świadczenia okresowe*, the "**Redemption**") (Art. 17.1.3a of the PIT Act) and (iii) disposal of securities for remuneration (Art. 17.1.6.a of the PIT Act).

#### (a) Interest income and income from the Redemption

Under Art. 30a.1.2 and Art. 30a.1.2a of the PIT Act interest income and income from Redemption is subject to a 19 per cent. flat rate tax.

According to Art. 30a.7 of the PIT Act, interest income, including discount from Securities and income from the Redemption derived by a Polish tax resident individual does not cumulate with general income subject to the progressive tax rate but under Art.30a.1 of the PIT Act (with respect to interest and discount) and Art. 30a.1.2a (with respect to income from Redemption) it is subject to tax at a flat rate of 19 per cent.

Under Art. 24.24 of the PIT Act, the income from Redemption is calculated as a difference between the amount obtained from the redemption of Securities together with proceeds for the last period before the repurchase of the securities and the expenditures incurred for acquisition of the Securities on the primary or secondary market by the taxpayer or its testator. Amounts of interest paid by the taxpayer or the testator upon acquisition of the Securities in the part in which such interest is free of tax do not constitute expenses for acquisition of the Securities for the purposes of calculation of income from Redemption.

Under Art. 30a.9 of the PIT Act, withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability. Particular double tax treaties can provide other methods of withholding tax settlements.

Under Art. 41.4 of the PIT Act, the payer of interest or proceeds from Redemption, other than an individual not acting within the scope of their business activity, is obliged to collect flat-rate income tax on any payment of interest or Redemption proceeds.

Under Art. 41.4d of the PIT Act, the entities operating securities accounts for the individuals, acting as tax remitters, should withhold this interest (discount) or Redemption income if such interest income (revenue) has been earned in the territory of Poland and is connected with securities registered in the said accounts, and the interest payment to the individual (the taxpayer) is made through said entities. These rules should also apply to the entities indicated in Art. 3.2 of the CIT Act (non-residents), to the extent they conduct their business activity through a foreign establishment located within the territory of Poland, if the account on which given securities are recorded is connected with the activity of that establishment. Consequently, foreign entities that do not operate through a Polish permanent establishment, e.g. foreign investment firms, not acting through Polish permanent establishments, should not be obliged to withhold the tax.

There are no regulations defining in which cases income earned (revenue) by a Polish tax resident should be considered income (revenue) earned in Poland. However, it cannot be excluded that in practice the tax authorities will apply the regulations concerning non-residents. Pursuant to Art. 3.2b of the PIT Act, income (revenues) earned in the Republic of Poland by non-residents shall include in particular income (revenues) from:

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

1. work performed in the Republic of Poland based on a service relationship, employment relationship, outwork system and co-operative employment relationship irrespective of the place where remuneration is paid;
2. activity performed in person in the Republic of Poland irrespective of the place where remuneration is paid;
3. economic activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland;
4. immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from disposal of any rights to such property;
5. securities and derivatives other than securities, admitted to public trading in the Republic of Poland as part of the regulated stock exchange market, including those obtained from the disposal of these securities or derivatives, or the exercise of rights resulting from them;
6. redemption, repurchase, buy-out and otherwise annihilation of participation titles in capital funds established on the basis of the provisions in force in the Republic of Poland and sale of these participation titles for a fee;
7. the transfer of ownership of shares in a company, of all rights and obligations in a partnership without legal personality, or participation in an investment fund, a collective investment undertaking or other legal entity and rights of similar character or from receivables being a consequence of holding those shares, rights and obligations, participation or rights – if at least 50 per cent. of the value of assets of this company, partnership, investment fund, collective investment undertaking or legal entity is constituted, directly or indirectly, by immovable properties located in the Republic of Poland, or rights to such immovable properties;
8. the transfer of ownership of shares, all rights and obligations, participation or similar rights in a real estate company (as defined in the PIT Act);
9. the receivables settled, including receivables put at disposal, paid out or deducted, by natural persons, legal persons, or organisational units without legal personality, having their place of residence, registered office, or management board in the Republic of Poland, irrespective of the place of concluding and performing the agreement; and the income (revenue) referred to in this point is considered to be the revenue listed in Art. 29.1 of the PIT Act, if they do not constitute income (revenue) referred to in points 1 to 7 above. Art. 29.1 of the PIT Act lists, among others, interest income other than those mentioned in Art. 30a.1 of the PIT Act (which, in turn, refers to interest and discount on securities and from Redemption); and
10. unrealised gains as referred to in the exit tax regulations set out by the PIT Act.

The above list is not exhaustive; therefore, the tax authorities may also consider that income (revenues) not listed above is sourced in Poland.

Given the above, each situation should be analysed to determine whether interest earned by a Polish tax resident individual from the Securities is considered to be income sourced in Poland and whether the entity operating the securities account for the individual will withhold the tax. Since the Issuer is not a Polish entity as a rule interest from Securities should not be considered as earned in the territory of Poland, unless specific situation occurs (e.g. the Securities are admitted to public trading in Poland).

It should be expected that the issuer itself or a non-Polish entity operating the securities account for the individual will not withhold the tax.

Under Art. 45.3b of the PIT Act, if the tax is not withheld, the individual is obliged to settle the tax themselves in their annual tax return. Under Art. 45.1 of the PIT Act, the annual tax return should be submitted and the tax should be settled by 30 April of the following year.

Separate, specific rules apply to income from interest and from Redemption on securities held on Polish omnibus accounts (within the meaning of the provision of the Act on Trading in Financial Instruments, hereinafter "**Omnibus Accounts**"). Under Article 41.10 of the PIT Act, insofar as securities registered

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

in Omnibus Accounts are concerned, the entities operating Omnibus Accounts through which the amounts due are paid are liable to withhold the flat-rate income tax on interest income. The tax is charged on the day of placing the amounts due at the disposal of the Omnibus Account holder. This rule also applies to remitters who are payers of corporate income tax and are subject to limited tax liability in Poland, to the extent they conduct their business through a foreign establishment and it is to that establishment's operations that the securities account is linked.

Pursuant to Article 30a.2a of the PIT Act, with respect to income (revenue) from interest and Redemption transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. These rules should also apply to the entities indicated in Art. 3.2. of the CIT Act to the extent that they conduct business activity through a foreign establishment located within the territory of Poland, if the account on which given securities are recorded is connected with the activity of that establishment. Consequently, foreign entities that do not operate through a Polish permanent establishment, e.g. foreign investment firms not acting through Polish permanent establishments, should not be obliged to withhold the tax.

Under Art. 45.3c of the PIT Act, taxpayers are obliged to disclose the amount of incomes (revenues) interest (discount) and Redemption on securities (including the Securities referred to herein) in the annual tax return if the Securities were registered in Omnibus Account and the taxpayer's identity was not revealed to the tax remitter.

Under Art. 30a.9 of the PIT Act, withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

### **(b) Income other than interest**

Income other than interest and Redemption derived by a Polish tax resident individual from financial instruments, such as the Securities, held as non-business assets, qualify as capital gains according to Article 17 of the PIT Act. Such income does not cumulate with the general income subject to the progressive tax scale but is subject to a 19 per cent. flat-rate tax. The costs of acquiring the financial instruments are recognised at the time the revenue is achieved. If the price expressed in the contract without a valid reason significantly deviates from the market value, the amount of income is determined by the tax authority or fiscal control authority in the amount of the market value.

In principle, this income should be settled by the taxpayer by 30 April of the year following the year in which the income was earned. No tax or tax advances are withheld by the person making the payments.

In principal, if an individual holds the Securities as a business asset, in principle in accordance with art. 30b.3 of the PIT Act the income should be taxed, in the same way as other business income. This will either be tax, at 19 per cent. rate or the 12 per cent. to 32 per cent. progressive tax rate depending upon the individual's choice and the meeting of certain conditions, should be settled by the individual themselves.

### ***Taxation of a Polish tax resident corporate income taxpayer***

Under Art. 3.1 of the Corporate Income Tax Act dated 15 February 1992 (the "CIT Act") the entire income of taxpayers who have their registered office or management in Poland is subject to tax obligation in Poland, irrespective of where the income is earned.

According to Art. 3.1a of the CIT Act, a taxpayer has a place of management in the territory of the Republic of Poland, inter alia, when the current affairs of this taxpayer are conducted in an organized and continuous manner on the territory of the Republic of Poland, based in particular on:

- (i) an agreement, decision, court ruling or other act regulating the establishment or functioning of the taxpayer; or
- (ii) powers of attorney; or

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### (iii) Affiliations.

The appropriate tax rate is the same as the tax rate applicable to business activity, i.e. 19 per cent. for a regular corporate income taxpayer or 9 per cent. for small and new taxpayers i.e. taxpayers with revenues in the tax year not exceeding EUR 2 million ("**Small Taxpayer**") (with certain exceptions listed in Art. 19.1a-1e of the CIT Act), taking into consideration the appropriate source of income (the lower rate does not apply to incomes classified as capital gains – Art. 7b of the CIT Act).

There are certain groups of taxpayers that will be subject to increased CIT rates from the tax years beginning in 2026 onwards as presented below:

		Tax year beginning in		
		2026	2027	2028 onwards
A.	Banks (domestic and foreign), tax groupings including a domestic bank (only in the part in which the income of this bank remains in the sum of the income of the companies that make up this grouping), credit institutions (as defined in CRR)  - excluding cooperative banks	30%	26%	23%
B.	Cooperative banks, savings and credit unions	27%	23%	21%
C	Entities from groups A. (excluding tax groupings). and B. being Small Taxpayers	17%	13%	11%

Entities from groups A-C should verify the CIT Act to check the applicable rate, as it provides for provisions addressing (i) cases when the tax year does not match the calendar year, (ii) simplified tax advances (iii) taxpayers under special restructuring proceedings (Art. 38aa -Art. 38ad of the CIT Act)

A Polish tax resident corporate income taxpayer is subject to income tax in respect of the securities (including any capital gains and on interest/discount) following the same principles as those which apply to any other income received from business activity within the same source of income, called capital profits (*zyski kapitałowe*). In the case of insurers, banks and some other entities (financial institutions), this revenue is included in revenues other than revenues from capital gains.

As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when it is received and not when it has accrued. In respect of capital gains, the cost of acquiring the Securities will be recognised at the time the revenue is achieved. If the price expressed in the contract, without a valid reason, significantly deviates from the market value, the revenue amount is determined by the tax authority in the amount of the market value. The taxpayer itself (without the involvement of the tax remitter) settles tax on interest (discount) or capital gains on securities, which is aggregated with other income derived from business operations conducted by the taxpayer.

Although Polish corporate income taxpayers should not be subject to Polish withholding tax, such tax may be withheld, under specific rules applying to interest income on securities held in Omnibus Accounts, under Art. 26.2a of the CIT Act, for income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent flat-rate tax is withheld by the tax remitter from

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. If such tax is withheld for a Polish tax resident corporate income taxpayer, to receive a refund of such tax, the entity should contact its tax advisor.

Any withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than the tax calculated in accordance with the applicable domestic tax rate, can be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

### ***Securities held by a non-Polish tax resident (natural person or corporation)***

Under Art. 3.2a of the PIT Act, natural persons, if they do not reside in Poland, are liable to pay tax only on income (revenue) earned in Poland (limited obligation to pay tax).

Under Art. 3.2 of the CIT Act, in the case of taxpayers who do not have their registered office or management in Poland, only the income they earn in Poland is subject to tax obligation in Poland.

Non-Polish tax resident individuals and corporate income taxpayers are subject to Polish income tax only with respect to their income earned in Poland. Under Art. 3.3 of the CIT Act, income (revenues) earned in the Republic of Poland by non-residents shall include in particular income (revenues) from:

1. all types of activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland;
2. immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from the disposal of any rights to such property;
3. securities and derivatives other than securities, admitted to public trading in the Republic of Poland as part of the regulated stock exchange market, including those obtained from the disposal of these securities or derivatives, or the exercise of rights resulting from them;
4. the transfer of ownership of shares in a company, of all rights and obligations in a partnership without legal personality, or participation in an investment fund, a collective investment undertaking or other legal entity and rights of similar character or from receivables being a consequence of holding those shares, rights and obligations, participation or rights - if at least 50 per cent. of the value of assets of this company, partnership, investment fund, collective investment undertaking or legal entity is constituted, directly or indirectly, by immovable properties located in the Republic of Poland, or rights to such immovable properties;
5. the transfer of ownership of shares, all rights and obligations, participation or similar rights in a real estate company (as defined in the CIT Act);
6. the receivables settled, including receivables put at disposal, paid out or deducted, by natural persons, legal persons, or organisational units without legal personality, having their place of residence, registered office, or management board in the Republic of Poland, irrespective of the place of concluding or performing the agreement; and
7. unrealised gains referred to in the exit tax regulations as set out by the CIT Act.

Similar provisions are included in Art. 3.2b of the PIT Act.

It should be noted that the list of incomes (revenues) gained in Poland, as provided in Art. 3.3. of the CIT Act and Art. 3.2b of the PIT Act is not exhaustive, therefore, other income (revenues) may also be considered as earned in Poland.

Given the above, each situation should be analysed to determine whether interest earned by a Polish tax resident from the Securities is considered to be income sourced in Poland. However, since the issuer is not a Polish entity, income from the Securities should not be considered as earned in Poland and no Polish withholding tax should apply, unless specific circumstances occur, e.g. the Securities are admitted to public trading in Poland.

Sale of Securities against consideration

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Income from sale of Securities against consideration by a non-Polish tax resident (individual or a corporate income taxpayer) is (if considered to be earned in Poland) in principal, subject to the same rules of taxation (et al. rules for determining income, tax amount, tax payment deadlines) that apply to entities subject to unlimited tax liability (Polish tax residents) as presented in sections "*Taxation of a Polish tax resident individual – Income other than interest*" and "*Taxation of a Polish tax resident corporate income taxpayer*". However, the majority of double tax treaties concluded by Poland provide for an exemption from income tax on capital gains, including income from the sale of securities obtained in Poland by a tax resident of a given country.

- (a) Exemption for interest obtained by non-Polish tax residents on Securities meeting special conditions

If income from the Securities is considered as sourced in Poland, the following applies:

### *Corporate income tax*

Under Art. 17.1.50c of the CIT Act, tax-free income is income earned by a CIT taxpayer subject to limited tax liability in Poland in respect of interest or a discount on securities:

- (i) having a maturity of at least one year;
- (ii) admitted to trading on a regulated market or introduced into an alternative trading system within the meaning of the Act of 29 July 2005 on Trading in Financial Instruments, in the territory of Poland or in the territory of a state that is a party to a double tax convention concluded with Poland which regulates the taxation of income from dividends, interest and royalties;

unless the taxpayer is an Affiliated Entity of the issuer of such securities, and holds, directly or indirectly, together with other Affiliated Entities, more than 10 per cent. of the nominal value of those securities (the "**Special Exemption**").

Under Art. 26.1aa and 1ae of the CIT Act, remitters are not obliged to withhold tax on interest or discount in respect of the Securities eligible for Special Exemption, provided that the issuer submits to the tax authority a declaration that it has acted with due diligence in informing Affiliated Entities (excluding entities whose Affiliations result solely from connections with the State Treasury (*Skarb Państwa*) or local government units or their associations), about the exemption conditions applying to those Affiliated Entities.

According to Art. 26.1af of the CIT Act, the declaration referred to above is submitted once in relation to a given Securities issue, no later than the date of payment of interest or discount on these securities. At the payer's request, the issuer is obliged to confirm its submission (Art. 26.1ag of the CIT Act).

The declaration is submitted in electronic form corresponding to the logical structure available in the Public Information Bulletin on the website of the office serving the minister responsible for public finances (Art. 26.7j of the CIT Act).

### *Personal income tax*

Under personal income tax, there are analogous provisions on tax exemption regarding interest and discount referred to above (Art. 21.1.130c of the PIT Act) and releasing tax remitters from the obligation to withhold tax on interest or discount (Art. 41.24-27 of the PIT Act), with the exception that the tax remitters being entities operating securities accounts and Omnibus Accounts are obliged withhold tax with respect to income (revenue) obtained by Polish tax resident natural person from securities otherwise eligible for the relief (Art. 41.24 *in fine* of the PIT Act) ("**PIT Special Exemption**"). These remitters include entities being Polish tax residents as well as non-Polish tax residents conducting business activities through a foreign establishment located in the territory of the Republic of Poland, if the account on which the securities are recorded is related to the activities of this establishment (Art. 41.4d and 41.10 of the PIT Act).

It must be noted that under Art. 30a.2a of the PIT Act, with respect to income (revenue) from interest or Redemption transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Therefore, if the entities operating Omnibus Accounts acting as tax remitters are not able to identify the natural person *i.e.*, whether it is or not tax resident in Poland, they may withhold tax at full rate on income from securities that would otherwise be eligible for the Special Exemption.

(b) Failure to meet the conditions for the Special Exemption or PIT Special Exemption

In the absence of the Special Exemption or PIT Special Exemption referred to above, the following rules apply.

In the case of taxpayers subject to limited tax liability in Poland, the interest (discount) on the Securities earned in the Polish territory is taxed as a general rule at a flat rate of 20 per cent. in the case of corporate income taxpayers under Art. 21.1.1 of the CIT Act. The applicable tax rate for the income from interest (discount) on securities and on the Redemption is 19 per cent. in the case of natural persons (Art. 30a.1 of the PIT Act). Under Art. 26.1 of the CIT Act, interest payers, other than individuals not acting within the scope of their business activity, should withhold this tax. When verifying the conditions for the application of a withholding tax rate, exemption or the conditions for the non-collection of tax resulting from special provisions or double tax treaties, the remitter must exercise due diligence. When assessing the exercise of due diligence, the nature and scale of activity conducted by the remitter as well as its Affiliation with the taxpayer must be taken into account. Similar provisions are provided in Art. 41.4-4aa of the PIT Act.

Under Art. 26.2c.1 and Art. 26.2a of the CIT Act, the entities operating securities accounts and Omnibus Accounts for taxpayers, acting as tax remitters, should withhold this interest income if such interest income (revenue) was earned in Poland and is connected with securities registered in said accounts, and the interest payment to the taxpayer is made through said entities. Although it is considered that foreign entities do not act as Polish tax remitters, according to the discussed provision, this obligation applies to non-residents to the extent they operate a permanent establishment in Poland and the account, on which securities are registered, is linked to the activity of this permanent establishment. Similar provisions concerning interest payments to individuals are provided in Art. 41.4d and 41.10 of the PIT Act.

The described rules of taxation may be modified by the relevant provisions of double tax treaties concluded by Poland, based on which a reduced tax rate or income tax exemption may apply to income (revenue) obtained from interest/discount or from Redemption (natural persons only) (Art. 21.2 of the CIT Act, Art. 30a.2 of the PIT Act). To benefit from the tax rate or income tax exemption under the tax treaty, the taxpayer should present a valid certificate of its tax residence. As a rule, the tax residence certificate is considered valid for twelve consecutive months from its date of issue (unless a specific date of its validity is included in its wording). Tax remitters may require additional documentation in order to be able to apply double tax treaty benefits described above, such as the confirmation of the recipient's beneficial owner status towards the payment.

Moreover, regardless of whether the particular tax treaty requires the recipient of the payment to be its beneficial owner, further to the approach presented by the tax authorities and confirmed by administrative courts verdicts, many tax treaties provide protection only for beneficial owners. Pursuant to Art. 4a.29 of the CIT Act and, respectively, Art. 5a.33d of the PIT Act, beneficial owner means an entity meeting all of the following conditions:

- (i) it receives the amount due for its own benefit, which includes deciding independently about its purpose, and bears the economic risk associated with the loss of that receivable or part of it;
- (ii) it is not an intermediary, representative, trustee, or another entity obliged to transfer the receivable in whole or in part to another entity; and
- (iii) it conducts actual business activity in the country of its registration (country of domiciliation in case of the PIT Act), if the receivables are obtained in connection with the conducted business activity, whereas when assessing whether the entity conducts actual business activity, the nature and scale of such activity in the scope of received receivables are taken into account.

The definition of the beneficial owner does no longer refer to and Art. 24a.18 of the CIT Act and Art. 30f. 20 of the PIT Act. However, those provisions include the following relevant factors that are likely to be considered by the tax authorities when determining if the given entity performs actual business activity:

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (i) the business activity carried out by the taxpayer is performed through an existing enterprise that actually performs activities constituting an economic activity; in particular, it possesses premises, qualified personnel and equipment used for performing business activity;
- (ii) the taxpayer does not create artificial arrangement without a connection with any business activity;
- (iii) the taxpayer's actual premises, its personnel or equipment correspond to the scope of its actual business activity;
- (iv) the agreements concluded by the taxpayer are realistic in economic terms, they have economic justification and they are not noticeably contrary to the general business interest of the taxpayer; and
- (v) the taxpayer carries out its business functions independently, using its own resources, including managers who are present in the country of taxpayer's tax residency.

The majority of double tax treaties concluded by Poland provide for an exemption from income tax on capital gains, including income from the sale of securities obtained in Poland by a tax resident of a given country. The interest treatment differs under particular double tax treaties, some of them providing for general exemption, limiting the exemption to certain categories of recipients or providing for a reduced rate of tax (which may also vary depending on the recipient).

Separate, specific rules apply to interest income and amounts received from Redemption on securities held in Omnibus Accounts. In cases where Polish withholding tax should not apply on payments to non-Polish tax residents (natural persons or corporate income taxpayers), under specific rules applicable to interest income on securities held in Omnibus Accounts there is a risk that such tax would be withheld.

Under Art. 26.2a of the CIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder.

Under Art. 30a.2a of the PIT Act, with respect to income (revenue) from interest or from Redemption transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. If such tax is withheld for non-Polish tax resident taxpayers, to receive a refund of such tax, the entity should contact its tax advisor regarding a refund of such tax.

If a foreign tax resident corporate income taxpayer acts through a permanent establishment in Poland, tax remitters should not withhold the income tax on payments to such recipient, provided that such taxpayer delivers the tax remitter its certificate of tax residency along with a statement that the payments it receives are associated with the activity of its Polish permanent establishment (Art. 26.1d of the CIT Act). However, if it holds the Securities on an Omnibus Account, please see the comments on Omnibus Accounts presented above, in the section on taxation of a Polish tax resident corporate income taxpayer.

### (c) Pay & Refund regime

In addition to the rules set out above, in the event of failure to meet the conditions for a Special Exemption, the following regime applies.

#### *Corporate income tax*

Under Art. 26.2e of the CIT Act, if the total amount paid out between Affiliated Entities on account of the items listed in Art. 21.1.1 of the CIT Act (including interest on securities) and Art. 22.1 of the CIT Act to the same taxpayer exceeds PLN 2,000,000 in the tax year of the payer, payers are, as a general rule, required to withhold, on the day of payment, a flat-rate income tax at the basic rate (20 per cent. in the case of interest/discount on securities) from the excess over that amount, without being able not to withhold that tax on the basis of an appropriate double tax treaty, and also without taking into account

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

exemptions or rates resulting from special regulations or double tax treaties (hereinafter the Pay & Refund).

Under Art. 26.2i and 26.2j of the CIT Act, if the payer's tax year is longer or shorter than 12 months, the amount to which the Pay & Refund applies is calculated by multiplying 1/12 of PLN 2,000,000 and the number of months that have begun in the tax year in which the payment was made; if the calculation of that amount is not possible by reference to the payer's tax year, the Pay & Refund shall apply accordingly to the payer's current financial year and, in its absence, with respect to the payer's other period with features specific to the financial year, not longer however than 23 consecutive months.

Based on Art. 26.2ca of the CIT Act, the entities making payments through securities accounts or Omnibus Accounts are obliged to provide the entities maintaining these accounts, at least 7 days before the payment is made, with information about the existence of Affiliations between them and the taxpayer and about exceeding the amount of PLN 2,000,000. Entities providing this information are required to update it before making the payment in the event of a change in the circumstances covered by the information. In addition, in accordance with Art. 26.2ed of the CIT Act, in the circumstances referred to in section 2c, the excess amount and the existence of Affiliations will be determined by the entity keeping securities accounts or Omnibus Account. The entity keeping securities accounts or Omnibus Accounts does not take into consideration the amounts of payments on which tax was collected in accordance with Art. 26.2a of the CIT Act.

Under Art. 26.2k of the CIT Act, if the payment was made in a foreign currency, to determine whether the amount to which the Pay & Refund applies was exceeded, the amounts paid are converted into PLN at the average exchange rate published by the National Bank of Poland on the last business day preceding the payment day.

Under Art. 26.2l of the CIT Act, if it is not possible to determine the amount paid to the same taxpayer, it is presumed that it exceeded the amount from which the Pay & Refund applies.

Under Art. 26.7a of the CIT Act, the Pay & Refund does not apply if the payer has declared that:

- (i) it holds the documents required by the tax law for the application of the tax rate or tax exemption or non-taxation under special regulations or double tax treaties;
- (ii) after the verification of the conditions to apply an exemption or reduced withholding tax rate resulting from special regulations or double tax treaties, it is not aware of any grounds for the assumption that there are circumstances that exclude the possibility of applying the tax rate or tax exemption or non-taxation under special regulations or double tax treaties, in particular it is not aware of the existence of circumstances preventing the fulfilment of certain conditions referred to in other regulations, including the fact that the interest recipient is their beneficial owner and, if the interest is obtained in connection with the business activity conducted by the taxpayer, that in the country of tax residence the taxpayer carries on the actual business activity.

The above is to be declared by the head of the unit within the meaning of the Accounting Act or a designated member of such head being a collegiate body (e.g. the Issuer's management board). The declaration cannot be made by proxy. The declaration is to be made by in electronic form not later than on the last day of the second month following the month in which the threshold specified above was exceeded, however, the performance of this obligation after the payment is made does not release the payer from the obligation to exercise due diligence before the payment is made (Art. 26.7b and 26.7c of the CIT Act).

In the case of withholding tax imposed as a result of the Pay & Refund, if double tax treaties or special regulations provide for a tax exemption or reduced tax rate, the taxpayer or tax remitter (if the taxpayer has paid tax with its own funds and has borne the economic burden of such tax, e.g. as a result of a gross-up clause) may apply for a refund of that tax by submitting the relevant documents and declarations. When recognizing that the refund is justified, the tax authorities shall carry it out within six months.

Pursuant to the Regulation of the Minister of Finance dated 28 December 2022 regarding the exclusion of the obligation to collect flat-rate corporate income tax (the "**Regulation**"), in respect of securities held on securities accounts or Omnibus Accounts, until 31 December 2026 the application of the Pay & Refund regime is excluded to interest payable to taxpayers having their registered office or management outside the territory of the Republic of Poland.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Personal Income Tax*

Analogous provisions apply to personal income tax (applying to interest and amounts earned from Redemption), including Art. 41.12 of the PIT Act which provides for an analogous Pay & Refund regime, while the Regulation of the Minister of Finance of 28 December 2022 regarding the exclusion of the obligation to collect flat-rate personal income tax is the equivalent of the Regulation.

### **Solidarity levy on income from disposal of Securities for consideration generated by natural persons subject to either unlimited or limited tax liability in Poland (i.e. notwithstanding their tax residence)**

According to Art. 30h of the PIT Act, natural persons are required to pay a solidarity levy at the rate of 4 per cent. of the base amount for its calculation. The base amount for calculation of the solidarity levy is the amount in excess of PLN 1,000,000 of the sum of incomes subject to taxation pursuant to Art. 27.1, 27.9, 27.9a Art. 30b (i.e. in particular the income from a disposal of notes for consideration), Art. 30c (flat-rate taxed business income) and Art. 30f (incomes of the foreign controlled company earned by a natural person) of the PIT Act, decreased by the premiums referred to in Art. 26.1.2 and 26.1.2a of the PIT Act and the amounts referred to in Art. 30f.5 the PIT Act, deducted from such incomes.

In calculating the base amount of the solidarity levy for a given calendar year, one should include the incomes and the incomes deductions as described above, as reported in:

- the annual tax calculation referred to in Art. 34.7 of the PIT Act (the annual tax calculation prepared and sent by social allowance authorities to the taxpayers receiving income, in particular, from age and disability allowance) if such a reconciliation shows a payable tax; and
- the tax returns referred to in Art. 45.1, 45.1a.1, 45.1a.2 and Art. 45.1aa of the PIT Act for which the filing deadline falls within the period starting on the day following the lapse of the time period for filing of the solidarity levy amount statement in the year preceding that calendar year, to the last day for submission of the solidarity levy amount statement.

Natural persons are required to file the solidarity levy amount statements on the official forms provided by 30 April of the calendar year and pay the levy by the same day.

In principle, if individuals hold Securities as a business asset, income from disposing Notes for remuneration should be taxed in the same way as other business incomes which are also subject to a 4 per cent. solidarity levy

#### *General*

The following is a general summary of the Issuers' understanding of current law and practice in Portugal as in effect as at the date of this Base Prospectus in relation to certain current relevant aspects of the Securities to Portuguese taxation and is subject to changes in such laws, including changes that could have a retroactive effect. The following summary is intended as a general guide only and is not exhaustive. It is not intended to be, nor should it be considered to be, legal or tax advice to any beneficial owner of the Securities. It does not take into account or discuss the tax laws of any country other than Portugal and relates only to the position of persons who are the absolute beneficial owners of the Securities. Prospective investors are advised to consult their own tax advisers as to the Portuguese or other tax consequences resulting from the purchase, ownership and disposition of the Securities, including the effect of any state or local taxes, under the tax laws of Portugal and each country where they are resident, or are deemed to be resident.

The reference to "interest", "other investment income" and "capital gains" in the paragraphs below means "interest", "other investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take into account any different definitions of "interest", "other investment income" or "capital gains" which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation.

There is neither wealth nor estate tax in Portugal.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Payments made by the Issuer of interest, other investment income or principal on Securities issued by it to an individual or legal person non-resident in Portugal for tax purposes without a permanent establishment to which such income may be attributable are not subject to Portuguese income tax.

Capital gains obtained on the transfer of Securities by an individual or a legal person who is neither resident nor engaged in business through a permanent establishment in Portugal to which that gain is attributable are not subject to Portuguese income tax.

### *Portuguese resident individuals*

Interest and other investment income obtained by Portuguese resident individuals on the Securities are subject to individual income tax. If the payment of interest or other types of investment income is made available to Portuguese resident individuals through a Portuguese resident entity or a Portuguese branch of a non-resident entity, withholding tax applies at a rate of 28 per cent., which is the final tax on that income unless the individual elects to aggregate it to his taxable income, subject it to tax at progressive rates varying from 12.5 per cent. up to 48 per cent. In the latter circumstance, a solidarity surcharge is due on the part of the taxable income exceeding €80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5 per cent. on the taxable income exceeding €250,000 (if any). Also, in case the individual elected to aggregate the interest and other investment income, the tax withheld is deemed a payment on account of the final tax due. Interest and other investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more accountholders acting on behalf of undisclosed entities is subject to a final withholding tax at a rate of 35 per cent., unless the beneficial owner of the income is disclosed, in which case the general rules will apply. If the interest and other investment income on the Securities is not received through an entity located in Portugal, it is not subject to Portuguese withholding tax, but an autonomous taxation rate of 28 per cent. will apply unless an option for aggregation is made, subject to the aforementioned progressive tax rates and a solidarity surcharge.

Gains obtained with the repayment or transfer of the Securities are classified as capital gains for Portuguese tax purposes.

Capital gains obtained by Portuguese resident individuals on the repayment or transfer of the Securities are taxed at a rate of 28 per cent. levied on the positive difference between the capital gains and capital losses realised on the transfer of securities and derivatives of each year, which is the final tax on that income, unless the individual elects to aggregate it to his taxable income, subjecting it to tax at progressive rates of up to 48 per cent. In the latter circumstance, a solidarity surcharge is due on the part of the taxable income exceeding €80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding €80,000 and up to €250,000 and (ii) 5 per cent. on the taxable income exceeding €250,000 (if any). Accrued interest qualifies as interest for tax purposes.

The annual balance between capital gains and capital losses arising from the transfer of the Securities, whether positive or negative, may be excluded from individual income tax, as follows:

- (i) 10 per cent. of the income is excluded from taxation if the Securities are held for a period exceeding 2 years and up to 5 years;
- (ii) 20 per cent. of the income is excluded from taxation if the Securities are held for a period of 5 years up to 8 years;
- (iii) 30 per cent. of the income is excluded from taxation if the Securities are held for a period of 8 years or more.

The positive balance between capital gains and capital losses arising from the transfer for consideration of shares and other securities is mandatorily accumulated and taxed at progressive rates if the assets have been held for less than 365 days and the taxable income of the taxpayer, including the balance of the capital gains and capital losses, amounts to or exceeds EUR 86,634.

### *Portuguese resident legal entities or legal entities not resident in Portugal but with a permanent establishment herein*

Interest and other investment income derived from the Securities and capital gains obtained with the transfer of the Securities by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income or gains are attributable are included in their taxable profits and are subject to Corporate Income Tax at (i) a 19 per cent. rate (18 per cent. in 2027 and 17 per cent. from 2028 onwards), or (ii) a 15 per cent. rate is applicable to the first €50,000 of taxable income obtained by

Interest and other investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more account holders acting on behalf of undisclosed entities is subject to a final withholding tax at 35 per cent. unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

These laws, guidelines and circulars are also subject to various interpretations and no assurance can be given that the relevant tax authorities or the courts will agree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Prospectus are intended or are to be regarded as advice on the tax position of any Securityholder or of any person acquiring, selling or otherwise dealing with the Securities or on any tax implications arising from the acquisition, sale or other dealings in respect of the Securities. ### *General*

A company is tax resident in Singapore if the control and management of its business is exercised in Singapore. An individual is tax resident in Singapore in a Year of Assessment if, in the preceding year, he was physically present in Singapore or exercised an employment in Singapore (other than as a director of a company) for 183 days or more, or if he resides in Singapore except for such temporary absences therefrom as may be reasonable and not inconsistent with a claim by such person to be tax resident in Singapore.

Corporate taxpayers who are Singapore tax residents are subject to Singapore income tax on income accrued in or derived from Singapore and, subject to certain exceptions, on foreign-sourced income received or deemed to be received in Singapore from outside Singapore.

However, foreign-sourced income in the form of, amongst certain other things, dividends received or deemed to be received in Singapore by Singapore tax residents will be exempt from income tax if certain prescribed conditions are met. The conditions for the exemption of foreign-sourced dividends include that the recipient must receive such income directly from a jurisdiction with a headline (or highest published) corporate rate of income tax on gains or profits from a trade or business of at least 15 per cent. and the foreign-sourced dividends (or the underlying income out of which the dividends were paid) must have been subject to tax in the foreign jurisdiction.

Certain concessions and clarifications have also been announced by the IRAS with respect to the above conditions.

Non-resident corporate taxpayers are subject to income tax on income accrued in or derived from Singapore, and on foreign-sourced income received in Singapore, subject to certain exceptions.

The corporate tax rate in Singapore is currently 17 per cent.. Certain exemptions or reductions in tax rate apply to the first S\$200,000 in chargeable income, with effect from the Year of Assessment 2020.

Individual taxpayers who are Singapore tax residents are subject to Singapore income tax on income accrued in or derived from Singapore except for certain specified investment income.

All foreign-sourced income received (except for income received through a partnership in Singapore) in Singapore by Singapore tax resident individuals will be exempt from income tax if the Comptroller is satisfied that the tax exemption would be beneficial to the individual.

Non-resident individuals, subject to certain exceptions, are subject to income tax on income accrued in or derived from Singapore.

The rate of tax for Singapore resident individuals is tiered, subject to a maximum rate of 24 per cent.. Non-Singapore resident individuals are generally subject to tax at a rate equivalent to the top individual marginal tax rate of Singapore tax resident individuals, subject to certain exceptions.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Dividends paid by Singapore tax resident companies*

All Singapore-resident companies are under the one-tier corporate tax system. Under this system, the tax on corporate profits is final and dividends paid by a Singapore resident company will be tax exempt in Singapore in the hands of a shareholder, regardless of whether the shareholder is a company or an individual and whether or not the shareholder is a Singapore tax resident.

### *Interest and Other Payments on the Securities*

Subject to the following paragraphs, under Section 12(6) of the Income Tax Act 1047 of Singapore, as amended or modified from time to time (the "ITA"), the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent. final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17 per cent. The applicable rate for non-resident individuals is 24 per cent.. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent. The rate of 15 per cent. may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) early redemption fee or redemption premium from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

### *Exemption from Withholding Tax for payments made by Licensed Banks etc.*

Pursuant to Section 45I of the ITA, payments of income which are deemed under Section 12(6) of the ITA to be derived from Singapore and which are made by a specified entity are exempt from withholding tax if such payments are liable to be made by such specified entity for the purpose of its trade or business under a debt security which is issued during the period from 17 February 2012 to 31 December 2026 (both dates inclusive)<sup>1</sup>, provided further that the payment does not arise from a transaction to which the general-anti-avoidance rule in Section 33 of the ITA applies.

Notwithstanding the above, permanent establishments in Singapore of non-resident persons are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax). A specified entity includes a bank or merchant bank licensed under the Banking Act 1970 of Singapore.

---

<sup>1</sup> Pursuant to Singapore Budget Statement 2026 announced on 12 February 2026, this withholding tax exemption should be extended to cover such payments that are liable to be made by such specified entity under a debt security which is issued during the period from 17 February 2012 to 31 December 2031 (both dates inclusive). MAS will provide more details in due course.

### *Qualifying Debt Securities Scheme*

In addition, if more than half of the principal amount of a tranche of Securities issued as debt securities under the Programme are distributed by a specified licensed entity(ies) for the purposes of the ITA and such tranche of Securities are debt securities issued on or before 31 December 2028, such Relevant Securities (hereinafter called "**Relevant Securities**") would be "qualifying debt securities" for the purposes of the ITA, to which the following treatments shall apply:

- (i) (in a case where payments on the Relevant Securities falls within Section 12(6) of the ITA) subject to certain prescribed conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS for the Relevant Securities within such period as the relevant authorities may specify and such other particulars in connection with the Relevant Securities as the MAS may require, and the inclusion by the Issuer in all offering documents relating to the Relevant Securities of a statement to the effect that where interest, discount income, early redemption fee or redemption premium from the Relevant Securities is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall not apply if the non-resident person acquires the Relevant Securities using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), early redemption fee and redemption premium (collectively, the "**Qualifying Income**") from the Relevant Securities, derived by a Securityholder who is not resident in Singapore and who (A) does not have any permanent establishment in Singapore, or (B) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Securities are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;
- (ii) subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS in respect of the Relevant Securities within such period as the MAS may specify and such other particulars in connection with the Relevant Securities as the MAS may require), Qualifying Income from the Relevant Securities derived by any company or body of persons (as defined in the ITA) in Singapore is subject to income tax at a concessionary rate of 10 per cent. (except for holders of the relevant financial sector incentive(s) who may be taxed at different rates); and
- (iii) (in a case where payments on the Relevant Securities falls within Section 12(6) of the ITA) subject to:
  - (1) the Issuer including in all offering documents relating to the Relevant Securities a statement to the effect that any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Securities is not exempt from tax shall include such income in a return of income made under the ITA; and
  - (2) the furnishing to the MAS of a return on debt securities for the Relevant Securities within such period as the MAS may specify and such other particulars in connection with the Relevant Securities as the MAS may require,

payments of Qualifying Income derived from the Relevant Securities are not subject to withholding of tax by the Issuer.

Where interest, discount income, early redemption fee or redemption premium is derived from any of the Relevant Securities by any person who (i) is not resident in Singapore and (ii) carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for qualifying debt securities (subject to certain conditions) under the ITA shall not apply if such person acquires such Relevant Securities using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Securities is not exempt from tax (including for the reasons described above) shall include such income in a return of income made under the ITA.

However, notwithstanding the foregoing:

- (a) if during the primary launch of any tranche of Relevant Securities, such Relevant Securities are issued to fewer than four persons and 50 per cent. or more of the issue of such Relevant Securities is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Securities would not qualify as "qualifying debt securities"; and

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (b) even though a particular tranche of Relevant Securities may qualify as "qualifying debt securities", if, at any time during the tenure of such tranche of Relevant Securities, 50 per cent. or more of the issue of such Relevant Securities is held beneficially or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Securities held by:

- (1) any related party of the Issuer; or
- (2) any other person where the funds used by such person to acquire such Relevant Securities are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or the concessionary rate of tax described in the immediately preceding paragraphs.

The term "**related party**", in relation to a person, ("**A**"), means any person (a) who directly or indirectly controls A, (b) who is being controlled directly or indirectly by A, or (c) who, together with A, is directly or indirectly under the control of a common person.

For the purposes of the ITA and/or this Singapore tax disclosure:

- (a) "**early redemption fee**" means, in relation to debt securities and qualifying debt securities, any fee payable by the issuer of the securities on the early redemption of the securities;
- (b) "**redemption premium**" means, in relation to debt securities and qualifying debt securities, any premium payable by the issuer of the securities on the redemption of the securities upon their maturity or on the early redemption of the securities; and
- (c) "**specified licensed persons**" means any of the following persons:
  - (i) a bank or merchant bank licensed under the Banking Act 1970 of Singapore;
  - (ii) a finance company licensed under the Finance Companies Act 1967 of Singapore;
  - (iii) a person who holds a capital markets services licence under the Securities and Futures Act 2001 of Singapore to carry on a business in any of the following regulated activities:
    - (A) advising on corporate finance; or
    - (B) dealing in capital markets products.

### *Capital Gains*

Any gains considered to be in the nature of capital made from the sale of the Securities will generally not be taxable in Singapore. However, any gains derived by any person from the sale of the Securities which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature. In addition, any foreign-sourced disposal gains received in Singapore from outside Singapore from the sale of the Securities that occurs on or after 1 January 2024 by an entity of a multinational group that does not have adequate economic substance in Singapore may be taxable as further described in Section 10L of the ITA.

Holders of the Securities who apply or are required to apply Singapore Financial Reporting Standard 39 ("**FRS 39**"), Singapore Financial Reporting Standard 109 - Financial Instruments ("**FRS 109**") or Singapore Financial Reporting Standard (International) 9 (Financial Instruments) ("**SFRS(I) 9**") (as the case may be) may for Singapore income tax purposes be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Securities, irrespective of disposal, in accordance with FRS 39, FRS 109 or SFRS(I) 9 (as the case may be). Please see the section below on "*Adoption of FRS 39, FRS 109 or SFRS(I) 9 treatment for Singapore income tax purposes*".

### *Adoption of FRS 39, FRS 109 or SFRS(I) 9 treatment for Singapore income tax purposes*

Section 34A of the ITA requires taxpayers who adopt or are required to adopt FRS 39 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 39, subject to certain exceptions provided in that section and certain "opt-out" provisions. The IRAS has also issued an e-tax guide entitled "Income Tax Implications Arising from the

Adoption of FRS 39 – Financial Instruments: Recognition and Measurement" to provide guidance on the Singapore income tax treatment of financial instruments.

FRS 109 or SFRS(I) 9 (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January, 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who adopt or who are required to adopt FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions provided in that section. The IRAS has also issued an e-tax guide entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Securities who may be subject to the tax treatment under the FRS 39 tax regime, FRS 109 tax regime or the SFRS(I) 9 tax regime should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Securities.

### *Special tax rules for Securities which constitute negotiable certificates of deposit*

Notwithstanding the paragraphs above, under Section 10(12) of the ITA, where a person derives interest from a negotiable certificate of deposit or derives gains or profits from the sale thereof, the person's income is treated as follows:

- (a) in the case of a financial institution, the interest and the gains or profits are deemed to be income from a trade or business under Section 10(1)(a) of the ITA;
- (b) in any other case, the interest and the gains or profits are deemed to be income from interest under Section 10(1)(d) of the ITA subject to the following provisions:
  - (1) if the interest is received by a subsequent holder of a certificate of deposit the income derived from such interest excludes the amount by which the purchase price exceeds the issued price of the certificate, except where that amount has been excluded in the computation of any previous interest derived by the person in respect of that certificate; and
  - (2) where a subsequent holder sells a certificate after receiving interest therefrom the gains or profits are deemed to be the amount by which the sale price exceeds the issued price or the purchase price, whichever is the lower; and
- (c) for the purposes of paragraph (b) above, where a subsequent holder purchases a certificate at a price which is less than the issued price and holds the certificate until its maturity, the amount by which the issued price exceeds the purchase price is deemed to be interest derived by the person.

Holders should consult their own professional tax advisers regarding the application of Section 10(12) of the ITA to the Singapore income tax consequences of their acquisition, holding or disposal of any negotiable securities of deposit.

### *Goods and Services Tax*

Under the Goods and Services Tax Act 1993 of Singapore (the "GST Act"), the following are examples of exempt supplies not subject to Goods and Services Tax ("GST") under the Fourth Schedule to the GST Act:

- (a) the exchange of currency (whether effected by the exchange of bank notes, currency notes or coin, by crediting or debiting accounts, or otherwise) other than the supply of a note or a coin as a collector's item, investment article or item of numismatic interest;
- (b) the issue, allotment or transfer of ownership of an equity security (i.e. any interest in or right to a share in the capital of a body corporate (other than a limited liability partnership) or any option to acquire any such interest or right but excludes a contract of insurance and an estate or interest in land, other than an estate or interest as mortgagee or chargeholder) or an interest in a partnership (i.e. (i) any right of a partner in a partnership or limited liability partnership to a proportion of the partnership property on the dissolution or winding up of the partnership or limited liability partnership (as the case may be), as specified in the partnership agreement; or (ii) if none is specified, any right of a partner in a partnership or limited liability partnership to a proportion of the profits of the partnership or limited liability partnership, as the case may be);

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (c) the issue, allotment, transfer of ownership, drawing, acceptance or endorsement of a debt security (i.e. any interest in or right to be paid money that is, or is to be, owing by any person or any option to acquire any such interest or right but excludes a contract of insurance and an estate or interest in land, other than an estate or interest as mortgagee or chargeholder);
- (d) the provision or assignment of a derivative (i.e. any financial instrument that derives its value from an underlying financial asset, index or other investment, and includes options, swaps and credit default swaps) that does not lead to any delivery of goods or supply of taxable services; or
- (e) the renewal or variation of an equity security or debt security.

Holders of the Securities should, however, consult their own professional accounting and tax advisers regarding the Singapore GST consequences of their acquisition, holding, conversion or disposal of the Securities.

### *Stamp Duty*

Stamp duty is generally not imposed on the issue or redemption for cash of Securities. Where an instrument of transfer of stocks or shares (including funded debt) is executed in Singapore, or is executed outside Singapore but is brought into Singapore, the instrument would be subject to stamp duty of up to 0.2 per cent. of the amount or value of the consideration, or the value of the stocks or shares sold or transferred, whichever is higher. Transfers of securities on a scripless basis through the Central Depository (Pte) Limited are not subject to stamp duty. Transfers of stocks or shares by way of sale or gift of any stock issued by a company, corporation or body of persons incorporated, formed or established outside Singapore (other than stock registered in register kept in Singapore) are also exempt from stamp duty. Special rules apply to certain contracts or agreements for the sale of, or instruments of transfer of, equity interests in entities whose assets include significant Singapore residential property interests. A detailed description of these rules is beyond the scope of this tax section.

Prospective investors should consult their own professional advisers in respect of the Singapore stamp duty treatment of the issue, transfer or settlement of Securities, particularly where the Securities are capable of settlement by physical delivery. Any stamp duty payable on the issuance of a series of Securities will be specified in the Applicable Transaction Terms.

### *Estate Duty*

Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

## **Taxation in Switzerland**

*The following summary does not purport to be a comprehensive description of all Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities and, in particular, does not consider specific facts or circumstances that may apply to a particular purchaser. It is for general information only and does not discuss all tax consequences of an investment in Securities under the tax laws of Switzerland. This summary is based on the tax laws of Switzerland currently in force and as applied on the date of this Base Prospectus which are subject to changes (or changes in interpretation) which may have retroactive effect. Prospective purchasers are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Securities in the light of their particular circumstances.*

### **Swiss Income Tax**

#### *Swiss Resident Securityholders*

Swiss residents receiving periodic interest payments during the investment or at redemption as one-time-interest generally must include these interest payments in their financial statements and/or in their income tax returns and owe individual income tax or corporate income tax on the relevant amounts.

Securities which are not straight debt instruments but have components of debt instruments and derivatives intertwined generally qualify as combined instruments. The tax treatment of such Securities depends on whether the Securities are considered as transparent or not for Swiss income tax purposes.

If the Security is considered as not transparent for Swiss income tax purposes, any amount received by the Securityholder (upon sale, laps, exercise or redemption) in excess of the amount invested (at issue or upon purchase) is treated as taxable income in the hands of the Securityholder if the Security qualifies as a note with

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

predominant one-time interest payment. If the Security does not qualify as a note with predominant one-time interest payment, the Securityholder is subject to tax on the periodic interest payments and (at redemption) on the difference between initial issuance price and the redemption price. For the purpose of determining whether the Security is a note with predominant one-time interest payment the difference between initial issuance price and the redemption price is treated as one-time interest.

If the Security is considered as transparent for Swiss income tax purposes, it will be split notionally in a debt instrument and a derivative instrument component. Gains or losses on the derivative instrument component are treated as capital gains or losses (see below). Interest payments received during the investment, at laps or exercise or at redemption as one-time interest related to the debt instrument component are treated as taxable income in the hands of the Securityholder. Such a treatment is also applicable for the purpose of determining whether the Security is a security with predominant one-time interest payment.

The Security is generally considered as transparent if the debt and the derivative components are traded separately or if the different elements of the Security (such as the guaranteed redemption amount, the issuance price of the debt component, the interest rates determining the issuance price of the debt component) are separately stated in the sales documentation as well as in the offering prospectus and if each one of such components is separately evaluated. Such evaluation has to be performed through calculations of financial mathematics determining the intrinsic value of the debt instrument and the derivative instrument components contained in the Security. In particular, the calculations have to determine the notional issuance price of the debt instrument, based on the interest rate taken into account by the issuer which has to be at market value. The Swiss Federal Tax Administration has to approve such calculations. Such calculations have to be reviewed on a quarterly basis in order take into account the evolution of the interest rates. If the tax authorities are not provided with sufficient information the Securities can be treated as not transparent. Products with prevalent structures but for which the issuer does not provide the information allowing to distinguish the different elements of a product as described above are made transparent in retrospect by the tax authorities, banks or other channels of distribution if the following requirements are fulfilled: (a) the issuer of the product must have at least a single-A-rating; and (b) the product at hand has to be admitted to official quotation at the commercial exchange market or, at least, a market maker has to insure liquid trading of the product at hand. Liquid trading by a market maker is a condition that the key data of the product can be used as credible basis of calculation.

Securities which are linked to underlying assets, such as bonds, shares, or baskets of such assets may also be treated, under certain circumstances, as direct investments in bonds, shares or in an investment fund. Securities linked to a basket of investment funds may be treated as an investment in an investment fund.

Securities in the form of reverse convertibles linked to shares, precious metals and commodities with no guaranteed payments and a duration of less than or equal to one year may be treated as straight derivatives.

### *Non-Swiss Resident Securityholders*

Under present Swiss tax law, a Securityholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on interest of the Securities.

### **Capital Gains**

#### *Swiss Resident Private Securityholders*

Swiss resident Securityholders who do not qualify as so-called professional securities dealer for income tax purposes ("*gewerbmässiger Wertschriftenhändler*") and who hold the Securities as part of their private (as opposed to business) assets are hereby defined as Swiss Resident Private Securityholders.

Swiss Resident Private Securityholders realise a tax free capital gain upon the disposal of Securities which do not qualify as securities with predominant one-time interest payment and realise taxable income if the Securities qualify as securities with one-time predominant interest payment.

The tax treatment of capital gains on Securities which qualify as combined instruments (see above) depends on whether the Security qualifies as tax transparent or not. Securities which are not transparent for Swiss income tax purposes (see above) generally qualify as securities with predominant one-time interest payment and are treated as such. Securities which qualify as tax transparent are notionally split into a debt instrument and a derivative instrument component. The debt instrument component follows the usual tax treatment either as note with

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

predominant one-time interest payment or as note with no predominant one-time interest payment as applicable. Capital gains arising from the derivative instrument component of transparent Securities are generally not subject to income tax in the hands of Swiss Resident Private Securityholders.

### *Swiss Resident Business Securityholders*

Gains realised on the sale of Securities, by Swiss resident individual Securityholders holding the Securities as part of their business assets as well as by Swiss resident legal entity Securityholders, are part of their business profit subject to individual income tax or corporate income taxes, respectively. The same applies to Swiss Resident Private Securityholders who qualify as so-called professional securities dealer ("*gewerbsmässiger Wertschriftenhändler*").

### *Non-Swiss Resident Securityholders*

Under present Swiss tax law, a Securityholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on gains realised on sale or redemption of the Securities.

### *Swiss Stamp Duties*

The issuance of the Securities is not subject to Swiss transfer stamp duty, except in case that the Securities qualify as units in a foreign collective investment scheme. In such a case, Swiss transfer stamp duty at the current rate of up to 0.3 per cent. may apply.

The subsequent sale or transfer of the Securities with a duration of more than one year may be subject to Swiss transfer stamp duty at the current rate of up to 0.3 per cent. if such sale or transfer is made by or through the intermediary of a Swiss or Liechtenstein bank or other securities dealer as defined in the Swiss Stamp Tax Act and no exemption applies. The same applies in case of physical delivery of the underlying being a taxable security in the meaning of the Swiss Stamp Tax Act at redemption.

### *Swiss Withholding Tax*

At present, payments by the Issuer of interest on, and repayment of principal of, the Securities, will not be subject to Swiss Withholding Tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

### *Automatic Exchange of Information in Tax Matters*

Switzerland has concluded a multilateral agreement with the European Union on the international automatic exchange of information (the "**AEOI**") in tax matters, which applies to all EU member states and some other jurisdictions. In addition, Switzerland has concluded the multilateral competent authority agreement on the automatic exchange of financial account information (the "**MCAA**"), and a number of bilateral AEOI agreements with other countries, most of them on the basis of the MCAA. Based on such agreements and the implementing laws of Switzerland, Switzerland collects and exchanges data in respect of financial assets, including, as the case may be, Securities, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in an EU member state or in another treaty state. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective can be found on the website of the State Secretariat for International Financial Matters (SIF).

### *Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act*

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of FATCA (the "**IGA**"). Under the U.S.-Switzerland IGA, financial institution acting out of Switzerland generally are directed to become participating foreign financial institutions ("**FFIs**"). The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland ("**DTA**"). On 20 September 2019, Switzerland and the U.S. ratified the 2009 protocol (the "**Protocol**") amending the DTA. With the subsequent exchange of the ratification instruments, the amended DTA entered into force, and provide for a mechanism for the exchange of information upon request in tax matters

between Switzerland and the United States, which is in line with international standards, and allows the United States to make group requests under FATCA concerning non-consenting U.S. accounts and non-consenting non-participating foreign financial institutions for periods from June 30, 2014. On 27 June 2024, Switzerland and the United States signed a new intergovernmental agreement to facilitate the implementation of FATCA (the "**new US-Switzerland IGA**") that will change the current direct notification-based regime that is in place under the current US-Switzerland IGA to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the US tax authorities. In Switzerland, the implementation of the new US-Switzerland IGA requires an amendment to national law, which will be decided by the Swiss Federal Assembly. According to communication from the State Secretariat for International Finance SIF, such amendment is currently expected to enter into force in Switzerland on 1 January 2028.

### Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "foreign financial institutions" ("**foreign passthru payments**") and (ii) dividend equivalent payments (as described below in "*U.S. Dividend Equivalent Withholding*"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Spain) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). The grandfathering date for (A) Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional Securities (as described under "*Terms and Conditions of the Securities— Condition 13 (Further Issues)*") that are not distinguishable from such previously issued grandfathered Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Securities, including the Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Securities. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Securities, no person will be required to pay additional amounts as a result of the withholding.

### U.S. Dividend Equivalent Withholding

Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") treats a "dividend equivalent" payment as a dividend from sources within the United States. Such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the U.S. Internal Revenue Service (the "**IRS**"). A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only a Security that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m)

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Regulations will be subject to the Section 871(m) withholding regime (making such Security a "**Specified Security**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Security or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Securities in respect of any dividend equivalent arising with respect to such Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Securities issued on or after 1 January 2017. If the terms of a Security are subject to a "significant modification" (as defined for U.S. tax purposes), the Security generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security might be treated as a Specified Security following such modification or further issuance.

In addition, payments on the Specified Securities may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The Applicable Transaction Terms will indicate whether the Issuer has determined that Securities are Specified Securities and will specify contact details for obtaining additional information regarding the application of Section 871(m) to Securities. If Securities are Specified Securities, a non-U.S. holder of the Securities should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain. In addition, investors that enter, or have entered, into other transactions in respect of an underlying reference asset that is a U.S. equity (or index that includes U.S. equities) could be subject to U.S. withholding tax if the investment in the relevant Securities and the other transactions combined replicate the economics of a transaction that would be subject the withholding tax under the Section 871(m) Regulations.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

13. In relation to this Programme, Banco Santander, S.A. acts in its capacity as Arranger of and a Dealer under the Programme. Prospective investors should note that Banco Santander, S.A. is also the Guarantor under the Programme.
14. There are no material contracts which could result in any member of the Banco Santander consolidated group of companies being under an obligation that is material to the Issuer's and/or the Guarantor's ability to meet its obligations to the Securityholders.
15. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer, the Guarantor and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Guarantor or their affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer or the Guarantor routinely hedge their credit exposure to the Issuer or the Guarantor consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Securities issued under the Programme. Any such short positions could adversely affect future trading prices of Securities issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
